The annual outing of St. Andrew's Sunday school was held yesterday to Idyl Wyld, and was attended by about two hundred persons. A most enjoyable time was spent on the decks of the new steamer Otonabee and at the popular resort on Rice Lake. The return to the city was made about 8.30 o'clock.

At Idyl Wyld several races were run off and the children had an exceedingly agreeable time.

Rev. J. G. Potter, Supt. W. Stevens Secretary F. E. Kerr and others, did all in their power to make the trip an enjoyable and memorable one.

Garbage By-law Is Supported

R. J. Todd Endorses Ald. Elliotts Suggestion for Raising Money

To the Editor of the Review

Sir,—Enquiry has been made as to why I do not reply to Alderman Elliott's letter on the garbage by-law, I presume because I opposed the by-law as it appeared in the press. Allow me to say, as, in my first letter, I have neither the desire nor the time, to take up civic affairs

After reading the prepared by-law I felt it my duty to point out what I considered a wrong method of raising the money, believing that a wise council would see the error when it was uncovered. To me it appeared that collecting the money as they had proposed would cost too much. Had I offered a suggestion as to how to go about raising the necessary funds, it would have been in the manner proposed in the letter by Alderman Elliott, with which I am quite pleased. My humble opinion is that he is on the right line. I might just say here, for the encouragement of our City Council, that I for one am convinced that we should have a garbage system adopted. And that it can be done without adding but very little cost, if any, to our present expense of keeping our yards clean.

Furthermore I believe if your aldermen will unite in framing a garbage by-law along the lines now proposed by Alderman Elliott, that the people will carry it when they have the opportunity. I don't mean to say Alderman Elliott has every point perfect, but with the aid of his co-workers they can give us a garbage system which will be satisfactory to the city as a whole. Let our city fathers lose sight of personal interest, and work for the benefit of the whole city, and there will be no kick against a garbage by-law.

Sincerely yours,

R. J. TODD.

Some Trouble Over Line Fence

Things are rather busy in police court circles these days. A special session is being held this afternoon before Magistrate Dumble. A County Court case is being tried by him, the County Magistrate being ill.

Robert Payne, of Dummer, was charged with carrying an offensive weapon on June 26th. Mr. G. W. Hatton is conducting the case for the complainant, Mr. F. D. Kerr appeared for the defendant, and pleaded not guilty. Mr. Taylor, the complainant, was first called. It appears that, from the evidence given, Taylor wanted to construct a fence along a certain line of property, which he claimed he owned. Mr. Payne's property and Mr. Taylor's adjoin each other, and Mr. Payne forbid him to put up the fence. It appears that on Wednesday, 26th, Mr. Payne had a gun with him during a conversation with Taylor, but here was no evidence to show he made any threats to use it. At the time of going to press the evidence for the prosecution was still being taken.

PERSONAL

Mr. R. B. Rogers and family went up to their cottage on Clear Lake today.

Mr. J. M. Thompson of the Bank of Ottawa staff, is holidaying in St. Marys.

Miss Irene Booth, Water street, is spending a few weeks in Sarnia and Detroit.

Miss Lizzie Beatty, of New York City, is home on a visit to her parents, east city.

Mrs G Winlow Nickels of Toronto is visiting her parents, Mr. and Mrs Z. Burnham, Otonabee.

Mrs. (Rev) J. G. Lewis left this afternoon for Picton, where she and her husband will reside in future.

Miss Ethel Rehill left today on a month's vacation, which she will spend at Mitchell and London, Ont.

Miss Annie Beatty, of Kingston, is home on a visit to her parents, Concession street, east city.

Rev. Dr. Crothers, wife and family, left this morning for their new home in St. Catharines.

Mr. R. N. Merritt of the Collegiate Institute staff, is spending his holidays at his home in Smithville, Ont.

Mr. R. D. Stewart, of this city is taking part in the amateur golf championships at the Lambton club grounds, Toronto.

Miss K. Hurley returned home last night, after a pleasant six months' visit with friends in Houston, Galveston and San Antonio, Texas.

Rev. S. D. Shorey, some years ago pastor of George street church and lately of Oshawa, is now in charge of the Methodist church, Cobourg.

Dr. MacNaughton, of the staff of physicians at the Mimico Asylum, and wife, spent the holiday with the doctor's sister, Mrs. Learmouth, Stewart street.

A Roseneath correspondent says;—Mrs. Harstone, of Peterborough, who has been visiting friends in this vicinity for the past two weeks, returned home on Saturday last.

Rev. J. G. Lewis, and family left yesterday for Picton, where Mr. Lewis will enter upon his duties as pastor of the Main Street Methodist church in that town on Sunday next.

Miss Hazel Craig, east city, left today for Oshawa, where she will visit friends for a week. She will also visit in Toronto and Buffalo before returning.

Rev. E. A. Pearson, late pastor of the Centennial Methodist church, Toronto, accompanied by his wife and family, arrived in the city today. Mr Pearson will occupy the pulpit of George street Methodist church for the first time on Sunday next.

Hastings Star;—Miss Cahill, of Peterborough, was the guest of her sister, Mrs. J. F. English, over Sunday......Mr. John Kerr spent the holiday in Peterborough......Mr. A. E. Micks, of Peterborough, spent the holiday in town.

Port Hope Guide; Mrs. Miller and niece Miss May Hanna, of Smithfield, called on Miss Wilson, Walton street, on Tuesday, en route to the Summer Bible School at Chemong Park...Mr. and Mrs. Lockington, Peterborough, spent the holiday with his brother, Mr. E. Lockington, Ontario street.

Lindsay Post; Miss J. Leffane, of Toronto, spent Sunday in Peterborough visiting her cousin, Sister St. Fergus, of Loretto Academy ...Miss Carrie Steele, nurse, of Nicholls hospital, Peterborough, visited Mrs J. B. Reid on Dominion Day... The Misses Mabel and Eva Tangney, of Peterborough, are visiting friends in town... Mr. G. E. Broderick, principal of Public schools, is in Peterborough.

Special Sermons at Park St. Church

During the month of July, Rev A. H. Brace, pastor of Park street Baptist church, will deliver a special course of sermons on most important topics. Each discourse will be only twenty minutes in length. The subjects are as follows;

July 7th, 11 a.m., subject, "The Glorious Twelfth—Rome's Policy and the Orangemen's Obligation." 7 p.m. "The Man for the Emergency." Ordinance of baptism to follow.

July 14th, 7 p.m., subject, "The Man Who Died at His Post."

July 21st, 7 p.m., subject, "Freedom's Heritage and the Union Jack a Choice Possession."

July 28th, 7 p.m., subject, "Flower Sunday," "The Foundling on the Doorstep and Adoption. Ordinance of baptism.

Applications Asked for Engineer For the Fire Hall and Road Roller

Fire, Water and Light Committee and Board of Works Aired Trouble Between Mr. Wainwright and Mr. Packenham—Duties of Engineer Will be More Clearly Defined.

The trouble between Foreman Packenham and Engineer Wainwright came to a head last night. A joint meeting of the Board of Works and Fire, Water and Light Committee was held and both sides were heard and practically all the little troubles were aired. The result is that the city is advertising for an engineer for the fire engine and road roller, to fill the vacancy caused by Mr Wainwright's resignation. It is expected, however, that he will put in an application, as the duties of the position will be clearly defined.

In opening the meeting, His Worship, the Mayor, who was in the chair, said that the meeting was called for the purpose of considering the resignation of Engineer Wainwright.

In speaking of the trouble, Ald. Johnston, chairman of the Fire, Water and Light Committee, said that it was evident that Mr. Wainwright did not want to do any work in connection with the fire hall, while he was doing road work. Personally, he had nothing against Wainwright, and he would willingly take him back if he and Mr. Packenham could be reconciled. He thought, as did also Ald. Wilson, that the committee should advertise for a new engineer.

Ald Duncan and Ald. Morgan maintained that when the engineer worked on the roads from seven o'clock in the morning until five at night, he was doing pretty nearly enough. Ald. Duncan added that he understood Mr. Wainwright's grievance was that he thought he had to report to Mr. Packenham every morning and noon what he was doing and where he was going.

Ald Johnston thought the trouble was on account of Mr. Wainwright being ordered to sleep at the fire hall.

The first thing the committees should do, said the mayor, was to decide whether the city was to have two engineers or one engineer, under the two departments.

Ald Johnston said that the one engineer for the two departments was as good as one could get. The Fire, Water and Light Committee pays the big end of the salary and they only ask him to sleep at the fire hall about three nights a week. All that is needed is for the men to be agreeable.

Ald. Morgan suggested that the engineer and the drivers be given bells in their houses, and that the foreman sleep in the fire hall sometimes also.

Foreman Packenham said that he was told in the mayor's office that he would not have to sleep in the hall and he would not have resigned his position if he had to sleep in the hall. Then he has 33 miles of wiring to go over and examine as well as to clean out 140 cells every day.

Ald Bradburn said that to separate the two positions meant to hire another engineer and he did not think that the city was prepared to pay $600 or $700 a year for a man to run a fire engine only.

Ald Johnston said that the only trouble was that the men were not agreeable. If they agreed there would be no trouble at all.

It is agreed that the present arrangement continue, said the mayor. The next thing is to define his duties. Is he to sleep in the fire hall? There are five paid men in the department. How many of them are to sleep in the hall? How much is the engineer to sleep there?

Ald. Johnston said he certainly thought that the engineer should sleep in the hall in turn with the two drivers, the same as he did in the old hall. He also thought that the new driver, Mr. Matchett, should sleep there part of the time also.

Ald Bradburn asked how it would be to have the three drivers take turns in sleeping at the hall, having two men there all the time, and Mr Wainwright and Mr. Packenham take turns in sleeping there.

Mr Packenham said he would not sleep at the fire hall and that was final. He also claimed that he had the right to put the drivers on the wagons. The chief had no authority over the wagons until they were moving.

The committee held the view that the minute the fire alarm sounded Chief Rutherford was in charge of the brigade and he appointed the drivers.

The mayor asked if it would be satisfactory if a motion was passed that either one of the Parnells be in the hall every night, and that either Mr. Matchett or the engineer sleep in the hall, and in case of absence of one of the men, the foreman shall stay there.

This was satisfactory and Ald. Wilson and Ald. Bradburn moved a motion to the above effect.

Mr. Samuel Wainwright was asked to explain why he quit the department and he said that he went in one day to clean engine after the test. The foreman was talking to him. The engineer asked why he did not get his raise of pay the same as the others. The foreman told him he had to obey him and until then he would not get his pay. He said that one thing he did not obey was that he did not get down to sweep the floor when Packenham told him to. The foreman also told him he was to sleep in the hall every other night. Foreman Packenham said he was Wainwright's boss and no one else. Mr. Wainwright asked Chairman Johnston what he was to do and he said whatever the foreman told him.

Mr. Wainwright also said it was pretty hard to work for three or four bosses. One told him to do one thing and another told him to do something else. The chief of the department told him to take the first rig out of the hall and Mr. Packenham told him he was to take the second. Mr. Packenham also said Wainwright was to get his permission before he went any place.

Mr. Packenham said he never used the word boss to any man, and he did not ask Wainwright to do anything that was not within reason.

Mr Harry Evans said that as far as he was concerned he always got along very satisfactorily with Mr. Wainwright and never had any trouble with him and neither did he have any trouble with Mr. Packenham.

Mr. Wainwright said that the reason the trouble came to a head so soon was that he was told by an outsider that Mr. Packenham said that if Wainwright did not look out he would lose his job altogether. When he heard that he thought he had better get out, before he was fired.

In considering the matter after the two men retired, it was suggested that the council advertise for an engineer, and if Mr. Wainwright cared to put in his application it would be alright.

Ald. Bradburn said that if Mr. Wainwright was willing to go to the fire hall and carry out the wishes of the committee he would like to retain him.

Mr. Evans said that the council could not better itself by getting another man. Mr. Wainwright was a good man on the road roller and sewer flushing and he was a good handy man in repairing machinery and saved the city considerable money in repairs.

Moved by Ald. Morgan that if Mr Wainwright undertakes to abide by the rules of the committee that he be taken back. There was no seconder.

Moved by Ald. Wilson and Ald. Johnston that the city advertise for an engineer for the fire hall and steam roller.—Carried.

Applications are to be in with the city clerk by five o'clock next Monday afternoon and the Committee of the Whole will meet that night.

COLONIAL WEAVING CO.

The Colonial Weaving Co.'s bylaw for a free site and a fixed assessment will soon be placed before the ratepayers to vote on.

Ald. McIntyre drew attention to the fact last night and asked why the council or the company were not advertising the matter. It will be brought up at the meeting of the committee of the whole next Monday night and he thought the citizens should be informed of the bylaw.

A Constable at Exhibition Park

Will Arrest Any Person Doing Damage to the Property

For some time past the boys of the south end have made a periodical raid upon the crystal palace in the Agricultural Park, the result of which is that nearly every pane of glass in the building is broken. This occurs every year and the society this year has decided to put a stop to it if at all possible. A special constable has been detailed to watch the crystal palace and to arrest any boy or boys who are found doing damage. These boys will be severely punished, and justly so, as it costs considerable to replace so many windows just for the purpose of making a target for the boys.

Will Declare Pulpit Vacant

Rev. Dr. Marsh Will Preach in St. Paul's Next Sunday

Rev. Dr. Marsh of Springville, interim moderator of session will preach at both services in St. Paul's church on Sunday next and will declare the pulpit vacant.

The services on Sunday, July 14th, will be conducted by Rev. H. C. Ross, late of Erie, Pa., Mr. Ross occupied the pulpit of St. Andrew's church a few Sundays ago. He is a forceful earnest and pleasing speaker.

CHARGED WITH SPEARING 'LUNGE

Three Young Men Allowed to go on Suspended Sentence

Fishery Inspector Watt certainly kept on the watch for any offenders who broke the fish laws prior to June 15th. This morning three young men were arraigned in the police court for spearing 'lunge on June 3rd. They were Percy Hartley, Jas Gorman and Frank Longdo. They pleaded not guilty.

Mr Watt was sworn. He stated that on Monday morning, June 3rd, he saw these three at Mead's Creek, which is just north of the locks. Several times reports had come to him of these persons having been seen spearing fish. The morning of June 3rd Longdo had a spear. He went up to them and caught Hartley and Longdo got away. Witness told Hartley that he was the one he was looking for. Hartley said, "You are mistaken," and then quickly ran away. Mr. Watt told them they could settle with him and he would not bring them to court. Witness said that they confessed and said they would pay the fine. After giving them some time to do it in, they never paid.

Jas. Gorman swore that they were sitting at the creek, and Longdo happened to see a spear in a bush. He went and got it. He denied ever having speared a fish or having said that Mr. Watt was working and there would be no danger of being caught.

P Hartley also denied ever having speared a fish, and stated that he was at the creek only twice this season.

Frank Longdo went into the box and gave his friends' story away. He admitted going there to spear 'lunge, but never got any. He denied ever owning a spear.

Two spears were confiscated. Mr. Dumble said he would have to make a conviction, but, it being their first offence, he would allow them to go on suspended sentence. The defendants promised to never break the law again. "If you appear again you will be severely punished," said His Worship.

Separate School Board Meeting

Reports Presented and Accounts Passed Last Night

The regular meeting of the Separate School Board was held last evening.

Those present were Mr. J Goselin, chairman, and Messrs. Lynch, Clancy, Carveth, Henry, Murty, Burns and Primeau.

The superintendent, Rev. Father McColl, was also present.

The minutes of the last meeting were read and confirmed.

ACCOUNTS

The following accounts were received and referred to the Finance Committee.

Kingan Hardware Co.	$ .73
L Mowry	2.00
Hall & Hayes	3.00
R J Soden	11.97

FINANCE REPORT

Mr. Lynch, chairman of the Finance Committee, reported, recommending payment of the following accounts...

J H Metherall	$ .25
Estate A McDonald	1.75
A H Stratton & Co	16.50
Kingan Hardware Co	7.80
Peterboro' F & C Co	208.71

On motion of Mr. Lynch, seconded by Mr. Clancy the report was adopted.

SCHOOL TAX

Moved by Mr. Clancy, seconded by Mr Henry, that the several municipalities be required to collect school tax for 1907, as follows;

Smith $5.
North Monaghan $80.
Douro $1.
Otonabee $34.

The motion was carried.

The board then adjourned.

HISTORICAL SOCIETY

Local Delegates Will Attend Annual Meeting in Kingston This Month.

A meeting of the Peterborough Historical Society will be held in Victoria Museum on Monday evening next, July 8th, at eight o'clock. General business will be taken up.

The annual meeting of the Ontario Historical Society will be held in Kingston on Thursday and Friday, July 18th and 19th. Col. H. C. Rogers of this city is the president of the society which will enjoy a trip to Adolphustown, the first settlement of the United Empire Loyalists in Canada. The Frontenac Historical Society is planning many interesting side trips for the visitors. It is expected that several from Peterborough will attend, among them being Col. Rogers, Mr. T. J. Wallace, secretary of the Peterborough Historical Society, Mr. J. H. Burnham, and Mr. J. D. Collins.

St. Catharines' Press on Visit of Local Regiment

The "Standard" and the "Star-Journal," St. Catharines' progressive daily papers, both contain excellent reports of the Dominion Day festivities in that city, in which the visit of the 57th Regiment, Peterborough Rangers, played such an important part.

The Standard says, in part;

"Although not characterized by ideal weather on Sunday, the visit of the 57th Peterborough Rangers was most successful and gratifying to all connected with it. The fine weather of Dominion Day and the royal way in which the visitors were entertained by the members of the local corps, made up any deficiency in the drawbacks occurring from the rain on Sunday.

"The 57th arrived in the city early on Sunday morning and marched from the Great Western G. T. R. station to the camp on the Armory parade grounds, where their tents had already been pitched by the advance party. Shortly after their arrival the rain began to fall in torrents and a general ducking resulted.

"Orders had been issued for a church parade of the 57th, the 19th and the 2nd Dragoons, in the park at 9:30 in the morning, but the rain annulled the ceremony so far as the park was concerned, and Saturday night orders were issued, cancelling the orders for the 2nd Dragoons to participate.

"The visiting regiment was nearly 400 strong. After the men had been properly quartered, they were taken to the hotels for breakfast, and returned without the least unnecessary delay to the armory and at once began preparations for the day's ceremonies. Although the rain fell without the slightest interruption the men went about their movements as though Old Sol were shining forth in all his splendor. There was no thought of postponement, nor was there a single voice heard in protest against the unruly elements. Everything appeared to breathe of good nature, and officers and men united in accomplishing by good spirits and a willing determination, what had been in a measure handicapped by the heavy rain. The citizens turned out in large numbers to welcome the visitors and all were made to feel at home.

STAR-JOURNAL.

The following is from the Star-Journal;

"The 40th anniversary of Canada's birthday as a united Dominion was celebrated in St. Catharines yesterday, in a manner that was worthy of the day, the Dominion and the Garden City of Canada. Canadians are not wont to enthuse over notable events in the history of their country. There is enough of the John Bull blood in their make-up to render them self-contained and to cause them to restrain their feelings on such occasions. But yesterday in St. Kitts it was different. The Dominion has made such wonderful strides along the highroad to prosperity, in late years, and has taken such an honored and honorable position among the nations of the earth, the outlook for the future is so bright with promise, that the people cannot but rejoice over the proud place to which they are heirs, and the Dominion's natal day was marked by an outburst of enthusiasm that was as spontaneous as it was deep and sincere. The day was a red letter one in the history of the city, and went to show that Canadians are animated by an intense and measureless love of country, and a deep and loyal devotion to the great empire, of their membership in which they are justly proud.

"The presence of the 57th Regiment did much to make the celebration a success. Both officers and men of that gallant corps could not but feel deeply gratified, if they knew the eagerness with which their coming was awaited. In the expectation that they would arrive at the Welland station at 4 a.m., a large number of citizens assembled there at that hour to greet them, and stood for an hour in the pouring rain. On receiving the information that the regiment would not arrive before eight o'clock, the crowd reluctantly dispersed.

"Shortly after seven, the special train, bearing the 57th, steamed into the station at Merritton, and the regiment detrained in record time. A long and tedious wait followed, while efforts were being made by the railway officials to secure a locomotive to bring the corps to the Welland station. Growing tired of the delay, Lieut.-Col. Miller took his men to the Western Hill Station whence the regiment marched to the city and went under canvas at the armories."

Khaki Clad Dragoons Are Camped at Exhibition Grounds

Squadron Leaves Tomorrow Morning for Young's Point Where They Will Camp for the Night—Some Interesting Information.

Many citizens visited the Exhibition Grounds last night to see the Dragoons, who were camped there. The streets were also filled with the khaki clad soldiers who gave quite a military air to the city.

The detachment of Dragoons arrived in Peterborough yesterday afternoon about two o'clock and camped at the Exhibition Grounds. They marched from Bailieboro yesterday having come there the day previous from Port Hope. There are about eighty men and seventy-five horses in the squadron and they left Toronto last Thursday morning. They expect to reach Petewawa about July 15th, and will remain in training there for six weeks. The route march is being conducted under exactly the same conditions as if the men were on active service. They have with them their tents, cooking utensils and all things necessary to enable them to camp each night. The place where they camp is left to the discretion of the officer in charge, who in turn is held responsible to the authorities at headquarters for the due performance of his duty. Tents, regulation military type are carried, and they are put up every night. Five transport waggons are required to carry the baggage and in addition to these a Red Cross ambulance is part of the equipment. Four and five men ride on each waggon and the remainder ride in the saddle. The horses were picketed last night in the sheds at the Exhibition Grounds which make a splendid camping spot, there being plenty of water on the grounds and everything else is convenient. Officers and men were well pleased with the location. The horses were in fine shape at Peterborough, and there had been no sickness or accidents among the men since leaving Toronto on Thursday.

The detachment of Royal Canadian Dragoons that are making the long march is in charge of Capt. C. T. Van Straubenzee and the other officers are as follows,—Capt. Douglas Young, Lieuts. F. Gilman, W. H. Bell and G. R. MacBrien, Medical Officer, Major J. T. Clarke; Veterinary Surgeon, Vet. Lieut. F. W. Burke.

The experience gained by Captain Van Straubenzee in the South African war in 1899-00 is of immense value to him in making the long march. He already bears an exceedingly good record, his South African medal having no less than five clasps, so he may safely be trusted to carry out the arduous duty thoroughly. Captain Van Straubenzee has the advantage of the services of Sergt.-Major J. Widgery, W. O., who like himself served in South Africa, besides having gained previous experience in the Northwest expedition of 1885.

The squadron leaves here tomorrow morning at an early hour for Young's Point, where they camp tomorrow night. From there, they will follow the same route of march as the battery, which passed through here a couple of weeks ago. This is the first long stop that the detachment has had since leaving Toronto and they will no doubt, be greatly refreshed by their rest.

The majority of the soldiers came up town last night and saw the sights. They were a jolly lot of fellows and behaved themselves in a model manner.

Is Tuberculosis Among Cattle Same as Human Tuberculosis?

Interesting Letter From Mr. Rennie on This Subject—Farmers Should Not Keep Cows With it—How to Discover the Disease and How to Prevent it.

To the Editor of the Review.

Sir,—The last issue of the Canadian Dairyman contains the new rules laid down for the milk producers of Montreal. One rules states that each cow must be tested for tuberculosis (consumption), and if found diseased must be removed from the herd. This causes us to ask, "Is tuberculosis transmissible from cow to man?" In answering this question "doctors differ."

It is known that if the human tuberculous organism and the bovine tuberculous organism are grown on artificially prepared food they appear to be the same. Their appearance through the *microscope* is the same, but no experiments have been tried to prove whether or not the bovine organism will cause tuberculosis in the human system. It has been proven that the human organism will, if injected into the blood vessels, cause tuberculosis in a young calf. It is believed by some authorities that because the tuberculous organism has grown so long under the bovine or the human conditions, that it can not be transferred from one to the other.

Which cows have tuberculosis? To find this out one has to use tuberculin, which can be got from the Bacteriological Department of the Ontario Agricultural College, Guelph. The temperature of the animal is taken two or three times during the 24 hours before the injection of the tuberculin. If the temperature rises more than one and one-half degrees during the 24 hours after the injecting of the tuberculin, one can be reasonably sure that tuberculosis is present. If it is found, the cow should be removed from the herd and her milk kept separate. But is the tuberculous organism found in milk? So far as I can learn it has not been found, except where the animal was suffering from tuberculosis of the udder.

At the present time when the herd of cows is likely to be increased, the farmer needs excellent ventilation to provide fresh air enough to keep his cows in good health. Fresh air and sunshine will check any germ disease, and should be supplied abundantly. Good ventilation should be on the "improvement list," of every keeper of dairy cows.

Yours, &c.,
T. H. BINNIE,

THE OFFICE BOY.

He rose at dawn and viewed the sky
And cried, "It must not rain today!"
His heart with hope was beating high.
"I'm sure," he said, "that they will play!"

He swept the office clean and neat;
He dusted high, he dusted low.
His thoughts were on a bleacher seat.
He hoped the boss would let him go.

"And how's your grandma's health today?"
The smiling boss inquired of him,
Then added in his merry way,
"Suppose we go together, Jim?"

Marjory (reflectively, watching her kittens)—Eat some flies.—Sketch.

Feats of Memory.

It was universally acknowledged that Mr. Gladstone's memory was prodigious, but there was a certain lord chief justice of England who thought the statesman's memory of his feats of memory more prodigious still.

On one occasion after listening to what seemed to him a "tall story" of some happening of the great man's early years the lord chief justice determined to go him one better.

So he said that he remembered when he was only six months old, and, lying in his cradle, he saw his nurse surreptitiously help herself to a glass of brandy and said to himself:

"As soon as I can speak shan't I tell my mother!"

"The thing is absolutely impossible," was Mr. Gladstone's comment in his gravest tone.

The lord chief justice said afterward that he had been beaten because he had reckoned on Mr. Gladstone's having a gleam of humor.

"I was mistaken," he said sadly.

It is rumored that Mr. Jas. Ross has secured control of the Dominion Steel common stock.

Banking by Mail

NOT an Experiment

Seven years ago Banking by Mail was an *experiment*, but to-day it is like the telephone or the railway train—a perfected fact.

Not everyone, however, knows of the advantages of Banking by Mail, because it has not been brought sufficiently to their attention.

People saving even in the smallest way, who have heretofore been drawing only 3 per cent. interest on their money, are enabled through Banking by Mail to secure the benefit of 4 per cent., compounded quarterly, and at the same time have equal security for their money.

4% Compounded Quarterly

Its paid-up Capital and Reserve of $2,900,000 places the Union Trust Company in the front rank among Canada's strongest financial institutions, and is a guarantee of absolute security to depositors.

Our booklet F sent free on request, gives full information on Banking by Mail at 4 per cent. interest. Write for it to-day.

The Daily Review

THURSDAY, JULY 4, 1907

TWO CENT FARE

The two cent fare has gone into effect in some eleven or twelve states across the border and the railways are mapping out a campaign of retaliation. They do not intend to quietly surrender. In some cases they have decided to abolish cheap trips, single fare return, commutation tickets, mileage books, etc. and charge two cents straight.

It is claimed by some that in the aggregate the people will pay more than they have under past arrangements and concessions, but the accuracy of this statement may be doubted.

In Illinois, in opposition to the States cheap fare policy, the railways have adopted a novel scheme of getting even. It is said that the officials of the various roads affected by the law have agreed to submit to the new rate for several months, and then carry the law into the courts, with a showing of deficit should there be any, that will support a plea that the two cent. rate is a loss to the roads. Every cloud has its silver lining and there is a grain of comfort in the Illinois law to the railroads as it gives the companies the right to charge at a three cent rate where passengers have neglected to purchase tickets at stations that are open for the sale of tickets at least half an hour before train time.

Some railway men and companies argue, "Do you not think if two cents a mile would create more passenger traffic and consequently more revenue that the roads would long ago have instituted such a schedule of rates. The answer is—they might and again they might not, but, under present circumstances, they are being compelled in many states to inaugurate lower fares. The two cent. mileage proposition is gaining ground. The agitation is growing stronger. The unlimited use and frequent abuse of the pass system is being stamped out, and the day is not far distant when all will be treated alike—the rich and the poor, the frequent traveller and the occasional one, the wealthy manufacturer and the ordinary business man.

In connection with the post office system, everybody pays, except the members of parliament and a few others who enjoy the franking privilege. It is the same with reference to express, telephoning, telegraphing, etc., with a very few exceptions, and why should not the same principle and rules govern those who use the railways. It is said that the railways today do not average more than two cents a mile for each passenger carried, as so many are hauled from place to place for nothing or at a very low rate. It would apparently be a wise proceeding to make all fares alike, and abolish special privileges, free transportation, etc. It should be an indirect blessing to the great mass of people who travel occasionally, and then at single fare return—An indirect blessing! Why? Because when taking advantage of single return rates the trains are generally crowded to their utmost capacity, are several hours late and the passenger more than pays for the reduced fare in inconvenience, delay, loss of temper and general discomfort. If the rate were two cents a mile each way—it would be only one cent more than the single return fare at holiday time—the traveller could go when he or she pleased, would not be restricted to two or three days' time limit, and have to put up with such accommodation and detentions, particularly at these crush periods which are an abomination to the flesh and an aggravation of the spirit.

COMPENSATION ACT

Six million servants and workers in the United Kingdom, hitherto excluded from compensation for injuries received in course of their employment, entered into the benefits of the Workmen's Compensation Act. That act as now amended includes every person who has entered into a contract of service or apprenticeship with an employer, whether manual, clerical or otherwise, and whether the contract is in writing or only a verbal understanding. Among the classes that benefit are domestic servants, public and private schoolmasters, professional footballers and cricketers, messengers, clerks earning less than $1,250 curates, organists, vergers, gravediggers, choir boys, nurses, governesses and actors. Indeed, the only persons excepted are employees other than manual, whose salaries exceed $1,250 a year, out-workers or those doing work in their own homes, policemen, naval and military forces and an employer's own family residing in his house.

The sums payable as compensation are; for fatal injury, three years' wages, minimum $750, maxiumum $1,500. During total disablement, half wages, not exceeding $5 a week) payable after the first week and from the date of the accident where disablement lasts over fourteen days. The payment is not restricted and may last for the whole term of the injured person's life. Full wages up to $2.50 a week must be paid if the servant is under 21 years of age and earning less than $5 a week. Nor does the obligation cease with the death of the employer, but remains a charge against his estate. Such are the main features of this remarkable extension of the previous Compensation Act secured through the political influence of the British Labor party. It has brought great grist to the insurance companies, who are covering all kinds of liability under the act, including that arising from the casual employment of charwomen, jobbing gardeners, chimney sweeps and other temporary employees.

PEN POINTS.

Where are you going for your holidays?

Good afternoon. How do you like the Thursday half-holiday?

Has the sanitary inspector been around to inspect your premises yet?

The people are still waiting patiently for the publication of the milk tests, but, like the formal opening of the new fire hall, it will come along some day.

There are said to be very few flies this year owing to the cold backward spring. That's not the cause at all. Corney Burns of the Peterborough Baseball Club has captured them all so far this season.

Take your holidays when you can get them. Do not wait until you think the time and occasion would exactly suit your convenience. It might not suit the convenience of others just then, and very possibly you might not be able to get away.

Belleville's fire hall was burned down the other day, and unless the friction among certain parties identified with the Peterborough fire department is perceptibly lessened there is danger of spontaneous combustion among the members.

If there are any other suggestions of names to fill the vacancies in Sir Wilfrid Laurier's cabinet now is the time for certain Grit journalists to make them. The people may take certain proposals seriously during the sultry weather, when genuine bona fide sensations are usually at a premium.

How would you like to be across the border today to hear some of the fourth of July spread eagleism? But never mind. Tomorrow you may read in the daily press the long chapter of fatalities created by the explosive patriotism and incidentally the dynamite, fire crackers, etc.—of our exuberant neighbors.

A correspondent says "school is over and everybody is happy." Oh, no! There is a summer school at Chemong, one at St. Peter's new building, and also the hard, bitter school of daily experience, especially when rusticating at some strange watering place, and you are taxed triple what a service is worth, every time you change your view or shift you seat.

What is the matter that the mayor and members of the city council were not extended an official invitation to the opening of the lift lock at Kirkfield. A general invitation to a function like this is a sort of fiddler's bid—you can either accept it or leave it alone, and the civic fathers as a body have decided not to touch it. This is regrettable, for what kind of an official opening can there be, without the august and imposing presence of some of Peterborough's civic solons?

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Budget of News From Chemong

Eight New Cottages Have Been Added to the Park This Year.

Chemong, July 4.—The season at the park never opened so early as this year. This delightful resort is now looking its brightest and best.

Chemong is very lively at present and the hotel is crowded to the doors with delegates to the Summer School. About sixty are registered at the hotel and as many more are staying with friends, or are camped on the grounds.

Mr. and Mrs. R. H. Williams of Toronto, were the guests of Mr. and Mrs. W. J. Hopwood over the holiday.

Mrs. Mills, son and daughter, from Chicago, are the guests of Mrs. Ostrom.

Mr. Long's cottage is nearing completion.

Mr. Wm Langford has his cottage started and it will be one of the prettiest in the Park.

Mr. A. A. Hollingshead is building an up-to-date cottage, which makes eight new cottages added to the Park this season.

Many Friends Saw Them Off

At the prayer meeting in George Street Methodist Church last evening there was a good attendance. Mr. D. W. Dumble presided and at the close, Rev. Dr. Crothers, the retiring pastor of the church, spoke a few farewell words, and bid all those present, goodbye. This morning at 7.20 o'clock, Rev. Dr. Crothers, his wife and three daughters, left by the G.T.R. for their new home in St. Catharines. The following members of the congregation were at the station to bid them God-speed, — Mrs. (Rev.) A. R. Campbell, Mrs. Frank Mason, Mrs. A. W. Cressman, Miss Mary Elliott, Miss Mason, Messrs. Wm Yelland, D. W. Dumble, R. J. Winch, S. R. Armstrong, Felix Brownscombe, Benj. Shortly, A. W. Cressman, and others.

COW TESTING ASSOCIATIONS

Are Doing Good Work in This District—Reports for June

The following is the result of the Cow Testing Associations in this district for the month of June;—

SHEARER

Highest milk yield, 1,310 lbs., testing 4 per cent.

Lowest milk yield, 410 lbs., testing 2.7 per cent.

Highest test, 4.6 per cent, from 756 lbs milk.

Lowest test, 2 per cent, from 875 lbs. milk.

Highest yield of butter fat, 52.4, from 1,310 lbs. milk.

Lowest yield of butter fat, 11.88, from 440 lbs. milk.

PINE GROVE.

Mr. Little's cow leads in the milk yield, test and yield of butter fat, giving 1,330 lbs. milk, testing 5.5 per cent, and yielding 73.15 lbs. butter fat.

Lowest milk yield, 400 lbs., testing 3.5 per cent.

Lowest test, 2.3, from 530 lbs. of milk.

Lowest yield of butter fat, 11 12 lbs from 445 lbs. milk.

Missionary Day at Summer School

Noted Speakers Present—Many From Peterboro' Attending —Other Notes

Special to the Review.

Chemong Park, July 4.—The third day of the Summer School has opened clear and bright. We have been favored with grand weather so far and another good day is anticipated.

This is to be our big missionary day with three sessions of the school and addresses by Rev. Dr. Adams, of China; Rev. Dr. Crummy, formerly of Japan, and Rev. Dr. Bishop, of Lindsay.

A large attendance is hoped for at the mass meeting tonight, when the latter two gentlemen deliver addresses.

Yesterday afternoon was spent in recreation. Some spent the time on the water, some in strolling about the park, or taking longer walks about the country, while others were seen in groups discussing points of interest regarding the work. Autograph hunters were also busy and not many of the members failed to write their names at least half a hundred times.

MASS MEETING.

There was a splendid mass meeting last night, about two hundred being in attendance.

Rev Dr. Henderson, of Port Hope and Rev. Robt. Emberson, of Japan were the speakers. A bus load from Peterborough swelled the numbers, and spent a happy hour after the meeting, before returning.

The tenting parties had a merry time last night. In fact those who are quartered in the house itself are wondering when the members of "Camp Chatter" take their sleep. Judging by the singing and laughter, it is a safe venture that no one is guilty of slumber before midnight or after 5 a.m.

ARE COMFORTABLE.

As before, Mr. Brown is everywhere attending to the comfort of his guests, and he is certainly proving himself a worthy host. The guests are loud in their praise of the service, for although the house is filled beyond its capacity, all are comfortable.

There were many new arrivals yesterday and still more are expected throughout the day. Visitors are welcomed although they may not be able to remain longer than a day.

Four Companies Were Inspected

Col. Hemming Praised Work of Local Soldiers

Companies Nos. 1, 2, 3 and 4 of the 57th Regiment, comprising the right half of the battalion, were inspected last night by Lieut.-Col. Hemming, acting chief of staff for military district No. 3. Each of the companies had a full turn out and presented a highly creditable appearance. They were put through company drill and afterwards the non-com. in charge of each section took his men out and put them through different exercises, all of which they performed in a manner that brought forth words of praise from the inspecting officer. The four companies were warmly commended by Col. Hemming on their proficiency in their drill, and on their neat, soldierly appearance. He was greatly pleased with the way they drilled and carried themselves and officers and men were alike congratulated.

No 1 Company was in command of Capt. Cluxton, No. 2 Capt. Watt, No 3 Capt. Mills and No. 4 Capt. Hounsell, all of whom deserve credit for the way they have handled their men during the season.

Companies Nos. 5, 6, 7 and 8 will be inspected tonight and regimental inspection will take place tomorrow night.

STOP THE FIRES

To the Editor of the Review.

Sir.—I see by the Review of yesterday that you got a taste of what others have been complaining of right along. When one rubbish fire by a selfish and imposing neighbor, caused your employees so much discomfort, you will be able to form some notion of what many others are suffering every day, where, in some cases, there is not only one fire, but often as many as four or five and even six, in the one day, burning all sorts of rubbish, such as fish, flesh, fur and other commodities too numerous and filthy to mention. We pride ourselves in being a city, but I venture to say that there is not a village or country town in this province, where such unmitigated nuisances would be tolerated in broad daylight and right under the noses of our large police force, whom we pay out of our taxes every year that they may protect our citizens from imposition and enforce the laws passed for their benefit.

Yours truly,
A DAILY SUFFERER.
Peterborough, July 4.

JOINT INSTALLATION ON MONDAY EVENING

There will be a joint installation of the newly elected officers of Peterborough Lodge, No. 111, and Otonabee Lodge, No. 13, I.O.O.F., in the Oddfellows Hall, on Monday evening. It is expected that there will be a large attendance of local and visiting brethren. Bro. Wm. Hill, D.D.G.M., will be the installing officer, assisted by members of the district committee.

CHEMONG YACHT CLUB

Annual Meeting Will be Held on Saturday Night Next,

The annual meeting of the Chemong Yacht Club will be held on Saturday evening next, July 6th, at the club house. It is expected that there will be a large attendance, as business of importance is to come up, and plans for the coming season discussed.

WEDDING BELLS

ROSS—BALFOUR

A pretty wedding took place at "Sunset Hill," near Omemee, yesterday afternoon, when Miss Maud Balfour, second daughter of Mrs. Balfour, and of the late David Balfour was united in marriage to Mr. A. A. Ross, of Winnipeg. The ceremony took place at three o'clock and was performed by Rev. Robt. McCulloch, of Omemee, in the presence of a number of relatives and friends. The bride was attended by her sister, Miss A. Balfour, while the groom was supported by his brother, Mr. George Ross, of Winnipeg. The bride was given away by her brother, Mr. Wm. Balfour, and the wedding march was played by her sister, Miss Carrie Balfour.

After the ceremony a dainty wedding repast was partaken of, the catering being done by T. H. Hooper of Peterborough. Hearty congratulations were tendered the bride and groom, after which they left on the evening train for Toronto and other points west. After the honeymoon trip they will reside in Winnipeg.

The bride received many handsome presents.

Among the guests from a distance were Miss Vance, of Detroit; Miss Perloe, of Oshawa, and Mrs. Lloyd Wood, of Toronto.

COOK—GRANDY

The marriage of Miss Maude Grandy, daughter of Mr. and Mrs. S. Grandy, of Omemee, to Dr. W. J. Cook took place in Omemee, at the home of of the bride's parents on Wednesday afternoon, June 26th.

The ceremony was performed by Rev. Mr McCullough, Methodist minister, of Omemee, assisted by Rev. Wm. Cook, father of the groom. The bride was given away by her father and was attended by her sister, Miss Gertrude Grandy of Omemee and her cousin, Miss Alberta Thexton of Millbrook, Mr. Ben Miller of Toronto, was best man, and Master Timothy Eaton, son of Mr. and Mrs. J. C. Eaton, Toronto, acted as ringbearer. The bride wore a lace gown trimmed with seed pearls over silk, and carried white roses. She also wore a diamond and pearl sunburst which was the gift of the groom. The bridesmaids were attired in white and carried pink roses.

The groom's gift to the bridesmaids were gold necklaces set with pearls. The wedding march was played by Mr. Will Staples of Toronto. Mrs. J. C. Eaton of Toronto, sang "O Perfect Love," after the ceremony was over.

A reception was held, after which Dr. and Mrs. Cook left on a trip to Montreal, Thousand Islands, and other points east. Guests were present from Toronto, Rochester, St. John, N.B., Peterborough, Lindsay, Millbrook and Belleville.

After their return Dr. and Mrs. Cook will reside at Sturgeon Falls.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Many Visitors In Keene Village

Keene, July 3.—Mr. Orman Weir is spending his holidays in Keene.

Mrs. Best and Mrs. Finlay are visiting Mrs. Wm. Carter.

Mr. Wm. Fleux, of Westwood, was in Keene on Monday.

Mr Samuel Mathers is visiting in the village.

Mrs. Stubbs, of Bracebridge, is the guest of her father, Mr. J. H. Scriver of the village.

Mr. Harry Smith is spending his holidays in Keene.

Mr. Chris Argue left for his home at Janetville on Tuesday.

Mr James Campbell spent a couple of days in Toronto last week.

Miss Bessie Read is visiting friends in Keene.

Mr. and Mrs. Robert Humphries spent the week end with relatives in Belleville.

Mr. David Easson spent Dominion Day in the village.

Eighteen candidates tried the Public school exams, four of whom were from Keene.

Mr. James Dickson, jr. caught a twenty pound lunge near Sugar Island on Dominion Day.

The local football team were defeated 3—0 by Warkworth at Warkworth last Friday.

Mr and Mrs. Harry Cruikshanks, Toronto, visited at Mr. W. Campbell's last week.

Miss Kathleen Powell visited in Peterborough last week.

The many friends of Mr. Roy Taylor, who has been home with an injured foot, and has been unable to walk without crutches owing to an injury received while working in Hamilton, will be pleased to learn that he is on a fair road to recovery.

Mr. Stanley Mathers is visiting friends in this vicinity.

The Epworth League held a very enjoyable social in the skating rink Monday evening. The Army band supplied music, which was highly appreciated. Ice cream and strawberries were served to all present. The proceeds amounted to about ninety dollars.

Keene fair will be held this year on Wednesday and Thursday, October 2nd and 3rd.

Mrs. W. J. Mein and Master Gordon Nein, Peterborough, visited at Mrs. A. Campbell's last week.

Mr. F. M. Dean of the local branch of the Bank of Toronto, left Saturday for the "Soo" where he will spend his holidays.

Mr. James Kempt and Mr. Ed. Cronck, Toronto, spent Dominion Day in Keene, the guests of Mr. W. Kempt.

Mrs. A. Campbell left Tuesday for Edmonton, Alta., to visit her daughter, Mrs. T. J. Miller.

Mr. William Renwick, who has been visiting his father, Mr. Z. Renwick, left last week for his home in Dakota.

W. V. Smith was sentenced at St. Thomas on Tuesday to six months for robbing Donald Campbell.

Dr. R. Bennetto, of Palmerston, has been appointed to the medical staff, of the Guelph General Hospital.

KEENE PUBLIC SCHOOL EXAMS

Those Who Passed at the Recent Written Tests

The following is a report of examinations held in Keene Public School. Some of the pupils did great honor to themselves, while others did not do quite so well. The names are in order of merit;

Fifth Class. —Susie Moore, Katie Wallace, Willie Drummond, Edna Howson, Katie Skinner, E. R. Taylor and Fred Pue.

Jr. IV. to Senior IV. — Maggie Wallace, honors; Harry Taylor, Lizzie MacFarlane, Irene Doris, Lillie Wedlock, Fred Moore. Recommended for promotion.— Roland Weir.

Senior III. to Junior IV.— Clara Hore, Mary Moore, Hazel McFee, Stella Scriver, Etta Webb, Lillie MacFarlane. Recommended for promotion.— Anderson Graham and Willie Stewart.

Junior III. to Senior III.—Alphonsus Bolin, honors; Hugh McFee, Hugh Renwick, Beatrice Scriver, Joe McCarthy. Recommended for promotion.—Max McNeil.

Sr. II. to Jr. III. Recommended for promotion. — Bella MacFarlane, Hattie Cummings, Lola Kempt, Mary Foley, Mary Connell, Irwin Wedlock, Archie Kempt, James Cummings, Myles Foley.

Jr. II. to Sr. II.—Mabel Hore, Davy Kempt, Vera McNeil, John Wedlock, Harold Roach, Amy McFarlane.

The wooden steamer Carthagena is a wreck off Branch Shelburne, 100 miles west of Halifax.

George Tutten, of Calgary, the 9-year-old son of George Tutten, was drowned in the Bow River on Tuesday.

BASEBALL

IN OUR OPINION!

List to the sireen voice of the Port Hope Guide;

"Rosevear, in our opinion, umpired a very square game and the criticism from the Examiner is quite uncalled for. Quinlan kicked for strikes when the ball was two feet too high, and because it was not granted he was sore. It is time the Peterborough press would stop upholding him in such work."

The Guide man should not forget that occasionally there come into the world one or two persons who know a little about baseball. That "In our opinion" phrase, does not sound well.

MIDLAND LEAGUE STANDING

The following is the standing of the clubs in the Midland League.

	Won	Lost	P.C.
Port Hope...	5	1	.833
Cobourg...	4	2	.600
Peterborough	2	3	.400
Oshawa...	1	6	.142

Port Hope plays a league game in Peterborough on Saturday and Oshawa goes to Cobourg. baseball

PRACTICE TONIGHT.

The baseball team will work out at Riverside Park tonight and every man will be out in uniform. There is only one thing in the world that the boys would like to do better than fall heir to a fortune and that is to beat Port Hope on Saturday afternoon.

The greatest rivalry exists between the two teams and the locals are anxious to get back at the southerners for last Saturday's defeat and can be expected to play the game of their lives. It will be a great game and Peterborough must win.

LAWN BOWLING

The games played yesterday were,—

H. Mules	W. O'Brien
A. Belleghem	Davey
R. Westcott	J. Packenham
D. H. Moore, 17.	J. Cunningham, 15.
Will Pratt	Dr. McKercher
A. R. Kidd	W. Atcheson
Dr. Holloway	W. Dayman
J. McIntyre, 10.	D. Belleghem, 16.

POINTERS ON GAS STOVES.

How to Avoid Unpleasant Odors When Cooking.

For the woman whose troubles arise from the odor of cooking the remedy lies in having a small pipe between the range and the chimney to carry off the odorous gases. A large bowl of water placed near will also help to prevent odors of cooking penetrating the house.

If there is a constant smell of burning when cooking is going on, examine the burners. They are probably filled with sediment from "boil overs" of yesterday.

The smell of gas when a rubber tube is used (no leak being apparent) is usually caused by the tube itself having become saturated with gas. New tubing is the only remedy.

When having the gas range put in be sure to see that the supply pipe is large enough to allow sufficient gas to enable all the burners to be used at the same time. This is very necessary. It is annoying to discover you can't boil two kettles when the oven is in use. See also that the oven is large and commodious and that there is plenty of room on the top for boiling, frying, etc. It is poor economy to use a gas range that is too small, says the Philadelphia Press.

WOMEN WHO DO THINGS.

Miss Mary A. Stubbs of Indianapolis was appointed head of the Indiana state bureau of statistics some time ago.

The only woman ever elected in office in Texas by the qualified votes of a general election is Miss Zena Dalrymple, who was elected county and district clerk.

To have discovered more stars than any one else in the world is the reputation of Miss Dorothea Klumpke, an American girl astronomer, who won renown for herself at Paris.

Miss Marianne Farningham is probably the oldest woman journalist in England. She joined the staff of the Christian World at its birth in 1857, wrote for the first number, has written for the latest and for practically every number in between.

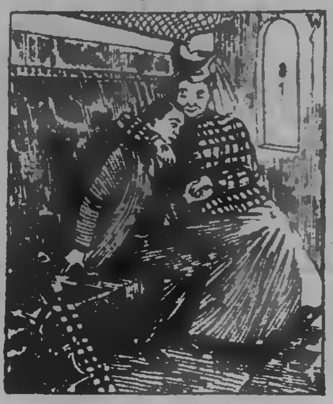
One He'd Missed.

Borrowby—Let's see. Do I owe you anything?

Morrowby—Not a cent, my boy. Going round paying your little debts?

Borrowby—No. I was going round seeing if I had overlooked anybody. Lend me five till Saturday, will you?—Lippincott's Magazine.

Cornered.



She—And is my Percy quite happy?

He—Certainly, pet. I wouldn't dare to be anything else.—Sketch.

Shrewd Barber.

"That barber seems to be doing a great business."

"Yes; he has invented a hair tonic that smells exactly like gasoline."

"Why, I don't see the idea!"

"Don't you see? His patrons acquire an odor which enables them to give the impression that they own automobiles."—Philadelphia Press.

HINTS FOR HOUSEWIVES.

Good Things to Know In Cases of Emergency.

To remove a porous plaster quickly and painlessly use an application of alcohol.

To cleanse linoleum first wash in cold tea, then polish with linseed oil.

To slip the rod of a freshly starched curtain into place dampen the hem.

In sewing on buttons put a pin across the top and allow the thread to pass over it each time, after which remove the pin, pull the button toward you and wind the thread under it a few times, then end the thread.

To remove shine from black cloth rub with a piece of flannel dipped in turpentine.

If cooked meat is ready for the table before it is required, place in a dish and set over a pan of boiling water placed on the back of the range and cover with a cloth. The steam will keep the meat hot without drying it or drawing the juices out.

A white kitchen floor is obtained only by the use of cold water and soap. Hot water and washing powders tend to yellow the boards.

Rubber corset laces used in place of tape or elastic in boy's blouses are much cheaper and stronger than the common elastic.

Rub stain on hands made from vegetables with tomato. If out of season, use a little canned tomato. This is better than lemon.

The tender leaves and small ends of celery should never be thrown away. If dried they are found excellent for flavoring soups.

In making a meringue for pie if powdered sugar is used in place of granulated the meringue will not be watery.

ON HOME NURSING.

Cleanliness and Pure Air of Prime Importance to Invalids.

The first rule in nursing, the first essential to the patient, without which all else you do is as nothing, is to keep the air he breathes as pure as the external air without chilling him.

Always have the window of your patient's room open, but not a window on a passage just outside.

The best bedding is an iron bedstead, a hair mattress, no curtains or valance, very light blankets for a covering, as weak patients are always distressed by weight of bedclothes.

Cleanliness of the skin in almost all diseases is of the utmost importance.

Care should be taken in sponging or washing not to expose too great a surface at once so as to check perspiration.

Never allow a patient to be waked out of sleep either intentionally or accidentally, as this does serious harm.

Do not whisper or walk on tiptoe, as this is peculiarly painful to the sick.

Remember never to lean against, sit upon, shake or even touch the bed upon which your patient lies. This is always an annoyance.

Do not talk to your patient while he is taking his meal.

LITTLE KITCHEN HELPS.

Orange marmalade makes a very tasty accompaniment for boiled ham.

Add a teaspoonful of curry powder to the cream sauce in which macaroni is baked.

Stew a pound of prunes with pot roast and note the fine flavor imparted to the meat.

Good macaroni is of yellowish tint, does not break readily in cooking and swells to two or three times its bulk.

Bananas should not be put into a refrigerator—in fact, they should never be allowed to get colder than 40 degrees. A chill turns bananas black, prevents their ever ripening properly and renders them unfit for use.

Stains on enameled ware can be removed thus: Fill the pan or bowl with water and add to it a piece of potash. Let this remain standing for a little while, then pour the water away and wash the vessel, when the stains will disappear.

Fashions In the Clouds.

As ladies are among the most enthusiastic devotees of the new pursuit of ballooning, it is interesting to learn that fashions obtain even soaring in the clouds.

One is informed that lady balloonists' dresses should be made of gaberdine, slimber or loden cloth; that the fashionable color is green and that the coat, which is lined with fleece or silk, should be short, with two breast pockets, two cross pockets and two hand rests for keeping the hands warm.

The skirt is adjustable—that is, can be drawn up or let down by cords. A ballooning cap, a slip-on waterproof, Canadian mitts and dark brown boots complete the outfit.

Darning Table Linen.

To darn table damask use a raveling from the cloth. If there is an actual hole, put under it a piece of the same damask, matching the pattern to a thread. Then darn backward and forward with the raveling. If the work is done right, the patch will not show after laundering except by careful scrutiny. In the past skill in such needlecraft was considered a necessary accomplishment for the "finished young lady."

Veal Fricadellen.

Chop finely some cold veal and a little cooked ham, mix with it a few breadcrumbs, a little lemon peel and season with pepper, salt, mace and a small quantity of chopped parsley.

Moisten with milk and then form into little balls. Dip in egg, roll in breadcrumbs and fry till brown.

Heat a little gravy saved from joint, pour around balls and serve garnished with parsley and lemon.

The first of the C.P.R. trans-Canada trains left Montreal yesterday for Vancouver.

B. Y. MOYES,
408 George Street PETERBOROUGH

AN OLD STAGE LINE.

It Ran From Kansas to California In Thirty-five Days.

"Atchison to California in thirty-five days; fare, only $200 in gold."

This was the heading of an old handbill, yellow with age, which a traveler laid upon the counter in a railway ticket office the other day. It was an advertisement of a line of stagecoaches *that ran from Atchison, Kan., to San* Francisco during the gold excitement of years ago.

"People seldom stop to think what their poor ancestors had to put up with in the old days," the man said. He was comparing the old time table with a modern railway time table, which told of the luxuries one could have by traveling on that road, no dust, no jarring and all other disagreeable features eliminated.

The old time table was a double sheet of paper, torn and yellow with age. It was issued by the Atchison and California stagecoach line in 1857. The inducements it held forth were in strange contrast with those of the modern railroad advertisement. The stagecoach line advertised that it had recently refurnished the entire "road" with absolutely new wagonettes, and it told what kind of coaches they were, how the springs were made and of what strength they were. It even said that the coaches were painted in the "best manner possible." The horses that drew the coaches were described, too, as the best.

An inducement that was held out on the time table to prospective passengers was a stop over privilege.

"Passengers who had paid their entire fare from Atchison or other points *to their destination,"* the paper said, "may register with our agents. A stop over privilege is then given for any place on the road."

The time of the stop over was unlimited. The time table provided that a passenger might resume the journey whenever there was an empty seat in the stagecoach.

"We make quicker time to California than any other stagecoach line and at a cheaper rate," the pamphlet stated. It went on to say that for $200 a person could ride all the way from Atchison, Kan., to the gold fields of California.

"The distance is 1,913 miles," was stated on the time table, "the longest distance ever attempted by a stagecoach line. Atchison to California in thirty-five days."

A boast was made that there were twelve telegraph stations on the road to California and that eating places had been established along the road where good meals could be had at the nominal price of $3. Every passenger was allowed twenty-five pounds of baggage, consisting of wearing apparel and other necessary baggage. All over that amount must be paid for at a rate of 50 cents a pound.

It was advertised that the risk on the return trip was very great on account of the amount of gold dust and nuggets being brought back from California. The company employed only the bravest men, fully armed all the time. But it declined to carry gold dust unless paid for at the rate of $3 a pound. The company refused to be held responsible for the loss of the gold dust by robbers, Indians or other means.

The pamphlet also advertised a fast freight line between Atchison and Denver. The round trip was made in the short space of twenty days. To ship by this method all merchandise had to be wrapped in waterproof packages. A package weighing ten pounds could be sent by that route for $5. All over that weight was sent at the reduced rate of $2 for five pounds.

In its advertisement for passengers to California the pamphlet, as stated before, allowed every passenger twenty-five pounds of baggage. However, it advised that as many persons wished to take more baggage than the weight limit it would be safer to send it to California by sea.

"And to think that we can get on a train tonight and be in Denver tomorrow," the railroad man said as he compared the time tables.

Mistook Scripture For Science.

They were passing one of the Fifth avenue churches when the bulletin board caught her eye. "The Rev. Dr. —— will speak this evening on Deuteronomy." She stopped short and carefully read it a second time. "Well," she snapped. "I wish these preachers

Used to It.

After asking a great many questions of a lady a barrister felt that some apology was necessary, so he remarked. "I really hope I don't annoy you with all these questions?"

"Not at all," answered the lady quietly. "I'm used to it. I have a six-year-old son.".

A Nice Distinction.

I wonder if any of these purists could solve for me a problem which has long been worrying me. To what particular altitude must an individual attain before his murder is described as assassination? This is a matter that ought to be cleared up.—London Tatler.

ST. MARK'S, OTONABEE

The cottage meeting in connection *with St. Mark's church, Otonabee,* will be held next week at the home of Mr Robt. Scollie, on Thursday, July 4th, at 8 o'clock.

Service at St. Mark's church will be held on June 30th, at the regular hour of 11 a.m. Sunday school at 10 a.m.

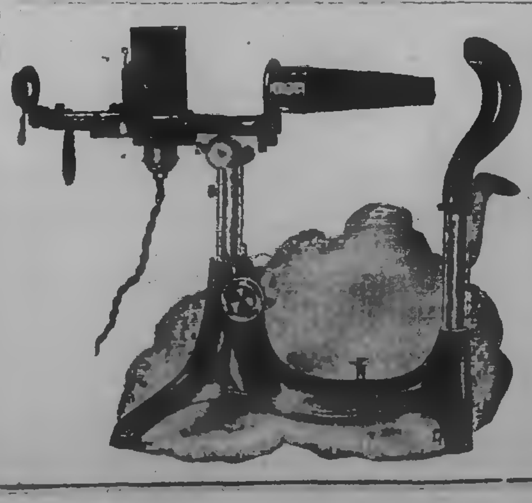
The service at Stewart's Hall, will be conducted on June 30th at 8 p.m., by Rev. E. A. Langfeldt, M.A.

The W. A. of St. Mark's purpose holding a strawberry festival on Joshua Smithson's lawn shortly after July 12th. The exact date will be announced later.

A WINDSOR LADY'S APPEAL

To All Women: I will send free with full instructions my home treatment, which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or Irregular periods, Uterine and Ovarian tumors or growths, also Hot Flashes, Nervousness or Melancholy, Pains in the Head, Back, or Bowels, Kidney and Bladder Troubles where caused by weakness peculiar to our sex. Summers, Box H 62, Windsor, Ont.

Vernon Tupper, aged 12, was struck by a car at Abbotsford, B.C., and died in Vancouver, of his injuries



COMING FROM FAR AND NEAR

From the surrounding towns and villages and county as well as the city, persons are coming every day and have the benefit of the skill and experience of our specialist, who is kept busy examining eyes for glasses and fitting artificial eyes. Mr. Browitt's work is a great success, his methods, his instruments and the years of experience which he has enjoyed in the United States and Canada, qualify him in a manner which few Canadians can equal and we do not wonder now that Mr. Browitt has made Peterboro' his home, that his work is appreciated and that he is meeting with the success he deserves.

George Batson, hotelkeeper, of Brantford, was fined $50 for illegally selling liquor.

Midnight Hold-up by Six Strangers

Tweed Baker Had Lively Experience When on His Way to Work

Mr Thos. Way, who is engaged as baker for David Beatty, had an experience on Monday morning which no doubt made his blood run cold for a few minutes at least, says the Tweed News. He was on his way from his home to go to work about two a.m., when he was ordered by some men in the post office door to throw up his hands. A couple of men standing in front of the office grabbed and held him, while the others went through his pockets. Mr. Way says there were six men in party and that at least one wore a mask. He is quite certain they were not local characters. Fortunately he had nothing of value on his person, as he made a practice not to carry any money when going to work at such an hour. He did not even have his watch. When the men were satisfied that he did not have anything they let him go and started off up the street.

Crystal City, Man., voted down local option.

ENGINEER WANTED

Applications endorsed "Application for position of Engineer," will be received by the undersigned up to Monday afternoon, July 8th, 1907, at 5 o'clock, for the position of Engineer of the fire engine and road roller and related duties, particulars of which may be obtained from the undersigned.

S. R. ARMSTRONG,
City Clerk

NEW FACTORY FOR HASTINGS

Boot and Shoe Industry May Employ 100 Hands

Is Hastings to have a new industry? Mr. Jas. Valentine, of Valentine & Fisher, shoe manufacturers, of Waterloo, was in town from Saturday until Monday and examined the various sites available for a shoe factory, and seemed to be very much pleased with the place, regarding sites and power, says the Star.

With the reeve and members of the council he looked over the available site on the island and also on the south side of the river below the saw mill.

Mr Valentine's firm is an old established one, and employs at present about 100 hands. They are looking for cheaper power than they have been getting and for a better labor market.

INSPECTION AT RIVERSIDE PARK

Col. Gordon Will Inspect the Peterborough Regiment This Evening

The annual regimental inspection of the Peterborough Rangers will take place tonight at Riverside Park. There will be no sham battle this year, but instead a review at Riverside Park.

The regiment will leave the drill hall at seven o'clock sharp, and, headed by both bands, will march to the park, where they will be inspected by Lieut.-Col. Gordon, of Kingston. Col. Hemming and Capt. Conger, of Kingston, paymaster, will also be present. After inspection is over there will be a general review and some ceremonial drill.

The regiment is in good shape, and no doubt will acquit itself creditably. [illegible]

Time For My Vacation

—:o:—

Whether you go to the sands of the seashore, or to the waters of the rippling lakes, or to the verdure crowned hills, you will need smoked glasses for these dazzlingly bright days; so pleasant and yet so provocative at first of headaches. You had better come in and select a pair or two before you start. We have them at all prices.

Peterborough, June 22, 1907.

A Long Chapter of Accidents ; July the Fourth Brings Death

Seven Dead, Six Dying, and Hundreds in Hospital.

National Celebration Over the Border Is Chapter of Fatalities—Surgeons Are Kept Busy—Many Eyes and Fingers Are Lost — Two Poles Drowned In Canal Near Utica During Fight.

New York, July 5.—Independence Day, ushered in with a racket, went out last night in a blaze of pyrotechnics, the most imposing and expensive that New Yorkers have ever witnessed.

On the darker side the police and hospital surgeons were busy all day dealing with accidents. Last night the police were reckoning the casualties from the day's celebration.

At a late hour it was known that this Fourth's observance had cost seven lives, that a half dozen persons were dying and that hundreds of others were being treated at the hospitals for injuries ranging from slight burns, with the possibility of tetanus, to bullet wounds and lost limbs.

Of the dead, three died in premature celebrations, the others were killed during the day.

Arthur Carraro rapidly discharged a revolver in his backyard and a bullet entered the head of his aunt, Mrs. Alfonse Fucarino, who fell dead. The next bullet killed the celebrator.

Henry Englehardt, aged 4 years, was killed by a bullet while looking out of the window of his home.

Jesse Guseveter is dying from a bullet wound.

James Benese, 6 years of age, was all but burned alive when a firecracker ignited his clothing. He cannot live.

John Graham, 10 years, was internally hurt by a toy cannon. His condition is critical.

Arthur Carfoot is one of a dozen whose hands were blown off.

Lost eyes and fingers added to the total of emergency cases.

Poles Fight; Two Are Killed.

Utica, N. Y., July 5.—While celebrating the fourth of July at Yorkville, a suburb of this city, at an early hour yesterday morning, a number of Poles began fighting, with the result that two of them are dead.

The fight started in a saloon and the men were ejected by the proprietor. Hostilities were resumed in the street and later on the canal bank, where two of the party, Joseph Geskoski and Joseph Szeczelk, aged 20 and 24 respectively, were knocked or thrown into the water and drowned.

Desparate Youth Captured ; Was Discovered in Woods

Posse of Citizens Find Albert Greenhill in the Woods.

English Emigrant Accused of Horrible Crime Is Arrested—Victim Lies At Point of Death—People Greatly Excited—Aged Father Tells Story —Crashed Girl's Skull With Piece of Rock.

Richmond, Que., July 5.—Alfred Greenhill, the young English emigrant, who is accused of assaulting and trying to kill little Lillian Lynn, was captured yesterday afternoon by the posse of 100, which has been scouring the woods for him ever since the crime.

He has been locked in the county jail awaiting developments, as his victim is at the point of death.

The crime is one of the most brutal that has ever been recorded in this section of the country, and the people for miles around are greatly excited over the occurrence.

The home of the Lynns is situated about two miles below Richmond on the Melbourne side. The father of the victim, a man between 60 and 70 years of age, told the story, with tears streaming down his cheeks. "This morning," said he, "when I was giving instructions to Albert Greenhill to carry some boards to a certain portion of the building, Lily came up to me and asked permission to go up to the fields to gather strawberries, and mentioned at the same time that her two younger brothers would follow just as soon as they had their breakfast.

"Albert overheard this conversation, but I paid no further attention to his movements or actions, as he had worked for me for over a year, and I did not anticipate anything else but what he would carry out my orders.

"The assault was committed a short distance from the house. When I called Lily I saw Greenhill run away. I found my Lily lying on the ground, her face was covered with blood, and her clothes were almost torn from her body.

"I carried her into the house. She was unconscious, and has remained so ever since. I found this stone (introducing a piece of rock which must weigh at least from 15 to 20 pounds), it was with that her skull was fractured."

Immediately the news spread in Richmond a large number of men dropped their business and hurried out to follow on the trail of the inhuman brute.

FOUR KILLED IN TORNADO.

Many Others Injured In Wisconsin Storm.

Lacrosse, Wis., July 5—Reports from the district east of Lacrosse, which was swept by a tornado Wednesday night, show at least four persons to have been killed, one fatally injured, many less seriously hurt, and the damage much greater than at first reported. The dead are:

Mr. and Mrs. John Dame of Oakdale, Mrs. William Butterfield of the same place, fatally injured, and several others were less seriously hurt.

DEMANDS MACLEAN'S RELEASE.

British Government Communicates With Moroccan Authorities.

London, July 5.—The British Government has communicated with the Moroccan Government, demanding that prompt steps be taken to insure the release of Kaid Gen. Sir Harry MacLean, commander of the Sultan's bodyguard, who was captured by Raisuli, the bandit chief, and is being held as a prisoner pending the granting of Raisuli's terms for his surrender.

Wheat sold on the curb at Winnipeg at 96 1-4 cents.

Address: The Cook Medicine Co. Toronto, Ont. (formerly Windsor)

GIRL SHOT AT WINDOW.

Was Combing Her Hair When Fatality Occurred.

New York, July 5.—While combing her hair at the window of her room, Nimipa Grizzanti, a 19-year-old Italian girl, was killed yesterday by a bullet through the head, which the police are convinced was fired by someone who sought to conceal the source of the fatal shot in the noise of Fourth of July fireworks. Another shot buried itself in the wall of the room.

The tragedy occurred on Elizabeth street. Several arrests have been made of Italians living in the rear of a flat-house on Mott street, which is opposite to the house where the girl was shot. Two empty cartridge shells were found in the hallway of the Mott street house. The police have so far been unable to find any motive for shooting the girl, as she was not known to have any enemies.

PORT ARTHUR VOTES.

Bylaws For Improvements Are All Adopted.

Port Arthur, July 5.—Port Arthur voted on and adopted 13 bylaws calling for a total sum of $800,000. This included the construction of two concrete and steel bridges, extension of the waterworks, the purchase of street cars, the expenditure of $60,000 for improvements of the Current River, the erection of a police station, double-tracking the street railway for seven miles, the establishment of an incinerating plant, the erection of new car barns and the isolation hospital, and for park improvements.

H. F. BARTELS SKIPPED.

Man Held For Extradition Escapes From Sheriff's Custody.

Toronto, July 5.—Herman Bartels, a millionaire brewer of Auburn, N.Y., who has been in custody in Canada for several weeks fighting extradition proceedings, escaped from the custody of Sheriff Smith of Welland at Osgoode Hall yesterday. Bartels was appearing before Justice Riddel in argument concerning extradition.

Shortly after court resumed in the afternoon, Sheriff Smith took Bartels into the corridor and downstairs to one of the lavatories in the west side of the building. Smith stepped inside for a moment, and when he came out Bartels had disappeared. Smith gave the alarm and at once the sedate halls of the old building were alive with hurrying feet.

The city police were notified, but no sigh of him was recorded late last night.

Bartels is 60 years of age, and was being extradited on a perjury charge in connecton with his trial for setting fire to his brewery.

He was arrested by Chief of Provincial Police Mains at Niagara Falls, Ont., in the first week of May of this year.

He was taken before the county judge at Welland and the release to the American authorities signed, when his counsel, Hartley Dewart, K.C., moved for habeas corpus proceedings.

The hearing of the argument of the case at Osgoode Hall was completed yesterday in Bartels absence and judgment was reserved.

Bartels was convicted at Auburn of attempted arson. He had purchased a brewery for $1,500 and then insured it for $75,000. He had it all in readiness to fire when his plans were discovered.

Upon his conviction his counsel moved for a three days' stay of proceedings before Bartels was sentenced. This was granted and he was allowed out on $15,000 bail. He came to Canada and the bail bond was compromised for $6,000.

It being impossible to extradite him for attempted arson an indictment for perjury was secured by the prosecuting attorney and it was upon this that the proceedings were based.

ANGLO-GERMAN PROPOSITION.

Discussed At Hague Conference—Want to Hasten Work.

The Hague, July 5.—The sub-committee of the peace conference on the proposed prize court, M. Bourgeois (France) presiding, met yesterday and discussed the Anglo-German propositions regarding the establishment of an international supreme prize court.

Baron Marschell Von Bairberstein (Germany) made a speech explaining the German project, and Sir Edward Frey (Great Britain) and several other delegates made brief statements on the subject.

General Horace Porter said the Americans wished to present their statements in writing.

Four out of the eight questions forming the set on the subject were approved.

M. Bourgeois said that the presidents of committees had agreed, with the view of hastening the work, that no new questions shall be introduced after the present week and that further modifications can only be proposed as amendments.

Miss Eckstein Received.

The Hague, July 5—President Nelidoff of the peace conference yesterday received Miss Anna Eckstein of Boston, Mass., who presented a petition, signed by over two million Americans, in favor of a general arbitration treaty.

MONTCALM ON THE ROCKS.

Government Steamer In Trouble—I. C. R. Disappointed.

North Sydney, N.S., July 5.—A blackeye was given this port Wednesday night when the Empress of Ireland sent a wireless message to the Montcalm that the Empress would not come in with mails and passengers on account of fog, but would sail on to Rimouski.

The I.C.R. officials had a train in readiness for the mails and passengers.

Among those on board the Empress were the Premiers of New Zealand and British Columbia.

When the steamer Montcalm was running in she steamed too close to shore and ran with pretty good force on bottom, just beyond the breakwater. Yesterday she was still hard and fast.

Discusses All-Red.

London, July 5.—(C. A. P.)—The News publishes an interview with a leading shipowner of whom it asked if the white labor clause difficulty might not lead to the adoption of the all-red route for carrying Australian mail

The shipowner answered in the negative. A steamship, he says, cannot live by mails alone, except at almost a prohibitive cost to the authorities, and he emphasized the trans-shipping difficulty in connection with goods and passenger traffic on account of the coaling question on the Pacific route.

Garibaldi's Anniversary.

New York, July 5.—The 100th anniversary of the birth of the Italian national leader, Garibaldi, was celebrated in New York yesterday by a parade and dedication of the Garibaldi Pantheon at Clifton, Staten Island, where the Italian liberator lived for three years, from 1850 to 1854.

Premier's Murderer Sentenced.

Sofia, Bulgaria, July 5.—A court-martial yesterday morning sentenced Petroff, the murderer of Premier Petroff, to death.

His two accomplices were condemned respectively to life imprisonment and 15 years' penal servitude.

Canadians Win at Bisley.

Bisley, July 5.—(C. A. P.)—The Canadian team beat the Royal Marines, 16 a side, by 1,434 to 1,394. Lieut. McVittie and Sergt. Snowball made 98 each.

The Canadians also won a friendly match with the Uganda team.

While canoeing on the Assiniboine River, near Marquette, Man., a young German, J. Kauffman, was drowned.

IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health. —How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

Mrs. F. Seydel

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness and know that her letter will be seen by a woman only.

Many thousands of cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as she has been.

Mrs. Fred Seydel, of 412 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"Over a year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

SANTAL-MIDY
Standard remedy for Gleet, Gonorrhoea and Runnings IN 48 HOURS. Cures Kidney and Bladder Troubles.
MIDY

HANDSOME WOMAN POISONED.

Police Start Investigation and Look For Supposed Husband.

Montreal, July 5.—A handsome woman, about 20 years of age, died in the Notre Dame Hospital Wednesday as a result of having swallowed poison under mysterious circumstances.

The coroner and the police were at work on the case yesterday. The deceased, who was of Polish extraction, when she went to the hospital, was accompanied by a man, who told the hospital authorities that his name was Charles Howard.

His wife, he declared, had been ill and suffering much pain. She went to a bureau to get a glass of brandy and by mistake took bichlorate of mercury. Howard stated that they boarded on East Dorchester street, but when the ambulance men went to get the bottle they were informed that no such person had ever lived there.

STREET RIOTS IN NEW YORK.

Ice Wagon Drivers Have Conflict With Strike Breakers.

New York, July 5.—Street battles between the striking ice wagon drivers and strike breakers, which the police quelled after several of the participants had sustained minor injuries, followed another attempt of the American Ice Co. to break the strike in Brooklyn yesterday.

The appearance of several of the old drivers, who had returned to work, enraged the strikers who held out. Each delivery wagon was guarded by a policeman on its rounds, but the presence of the officer failed to check the strikers in the efforts to stop the delivery of ice.

Twenty strike breakers in Manhattan, employed by the American Ice Co., refused to go to work yesterday, declaring that they feared they would be injured by fireworks hurled at them by strike sympathizers.

Haywood Witness Killed.

Denver, Col., July 5.—Frank Schmelzer of Silverton, Col., who, on Tuesday, was elected a member of the executive board of the Western Federation of Miners, jumped from a moving train Wednesday night and was killed.

Schmelzer was on his way to Silverton for a short visit prior to going to Boise to testify in the Haywood trial.

U. S. Gunboat For Lakes.

Washington, July 5.—The State Department has received the assurance of the British Government that there will be no objection to the request of this Government in sending the gunboat Don Juan de Austria to the Great Lakes, where she will be used for cruising purposes by the naval militia. She will carry no arms.

Shot Wife and Daughter.

Wilkesbarre, Pa., July 5.—Andrew Olewlim of Larksville, Pa., near here, shot and probably fatally wounded his wife and daughter yesterday, and then fled to the mountains.

A detail of mounted state police is searching for him.

Acquitted On Serious Charge.

Ottawa, July 5.—James Heddleston, who was tried for manslaughter at Hull, for leaving an excavation on the C. P. R. work unprotected, so that a child lost its life by falling in and drowning, was acquitted yesterday.

MADE BID FOR LIBERTY

Two American Prisoners at Chatham Seek Freedom.

Were Awaiting Sentence for Attempted Forgery — Attacked Turnkey With Heavy Lock—Left Him Insensible and Bleeding—Governor Davidson Arrives In Nick of Time to Prevent Prisoners' Escape.

Chatham, July 5.—Arthur Smith of Knox, Penn., and Edwin Baldwin of Wainsfield, Ohio, yesterday made a sensational and desperate attempt to break jail, in which the turnkey, Christopher Somerville, nearly lost his life at the hands of the men.

Both men were arrested on Tuesday in Tilbury, a few miles west of here for forgery, and the altering of two forged cheques for small amounts on the Sovereign Bank of Tilbury. They were arraigned before Judge Bell here on Wednesday, when they pleaded guilty and were remanded one week for sentence.

Early yesterday morning, while the turnkey was making his rounds, he entered their cell. He laid the heavy lock on the floor, while he undid another fastening. One of the miscreants struck the turnkey a terrible blow on the head, knocking him bleeding and senseless to the floor.

Governor Davidson, hearing the disturbance, rushed in, and, unarmed, wrested the key of the lock from one of the men, at the same time calling for assistance. When it arrived the men were easily transferred to safer quarters. The turnkey will recover. The two desperadoes will no doubt spend a good portion of their lives in the penitentiary for their dastardly attempt.

Playing With Matches Caused Fire.

St. Catharines, July 5.—Children playing with matches in Roland Robertson's barn, on Welland avenue, set the place on fire yesterday.

Two Are Decorated.

London, July 5.—King Edward has decorated Enrique Caruso, the Italian tenor, with the Victorian Order.

Caruso is the first singer to be thus honored during the reign of King Edward.

Paris, July 5.—The Government has conferred the cross of the Legion of Honor on Richard Strauss, the composer.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.
The Kind You Have Always Bought
In Use For Over 30 Years.

PETERBOROUGH OR PORT HOPE?

Can the Locals Trim the League Leaders To-morrow?

The Peterborough Baseball team had their final practice last night for their game against Port Hope tomorrow and showed fine form. Every man was out in uniform and the practice was full of ginger. The game tomorrow starts sharp at three o'clock, and from the interest that it is creating in town should be attended by a big crowd. Considerable money is being put up, mostly on an even basis. The Midland League leaders are confident, but the locals can be depended upon to make them trot a lively pace. "Yebbie" Flaherty will be in the box for Peterborough, while Burridge will be behind the bat as usual. The batting order and positions of the local nine will be as follows,—

Burns, r.f.
Callaghan, c.f.
Burridge, c.
Connors, c.f.
Quinlan, 2b.
Cheetham, s.s.
Haliburton, 3b.
Graham, 1b.
Flaherty, p.
Johnson.

Surphlis will do the twirling for Port Hope and O'Neill will catch. The team will be the same as defeated Peterborough on Monday.

CANADIAN WINS FIGHT.

Crowd of 9,000 Saw One of Shortest Battles on Record.

Oceanview, Ringside, July 5.—Bill Squires, the mystery from Australia, lasted only a portion of a round before Tommy Burns yesterday afternoon. A succession of right-hand blows to the jaw and the fight was over. The fact that Squires was an unknown quantity had lent interest to the fight, and an immense crowd assembled just outside San Francisco, to witness the contest.

Fully 9,000 people were in the arena and paid all the way from $2 to $20 to see a few seconds fighting. What fighting there was was decidedly one-sided, as Squires never landed a blow. Within ten second after the gong had rung for the men to begin, stocky little Burns had swung his right to the Australian's jaw and he went down.

It looked then as if the fight was over, but in four seconds Squires staggered to his feet and rushed violently at Burns. They came to a clinch and Squires put his huge fists up to fight. Then they broke in the centre of the ring and Burns immediately popped over another right and Squires went down again. He got up in a second and then Burns swung a succession of rights, each one staggering the Australian, until he dropped his arms. Then Burns swung his right again with tremendous force and it was all over. The result, while a surprise to many, keeps Jim Jeffries still in retirement. He had announced that if Squires won he would meet him in the ring.

Beyond demonstrating that he can hit hard and with lightning speed, Burns had no opportunity to demonstrate his class. The end was too sudden.

W. Brown, general superintendent of the C.N.R., has resigned.

DID MONTREALERS UP.

Fakir Had Scheme to Make Illicit Whiskey—Netted $15,000.

Montreal, July 5.—One of the slickest confidence men Montreal has ever had to deal with has just disappeared after cleaning up about $15,000.

His scheme was the illicit manufacture of liquor, and most every man he tackled said "Fine," and bit, thinking that there was a unit of money in it, but the old story—they were disappointed. There is not much danger of the fakir being prosecuted, because the ones whose money he got are so badly mixed up in the conspiracy to make illicit liquor that they are afraid to act.

His proposal to each individual, supposed to be absolutely confidential, and only made to that person, was to become partners with him in the making of the illicit stuff.

He had all the plans arranged, he claimed, to make a thousand gallons a week. The manufacture of whiskey was to be carried on under the cloak of a Canadian wine factory. The whiskey was to be made from sour wine, which, experts say, furnishes a whiskey of sixty overproof.

In letting his accomplices have a look at the machine that was to turn out their thousand gallons of whiskey a week, which was to be sold for three thousand dollars, he told them that he would have a small, inexpensive still on the premises for the revenue men to find in case they should be warned in some way or other of what was going on.

He had a subterranean chamber and passage dug in an old warehouse at the rear of the Dominion Button Works on Visilation street, and there the thousand gallon still, which cost eleven hundred dollars, and those who saw it say it was a beauty, was installed.

That night, while the arch-schemer was buying champagne for some of his victims, the big still was quietly taken apart and shipped away to no one knows where.

Later the gentleman himself also went away.

WHITE GIRL A SLAVE.

Has Been Detained and Forced to Work Since Childhood.

Richmond, Va., July 5.—It is almost beyond belief that in the enlightened commonwealth of Virginia a young Anglo-Saxon woman should come out of a county only an hour's ride from the City of Richmond with a startling story of abject slavery and peonage since her childhood.

The girl, who is generally known as the "white slave," answers to the name of Eleanora. Her case soon will be brought to a climax when Attorney Rawley institutes a suit in her behalf against J. J. Cawley, a dairyman, of Chesterfield County, in whose home the girl has spent the better portion of a laborious existence.

The plaintiff to the suit is now 21 years old. Her bill will allege that, she was sold to Cawley when a child, for whom she was forced to work without compensation until the intervention of friends secured her release. The young woman is prepossessing in appearance and timid to a degree. She has large brown eyes, and an abundance of dark hair.

Watched the Railways.

Ottawa, July 5.—The railway commission put into execution on Dominion Day a plan of inspection for which it had been quietly preparing for some time.

The complaints of overcrowding on passenger trains on holidays have been numerous of late, and the commission, without giving notice to the railways, stationed men at the principal centres to note condition. In Toronto, for example, the inspection began on Friday, and was continued through Saturday and Sunday to Monday.

At present the returns are being collated, and they are to be compared with the traffic figures submitted by the railways.

The results will not be made public for several days.

Farmer Commits Suicide.

Underwood, July 5.—George Patterson, an old and highly-respected farmer of Bruce Township, committed suicide by taking a dose of carbolic acid. He leaves a widow and family. The cause is supposed to have been ill-health.

DEPUTIES LEAVE IN ANGER.

Claim That Language Provision Is Violation of Treaty.

Budapest, Hungary, July 5.—After a final protest against the provision in the Government's railroad bill, requiring the exclusive use of the Hungarian language in the railroad service of Hungary, forty Croatian deputies yesterday left the Lower House of Parliament in a body and refused to further participate in its work.

The Croatians claim that the language provision is a violation of the Hungarian-Croatian compromise, and they obstructed the measure for weeks, until finally the Hungarian Government promulgated the bill by decree, causing a further embitterment of the relations between Croatia and Hungary.

NEGOTIATIONS COMPLETED.

Commercial Agreement Between Canada and France Settled.

Ottawa, July 5.—It is understood here that negotiations for a commercial agreement between Canada and France are practically completed.

The Hon. W. S. Fielding has cabled T. C. Boville, the Deputy Minister of Finance to proceed immediately to Europe to assist in completing the details.

Mr. Boville accordingly sails to-day.

Will Be Tried Third Time.

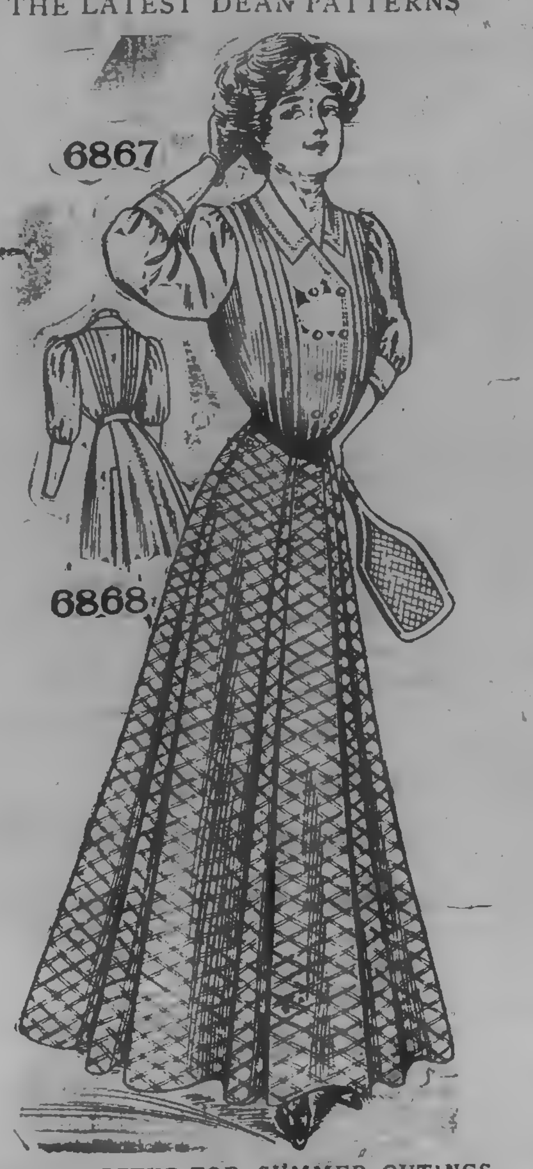
St. John, N. B., July 5.—The jury trying Collins for murder were locked up all night by Chief Justice Tuck, but yesterday morning failed to reach an agreement and they were discharged.

The prisoner was remanded to jail and court adjourned until Sept. 17.

The crown announces that there will be a third trial of the case.

F. W. Armstrong's general store at Jarvis was damaged by fire.

THE LATEST DEAN PATTERNS



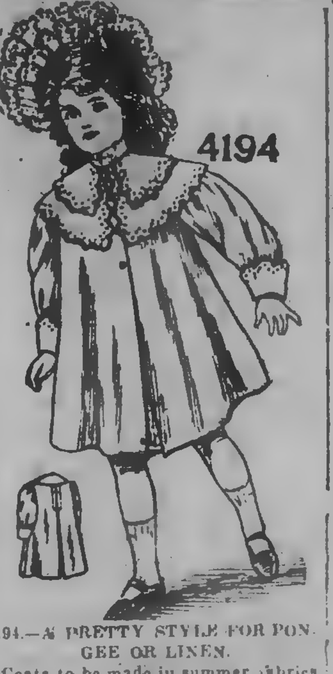
A SMART GETUP FOR SUMMER OUTINGS

The shirt blouse and walking skirt have yet to find their peers for general knockabout wear and the woman who desires an outfit for use during the coming weeks will find the accompanying models both chic and practical. The skirt blouse is double breasted and laid in small box pleats, which lend shapeliness and style. The removable shield may be worn or not as desired, while a choice of long or short sleeves is provided for. The washable waistings are excellent for such a waist, while pongee or silk might also serve. The skirt is unusually attractive with its trimness over the hips and bountiful ripple at the lower edge. It may be of the material of the waist or of any cloth or seasonable worsted. The waist calls for 3 3-4 yards of 36 inch material in the medium size and the skirt 5 1-2 yards 44 inches wide.

Two Patterns—6867.—Sizes 32 to 42 inches bust measure. 6868.—7 sizes, 20 to 32 inches waist.

The price of these patterns is 20c but either will be sent upon receipt of 10 cents.

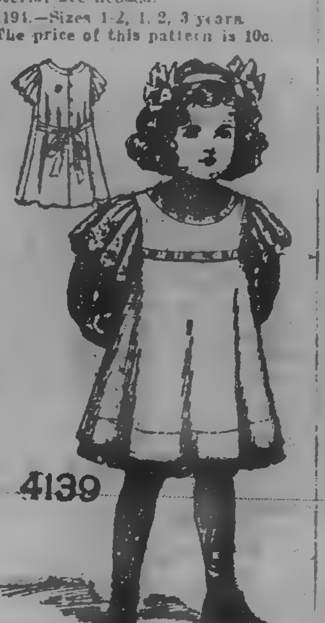
Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



4194.—A PRETTY STYLE FOR PONGEE OR LINEN.

Coats to be made in summer fabrics are more satisfactory if simple in style and one which will please for this reason is shown. The coat is quite plain except for the tucks in inverted box plait effect in back, which provide extra fulness and assure becomingness. The two collars in cape style are well suited to embroidery or other trimming, while only one or neither of the collars may be used. The deep turnback cuffs also offer field for adornment and the whole is most simple to fashion. For the medium size 3 yards of 27 inch material are needed.

4194.—Sizes 1-2, 1, 2, 3 years.
The price of this pattern is 10c.

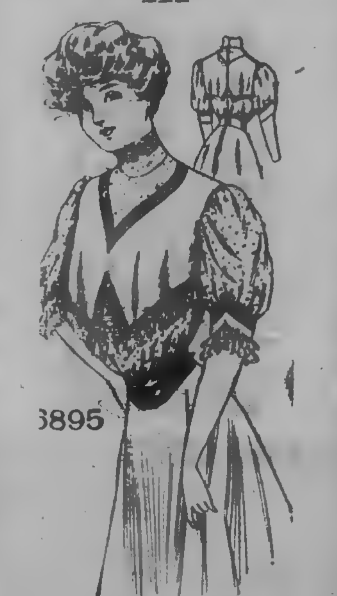


4139.—A CHARMING SMALL APRON

Empire effects are very pleasing upon small wearers and the one shown is an example of excellence. The apron has a front yoke and a front skirt portion joined by a narrow band of embroidery. The back is straight and held in place by sashes fastened at the underarm seams and tied in the center. Ruffles serve as sleeve caps, but these may be omitted if preferred. The design is easily developed and suitable to any of the usual apron materials. For the medium size 1 5-8 yards of 36 inch material is needed.

4139.—Sizes 3, 5, 7, 9 years.
The price of this pattern is 10c.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.



6895.—A WAIST OF NOVEL DESIGN

The price of these patterns is 20c, but either will be sent upon receipt of 10c.

THE MARKETS.

Cheese, Canadian finest white, new quiet, 55s; old, 65s. Canadian finest colored, new, quiet, 56s; old, 67s.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, July 4.—Receipts of live stock, as reported by the railways, since Tuesday, were 108 carloads, composed of 1188 cattle, 1225 hogs, 2162 sheep and lambs, and about 400 veal calves.

Exporters.

Few exporters were on sale, but one load, 1210 lbs. each, brought $6.10 per cwt., which is a good indication that heavy, well-finished cattle would have brought the same prices as has been lately paid on these markets.

Butchers.

George Rowntree, who bought 14 carloads of butchers' cattle for the Harris Abattoir Company, reports prices as follows: Good to best butchers sold from $5 to $5.70 per cwt., for stall-fed; fair to good at $4.40 to $4.90; good cows, $4 to $4.40; fair to medium cows at $3.50 to $3.85; common cows at $2.50 to $3 per cwt.

Feeders and Stockers.

H. Murby reports a fair trade in this line to-day, and more of the good kind would have sold. Mr. Murby is open for several hundred of the good kind from 850 to 1000 pounds.

Mr. Murby bought about 150 stockers and feeders and butchers this week at prices ranging from 3c to 4c for stockers and 4c to 4.75c for butchers.

Milch Cows.

Trade was dull for all cows excepting those of the best quality. The average price of the good to choice cows was about $50, altho one or two brought $60 and $65 each. Common, light cows were slow of sale at $25 to $35 each.

Veal Calves.

The market was steady to strong for veal calves, the bulk selling at $5 to $6 per cwt. The range of prices was from $3 to $6.50 per cwt., with prime new milk-fed veals, which are scarce, at $7 per cwt.

Sheep and Lambs.

Deliveries of sheep and lambs were the largest of the season thus far, which caused prices to be easier for export sheep, but lambs and prime light butchers' sheep held their own fairly well. Export ewes sold from $4.50 to $5 per cwt.; bucks, $3.75 to $4.25; culls at $2.25 to $3.50 per cwt.; lambs at $3.50 to $5.75 each, or $7 to $8.50 per cwt.

Hogs.

Mr. Harris reports hog prices unchanged at $6.60 for selects and $6.35 for lights and fats.

Cheese Markets.

KINGSTON, July 4.—(Special.)—The Frontenac Cheese Board met this afternoon and there were boarded 500 colored and 603 white. The top figure was 11 3-16c for colored and 11c for white. All the factories accepted the price except three.

STUDIO GRAND PIANO

SEVEN TO ONE

That is about the ratio. About seven times as many persons are injured as die from all causes yearly. Accidents are a more prolific cause of death than any disease except lung diseases.

Twice as many people are accidentally killed as die of old age.

Does it not seem reasonable to you as a business man that it would be to your interest to carry an accident-policy.

THURSDAY, JULY 4, 1907

Mr. Howson Has Placed 55 Men

Who Arrived From Old Country in Good Positions on Farms

Mr. George H. Howson, immigration agent, to-day stated that he did not expect any more new arrivals this year from the Old Country. He has placed some fifty-five men in good positions with farmers and has received word that a superior class of farm hands will be available early next year.

Messrs. Bell and Park, of Bath, England, in a letter to Mr. Howson say that they will give Peterborough special attention next year. They also write that a superior middle aged lady is anxious to come to Canada and take a position as housekeeper in a comfortable home. Any one desiring the services of a first class competent housekeeper should communicate with Mr. Howson.

PHOTO STUDIOS WILL CLOSE TOO

Have Agreed to Close Shop on Thursday Afternoons

The photographers of the city have decided to close their places of business on Thursday afternoons. An agreement to this effect has been signed by Messrs. R. M. Roy, Louis Mendel, J. L. Richmond and W. G. Lendrum. The agreement states that they will close their places of business on Thursday afternoons until mutually agreed to remain open. The new order of things will go into effect next Thursday.

CANDY FACTORY WAS DESTROYED

Firemen Called Out to Extinguish Blaze on Romaine St. West

The members of the fire brigade were wakened from their sleep this morning about two o'clock, and given a lively chase down to Romaine street, west, where a log hut, utilized as a candy factory, was on fire. Mr. A H. Hally, who lives in the vicinity, had operated this candy factory for some time. Different kinds of sweets are manufactured and sold wholesale. When the fire fighting appliances arrived they were of little use, as the nearest hydrant was too far away to be connected with the scene of the blaze. Thus the building was completely ruined, very little of the contents being saved. The machinery used for the manufacturing of the candy was also ruined.

While the loss of the building itself will not amount to very much, the loss on the machinery will amount to a considerable sum.

For Carrying an Offensive Weapon

The Charge Against Robt. Payne Was Dismissed

After the evidence had been all heard yesterday by His Worship Magistrate Dumble in the case of Robert Payne of Dummer being charged with carrying an offensive weapon on June 26th, the case was dismissed. Complainant and defendant each had to pay half of the costs of the court. Mr. G. W. Hatton appeared for the complainant and Mr. F. D. Kerr defended Payne. Considerable evidence was taken and it turned out to be nothing more than a dispute about a line fence, one being as much in fault as the other.

GUNBOAT WITHOUT GUNS

United States Training Vessel on Lakes Will be Disarmed.

Ottawa, July 4.—Enquiry in official circles confirms the report that leave has been granted to the United States to send through the St. Lawrence canals a training ship from Newport to be used by the Michigan Naval Reserve at Detroit. It is said that there are no guns on the boat and whatever arms are used for training will be on shore.

The department says that this privilege does not in any way interfere with the existing Rush-Bagot treaty between the two countries. The vessel has to be cut in two to enable it to go through the locks.

RECEPTION OF NOVITIATES

The reception of novitiates into the order of St. Joseph will take place at Mount St. Joseph on August 15th. There will not be as many candidates as in some past years, about four being the number this time.

Cow no Match For the Engine

When about half way between Omemee and Peterborough last night the G.T.R. flyer from Toronto ran into a cow with the result that the bovine was put down and out in the first round. Whether the animal was trying to emulate the example of Bill Squires, the Australian pugilist, or whether she wasn't a fair match for the engine, is not known definitely, but likely the latter reason was responsible for her untimely demise.

The train had to stop a few minutes while the train hands went back to the scene of the tragedy to see that the track was clear. The pilot of the engine looked as if it had been part of the machinery in a canned beef establishment.

Band Concert in Victoria Park

The 57th Regimental Band will play in Victoria Park tonight, and a good programme will be given. The concert will not start until about 8.30 as the band has to turn out with the regiment for annual inspection. The band will proceed to the park as soon as inspection is over.

Noon Day Express Crashed Into Freight Train Near Havelock

Passengers Were Severely Shaken Up But no One Was Seriously Injured—How the Mishap Occurred—Van of Freight Demolished and Damage Done to Engine of Express Train.

Special to the Review.

Havelock, July 4.—A collision occurred on the C.P.R. about a half mile west of here today, when No. 4—the noon train—crashed into the van of a freight train standing near the distant semaphore.

There was no one injured although the passengers on the noon train were severely shaken up, while many of them were thrown from their seats, and those in the aisle who were preparing to get off at Havelock were thrown to the floor.

The freight train run by Conductor Geo. Barnes of Toronto Junction came in as far as the semaphore a little before twelve o'clock, and had to stand there on account of the semaphore being up.

When the semaphore was drawn up the brakeman who had been sent out to flag the noon train was whistled in and the train started to pull into the yard, and as luck would have it the draw bar coupling the engine to the front car broke on account of the tonnage being greater than the average.

Before the flagman could get out again, the noon train, whose engineer could not see the freight train on account of a curve came into the rear end of the van at full speed.

It luckily happened that there was no person in the van at the time, for if there had been, they certainly would have been killed as the van went right up on top of the engine, leaving the trucks at the front of the engine.

The van was split up so that it will be of no use, while the front of the engine of the noon train was somewhat damaged, but was able to pull the train as far as the station.

The Havelock Auxiliary, which was at once called out, cleared up the wreck in about two hours and allowed the noon train to proceed.

Flag for the First Steamer To Bring Cargo Into Orillia

Board of Trade Makes an Offer With View to Drawing Attention to the Possibilities of Communication Between Two Sections of the Canal After the Kirkfield Lift Lock Opening.

Mr. J. B. Henderson, secretary of the Orillia Board of Trade, writes the Review as follows;

"The Orillia Board of Trade offers a flag to the first steamer to bring an excursion or cargo into the port of Orillia, from any point on the Kawartha Lakes by, way of the Trent Valley Canal, after the formal opening of the Kirkfield lift lock on Saturday, July 6.

"The Board hopes that the opening of this section of canal may be the means of working up a trade between the two sections of country, hitherto cut off from communication by water, and makes this offer with the view of drawing attention to the possibilities in this direction. We should be obliged if you would give us your assistance in making the offer known to the steam boat captains and managers, in the Kawartha district.

"Yours truly,
"J. B. Henderson,
"Secretary."

Woman Fought Woman and Canine Fought the Cat

But the Magistrate Told the Scrappers They Must Not Live Like That—Scat!

There was great fun and excitement in police court this morning. The case before His Worship Magistrate Dumble was like a comic opera, as it was one continuous laugh all the way through. It had to do with a fight between two women who live alongside each other on Sophia street, east city. It appears that the trouble originated over one lady's dog attacking the other lady's cats. Mrs. Robt. Lingard was charged with assaulting Mrs. G. Corcoran on July 3rd. Mr. Gordon appeared for the complainant and Mr. F. D. Kerr for the defendant. She pleaded not guilty.

Mrs. Corcoran went into the box and stated that on Wednesday morning she was getting dinner ready, when she heard a noise out doors. She went out and Lingard's little dog was attacking her cats. She picked up a stick and threw at it, but missed it. The defendant then appeared on the scene and the fight ensued.

Witness said that Mrs. Lingard told her to get into the house or she would knock her d—— head off. Mrs. Corcoran dared her assailant to come any further, whereupon Mrs. Lingard came up to her and struck her on the shoulder with a stick. Witness stated that defendant's grandchildren were the cause of all the trouble. They were continually throwing dirt in her door. To Mr. Kerr witness stated that she had only lived in the house eight months and to use the witness' words, Mrs. Lingard was a "rank" stranger to her. That word "rank" used as it was, rather puzzled the lawyer for the defence, and witness could not tell the meaning of it, and referred the unknowing counsel to her lawyer, who agreed to tell the meaning of it to Mr. Kerr after court. Witness further stated that she was on her own premises when the assault occurred. A pump divides the two lots.

Mrs. Lingard then went into the box. She stated that Mrs. Corcoran was not on her own premises, but was on hers. She said that her little dog would not go out the back door as complainant had cured it of the habit by throwing stones at it. As for complainant's old cats, they were a regular nuisance, and as to the pump she had not taken a drop of water out of it for months, as complainant had pumped it dry. On Wednesday, Mrs. Corcoran had come running up to her, flourishing a stick in her face, daring her to come up to her and in self defence, witness "tapped" her one on the shoulder with a stick.

Mrs. Heal, daughter of the defendant corroborated her mother's evidence, and said that there had been nothing but trouble since complainant moved beside them.

His Worship considered Mrs. Lingard had no right to strike Mrs. Corcoran. Neighbors should live beside each other without always fighting and quarrelling.

"You are fined two dollars to be paid in ten days, Mrs. Lingard," said His Worship.

"I'll not pay a cent, not a copper," said Mrs. Lingard as she left the court room, vowing never to give a cent.

South Africa Recovering From Effects of Late War

Lieut-Col. Greenwood, Now of Johannesburg, Talks Interestingly of Conditions in the Transvaal Republic—Former Peterborough Man Here on a Visit

Lieut.-Col. H. S. Greenwood, C.E., of Johannesburg, South Africa, formerly officer commanding the 3rd Price of Wales dragoons, is in Peterborough, and will spend a few days here. He is being warmly greeted by a host of old friends, who are delighted to see him again after several years absence. Col. Greenwood left Johannesburg on May 6th, and arrived at New York on June 12th, since which time he has been visiting friends in various parts of the country. He is accompanied in Peterborough by his two sons who are attending school at Lennoxville, Quebec. It is seven years since he first went to South Africa and this is his second visit to Canada during that time.

To the Review to-day the colonel talked interestingly about South Africa and the capital of the Transvaal republic, the city of Johannesburg. The country is recovering gradually from the effects of the Boer-British war but there is much depression in trade and commerce and industrially, things are not in as good condition as might be wished. Agriculture, however, is making rapid strides to the front. This industry has about doubled in extent since the close of the war and is now on a pretty fair basis.

Johannesburg is a modern city of about 100,000 inhabitants. This figure has reference to the white population and does not include the Kaffirs and Chinese who are employed at the mines in large numbers. Gold mining is carried on extensively in the country surrounding the city and over 100,000 Chinese and Kaffirs are employed in connection with this industry. The mines are conducted in a most modern manner and are of immense extent. There are several thousand men employed in connection with some of the mines, practically all Kaffirs and Chinese. The mining industry, however, is in somewhat of a depressed condition at the present time and only a few days ago several thousand Chinese left Johannesburg their services being no longer required.

FEW IMMIGRANTS.

Col. Greenwood states that South Africa is receiving few settlers from the British Isles. The rich farming lands of Canada seem to have a greater attraction for the surplus population of the three islands and a comparatively small number are locating in South Africa.

The Transvaal republic has now a parliament of its own, but this privilege has not yet been granted the Orange State. The Boers appreciate the generous way that Great Britain has dealt with them and are settling down quietly. It will be a long time, however, before the country recovers from the effects of the war, although conditions are as satisfactory as could be expected.

Col. Greenwood is engaged in engineering work at Johannesburg and is returning to South Africa in a few weeks to resume his duties. He was formerly connected with the Trent Canal staff and will likely attend the opening of the new lift lock at Kirkfield to-morrow.

Big Excursion From Lindsay

Lindsay Sunday Schools Have Successful Outing

About five hundred excursionists arrived in the city this morning from Lindsay, the excursion being under the joint auspices of Cambridge street and Queen street Methodist church Sunday schools. The train stopped near Jackson Park and the majority of the merry makers stopped there, although a number came down town. This afternoon they are having a programme of races, etc. at the park and a good time generally.

Tweed Lady Fell Off High Bridge

Mrs. Donohoe, wife of Mr. T. Dunoahoe, photographer, of Tweed, met with a very serious accident while on her way to Belleville on Monday morning, via Ivanhoe and Crookston. After reaching Ivanhoe with a couple of her children by the C.P.R. local, she walked along the track to the Crookston bridge. Just as she started to descend the stone abutments, which are arranged in the form of large steps, she was taken with a fit of dizziness and fell. Fortunately she struck the G.T.R. telegraph wires, which served to brreak the fall, and landed on her feet a distance of probably twenty feet below. She sustained a very severe concussion of the ankle and hip joints and the lower part of the spine, and was shaken up generally. As soon as the accident was made known word was immediately sent to Tweed for medical assistance, and Dr Mather, accompanied by Mr Donoahoe, drove to Crookston. After the injuries were attended to, the unfortunate woman was made as comfortable as possible on a cot and brought to her home at Tweed, where she is getting along nicely. Her escape from far more serious, if not fatal, injuries, is considered almost miraculous.—Tweed News.

Were Disorderly At Chemong Park

And Three Young Men Are Now in the Toils

F. Scriber, Ed Harrison and Fred Williams, three young men from Peterborough, went out to Chemong Park last night and acted in a disorderly manner. It is alleged that they misconducted themselves, used bad language and made themselves a nuisance generally. The result is that they will face County Magistrate Edmison next Tuesday morning and will have to answer for their misdeeds.

LOCAL NEWS ITEMS

BOARD OF MANAGERS.

St Andrew's church Board of Managers met last night and transacted routine business.

FINANCE COMMITTEE.

There was no quorum last night and the finance committee meeting was called off.

MEMORIAL SERVICE.

Services will be held Sunday, July 7th, morning and evening, in the Baptist church, in memory of the late pastor, Rev J. E. Trotter. Rev. J. H. Farmer, D.D., of McMaster University, will preach.—Port Hope Guide.

ACCIDENT AT HUB FACTORY.

Mr. Thos Barry, late village constable, of Tweed, who has been employed at the hub factory for some time, met with quite a painful accident last Thursday morning. He was using the machine for boring the hubs, when the sleeve on his right arm got caught by the auger. He sustained a couple of ugly gashes near the elbow, one of which required several stitches. His escape from far more serious injury is considered almost miraculous.—Bancroft News.

HOME FROM ORIENT.

Rev. Dr. Sutherland, General Secretary of Foreign Missions for the Methodist Church and who has been on a missionary tour of the Orient returned home to Toronto yesterday afternoon. On his way home he remained in British Columbia to look into the foreign branch work there, and found that the Japanese and Chinese mission stations on the coast to be doing very satisfactory work. Dr. Sutherland returns from the East in excellent health.

NOTED EDUCATIONIST.

Prof. James D. Graham of Pasedena, Cal., son of Mr. Robert Graham, of Lakefield, who for the past seventeen years has been superintendent of the Pasedena Public Schools, has resigned his position to accept a similar position at Long Beach, Cal., at the salary of $3,000 per annum. When Prof. Graham announced his intention of leaving, the citizens of Pasedena circulated petitions asking the school board to pay him $3,600 a year to remain. This offer, however, Prof. Graham refused to consider, as he had already promised to go to Long Beach.

Peterboro' Man in a Bear Hunt

Mr. W. A. Gaebel, of this village, and Mr. W. J. Downer, of Peterborough, had an exciting bear hunt on Tuesday evening. They located two cubs up a tree near Gaebel's farm, and, while one kept watch, the other went for a rifle. They killed one of the cubs and wounded the other, but it succeeded in escaping. The mother came around several times, but it was nearly dark at the time and they did not get a shot at her. Mr. Downer took the dead cub to Peterborough to have it stuffed.—Bancroft Times.

WERE AWARDED CERTIFICATES

The list of certificates awarded upon the report of the principal and staff of the Ontario Normal College, at Hamilton, contains the following names of local interest;—

First class and interim high school certificate—T. J. Wallace.

Interim public school certificate—Miss R. E. Carlisle.

Miss D. Morley, of Chisley, who has been engaged as one of the staff for the new King Edward school, has been awarded a first class high school certificate.

Five men were injured by a 'bus overturning near Sparta, Ont. General

ROY'S

Lakefield Lodge Install Officers

Four Oddfellows From Peterboro' Assisted in the Ceremony

Lakefield Lodge, No. 358, I.O.O.F., held a very interesting meeting last night when the officers were installed. Lakefield Lodge is in a very flourishing condition and promises to be one of the best in this section, although it may not have the membership that some of the others have. After the business was completed light refreshments were served and a very pleasant time was spent. Those who assisted in the installation were Messrs. Wm. Hill, D.D.G.M., R. J. Matchett, R. F. Morrow, and A. A. Fowler, of Peterborough, and J. F. Kelly and H. S. Bissell, of Lakefield. The following officers for the ensuing year were installed:—

Jr. P.G.—J. H. Chant,
N.G.—J. E. Kelly
V.G.—G. H. Spence,
R.S.—H. S. Bissell,
F.S.—F. J. Burgess,

R.S.V.G.—Robt. English,
L.S.V.G.—Chas. Gordon,
R.S.S.—Bruce Garbutt.
L.S.S.—Wm. Charlton,
Chap. Rev. S. G. Burns.

Large Decrease in Marriages

Vital Statistics for First Six Months of 1907 Have been Prepared

The vital statistics for the city of Peterborough for the six months from Jan. 1st to June 30th, 1907, have just been prepared by City Clerk Armstrong.

There is a decrease in all three departments, the most marked being in the number of marriages. Last year there were 88 weddings, and this year only 55. It is no wonder the ministers of the city are complaining about increased cost of living and smaller incomes.

The statistics are as follows;

Births, June 1906, 164; June 1907, 163

Marriages, June 1906, 88; June 1907, 55.

Deaths, June 1906, 128; June 1907, 112.

[illegible]

COME ONE, COME ALL

HALF HOLIDAY.

The merchants, barbers, dentists, lawyers and carriage makers of Campbellford, will close their places of business every Friday at 12.30, and remain closed until Saturday morning.

WON HIGH HONORS.

Miss Luella Thexton arrived home from Albert College, Belleville, last week. Miss Luella graduated in Art and received the gold medal standing. She also was awarded the "Clarke" prize, presented by Mr. Charles Clarke, Belleville, for sketching.—Millbrook Reporter.

THE GLASS SLIPPER.

See the beautiful fairy story in moving pictures of "Cinderella and the Glass Slipper," at Scott's Colliseum, Jackson Park, every afternoon from 2 to 5; evening 7 to 10. Admission 5 cents. Complete change of programme Monday. Bring the children.

BLAIRTON MINES.

A capitalist from Pittsburg, has taken an option on the Pearce iron mine and also on Mr. J. L. Aunger's farm at Blairton. He intends commencing boring operations in two or three weeks, with a view of ascertaining the extent of the iron deposits there.

HALF HOLIDAY MOVEMENT

The first of the weekly Thursday afternoon half holidays during the months of July and August was started yesterday. More stores were closed than during the first half holiday last year, and the movement bids fair to be generally observed

ACCIDENT AT NORWOOD.

Harry, son of Mr. Geo. Jones of this place, met with a painful accident during the noon hour on Tuesday. He was walking across the vat where they boil the logs at Mr. H. G. Buck's cheese factory when the planking gave way and one of his legs went down into the boiling vat and was severely scalded.—Norwood Register.

ORANGEMAN OF HIGH DEGREE.

Last night in Preceptory 251, the Rev. A. H. Brace was raised to the exalted degree of the Red Cross of the Royal Black Knights of Ireland, the highest degree in the gift of the great Orange Brotherhood. Sir Knight Brace addressed the Preceptorate, having travelled through the entire course of lectures.

FAREWELL SERMON.

Rev. Ellwood Bowerman preached his farewell sermon to a large congregation in the Methodist church here on Sunday night last. He left on Monday for Whitby, where he will occupy the pulpit in the church there for the next two months during the absence of the pastor.—Madoc Review.

WORK GOING ON.

The Telephone Age says, — The Canadian Machine Telephone Co., Toronto, is starting work on the installation of its plant at Lindsay, Ont., which was delayed for a few weeks, pending the re-organization of the company. W. H. Lytle is the superintendent in charge.

CINDERELLA AND THE GLASS SLIPPER.

Every mother should bring her children to see the beautiful fairy story of Cinderella and the Glass Slipper, in moving pictures at Scott's Coliseum, Jackson Park. Matinee 2 to 5. Evening 7 to 10. Admission 5 cents. Complete change of programme, Monday.

BOAT AND BATHING BASIN

An innovation at Cobourg this season is the boat and bathing basin, which is being erected by Mr. D. F. Donegan on his quarry lot. The basin is to be about one hundred feet square, connected with the lake by a passage, having a cement wall on each side. It is intended to serve a double purpose, as a safe bathing place, and as a harbor for a yacht or other small boats. Donegan intends also to erect a residence and will spend the summers at Cobourg.

CARTERS' SHELTER.

Another week has gone by, and still the carters' shelter is unused. The carters line up on Simcoe street the same as they have for the past 25 years. Ald. McIntyre's attention is drawn to this fact and also to his promise to have the police take action to enforce his bylaw.

TRIED TO EVEN UP.

Because a few drops of water on Dominion Day, fell from an awning and rolled over his shining tile, R. G. Lowes, who claims Orillia as his domicile, tried to "even up" by smashing the front window of E. H. Williams' jewellery store. He ran foul of Chief King, who, however, let the offender go on his arranging to pay the damages.—Barrie Examiner.

PAINT YOUR PLACE.

Many in the city are using paint on their buildings and more could do so to advantage. A gallon of paint will cover about 400 square feet of surface, and the average house could be painted for about $15 or $20, but the value of the house is at once increased from $75 to $100. An old ramshackle buggy that looks to be ready for the scrap heap becomes almost as good as new by a little paint. The virtue and value of paint is not appreciated as it should be. It costs little, but increases the value of everything it is used on.

SATURDAY OUTING

To-morrow (Saturday) afternoon, July 6, the steamer Otonabee will leave the Wolfe street wharf at 2 o'clock, calling at street railway wharf, for Harwood and Idyl Wyld. Good dinner at Idyl Wyld 25 cents. Return tickets 50c. Return at 9 p.m.

Big Real Estate Deal Put Through

Wm. Simpson's Farm in Smith Sold to Mr. Wm. Middleton for $8000

An important real estate deal was put through yesterday by the real estate agent, Geo. Ruth, Water street He sold Mr. Wm. Simpson's 100-acre farm, lot 8 con. 2, Smith, to Mr. Wm. Middleton, of this city, for the sum of $8,000. This farm is in first class condition, and Mr Middleton will take possession in the fall, and will work it himself. Mr. Simpson purchased Mr. Middleton's residence on Conger street, and will make that his new home.

MAN CHARGED WITH ASSAULT

Will be Tried in County Police Court Tuesday

A case of common assault will come up before County Magistrate Edmison next Tuesday forenoon, the complainant being Fred Sedgewick, and the defendant Jos. Brown. The former alleges that Brown assaulted him on July 2nd, on the road between Douro and Otonabee townships Several witnesses have been subpoenaed in connection with the case.

Some Changes Among Boats

On the Different Saturday Trips Takes Place Tomorrow

Owing to the steamer Stony Lake conveying the Government party to Kirkfield tomorrow, there will be some change in the steamers.

The Water Lily went to Lakefield today and will take the regular trip of the Stony Lake tomorrow.

The Otonabee after returning from the sail down the river with the St. Paul's Sunday school picnic will go down the river tonight and take the route of the Water Lily from Rice Lake points to Peterborough tomorrow on the regular Saturday market trip. The Otonabee will run her regular Saturday afternoon trip to Idyl Wyld

More Arrivals at Summer School

Classes are Well Filled—Addresses are Inspiring

Special to the Review.

Chemong Park, July 6.— Friday morning has come and even brighter and clearer than that before. Truly, we are being favored with good weather for our Summer School. Yesterday brought in its quota to swell the numbers, and even the early 'bus this morning brought in some more students to join the classes.

At the meeting last evening two or three loads were present from Peterborough, while many more had driven in from the country around, so that the audience swelled beyond the bounds of the pavilion and dotted the grove within hearing distance of the speakers.

SPLENDID ADDRESSES

The addresses last night were by Rev. Dr. Crummy, of Toronto and Rev Dr. Bishop, of Lindsay. The former gave, in a humorous and interesting way, an account of the characteristics of the Japanese, as he saw them during his eight or nine years in their country.

The address of Dr. Bishop was an intensely earnest message on the office, power and necessity of the Holy Spirit in all our individual life and church work.

Solos were furnished very acceptably by Miss Ethel H. Patterson and Miss Elliott, both of Toronto.

Yesterday afternoon a session of the school was held and was one of the best of the course. The addresses were by Dr. Adams, of Kinsting, West China, and Rev. R. Emberson, of Japan. Both were listened to with much pleasure.

METHODS OF WORK.

This morning, in addition to speakers previously announced, Prof. E. R. Doxee, B.A., B.D., of Albert College, will speak on "Methods of Mission Study Classes."

There will be sessions Saturday, and Sunday also, at which some of the strongest members will deliver addresses.

PERSONAL

Mr. Henry Johnson, of Hastings, was in the city yesterday.

Mr. Will Lockart, of Guelph, is in the city, on a visit to his parents.

Mr. and Mrs. James Kendry have been spending a few days in New York City.

Mr Charles A. Yule, of Colborne, organizer for the Maccabees, is in the city on business.

Miss Guelph Isaac, 228 Dublin st., is spending her holidays with friends in Campbellford.

Mr. Wm. Lundy, of Detroit, is spending a few days in the city renewing old acquaintances.

Miss Bessie Sullivan, of Peterborough, is the guest of her cousin, Miss Mary Dineen, Havelock.

Miss Howson of Peterborough, is visiting her sister, Mrs. Geo. W. Buck.—Norwood Register.

His Lordship Bishop O'Connor is spending a few days in Parry Sound. He will return on Monday next.

Mrs. (Rev.) O. C. Elliott, of Stratford, is the guest of her sister, Mrs. J. F. Allin, 178 Aylmer street.

Mr W. N. Sheffield, of the Dominion Bank staff, is spending his holiday at the Thousand Islands.

Mr. Herman Bennett, of Peterborough, has been spending a few days at his home in Madoc Junction.

Mr. H. J. Bartlett, of Orillia, secretary-treasurer of the Cavendish Lumber Co., was in the city yesterday.

Mr. and Mrs. Alfred Davies, and Miss Helen Davies leave tomorrow to spend a week at Gore's Landing.

Mr. Wm. Lockhart of Guelph, Ont., is visiting at his home, Downie street for a few days before going to Stony Lake.

Mrs. W. R. Carmichael and Miss L Lawson, of Jackson, Georgia, are in the city, the guests of Mr. and Mrs J. C. Shook, Water street.

The Orillia Packet says that among the arrivals at Fern Cottage are Mr Wm. Richardson, Miss Richardson Miss Jamieson, Peterborough.

Mr. and Mrs. David Mann, London street, returned yesterday to their home, after spending a few days with friends in Collingwood and Thornbury.

Mr. Sandy Warren, of the "Star" staff, returned on Monday from a fortnight's holiday spent with relatives at Peterborough.—Fenelon Falls Gazette

Mrs. John Hayes left yesterday for Fort William, going via Toronto to Sarnia, where she will take the Northern Navigation line through the Great Lakes. She was ticketed through by Mr. W. McIlroy.

Rev H. B. Kenny left on Monday for Belleville. His successor, Rev. W. J. M. Cragg, B.A., B.D., arrived at the Falls on Tuesday, and his family came the next day.—Fenelon Falls Gazette.

Madoc Review; Mr. Thos. McNamara, of Peterborough, formerly a popular merchant of Madoc, spent the holiday renewing acquaintances here....Mrs. John McBain, of Peterborough, spent a few days in town, with her son.

Rev C. H. Coon, wife and family, late of Bobcaygeon, arrived in the city today. Mr. Coon will enter upon his new duties as pastor of Mark street Methodist church on Sunday. At the morning service Flower Sunday will be observed.

2 in 1

Shoe Polish

When you buy a pair of shoes buy also the polish that will preserve and keep them in good shape, as well as give a brilliant and lasting shine. 2 in 1 Shoe Polish is a true leather food, causing it to remain soft and last longer.

If you ask for 2 in 1 it is a poor dealer that will take chances on his reputation by trying to sell you a substitute. 2 in 1 costs him more, but it is worth it and is the same price to you. 193

Shipping Green Cheese to British Markets is Injurious

Letter From English Importer Which Should be Read and Acted Upon by Every Farmer in Peterborough County—Be Honest With Your Cheese.

In the annual reports of the Dairymen's Associations of the Province of Ontario for 1906, appears the following letter bearing on the shipment of cheese less than ten days old,—

London, Dec. 14, 1906

J. A. Ruddick, Esq., Department of Agriculture, Ottawa, Ont.

Dear Sir,—When you were over in England you asked us to give you any details in connection with the business of the cheese trade which might be of interest to those immediately connected with the industry.

We have noticed very particularly that cheese have been drawn from the factories very young, and this has produced an insipid flavor. We cannot say that it is what is understood as a strong flavor; in fact, it is difficult to define, but it is certainly not conducive to consumption. Of course, we have not the actual experience of putting them on the counter, but it is sufficient for us to know that buyers are dissatisfied and consequently take a great amount of trouble in selecting something which will have a cheesy flavor. It is impossible to explain in a letter what we mean by insipid, but probably your own experience of cheese drawn too soon for use will agree with ours. And there is another side to the question. The shrinkage in weight is large and enhances the cost of the goods before they are sold here. We can turn to weights of cheese fresh landed where the loss is as much as 7 lbs. on five boxes. Now seeing that the cheese weigh on an average 3-4 cwt. this loss means just one per cent. We have none of these troubles to put up with from New Zealand because they make us a shrinkage allowance of 2 1-2 to 3 per cent. It is no use of our preaching to operators on your side, who are very often gamblers. What we want you to do is to use all possible influence with the factorymen to withhold selling any cheese that have not been made ten days, as we on this side get fearfully punished when handling such young cheese.

Regarding shipping, we have very little fault to find, as the steamship companies have made every effort to fall into line, and adopt suggestions thrown out by importers, and as a consequence we have a better state of things existing now, than has ever been previously known.

Yours truly,

ROWSON, HODGSSON & CO. Limited.

ARTHUR J. ROWSON, Director

The matter of factories selling green cheese is an important one to every farmer who is a patron of a cheese factory. If cheese is shipped green the purchasers in Great Britain lose considerable in weight. To them this is an important matter, as it is also to the Canadian farmer. The British importer makes more fuss if he thinks he is being imposed upon than he does over a difficulty in quality. If the Canadian factorymen continue to sell green cheese and not allow the British importers a shrinkage allowance, the Canadian cheese will soon take a second or third place on the markets of the Mother Country.

This is not at all desirable as all classes of Canadian goods should occupy only first place on every market in the world. There is no reason why it should not. Canada has the goods, the men and the machinery and surely the greed for quick returns will not stand in the way of the country's reputation advancing. Let the farmers of Peterborough county take a firm stand and not allow the cheese from their factories to be shipped until they are in a proper condition. The farmer will be and is the direct loser, while the whole country suffers.

First Concert of S. A. Band Attended by Many Citizens

The Salvation Army Band gave their first band concert in Victoria Park last evening and a large number of citizens enjoyed the splendid programme. The band was out almost in full strength, and under the leadership of Bandmaster Greene rendered the different numbers in a manner that brought forth hearty applause from the auditors. Outside of the larger cities, very few places in province can pride themselves upon such an excellent organization as the Salvation Army Band, of Peterborough. Its strength is now over forty men and each one of them is a musicain of more than ordinary ability. They do not play for pecuniary reward, but because they love their work and take a deep interest in their organization. The band has been strengthened of late by the arrival of several new bandsmen from England. They are all skilled musicians and add greatly to the strength of this well known musical organization.

Last night's programme was a varied one and gave scope for the splendid powers of the band. There was great harmony in some of the selections, and on the whole the most exacting critic would have difficulty to find fault. There were a number of excellent marches that were given with fine swing and spirit while the other numbers, of a more sacred nature, were executed with much sweetness of tone.

The programme was as follows;

The Playing of the Dutch March.

Selection, "Songs About Jesus," with cornet, horn and euphonium solos.

March, "Prize March No. 2."

Selection, "Great Salvation," introducing euphonium solo.

Euphonium solo, "Eternity," by Bandsman Boorman, with band accompaniment.

March, "Southall."

Selection, "Peace."

Trombone solo, "Blue Bells of Scotland," by Bandsman Moynes, with band accompaniment.

March, "Prize No. 3," composed and written by an Army bandsman, who is not yet of age.

Selection, "Echoes of the Congress."

March, "The Cadet."

God Save the King.

Hearty applause greeted the different numbers and, judging by the attendance, the S. A. band concerts are going to be very popular.

Financial Statement for County From January 1st to July 1st, 1907

The following is the financial statement for the county from Jan. 1st to July 1st, 1907, as prepared by the county treasurer.;

HOW TO DEAL WITH DOGS

To the Editor of the Review.

Sir,—For the information of your many readers I would ask you to publish the following legal decision in reply to a question as to the proper way to deal with vicious dogs. In this city, as in other places, dogs are allowed to run with wolf-like ferocity at people walking on the sidewalk, and at horses going along the streets, and this should not be suffered. All curs of this kind should be put out of existence regardless of the value which their thoughtless owners place upon them. Some dog fanciers smile at it, and consider it a sharp trick for a dog to do; but a bull dog or a trained wolf would do it better. A writer of many years observation in the training of animals, says that the character of a man or woman may be determined by the dog they keep. Then, what about the character of any one who allows his dog to run wild on the streets and bark at and attack every horse that passes by? But here is the decision which should be read and acted upon by every one whose "pet" may be classed with the "dog nuisance";—

"When a person is bitten by a dog, he can lay a complaint before a Justice of the Peace, and the Justice has power to order the dog to be destroyed within a certain number of days. Any person is justified in shooting the dog which attacks him. The owner of a vicious dog, who knows it to be vicious, is liable in an action for damages for any injury done by the dog. But the most summary method of getting rid of these dogs would be to shoot them immediately."

Yours, etc.,

LEX.

Peterborough, July 5th, 1907.

Epworth League Drove to Chemong

A number of young people from the Charlotte street Methodist church drove out to Chemong Park last evening and attended the evening session of the Summer School. The drive out to the park and back was greatly enjoyed.

Tonight several members of the Mark street church Epworth League will attend, the 'bus leaving the church at 6.30 o'clock, and the post office corner at 6.45 o'clock.

Dr. Henry Smith, of Norfolk, Va., is in Hamilton, trying to induce Canadian farmers to go south.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. They Know Their Work Thoroughly

Left Half of 57th Regiment Inspected

Companies No. 5, 6, 7, and 8, of the 57th regiment, were inspected last night by Lieut.-Col. Hemming, of Kingston, and went through the work required of them in a manner that brought warm words of praise from the inspecting officer. Each company was first put through company drill and afterwards each section was put through several manoeuvres by the respective sergeants in charge. Col. Hemming watched the different movements very closely and after the inspection was over expressed himself as highly pleased with the way everything was done and the neat soldierly appearance of the men.

No. 5 company was in charge of Capt. Bennett, No. 6 Capt. McLean, No. 7, Capt McWilliams, and No. 8 Lieut. Clarke. Regimental inspection takes place to-night.

MURRAY STREET SUNDAY SCHOOL

Annual Excursion to Idyl Wyld Was Big Success

One of the largest and jolliest picnics which has gone down the river to Idyl Wyld this season was the Murray street Baptist Sunday school excursion yesterday. The steamer Otonabee left the Wolfe street wharf soon after nine o'clock and the street railway wharf half an hour later. The sail down was very pleasant and the boat pulled in at Idyl Wyld just in time for dinner. In the afternoon a splendid programme of races was pulled off which were thoroughly enjoyed by everyone. Then supper was served and the jolly crowd got on the boat to start for home about half past five, arriving here a little before nine o'clock. The prizes for the races were distributed on board the steamer coming home.

The races resulted as follows.—

Boys' race 8 and under—H. Guim, H. Webber.

Boys' race, 9 to 12 years.—Harry McConnel, Norman Weldon.

Girl's race, 9 to 12 years.—Florence Scott, Pearl Kemp.

Boy's race, 13 to 17 years.—Budd Miller, Bruce McConnel.

Girl's race, 13 to 17 years.—Isabella Elcome, Ethel Rutherford.

Boy's race, over 17 years.—Jas. Elcome, Percy Blade.

Girl's race, over 17 years.—Emily Miller, Annie Hillier.

Boy's three-legged race.—James Elcome and Percy Blade.

Girls three-legged race.—Ethel Garbutt and Alice Hardwicke.

Boy's sack race.—Geo. Cross, W. Garbutt.

Girl's name race, at 4 points.—Emily Miller, Olive Yelland.

Boy's name race.—Jas. Ellis, Percy Blade.

Necktie race.—M. Mann, tied by Miss L. Webber, Bruce McConnel 2nd.

Boy's wheelbarrow race.—Walter Garbutt and Geo. Cross.

Potato race.—Miss Garbutt, Miss Martin 2nd.

Scholars.—Bert Cross, Bruce McConnel.

Boot and shoe race, boys.—Bruce McConnel, Earl Cross.

Boot and shoe race, girls.—Abby Garbutt, Emily Miller.

Boys consolation, under 10.—R. Stevenson, Will Hardwicke.

Girl's consolation under 10.—Minnie Cross, Doris Rathbone.

Consumers Must Observe By-law

Persons who are in the habit of watering lawns must observe the hours prescribed by the bylaw, and not waste the water. Any one desiring to sprinkle yards, grass plots, boulevards, etc., must do so between the hours of 5 and 9 o'clock in the morning, and 4 and 9 o'clock in the afternoon. Supt. Henderson intends seeing that the provision in the bylaw with respect to the hours is rigidly observed.

The Conservatives of New Brunswick are to give St. John its sixth newspaper, the Standard.

Ontario Historical Society Meeting

Many Valuable Papers Will be Read at the Coming Meeting

The annual meeting of the Ontario Historical Society, of which Lieut.-Col H. C. Rogers, of this city, is president will be held in the Senate Chamber of Queen's University at Kingston, on July 18 and 19, when it is expected that many valuable papers will be read, including the following:—

Some Epochs in the Story of old Kingston.

(a) The Founding of Fort Frontenac.

(b) The Coming of the Loyalists.

(c) The Proclamation of the Separate Province of Upper Canada by Governor Simcoe at Kingston.

(d) The opening of the First Parliament of United Canada by Lord Sydenham.

Miss Helen M. Merrill: Indian Pottery of Prince Edward County.

Mr. Barlow Cumberland: Noted from an order book issued to "H.M. Navy on the Lakes" in 1816.

Other papers are expected from Miss Carnochan; R. Vashon Rogers, Esq., K.C., LL.D; Clarance M. Warner, Esq.; W. S. Ellis, Esq., M.A., "Historic Incidents in the History of Kingston" (with limelight illustrations).

Addresses will be delivered by His Worship, Mayor Mowatt, the Hon. Peter Porter, of Niagara Falls, N.Y., J. H. Coyne, Esq., and others.

Arrangements will probably be made by the civic committee for the accommodation of ladies while attending the meeting.

A steamer has been chartered to convey members of the Society and visitors to Adolphustown and Bath—two very interesting historic places.

As heretofore, arrangements have been made with railway companies for return tickets at reduced rates, if 50 or more tickets are sold, accompanied by standard certificates which must be procured from the agent who sells the ticket.

Be sure to ask for a standard certificate when you buy your ticket.

Local Societies are entitled to send as many delegates as they please, but only two will be entitled to vote, and these two should have written authority so to do from the secretary of their society.

Local Society reports should be forwarded to the secretary as soon as possible.

WEDDING BELLS

HATLEY—DOW

The following from the Stratford Beacon will be read with interest by many friends in Peterborough, the groom being a brother of Mrs (Rev.) Langfeldt, and a frequent visitor to this city;—

"A quiet wedding took place on June 19th, at the residence of Mr. Jas. Dow, when his youngest daughter, Miss Chryssie, was united in marriage to Bert W. Hatley, of Orillia. The Rev. R. Martin was the officiating clergyman, assisted by the Rev. Dr. Hamilton. The wedding march was played by Miss Jessie Dow, of Exeter. The bride was charmingly attired in a gown of maize chiffon taffeta, with Dresden silk and heavy cream lace. Luncheon was served to about twenty-five guests. The table decorations were of pink and white. Mr. and Mrs. Hatley left on the afternoon train for a trip to Montreal, whence they will go to their home in Orillia. The bride's travelling gown was of myrtle green chiffon broadcloth with hat to match. A large number of handsome gifts were received by the bridal couple, evincing the esteem in which they are held by a wide circle of friends. The groom's gift to the bride was a beautiful diamond pendant. On Monday evening last a party of the bride's friends gave her a surprise visit and presented her with a kitchen shower. Dr. Jas. Dow, of Church's Ferry, N.D., was an attendant at the wedding.

RUMBELOW—FOY

Mr. Harry Rumbelow and Miss Josephine Foy, daughter of Mr. Henry Foy, Munro Avenue, were quietly wedded on Wednesday afternoon, at the Charlotte street church parsonage, by Rev. H. M. Manning. The young people were unattended.

After the ceremony the happy couple returned to the home of the bride's parents, where a wedding repast had been spread. Only the immediate friends and relatives of the contracting parties were present.

Mr. and Mrs. Rumbelow have gone to Port Hope, Cobourg and Rochester, and on their return will reside at 127 Stewart street. Many pretty presents were received from friends of the young couple.

Sixty Teachers are in Attendance

At the Special Training Session in St. Peter's School

Approximately six hundred Separate School teachers started work at the special summer training schools provided by the Government which opened on Tuesday. The reported attendance is as follows,—

Peterborough—60.

Toronto—Ladies 125, gentlemen 25.

Ottawa—French teachers 150, English 115.

Hamilton—50.

Berlin—48.

London—55.

THE TEACHING STAFFS.

The full teaching staffs are as follows,—

Peterborough—Mr. G. B. Broderick, principal, and Mr. M. O'Brien, assistant.

Toronto—At De La Salle Separate School, Mr. W. H. Elliott, B. A., principal, and Mr. Wm. Prendergast, assistant; at the University, Mr. W. Scott, B. A., principal, and Messrs. J. W. Plewes, Chatham, and W. Wilson, Toronto Junction, assistants.

Ottawa—At D'Youville Separate School, Mr. T. Rochon, principal, and Messrs. Finn and Sullivan, assistants; at the Normal School, Mr. J. H. Putman, principal, and Messrs. Keys, Cornwall, and Jordan, Port Hope, assistants.

Hamilton—Mr. S. B. Silcox, D.Paed, principal, and Mr. Robinson, assistant.

Berlin.—Mr. J. F. Power, B.A., principal and Mr. Suddaby, assistant.

London—Mr. F. W. Merchant, D. Paed., principal, and Mr. Dearness, assistant.

The syllabus of the course of study includes—Educational principles and methodology, school management, school programme of studies, grammar, spelling, language, composition, literature, reading, geography, history, arithmetic, nature study and art and constructive work.

TILL AUGUST 3RD.

The summer schools were established by the Ontario Government to enable Roman Catholic Separate School teachers and the Christian Brothers to qualify in accordance with the School Act of Ontario, a step necessitated by the recent Privy Council decision.

The schools will continue their sessions until the third of August. In most places there are two daily sessions from 8 to 11 or 9 to 12, and 2 to 4 o'clock. The work taken up is practically the same as the Model Schools of the Province, and is for professional training only. Those who have not taught for seven years will be required to pass the regular junior leaving examination, independent altogether of the tests applied by these special schools.

The establishment of these schools was the result of the Privy Council decision in the Christian Brothers' case in which the latter were declared to be ineligible for teaching in the Separate Schools of the Province under the existing regulations. The decision at once affected, not only the Christian Brothers, but female members of Roman Catholic communities, such as the sisters of St. Joseph, and the Sisters of Loretto.

A GENEROUS RESPONSE.

The response to the provision made by the Government has been generous all over the province. In Toronto, about eighty per cent. of the Separate School teachers are in attendance. The males, twenty-six in number, all of them Christian Brothers, are meeting at the De La Salle Separate School, while one hundred and twenty-five female teachers came from this city and a radius of forty miles to the north and east.

"The lectures have been arranged to last from eight in the morning to one o'clock, so as to avoid the heat of the day," said Mr. Prendergast to the News. "The subjects taught are exactly those of the Model Schools, psychology, history of education, school management, methods in teaching, etc. Nearly all who require this training are in attendance today.";

CONTINUED NEXT YEAR.

The school will be continued next year. The only ones who will be qualified, professionally by the one year's attendance, are those who have taught for at least seven years. These permanent certificates will be granted. The others must attend next year also.

THURSDAY, JULY 4, 1907

SUGGESTIVE PICTURES

In Toronto the Good, a war is being waged against suggestive and indecent picture post cards. In Peterborough a few weeks ago, the Chief of Police visited the dealers and told some of them to eliminate certain cards, which were a little too "broad."

The picture post card fad has developed into a perfect craze, and thousands upon thousands are disposed of, but, in the making of these cards, some foreign manufacturers have gone too far. They have prostituted the art. Certain productions have been set afloat that should be burned and the plates destroyed.

What is the age coming to? With the loud, splashy and silly colored supplements of Sunday newspapers and the suggestive and immoral character of many lithographs, pictures and post cards, the tendency is to pander to the vicious and evil imagination of the young. The effect is anything but salutary or encouraging, and it is gratifying to learn that the practice has to cease so far as putting these loathsome representations on the Canadian market is concerned. There is enough of the beautiful, the aesthetic and the attractive without resorting to the low, the base or the degrading. Art—true art—should be supported. The mind of young Canadians should be directed in proper channels. If boys and girls are allowed to constantly gaze upon some of the disgusting scenes and alleged funny incidents presented in certain comic papers and picture post cards there will be many wailings and heart burnings in the days to come. There is enough evil, sin and wickedness in real life. It abounds on all sides and there is no necessity of having the dark and loathsome pictures thrust into the homes and before the eyes of the growing generation.

It is gratifying to learn that the Toronto morality department is active in regard to snuffing out undesirable and suggestive post cards, and the authorities in other cities may well follow the aggressive example that is being set.

DO IT NOW

"Do it now." This is a good motto to follow in every day life. It is also an excellent rule for communities as well as individuals to live up to. Procrastination plays havoc with many and in the end causes regret and unnecessary trouble and expense.

In view of the early inauguration in Peterborough of street mail delivery, it would be well for the city to at once see that all houses are properly numbered, and that signs bearing the name of every street appear on each corner. This may seem a rather small matter but, if carried out now, it would save confusion, misunderstanding and vexation later on. It is said that not more than one half of the houses in Peterborough are correctly and plainly numbered. This is one of the first requisites of a reliable and proper delivery of mail matter.

Another matter of importance is that letter boxes should be placed at the side of the door of every dwelling, or an opening should be made in the door, through which the mail carrier may drop letters. People are not always at home, and mail matter cannot very easily be shoved under the door, or left with a neighbor. If so, it is very apt to go astray.

Will the people provide letter boxes for themselves? Will the city have the street names placed in a conspicuous place, and the houses properly numbered before mail delivery starts? Not a bit of it! It would be making preparations too far in advance, and, in accordance with the general rule, it will all be left over until the very last minute. Human nature is pretty much the same the world over, and the shrewd observer guesses that the adherence to the too general principle, "Don't do today what you can put off till tomorrow," will be adhered to in the present instance.

PEN POINTS.

Do not waste the city water.

Are you going to the lift lock opening tomorrow?

Watch Peterborough take the premier position in the Midland Baseball League and displace Port Hope.

The Thursday half holiday is an assured success in Peterborough and was generally observed yesterday.

This is pretty warm weather to nominate some political candidates, but the temperature will probably prove an excellent preliminary for a hot race later on.

To the claim that people have no right to enquire into the character of their rulers, and demand the withdrawal of immoral men, the St. Thomas Times makes the strong reply that a politician seeking the suffrages of the people should be above reproach. "Morality," says the Times, "is as important as honesty. Indeed, immorality, is dishonesty of the worst kind. We have a right to demand that our representatives in Parliament must be clean. We demand this because we do not want our young men to believe that men of tarnished character are acceptable, or that honors are to be bestowed upon those whose private lives are besmirched." This is a position that cannot be assailed, observes the Mail and Empire. Libertines at the head of public affairs are a danger to the State, and a disgrace to the people.

According to the report issued by the Ontario Education Department there are 719 High School teachers in Ontario at the present time. Of these 29.65 per cent., are women, which is an increase of eight per cent. in three years. There has also been a substantial increase in salaries. The highest salary paid was $3,500, and the average of principals was $1,303, and assistants $975. The average salary of men assistants was $1,091, and of women assistants $762. The report further deals with technical training. Inspector A. H. Leake is of the opinion that the teachers are not generally qualified to teach this branch of education practically, and suggests the establishment of a small grant to encourage more activity in this direction. Agricultural technical, commercial and academic High schools or classes are required. The claim is also made that present regulations are unfair to teachers now actively engaged who wish to teach manual training also. Many of them find it impossible to give up their situations and forfeit a year's salary in order to take the prescribed course. It is recommended that teachers entering the Macdonald Institute from the Normal School or Normal College should be credited with the work done at these institutions, and a corresponding reduction made from the length of the course.

Glorious Twelfth Will be Celebrated

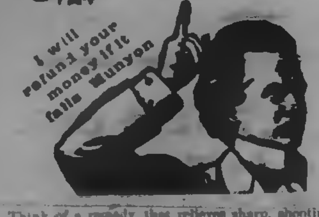
Havelock Making Big Preparations—Prominent Speakers

A grand celebration will be held in Havelock on July 12th, the 217th anniversary of the Battle of the Boyne. Preparations are being made by the energetic secretary, Mr. R. J. Graham, to accommodate 5,000 people. The streets will be elaborately decorated with arches, flags and bunting, for the procession, which will parade the principal streets, commencing at 1.30 p.m. to the public park wherein addresses will be delivered by F. M. Clark of Belleville, Grand Secretary of Ontario East; R. Gordon of Tweed, Grand Treasurer of Ontario East; T. E. Bradburn, M. P. P., for West Peterborough; Rev. E. A. Langfeldt and Col Miller, of Peterborough; Rev. Mr. McLennan, of Norwood; J. Hutchinson, County Master, and J. W. Thistlewaite, County Secretary, of Asphodel; J. A. Sexsmith, Deputy County Master of Belmont, the resident ministers, and others.

Single fare rates to Havelock on all trains east or west.

RHEUMATISM

MUNYON'S 3X CURES



I will refund your money if it fails Munyon

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a perfect cure in a few days.

It purifies the blood. Is neutralizes the acid and takes all inflammation and soreness away. Have you a lame or aching back, lumbago or sciatica?

Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's 3x Rheumatism Cure and see how quickly you will be cured.

If you have any kidney or bladder trouble get Munyon's Special Cure. Money back if it fails. Munyon's Vitalizer makes weak men strong and restores lost powers.

Havelock is Certainly in Bad Way if This is True

Citizen of the Railway Town Asks the County Constable to Send a Spy There to Investigate.

Evidently there is one citizen of Havelock who is not at all satisfied with the way things are being run in that town. He has written a letter to County Constable Cochrane, in which he condemns some features of life in Havelock, and asks that the constable send a spy down to find out for himself how rotten is the state of affairs. The letter is a curious mixture of bad spelling worse composition and starts off by saying that the county constable had better send a spy to Havelock to find out for himself how things are going, "as the police here are no good and we might as well not have any. The town is full of drunk men and Sunday is worse than week days." The writer names one hotel in the town that is worse than the others, and says it is a disgrace the way it is conducted.

"There is no law in this town," the writer continues, "and the other day a woman had to take the law in her own hands."

Several other grave charges against social conditions in the railway town are made in the letter. The writer signs himself "A citizen of Havelock."

Mr. W. E. Talbot Got Maskinonge That Was Larger Than Himself

Good fish stories are still being told. The excursions to Idyl Wyld yesterday morning were hailed by Mr. W. E. Talbot, who is summering at Stewart's Grove. Mr. Talbot that morning had caught a 'lunge in the river which was as big as himself. He was unable to get it into his boat and had to tow it upstream to his private wharf and there attach a rope to the fish's tail and pull it out. When the Otonabee passed, the lucky fisherman had just succeeded in getting his prey strung up on a limb of a tree and if he stood behind it, he could hardly be seen. For the next few days the principal item on the bill of fare at Talbot's Retreat, will be fish.

Caught by W. E. Talbot.

AT GOLF BAY

One of the best stories of the season is told on Mr. D. Hughes-Charles, manager of the Bank, of Commerce, and an enthusiastic golfer. Mr Charles, the other day, made a sensational finish in a sensational game at the links and to prove to the boys that he had only been fooling with them previously, he volunteered to knock his ball across the bay at the rear of the club house. The golfers gathered along the bank and Mr. Charles took a skimming shot over the water. Just about the middle of the bay a 13 pound lunge jumped out of the water and caught the ball in its mouth. But the force of the stoke was so great that the ball carried the fish right across and landed it high and dry on the other side where it was captured later and taken home.

The Weather for Month of July

The Forecast for Rev. Irl R Hicks for This Month

Rev Irl R. Hicks again promises storms for the second month of summer. His forecast, as contained in the current issue of his work, Words and Works, is as follows:—

The second storm period, regular, is central on the 8th, with the opposition of Mars on the 8th. Moon in apogee and at northern declination on the 9th, and a new on the 10th. A very warm wave will cross the country from the 6th to 11th, the barometer will fall at low readings, and blustering thunder storms will reach active to violent culminations on and touching the 8th to 10th. Look for only scattered rains, possible cloudbursts in localities widely separated. Rising barometer and change to cooler from about the 10th.

The third storm period, reactionary, is central on Saturday, Sunday and Monday, the 13th, 14th and 15th. The planet Mars is not only passing opposition, but he is nearer us July 12th than for fifteen years past, or than he will be for fifteen years to come. This fact enters largely into terrestrial problems through all this part of the month, also Jupiter's conjunction on the 16th. Seismic and volcanic disturbances will be most natural for a period of several days, centering on or about the 10th, the date of a solar eclipse. Low barometer, threatening conditions and heavy midsummer storms will culminate about the 13th, 14th and 15th. Existing causes may prolong storms and other disturbances on and through the 16th and 17th, into the next storm period.

The fourth storm period, regular, is central on the 20th, covering the 18th to 23rd. We fear, that the rainfall at this and other central and late July storm periods will be scattering and light. Very blustering storm clouds will almost certainly appear at the culmination of storm periods, and phenomenal "water spouts" may occur here and there; but the general rainfall will be far below the actual needs of the season. The 20th to 22nd will be culminating storm days, following which look for rising barometer and change to some cooler.

The fifth storm period, reactionary, is central on the 24th, 25th and 26th. The full moon at an eclipse node and perigee falls on the 24th. Within forty-eight hours of sunset on the 24th many storms and marked seismic distrubances will be heard from in many parts of the earth, so that a maximum of such phenomena may be noted. The temperature will fall after these storms.

The sixth storm period, regular, falls within a Mercury period. It is central on the 31st and extends from the 29th two days into August. Change to much warmer and gathering thunderstorms will begin in the west by the 29th, and during the four days following these conditions will pass eastwardly across the country.

DIED

McBAIN.—At 280 King street, Peterborough, on Thursday, July 4th, 1907, Margaret, relict of the late Wm. McBain, aged 82 years. Funeral from the residence tomorrow (Saturday) afternoon, at 2.30 o'clock, to Little Lake cemetery.

Mr. Duncan Brown, of Elora, has been appointed principal of Victoria school, Regina.

C.P.R. Crop Report is Very Satisfactory

Winnipeg, July 4.—C.P.R. crop bulletin issued this morning shows an improved condition of the grain throughout Manitoba and Saskatchewan. Rain has been very general in both provinces during the past week and the grain men are much encouraged, in spite of the very cold nights.

Stone for the New R. C. Church

A Stony Lake correspondent says: There are now over 3 dozen men engaged in taking out stone on what is known as Quarry Island. Some paving blocks and some stone to build a new church at Peterborough for the Roman Catholics. The stone is of a fine quality. It will be shipped direct from the quarry by the Trent Valley Canal.

Hastings Has Walking Club

The Hastings Walking Club had its first outing of the season on Wednesday evening last, when about a score of the members, mostly the fair sex, sailed down to Sunny Brae, on the steamer Rainbow, and walked from there up to town. Refreshments were served on the road Of course, no records were attempted, but with a little more practice, some of the members will be able to give Reynolds, the famous Port Hope pedestrian, a walk for his money.

Radiator Factory Will Start Work

Fowlds, Limited, have a gang of men busy on the power line up to the Radiator works, for the past week, and it is expected that next Monday morning the factory will start operations, says the Hastings Star.

Returns Thanks for Many Favors

Mr. W. J. McCallum Expresses Appreciation of the Large Patronage He Received

Mr W. J. McCallum wishes to give notice that he has disposed of his restaurant business to Mr. McEwen Spence, late of the Homewood Sanitarium, at Guelph, and that Mr. Spence took possession on Wednesday morning last.

Mr. McCallum also wishes to extend his sincere thanks to the people of Peterborough and vicinity for the unstinted patronage given him during the sixteen years he has been in business and he is glad to state that he is retiring from the business when it is at its best.

In selling his restaurant to Mr. Spence, Mr. McCallum did so, feeling that the new owner was a most capable man and would have no trouble in meeting the wishes of the people here.

Mr. McCallum, in thanking the citizens for assisting him, sincerely hopes that the same support will be tendered Mr. Spence, who will, he feels sure, give every satisfaction.

INVITES PATRONAGE

Mr. McEwen, Spence, late of Guelph, desires to notify the public that he has purchased the restaurant business conducted for the past 16 years by Mr. W J. McCallum, and in doing so, wishes to invite a continuance of the large patronage extended to his predecessor He assures the public of a prompt and satisfactory service, and hopes that the public generally will give him their support.

Belmont Men Were Taken in Charge

An Assault Case Which Will be Tried on Saturday

Havelock, July 4.—Messrs Frank and Fred Varty of Belmont, were arrested on the night of July 1st, on a charge of assaulting Mr R. Campney of town, and Mr. Charles Pearce, of Norwood, at the C. P. R. station, on that night.

Police court was held on Tuesday when they were allowed out on bail of $400 each. They will be tried before Magistrate Edminson, of Peterborough, on Saturday afternoon, and it is probable that other charges will be laid against the accused before that date.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

New Principal Has Been Secured

Mr. D. J. MacDonald Appointed by Havelock School Board —Other Notes

Havelock, July 4.—The regular monthly meeting of the village council was held in the town hall on Tuesday July 2nd. Reeve Thompson and Councillors Campney and Knox were present.

The following accounts were ordered to be paid.;

Ask your Druggist for "Royal Crown" Witch-Hazel Toilet Soap.

Mr. C. Plant, of Hastings, was in town on Monday.

Mr E. Murphy, of Toronto, formerly of town, has been appointed mechanical foreman of the C. P. R. here in succession to Mr. W. W. Webster.

VIEWS OF THE SOLDIERS TRIP

Interesting Pictures in R. M. Roy's Window

Many incidents of the trip of the 57th regiment to St. Catharines are portrayed in the picture shown in the windows of Roy's photograph studio. The "snaps" were taken by Mr. Fred Roy, and every one of them is excellent. The views are remarkably clear and every man in them can be recognized. Mr. Roy is having postcards made from the pictures, and no doubt they will meet with a large sale. The window is attracting a great deal of attention.

Mrs Thomas Donohue, of Tweed, fell from a bridge breaking her back and she may die.

Prince Fushimi has forwarded 50 pounds to Montreal, to be given the deserving institutions of the city.

Thirty-Seven Were Killed Yesterday

Special to the Review.

Chicago, July 5.—The Tribune today says; 37 men, women and children are dead, and 153 are maimed, lacerated or burned, as a result of yesterday's excess of patriotism in the United States.

PERSONAL

Mr. W. H. Hill, wife and family, have moved to their summer cottage at Chemong to spend the summer

Many friends in Peterborough will be pleased to hear that Mr. Wm. Cairns, of Lindsay, G.T.R. inspector of bridges and buildings, is able to be out again after undergoing an operation at a Toronto hospital.

Mr. and Mrs. Geo. Manning of Peterborough, were visiting friends in the village on Monday......Mr. Alex. Richardson and Miss Ada Richardson, 57 Peterborough, spent Monday in the village visiting friends.—Lakefield News.

Lakefield News: Miss Maud Manley of Peterborough, was the guest of Miss Eva Bullock, on Sunday last. .....Mrs. A. Campbell of Peterborough, was visiting her parents, Mr. and Mrs. W. Watson a few days this week.......Miss Conway and Miss Comrie, who have been visiting their cousin, Mrs. Grant, returned to Peterborough on Tuesday......Mr. Fred Blomfield, accountant at the Bank of Montreal, Amherst, N. S., paid a flying visit to his father on Saturday last, on his return from Detroit, Mich., where he was offered and accepted the position of auditor in the First National Bank.

Havelock Standard; Miss Nellie Taylor, of Peterborough, is the guest of Miss Dorricott...Miss Montgomery of Peterborough, is the guest of Mrs. S. J. Cross...Miss Elsie Taylor, of Peterborough, is the guest of Miss Bennett...Miss Rose Warren, of Preneveau, and Miss Bullen, of Peterborough, are guests of the Misses Bryans...Misses Booth and Pitman, of Peterborough, are the guests of Miss Howe...Mr. John Lancaster of Peterborough, is a guest of his cousin... Miss Lottie Chiles, of Peterborough, formerly of town, has successfully passed her examinations at the Toronto Conservatory of Music...County Clerk Ed. Elliott, and Messrs. Porter, Scott, Fife, Mober and Johnston, of the County Council, attended the celebration on Monday, and expressed themselves as being delighted with their visit and the beautiful park owned by the town...Mrs. M. H. McSwain, and Mrs Tuck, of town, sang at a recital given by Mrs. W. J. Morrow at St. Peter's hall, Peterborough, Wednesday night of last week.

Shipbuilder Geo. Hickey Has Contracts for Two More Scows

Department of Railways and Canals is Getting a Sweep Scow for the Northern Section—Capt. Burnett Getting a Passenger Scow.

The ship yards at Point St. Charles are again a busy scene. Mr. Geo. Hickey has taken a contract and has started work on a new sweep scow for the Department of Railways and Canals. A sweep scow is used for the purpose of clearing the channel of any obstacles which might be on the bottom and for taking soundings, etc. The new boat will, it is expected be used on Lake Simcoe and the northern stretch of the canal. It will be an ordinary scow with a deck on and will be built of Douglas fir, or as some people call it British Columbia pine, and will be forty feet long by twenty feet beam. On the deck will be a derrick and a full equipment for carrying on its work. Mr. Hickey expects to have the scow ready to launch about the middle of August.

Shipbuilder Geo. Hickey has his men working on a second scow for Capt. Burnett of the Rainbow. This scow is being built at Birdsall and will be used for passenger traffic in connection with the Rainbow. It will be eighty feet long, by sixteen feet beam and will be decked with hardwood for dancing. Owing to the inconvenience of getting material down to Birdsall, the job will take longer than if it had been built at Point St. Charles, and it is doubtful if the boat is ready before September. This will be too late for most of the excursions this year, although there may be a few outings in the early fall.

Local Customs House to Be Completely Re-wired

The Peterborough customs house is to be entirely re-wired for electric lighting purposes. The contract for the work has been awarded to F. R. J. MacPherson, and operations will be started at once. Mr. Hastings, one of the officials of the Public Works Department at Ottawa, is in the city, and the contract was awarded to Mr. MacPherson today.

The present wiring of the building is exceedingly antiquated, hence the action taken. The building will be completely rewired, and the electric lighting system will be greatly improved. This will be good news to the customs house officials, who in the past have suffered considerably from poor lighting.

Was Killed by a Freight Train While Crossing Railway Track

Special to the Review.

Brighton, July 5.—A sad fatality occurred about four miles east of here this morning. Mr. McCullough, of Trenton, accompanied by Mrs. McCoy was driving to Brighton crossing in a buggy and was crossing the track at Post Crossing, when the buggy was hit by the up-bound freight on the Grand Trunk.

Mr. McCullough was killed and Mrs McCoy was badly injured. It is expected that the latter will recover The man was hard of hearing and did not hear the train coming although the woman saw the danger and tried to stop him.

Juvenile Offenders Before Magistrate

Juvenile court is being held this afternoon at the police court. The young lads who were remanded a few days ago, on a charge of stealing oats from the Quaker Oats Co.'s cars came up before His Worship They are Norman and Walter LeBar, Percy Holland, F. O'Hern and G. O'Hern, W. Armstrong and G. Brisbois. The first two pleaded guilty, while the others pleaded not guilty. Mr. F. D. Kerr was present for the Quaker Oats Company, and Mr. E. L. Goodwill for the Children's Aid Society on behalf of the young boys.

Norman LeBar told how that he and his brother went down to the car, having been asked to go by Percy Holland. They got about half a peck of oats off the floor. Another day a tall man employed in a city mill told them to get a bag and go and gather oats, which they did..

Young LeBar was still giving evidence at the time of going to press.

Previous to this case another young lad, Anthony Mongaw was charged with stealing a watch and breaking the face and hands of it, and then throwing it into the field. He pleaded guilty but the case has not yet been disposed of.

TO-NIGHT'S EVENTS

Victoria Park.—Regular band concert at 8.30, after the inspection of 57th Regiment.

Meeting of building committee of Park street church.

Excelsior Fruit Cleaner Mfg. Co.

Will Commence Operations on Simcoe Street at Once

A new manufacturing concern has been established in Peterborough, and will commence operations at once. The firm will make a patented current breaker and power and hand cleaners for all kinds of dried and evaporated fruits. The head office and factory will be in this city and they have patent rights in Canada the United States, Australia, and New Zealand, and it is the intention, as soon as a good home trade is worked up, to export to the above named countries.

Mr. F. J. Jameson will be in charge of the head office of the new concern, which is known as the Excelsior Fruit Cleaner Manufacturing Co. Mr. Robt. B. McGill, of Peterborough will be in charge of the assembling room and installing of plants, and Mr. John J. Sadler, of Toronto, will be the travelling representative.

The Excelsior Fruit Cleaner is a new machine, which will sell on its merits, and there is no doubt but that those gentlemen who have invested their money in the enterprise, will meet with success, as the machine is a household necessity, with wholesale grocers, buscuit makers, confectioners, and other large users of dried and evaporated fruits

The firm have orders now for installing plants in Brooklyn, N.Y.; Dunnville, Ohio; Montreal, Que.; Minneapolis, Detroit, Brantford and Toronto. New plants have recently been installed in Texas, and in several of the cities on the Pacific Coast, and other centres, where the wholesale fruit business is entered into extensively. The future of the concern is very bright and the people will wish them every success, and it should soon develop into an important industry in Peterborough

Teach Hygiene in Public Schools

Kingston, July 4.— On motion of Sir James Grant, and seconded by Dr W. H. Moorehouse, ex-president the Ontario Medical Council today recorded its united opinion that instruction in hygiene and temperance should be specifically introduced into the school curriculum of Ontario and that facilities for special training in these subjects should be provided for all teachers. Dr. James Grant spoke strongly in urging that the subjects should be taught. The resolution was heartily adopted.

A new register corrected to December, 1907, will be issued. Many hours of the sessions have been spent in discussing what committee shall deal with the matter of securing a site in Toronto for a new council building, but so far any proposals for a special committee or an enlargement of the Property Committee, have met with defeat.

The council does not think the fifth year of training for medical students is well provided for. Dr. Britton, Toronto, moved for a special committee to look into the matter Others thought the Educational Committee should do the investigating After a lively discussion the motion was lost 13 to 10. The Educational Committee will not.

The council will likely decide on a site for its new building in Toronto meantime doing business at 83 Isabella street.

A testimonial for Hon. Dr. Pyne will be arranged by a special committee.

Tonight the medical men were the guests of the Queen's medical faculty and were entertained at the Yacht Club. A smoker, with its freedom, was the main feature of the night's pleasure.

FACTS—JUST PLAIN, POINTED FACTS

STOCK MARKET QUOTATIONS

New York, July 5th.—The market was strong from the start today, there being some outside participation along specialty lines, although moderate in extent. The tone of the market was good, though dull. Recessions brought out but little stock. Some was met on advances, but the offerings were not material. The market is in the hands of the manipulators who seem content with a creeping improvement and specialty prominence. This procedure is likely to be maintained, although a recession is approaching and we would not buy on the bulges as a rule. On them, part profits at present should be taken.

The Copper stocks and the B. R. T. showed strength again, and scored nice advances, while the Hill and Harriman issues acted well along St. Paul and Reading. The entrance of Lawson into market manipulations has only served to confuse traders who are waiting to see what it will amount to. He is bulling stocks hard in open advertisements in the papers, but it is hard to see how the Standard Oil crowd is going to let him run things very long. The close was quiet but strong.

Arrangements for Lift Lock Opening

Peterborough People Will Leave For Kirkfield To-morrow at 7.20 O'clock.

Those who purpose attending the lift lock opening at Kirkfield tomorrow afternoon, will leave the G. T. R station tomorrow morning at 7.20 o'clock for Lindsay, where they will take boat for Kirkfield. After the ceremony the boat will convey the company to Beaverton, when the return trip will be made by train in the evening.

HAD GREAT LUCK

Mr. Sam. Baker has probably had the most luck of the large number of fishermen who daily take a canoe and trawling line and go to try their luck in Little Lake. Mr Baker has been out fishing eight times this season, and seven out of the eight, he has succeeded in landing some dandy fish. Yesterday was the best catch of all. He just got down as far as the Peterborough wharf when he felt something like a fish jerking at his line. It was a fish, too, and a good, large one at that, weighing 16 pounds. This is a pretty good any rate, Mr. Baker was well satisfied with that day's outing. He has all the foundry men in Peter Hamilton's sore on him for they see him coming every morning with a fish

GOLF

The Peterborough ladies golf team played a return match against the Port Hope ladies at the lakeside town yesterda afternoon and were defeated by eleven points. As the Peterborough team only won by eight points when the match was played here last week, the Port Hope ladies are three points ahead on the two games. The ladies from Peterborough who played yesterday were Miss Clementi, Miss Pearl Lundy, Miss B. Morrow, Miss G. Hall, Mrs. W. H. Hill, Mrs. Coulthard, Mrs. Gardiner, Miss Aylmer, Miss Helen Davidson and Mrs. R. R. Hall.

Miss Marley Hall and Miss Dumble also went along. The visiting ladies were entertained to a luncheon by the Port Hope club and had a most enjoyable time.

LAROSSE

ORILLIA LEFT THE FIELD.

Bracebridge, July 3.—The opening junior C.L.A. game in this district was played here today with Orillia, and resulted in a victory for the home team of 8 to 2, the Orillia team leaving the grounds at about three-quarters time. Orillia scored in the second quarter when Bracebridge had three men off, and again in the third quarter. Field Captain Finds of Orillia started a fight with a local player and got somewhat roughly handled in consequence. Though the locals had police on the grounds and gave the visitors perfect protection, their manager refused to continue to play. Bracebridge had much the better of the play. Anderson of Beavreton refereed.

NEW EXPERIMENTAL FARM

Somewhere just north of McDougall's chute, beyond the present end of steel in the Temiskaming and Northern Ontario Railway, is the locality said to have been chosen for the Government's experimental farm for Northern Ontario. Hon. Messrs. Cochrane and Monteith looked over the country last week for the purpose of choosing a site and this is said to be their choice.

C.P.R. HOUSE BURNED

On Sunday morning last at 3 a.m. fire of an incendiary origin started in the C.P.R. house at Ivanhoe, and completely destroyed the building. There was nothing in the house but a range, the place having been vacated about two weeks before. The stables and shed adjoining were threatened with destruction also, but the rain which fell during the night saved them.

Alexander Crombie, of Vancouver, was whirled around a shaft in the Royal City Mills and may die of his injuries.

COMING FROM FAR AND NEAR

From the surrounding towns and villages and county as well as the city, persons are coming every day and have the benefit of the skill and experience of our specialist, who is kept busy examining eyes for glasses and fitting artificial eyes. Mr. Browitt's work is a great success, his methods, his instruments and the years of experience which he has enjoyed in the United States and Canada, qualify him in a manner which few Canadians can equal and we do not wonder now that Mr. Browitt has made Peterboro' his home, that his work is appreciated and that he is meeting with the success he deserves.

Big Excursion From Toronto

Will Come to Peterborough on Saturday July 20th

On Saturday, July 20th, the I.O.O.F., Toronto, will come to Peterborough. When the Oddfellows were there a year ago to the annual convention, they got such a good impression of the city and of the people that, at that time, they promised themselves a return visit. They are this year running their annual excursion here, and as the Oddfellows are very strong in Toronto, there should be an immense crowd in the city on that day.

The excursion will bring down about a thousand people, and they will spend the day around the city, in the parks, and at the lift lock. The special train will leave Toronto Union Station at 8.15 a.m. and will arrive in Peterborough about 11 o'clock. On the return trip the train will leave at 8.30 p.m.

A splendid programme of sports has been arranged, and will be run off in the afternoon. This includes a drawing contest for the ladies, and they expect to have a fine day.

Annual Meeting of Yacht Club

The annual meeting of the Chemong Yacht Club will be held at the club house this evening. A full attendance is requested.

Cressman's

Will Petition Council for Foot Bridge Over River Near C.P.R.

Residents of Ashburnham are facing a Serious Rroposition since the C.P.R. Stopped Them Using its Bridge—Suggested That a Ferry be put on.

Since the C.P.R. detective has been getting busy laying complaints against citizens crossing the railway bridge the residents of Ashburnham have put in circulation a petition which will be sent to the City Council on Monday. Summons have been sent out to some fifty people, who are in the habit of crossing the C.P.R. bridge to and from their work. If they are not allowed to use it in future it will mean a very long walk for them as the next bridge over the river is at Hunter street. This will mean that those living in Ashburnham who work at the Matthews Co's establishment, or in the vicinity of the C.P.R., will have a mile further to go at least, and in the boiling sun, or the cold of winter, or in the rain that is no fun. In fact it is not enjoyable at any time.

The Ashburnham people will be greatly inconvenienced, and something will have to be done to relieve them. This brings up the correspondence between the C.P.R. and the city several years ago, when there was a proposition to have a foot bridge constructed alongside the railway bridge, similar to that at the Smith street bridge. Whether this can be arranged is hard to say, especially whether or not the railway company will be willing to bear any of the expense, or even allow the city to build the foot bridge addition to their bridge. It probably could be arranged for the city to construct the foot bridge, and also a sidewalk from George street, so as to keep everyone off the tracks. The people in Ashburnham are asking the council to construct such a bridge to enable them to cross the river without coming away up town. They propose to start the foot passage from about Maria street across the river, and then a sidewalk along the track to George street. This is a long stretch and will be an expensive piece of work, and will also require several weeks, if not months, to complete it. It is an entirely new proposition for the present Council, and before they jump at conclusions they will have to consider it carefully for some time.

Another scheme which might possibly be worked would be a ferry across from, say Maria street to the Wolfe street wharf. This would probably be the cheapest way out of the difficulty for this year, anyway. It would take longer to cross, as the current at that point is very strong, but it is better than going away around by Hunter street.

Spokane Bachelor Writes In Hopes of Getting a Wife

Here's the Chance Many Girls in Peterborough Have Been Looking for--Read the Specifications as Set Out in a Letter Received by the Review.

Peterborough girls, attention!

Here's the chance of a life time, the only real, unadulterated marriage proposition on the market at the present time. The Review is sure there are several hundred girls in Peterborough, who can fulfill every requirement specified in the letter, which appears below. Who'll be the first to step up?

The Review's mail today contained the following interesting letter, which was addressed to the "Editor of the Review." It is reproduced below,

Spokane, Wash.,
July 1st, 1907.

The Evening Review;
Dear Mr. Editor,—

I hope you will do Cupid a favor and publish this.

I beg to say I am a respectable and well educated bachelor of good family, 40 years old, and I desire a British Canadian lady for a wife; a lady who is not encumbered, who is fairly well educated, amiable in disposition; one, especially, who has had a good mother, and who is about thirty years old. Her letters would be treated as sacredly confidential.

Thanking you for such attention as you may give,

Respectfully yours,
Gerald Wallace,
Care general delivery.
Spokane, Wash., U.S.A.

Get into the game girls; this may be the last chance.

HAND LACERATED

The first accident this season at the Rathbun Co.'s saw mill, Tweed, occurred just after dinner on Saturday June 22, when Mr. Simon Cournoyier, son of Mr. Peter Cournoyier, of Stoco, had his right hand very badly lacerated by one of the saws. He was taking another man's place for the afternoon and had only started on the work when the accident happened. Three fingers were almost severed close to the hand, and the fourth was severely torn. One finger had to be amputated, but hopes are entertained of saving the others. So far his condition is favorable

YOU ARE SICK!

You're uneasy, restless, without appetite. Still worse, you are thin and fagged out. Work must be done, but where is the strength coming from? Make your blood nutritious and you'll have lots of strength.

Your only hope is Ferrozone, the great food tonic,

FERROZONE

It's a blood maker, blood purifier, blood enricher. It brings sharp appetite, digests and converts all you eat into nourishment.

Ferrozone makes muscle, tissue, nerve. It strengthens in a week, builds up anyone in a month. Think of it. You'll live longer and feel better by using Ferrozone. Avoid substitutes.

Price 50c per box or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

WANTED

By THE CANADA LIFE ASSURANCE COMPANY, a Smart Young Man as City representative. A thorough acquaintance in Peterborough, with good general education, absolutely necessary. Will give special preference to good penman.

S. E. SALLS,
District Manager

Peterborough, June 22, 1907.

Slippery Customer Tried Hard To Work Bogus Check Game

Lady Clerk at Postoffice Swindled by Sharper.

Bogus Cheque Artist Foiled—Tries All Day to Find Easy Mark In St. Catharines — Merchants Will Not Bite—Gets Five Dollars by Envelope Trick From Unsuspicious Girl.

St. Catharines, July 6.—A slippery customer visited the city Thursday and endeavored to work a bogus cheque game upon several merchants. The first place he visited was Charles Togan's furniture store, where he tendered a cheque for $458 in payment for $152 worth of furniture purchased. He did not get away with the game, however, as Mr. Logan was suspicious and refused to accept the cheque. The stores of Andrew Foster, John W. Timmons and Roath & Furminger were also visited with the same or similar motives, but in no case did the game come out as anticipated.

At the postoffice he approached the stamp wicket and asked the young lady if she could give him a $20 bill or $20 in bills. She replied that she had a $10 bill and two $5 bills, and he then emptied his pocket, saying that would do. Fifteen dollars was found all right and taken by the young lady, but upon counting over the balance, $5 was found to be only $4.75. In the meantime he had asked her to put it in an envelope and seal it.

The young lady then turned to wait upon other customers, and later returned to him and told him of the shortage, to which he replied: "Oh, she must have given me the wrong change." He then handed her the envelope, promising to go and get the correct change, and she, supposing it to be the original $20 put it in the cash drawer. Suspicion that all was not right occurred to her next morning, and upon opening the envelope it was found to contain a blank paper. The man departed on a trolley car for the Falls.

SET FIRE TO POWDER.

Little Boy Will Lose Sight of Eye as Result.

Kingston, July 6.—Willie Davy, 6 years old, son of Charles Davy, Petworth, got hold of a bottle containing gunpowder, and, childlike, lighted a match and applied it to the powder, with the result that the powder exploded, bursting the bottle into fragments and burning the lad's face and arms terribly.

The little fellow will lose the sight of one eye. The house was also set on fire, but the flames were extinguished

VILLAGE FIRE SWEPT.

Twenty-Six Buildings In Lawrence, N. Y., Burned Away.

Malone, N. Y., July 6.—Twenty-six buildings, including every business place in North Lawrence, were destroyed by the fire which, fanned by a strong wind, swept through the village yesterday at a pace which defied the efforts of the fire-fighters sent from Malone. The loss is estimated at $75,000, with small insurance.

Toronto Man Suicides.

Winnipeg, July 6.—An unknown Toronto man committed suicide in the Assiniboine River near Osborne Bridge at 2.30 yesterday morning. A police constable saw him standing on the river bank and going down the man jumped into the water.

The officer followed him to the centre of the stream, where the man sank, throwing his hands in the air and crying, "It's too late."

His pockets were filled with stones. He was about 30 years of age and wore a light suit, with white hat and shoes.

Drown In Escaping Flames.

Quebec, July 6.—A fierce forest fire is raging near Reed Station, 60 miles from here, and has caused the death of three men.

They were trying to escape from the fire and rushed into a lake and were drowned. Only one of the victims has been identified. He is an Englishman named W. T. Macdonald.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

MISSING TELLER ARRESTED.

Had Satchel In His Possession Containing $64,000.

New York, July 6.—Chester B. Runyan, the missing teller of the Windsor Trust Company, who disappeared with about $96,000 of the company's funds, several days ago, was arrested in this city yesterday.

Runyan carried a satchel containing $64,000 when arrested. A Mrs. Cotler, in whose home he was captured and to whom he said he had given $15,000, was also detained by the police.

That Runyan was not the immaculate young man he employers thought he was, up to the day he went off with his dress suit case stuffed with the trust company's money, is now an established fact. For weeks before his disappearance he had been speculating in stocks under the name of Martin Chase. Speculative accounts that he carried with three stock brokerage houses have been unearthed.

BANDIT DEGRADES MACLEAN.

Forced Him to Remove His Turban and Ride Mule.

Tangier, July 6.—The British legation here has no news of Kaid Gen. Maclean, the commander of the Sultan's bodyguard, and is making representations direct to the authorities at Fez.

When Gen. Maclean was captured Raisuli ordered him to dismount from his horse and mount a mule, in order to show his inferior station, and also directed him to remove his turban, declaring that such a headdress was reserved for the Mussulman.

Ice Drivers' Strike Off.

New York, N.Y., July 6.—The strike of the American Ice Co. drivers, which had already been hopelessly broken, was formally declared off at a meeting of delegates from the Drivers' and Helpers' Union yesterday.

The action followed a final refusal by President Oler to treat with the strikers. Mr. Oler said, however, that he would be glad to take back the men and to hear and adjust any grievances presented by active employes.

British Columbia Surplus.

Vancouver, B.-C., July 6.—Upon the deficits of previous Governments British Columbia has piled up what, at the end of the year, will be a surplus of $1,000,000, the greatest in the history of the province.

Dr. Henry Smith, of Norfolk, Va., is in Hamilton, trying to induce Canadian farmers to go south.

DISBELIEVE THE STORY.

Do Not Think Sending Ships to Pacific Was Dewey's Plan.

Tokio, July 6.—The report from Washington attributing the proposed sending of 16 battleships to the Pacific coast to Admiral Dewey's private plan, is generally disbelieved here by those whose knowledge and experience entitles their opinion to some attention.

The United States is not known to possess naval bases in the Pacific adequate for such purposes, and the impression prevails that the sending of so large a squadron where sufficient rendezvous does not exist would simply mean that the vessels would be an easy prey to torpedo boats and destroyers.

Should 16 battleships be so employed as to disprove this impression, a record-breaking naval feat will have to be accomplished.

In a Time of Peace.

Oyster Bay, July 6.—On leaving Sagamore Hill yesterday afternoon, Rear Admiral Bronson said the cruising plans of the battleships fleet were barely mentioned at the president's luncheon. The admiral said he would like to emphasize the point that there was no time more propitious to ascertain just what a battleship fleet could do in making an extensive cruise than a time of profound peace, such as prevailed now, when, he said, the United States had not an enemy in the world.

CORNWALL CANAL BLOCKED.

Ionia Strikes Gates and Tears Them From Fastenings.

Cornwall, July 6.—Navigation in the Cornwall Canal was blocked last night by the wrecking of the two upper gates of lock 17 by the steam barge Ionia of Picton, owned by Capt. Ham of Ottawa and loaded to a depth of 10 feet with pulp wood, consigned from Three Rivers to Fort Erie.

The Ionia had entered lock 17 and as the lock was being filled she surged ahead and struck the south gate with great force, tearing it from its fastenings. The weight of water in the level a mile and a quarter long tore the other gate loose and threw the steamer stern first against the lower gates. Fortunately the fireman, hearing the shouts of the lockmen and signals of the captain turned on full steam ahead and thus relieved the pressure on the lower gates, which, although damaged, did not give away.

As soon as the matter was reported, Frank Lally, overseer of the Cornwall Canal, mustered a large force of men, and after sending down Diver Walter Gallagher to clear away the wreckage and gravel in the bottom, started work with the lockgate lifter to replace the gates. He hopes to have the canal fit for navigation early in the morning, unless something unlooked for occurs.

FUGITIVE MURDERED.

Famous Western Outlaw Shot on International Boundary Line.

Vancouver, B. C., July 6.—Jake Terry, notorious outlaw and fugitive from justice, was shot and killed yesterday at Sumas, on the international boundary line, thirty miles from here, by Gus Lindsay. The latter was incensed because Terry had visited his former wife, who is now married to Lindsay.

Lindsay had threatened on several occasions that he would shoot Terry, and yesterday morning saw the latter coming away from his wife's bedroom door. Terry died immediately. Citizens are ready to furnish $50,000 bail for Lindsay, who is popular in the boundary town. Terry had been ordered out of town last year, and was despised by the citizens.

He was living in Vancouver until Thursday, when he left for Sumas. He was for two years engaged as C. P. R. detective, engaged in hunting down Bill Miner and his gang of train robbers, of which he professed to be a former member.

POSSE AFTER JOE.

Escaped Criminal Is In Woods and Well Armed.

Grandview, Man., July 6—A posse of 30 men are pursuing Joseph Wynn, charged with shooting Joseph Story, who broke jail at Grandview last week. Wynn has been seen a couple of times, but the posse are reluctant about approaching him, as his record shows him to be a dangerous man. He is known to have a pistol and rifle and a quantity of ammunition, which he will use rather than stand for re-arrest.

The escaped man knows every foot of the country over which he is being pursued, and has the advantage. The country itself also favors him owing to its rough character, which makes pursuit slow.

WILL NOT GRANT DEMANDS.

Government Refuses Increase Wanted By Freight Handlers.

Ottawa, July 6.—M. J. Butler, Deputy Minister of Railways, stated yesterday morning that the department would not grant the demands of the striking Intercolonial freight handlers at Halifax for an increase of wages before returning to work.

If the men would go back to work at the present rate, he said, their grievances would be investigated by a board of investigation and conciliation, but it was not fair to grant an increase first and then investigate.

Severe Storm At Sedley.

Sedley, Sask., July 6.—Sedley was hit by a storm of terrific violence Thursday night about 6 o'clock, accompanied by a hail storm. No serious damage was done in the town, but to the southwest crops were cut down very badly.

There are reports of chickens being killed by the hailstones.

Three Drowned.

Bangor, Maine, July 6.—By the capsizing of a canoe in St. Croix Lake, near Howe Brock, Fred Logan and Thomas Hillyard of St. John, N. B., and Charles Gough of Fredericton, N. B., were drowned.

While canoeing on the Assiniboine River, near Marquette, Man., a young German, J. Kauffman, was drowned.

HE NEVER MADE A BOMB

Legless Miner, Whom Orchard Accused, Gives Denial.

Declared to Have Been Chief Bombmaker—How Alibi Was Established—Letters Sent to Alaska for Post—Wife of Former Detective Contradicts Orchard—Death of Witness Causes Delay.

Boise, Idaho, July 6.—Haywood's trial was resumed at 10 a. m. yesterday, the defence continuing its testimony. Marion Moore, a member of the Executive Board of the Western Federation was called. Darrow announced that the death of Frank Schmelzer, a witness, at Denver, necessitated the day's delay. Schmelzer was killed by a train at Denver the night before last when he was starting for Boise.

Marion Moore said he knew Orchard slightly, having met him in Denver in 1904. Orchard introduced himself. In 1905 Moore took a letter to Alaska for Orchard. This letter was directed to Orchard's wife at Cripple Creek. "I told Orchard he was sending his letter a long way from home to be mailed," said Moore, "and he said he wanted to get rid of that woman." This letter was intended, Orchard said, to establish an alibi for him. It was written in July and posted in August. Steunenberg was killed in December.

Mrs. Michael Fallon, whose first husband was "Kid" Waters, the Cripple Creek gun man, put another contradiction to Orchard in the record. She testified that her first husband was a detective in the employ of the Mine Owners' Association, and that Orchard visited him at her house. Orchard swore that he did not know Waters.

Oney Barnes, the legless miner, who Orchard said was the expert bomb-maker of Cripple Creek, swore that he never made a bomb in his life. He met Orchard occasionally in Colorado. On the day the Independence depot was blown up, Barnes was attending a Democratic State Convention at Pueblo.

BANK WRECKERS SENTENCED.

Two Officials Sent Down For Rather Long Terms.

Pittsburg, Pa., July 5.—After refusing the application for new trials of the men recently convicted in connection with the failure of the Enterprise National Bank of Allegheny, Pa., Judge Ewing, in the United States Court yesterday sentenced Edward P. McMillen, the general bookkeeper of the defunct institution, to serve six years and six months in the Western Penitentiary.

Charles Menzemer, former assistant teller, was sentenced to five years and six months' imprisonment.

Thomas W. Harvey, the former teller was given until Tuesday to settle his affairs after the judge had refused to suspend sentence.

Lemert Cook, a real estate dealer convicted on nine counts of misapplying the funds of the bank, was also refused a suspended sentence and given a respite until Tuesday.

KILLED BY G. T. R. TRAIN.

Trenton Man Did Not Hear Cars—Lady Injured.

Brighton, July 6.—A sad fatality occurred four miles east of here yesterday. Mr. McCullough of Trenton, accompanied by Mrs. McCoy, were driving to Brighton in a single buggy. While crossing the track at Post's Crossing they were hit by the up way freight on the Grand Trunk. Mr. McCullough was killed and Mrs. McCoy was badly injured. It is expected that she will recover. The man was hard of hearing and did not hear the train coming, although the woman saw the danger and tried to stop him.

WILL TRY BARTENDER.

Held In $6,000 Bail On Charge of Aggravated Assault.

Haileybury, July 6.—Gardner Hunter, bartender, was arraigned before their Worships Cobbald and Driden here on a charge of aggravated assault.

Attorney Slaght entered the plea of not guilty for the defendant. Two witnesses for the crown were sworn showing the seriousness of the assault committed.

The defence offered two character witnesses. The defendant is held for trial at North Bay and released on $6,000 bond.

New Minister Without Portfolio.

Fredericton, July 6.—James Barnes, M. P. P. for Kent, was sworn in a member of the local Government at noon yesterday, with portfolio. No appointment has yet been made to the vacant portfolio of the Attorney-General.

Barnes is a native of Ontario, and is 65 years of age, and has represented Kent since 1896.

He is a lumberman and railroad contractor.

Tax Collector's Error.

Kingston, July 6.—The city solicitor has issued a writ against George Thompson, ex-tax collector for $2,586 shortages in his collections between 1900 and 1903. The city wants a judgment.

Thompson, though honest enough, kept his books in a very loose way.

Rode in Street Cars; May Die.

San Francisco, July 6.—With his skull fractured and face terribly beaten up, George McGuire, a local manager of Bradstreet's, was found in a dying condition early yesterday at Jackson and Fillmore streets. Three men assaulted him for riding on the "non-union" cars.

Too Noisy to Live.

New York, July 6.—Distressed by the noises of the 4th of July celebration, Mrs. Johanna Evart, a widow, hanged herself from a bedpost.

William Inwood, of Hamilton, a veteran G.T.R. employee is dead at the age of 65.

GERMANY WILL ACCEPT.

French Proposition As to Declaration of War—Others Reserve Opinions.

The Hague, July 6.—The sub-committee of the peace conference on the rights and duties of neutral powers in times of war, etc., met yesterday morning, M. Nelidoff, president of the conference, who had recovered from his indisposition was present.

The French proposition providing that there shall be a declaration of war, before the opening of hostilities and the amendment of the Netherlands establishing a delay of twenty-four hours between a declaration of war and the opening of hostilities were lengthily discussed. The military delegates to the Netherlands and France made long speeches explaining their respective propositions.

The Russian military delegate supported the French proposition, and Baron Marschall von Bieberstein (Germany), rose and said:

"Germany accepts in its entirety the French proposition, which she considers conforms with the modern progress of warfare."

Joseph H. Choate (United States), Lord Reay (Great Britain), and M. Tsuzki (Japan) declared they reserved their opinion on the whole principle of the French and the Dutch propositions, and, consequently, a vote on the subject was postponed until the next meeting of the sub-committee.

TWO CAMPS HAVE BATTLE.

Guggenheim Workmen Fired Upon While Attempting to Lay Track.

Seattle, Wash., July 6.—A despatch to The Post Intelligencer from Valdes, Alaska, says one man is dead, another is fatally injured and nine are seriously wounded as the result of a first conflict between the Guggenheim and the Bruner interests at Katalla on Wednesday. The fight is over the right of way, which the Bruner force are protecting.

The Guggenheim interests stationed detachments of armed men at points commanding the disputed ground early in the day. Tony Depascal, in charge of a party of laborers, started out to lay track over the Bruner right of way under cover of a fire from these camps. A brisk fire was opened from the Bruner camp, but Depascal's men succeeded in capturing the steel "go-devil" on which the Bruner camp had relied to destroy the work done by their opponents.

Representatives of the Bruner interests are making every endeavor to have Governor Hoggatt order troops to the scene of hostilities.

STEAMER STONY LAKE OR MAJESTIC

For the week commencing July 2nd, the Steamer Stoney Lake will leave Lakefield on the arrival of the morning train from Peterborough, returning in time to connect with the afternoon train for Peterborough. The steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

IMPORTANT TO INVESTORS

On account of the continued results from the recent developments on the properties, and on the advice of our engineers, the shares of the **Lucky Boys Gold Mines, Ltd.**, now selling at 6c per share, and the shares of the **Blue Bell Gold Mines, Ltd.**, now selling at 50c per share, will each be

ADVANCED to $1 PER SHARE

AFTER SATURDAY, JULY 6.

We wish to inform our clients and investors that present indications point to a further and rapid increase in the value of these shares. Work is being vigorously prosecuted on all the properties of the above Companies under the supervision of the most practical and capable mining men in the world.

The progress made on these properties has been remarkable, and the developments have enthused all the miners and prospectors in the Larder Lake District. We believe they are richest in the Larder Lake District. The properties of the **Blue Bell Gold Mines, Ltd.,** consist of twenty-eight forty-acre claims, making a total acreage of eleven hundred and twenty acres; and those of the **Lucky Boys Gold Mines, Ltd.,** consist of twenty forty-acre claims, making a total acreage of eight hundred acres. The properties of both the above Companies are free of debt and other incumbrances.

We have been expecting this raise, and have been constantly advising our clients and investors that immediate action was necessary if they wished to secure these shares at the present prices. Investors who take our advice and **BUY NOW** will greatly profit thereby. In a few days you will be too late. This is your last opportunity to buy **Blue Bell at 50c per share** (par value $1, fully paid and non-assessable) and **Lucky Boys at 6c per share** (par value $1, fully paid and non-assessable.

At the close of business on **Saturday next, July 6th, Lucky Boys and Blue Bell shares will jump to $1.00 per share,** and not a share can be had after that date for less than this price. If you miss this opportunity you will miss the greatest chance in your life. Our advice to you is **"THAT YOU MUST NOT DELAY."** If you wish to secure some of these shares you must positively send in your order with remittance to cover on or before Saturday next, July 6th.

We have only a limited amount of shares of both **Blue Bell** and **Lucky Boys** for disposal, and applications will be filed in the order that they are received. All over-subscriptions will be returned to the senders. Wire or telephone orders at our expense.

MISREAD TRAIN ORDERS.

Cause of Fatal Collision on Grand Trunk at Eastman's Springs.

Ottawa, July 6.—The inquest into the death of Brakeman Douglas, killed at Eastman's Springs, June 22, in a verdict that the accident was caused by a misreading of train orders by the engineer on train 1337, which crashed into train 70 on the night in question.

It was recommended that all stations on the main line of a railway system be kept open day and night, in charge of competent officers and telegraphic or telephone communication exists between stations.

McBRIDE DENIES REPORT.

Will Not Enter Federal Politics—Gained Point In England.

Montreal, July 6.—Mr. McBride reached here yesterday en route for British Columbia. The Premier denies most emphatically that he intends leaving the local field for federal politics.

He also claims to have gained his point in England, declaring that Lord Elgin and Winston Churchill received him well and that the objectionable wording of the bill has been struck out, so that British Columbia can come back at any future time.

East Huron Nominations.

Brussels, Ont., July 6.—A largely-attended meeting of the Liberal-Conservative Association of East Huron was held in the town hall, Brussels, yesterday. A large number of delegates from the various parts of the riding were present.

Dr. Chisholm of Wingham, the present member, was again nominated for the Commons, and James Bowman, ex-warden of Morris Township, was nominated for the Legislature, but neither would state definitely as to whether they would accept the nominations.

Hon. W. J. Hanna, the Provincial Secretary, was present, and delivered an address touching on the measures of the day.

Charged With Attempted Murder.

Sherbrooke, July 6.—The charge of attempted murder was laid against Albert Greenhill. Mrs. Lynn, the mother of the girl assaulted, said the father would not trust himself at the court house for fear he would shoot the prisoner.

Miss Lynn, the victim, has recovered consciousness, and her chances of recovery are good.

Sold Liquor; Sent Down.

Ottawa, July 6.—The first case of imprisonment under the local option bylaw occurred yesterday, when J. P. Dowser, who was convicted of selling liquor without a license at his temperance hotel at Metcalfe, for a second offence, was sent to jail for four months, with hard labor.

ACETYLENE GAS PROHIBITED.

Railway Commission Issues Orders Which Will Lessen Accidents.

Ottawa, July 6.—The Railway Commission has issued an order prohibiting the use of acetylene gas for lighting railway cars. In view of the impracticability of installing electricity at once, the commissioners allow the use of Pintch gas, or commercial acetylene, which comes through asbestos and is, therefore, safe.

It has been found that acetylene gas has been the cause of fires and explosions on trains.

The commission is also considering the prohibition of the use of lignite coal on locomotives. Lignite has been the cause of prairie and other fires.

SOCIALIST HEADS THE POLL.

Will Represent Jarrow In British House of Commons.

Jarrow, Eng., July 7.—Peter Curran, a Socialist and trades union official, was elected Thursday to represent Jarrow in the House of Commons, in succession to the late Sir Charles Palmer, the shipbuilder, who had represented this constituency since 1885.

Mr. Curran had a majority of 769 over Patrick Ross-Innes, Unionist, a lawyer and tariff reformer, his closest competitor.

S. L. Hughes, Liberal, was next, 456 votes behind Mr. Ross-Innes; Ald John O'Hanlon, Irish Nationalist, received the lowest vote.

REVENUE FROM CHINAMEN.

Sum of $31,000 Collected In Taxes From One Ship Load.

Ottawa, July 6.—Arrivals of Chinese in Canada continue to increase. The Empress of Japan arrived at Vancouver a few days ago with 521 Chinese passengers. Of these 62 paid $500 each, or $31,000 in all, for permission to enter Canada. One hundred and eighty-five of the Chinese were individuals who had made money in Canada and had gone back to China to live on it. They had one year under the law within which to return to the Dominion.

The Day After.

Chicago, July 6.—The Tribune yesterday says 37 men, women and children are dead, 2,153 are maimed, lacerated or burned as a result of Thursday's excess of patriotism in the United States. The roster of the dead is four more than last year's mortality. New York leads in the number of injured, with Pittsburg a close second with 15 dead. The total number of injured is under last year's figures, which were 2,789.

Most of the casualties were due to carelessness in handling firecrackers.

Origin of Cork Legs.

"A cork leg?" said the dealer. "Why, man, a cork leg would crumble under you like a leg of bread. You don't want a cork leg, but an elm or willow one. A leg was never made of cork since the world's beginning. But many people think as you do, and I'll tell you how the fallacy originated. The inventor of the modern artificial leg—the leg instead of the stick—was John Cork. Cork's legs, or cork legs, were famous around 1810. And whenever a man makes your mistake he pays an unconscious tribute to Cork's skill."

REVOLT IN INDIA GROWS

Natives Are Training In Archery and Sword Exercise.

Situation More Serious Than Government Realizes—British Goods Boycotted—Rural Police Affected—Assaults On Europeans Increasing—Many Lawless Acts Committed—Students Openly Defiant.

London, July 6.—Indian despatches represent the trouble in India as increasing. A correspondent who has returned to Calcutta from three tours of the most disaffected districts in Bengal telegraphs that the seriousness of the situation is hardly realized by the Europeans in India or at home. The discontent has spread among the landholders and the Bengal aristocracy, as well as among the peasants and coolies.

An active organization known as national volunteers, which has branches in almost every town and village, is being trained in archery and sword exercise by well-paid instructors. They preach everywhere revolt against the British, and actively push the boycott of British goods. Men who cannot be threatened, and who will maintain relations with English officials, are punished by a social boycott, the deadliest weapon that can be employed against a Hindu.

Hundreds of tales of lawlessness and oppression by the national volunteers come from every district. The rural police are too weak or too disaffected to take action. The people are gradually losing respect for order and authority. Several land-owners have usurped executive and administrative powers by imprisoning tenants.

Police Reserve Exhausted.

In the Barisal district committees of public safety have been formed. These committees hold judicial enquiries, summon witnesses and punish offenders. The Government has exhausted its reserve of police and has borrowed companies of Gurkhas from Assam and military police from other provinces. These are posted in small batches about the country, but are unable to prevent the persecution of loyalists.

The worst feature of the situation is the growing number of assaults on Europeans. Europeans go about armed with revolvers. European passengers carry shotguns in trains. Ladies are afraid to travel on the Assam-Bengal Railway. A traffic official said there was danger of certain sections of the line being closed owing to the reluctance of guards and drivers to take trains out.

The impression is gaining strength that firearms are filtering into Eastern Bengal. All over Bengal national schools, financed entirely by Bengalese and disclaiming all connection with the Government, are springing up.

The students in the Government-aided colleges in Calcutta are openly defying the recent Government circular prohibiting students from attending political meetings. The students not only address the meetings but implore the reporters to mention their names in the newspapers.

Charles Avard, aged 33, of Port Elgin, N.B., set out in a sailboat on Sunday, and on Monday the craft was found overturned.

THE MARKETS.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock —Latest Quotations.

Friday Evening, July 5.

MANY WILL ATTEND THE BOYS CAMP

Applications are rapidly coming in for the tenth Y.M.C.A. boys' camp at Clear Lake, which opens on Thursday next. There promises to be a larger attendance of boys than last year. Twenty-five names are in already.

It will certainly be a great outing for the boys. A change has been made in the arrangements for going. The party will leave on the noon train instead of the morning train, as announced. The return trip on the 25th will be made on the afternoon boat, instead of the morning boat, as announced. Any other boys who intend going should hand in their names at once.

Lots of bills pass for genuine until they work up to the bank. Some sauces pass for the genuine Worcestershire until you try them. Then they are NOT

Returns Home From Trip Abroad

Mr. J. J. Turner Sr. Says Tourist Traffic is Very Heavy

Mr J. J. Turner sr., returned last evening from a month's trip to the Old Country.

Mr. Turner had a very pleasant voyage and also did considerable business while away, visiting all the large manufacturing centres in England. He says that tourist traffic is very heavy at present, and that all the cities of the Old Country are crowded with visitors.

REPAIRS TO BRIDGE ARE NOW COMPLETED

Doupe's Bridge Near Fowler's Corness to be Rebuilt.

The repairs which have been going on to the G.T.R. bridge on Bethune street have been completed, and the structure is now in good condition. A large amount of new timber has been put in and the bridge strengthened throughout. The work was done by a gang of men in charge of bridge Foreman McPhail, of Allandale.

It is understood that Doupe's bridge on the Grand Trunk, near Fowler's Corners, is to be rebuilt, and the gang of men who have been employed at the Bethune street bridge, will do the work, in charge of Foreman McPhail.

PERSONAL

Mr Harry Rumbelow and bride, of Peterborough, are spending their honeymoon with their parents here. —Cobourg Sentinel-Star.

Mrs T. H. Martin, of Ottawa, is spending a few days with Mrs. Williamson, at her cottage at Sandy Point, Clear Lake.

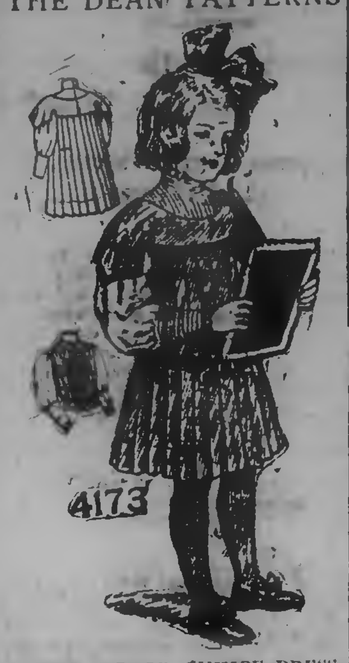
THE DEAN PATTERNS



4173.—A PRETTY GUIMPE DRESS.

A pretty style for the tub frock has the dress portion laid in side pleats and belted loosely in long-waisted manner. The waist and skirt are all in one and finished with a bertha, yoke and sleeve cap all in one. The dress is to be worn with a separate guimpe of some sheer tub fabric and which may be as elaborate or simple as desired. The model has a smart style which many of the frocks lack and is recommended as exceedingly attractive upon the small girl. The dress calls for 2 1/2 yards of 36 inch material in the medium size and the guimpe 1 yard of 18 inch goods.

4173.—7 sizes, 3 to 9 years.

The price of this pattern is 10c.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail

JOINT INSTALLATION ON MONDAY EVENING

There will be a joint installation of the newly elected officers of Peterborough Lodge, No. 111, and Otonabee Lodge, No. 13, I.O.O.F., in the Oddfellows Hall, on Monday evening. It is expected that there will be a large attendance of local and visiting brethren. Bro. Wm. Hill, D.D.G.M., will be the installing officer, assisted by members of the district committee.

SEVEN TO ONE

That is about the ratio. About seven times as many persons are injured as die from all causes yearly. Accidents are a more prolific cause of death than any disease except lung diseases.

Twice as many people are accidentally killed as die of old age.

Does it not seem reasonable to you as a business man that it would be to your interest to carry an accident policy.

ALLOWED TO GO WITH A WARNING

Boys up for Stealing Grain Were Given a Lecture

George Brisbois, George and J. O'Hern, Norman and Walter LeBar, E. Armstrong and P. Holland, the lads who were arraigned before His Worship Magistrate Dumble, charged with stealing grain from the Quaker Oats Co. cars, on their siding on June 11th, were allowed to go.

The boys, although found guilty, with the exception of Brisbois, who was not proven guilty, were discharged, and permitted to depart, the magistrate giving them some good sound advice.

If the boys ever appear again, they will be dealt with much more severely.

The evidence of Norman LeBar and P. C. Newhall, clearly proved the lads guilt.

During the evidence of Norman LeBar he stated that a man told him to get a bag and go and gather grain. The man, Mr. S. Trew, was brought to court and identified by the boy. Mr. Trew was called as a witness and in his evidence became very near getting locked up by trying to evade answering a question put by Mr. Wood.

Mr. E. L. Goodwill appeared for the boys and Crown Attorney Wood conducted the case for the Crown.

PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P. 62, Windsor, Ont.

Peterborough and Water Power

To the Editor of the Review.

Sir.—The newspapers are full of the confirmation of Mr. Culverwell's company in the possession of the Healey's Falls water privilege. He seems to have it for sure this time. Now, are we going to let him float around our fair city also in the same way? What are the mayor and councillors doing to get water powers for which they got legislative permission last session in our city's bill? A water privilege, according to the electrical papers, is more valuable than a timber limit and it won't burn. Peterborough seems bound to go ahead if our leading men don't get cold feet. The public are looking for the man who can do big things well. The day of small things for Peterborough is gone.

Yours, etc.,
PROGRESS.

Peterborough, July 6, 1907.

Whither are the Youth Drifting?

Magistrate Dumble Speaks of the Lack of Parental Government

A young lad about twelve years of age was in police court this morning charged with stealing a bicycle from Richard Hall & Son's store.

Mr. E. L. Goodwill appeared for the boy and asked that the case be enlarged, in order that he might see the lad's parents. He was therefore, remanded until next Thursday at 2 o'clock. In the meantime he will be kept at the Children's Shelter.

His Worship remarked this morning that he did not know what was going to become of the boys of this city. Every day almost, there are cases of boys in the police court on charges of stealing. He would write Hon. A. B. Aylesworth, Minister of Justice, in regard to the matter and see what could be done. What would do the young thieves most good, would be a good flogging with a birch rod.

"Seemingly some mothers have no control over their children," said His Worship, "and in a good many instances the children are boss. There ought to be a school where mothers could learn how to train their children right. If they knew how, young boys would not appear so often in the police court.

WILL ENLARGE HIS LATH MILL

Mr. Joseph Gray Also Buys Property and Will Put up Several Houses

Mr. Joseph Gray, who owns and operates a lath mill on Dickson-st., has purchased a block of land suitable for a factory site between Donegal and Park streets south of the G.T.R. tracks. The purchase was effected through Messrs. J. T. O'Connell & Co., real estate agents.

Mr Gray will remove his lath mill to his new property and will considerably enlarge the mill, now that he has water and electric power convenient. Mr. Gray will also erect a number of good small houses on the property which will be suitable for working men to either rent or purchase.

Mr. John Clancy who has bought Rev. Dr. Torrance's house at the corner of King and Rubidge streets, has taken possession. Mr. Clancy, through Messrs. J. T. O'Connell & Co., has sold his late residence on George street to Mr. George W. Powell. Mr. O'Connell has also sold a fine house Gilmour street to Mr. W. J. McCallum, who is retiring from the restaurant business.

Mr. O'Connell stated to-day that he intended erecting a number of medium priced dwellings this summer, to meet the demands of his customers. Those who desire houses built for them would do well to consult him.

393 GEORGE STREET

Peterborough Man Discovers Promisng Mining Property

Mr. Wm. Leahy Returns From Prospecting Tour in Cobalt—Has Splendid Mine in Buck Township—Rush to Silver Country Continues.

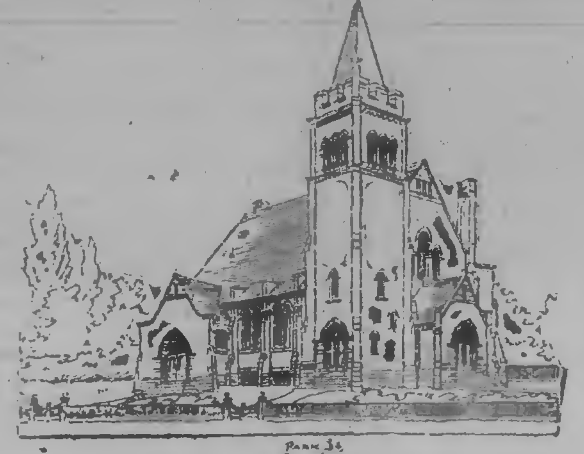
Mr Wm. Leahy, formerly proprietor of the Midland House, Lakefield, who has been prospecting for a couple of weeks in the district around New Liskeard and Cobalt, returned to the city yesterday. He will leave again for New Ontario on Tuesday next, and will be absent several months.

Mr. Leahy says that the rush to Cobalt is something indescribable. Every train is crowded just like a cheap excursion special would be and great activity prevails in all the mining camps.

Dr Baker, of Lakefield, who has been for some months in that section came down with Mr. Leahy. He has been 300 miles north of New Liskeard, and believes that he has made some rich discoveries in minerals.

Mr. Leahy spent most of his time at New Liskeard, and did considerable prospecting in Buck and Diamond townships. In Buck township about four or five miles south of New Liskeard, he discovered a proposition which he staked out, and now has complied with the necessary legal requirements. The claim of 40 acres is most promising in silver, cobalt and calcite. Mr. Leahy did not care to enter into a detailed discussion about the property, but remarked that the surface indications were all that could be desired while the assay of the ore samples was perfectly satisfactory. Mr Leahy will do some development on the property this year.

He met many Peterborough residents while away and says they are all doing well in the silver section. Mr. J. A. Lawless, late of Peterborough, is running the Canada House in New Liskeard and is doing well.

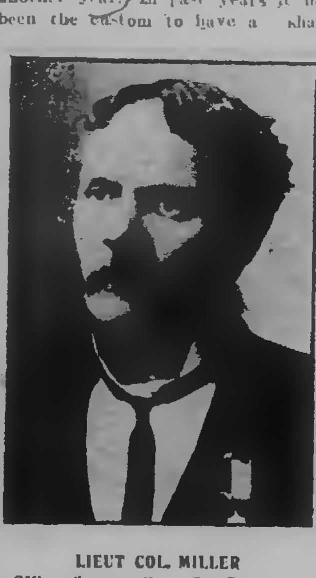


THE NEW PARK ST. CHURCH.
Work on Which Will be Commenced at Once—The Structure Will Cost About $15,000.

The Best Inspection in the History of the 57th Regiment

Local Red Coats Were Highly Praised by the Inspecting Officers—Regiment Made Splendid Showing—A Brilliant Scene.

The annual inspection of the 57th regiment took place last night and the drill season is now over. From now until next spring there will not be much activity in military circles as the inspection signifies that the work for the season is over, and that the red coats may be stored away for another year. In past years it has been the custom to have a sham battle as one of the events on the programme for inspection night, but this season a change was made. Instead of the usual struggle at Armour's hill the regiment marched to Riverside Park, where a review and march past took place.



LIEUT COL. MILLER
Officer Commanding 57th Regiment

The inspecting officers were Lieut. Col. Hemming, and Command Paymaster Captain Conger of Kingston, and Lieut.-Col. E. B. Edwards, and the regiment was commanded by Lieut.-Col. Miller. There was a good turnout of the regiment and never was the old 57th in better shape. Shortly after seven o'clock the regiment marched from the drill hall to Riverside Park, headed by both bands. There was a big crowd out to see the redcoats march by and there must have been nearly one thousand people at the park to see the exercises there.

Shortly after the regiment arrived at Riverside, Col. Hemming and Capt. Conger drove into the grounds and were joined by Lieut.-Col. Edwards, and the inspection at once proceeded. Col. Gordon, who was to have been the inspecting officer did not reach Peterborough last night and consequently there had to be a change made in the inspecting officers. The regiment presented a brilliant scene as they were lined up and went through the different movements at the park. The bright uniforms and the bayonets and swords glinting in the sun made a fascinating picture, and one that was gazed upon with admiration by the large number who were present. In the drill through which they were put, the regiment showed remarkable proficiency. Everything was done in a manner that showed that the season's work has been put in to splendid advantage. About half an hour was spent in going through different exercises, and then came the "march past." The inspecting officers were stationed at the east side of the park and the regiment was drawn up in company formation at the south end of the field and marched by going towards the west. The "march past" was a splendid performance. Each company presented a splendid line as they swung past, keeping step to the lively air of the regimental march. The regiment first marched past the inspecting officers, then did the "about turn" and marched back again. The evening's exercises included the general salute, marching in different formations and considerable arm drill, all of which were done in a manner that greatly pleased the inspecting officers.

After the inspection the regiment marched back to the drill hall where roll was called by Captain Conger, after which the men were dismissed.

It was without doubt the best inspection that ever took place in connection with the 57th, and the officers were heartily congratulated by Colonels Hemming and Edwards, and Captain Conger, on the splendid showing the corps had made. The inspecting officers expressed themselves as greatly pleased with the work of the regiment and were loud in their praises of the way everything had been done.

When the many drawbacks encountered by the regiment at the beginning of the season are taken into consideration the condition of the corps at the present time is somewhat remarkable. For the first month very little drill was got in, owing to every drill night being wet. In order to catch up it was necessary to have two drills each week for the remainder of the season. These were well attended and much hard work was done with the result that the regiment was in better condition when inspected than in any past year. Lieut.-Col. Miller and his officers, and also the men of the regiment are to be heartily congratulated. The bands also presented a fine appearance last night and supplied excellent music. They are a credit to the regiment and to the city.

Improvements to City Churches

Interior of St. Paul's Will be Renovated—Changes at Knox

Two city churches will be renovated during the summer months. In a few days the decorators will be at work in the auditorium of St. Paul's church. During the renovation process services will be conducted in the Sunday school room. The walls and ceiling will be given a fresh tinting, and the interior appearance will be greatly improved. The job will occupy some weeks.

Knox church will also add a gallery at the western end of the edifice, which can be converted into class rooms for Sunday school purposes. A congregational meeting will be held next Wednesday night to discuss the proposition.

New Officers of Pontypool Lodge

Were Duly Installed Last Evening—Public Ceremony

Messrs. Wm. Hill, D.D.G.M., R. F. Morrow, Dr. McKercher, and A. A. Fowler of Peterborough were in Pontypool last night installing the officers of Pontypool Lodge No. 296 I.O.O.F. It was a public installation there being a large number of ladies present.

The following is the list of officers installed;

L. A. Williamson	J.P.G.
R. McGill	N.G.
J. Argue	V.G.
E. Benson	Rec. Sec.
J. Corbett	Fin. Sec.
G. Douglas	Treas.
W. Corbett	Warden
J. Halloren	Conductor
L. A. Williamson	R.S.N.G.
A. Fallis	L.S.N.G.
M. H. Minore	R.S.V.G.
W. Porter	L.S.V.G.
A. Holmes	O.G.
J. Nicholson	I.G.
H. Preston	R.S.S.
R. Halloren	L.S.S.
Chaplain	W. Finney

After the installation refreshments were served by the ladies and a pleasant time spent.

WEEDS BLOCKED THEIR PASSAGE

Yacht From Lakefield Unable to Come Down the Canal

"I wish you would call attention to the necessity of clearing the canal of weeds, just south of Nassau," remarked a Lakefield gentleman today. "A party of eighteen were on board the steam yacht Rita, owned by Messrs. Dunn & Clifford, of the village. We came down the canal all right until we got below the lock at Nassau, when our launch was unable to proceed, owing to the great mass of weeds in the water. The weeds became entwined in the Rita's turbine and, although we had 100 pounds of steam on, we could not proceed. We were forced to turn back and our party were greatly disappointed at not being able to reach the city.

"The canal should, by all means, be cleared of weeds at the point mentioned. Large boats may be able to get through, but not small ones."

Mayor Judd, of London, says he will not be a mayoralty candidate next year.

LeBRUN'S ANNUAL JULY SALE

Now for a lively out-rush of Goods all over the store, to get ready for New Fall stocks.

We make July the last month for big summer selling.

Parties Fishing at Stony Lake Should Bring Their Own Bait

Such is Sam Hunter's Advice to His Friends—Angle Worms are of Two Varieties—the Barn Yard Type and Red Racers—Fishing so Far Has Been Good.

Mr. Sam Hunter, of Millbrook, the well known cartoonist on the Toronto World staff, who is spending his annual midsummer holiday at Stony Lake, has a bright, catchy letter in this week's issue of the Millbrook Mirror, in which he describes some fishing experiences:—

Rain, rain, followed by more rain, such is the record of Stony Lake immediately following the opening of the fishing season.

But it provokes no protest from the settler in rock-ribbed Burleigh or Dummer.

The camper may get too much of it, and profanely say so. The native has a different view point, one of these northern farmers, after two days sunshine following a three weeks continuous downpour which would frighten other folks into ark buildings or the hills, will squat himself cross-legged in the shade of a Juniper bush and calmly proceed to show you that "what this here country needs mistor is a bull lot more rain." One marvels that such a moist minded people ever had the heart to vote their "district" into the aridity of local option.

It's the soil!

Trees here instead of sending down their roots and growing as other trees grow, spread their roots horizontally and far in search of a crack in the rock into which they can prospect for soil and a kedge anchor holt" against the wind.

You may trip over a root in the dark and not come to the tree to which it belongs till you have passed the third concession line. Bare knobs of granite or limestone stick up all over the farm like bald heads in a swimming hole. These though sometimes rich in what artistic people call "local color" are "dry" in crops and do not retain moisture to any extent. They are alluded to as "thin spots" by the local yeoman. Angle worms in this shallow soil are of two varieties—barn yard worms and red racers. The barnyard worm is not unlike the the fish worm known to fisher folk all over this happy land. Barn yards however, being few and widely separated the red racer is the worm most usually hunted. He is found everywhere under the thin skin of sod. But the stranger to these shores who imagines that all he has to do is to get an old tomatoe can and a spade and dig them out fools himself. It requires two persons to insure the capture of a red racer. For he has the cunning of a fox, and the speed of a cotton tail. He doubles and runs, unless headed off, the moment the spade uncovers him. And he is built for running, for he is marvellously thin. He has, too, the sharp and prematurely aged look of one who has seen much trouble and privation. As bait they generally go six to the hook, and being slightly thinner than a bass hook are tied on. Millbrook parties thinking of coming this way for fishing, and contemplating the use of worms, would do well to dig bait before starting. Many of the bass caught here last week were filled with spawn, due doubtless to the cold late spring which had interfered with spawning. Fishing has been good.

On the islands building and general fixing up is being carried on. Mr. A. L. Davis, of Toronto, son-in-law of Mr Geo. A. Cox, has nearly completed the most magnificent place on the lakes. Thirty-five or forty workmen have been continuously employed there since last September. When completed it will have cost, it is said, eighty or one hundred thousand dollars. The output of the best lumbering season for many years is daily seen in the immense drives of logs which are spread from Burleigh to Lakefield. Comparatively few campers or cottagers have yet arrived, but the advent of July and the closing of the schools will no doubt bring them now in increasing numbers daily.

Old Time "Bee" at Springville

An old fashioned "bee" was held at the Springville Presbyterian manse yesterday afternoon when numerous improvements were made to the grounds and considerable general repairing done. The members of the congregation turned out in good numbers and made good use of the time at their disposal. Another "bee" will be held next week to complete the good work started.

ROY'S

Auto and Bicycle Had Close Call

A collision between a bicyclist and automobolist was narrowly averted at the corner of George and Hunter-sts, shortly after six o'clock last evening.

Mr. Barr, bookkeeper for the Rapid Tool Co., was turning the corner to go down George as Mr. G. L. Stevens with his auto car was rounding the corner from George onto Hunter, neither party saw each other approaching and spectators held their breath for time, thinging there would be a fatality. But by superior generalship the thr atened collision was narrowly averted and the crowd once more drew its breath and passed on.

BOOTBLACK HAD LIVELY TIME

Hard Job to Put on Polish in Peterborough

There was one man in Peterborough last night who evidently thinks that the man who tries to put on polish in an uncultured city like Peterborough is distinctly up against it. During the band concert at Victoria park last night a little man about thirty years of age invaded the grounds armed with a little box with a foot rest upon it and a supply of shoe polish, brushes and blackening clothes. He announced his business as that of a boot black and started in to give shines. Customers were plenty and business looked good. But a bunch of boys and some who were no longer boys, gathered around the bootblack and proceeded to cut up. The crowd grew in numbers to see what was going on and pretty soon there were over a hundred surging around the spot where the shining box was set up. The bootblack was industriously shining the No nine patent leathers of a private of the 57th, when some one started a rush. The shiner was knocked head over heels over his box and his hard hat was sent flying in the dust. He emitted a few cuss words, but got busy on the boots again, but he was given another shunt and bit the dust, two or three youths going down on top of him. He stuck to his guns, however and shined several pairs of shoes before beating a retreat from the park. He disappeared along Brock-st, followed by a score of boys.

Prince Fushimi has forwarded 50 pounds to Montreal, to be given the deserving institutions of the city.

THE CITY AND VICINITY

IRISH PAPERS.

The Review is indebted to Mr. Robert Fair for copies of the Irish Times of June 22nd. The Times is published in Dublin.

BITTEN BY DOG.

A son of Mr. R. Hairstone, corner of London and Water streets, was this week bitten in the hand by a dog and had to have the nail of his thumb removed.

KILLED BY LIGHTNING.

During a thunder storm, 12 milch cows, the entire herd of Geo. Ellwood, near Brockville, were wiped out of existence by lightning. The cows had huddled under a large tree, which was struck, and all were killed The cows were valued at $600 but they were only insured for $300

HAS RESIGNED.

A Montreal despatch says; Three directors have resigned, and more are expected today from the Dominion Steel Company's management. Mr. E. R. Wood, of Toronto, formerly of Peterborough, is one of the directors, who has resigned.

A BEAUTIFUL STORY

At Scott's Coliseum, Jackson Park, we are showing the fairy story of Cinderella and the Glass Slipper, in moving pictures. Today will be your last chance to see this picture. Matinee 2 to 5. Evenings 7 to 10. Admission 5 cents. Complete change of programme Monday.

REV. DR. MARSH TO MEN

Rev Dr. Marsh will be the speaker at the evangelistic meeting for men at the Y.M.C.A. on Sunday at four o'clock; A hearty invitation is extended to all men to attend. The monthly strangers' tea will be held at the close of the meeting.

C.G.E. STOCK.

The Toronto Star says; Canadian General Electric looks pretty sick, the stock dropping to below 120, a decline of over five points since the new issue of preferred stock was announced At 120 the stock nets the investor over 8 per cent. for his money, but the investor apparently is dubious about this attractive return being permanent.

WILL TAKE PHOTOS

The steam yacht "Rob Roy," which left in charge of Commodore R. M. Roy, up the Trent canal for Kirkfield on Tuesday morning last at eight o'clock, reached its destination on Thursday afternoon at two o'clock. This is considered pretty good time. Mr. Roy will take several pictures of the opening ceremonies today. Those who accompanied him on the trip were messrs. J. D. Craig John Irwin, Donald Denison and Arthur V. Weeks.

COME ONE, COME ALL

Explosion Heard at Stony Lake

Three Sticks of Dynamite Created Some Commotion

Great commotion prevailed on one of the islands of Stony Lake one day this week. An explosion was heard and some thought there was an invading army or a sad shooting tragedy.

It appears that a young man discovered three sticks of dynamite, which had been lying around a certain cottage for some time, and he wondered if there was any "life" in them. He tried, and found out that there was considerable, for the ground was blown up; a cottage barely escaped, the island itself was shaken, and the young fellow himself had a close call.

John Singer, aged 23, a brakeman, on the Grand Trunk was killed at Port Hope while coupling cars in the west end of the yard.

The House Work Was Not Stopped

Even the Piano Was Played While Dwelling Was Being Moved

Mr. John Huffman and a few of his employees, says the Millbrook Mirror, went to Peterborough last week and helped a contractor and building mover of that city to move a building that more than taxed the genius of the said contractor, but when our invincible building mover arrived on the scene, the apparently "insurmountable difficulty," melted away into insignificance, and it was only a few hours until the building was moved to its destination. It was a large boarding house and the household duties continued while the work was in progress. The piano played while the house was moving. Jack says the music was great and seemed to inspire the men and teams.

WALKING EPIDEMIC IN EASTERN TOWNS

Kerster of Pickering Walks to Toronto and Back in 10 Hours and Wins Wager

The towns and villages east of Toronto are in the throes of a walking fever, since Jimmy Reynolds, the Port Hope barber, failed in his great task, and all sorts of walking wagers and contests are being made or held.

Pickering's champion walker, W. B. Kester, made a wager at noon Wednesday that he could travel on foot from Pickering to the Don bridge and return in ten hours, a distance of 42 miles. Without any practice and only a few hours' notice, Kester started from the town at 7 o'clock Thursday evening, accompanied by several people. He reached the Don bridge about 11.30 and arrived back in Pickering at 4.45, being fifteen minutes ahead of schedule time.

OBITUARY

MRS. F. COPPERWAITE

The death occurred last evening about 10.30 o'clock of Mrs. Fred Copperwaite at her late residence, 68 Ware street, after an illness of some months' duration, from abscess. The deceased's maiden name was Mary E. Moffit. She was 55 years of age and was born in Norwood. The family have resided in the city since 1894. The late Mrs. Copperwaite was a faithful member of Bethany Tabernacle and her long illness she bore with the greatest patience and Christian fortitude.

Besides her husband, three sons and two daughters are left to mourn her loss. The sons are Messrs. William, John and Douglas, and the daughters are Misses May and Lillie, all residing at home.

The funeral will take place on Monday morning from the family residence, 68 Ware street, to the C. P. R. station for Norwood, where interment will take place.

THE INTEREST IS WELL SUSTAINED

Increasing Attendance at the Summer School Sessions

The Summer School at Chemong continues to increase in interest and attendance. The Bible class under the leadership of Rev. Prof. McLaughlin, of Toronto, and the mission study, under Mr. Thos. Keough, of Toronto, Misses Patterson and Drewry were conducted as usual at the morning session. In addition Rev. Dr Crummy continued in giving some of the characteristics of the Japanese. His address, which sparkled with humor, was most interesting. We were favored with a solo by a missionary of the Inland Mission Station, of North China, who rendered the selection in Chinese.

At the evening session the Rev. Dr. Crummy gave his third address on the characteristics of the Japanese. All were delighted with the services rendered by the learned Dr. of Toronto.

We were also favored with an address by Mr. P. J. McLaughlin, K.C., of Lindsay, who spoke on the subject of Christian stewardship. We deem it one of the most hopeful features in connection with the Christian church of today that there are so many prominent laymen who are willing and ready to give of their time and money in helping on the work of the evangelizing of the world.

During the evening solos were rendered by Rev. C. S. Applegath, of Hamilton; Miss McLean of Bowmanville, and Miss Elliott.

CLOSING DAY.

Sunday will be the closing day in connection with the school. Already regrets are being heard on every side that the time is drawing so near when all will have to bid adieu to Chemong and the school. It is almost universally admitted that this has been one of the most helpful and pleasant of all the schools held under the auspices of the Bay of Quinte Conference.

Tomorrow will be the big day. It will open by Prof. McLaughlin's Bible study, followed by the administration of the Lord's Supper. The afternoon session will be addressed by an evangelistic band, of Campbellford, while the evening session will be addressed by Rev. W. C. Clarke, B.A., of Sterling. Splendid music at all the sessions.

Bus loads have been at every evening session during the week, and we are looking for several loads out tomorrow.

A Few Facts for Women

About Dr. Hugo's Health Tablets

These tablets are the prescription of a distinguished specialist in women's diseases.

They are compounded for the special needs of women alone.

They embody the results of the very latest medical discoveries.

They contain ingredients recently discovered that no other remedy contains.

They are a compound remedy, that is, they contain something for every organ of the female system.

They are purely vegetable, and unlike the liquid preparations contain neither alcohol nor opium.

There are six dozen tablets in one box, enough for an extended treatment.

They Make Healthy Women.

PERSONAL

Mr. F. M. dela Fosse of Lakefield, was in the city today.

Miss Roper, of Baltimore, is the guest of her sister, Mrs. R. H. Fortye.

Mr. J. L. Haycock, of Kingston, government inspector of binder twine, is in the city.

Mr. John D. Grace, of Ottawa, editor of United Canada, was in the city to-day.

Miss Jean Girven has passed with honors in junior piano, University of Toronto.

Mr. W. Dafoe, Ottawa correspondent for the Montreal Star, was in the city this morning.

Mrs. W. A. Sanderson and daughter have gone to Stony Lake to spend the summer.

Rev. Dr. Ross, of Erie, Pa., is in the city and will preach at both services in St. Andrew's church to-morrow.

Rev. Dr. Langfeldt, left today for Orillia, where he will conduct the services in St. James' church on Sunday.

Mr. Robt. Kerr returned this week from an extended business trip to Winnipeg, Vancouver and other western cities.

Rev. W. L. Armitage, of Picton, formerly of Peterborough, is in the city and will preach at both services in St. Luke's church tomorrow.

Mr A. Brown and family have gone to Chemong, where they will occupy their summer cottage, "Miscodeed" for the summer.

Mr. Percy Robertson, of Peterborough, is visiting his parents, Mr. and Mrs. Robert Robertson.—Trenton Courier.

Mr. Art. Mann leaves tonight on a two weeks' holiday, camping at Stony Lake. He will be joined on Monday by Mr. W. Huston, who will also spend two weeks at the lakes.

Lindsay Post; Mr. W. Irwin, of Peterborough, was in town yesterday...Mr. Harry Reid of Higginbotham's drug store, is in Peterborough today.

Rev. J. G. Potter has gone to the Presbytery of Owen Sound where he will spend a week completing his canvas on behalf of Queen's University Endowment Fund.

Mr Arthur V. Weeks, who has been managing a large photo gallery in Woodstock, Ont., has returned to the city and re-entered the service of Mr. R. M. Roy, photographer. His many friends are pleased to welcome him back.

Mr. W. H. Ivory, C.P.R. train despatcher, Toronto, wife and family, are in the city on a visit and are the guests of Mrs. Ivory's mother, Mrs. Metcalfe, Peterborough. Mr. Ivory who is an old Peterborough boy, will leave with his family on Monday to spend the remainder of his holidays near Oak Orchard.

A very nice evening was spent at the residence of Mr. and Mrs. Lithgow in honor of their guests Miss Stewart and Miss Allison, of Peterborough. Progressive euchre was played, and after dainty refreshments the young folks enjoyed a dance. After singing "Should old acquaintance" the guests dispersed thoroughly pleased with the social event.—Bobcaygeon Independent.

Millbrook Mirror; The Misses Maggie and Mabel Cunningham, of Peterborough, spent the holiday with their grandmother, Mrs. D. Kidd... Mr. and Mrs E. W. Lamprey were guests at the home of Mr. and Mrs T. B Collins, "Glen Avon,"... Miss McCarthy spent the holiday with friends in Peterborough...Mr. Howard Mallory of Peterborough spent Dominion Day with his uncle, Mr. George Lock.. Miss Smithson, Peterborough, spent the holiday with Dr and Mrs Deyell.

The Edmonton Saturday News says: "Mrs. Murton, of Hamilton, niece of Mrs. R. H. Fortye, Gilmour street, Peterborough, was the raison d'etre of a charming tea given by Mrs. E. B. Edwards in her honor on Tuesday. The tea table for this pleasant occasion was beautifully done in pink and white carnations, the flowers resting in cut glass vases on an embroidered centrepiece. Mrs. Edwards was prettily frocked in pale blue voile with rich cream lace applique, while the guest of honor wore a handsome gown of black peau de soie with beautiful Carrickmacross lace garniture."

RYE'S Canoe and Boat Livery

(Otonabee Boat House) will open for the season on May 24th.

Full equipment of Canoes, Skiffs, etc., for hire by the hour or day. Street Railway and Telephone Connection. Open from 7 a.m. to 10.30 p.m.

There are 265,000 people in Canada today, who really KNOW "Fruit-a-tives" to be a splendid remedy.

Four years ago, "Fruit-a-tives" were an unsolved problem in the brain of one of Canada's leading physicians.

Today, over a quarter of a million of Canadians know them for what they are—a positive cure for Stomach, Liver, Kidney, Bowel and Skin Troubles.

"Fruit-a-tives" have cured stubborn cases of Constipation—Chronic Rheumatism—Skin Eruption—that defied ordinary remedies. The cures of Biliousnesss, Indigestion, Headaches, Pain in the Back, Nervousness and Irregularity of the Bowels—are numbered by the thousands. "Fruit-a-tives" move the bowels just as fruit moves them and leaves them healthy.

"Fruit-a-tives" are fruit juices and tonics in tablet form—with the increased medicinal action made possible by the chemical change which takes place when the juices are combined.

Only 50c. a box—6 boxes for $2.56. At all druggists—or sent on receipt of price. 104

FRUIT-A-TIVES LIMITED, OTTAWA.

Kirkfield Lift Lock Opened To-day; Witnessed by an Immense Crowd

Twenty Miles of Canal Between Balsam Lake and Lake Simcoe Completed—Many Thousands of Yards of Rock Excavated—Thousands of Feet of Concrete Walls Built—Five Ordinary Locks Between Kirkfield and Lake Simcoe

From Review's Own Correspondent.

Kirkfield, July 6.—The second hydraulic lift lock on the Trent Canal and the second in America, was formally opened here today. Hon. Rudolphe Lemieux, Postmaster-General for Canada, and Mr. M. J. Butler, Deputy Minister of Railways and Canals, assisted by a number of other gentlemen, performed the opening ceremonies this afternoon in the presence of thousands of interested spectators from all parts of Ontario, especially along the route of the canal, and several persons from distant points of the Dominion and the United States.

The lift lock at Kirkfield is one of the most wonderful pieces of mechanism in its simplicity in the world. In this respect it is a great improvement over the big lock at Peterborough, which was the first attempt at anything of the kind in North America. The machinery necessary for operating the great steel pontoons in the Kirkfield lift lock has been somewhat simplified and will be more workable. The experience with the Peterborough lock was of assistance in working out the plans for the new one. One feature is that the entire operation plant is under ground, and not in the breast wall, as is the case in the Peterborough lock.

SITUATION OF LOCK.

The Kirkfield lift lock is situated on the divide between the waters running into the Georgian Bay and those running into Lake Ontario, and is nearly 600 feet above the outlet of the canal at Trenton, and about 358 feet above Georgian Bay, the inlet of the canal. The lock is about six miles from Balsam Lake and 14 miles from Lake Simcoe.

Between the two lakes there is a drop of 120 feet. The lift lock is the first one the other side of Balsam Lake and is responsible for a drop of 47 feet, while the remaining 73 feet are descended by five ordinary locks, which are at least 1,000 feet apart.

PLANS PREPARED.

The plans for the Kirkfield hydraulic lift lock were prepared by Mr. W. J. Francis, under the direction of Mr. R. B. Rogers, who also was chief superintendent of the Peterborough lock.

NOT PICTURESQUE.

From a spectacular point of view the new locks cannot be compared with those at Peterborough. The construction is vastly different, while the surroundings are solid rock. The picturesque banks of green on the big lock are missed here, and it will never be the drawing card that the first one has been.

THE LIFT LOCK.

The country surrounding Kirkfield in solid rock, requiring an excavation in solid rock, requiring an excavation of some 30 feet for the lock proper, and for the press wells some 64 feet deeper. This all had to be blasted, and was a very difficult, tiresome and dangerous job. To prepare the pit for the lock required the removal of 24,000 yards of rock, and it took from the fall of 1900 until 1903 to complete it. The contractors were Messrs. Larkin & Sangster, of St. Catharines, who built the second section and also the concrete work for the lock.

At that time the contract for the iron and the steel work had not been let, and was not awarded until the fall of 1905, when the tender of the Dominion Bridge Co., of Montreal, was accepted. Work was then stared and carried on until the late fall of 1906, when it was practically completed, although the lock was not in working order until this year.

TWENTY MILES DONE.

As was stated before, the section through which the canal between Balsam Lake and Lake Simcoe runs is largely rocky. This part of the canal is some 20 miles long, and was divided into three sections. The first section was built by Mr. Onderdonk, an American, and waas six miles long.

The section was 7 1-2 miles long, and was built by Messrs Larkin & Sangster. This was probably the heaviest section for excavation. Besides the 24,000 yards of rock taken out for the lock pit, there was nearly 110,000 yards of rock taken out on the other side of the lock, and 300,000 yards of earth excavation.

The third section was built by Messrs Brown & Aylmer, and was 6 1-2 miles long. In this stretch there is a drop in the canal of 73 feet, and to carry the boats up and down five locks were built. These were the ordinary form, but were built only with a five foot draft, so that before boats with an 8 foot draft can come down a great deal of very expensive work must be done. The length of each of the five locks is 143 feet between the hollow quoins and 33 feet wide. Besides the five locks there are three large concrete dams which have just been completed. In the construction of the dams and five locks Messrs. Brown & Aylmer did 67,000 yards of concrete work.

APPROACH TO LIFT LOCK.

On approaching the lift lock there is a long stretch cut through solid rock to within 1,050 feet of the lock. Then an immense concrete wall, containing 30,000 yards of concrete has been built. This wall is from 12 feet to 33 feet high, and is five feet thick at the top, gradually broadening out to a width of 23 feet at the bottom. This work alone took the contractors, Messrs. Larkin & Sangster, twelve months to build.

THE CANAL ROUTE.

The canal from Balsam Lake to Lake Simcoe follows the valley of the Talbot river, which heads up close to Balsam Lake. The distance is twenty miles, and is now completed and open for navigation. An interesting feature is the fact that Balsam Lake is on the height of land, and to connect it with the Talbot river a cut was made between them, and now the water of that lake can be drawn either way. It can be sent to Lake Simcoe on one side, or down through the Trent Waterway to Lake Ontario on the other side.

DROWNED LAND.

On sections one, two and three between Balsam Lake and Lake Simcoe there are 4,000 acres of drowned land. This was caused by cutting the canal and building the dams. All this property had to be expropriated by the Government, but as it was purchased several years ago, the price was very reasonable.

Last winter the Government commenced removing the dead timber from the drowned lands, which will improve the appearance of these new lakes, and will also make the neighborhood more healthy. There is one thing about this large tract of country which will delight the sportsmen of all Ontario. That is in the fall there will be magnificent duck shooting, and there is no doubt but that hundreds will avail themselves of the new hunting grounds.

COST OF THE WORK.

The cost of the work between Balsam Lake and Lake Simcoe, which has just been completed and opened for navigation, is about a million and three-quarters dollars, and the total cost of the work done on the canal is about six millions of dollars.

SOME EARLY HYDRAULIC LIFT LOCKS.

Like all engineering projects of some considerable magnitude, the Lift Lock has been perfected by a process of evolution. First one was built, then a second, then a third, and lastly the Peterborough lock. The latter differs very materially from the first. It combines the results of experience and the advance in engineering practice such as has been made in the last thirty years; for that period has elapsed since the first lock was constructed. The pioneer lock was built at Anderton, England, and connects a local system of canals with the river Weaver, serving principally the carriage of products from salt works in the vicinity. The lift at this lock is about 50 feet, but its barge capacity is relatively small, the chambers being only 74 feet long by 14 feet wide. No receiving pit was provided, the chambers discharging directly into the river. Pumps were also used to assist in taking the load. The construction is of plate girder design. In France the second lock was built, at La Fontinettes. It is of moderate dimensions, the canals of the district being only 17 feet wide. The third lock is at La Louvière, in Belgium, on the Canal du Centre, and is of truss girder pattern. These locks have been more or less successful, and, while the operation showed conclusively that the principle of a hydraulic lift lock is a correct one, defects were apparent that could be avoided in the construction of other locks.

William McKinley, the express messenger killed near Medicine Hat came from Orillia and not Orangeville.

Official Party for Kirkfield Took the Regular to Lindsay

Three Steamers Conveyed Them to Kirkfield—Press Representatives From all Parts of Canada—Will go to Beaverton After the Opening.

The C.P.R. early train due here at 6.15 a.m., brought in three private cars this morning, which contained the officials who are opening the lift lock at Kirkfield. Hon. R. Lemieux, Postmaster General and Minister of Labor, and party; Mr. M. J. Butler, C.E., Deputy Minister, and Chief Engineer of Railways and Canals and party; and representatives from the press gallery at Ottawa, were on board.

The journals of all the leading cities in Canada, from Halifax to Vancouver, are represented, and the opening of the Kirkfield lift lock will be reported in every daily paper in Canada, on Monday.

The three special cars were transferred to the Grand Trunk Railway here and attached to the regular 7.20 a.m. train for Lindsay. At the G.T.R. station, the superintendent of the Trent Canal, Mr. J. Harris McClellan and party, the superintending engineer, Mr. A. J. Grant and party, the local members of parliament and the local press, boarded the regular train and went to Lindsay, from which point the excursion started.

At the wharf in Sougogville the canal officials had three steamers waiting to convey the party to Kirkfield. The steamer Stony Lake was alloted to the main party, consisting of Hon. Mr. Lemieux, Mr. M. J. Butler and the members of the House of Commons and the Ontario Legislature.

The tug Bob Hall carried the engineer and his party and the steamer Sovereign carried the pressmen. Sharp on time the three boats pulled away from the wharf and headed for Balsam Lake and the twenty miles of new canal between that and Lake Simcoe. There was a good, jolly crowd on board all the steamers and nothing had been forgotten which would add to the comfort of the passengers.

Returning, after the opening ceremonies at the lift lock, the three government boats will continue from Kirkfield through the new stretch of canal to Lake Simcoe, and on to Beaverton, where a special train will be in waiting to convey the party to Lindsay, in time to connect with the regular train for Peterborough, arriving here about nine o'clock in the evening.

The Services In The Churches On Sunday

ST. PETER'S CATHEDRAL.

At St. Peter's Cathedral there will be three masses celebrated—at 8.00 a.m., low mass; children's mass at 9.15 a.m.; high mass at 10.30; Vespers at 7.00 p.m., with sermon.

ST. JOHN'S (ANGLICAN) CHURCH

Rev. Canon Davidson, M. A., rector, 6th Sunday after Trinity. 8.30 a.m. Holy Communion. 11 a.m., Holy Communion and Sermon. 3 p.m., Sunday school and Bible class. 7 p.m., Evensong and sermon.

ALL SAINTS' CHURCH.

(Anglican) Cor. Rubidge and Sherbrooke streets. Rev. W. Major, rector 6th Sunday after Trinity. 8.30 a.m., Holy Communion. 11 a. m., Morning Prayer and Sermon. 3 p. m., Sunday School and Bible class. 7 p.m., Evensong and Sermon. Sidesmen for the day, Messrs Minley and Wilson.

ST. LUKE, THE EVANGELIST.

(Anglican) East side — Rev. Dr. Langfeldt, M. A., rector. 6th Sunday after Trinity. 10 a.m., Sunday school and Bible Class. 11 a.m., Morning Prayer and Holy Communion. 7 p.m., Evensong and Sermon Rev. W. L. Armitage, of Picton, will preach at both services.

GEORGE STREET METHODIST

Rev E. A. Pearson, the new pastor, will preach at both services in George street Methodist church tomorrow.

MARK STREET.

Rev C. H. Coon will occupy the pulpit at both services on Sunday in Mark street Methodist church. Flower service will be held in the morning.

CHARLOTTE STREET

The pastor, Rev. H. M. Manning, will preach at both services in Charlotte street church tomorrow. In the morning he will preach to parents and in the evening a special sermon to young men.

ST. PAUL'S.

Rev. Dr. Marsh, of Springville, will preach at both services in St. Paul's church tomorrow and will declare the pulpit vacant.

ST. ANDREW'S.

Rev. Herbert C. Ross, D.D., of Erie, Pa., will preach at both services in St. Andrew's church tomorrow. Dr Ross officiated in St. Andrew's last month and his services were very highly appreciated. Rev. Mr. Potter will spend a week in Owen Sound Presbytery and will complete the canvas for Queen's University Endowment. The music at St. Andrew's tomorrow, will be as follows;

KNOX CHURCH.

Rev. H. J. Keith, the pastor will preach at both services in Knox church tomorrow.

Morning Service

Anthem, "Peace, Perfect Peace."

Duett, "Face to Face," Mr. and Mrs Greenslade.

Evening.

Anthem, "Softly Now, the Light of Day."

Quartette, "Rock of Ages," by Dudley Buck. — Mrs. Davidson, Mrs Greenslade, Mr. Greenslade and Mr. Freeland.

MURRAY STREET.

Rev J. R. Webb will preach at both services in Murray street Baptist church tomorrow. The ordinance of the Lord's Supper will be administered at the close of the morning service. There will also be a reception for new members;

PARK STREET BAPTIST.

Rev. A. H. Brace, pastor. 11 a.m. subject, "Rome's Policy and the Orangemen's Obligation." 7 p. m., subject, "The Man for the Emergency." Ordinance of Baptism and Lord's Supper to follow. Sunday School and pastor's Bible class at 3 p.m. Monday B.Y.P.U. Wednesday public service Friday, building committee. All seats free. Hymn books provided.

BETHANY TABERNACLE

Pastor Steuernagel will speak in the morning, his subject being the "Power of Pentecost." Evangelist Wesley Armstrong, of Boone, Iowa, will speak in the evening. The public generally are cordially invited.

GOSPEL HALL.

Mr Henry Turner, who was formerly a missionary in Central Africa, has returned to Canada, and will preach in the Gospel Hall on Sunday night at 7 o'clock. Sunday school will also be addressed by him at three o'clock. Everyone is welcome.

SALVATION ARMY BARRACKS.

Simcoe street, Adjutant and Mrs Wiggins in charge. Sunday meetings, 7 a.m., prayer meeting; 11 a.m., holiness meeting; 3 p.m., free and easy. 7 p.m., Salvation meeting.

New Lease Has Been Granted For Healey Falls Water Power

It is for 20 Years Renewable for Two Periods of 10 Years Each—3000 Horse Pewer to be Developed Within First Two Years.

A Toronto despatch says;

"The new lease of the Ontario Government property and water power rights at Healey Falls to the Northumberland - Durham Power Company, Limited, has been received by Mr. F. M. Field, from the Department of Lands, Forests and Mines.

"The form of lease is the printed form adopted for all water power leases from the Government, and sets apart for the use of this company the three parcels of land specifically described, owned by the Ontario Government in the Township of Seymour, adjacent to Healey Falls, for a period of 20 years computed from June 1st, 1907, with the right of renewal for two further and successive terms of ten years. This makes it a forty years' lease, provided the conditions are observed and rental paid.

"A nominal rental of $10 per annum for the first two years, and thereafter 75c per horse power, developed with a minimum of $25.00 is provided for during the 20 year term. Three thousand horse power is to be developed within two years, and the company are to begin the work necessary for development in a substantial and bona fide manner to the satisfaction of the Minister of Lands, Forests and Mines, within four months from the 1st of June, 1907. This period, it is understood, is to be extended another month owing to the delay that has occurred in the issue of the lease.

"The penalty clause is that which appears in the printed lease form adopted by the Lieutenant-Governor in Council, namely, forfeiture and cancellation for failure to begin the work necessary for development, within the time stipulated, and subsequently for failure to supply the power to the extent of 3,000 horse-power within the two years stated."

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins, *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. *(formerly Windsor)* Toronto, Ont.

Another View of Trades Unionism

Mortuary Feature That Has Been Business Success and Individual Aid

In an interview appearing in an eastern paper recently, James M. Lynch, president of the International Typographical Union, gave some valuable Typographical Union, gave some interesting information as to the mortuary feature of the organization.

It seems to be almost an instinct with man to provide for his burial after death. Men have been known—those in poverty—to laboriously collect and cling to a small sum for burial purposes, depriving themselves of the necessaries of life in order to retain this money, because of the horror of "filling a pauper's grave." Many associations provide for the interment of their members by a burial fund, and especially is this true of trade unions—perhaps all or nearly all of them.

It was to be expected that, as intelligent workingmen, the printers would be found in the lead in such a movement. While the greater number of their local associations have burial funds of their own, from which to provide for decent interment of their members, the International Typographical Union sends out from its home office in the Newton Claypool Building, Indianapolis, Ind., to the officers of each subordinate union $70 for each death of a member in good standing reported to it. While this is but a modest amount with which to pay the expenses of a funeral, yet, added to that provided by the local union, it makes a very acceptable sum—in some cities as much as $5500—which may be regarded as life insurance, as well as a burial fund.

The disbursements in this way of this one parent union from May 1, 1892, to May 1, 1907, amounted to $443,105, and in the year 1907 to $38,270. By this burial fund every member is guaranteed a respectable funeral—not as an act of charity, for each member pays his share—and there is enough left at least to enable his dependents to live until plans can be made for the future.

The death rate in the International Typographical Union for the year ending May 1, 1906, was 1.14 per cent. of the average membership, or a little more than 11 per 1,000. The average death rate since the establishment of the burial fund has been 1.21 per cent—about 12 per 1,000

The death benefit features of trade unions perhaps do not cut much of a figure in the statistics of economics, but investigation will develop that very considerable sums are devoted to this purpose, and it is also greatly to the credit of the printers that it is very rarely that a member of their society or his family becomes a charge on the public, living or dead.

Mrs Thomas Donohue, of Tweed, fell from a bridge breaking her back and she may die.

The C.P.R. will construct 50 new locomotives to be the largest ever ordered in Canada, for the mountain division.

SATURDAY, JULY 6, 1907

INSTINCT OF BATTLE

Let it be admitted that prize fighting is not an edifying and elevating form of sport; that it ought not to be encouraged; that those who engage in it could use their courage, skill and endurance for much better and more useful purposes. Still, when all is said, the instinct of battle which most men of northern race possess in more or less degree, makes a great prize-fight an event of rare interest, even to very many highly civilized and eminently respectable people, says the Hamilton Herald. And when one of the principals in the fight is a representative of one's own race or country, it is hard indeed for a red-blooded man not to feel glad if that fighter wins the laurel and the purse, and sorry if he is vanquished.

Of course, the Canadian, Tom Burns, or Noah Brusso, is a misguided young man in that he utilizes his brawn and brain and bravery in the unlovely work of pounding rival fellowmen into insensibility. What a superb longshoreman he would make, what a good pounder of sand in a moulding shop, what a mighty wielder of the sledge-hammer or axe, or pick in some useful, though humble trade! But Tom or Noah would meet with some who could do these things as well as he, and even if he were "supreme among his equals," the rules of his union would not allow him to do much more work and earn much more money than his fellow-workers; whereas in the fistic profession he can not only enjoy the honors of his pre-eminence, but can reap the substantial fruits of it. It's something to be the best, even in prize-fighting. And, judged by the money standard, it is worth hundreds of times more to be the best prize-fighter than to be the best workman in any organized trade.

It would be better for the new world-champion, morally, if he were not a star of the prize ring. But since he has chosen to shine in that sphere, most of us here, if we are quite candid, will confess to being glad that the Canadian won that notable fight so handily yesterday. If the Australian had knocked out the Canadian, our opinion of prize-fighting and prize-fighters in general would have been considerably lower than it is today.

PEN POINTS.

Port Arthur is progressive. Thirteen bylaws were voted on this week in that town and adopted by a majority vote. These included the construction of two concrete and steel bridges, the purchase of street cars, the expenditure of $60,000 for improvements to the Current river, extension of the waterworks $253,000, for the erection of a police station, for double-tracking the street railway for seven miles, the establishment of an incinerating plant, for the erection of new car barns and the isolation hospital, and for park improvements. About $600,000 was called for by the various bylaws. A plebiscite on development of Dog Lake Falls revealed an affirmative response, while the proposal to purchase land for a fair ground was rejected. The vote was small and little interest was taken.

The London Advertiser charges the Conservative press with making a party issue of the All Red line scheme, and says there is no reason why it should become a party issue. We agree with the London organ that the issue should not contribute to party capital but we challenge them on the statement that the Conservative press are seeking to make it such. This is about as inconsistent with the facts as many other statements by that organ. The Liberal press heralded the scheme as the device of Sir Wilfrid Laurier's brain, and characterized it as a mark of enterprise on the part of the Canadian premier. The Conservative press on the other hand, pointed out that Sir Charles Tupper was really the father of the scheme; that Sir Wilfrid Laurier himself was responsible for its primary defeat, and that he was simply employing a policy that belonged to a Conservative leader and which he previously ignored for that reason. Thus it is that the Conservative press is assailed because it seeks to protect its own, but we do not propose to sit idly by and allow the Liberals to rob us of an honor that is justly ours as a party.

In all quarters there is a loud outcry against political corruption. All the pulpits as well as the journals, have been thundering against it. But who is practically called to account for it? Has one of those who in the session before last voted for the Autonomy Bill, and accepted the gratuity, been made to feel that he has offended his constituents and forfeited their support for the future? Nothing is more dangerous to the commonwealth than the abuse of high judicial appointments. But an exceedingly gross offence of that kind, an offence such as would certainly entail the fall of a British Ministry while it has been greatly censured in private, has in public passed with perfect impunity. An honorable member of parliament like Mr. Osler denounces the prevalence of graft in the most startling terms. Graft reads his denunciation with a smile knowing itself to be indispensable to the party. Our people are good, but corruption will work downwards, and its engines are always ready in the local machinery of party, which disposes of the patronage and practically takes the elections out of the hands of the electors. It comes to this, that if we choose that government shall be carried on by a perpetual fight for power and place between parties who have outlived, if they ever had any real foundation, nothing but graft being left to keep their followers together, the dominion of graft will continue.—Goldwin Smith in the Farmers' Sun.

The Crying Need of Ireland is Home Rule, Says Rev. Dr. O'Brien

Evictions are Still Carried on and Under Landlordism Very Little Progress is Made by the People —Popular Peterboro' Priest Describes Some of the Historic Places Visited on His Recent Trip.

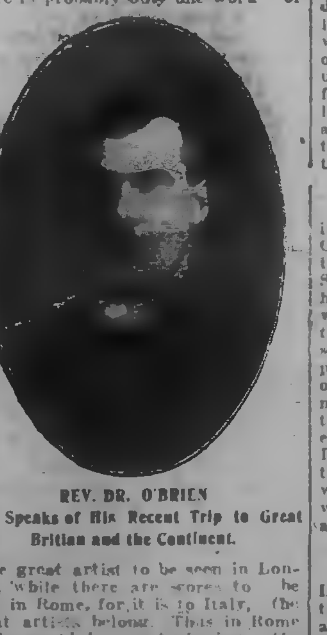
The beauties of nature, the wonderful things of architecture, sculpture and works of art, and the many historic places of interest that are to be seen in the old land or Europe, were vividly pictured to a Review representative by Rev. Dr. O'Brien of this city, who returned a few days ago, from a two months' holiday trip in Europe.

Dr. O'Brien, in company with Rev. Father O'Sullivan and Dr. W. J. Mitchell, of Kirkfield, sailed by the Empress of Britain from St. John, N.B., for Liverpool, with Rome, as their objective point. The voyage across was very pleasant and the Empress of Britain is a very fine and magnificent steamer. As their holiday was to be spent principally in Rome, the party did not spend very much time in England, on their way to Rome although they did go there directly. Instead of sailing from New York to Naples which would have taken a fortnight, they went by way of England.

On arrival at Liverpool they took the train for London. Speaking of the train system in England, Dr. O'Brien said that it was splendid, and surpassed the Canadian railways. They go at a much faster rate and very few stops are made. The cars are not so modern as in Canada, but they are getting more so. It is indeed very pleasant travelling on an English railroad. At London, Dr. O'Brien took a return ticket to Rome via Paris.

AT ROME

The great, historic and ancient city of Rome, presents many things of interest for one to see and the party spent two weeks in touring this wonderful old place. In London, the tourist may see works of art in the grand museums there, and he is amazed at their magnificence, but there is probably only one work of



REV. DR. O'BRIEN
Who Speaks of His Recent Trip to Great Britian and the Continent.

some great artist to be seen in London, while there are scores to be seen in Rome, for it is to Italy, the great artists belong. Thus in Rome weeks could be spent viewing the most beautiful works of art in paintings, architecture and Scripture. It is in Rome that the paintings of Michael Angelo and Raphael can ben seen in large numbers. Dr. O'Brien states that to see St. Peter's alone takes nearly a week. The architecture of this building is something grand, and the church is continually being repaired at a cost of $10,000 a year. The Pagan ruins of Rome, the Christian monuments, and the catacombs are of special interest to the tourist. By these monuments the history of the Roman church can be traced from the time of St. Peter. The people in Rome are largely cosmopolitan. People from every nation in the world are to be found there.

It is also the ambition of every tourist to Rome, whether he be Catholic or Protestant, to see the Pope. Dr. O'Brien had both a private and public audience with His Holiness Pope Pius X. In a public one, there are probably seventy-five or a hundred persons with whom the Pope shakes hands, and speaks. In Dr. O'Brien's private audience he had the pleasure of conversing with him for ten minutes. During that time he spoke to His Holiness of the good work the local T.A.S. were carrying on and the large membership they had. This delighted the Pope and he thought his people must be very good in Peterborough. Pope Pius X. is a robust, healthy man for his advanced years and is kept very busy. Dr. O'Brien spent two years in Rome, eight years ago, and since then he states the city has increased considerably in population.

On Dr. O'Brien's previous sojourn, he visited several other historic places in Italy, including Pompeii, Naples, Milan, Genoa, Venice, Padua, etc. On this trip he did not visit them. The doctor came from Rome to Paris, France. Again the splendid train service was experienced. This journey was made in 31 hours, which is remarkably good time, and one of the pleasing features of these trains is that they are always punctual.

CONDITIONS IN FRANCE.

To a Christian it is only the natural beauty of France that appeals to him, and the large majority of the people of France, are totally indifferent to their God. Speaking of religious conditions, Dr. O'Brien stated that it was quite apparent, that it was not a fight between the Government and the Catholic Church, but between the Government and God. It is an insiduous determination to eliminate religion. Every religious teaching community has been banished and their property has been sold by Government officials who appropriate the money to their own use. Christianity was asked to submit to the law made by the Government which no religious sect would do, and mass is still being carried on. Even if they were believing in other religions, it would not be so unreasonable, but they are forsaking God and placing infidel teachers in their schools. From Paris Dr. O'Brien came to London. He stated that every outgoing vessel from the port of France is watched by French and English officers. The English officers ask you if you are a British subject and Dr. O'Brien said he never felt so glad that he was one, as on that day when he was leaving for England. In France every young man when he becomes twenty-one years of age has to serve two years, and but until a short time ago, three and four years in the army. The same law is in force in Germany and Italy, and thus the French officers see that no Frenchman leaves the country without serving his time.

SAW KING EDWARD VII

In London the party spent ten days in taking in the many sights. Dr. O'Brien had the pleasure of seeing the King and the Prince of Wales in St. James' Palace. His Majesty was holding a levee. It was the anniversary of the last Indian mutiny, and the surviving military officers and soldiers who took part, were being presented to the King. The many objects of interest, including Westminister Abbey, the Crystal Palace, the Tower of London, and many other historic places were also visited. Dr. O'Brien paid a high compliment to the London policemen. They were all men of fine physique, and were very polite in their manner, always so willing to help a stranger.

TO IRELAND.

From London, Dr. O'Brien went to Ireland via Hollyhead, to Kingstown, the port of Dublin. Dr. O'Brien spent a few days at the Dublin Exposition. To a Canadian attending the Toronto Exhibition yearly, Dr. O'Brien said he would find nothing wonderful at the Dublin Exposition. In the opinion of most people the Canadian exhibit is by far the best. It is not exaggerated in the least, and the exhibit includes the different products of the country. The next point visited in the Emerald Isle was the birthplace of Dr. O'Brien's father at Neenagh in County Tipperary. Here Dr. O'Brien met several relatives. He also visited Limerick, Rathkeel and then to the south of Ireland to Tralee and to the famous Killarney lakes. He then returned to Dublin and from there across the Boyne to Armagh where St. Patrick built his first cathedral. He also visited Londonderry and Belfast, where he saw some fine linen and tobacco factories.

In speaking of conditions in Ireland, Rev. Dr. O'Brien stated that Ireland was a standing black mark upon England's name. The Irish people are crying for Home Rule. They want to be like Canada. Evictions are still being carried on, and under landlordism very little progress is made by the people.

From Ireland the party went to Dumfries, Scotland. This was the only place visited in Scotland. It is where Robert Burns died. Time did not permit them to stay in Scotland long, and from there they went to Liverpool, where they sailed by the turbine steamer Virginian of the Allan Line for dear old Canada, which Dr. O'Brien states is the best country of all. There were one thousand five hundred passengers on board, 960 steerage passengers landed at Quebec. The turbine steamers are most comfortable and no vibration from machinery is experienced. Dr. O'Brien feels greatly benefitted by his trip and enjoyed it very much.

WILL DECLARE PULPIT VACANT

Rev. Dr. Marsh of Springville Will Preach in St. Paul's To-morrow

Rev. Dr. Marsh, interim moderator of session, will preach in St. Paul's church at both services tomorrow and will declare the pulpit vacant. On Sunday next, Rev. R. C. Ross, late of Erie, Pa., will occupy the pulpit. Rev. Mr. Ross recently preached in St. Andrew's church and created a decided impression by his scholarly and thoughtful discourses.

Orangemen Will Attend Service

Annual Church Parade Will be Held to All Saint's Sunday Evening

The annual church parade of the Orange Lodges of Peterborough district, will be held tomorrow, Sunday evening, to All Saints' church, where Rev. Wm. Major will deliver a special sermon to the visitors.

The Orangemen will assemble at their hall on Simcoe street at 6 o'clock and will march to the church in a body. It is expected that several visiting brethren will march with the members of the local lodges. The following lodges will turn out; Diamond L.O.L. No. 80, J. W. Bell Memorial L.O.L., Jubilee L.O.L. No. 178 Smith, Col. Sanderson L.O.L. No 321 Downer's Corners, Wellington L.O.L., No 457 Nassau, Jubilee Lodge Prentice Boys and the local lodge of True Blues.

Big Preparations for the Twelfth

Millbrook Expects to Entertain Monster Crowd Next Friday

Speaking of the big Orange demonstration to be held in Millbrook on Friday next, and in which the Peterborough lodges will participate the Millbrook Mirror says;

"Preparations are being made to accommodate all who visit Millbrook on the 12th. We expect the celebration here to be one of the best in the Dominion.

"Three large churches are getting ready to serve meals.

"Four large hotels will also be ready with a good bill of fare.

"The committees are all hard at work getting everything in good shape, so that a grand time may be expected by all who visit this pretty town on the 12th of July next.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

WILL PREACH SPECIAL SERMON

Rev A. H. Brace Will Address Several Members of L.O.L. Order To-morrow

Diamond L.O.L. No. 80 decided on motion to attend the Park street Baptist church in as large numbers as possible to hear the sermon on "Rome's Policy and the Orangeman's Obligation," by Bro. Rev. A. H. Brace, on Sunday morning next. A hearty invitation is extended to the Prentice Boys and True Blues. All will meet at the church and not at the lodge room.

INITIAL SERMONS OF NEW PASTORS

Two Clergymen Who Will Enter Upon Their New Duties To-morrow

Rev E. A. Pearson, late of Toronto but now pastor of George-st. Methodist church, will preach his first sermon in his new charge on Sunday morning, when it is expected a large congregation will be present to hear the new minister. Mr Pearson is a very forceful, earnest and interesting speaker, and a very successful pastorate at George street, is anticipated.

At Mark street church also there is a change of pastors tomorrow. Rev C. H. Coon, late of Bobcaygeon has commenced his pastorate at that church and preaches his initial sermon. There will be a flower service tomorrow morning, when he will give a special address to the children. Mr. Coon will also preach in the evening.

Record Crowd at the Band Concert

Excellent Programme Rendered in Victoria Park Last Evening

Although it was 9 o'clock when the members of the 57th regiment band made their way to the Victoria park stand last evening, after the inspection of the regiment, there was one of the largest crowds of the season in attendance. The night was ideal—neither too hot nor too cold. People listened to the sweet music in perfect comfort and although the programme was somewhat shorter than usual, the selections were nevertheless much enjoyed. So far the weather every Friday night has been all that could be desired.

The citizens of Peterborough will now be favored with two band concerts a week in Victoria park—one each Thursday night by the Salvation Army organization and the other each Friday night by Prof. Gliddon's efficient company of musicians.

Then during the week there are several band concerts at Jackson park where the moving pictures are being put on nightly. There is music a plenty in Peterborough during these long, long summer days.

REVENUE FROM CHINAMEN

Ottawa, July 5.—Arrivals of Chinese in Canada continue to increase. The Empress of Japan arrived at Vancouver a few days ago with 521 Chinese passengers. Of these 62 paid $500 each, or $31,000 in all, for permission to enter Canada. One hundred and eighty-five of the Chinese were individuals who had made money in Canada and had gone back to China to live on it. They had one year under the law within which to return to the Dominion.

Bright Prospects for Work Starting at Southern End

Tenders for Construction of Southern End of Trent Canal to be Called for About July 12th.

It is stated on authority that tenders for the construction of the Trent Canal between Rice Lake and Lake Ontario will be called on July 12th and that no time will be lost in having the contracts awarded and getting the work started. The plans for this portion of the canal are now almost complete, and will be ready early next week. The canal staff have been busy on them for some time now, and they are being rushed with great expediency at the present time. To have them ready by the 12th no time must be lost.

The fact that tenders are to be asked for at such an early date, holds out bright promise that the southern end of the canal will soon be completed, and water communication established between Peterborough and the great waterways at the front.

It is understood that several prominent contractors are ready to tender on the lower section of the canal and there will be no unnecessary delay.

First Class Workmen to Supply The Different Trades are Scarce

Apprenticeship System Has Been Abandoned in Peterborough and Workmen Are Not so Skilled in All Branches of Their Work as They Should be—Other Conditions.

Ald. W. J. Johnston, local correspondent, sends the following report to the Labor Gazette for the month of May.

Considering the unseasonable weather during May work has been active. In shops and inside places of employment, nearly all classes of workmen have found employment. A great difficulty seems to be the getting of first-class workmen in sufficient numbers to meet the requirements of the several trades. The apprenticeship system has been abandoned and many workmen are not as well skilled in all branches of their work as they should be. Fire at the Peter Hamilton implement works did damage to the paint and woodworking shops: the company, however, is busy preparing for rebuilding. No men are out of work in consequence of the fire. The construction of the armouries and the Normal school is giving employment to a number of workmen. Transportation in all lines was active, and banks reported business good. The teamsters' strike for an increase in wages was settled, the men receiving $3.00. The union harness and collar makers are still out. The Sand and Lime Brick Company was very busy. The Taylor and Hall Cement Company was busy on drain pipes and other cement goods. The Canadian General Electric Company's transformer building is being rapidly pushed to completion. Work on the construction of the new Roman Catholic and Baptist churches will soon be begun. All manufacturing industries were busy with full staffs.

CONDITION OF LOCAL INDUSTRIES.

Agriculture.—Work has been retarded on account of the very cold weather, seeding having been delayed and fall crops destroyed by continued frosts. The weather moderated somewhat at the end of the month, and work in the district is now progressing satisfactorily.

Lumbering—Busy conditions prevailed.

Manufacturing—All industrial establishments were actively employed, and some had large numbers of orders ahead. The Quaker Oats Co. is running 24 hours per day, and has added forty workmen to its staff. The Peterborough Cereal Mill Co. is also running twenty-four hours per day. The J. J. Turner Company is very busy and is running a full staff of employees. Public works on the Trent Canal is being rapidly pushed at several places. Curtis Brothers are very busy getting ready their kilns for brick and have a large season's work ahead.

Mining—Conditions are somewhat dull.

Railroad Construction and Employment—The building of a 300 feet siding into clay beds for the cement company was in progress. The city has sewer and granolithic sidewalk work in good running order, and has several miles of each to construct this year.

CONDITION OF PARTICULAR TRADES.

Building—All trades were busy, with gas and steamfitters active.

Metal, Engineering and Shipbuilding—These trades were busy.

Woodworking and Furnishing — Busy conditions prevailed, excepting in the case of coopers, who were somewhat dull.

Printing.—Printing and allied craftsmen were busy in all branches.

Clothing—Hat makers were active, and others busy.

Food and Tobacco Preparation—Ice handlers were active and others busy.

Leather.—Busy conditions prevail.

Miscellaneous.—Barbers, broommakers and furriers were active, and clerks, stenographers, hotel and restaurant, theatre, laundry workers and delivery employees were busy.

Transport—Busy conditions prevailed with all classes of employees.

Unskilled Labor.—Work was fairly abundant, with no capable workmen reported idle.

DISTRICT NOTES.

Work in the district has been somewhat impeded by the cold weather, seeding being kept back, and doubts are entertained as to the outlook for a good hay harvest. Sawmills were all busy, and work other than farming was active. Cheese factories were becoming active.

FACTS—JUST PLAIN, POINTED FACTS

HOT WEATHER CLOTHING

Looks like a good hot summer after all! We're ready with all the thin things that minister to your hot weather comfort, such as:—

Men's cool, unlined, flannel finished English Tweed Suits, two piece double breasted sack style.

Eggs and Butter Were Plentiful

To-day's Market Unmarked by Any Feature

There was only a fair attendance on the market this morning and business was largely confined to a few lines. For some reason or other the farmers are not coming in to market in the same numbers as they were some time ago, and business as a result is not as active as formerly.

Eggs and butter had the run inside the hall. There were plenty of both and sales were readily made. Eggs went at 15c and 16c and butter at 22c to 24c per pound.

Chickens were about the only thing in the poultry market and they sold at 80c. to $1.00 per pair.

Potatoes were quoted at $1.25 per bag, and other vegetables sold at much the same prices as last week.

No meat was offered for sale, at least not enough to make prices quotable.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

New Potatoes are Now On Sale

The first new potatoes have arrived in the city and considering the backwardness of the season, it is remarkably early for this vegetable. Several pecks of them were brought to the city today and Mr. T. B. Maniece, grocer has them for sale. They are of a particularly fine variety, and are quite a good size. They were grown on Rev. Geo Dunkley's farm near Rice Lake. Mr. Dunkley states that he has lots more at home. New potatoes are quite a luxury at this time, and no doubt what there are in the city will be picked up quickly by those who are very fond of them.

St. Paul's Church Sunday School

Held Enjoyable Outing Down the River to Idyl Wyld

The annual outing of St. Paul's Church Sunday school, was held down the river to Idyl Wyld yesterday on the steamer Otonabee.

About two hundred and fifty were on board and a most delightful time was enjoyed. The officers of the boat did everything in their power to make the outing a pleasant one. Mr. William Madill, superintendent and the others in charge of the scholars speak in the highest terms of the attention accorded all on board. Idyl Wyld was reached shortly before one o'clock. After a stay of five hours at this attractive spot, the return trip was begun and Peterborough was reached shortly before nine o'clock.

At Idyl Wyld an interesting programme of races was run off under the direction of Mr. W. F. Nelson and Mr. Benj. Simpson. The results were,

50 yard race, boys — Charles Burgoyne, Clarence Mongaw, Max McClellan.

50 yards race, girls—Mabel Pringle, Ethel Goodenough, Helen Macdonald, Lillian Moore.

Wheelbarrow race—R. Laing and Art Howson, Willie Clark and Bedoin.

Primary Class Race — C. Mason, Grace Conway, Helen Thompson, Margaret Counal.

Potato race, girls—Mabel Pringle, Ethel Goodenough, Lena Vannorman.

Boot race, boys — Max McClellan, Ross Laing, Max Davidson.

Needle race, girls—E. Vannorman, May Nelson, Wilma Nelson.

100 yard race, boys—W. Eastwood, G. Simpson, R. Beavis.

Arithmetic race, girls.—May Nelson, Mabel Pringle, E. Goodenough.

Three-legged race, boys—A. Howson and R. Laing, Simpson and Turley.

Primary race, boys—Herbert Mason, Fred Vannorman, Stanley Anderson, Walter Beavis, and Willie Seguin.

Senior primary class, girls—Lillian Moore, Wilma Nelson, O. Burgoyne, M. Meredith and J. Anderson.

Will They Trim the Port Hopers?

Local Baseball Team Has Big Task Ahead of Them To-day

The Port Hope ball team arrived in the city at 11.45 and state that they are in fine shape for the great game this afternoon. They have all their regular team along and expect to take a fall out of the Peterborough nine on their home pasture. The game is called for three o'clock sharp and will be the best of the season. Peterborough must win in order to have a show for the league championship, and the boys will do their utmost to trim the Port Hope aggregation.

The teams will line-up as follows,—

Peterborough — Burns, rf, Callaghan lf, Partridge c, Connors cf, Quinlan 2b, Cheatham ss, Haliburton 3b, Graham 1b, Flaherty p, Johnston spare

Port Hope—O'Brien 3b, Thompson p, Henderson cf, O'Neil c, Kolb 2b, Walters rf, Sutphlis p, Brown ss, Boney 1b

R M Glover 25	E S Clarry 25
S Anderson 15	D G Cameron 18

FOOTBALL

The intermediate championship of the Midland Football League will be decided at Warkworth this afternoon when the intermediate Quakers of Peterborough play a sudden death game against the Warkworth team. The locals leave at two o'clock and are taking a strong team along. Warkworth has the advantage in playing on their own grounds and will no doubt put up a game fight for the honors.

POLSON IRON WORKS EMPLOYEES

Will Hold an Excursion to Peterborough on July 27th

The Polson Iron Works employees of Toronto, will run a large excursion to Peterborough on Saturday, July 27th. They will bring several hundred people to the city, and should make business good for all classes of business, particularly the hotels and restaurants.

COMING FROM FAR AND NEAR

From the surrounding towns and villages and county as well as the city, persons are coming every day and have the benefit of the skill and experience of our specialist, who is kept busy examining eyes for glasses and fitting artificial eyes. Mr. Browitt's work is a great success, his methods, his instruments and the years of experience which he has enjoyed in the United States and Canada, qualify him in a manner which few Canadians can equal and we do not wonder now that Mr. Browitt has made Peterboro' his home, that his work is appreciated and that he is meeting with the success he deserves.

Australia Does Not Favor Scheme

Declines to Entertain Sir Wilfrid's "All Red" Line

Special to the Review.

Melbourne, Australia, July 8.—It is understood that the government declines to entertain the scheme of an "all red" mail route, advocated by Sir Wilfrid Laurier, on the grounds that it would be impossible to provide an annual subscription of $2,000,000

Flower Sunday at Mark St. Church

Rev. C. H. Coon Delivers His Introductoory Sermons

Rev. C. H. Coon, the new pastor of Mark street Methodist Church commenced his pastorate yesterday and preached to large congregations at both morning and evening services. Mr. Coon is a forceful, earnest, interesting speaker and his sermons were helpful and inspiring.

In the morning, the annual flower service was held and the Sunday school scholars marched into the church carrying bouquets of flowers.

Preceding his sermon in the morning the new pastor made a few remarks. He said that he did not deem an introduction necessary. He supposed that his congregation knew him better than he knew them, and they were not strangers after all. He had enjoyed a visit to Mark-st. church last fall, when he met a number of the congregation. Then, we all have the same song of praise to sing, said Mr. Coon, and we unite together, as a family, for that purpose. He felt no particular strangeness in coming to Mark-st. church and he hoped that he and the congregation would work faithfully together and that the good work done in the past might continue Mr. Coon further remarked that his predecessor, Rev. J. G. Lewis, had done all he could to make his coming to Peterborough as pleasant as possible.

The speaker warned his new congregation to guard against making too much of first impressions. It gave him exceeding great pleasure to have his first service with the children.

The reverend gentleman preached a sermon especially to the young, taking for his text, the words found in the 4th chapter of Timothy and the 12th verse, "Let no man despise thy youth.'' These words were addressed to Timothy by Paul. Timothy was to be an example to the people The speaker said that youth was not valued enough. Youth should not be despised. Young people too, think that their influence does not count for very much. The influence of children on an older person is often very great.

"The value of youth in the service of the church is exceedingly great, and some day you will be called upon for greater responsibilities in the service of your God," said the speaker.

The young people are surrounded by many influences for evil, but the speaker said that he was glad to see that people were learning more of the worth of the boys and girls, and doing more to help them. In the home, they ought to be carefully trained, but in many cases they are often done actual injustices. Parents should train their children for their future work when they go out into the world. "Appreciate your own work, but not in a presumptuous manner. Make good use of the opportunities of your youth, said the speaker.

Make yourselves to be respected by your elders. In conclusion he said, God appreciated the gifts of flowers given to his work, by bringing cheer to the sick. Above all things give yourselves to Christ and do it at once.

During the offertory, Mrs. Payne and Mr. Miller sang a duett very effectively.

HEAVY FINES IN ASSAULT CASES

County Magistrate Edmison Held Court at Havelock

County Magistrate Edmison was in Havelock on Saturday, and disposed of several cases which came up before him.

Allan Elmhirst was the first offender. He was charged with having assaulted Dan McQuaig, on Saturday, June 29th. It appears that McQuaig was driving along the road and when he came to Elmhirst's house, Elmhirst came out and jumped into the rig, pulled McQuaig out and started to abuse him. The magistrate found Elmhirst guilty and fined him $20 and costs to be paid in ten days or in default of payment thirty days in gaol. Elmhirst had a case against McQuaig for using profane and abusive language to him, but the magistrate considered that it was laid just for spite and he dismissed it, the informant having to pay the costs.

Frank and Fred Varley of Belmont, were fined five dollars each for disorderly conduct at the railway station. These same two fellows were charged with assaulting Roy Campney of Havelock and will each have to pay another heavy fine, amounting to twenty dollars. The county treasury was certainly considerably enriched as a result of Magistrate Edmison's visit to Havelock.

The Sovereign Bank will pay a dividend of 1 1-2 per cent. for the current quarter.

Hammock Broke and Dropped Occupant on a Sharp Stump

Peculiar Accident at Chemong Yesterday as a Result of Which a Toronto Gentleman is in Nicholls Hospital Seriously Injured.

As a result of the hammock in which he was swinging breaking down, a gentleman named Hattrill, from Toronto, is in Nicholls Hospital in a serious condition from injuries to the spine. Mr. Hattrill had been staying with his brother-in-law, Mr. Heaton, at Chemong Park, and yesterday afternoon was lying in a hammock strung up between two trees near the cottage. Under the hammock was a short stump, and as Mr. Hattrill was swinging back and forth one of the ropes of the hammock broke and the occupant dropped heavily on the stump, already mentioned. His spine was injured very severely and he soon became unconscious. Dr. Young, of Peterborough, was immediately called, and went to Chemong as quickly as possible, and did what he could to relieve the injured man. He was taken to Nicholls Hospital in Belleghem's ambulance late last night, and to day it was stated that he was resting as easily as possible under the circumstances, but that his condition was still serious. He has regained consciousness, but is suffering considerable pain.

The accident was a most peculiar one and was a great shock to the cottagers at Chemong.

Former Peterborough Man Meets Death in a Wreck

Engineer Wm. Hamilton, Whose Parents Reside at Lakefield, Fatally Injured in a Smash-up on C.N.R. Near Fort Francis.

Fort Frances, Ont., July 7.—Friday night No. 2 Express on the C.N.R., was wrecked six miles from Rainy River. It ran into a herd of cattle. The engine turned over and was demolished. Fireman Wm. Vance was killed, and Engineer Wm. Hamilton so badly scalded he cannot live. The baggage car left the track, but the passengers in the sleeper hardly felt the collision. Passengers bound east were delayed twelve hours.

Information regarding the above wreck was received in Peterborough last night, the William Hamilton mentioned in it being a native of Peterborough county and until five years ago, an engineer on the local division of the Grand Trunk. The despatch received last night by local G.T.R. officials, stated that Mr. Hamilton had died in a Winnipeg hospital as a result of the injuries sustained.

Mr. Hamilton's parents reside at Lakefield, his father's name being ing Wm. Hamilton. They reside a short distance south of the Cement works. Deceased was about thirty-eight years of age, and before going west was employed as an engineer on the G.T.R. on this division. He was well known in Peterborough, and was one of the most popular engineers on the road. He was a member of Peterborough lodge, No. 111, I.O.O.F., and unmarried. The body will be brought east for burial.

Peterborough County Man Gets An Important Appointment

Mr. J. F. Sullivan, B. A., is Made Inspector Separate Schools for the Province of Ontario.

An Ottawa despatch says:—J. F. Sullivan, B.A., of the Ottawa Model School staff, it is announced, has been appointed by the Provincial Government to the responsible position of inspector of Separate schools for the province, and, it is said, will probably have supervision of the northern Ontario district in which a large number of Separate schools have sprung up during the past few years. The new Separate School Inspector was born at Ennismore, Peterborough county, some 40 years years ago, and was educated at the Peterborough Collegiate Institute, the Ottawa Normal School, the Ontario Normal College, Hamilton, and Queen's University, Kingston, of which institution he is a graduate in arts. Besides his high school scholastic attainments he has had a very extensive experience as a teacher, having spent some 21 years in actual work in the school room. He was appointed principal of St. Patrick's Separate school here in September, 1895, and for two years held that position with marked ability and general satisfaction to the people of the parish. In 1897 he was appointed to the teaching staff of the Provincial Model School and has made a splendid record in that institution, where he has been engaged for the past ten years. On his retirement last week to accept the position of Separate school inspector for the province of Ontario, the teachers of the Normal and Model schools took occasion to show the high appreciation in which they hold Mr. Sullivan by presenting him with a beautiful gold chain. In doing so, Mr. Putman, B.A., principal of the Model school voiced the feelings of the teaching staff in an appropriate speech in which he spoke of the scholarly attainments, the industry and the manly sterling qualities of mind and heart possessed by our subject.

Peterborough, June 22, 1907.

Dashed Madly Down the Incline; Awful Accident at Niagara Falls

Cars Took Terrific Flight to Bottom of River Bank.

Awful Accident at Niagara Falls—One Dead and Four Badly Injured—Feared All Will Die—Cable Snapped Like Thread—Shot Down Like Lightning—Many at Bottom Had a Narrow Escape.

Niagara Falls, N.Y., July 8.—By the parting of a cable operating the cars of the inclined railway in Prospect Park, five persons were sent on a terrific flight to the bottom of the river bank Saturday. With the exception of one, a baby, all received terrible injuries, and one died in the evening. He was Peter Inda of the tailoring firm of Inda & Puls, 127 Franklin street, Buffalo, whose face was crushed beyond recognition, his skull crushed, his left shoulder dislocated, and his body badly bruised and lacerated.

The injured are: Veronica Olsuviska, 113 Kosciusko street, Buffalo, lower jaw broken in two places, all teeth knocked out, scalp wound, body lacerated. May die.

E. A. Burks, chief accountant of the Louisville & Nashville and the Chesapeake & Ohio Railroad, with headquarters at Covington, Ky., face cut and bruised, body lacerated, left ankle sprained and left arm fractured.

Mrs. E. A. Burks, suffering from shock, face lacerated, left hand broken.

The six-year-old son of Mr. and Mrs. Burks, slight bruises about the body.

The accident happened just before the noon hour. Mr. and Mrs. Burks and their son were in the car ascending, while Peter Inda and the Olzuviska woman were in the car going down. The fact that the cable parted when the car ascending was about a third of the way up accounted for the fact that the Burks escaped with less serious injuries than the two occupants of the descending car.

Oscar Barbur, ticket agent at the foot of the inclined railway, saw the cars coming, and gave the warning in sufficient time to enable those in the waiting-room to make good their escape.

When the cars, shooting down the rails like a streak of lightning, crashed through the woodwork of the office and into the waiting-room below the scene was one of the wildest confusion. The occupants were thrown in all directions.

Doctors were summoned, and in a very few minutes a dozen of them were there. After rendering first aid to the injured, the victims were placed aboard the steamer Maid of the Mist and taken to the Canadian side of the river, where ambulances were in waiting to convey them back across the bridge to the Memorial Hospital here. It was impossible to bring them up the inclined railway, the accident putting it out of commission.

Supt. Perry of the state reservation cannot account for the accident. It is the custom to substitute new manila cables for the old ones at least once each year. These cables are four inches in diameter and have always been considered perfectly safe for the biggest loads.

The office of the Attorney-General of the State has made inquiry concerning the accident and Attorney T. F. O. Clary of this city has been deputied to represent the State office in handling the matter.

SUICIDES TO AVOID ARREST.

Newly-Married Woman Feared Trouble Over Sale of Piano.

Winnipeg, July 8.—Worried over the fact that she could not meet payments on her furniture, Mrs. Hornibrook of Bushnell street, a newly-wedded woman, aged 23, committed suicide yesterday afternoon by drinking carbolic acid.

She bought furniture on the instalment plan and later a piano. When the payments on the furniture came due she sold the piano. Saturday the agent tried to collect on the piano, and finding it was gone, threatened her with arrest.

Afraid of her husband, who works at the electric light works, and worried for fear she would be arrested, she committed suicide.

QUEBEC'S SURPLUS.

Provincial Exchequer Is Reported to Be $500,000 to the Good.

Montreal, July 8.—A special from Quebec says: "The fiscal year which closed June 30 last has been a most lucrative one for the Province of Quebec, and the treasurer is enabled to place to the credit of the province a surplus of $500,000.

The revenues from the different sources, but more especially from licenses, duties on successions, and taxes on commercial corporations, were in excess of preceding years.

Struck by Falling Rock.

Niagara Falls, N.Y., July 8.—Robert M. Dickson of Meridian, Mississippi, a Knight Templar, on his way to the Saratoga conclave, was just emerging from the "cave of the winds" on Saturday when a large rock tumbled from the cliff above and struck him upon the head, causing a compound fracture of the skull. He is in a precarious condition. Dickson is 24 years of age and unmarried.

North Perth Conservatives.

Milverton, July 8.—At the North Perth Conservative convention, held on Saturday, Alex. MacLaren, M.P., was renominated for the Federal House and James Torrance, M.P.P., secured the nomination for the Legislature, being opposed by H. B. Morphy, barrister, of Listowel.

The vote taken was three to one in favor of Mr. Torrance.

Earthquake In Maine.

Kittery, Maine, July 8.—A slight earthshock was experienced here last night, following several severe ones last week.

Cook's Cotton Root Compound.
The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co. Toronto, Ont. (formerly Windsor)

NITRO-GLYCERINE EXPLODES.

Town of Petrolea Severely Shaken—Building Completely Wrecked.

Petrolea, July 8.—People who were quietly enjoying a quiet Sunday were considerably startled yesterday afternoon, short after three o'clock, when a terrific explosion took place. The whole town was shaken and many windows were shattered.

The building at the Bradley Nitro-glycerine Works had been completely wrecked. The building is located about a mile north of the town. The manager stated that in the building, which was wrecked only a very small quantity of the explosive could have been present.

Within less than a hundred yards of the building were two magazines, each containing several hundred quartz of nitro-glycerine.

How they escaped destruction is at present unknown, but had the glycerine stored in them exploded the effects would have been disastrous.

STATE REGALIA STOLEN.

Dublin Castle Visited By Thieves Who Carry Off Jewels.

Dublin, Ireland, July 8.—A portion of the state regalia, value at $250,000, has been stolen from Dublin Castle. The safe in which the regalia was kept was forced. The jewels stolen were those used in the ceremony of investure in the Order of St. Patrick, the professional cross studded with diamonds, and the jeweled sword which is borne in procession at the investiture of the knights.

Lord Castletown, Knight of St. Patrick, was to have been chief of the state ceremony on the visit of King Edward to Dublin, but it is officially announced that the ceremony will be postponed. Sensational developments are expected.

Trouble Was Not Serious.

Lisbon, July 8.—It is officially stated that the trouble at Angra de Heroismo, in the Azores, where the troops were reported to have refused to march against the manifestants was not serious. Order was restored with the summoning of reinforcements from Pinta del Cada.

Seven Were Killed.

Lacrosse, Wis., July 8.—Complete reports from the district east of Lacrosse, that was swept by a tornado Wednesday night, shows that seven persons were killed, instead of 26, as first reported.

Hon. Mr. Beck Home.

London, July 8.—Hon Adam Beck arrived home yesterday from London. The London Hunt Club, under whose colors he won the hunt class at the Olympic Horse Show, will tender him a banquet.

Dr Henry Smith, of Norfolk, Va is in Hamilton, trying to induce Canadian farmers to go south.

HAYWOOD TO TAKE STAND.

Examination of Accused Murderer Will Likely Be Long.

Boise, Idaho, July 8.—Counsel for the defence in the Haywood murder case held a long conference Saturday both at their downtown offices and in the cell of Haywood, Moyer and Pettibone at the county jail, and it was said afterward that it would be next Wednesday before Haywood would take the oath as witness in his own behalf.

The program as it now stands is to begin Monday morning by reading the depositions taken at San Francisco as to the explosion at the house of Fred Bradley. These depositions are to be supplemented later with the evidence of an expert in explosives. It is contended by the defence that if 10 pounds of dynamite had been exploded, as Orchard swears were contained in the bombs, he used, that amount would have blown Bradley into pieces and destroyed the whole front of the building.

Additional testimony will be given to show that before he fled from the Coeur d'Alenes in 1899 Orchard attempted to sell his interest in the Hercules Mine. There will be a showing also as to the movements and actions of Jack Simpkins when he went to Denver in the fall of 1905 after having parted with Orchard at Caldwell. This will about conclude the case, except for the testimony of Haywood and Moyer. It is believed that Moyer's testimony can be reached by Tuesday afternoon.

Steve Adams will not be called by the defence. To call him would open the way for the state to get his repudiated confession before the jury, and it is deemed the better strategy to avoid this.

The direct examination of Haywood, according to the statement of counsel for the defence, will be long. He will give a sketch of his life which will embrace all of its important events, including his connection with the Western Federation of Miners. It is said that opportunity will be given for the fullest and widest cross-examination that the prosecution may decide to make. Haywood himself will explain that the $100 sent to Jack Simpkins nine days before Steunenberg was murdered was the remainder of a federation expense account which Simpkins left with Haywood to be forwarded to him at his home in Spokane.

The presentation of the states' rebuttal will probably begin on Thursday next, and be carried over into the succeeding week.

ROCKEFELLER ON STAND.

Is Willing Witness But Says He Knows Nothing.

Chicago, July 8.—John D. Rockefeller, president of the Standard Oil Co. of New Jersey, occupied the witness stand in the United States District Court Saturday while Judge Landis plied him with questions regarding the financial strength and the business methods of the corporation of which he is the head.

Mr. Rockefeller was a very willing but equally unsatisfactory witness. He was ready to tell all that he knew, but he said that he knew practically nothing.

The net result of his examination was the declaration that he believed that during the years 1903, 1904 and 1905, the period covered by the indictments on which the Standard Oil Co. of Indiana was recently convicted, the net profits of the Standard Oil Co. of New Jersey, were approximately 40 per cent. of an outstanding capitalization of $100,000,000.

ENGLISH ABSCONDER TAKEN.

Alleged to Have Robbed Bank of Forty Thousand Dollars.

Quebec, July 8.—One of the passengers of the Empress of Ireland was arrested on landing by Montreal private detectives. Only $100 was found on him. He is said to have absconded from a bank in England with about $40,000. It is not known where the money has been placed. He has been taken to Montreal, where he will be held till further information is received. It is supposed that several other men were working in connection with the prisoner and helped him to relieve the bank of the large sum.

Canadian Sentiment.

London, July 8.—(C. A. P.)—The News interviewed R. W. Perks, M. P., who explains the Georgian Bay scheme points. He also stated that among all classes of Canadians there exists a feeling of strong dissatisfaction almost amounting to resentment in relation to successive English Governments.

There is a widespread feeling that Canada is not valued as she should be, particularly in any controversy with the United States when her interests are allowed to suffer.

Bank Clerk Drowned.

St. John, N.B., July 8.—H. Grieves, a member of the Bank of Nova Scotia staff, was drowned while canoeing in Kennebecasis River yesterday afternoon. With four others, he was paddling up stream when the craft upset. All were good swimmers, and, with the exception of Grieves, decided to cling to the canoe, as the distance seemed too great to the shore. Grieves started out, but his strength could not last and he sank. He belonged to Scotland, having come out a year ago.

Void Legacies For Masses.

Paris, July 8.—A number of suits have been brought in France by the heirs of Catholics, to recover property bequeathed to the church for the specific purpose of saying masses for the repose of the souls of dead persons.

The decisions of the court thus far have invariably been in favor of the claimants, on the ground that the law of separation rendered the execution of the legacies impossible.

The Government is not opposing the suits.

Laurier In Dublin.

London, July 8.—Premier Laurier on Saturday visited Dublin exhibition, receiving a warm reception at the Canadian pavilion.

While canoeing on the Assiniboine River, near Marquette, Man., a young German, J. Kauffman, was drowned.

MOUNT ROYAL WRECKED

Struck Against Rock While Passing Through Kitselas Canyon.

Six of the Crew Were Drowned—Was Rushing Downstream At Full Steam—Captain's Cool Judgment Means of Saving Passengers—Vessel Broke Up In Few Minutes—Captain Given Great Credit.

Victoria, B.C., July 8.—The steamer Mount Royal, operated by the Hudson Bay Company on the Skeena River, was totally wrecked on Saturday, while passing through Kitselas Canyon, and six of the crew were drowned.

The steamer left Hazelton on Friday morning for Essington, and entered the canyon Saturday afternoon.

She was rushing downstream with a full head of steam, which is necessary to give her steerage way, when she struck against a rock on Ringbolt Island.

The steamer struck the right bank of the island and remained fast for 5 minutes. Capt. Johnson, realizing the danger, ordered all of the passengers ashore, and all reached a place of safety.

The judgment of the captain was soon justified, for the current caught the vessel and swung her round until broadside to the main channel, and in less than 5 minutes she commenced to break up.

The captain remained on board, vainly endeavoring to save her, till the pilot-house broke away from the main deck and the captain was washed ashore on the island.

Members of the crew were not so fortunate, and Chief Engineer Madigan and Second Engineer Good were carried through the canyon on the wreckage. Six other members of the crew were washed away and drowned.

Mrs. Johnson, wife of the captain, was the only lady on board, and, with other passengers, reached shore in safety.

Madigan and Good were picked up by Indians, who had been sent to the rescue by a telegraph operator. They remained in the vicinity for some time and picked up all the wreckage possible, but with no sign of the missing men. Those lost are: W. L. Lemis, first officer; James O'Keefe, purser; Archie Willis, steward; Bert Frayne, fireman; J. M. Morishima, carpenter; Frand Amata, deckhand.

The canyon, where the wreck occurred, is dangerous, and on several occasions the trip has had to be abandoned.

The Mount Royal was valued at $30,000, and was insured in England. She was built in Victoria in 1902, and was the most powerful stern-wheeler ever constructed in this city. She was 130 feet long and 28 feet beam.

Capt. Johnson is considered to be one of the best river navigators on the Pacific coast. He has been in command of the Mount Royal since she was built, and knows the Skeena River better than any other mariner who has ever taken a vessel up the river.

Passengers and crew give the captain great credit for the manner in which he attempted to save the vessel.

Miner Assaulted.

Cobalt, July 8.—Adelor la Trombor, an employe of the King Edward Mine, had a roll of money Friday night. He boarded in a north end house and was induced by a companion, said to be a questionable character, to walk down the track south of the town.

About the townsite mine a third party joined them and an attempt was made to get La Trombor's money. He was too strong for his assailants, but was left almost unconscious and picked up by a Townsite miner and assisted up town to Dr. Schmidt's office.

His head was badly battered by two instruments, one blunt.

Killed While Sleep-Walking.

Montreal, July 8.—A peculiar accident, resulting in the death of Joseph Robert, 15 years old, son of the chief of police of Lachine, is reported from Oka, near the city.

The boy was at school and was in the habit of walking in his sleep, and during the night, when in one of his sleep-walking fits, he went to a window and jumped out, falling a distance of over 50 feet.

His dead body was not found until the following day.

Charged With Shooting.

Edmonton, July 8.—As a climax to the Fourth of July celebration here, Charles Semard, formerly proprietor of the St. Elmo Hotel, is lying in his home at the point of death, and Frank Mikola is under arrest, charged with shooting him. The bullet was fired through a basement window.

Drowned While Fishing.

Kingston, Ont., July 8.—Elmer Cairns, 9 years of age, fell through the beams of an open pier alongside the Moers' elevator at the foot of Gore street, while fishing Saturday evening, and was drowned. The body was recovered by a diver before midnight.

Jew-Baiter Assassinated.

Yekaterinburg, Russia, July 8.—Captain Pushkin of the gendarmerie was assassinated on the streets of this town yesterday. He was unfavorably known as the organizer of the anti-Jewish attacks at Valogda in 1905, when many lives were lost.

Steamer Wrecked.

Madrid, July 8.—A despatch received here from Corcubion says the British steamer Denewell, from Genoa for Larmes, struck the rocks two miles off Cape Finistere and went to the bottom.

The crew were saved.

Heat Kills at Pittsburg.

Pittsburg, Pa., July 8.—Two persons are dead and many are in a serious condition from prostration, as the result of a heat wave which began here Saturday.

William Inwood, of Hamilton, a veteran G.T.R. employee is dead at the age of 65.

DREADFUL MINE ACCIDENT.

Chain Runner's Mistake Brings Awful Death to Three Men.

Halifax, N.S., July 8.—A shocking accident by which three miners were instantly killed at No. 4 colliery of the Nova Scotia Steel Company's Sydney mines is one of the worst which ever occurred in that district of the Cape Breton coal fields. The dead are: John W. Nicholson, aged 22, leaving a wife and four children; Dennis Pendergast, single, aged 35 years, and Richard Broderick, 27 years, who leaves a wife and two small children.

The three men were working in the deep, when, without a moment's warning, a loaded box came crashing down the bank and into the pit, giving the unsuspecting men not the slightest chance to get out of the way.

Yesterday afternoon the Coroner, visited the scene, where it was ascertained the accident was largely due to the carelessness of a chain runner, Arthur Pearo, who, before shifting the switch to divert the car to the bank, detached the car from the haulage rope and allowed it to return at terrific speed down into the pit, where the men were at work, a distance of four hundred feet. When Pearo noticed his terrible mistake and saw the car pass from him and shoot into the mine he ran after it and shouted at the top of his voice to the men below, but they could not hear. When the victims were discovered they were buried under a ton of coal which had been the contents of the box, and which had been thrown out by the force of the impact. The three men were taken to the surface. Broderick was dead, a large hole in the top of his head exposing the skull. Nicholson and Pendergast lived a short time. Doctors marvelled how they could live any time, in view of their terrible injuries. Pendergast was badly injured about the body and both legs were broken in several places. Arthur Pearo, who failed to shift the switch, is almost distracted. He makes no attempt to shift the responsibility, but blames himself for the whole thing.

Theory and Practice.

"There is such a sweet simplicity about rural life," said the enthusiastic young lady who had never tried it. "You watch the first flowers of spring unfold, commune with nature and learn the language of the birds and the bees."

"Ever milk cows on a frosty morning before sunup?" asked the eminently practical man who had been there.

STEAMER STONY LAKE OF MAJESTIC

For the week commencing July 2nd, the Steamer Stoney Lake will leave Lakefield on the arrival of the morning train from Peterborough, returning in time to connect with the afternoon train for Peterborough. The steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

Port Hope Sent From the Diamond Without a Hit

League Leaders Beaten by Peterborough, 6—3—Visitors Unable to Get a Hit off Quinlan Who Pitched Great Ball—Story of a Splendid Contest.

The Peterborough baseball team got back at Port Hope on Saturday afternoon for the shut out to which the locals fell heir at Port Hope on Dominion Day. The homesters put it over the league leaders, 6—3, and Quinlan, who did the twirling for the locals, accomplished the remarkable feat of sending the visitors off the field without a hit. As far as can be learned this establishes a record in the baseball annals of Peterborough. Men who have been familiar with the game here for many years, state that they do not remember a no-hit game having occurred in this city before. And no doubt it will be many more years before such a thing happens again. The local boy was in fine shape, and try as they might, the heavy Port Hope batters could not get the ball into safe quarters. True, they hit on several occasions, but only once or twice did it get as far as the outfield. Port Hope secured their runs as a result of errors on the part of the locals, who had seven black marks chalked up against them as a result of the afternoon's operations. Had no errors been made by Peterborough, not a man of the visitors would likely have reached second base. Quinlan had six strikeouts to his credit, walked one man, and sent another to first by hitting him with the ball. Opposed to Quinlan was the great Henry Surphlis who was also in good shape, and while he had eleven strikeouts, he was hit safely five times, two of them being good for two bases. He also sent two men on balls.

The game was one of the best seen in Peterborough for years, and was witnessed by over 400 fans. It was like old times to see Peterborough and Port Hope on the diamond in a league game, and the excitement ran high. The locals were determined to get revenge for last Monday's shut out and they did. The locals started off strong, getting two runs in the first innings. Then there was nothing doing until the fifth, when they landed two more, while Port Hope got three. Two more for Peterborough in the seventh completed the scoring. Port Hope had the same team as defeated Peterborough on Monday last, while Johnston replaced Poulter on the Peterborough lineup.

Owing to the failure of an Oshawa man, who was appointed to referee the game, to show up, it was agreed by the teams to have two umpires, one to call the strikes and balls, and the other to watch the bases. "Dandy" Lockington of Port Hope and Clarke Earls, of Toronto, formerly of Peterborough, were decided upon, and both teams found reason to kick on their decisions. They alternated each innings, in the two positions, but Earls jumped the job during the fifth innings, owing to the kicking being done by the visitors. Lockington umpired alone for the remainder of the game and gave fair satisfaction, although there had been some kicking from the local quarters, in the early part of the contest. The league officials should see that a good umpire is on hand for each game. Picking up umpires at the last minute is not satisfactory at all.

The attendance was the largest seen at a ball game in Peterborough for several years, with the exception of holiday fixtures, which cannot be taken as a criterion of the popularity of baseball in the city. The big crowd yesterday went to show that the Peterborough public appreciate good baseball, and will pay their money to see it, when fast teams are playing the game, and it is on the square. Peterborough has a good team this season, and the boys are doing their best to make a good showing. They have been faithful in turning out to practice and have worked hard all season to keep in shape. Large patronage of the games this season means that the baseball germ will take firm hold here, and prepare the way for good ball in future seasons.

Both pitchers were in fine form, and the conditions were of such a nature as to demonstrate their ability in the twirling line. Both had heavy batters before them, and good support from their team-mates. That Surphlis is a good pitcher no one will deny. He has a strong delivery, always has his wits about him, and usually makes good just when it is needed. On the other hand it is doubtful if he has anything on Quinlan. If he has, he did not uncork it on Saturday. Against a heavy hitting team like Port Hope, six strike outs is no mean record, while the fact that he shut out the men from the lake shore town without a hit, is something that will long be talked about in local baseball circles. The Peterborough twirler kept his head under the most exciting conditions. In the fifth innings, when the visitors took three runs on errors by the locals, Quinlan pulled himself together and succeeded in sending them to the field, without gaining a further lead. His underhand ball was something the Port Hopers could not fathom, and when they did connect, it was seldom that the ball ever reached the outfield.

Burridge again showed up well for the Peterborough team, both in his position behind the bat and with the stab. Connors was one of the best of the bunch, and appears to be getting better each game. Cheatham did great work at short stop, while Halburton performed nicely around the third cushion. Graham covered first nicely, and Burns showed himself able to deliver the goods at second, although that is not his regular position. Callaghan did well at bat and in the field. Johnston made a pretty catch in the right garden, but could not connect with the delivery of Surphlis.

The Port Hopers are a well balanced team. They have a strong battery and their fielding is snappy. Against a weak pitcher they would run up a big score, but as it was on Saturday they were lucky to get their three runs.

The following tells the story of the game in convenient form:—

SUMMARY

Earned runs—Peterborough 4; Port Hope, 0; two base hits, Connors, Burridge. First on balls—Off Quinlan, 1; off Surphlis, 2. Struck out by Quinlan, 5; by Surphlis, 11; double-plays, Halburton to Burns, to Graham; Quinlan to Burns. Left on bases, Peterborough, 6; Port Hope 4; hit by pitcher, by Quinlan, 1. (Henderson). Sacrifice hits, Quinlan.

Score by innings:—
Peterborough—2.0.0.0.2.0.2.0.0—6
Port Hope—0.0.0.0.3.0.0.0.0—3

Port Hope went to bat first, but were quickly retired. O'Brien, Thompson and Henderson each knocked out short drives to Cheatham's vicinity, and the auburn haired boy put them over to Graham nicely, and none of the three made first. Burns led off for Peterborough by rapping the ball and got got to first on an error. By clever work on the base lines he reached third while Callaghan was at bat. Callaghan singled, but the ball beat Burns out as he was trying to make home, and he was out. Burridge drove out a two baser and scored Callaghan, and then Connors sent out a nice tap and reached first, while Burridge raced in, making the tally. Peterborough, 2; Port Hope, 0. Quinlan and Cheatham both connected with the leather, but died before reaching first, and the side was retired, with Connors at third.

There was no scoring in the second, the only feature being a double play worked by Halburton, Burns and Graham, that resulted in Kolb and Walters being put out. O'Neil had gone before, so the side was retired. For Peterborough Halburton and Johnston struck out, and Graham failed to make the first bag.

The third was also without feature, Surphlis and Quinlan each having their two strike outs to their credit in this period.

Peterborough worked another double play in the fourth; Quinlan caught Henderson's fly and quickly transferred to Burns, who tagged Thompson at second. O'Brien, who led off, sent out a fly that was copped by Burns.

Peterborough had a bunch of costly errors in the fifth. Port Hope came out of the innings with three counters to their credit. O'Neil led off for the league leaders and reached first on an error by Graham, who dropped the ball after it had been thrown to him. Kolb went on balls and Walters went to first on Halburton's error. Surphlis drove out one that Burns should have got, but didn't, and O'Neil and Kolb came in, tieing the score. Brown also connected with the sphere, and Johnston dropped the ball, and Walters scored on the error, putting Port Hope one to the good. Boney struck out and O'Brien and Thompson died before getting to the first station. Brown was at third when the side was sent to the field.

Peterborough came back hard when they came to bat. Johnston died before getting to first, and Surphlis walked Burns. With Callaghan at the hickory Burns stole second and third, and then raised the fans to their feet by coming home on O'Brien missing the ball when it was threw to him at third base. Callaghan also walked and Burridge hit and allowed Callaghan to score. Connors struck out and Quinlan failed to make the first cushion.

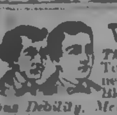
The sixth ended without any scoring, and Port Hope was retired in the seventh without any tallying, Surphlis and Boney striking out, and Brown dying before getting to first.

For Peterborough Burns struck out, Callaghan singled, Burridge drove a long one to centre field, but Henderson made a pretty catch and it was no good. Callaghan started for home as soon as Henderson had the ball, and beat out his throw to the home plate, making the score 5—3. Connors distinguished himself by pounding out a two-bagger. Quinlan tapped the ball and made first on Boney's error and Connors scored, making the tally 6—3. Cheatham struck out and the homesters went to the pasture.

Port Hope died quickly in the eighth. O'Brien sent a grounder to Halburton, who threw to Graham nicely, Cheatham caught a fly from Thompson, and Henderson never reached first.

Halburton led with a nice drive to centre field, but Henderson connected with it and the batter was out. Graham and Johnston struck out.

Port Hope came in for their last chance, determined to do something but their aspirations were short lived. O'Neil failed to make first, and Kolb repeated the stunt, Burns putting the sphere to Graham too quickly. Walters got first on an error by Burns, and then the great Surphlis came to bat. Twice he hammered the air and the third time drove the ball towards first base, and Graham caught it. This made three men out, and Port Hope's chance was gone and the game over.



Wood's Phosphodine,
The Great English Remedy.
Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Banking by Mail

SAFETY of the Mails

The best proof of the safety of sending money through the mails is the fact that the enormous exchanges between banks of different cities, amounting to millions of dollars every day, are handled entirely through the mails.

Banking by Mail is not a new-fangled, untried idea.

4% Compounded Quarterly

It has been in successful operation for six years. The out-of-town people who transact their business through Banking by Mail are numbered by thousands. They have proved it simple, safe and profitable.

On all Savings Deposits we allow four per cent. interest, compounded quarterly.

Our booklet, sent free on request, gives full information on Banking by Mail at 4 per cent. interest. Write for it to-day.

### Used to It.

After asking a great many questions of a lady a barrister felt that some apology was necessary, so he remarked, "I really hope I don't annoy you with all these questions?"

"Not at all," answered the lady quietly. "I'm used to it. I have a six-year-old son."

A Nice Distinction.

I wonder if any of these purists could solve for me a problem which has long been worrying me. To what particular altitude must an individual attain before his murder is described as assassination? This is a matter that ought to be cleared up.—London Tatler.

JAPAN HASN'T COIN FOR WAR.

Britain Placed In An Embarrassing Position.

London, July 8.—The present tension between the United States and Japan is exciting the keenest interest among all the European diplomats. None of them, however, believes that it will reach the stage of warfare, because the heavy burden of debt Japan is carrying as a result of her failure to obtain indemnity from Russia forbids her embarking on a similar costly enterprise in the next decade. It is recognised, nevertheless, that the United States is acquiring the enmity of Japan as one of her national assets which may prove a handicap in the event of trouble with any other power.

Great Britain finds herself in an embarrassing position also, because she is obliged to stand between her colonies and her ally in the matter of anti-Japanese laws. There has just been put into operation a law regulating the entry of Asiatics, which applies to Indian subjects, as well as to the Japanese and the Chinese, and which compels them to submit to an examination and registration with thumb prints, like criminals, which is exceedingly irritating to them. Australia threatens further legislation on the same lines.

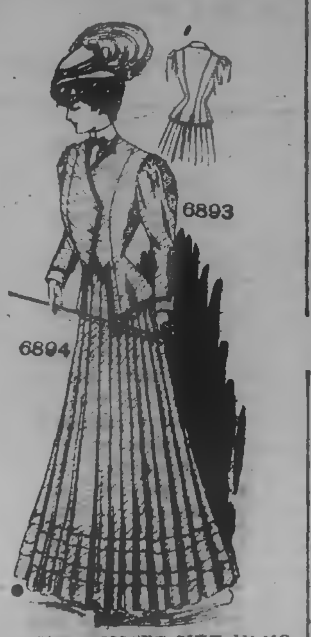
Local Salaried Representative. Machine 'Phone 22

THE DEAN PATTERNS



6893, 6894.—A SMART SUIT IN MOHAIR.

Mohair is one of the most practical materials for suits for this season of the year and a suit made in this material is shown. The jacket is not elaborate yet full of style and good lines. The fronts are fanciful in outline and closing while the sleeves are long as best suited for general wear. The skirt is side-pleated and in round length, with a very smart ripple at the hem. A narrow braid or folds of the material may serve as trimming with buttons of the same. For the medium size the coat requires 1 5-8 yards of 54 inch material and the skirt 7 3-4 yards of 44 inch.

Two Patterns.—6893—Sizes 32 to 42 inches bust measure. 6894—Sizes 20 to 32 inches waist.

Leave your order and 10c at the REVIEW OFFICE and pattern will be sent you by mail.

A Hamilton trolley car collided with a coal waggon, injuring little Evelyn Ward, of Toronto.

The loading pier and machinery of the Dominion Coal Company at Wabana, Nfld., were burned.

James Barnes, M.P.P. for Kent, has been appointed a Minister without portfolio, in the New Brunswick Cabinet.

The striking freight handlers at Halifax will return to work while a board of conciliation examines their claims.

SEVEN TO ONE

That is about the ratio. About seven times as many persons are injured as die from all causes yearly. Accidents are a more prolific cause of death than any disease except lung diseases.

Twice as many people are accidentally killed as die of old age.

Does it not seem reasonable to you as a business man that it would be to your interest to carry an accident policy.

Bell Telephone Co's. Application

To Put Wires Under Ground Will Come Before the Council To-night

A conference was held on Friday last between Mayor McWilliams and City Solicitor E. H. D. Hall for the city, and Mr. F. W. Doan, local manager, and Mr. F. D. Kerr, local solicitor for the Bell Telephone Co., in reference to the Bell Company putting their wires under ground. The company is particularly anxious to bury their wires and to get it done before the city undertakes the laying of permanent pavements on the roads. The city is equally willing to have the work go on, in order to get rid of the wires and poles from the streets.

The only difficulty is to arrange terms which will permit the Bell Company to do its work without the city giving up any rights which it has or may hereafter acquire by changes in the law, on the streets. An agreement was practically arrived at and sent to the Company's head office, and if approved of by the officials there, it will be submitted to the Council tonight. Once the arrangements are made work will be carried on as quickly as possible, although it will take several months to get the material here after it has been ordered.

Chemong Yacht Club Officers

The annual meeting of the Chemong Yacht Club was held at the club house on Saturday night, when the following officers were elected for the year:—

Honorary Commodore—Admiral McComb

Commodore—T. F. Matthews.

Vice Commodore—Howard Hopwood.

Hon. Sec.-Treas.—W. S. Davidson

General Committee—W. H. Hill, W. R. Hartshorn, P. O. Dumble, and Merrett.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Colonial Weaving By-law on Thursday

Voting Will Take Place at Different Polling Places

Voting will take place on Thursday, of this week on the bylaw to grant $3,500 to the Colonial Weaving Company, to aid them in extending their business in this city. If this assistance is given the company intend erecting a building 200 feet long and 60 feet wide, and installing therein $30,000 worth of machinery, and giving employment to 60 additional hands. Copies of the bylaws can be seen at the office of the city clerk.

Lamp Set Fire to Bed Clothes

Blaze at the Residence of Mrs. E. Tobin, Auburn, Last Night

Immediately after the town clock had struck eleven last night the fire alarm ran out 59, and quickly the fire team was hitched to the hose wagon and away to the scene of the blaze. Box 59 is at Auburn, and the fire was at the residence of Mrs. E. Tobin, River Road.

The first team ran up Aylmer street to Hunter street, and out Hunter through east city. It was followed by the ladder waggon and a large crowd of people on bicycles and on foot, who were all hurrying to the scene. The fire did not amount to much and was out before the firemen had arrived, but it might have been serious.

One of the occupants of the house was retiring for the night and had the lamp beside his bed. In some way the lamp became upset, and the bed clothes took fire, and were beginning to burn quickly. The furniture was also in a blaze and there was danger of the house being destroyed, but by the assistance of the other people in the houses, the fire was put out, without the aid of the brigade. The only damage done was to the bed clothes, which were considerably ruined. The bed was also scorched.

Faced the Court on Two Charges

John Bailley up for Being Drunk and Assaulting a Police Officer

There was only a short session of the police court this morning. City Clerk Armstrong presided, His Worship Magistrate Dumble being absent from the city.

John Bailley was the first offender. He was drunk and disorderly on Saturday night. He pleaded guilty, but claimed that he was not disorderly. There was another charge against him of assaulting P.C. McDonald, when being arrested. On both charges he was remanded till Friday morning. It was just last Friday that he appeared on a charge of being drunk, but was allowed to go, promising not to appear again. Evidently the temptation to indulge in the boozerine could not be resisted.

George Nicholls was also remanded till next Friday on a charge of assaulting Nellie Brown.

Orange Order is Necessary at Present Day, Says Rev. Major

In His Sermon to the Orangemen of Peterborough and District at All Saints' Church Last Night—Largest Turnout in History.

Is there a necessity for the Orange Order in the present day?

This was the question that was discussed by Rev. Wm. Major, rector of All Saints' church last evening, on the occasion of the church parade of the Orangemen to that edifice. The speaker believed that there was a need for the Orange Order at the present time, that there was much work for the Orangemen to do.

The turnout of members of the Order last night, was the largest that ever took part in a church parade of the society in Peterborough. There were several hundred of the sons of William in line and they made an imposing sight as they marched to and from the church, headed by the 57th regiment band. The music of the fife and drum was not lacking either, a fife and drum band supplying good music about the middle of the procession. The Orangemen gathered at their hall on Simcoe street and marched to the church, where a large portion of the seating capacity had been reserved for them. But so many were there in the parade that chairs had to be placed in the aisles, and the vestry opened in order to provide accommodation.

Rev. Mr. Major preached a forcible sermon based on the words found in the sixth verse of the 7th chapter of Judges, "And the number of them that lapped, putting their hand to their mouth, were three hundred men; but all the rest of the people bowed down upon their knees to drink water."

In commencing his discourse, Rev. Mr. Major pointed out the significance of the text and the chapter in which it was found. At the time of the events described in this portion of scripture, the Children of Israel were suffering heavily from the bondage of Midianites. Gideon was apointed by God to lead them against their enemies and when he assembled his forces he found that he had 32,000 men. He was told by God that these were too many for the work he had to accomplish, and to proclaim that all those who were afraid to meet the foe should go home. The result was that 22,000 went back, leaving Gideon with an army of 10,000. But he was again told by the Lord that he still had too many for the purpose required and he was commanded to put them to a test, and to keep only those who successfullly stood the test. So the 10,000 men were taken to the water and commanded to drink. Those who got down on their knees and drank with complacency were not to be chosen and those who lapped up the water in their hands and conveyed it to their lips in this manner were to be selected for the work Gideon had to do. And when the test was made it was found that only 300 out of the 10,000 had lapped up the water, the remaining 9,600 had got down on their knees and drank with time and complacency. This test, said Rev. Mr. Major, was a rather peculiar one. Its object was to divine those who were ever ready and watchful. Those who lapped up the water with their hands were alert and on their guard, while those who bent down upon their knees showed that they would take their time, no matter what was happening. The three hundred were chosen to accomplish what the Lord had appointed Gideon to do.

THE REAL POINT.

Having explained the text, Mr. Major then took up the vital point of his sermon. "Is there a necessity for the Orange Order at the present day?" He went back to the foundation of the Orange Order which came into existence in Ireland, towards the end of the seventeenth century. Bands of Romanists were roving up and down the country murdering the Protestants simply because they were Protestants. The latter found it necessary to band together for their own protection and the Orange Order had been the outgrowth of these troublesome times. There was need for the Orange Order then; was there need for it at the present day? The speaker believed there was. Rome was ever working: she was ever the same. She changed her tactics to suit prevailing conditions but she was ever working with the same object in view, that of her own aggrandisement. Mr. Major cited some incidents showing that Rome was ever aggressive, changing her methods to suit the conditions of the times but always working. That was the point. The Orange Order was needed to protect the Protestant interests of the country and to fight the aggression, bigotry and superstition of the Roman Church.

The speaker urged every Orangeman to see that he lived up to his obligations and lived a life in keeping with the constitution of the Orange Order. They should be careful regarding new members that were taken into the order. It was better that the Order should be numerically weaker and strong in morality and principle, than otherwise.

In closing he impressed upon his hearers the necessity of being loyal to Christ, the King of Kings.

The hymns sung were "Onward, Christian Soldiers," and "Fight the Good Fight." During the offertory, the choir sang Kipling's Recessional in an excellent manner.

All the local lodges and those from Smith, Downer's Corners and Nassau were in line. The Peterborough Prentice Boys, and the Nassau Juveniles attracted much attention. On the return to the hall the usual votes of thanks were passed.

Impressions of Old London; Many Improvements Noticed

Mr. J. J. Turner sr. Speaks of Changes Which Have Taken Place Within Past Two Years—Times Are Dull in Old Country and There Are Thousands of Idle Men Walking the Streets.

"I am sorry to say there are thousands of men walking the streets in Old London looking for work, and not able to obtain it," remarked Mr. J. J. Turner, sr., who returned on Saturday from a trip to the Old Country.

"Industrial conditions are very slack and the prospects are none too bright. I brought out a sail maker to work in our factory here. His name is Thomas Hodges. He comes from Worcester, and had been out of a job for seventeen weeks. Many of the able-bodied unemployed would gladly come to Canada, if they could obtain the money to do so, but they say they cannot.

"It is two years since I visited London and the city is filled with tourists. The metropolis is making great improvements, nearly all the omnibusses are now run by motors, and many of the old horse cars are replaced by fine electric conveyances. The third rail system is used and there are no poles. The greater portion of the underground roads has also been electrified and really, the means of transportation could not be improved. Everything is life and bustle, and the city is now looking its very best."

Mr. Turner sailed for the Old Country on the Virginian on June 7th and was back in Peterborough on July 6th. He spent mostly all his time while away, in London, where he secured some large orders. He also passed a few days at Ramsgate, a leading watering place. On the return trip, which was very enjoyable Mr. Turner sailed by the famous C.P.R. steamer, the Empress of Ireland. They left Liverpool at 10 o'clock on Friday night, June 28th, and landed in Quebec at 12 o'clock on Friday, July 5th. At Rimouski the Customs house officers and also the C.P.R. baggageman came aboard and all luggage was examined and passed before arriving in port. This is a convenience which the passengers greatly appreciated, and ensured no delay upon reaching land. The Empress of Ireland is one of the very finest and most up-to-date steamships afloat. Among the fellow passengers of Mr. Turner were Hon. Mr. McBride, Premier of British Columbia; Hon. Mr. Bent, Premier of Victoria, Australia, and Hon. Adam Beck and wife, London, Ont. On the way home Mr. Turner, for his kindness and ready assistance in getting up a concert and sports, on the vessel was presented, on behalf of the passengers, by Mrs. Beck, with a gold souvenir spoon, bearing on the handle a cut of the Empress of Ireland. On July 3rd, a concert was held on board in aid of the Liverpool Seamen's Orphans' Institute, and the sum of $50 was raised. Mr. Turner contributed two songs on the excellent programme, "The Sparkling Moselle," and "The Maple Leaf Forever." A celebration was also carried out on the boat on Dominion Day, which Mr. Turner was largely instrumental in inaugurating.

The Dominion Ensign was hoisted and Hon. Adam Beck, gave a stirring patriotic address. Sports were also held and so elaborate was the programme, that it was three days before all the events were concluded. There were races and athletic contests of all kinds. A vote of thanks was moved to Mr. Turner by Hon. Mr. McBride and seconded Hon. Mr. Bent, for his co-operation in getting up the Dominion Day celebration and the sports, which were greatly enjoyed by all.

German Card Company to Add to its Equipment

Present Facilities Not Sufficient to Meet the Demand for Products Manufactured

The German Card Company, of Peterborough, are one of the city's newer industries, of which a great deal is not yet heard; but which is making rapid progress. The firm's premises are situated at the corner of Dublin and Bethune streets, and the plant has been in operation for some time. Cardboard of all kinds is manufactured, and, although the factory is well equipped, the demand for the goods manufactured cannot be met. The Peterborough concern are the only company manufacturing this line of goods in Canada, and, as a result are finding a very ready market for the product. So great is the demand for the various grades of cardboard that the management of the company find it necessary to put in several new machines, and are now making arrangements for the purchase of these. Nearly all the machinery with which the plant is equipped was purchased in Germany, but the machines now required can be secured in the United States, and they will be installed at an early date. High grade cardboard, suitable for photo mounts, and other artistic work, is one of the specialties of the company, and they expect to do a big business in this line when they are able to meet the demand for this class of goods.

Considerable pulp is used in the manufacture of the cardboard, and it is purchased in car load lots.

WILL CHANGE THE CHOIR LOFT

And Move Pulpit Back in Front of Organ at St. Paul's

The work of renovating St. Paul's church began today and for the next few weeks services will be conducted upstairs in the Sunday school hall. Considerable change will be made to the interior of the auditorium. The choir loft will be brought out several feet in front of its present space and the pulpit will be placed back near the organ. The change will be a decided improvement, and will be more in accord with modern style of church building. It is expected the acoustic properties of the edifice will be greatly improved by the alteration.

Will Build New Concrete Bridge

Special Meeting of North Monaghan Council on Saturday

At a special meeting of the township council of North Monaghan on Saturday afternoon provision was made for building a new bridge over the creek on the road between the ninth and tenth lines, commonly known as the Drain Road. A wooden bridge has done service at this point for several years, but it was badly damaged at the time of the big storm, which caused considerable havoc in Monaghan a couple of weeks ago. It was decided to build a concrete arch structure, which will be a big improvement over the old bridge. The work will be done by day labor, under the supervision of Mr. Jas. O'Keefe, and operations will be commenced at once.

It is likely that several more concrete bridges will be built in the township in the near future, as no more wooden bridges will be built.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

Mayor Ekers, of Montreal favors the proposal that the street railway shall handle freight.

The barns on Norton and Alverson's ranch, near Wilcox, Sask., were burned, with 13 horses.

This year to date 2,300,000 young trees have been furnished to western farmers by the Government.

OBITUARY

MRS. MICHAEL CORKERY

The death occurred at St. Michael's hospital, Toronto, on Friday last of Mrs. Michael Corkery, after an illness of some months' duration. The deceased's maiden name was Julia Crowley and she was born in Otonabee 55 years ago. Fifteen years ago she was married to her now sorrowing husband and moved to Trout Creek, where she lived until taken to St. Michael's hospital about two months ago.

One daughter, Mary, survives her. The remains were brought to the city Saturday evening, and the funeral took place this morning from the residence of her brother, Mr. Jas. F. Crowley, 788 Water street, at 9 o'clock, to St. Peter's cathedral and thence to the Roman Catholic cemetery.

ISAAC COOLIDGE

The death occurred yesterday morning at 8.20 o'clock, at the residence of his daughter, Mrs. Jas. E. Hettenhausen, 314 London street, of Isaac Coolidge. The deceased had been in poor health for the past five years. His death came rather suddenly at the last. The deceased was 69 years of age and was born in Wolford. For thirty-five years he conducted a hat and fur business in Brockville, where he was widely known and highly esteemed. He came to this city two years ago in hopes that the change would do him good, but he never got any better. In religion the late Mr. Coolidge was a Methodist and in politics a Reformer.

His wife, three sons, and three daughters, are left to mourn his loss. The sons are Messrs. Elmer and James, of Fort William, and Edwin, of Atlanta, Georgia. The daughters are Mrs. Geo. Fowler, of Montreal; Mrs. James E. Hettenhausen and Miss Grace of this city.

The remains were taken to Brockville this afternoon on the two o'clock G.T.R. train, and the funeral will take place there tomorrow.

Don't fail to attend the Douro picnic, to be held on King Edward's Grove to-morrow, Tuesday, July 9th. The celebrated Dr. Foran, of Ottawa will deliver an address on France and Christianity. This picnic is always one of the best held in this district. Good sports and games.

NEW PASTOR OF GEORGE STREET

Rev. E. A. Pearson Created a Favorable Impression

Rev. E. A. Pearson, the new pastor of George street Methodist church, preached his initial sermons yesterday to large congregations, and created a decidedly favorable impression. His father was pastor of George street congregation some seventeen years ago and many of the old timers were present on Sunday to listen to the eloquent son of one of the most widely known and highly respected ministers in the Methodist denomination.

Mr. Pearson has a fine pulpit presence and his delivery is easy and fluent. He speaks with force and earnestness, and is very happy in his illustrations, by which many a strong point is brought home. He has a choice vocabulary, and his discourses are marked by deep study and originality of expression.

The text of the morning was taken from St. Paul's Gospel to the Philippians, 1st chapter, 21st verse, as follows, "For me to live is Christ, and to die is gain." The speaker declared that these words contain the highest ideal of life, and the noblest conception of death. Regarding life, the question is often asked, is it worth living? Men who have succeeded in their life's task, who have acquired all the wealth that they have cared to gain, after reaching the summit of their ambition, stop and ask if it is worth while. Similarly with the man who in business language, has gone to the wall, whose efforts have been fruitless, he also asks what am I living for.

This question is answered by the Apostle satisfactorily to everyone. Christ is everything in life. He is the source of life and living for Him is a joy for all mankind. People should aim at leading others to God thus glorifying Him and fulfilling their mission on earth.

Of the latter part of the text, "to die is gain," Rev. Mr. Pearson explained that death brings us to the full relationship with God. It is the introduction to the visible presence of the Lord forever, the realization. Man strives on earth to attain the end which Christ intended for him, namely, eternal life in heaven but the great reward, the happiness that is most enjoyed, is the presence of Jesus. To see Him, to be near Him, is the consummation of joy, as to be separated from Him is the despair of those who have forfeited their right to Heaven. The speaker urged his people to live for Christ, that dying, their death may be gain, and while on earth their life may be worth the living.

ROY'S

COX FAMILY TO HOLD RE-UNION

At Jackson Park To-morrow—Senator Cox Will Attend

the Cox clan at Jackson Park tomorrow, when it is expected there will be eighty-five persons present, all related to each other, and all residents of this city. There are probably more members of this well-known family, than any other in the city, not by that name, but in some way connected with them. Hon. Geo. A. Cox of Toronto, has promised to be in attendance, and a very enjoyable time is anticipated.

Budget of News From Stony Lake

All the Boarding Houses are Filled—Season is Busy

Stony Lake, July 9.—As usual a large number from Peterborough spent Sunday at the lakes. The boats were crowded.

Mr J. S. Knapman, secretary of the Cottagers' Association, has opened up his cottage, Forest Home, and now has his fast sailboat out.

Mr Jas. Acton had his entire office staff up at Tawasentha over the holiday. But, owing to some bad management, his new yacht was not finished. Mr. William Irwin has had a launch built exactly the same as Mr. Acton's.

Mr John Crane has built a beautiful new home and calls it Glad-Hal-Ken The name is a combination of his children's names.

Mr Chas. Christie, of Galt, was up with Mr. Acton, jr., over the holiday also Miss Katie Bredin and Miss Helen Boyer.

Mr Woods, of Peterborough, has a beautiful little launch on the lake now, and Mr. W. H. Meldrum has put a new engine in the boat that he had last year.

Mr John Robinson, of Toronto Bay is bringing his fast launch to Stony Lake.

Mr. Jas. Acton's yacht, the Hiawatha, is now running and is doing great things.

During the big storm on Monday Mr. Harry G. Stubb's flag pole was struck and broken into match wood.

A BRAVE RESCUE

Mr Walter Currie, of Upper Canada College, is at Dumble's Cottage for the summer, and expects to have big times with his dinghy. While out sailing the other day a storm came up and Walter was upset and was rescued by his sister, in a rowboat. [illegible]

THE CITY AND VICINITY

WALL PAPER, WINDOW SHADES CROCKERY, GLASSWARE and STATIONERY AT ROUTLEY'S

We are acredited with having the largest display and a more varied assortment than can be found elsewhere. If you admire good style in Wall Papers and Dinner and Tea Sets you should not fail to see the enormous stock we have to show you. We have 115 thousand rolls Wall Papers for fall, ranging in price from 3c to 75c per roll, and an unlimited variety of patterns to attract you. We will mention only a few of the lines as an indication of how the prices run;

WALL PAPERS

1800 Rolls Gilt Wall Papers, with or without borders	3c
250 Rolls Border, 9 or 18 inch per roll	3c
491 Rolls, assorted, in lots from 15 to 30 rolls, worth 20c, yours at	7c

DINNER and TEA SETS

97 Dinner Sets, direct from England, 97 pieces in each set, and 5 in. plates instead of butter chips, per set	$10 and $12

130 TRUNKS To Choose From

10 Trunks, square canvas cover, brass lock, heavy steel clamps, steel bottom, well made, yours at	$3.42
Window Shades complete, prices,	35c, 50c and 75c
10 China Tea Sets, 40 pieces, regular $4.00, for	2.75
10 Dozen Silver Dinner Knives, slightly damaged, regular $3.00 dozen, clearing at, each	10c
30 Dozen Table and Dessert Spoons, regularly $2.50 and $3.00 dozen, for, each	10c
300 Writing Tablets, regular 10c size, yours at	5c
50 Thousand Envelopes, square, 25 for	4c
500 Dozen Pure Nickel Tea Spoons, untarnishable, worth $1 per dozen, yours at	50c
30 Cheese Dishes, blue decoration, with gold handle, regular 85c, for	49c
75 China Quart Pitchers, regular 40c	34c
102 China Decorated Lamp Globes, regular 50c, 75c and $1.20, choice of lot	49c
30 China Platters, 14 and 16 inch, French make, regular $1.25, choice only	74c
53 Semi-Porcelain Platters, 16 in., flow blue, cheap at 75c, yours at	35c
160 Tea Sets, consisting of 12 plates, breakfast size, 12 cups, 12 saucers, 1 cream jug, 1 butter dish, 1 sugar bowl 1 spoon holder, the whole outfit for	1.99

COME ONE, COME ALL

GOES TO GRAND LODGE.

Mr S. A. Oke leaves in the morning to represent Marathon Lodge, Knights of Pythias, at Grand Lodge which meets in Toronto on Tuesday and Wednesday of this week.

STRANGERS' TEA.

The closing strangers' tea for the season was held at the Y. M. C. A. on Sunday evening, President Harding presiding. The tea was provided by the ladies of the congregation of All Saints' church, Miss Chamberlain acting as convenor of the committee.

TO MANUFACTURERS

If there are any of the manufacturing establishments in the city that have missed any ingots of copper marked M.S.C. from their premises, Chief Rozzel would like to communicate with them.

MARRIED AT KENORA.

Many friends will notice with interest the announcement of the marriage of Miss Mary Fife, at Kenora on Wednesday of last week. The groom is Mr. Eugene Emerson, of Cambridge, Man. The event was a most happy one and was attended by relatives of the groom and bride.

THE UNSKILLED SSKATER.

At Scott's Coliseum, Jackson Park, we are showing this very comical picture, laugh and grow fat. Also see the Lightning Crayon Artist—see how quickly he can draw a picture. Matinee 2 to 5. Evening 7 to 10. Admission 5 cents. Change of programme Thursday.

THE BOYS' CAMP.

The enrolment thus far has been most encouraging, for the Y.M.C.A. boys camp. A full list will be published tomorrow. Gordon Manning is going again—a fact in which all who were at camp last year, will rejoice. There will be no excursion from the city on visitors' day, as a boat could not be secured. But visitors day will be held and parents are asked to come on the regular train and boat.

WELL TO THE FRONT.

In The Toronto World's contest for the free trip to London and Paris, out of the twenty-three candidates in the province, Miss Birdie Thompson of Peterborough, stands fifth, having 185,087 votes. The contest closes on July 22nd, and Miss Thompson is likely to be one of the fortunate four selected from the province of Ontario to enjoy the three weeks' jaunt abroad.

STOLE A WATCH.

At the police court on Friday a boy named Mongraw, was up for stealing a watch from Mr. Wm. G. Freeburn. After playing with the time-piece, he smashed it and, when found, the glass front was broken, the hands were torn off, the case dinged and the works badly damaged. The watch is valued at $17 and a jeweller estimated that $10 would be required to repair it. Magistrate Dumble said that the parents would have to make good the boy's mischief, by paying the $10 in installments of $2 per week.

A DECIDED TREAT.

A moonlight excursion will be run down the river on board the new steamer Otonabee on Friday evening July 19th. The event is under the direction of young ladies from the different city churches and the proceeds will be divided between Children's Aid Society of Peterborough and the Sick Children's Hospital, Toronto. The boat will leave the Wolfe street wharf at 7.30 o'clock, callling at Ashburnham and the street railway wharf. Tickets may be obtained at any of the book stores. A good musical programme will be rendered, several popular vocalists taking part.

THE MARTYRED SAINTS

Yesterday was the anniversary of the martyrdom of St. Peter and St Paul. At the masses in St. Peter's Cathedral yesterday Rev. Dr. O'Brien preached, and made appropriate reference to the occasion, as well as referring to several places which he had visited in Rome which were indentified with the life and work of the martyred saints.

AT. ST. LUKE'SS.

There were large congregations at St. Luke's church yesterday, when Rev. W. L. Armitage of Picton, formerly of Peterborough, preached two able and thoughtful sermons. In the evening, many of his former parishioners from All Saint's church were in attendance.

ST. JOHN'S SCHOOL.

St. John's Sunday School will hold their annual picnic down the river to Idyl Wyld on Friday next. The Sunday school will hold no sessions during July and August, all the scholars and teachers being given holidays.

INSURANCE DEPARTMENT

Mr. E. A. Powers, of Montreal, editor of the Pythian Review, is in the city, introducing the insurance department of the Knights of Pythias into Marathon Lodge, He has been here since Saturday morning, and is meeting with great success. He will attend Grand Lodge Tuesday and Wednesday and will come back to the city Wednesday night, to attend the regular meeting of Marathon Lodge. All members are requested to attend as special work will be put on.

PASSED HIS EXAMS

In the prize list of Trinity College School, Port Hope, the name of James Dennistoun, eldest son of Mr. and Mrs. R. Max Dennistoun, of Winnipeg, formerly of Peterborough, appears. The standing was as follows;—

Divinity—Form V., Pinkham; IV., Wen ey; III.A., Bethune; IIIB., Armour; II., Dennistoun; I. C. D. Boyce.

English and History—Form VI., Willis; V., S. J. Pepler; IV., R. K. Pearce; III.A., Osler; III.B., Rhodes; II., Dennistoun; I., Cornell.

A GREAT PILGRIMAGE

The seventeenth annual pilgrimage from the diocese of Kingston to the Shrine of St. Ann de Beaupre, Quebec, will take place this year on the 23rd inst. The pilgrims can go by the C.P.R. or G.T.R. at specially reduced rates. For information see posters at all stations on both lines or apply directly to Rev. J. P. Kehoe, Gananoque, director of the Pilgrimage.

Importance of the Trent Canal

To the Editor of the Review.

Sir,—The opening of the Kirkfield Lift Lock, gives the Toronto World the opportunity of damning the Trent Canal with faint praise. But then that is Hogtown again. While admitting that the canal will be important from a local standpoint when built the World denies that it will be able to compete for the carrying trade of our great Northwest, notwithstanding the culminative testimony of many experts from different view points and the finding of the Royal Commission that took many months in obtaining evidence from every available source, to the contrary. Having no tangible evidence to support its fling at the canal it resurrects that old pipe dream of the Georgian Bay Canal as a competitor. But who can be sanguine of such a chimerical scheme, which will cost up in the hundreads of thousands of dollars, if indeed an estimate can be obtained at all. Where will the money come from when the Government staggers at building the Trent Canal which will cost only a few thousand dollars, and can only afford to expend a small sum on it, before each election!

The fact of the matter is there is room for both canals and it is the opinion of many who have given the matter consideration, that both will not be equal to the gigantic task that will soon overtake them.

Yours, etc.,
COSMOPOLIS.

July 8th, 1907.

The Responsibility of the Parents

Emphasized by Rev. Mr. Manning in Connection With Home Training

The reported increasing criminality among the children of the city to which reference was made in the Review on Saturday, furnished an appropriate subject for a timely sermon by Rev. H. M. Manning, in the Charlotte street Methodist church yesterday morning on the text, "Train up a child in the way he should go, and when he is old he will not depart from it." The inclination to go astray, unfortunately, he said, developed early in a child, and in view of this fact, the responsibility of the parents to train their children properly was apparent. He thought that the training should be undertaken when the child was quite young, and it should be prosecuted with firmness and kindness, both qualities being essential. There were times, he said, when it was hard for a father to tell his son that he must not pursue a certain line of action, or for a mother to advise her daughter against some pleasure she had set her heart upon, but it must be remembered that this was sometimes necessary, and that it was undertaken with the sole object of the child's good.

A wise parent will know where the child spends his evenings and will not allow him to get his education on the street corners. The importance, from the standpoint of the future life of the child, of intellectual and spiritual training was emphasized.

PERSONAL

Miss Mable Warne is visiting friends in Cobourg.

Mr A. M. Harris, of Newcastle, was in the city on Saturday.

Mr. George J. Sherry, barrister of Norwood, is in the city today.

Mrs. (Dr.) Morgan has been spending the past few days at Stony Lake.

Mr. and Mrs. Ed. Huff, Peterborough, spent a few days with relatives here.—Napanee Beaver.

Mr. E. C. Attrill, of Los Angeles, Cal., is the guest of his uncle, Mr. T. P. Attrill, Water street.

Miss Eliza L. Eastland, Dalhousie street, has returned home, after spending a few days in Hamilton.

Mr. Carl Otto, of Toronto, is visiting his sister, Mrs. R. Gliddon at the Peterborough Conservatory of Music.

Messrs. Willis Garrow and Charles Dunsford of Spokane, Wash., but formerly of this city, are home on a visit.

Messrs. Joe Mercier and N. Geale left this morning for Kawartha Park, Clear Lake, to spend the holidays.

Mr. W. E. Whitehead, of Toronto, Canadian sales manager for the Brinton Carpet Company, is in the city on business.

Mr. Powers of Montreal was in the city yesterday on his way to Toronto, where he will attend the K. of P. Grand Lodge meeting.

Rev. Dr. Ross of Erie, Pa., who preached at both services in St. Andrew's church yesterday, will preach in St. Paul's church on Sunday next.

Ald. W. H. Bradburn, and Mrs. Bradburn moved to Chemong Saturday afternoon, where they will spend a couple of months at their cottage.

Mr. C. Leslie Owens, of Toronto, formerly of Peterborough, Mrs. Owens and son, were in the city today on their way to Stony Lake, where they will spend a holiday.

Dr. Sherin, superintendent of the White Cross hospital, Chicago, and Mrs. Sherin, are the guests of Mr. and Mrs. Dawson Kennedy, corner of Water and Dublin streets for a few days.

Mr. and Mrs. D. B. Donaldson, Mr and Mrs. H. W. Crossin, of Toronto, were in the city on Saturday, on their way down the river to Wedlock's, where they will spend a few holidays.

Rev Father Torpey, of Dubuque, Iowa, is spending his holidays in Peterborough and vicinity. Father Torpey celebrated Mass at 9.15 and 10.30 o'clock yesterday in St. Peter's Cathedral.

Mr. M. J. Maher, wife and family, leave tonight on a two weeks' holiday jaunt, during which they will visit friends at Lindsay, Barrie and other points.

A Little Britain correspondent writes,—Mr. and Mrs. Leslie Treemen, of Peterborough, were the guests of Mr. and Mrs. J. Jenkins, for JJuly 1st.......Mr. McCullough and Miss Edna Ruth, of Peterborough, are visiting friends here.

Rev. C. E. Cragg, B.D., late of Manilla, Ont., the energetic secretary of the Kawartha Lakes Summer School, was in the city today on his way to his new charge in Foxboro, where he will be stationed for the next three years. Mr. Cragg is a former Peterborough boy.

H. Clarke Mann, B.A., of Bridgenorth, has successfully passed his examinations required by the Ontario Normal College, Hamilton, having obtained honors in each department. He has accepted a position upon the staff of the Ottawa Collegiate Institute.

Lindsay Post: Mr. R. A. Peters of Peterborough, was in town on business yesterday.......Miss May Adams of the post office staff, was in Peterborough yesterday.......Mr. Wm. Whitton, of Peterborough, was in town yesterday.......Mr. Wm. Bibby, G. T. R. roadmaster, with headquarters at Allandale, was in town today. Mr B. comes from St. Thomas, and replaces Mr. P. H. McFadden, who recently left the Grand Trunk to take a more important position on the Great Northern at St. Paul.

Big Receipts From The T.A.S. Picnic

The regular monthly meeting of St. Peter's T.A.S. was held yesterday aftternoon. The new officers which were elected a few weeks ago, were duly installed. Rev. Dr. O'Brien presided, and was given a cordial welcome back. A statement was read as to the net receipts of the T.A.S. picnic on July 1st. Over $500 was realized, which willl be the first installment on the altar of the new Roman Catholic church. The trustee board also presented a most encouraging report, showing the largest amount added to the capital account during the past six months of any previous period in the history of the organization.

Mr McCullough, of Trenton, was killed by a train near Brighton, while driving over the G. T. R. tracks.

RYE'S Canoe and Boat Livery

(Otonabee Boat House) will open for the season on May 24th.

Full equipment of Canoes, Skiffs, etc., or hire by the hour or day. Street Railway and Telephone Connection. Open from 7 a.m. to 10.30 p.m.

Five Thousand People Witnessed Opening Ceremonies at Kirkfield Lift Lock

Splendid Addresses by Hon. Rodolphe Lemieux and Others—Lock Worked to Perfection—Twenty Miles of Canal Opened for Navigation—Sketch of Lift Lock and the Five Lower Locks—Three Steamers Carried Government Party From Lindsay to Beaverton—A Beautiful Trip Thoroughly Enjoyed—Excellent Arrangements Successfully Carried Out—Refreshments Served on the Boats—Special Train From Beaverton.

With the band playing, whistles blowing and five thousand people of northern Ontario cheering, the steamer Stoney Lake steamed into the upper reach of the new Kirkfield lift lock and was lowered forty-seven feet to the lower stretch on Saturday afternoon with the greatest satisfaction to everyone present. This great [illegible] apparently simple, feat, was followed by a number of addresses from some of the leading politicians of the province and Hon. Rudolphe Lemieux, and the second great lift lock on the Trent canal was declared opened, and simultaneously the twenty miles of canal between Balsam Lake Lake Simcoe was placed in the hands of the people of the Dominion for navigation purposes.

Saturday, July 6th, was no ordinary celebration for the people of Victoria county and the counties adjoining. It was a day that will be underlined in history. The opening of the Kirkfield lift lock was the celebration of the completion of one more connecting link of the great waterway between Georgian Bay and Lake Ontario, known as the Trent canal, and it brings the day for the opening of the canal to Georgian Bay so much nearer, making the people once more gather hope of seeing the day when the grain of the Northwest will come down through Ontario to Trenton and down to Montreal by the millions of bushels.

The ceremonies on Saturday were important also from the fact that one of the heaviest pieces of canal construction that will have to be made along this waterway is completed. All obstacles have been overcome. The Talbot river has been utilized and Balsam lake, which is on the divide between the Georgian Bay and Lake Ontario, no longer is free to send its waters where it pleases. It has been conquered by the engineers of Canada and in future its waters will flow which ever way the Trent canal officials desire to send it. The lift lock at Kirkfield is on the canal six miles past Balsam lake and 14 miles this side of Lake Simcoe. It is the first material drop in the channel that carries the water of Balsam lake against its natural course, and it is followed by five other ordinary locks which take the boats into the beautiful waters of Lake Simcoe.

THE TRIP NORTH.

At an early hour Saturday morning it was raining, and the appearance of the sky did not give promise of anything better later on. However the Peterborough people prepared for a wet day, or as many called it "a lift lock day," and at 7.20 o'clock they boarded the G.T.R. train at the depot and went on to Lindsay. Attached to the regular were the special cars with the press representatives and Hon. Mr. Lemieux's car, which had come in on the C.P.R. from Ottawa that morning. All the way to Lindsay there was a drizzling rain. At the station the Sylvester brass band met the party and rendered a couple of selections while the carriages in waiting were being loaded. No sooner had the people got started down town when the rain came down in torrents, but from the time the crowd reached the wharf the weather began to clear and the first ray of sunshine appeared and the day promised to be fine.

Superintendent of the Trent canal, Mr. J. Harris McClellan, had charge of the trip and he proved himself a most capable man for the duties. He arranged for three boats for the Government party, and they all left the wharf about the same time. The Stoney Lake was chartered for Hon. Mr. Lemieux and the main party, and it was comfortably filled. The Sylvester brass band, of Lindsay, was on board and furnished an excellent programme keeping the people lively and adding greatly to the trip.

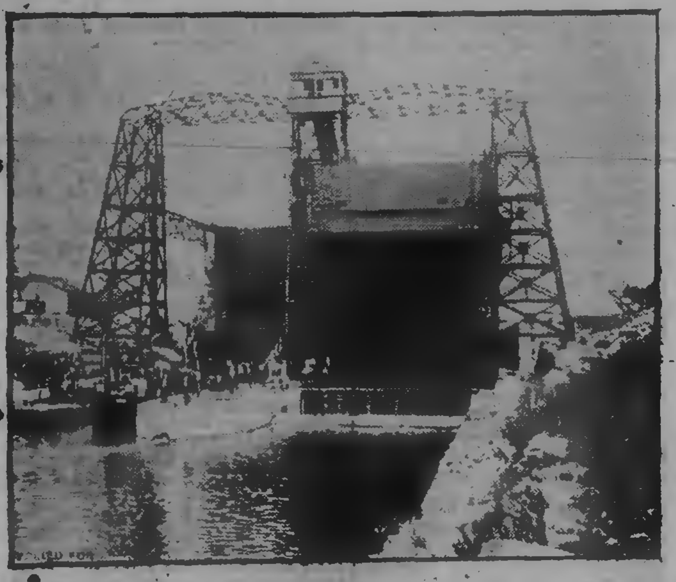
The Government supply boat, the Sovereign, was retained for the press intendent made himself popular with representatives and the canal superthe members of the fourth estate by his generous consideration for their comfort. The new Government tug, Bob Hall, carried the engineering staff of the canal, and as it was the smallest boat started off first, followed by the "Manita," an excursion boat run from Lindsay. The Sovereign came next and the Stoney Lake brought up the rear about a mile behind.

So carefully and so well had Mr. [illegible] made his plans that everything from start to finish went off with a swing and the two or three hundred guests thoroughly enjoyed every minute.

GUESTS PRESENT.

Hon. R. Lemieux, K.C., Postmaster-General, who was accompanied by his [illegible], M. J. Butler. Department of Public Works, and Chief Engineer, [illegible] Coulter Deputy Postmaster-General. Senator Geo. A. Cox, Toronto, Senator Geo. McHugh, Lindsay.

The party, in addition to those who accompanied the Minister from Ottawa, comprised prominent men of the county of Victoria and adjoining counties, Lindsay, Peterborough, and in addition many men of note and who have done things in the way of erection of public works throughout Canada. These include Messrs. Larkin & Sangster, of St. Catharines, who executed the contract covering the lift lock at Kirkfield, and the section known as No. 4, covering the route of the canal down to the boundary between the townships of Eldon and Thorah. Messrs. Brown & Aylmer, of the firm of Brown, Love & Aylmer, who had the contract for section 3, completing the canal to Lake Simcoe, M. J. Haney, of Toronto, contractor for the big waterworks tunnel now being constructed to supply Toronto with pure water drawn out in the lake. There was Mr. Phillips Johnston, manager of the Dominion Bridge Co., of Montreal the contractors for the structural steel work of the lift locks both at Peterborough and at Kirkfield. Then there was a whole raft of people who are prominent in the several localities in which they live, including Fred Cook, ex-Mayor of Ottawa, S. Fox, M.P.P., R. J. McLaughlin, Thos. Stewart, J. D. Flavelle, Wm. Flavelle, F. C. Taylor, J. Colin, Geo. H. Watson, Dr. Vrooman, all of Lindsay, (the latter Mayor of the town,) Mayor R. McWilliams, R. R. Hall, M.P., T. E. Bradburn, M.P.P., J. R. Stratton, J. H. McClellan, Supt Trent Valley canal, A. E. Coulthard, S. Sherwood, C.E., R. C. Rogers, D. Davidson, J. C. Shook and others from Peterborough, W. Ross, ex-M.P., Ontario County, J. M. Kilbourne, Lakefield, P. McNulty, Warden Peterborough county, F. McDermott, county solicitor for Ontario County, Lieut.-Col. Sam Hughes, John Bright, Warden Ontario County, Geo. Talbot, reeve of Beaverton, J. J. Cave, Beaverton, Peter Christie, M.P., for South Ontario, and the following members of the Victoria County Council, Taylor Parkin, Warden, and Reeves J. H. Hopkins, Ops, F. C. Fielding, Bexley, Dr. Mason, Fenelon Falls, W. Byng, Bobcaygeon, E. Tiers, Verulam, R. Cullen, Somerville, T. H. Watson, Mariposa. Many of the gentlemen were accompanied by ladies. W. S. Davidson, W. H. Meldrum, Geo Hay and A. H. Stratton.



THE KIRKFIELD LIFT LOCK

Which Was Formally Opened on Saturday Afternoon in the Presence of a Great Gathering From Many Points.

Messrs. Frank Fairen and Clent Gordon were with the Stoney Lake and Sovereign and were particularly busy looking after the comfort of all on board.

THE PRESS MEN.

The party of press representatives on board the Sovereign were:—Mr. Fred Cook, aCnadian correspondent of the London, Eng., Times, and Toronto Mail and Empire; Mr. J. A. Garvin, Ottawa Journal; Mr. Ed. Grange and Mr. Chas. Blue, Toronto Globe; Mr. Thos. King, Toronto World; Mr. Finlay Ottawa Free Press; Mr. Wm. Neakes, Ottawa Citizen; Mr. Mark Sauvelle Montreal La Patrie; E. Cinque-Mars, Montreal La Presse; G. Pare, Montreal Le Passe Temps; John D. Grace, Ottawa, United Canada; Mr. A. P. Hannay, Montreal Herald; S. W. Dafoe, Montreal Star; W. A. Beddoe, Brantford Courier; F. R. Yokome, Peterborough Examiner; F. H. Dobbin and C. H. Sawle, Peterborough Review.

THE START.

The start was scheduled for nine o'clock, but it was about a half an hour after that before the Bob Hall whistled for the first bridge. The weather had cleared by this time and a nice little breeze blew from the west and counteracted the heat of the sun. From the time the steamers left the wharf until they landed at Beaverton, they passed through a wonderfully picturesque and fascinating country. Although nearly everyone on board the boats were Ontario people there were indeed very few who had made the trip before, even to Balsam Lake, and it was little idea they had of the natural beauty of the lakes and rivers, which compose the Trent waterway and of the adjacent property. It is like one great river, in places widening out into large lakes, which are dotted with heavily wooded islands, and then narrowing down to the size of a river. There is mile after mile of beautiful shore line on both sides while now and then very pretty and healthy summer resorts were passed and the tourists could be seen enjoying themselves.

ROUTE OF TRIP.

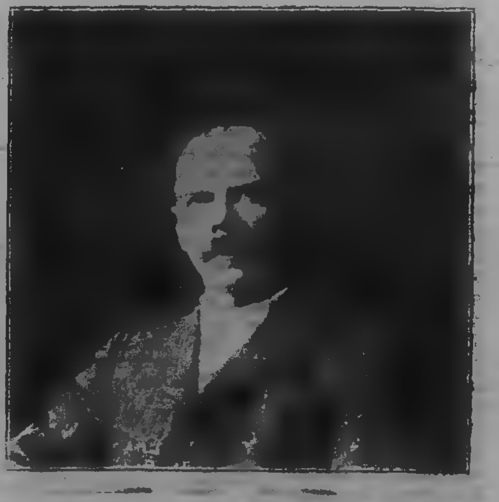
The route pursued by the excursion boats was from the Lindsay wharf into beautiful, winding Scugog river which bends and turns in almost every direction, making it very dangerous for navigators at night. But recently the Government has placed a white light house at each curve so that boatmen no longer have trouble keeping the channel. These light houses, too, are a great convenience to the Lindsay people.

From Scugog river, the boats entered Sturgeon Lake, and made a fast trip across. The Manita ran over to the Point, and the Bob Hall which was leading, and the Sovereign put on all speed, and the press boat closed up quite a gap, and was in Fenelon Falls locks nearly as soon as the new tug. The three boats were locked through together, and were greeted by quite a number of citizens who were gathered in the vicinity. Passing through the locks the boats entered Cameron Lake and raced across to the mouth of the Gull river, and through Rosedale locks. At this point the Manita went on ahead, while the Sovereign and Bob Hall waited for the Stoney Lake, which was to take the lead and arrive at the locks first. After a delightful sail across Cameron Lake the three Government boats entered the canal and proceeded to the Kirkfield Lift Lock, arriving there about three o'clock, where five thousand people and a number of small boats greeted them.

AT THE LIFT LOCK.

The scenery around the Kirkfield Lift Lock is very striking. From the upper reach a beautiful view is obtained of the country for miles around, and as far as the eye could see, horses and rigs were tied to fences and trees, while the high banks on both sides of the locks, were lined with men, women and a few children.

The steamer Stony Lake enterred the lock first, and waiting until the press men were transferred, was dropped down forty-seven feet below without the slightest hitch. Everything worked perfectly and the thousands of people saw the official boat make the first trip over the new lock.



R. B. ROGERS, C. E.

Superintending Engineer of the Trent Canal Until 1906

FORMAL OPENING.

As soon as the lock was down, Mr. R. J. McLaughlin of Lindsay, master of ceremonies took up his position on top of the wheel house, and after a few congratulatory remarks, called upon Mr. R. R. Hall, M. P., for West Peterborough.

Mr. Hall in opening his brief address said that he was particularly pleased to take part in the opening of the Kirkfield Lift Lock, which is so important a part of the Trent waterway, because it was in his native county. He spoke of the locks being one of the greatest engineering works in the Dominion. It is the connecting link which opens up one hundred and sixty miles of water to navigation, leaving only fourteen miles more canal to be built to Georgian Bay. As soon as that and the thirty-four miles from Healey Falls to the Bay of Quinte are built, then 750 ton barges laden with grain and manufactured goods, will ply up and down the canal and through to Montreal.

HON. RUDOLPHE LEMIEUX.

Hon. Rudolphe Lemieux, Postmaster General and Minister of Labor, for Canada, when announced, was given a hearty reception by the crowds In opening he extended congratulations to the Deputy Minister of Railways and Canals, who was the man who handled this great work, upon the success that had been achieved. The speaker said he was there as the representative of the Canadian Government and felt honored in his position. He felt proud also when he remembered the early history of Canada, and remembered that it was Champlain who discovered first this great Waterway, and that he a fellow countryman, was taking part in the opening ceremonies of part of the canal outlined, so many years ago.

Hon. Mr. Lemieux referred to the great advance made in Canada in solving the transportation question and added that when the centuries occupied in building the Suez canal and the Panama canal were considered, he did not think that the Trent canal had been under way so very long. It was started seventy years ago, by the imperial government and he hoped it would be completed in another five years.

The total expenditures of the Dominion before and since confederation was $114,590,000 and the question of water transportation is just beginning to receive the consideration it deserves. He predicted that the young men of today would live to see the ocean steamers from Liverpool unloading their cargoes at Fort William. He referred to the great local benefit the canal would be and the amount of money the towns and cities would save in freight. In closing the Postmaster General urged his audience to adopt commercial progress as their motto.

COL. SAM HUGHES.

Col. Sam Hughes was given a very warm reception as he stepped into view of the crowd and in his usual breezy style he spoke to the people for a few minutes. He expressed th egreat interest everyone in Ontario had in all works of development and he strongly urged the Government to hurry the completion of the canal, so that the people could get their grain shipped to Montreal for 3 cents a bushel, instead of 10 cents a bushel.

HON. R. LEMIEUX

Postmaster General and Minister of Labor Who Officially Opened the Kirkfield Lift Lock on Saturday

MR. GEO. GRANT, M.P.

Mr Geo Grant, M.P., for North Ontario, took occasion to congratulate his friends from North Ontario, on being present at the opening of the great Kirkfield Lift Lock, and he voiced the wishes of the people of all Ontario, when he urged, the completion of the canal.

HON. SENATOR COX.

Hon. Senator Geo. A. Cox, expressed his profound satisfaction at being present to witness the opening of the Kirkfield Lift Lock, which was such an important event in the history of the canal.

MR. J. R. STRATTON.

Mr. J R. Stratton was called upon behalf of the press represented at the gathering. He congratulated the Dominion Government upon the rapid strides it was making in solving the transportation question.

This brought the opening ceremonies to a close and with the band playing the Maple Leaf and Auld Lang Syne and the crowds cheering the steamers Stony Lake, Sovereign and Bob Hall bid adieu to Kirkfield, and started for Beaverton.

REFRESHMENTS SERVED.

Owing to the lack of time it was impossible for the Government's party to land at Kirkfield for dinner, but Mr. McClellan had provided for this. Mr. W. J. McCallum was engaged to cater to the wants of the passengers and he did so to the satisfaction of everyone. From early morning until after supper, tables were kept set on the lower deck and as the guests desired refreshments they went down stairs, where courteous assistants gave them every attention. Many complimentary remarks were made about the excellent manner in which both luncheon and supper were served, as well as light refreshments during the afternoon. Special tables were spread in the boats dining room for Hon. Mr. Lemieux and party.

STONY LAKES' TRIP.

Great credit is due Capt. Scollard and the crew of the Stony Lake for the manner in which they handled the boat. Saturday's trip was the first time the Stony Lake had been taken through the northern waters and the captain brought it through without a hitch, much to the satisfaction of the passengers. This is the largest boat, which has yet gone over all the completed part of the canal.

TALBOT VALLEY

The canal from Balsam Lake to Lake Simcoe follows the valley of the Talbot river, which heads up close to Balsam Lake. The distance is twenty miles, and it is now completed and open for navigation. An interesting feature is the fact that Balsam Lake is on the height of land, and to connect it with the Talbot river a cut was made between them, and now the water of that lake can be drawn either way. It can be sent to Lake Simcoe on one side, or down through the Trent Waterway to Lake Ontario on the other side.

Between the two lakes there is a drop of 120 feet. The lift lock is the first one the other side of Balsam Lake and is responsible for a drop of 47 feet, while the remaining 73 feet are descended by five ordinary locks, which are at least 1,000 feet apart.

From Balsam Lake to Kirkfield there is a cut of about 4 miles in length, which was made in 1896 by A. Onderdonk, as contractor. It is a rock cutting the larger part of the way, excepting a dredged passage through some march lands at the spot where the Peat Fuel industry was exploited some years ago.

W. J. FRANCIS, C. E.

Engineer of Hydraulic Locks on the Trent Canal Until 1906

ROCK EXCAVATION.

The country surrounding Kirkfield is solid rock, requiring an excavation of some 30 feet for the lock proper, and for the press wells some 64 feet deeper. This all had to be blasted, and was a very difficult, tiresome and dangerous job. To prepare the pit for the lock required the removal of 24,000 yards of rock, and it took from the fall of 1900 until 1903 to complete it. The contractors were Messrs. Larkin & Sangster, of St. Catharines, who built the second section and also the concrete work for the lock.

At that time the contract for the iron and the steel work had not been let, and was not awarded until the fall of 1905, when the tender of the Dominion Bridge Co., of Montreal, was accepted. Work was then stared and carried on until the late fall of 1906, when it was practically completed, although the lock was not in working order until this year

APPROACH TO LIFT LOCK.

On approaching the lift lock there is a long stretch cut through solid rock to within 1,050 feet of the lock. Then an immense concrete wall, containing 30,000 yards of concrete has been built. This wall is from 12 feet to 33 feet high, and is five feet thick at the top, gradually broadening out to a width of 23 feet at the bottom. This work alone took the contractors, Messrs. Larkin & Sangster, twelve months to build.

From a spectacular point of view the new locks cannot be compared with those at Peterborough. The construction is vastly different, while the surroundings are solid rock. The picturesque banks of green on the big lock are missed here, and it will never be the drawing card that the first one has been.

BUILDING THE LOCK.

The plans for the Kirkfield hydraulic lift lock were prepared by Mr. W. J. Francis, under the direction of Mr. R. B. Rogers, who also was chief superintendent of the Peterborough lock and the erection of the steel superstructure, chambers placing of the machinery and putting in operation of the lock was under the direction of David A. Murphy, of the Dominion Bridge Company, and who also erected the steel work at Peterborough lock. Growing out of the experience gained in the erection of the first lock at Peterborough, the plans were modified and improved, and the cost of building very materially lessened without in any way interfering with the permanency or efficiency of the lock. The guide towers are of steel, and the canal above the lock ends in a steel aqueduct, instead of in concrete as at Peterborough. The breast wall, as the massive concrete structure at Peterborough is named, is not made use of at Kirkfield, and the machinery for operating the lock is in the open air underneath the steel work, built in line with the central guide tower. The gate operating mechanism is simplified and improved in many respects, as well as the operation of the capstans and pumps. The truss work for the chambers and the presses are almost identical with those at the Peterborough lock. To maintain the pressure in the cylinders, and to furnish power for operating the gates and capstans a pair of intensifiers pumps are used, either of which is capable of doing the work. Both engines and pumps are self contained and are driven by a head of water carried in pipes from the upper reach.

SOME FIGURES.

As a matter of figures the following dimensions will be of interest:

Height of lift, 48 feet 6 inches. Dimensions of presses: external diameter of cylinders, 8 feet; diameter of ram 7 feet 6 inches. Working stroke, 48 feet 6 inches Depth of water in chambers, 8 feet. Height of guide tower, steel, 94 feet. Dimensions of chambers two each, 140 feet long by 33 feet wide. Depth of chambers, 9 feet 10 inches. Approximate weight of water in each chamber, 1385 tons. cost of structure, exclusive of concrete walls and breast walls, $298,000.00.

DOWN THE CANAL.

Amidst prolonged cheers from the crowd the band played "Auld lang Syne," and the steamers moved away on the journey to Lake Simcoe. The route lay along the valley of the Talbot river, never at any time in the memory of man, a large stream, but one whose ancient bed told a story of a considerable body of water finding its way south in ancient days. To gain a sufficient depth for navigation a strip of country practically a mile wide and five miles long was bought and flooded. The channel is buoyed and along the route the steamers picked their way. The Stoney Lake, on account of her deep draught, rubbing the bottom at intervals, and being the first boat of any considerable size, and carrying passengers, to pass over this section of the canal. The work on this stretch of the canal was done by Messrs. Larkin & Sangster, as a part of the contract on No. 2 section. At a point on this section, where the channel of the canal leaves the drowned lands and enters a cutting, a particularly fine sample of concrete work is seen in the high level single arch bridge, carrying one of the travelled roads of the district across the canal.

SECTION NO. 3.

The third section was built by Messrs. Brown Love & Aylmer, 6 1-2 miles long. In this stretch there is a drop in the canal of 73 feet, and to carry the boats up and down five locks were built. These were the ordinary form, but were built only with a five foot draft, so that before boats with an 8 foot draft can come down a great deal of very expensive work must be done. The length of each of the five locks is 143 feet between the hollow quoins and 33 feet wide. Besides the five locks there are three large concrete dams which have just been completed. In the construction of the dams and five locks Messrs. Brown & Aylmer did 67,000 yards of concrete work.

Work was commenced on this contract [illegible] between Eldon and Thorah, and involved in addition to the work of constructing the canal, locks and dams the building of about 3 miles of road, the old road in use having to be abandoned on account of the line of the canal infringing on the right of way. This road is known as the old Portage road, and follows the old Indian trail from Lake Simcoe to Balsam Lake. In fact the route of the canal from Balsam Lake is practically that laid out seventy years ago by the Royal engineers, when the connection of the waters of Georgian Bay and Lake

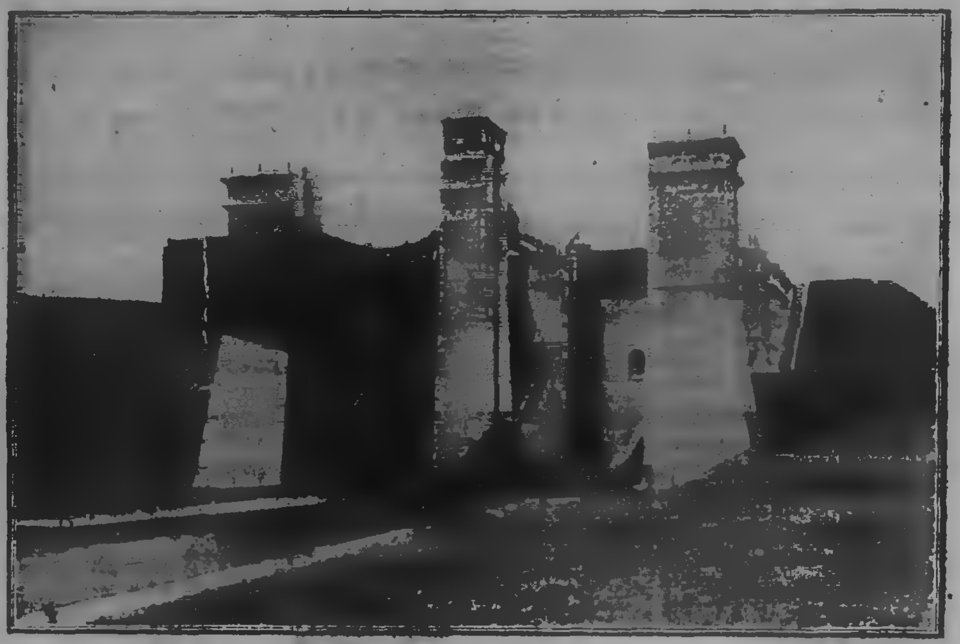
Five Thousand People Witnessed Opening

Continued from page 6

Ontario was first proposed and entertained.

LOCK NO. 1.

The five locks between the lift lock at Kirkfield and Lake Simcoe are numbered from one to five, the fifth lock being near the lake. No. 1 is the first lock after leaving Kirkfield. The work on all these locks and dams, and the surroundings bears the ear marks of having been executed by Brown, Love & Aylmer and under the personal supervision of Mr. Aylmer. Contractors, in all cases are trained business men, but seldom experienced engineers. The firm have a distinct advantage in the fact that Mr. Aylmer was an experienced engineer before he became a contractor, and the work shows it. Thoroughness is shown in every detail. The five locks and dams constructed by the firm on the Lakefield-Peterborough section of the canal were of the first so built, of concrete, in this country, and are fine examples of solid, massive and durable construction. But since then the science of concrete construction has advanced, and coming afterwards Mr. Aylmer has shown progressiveness in the finish and character of the work. No finer examples may be found on the continent. The dam at Lock No. 1 would grace, in its design and outline, and solid yet handsome appearance, any city park or metropolitan waterworks enterprise. The thrust is carried by three central piers. The aprons are of unusual yet graceful form and the abutments surmounted by a section of the work in panels that is especially pleasing. The walls of the locks, on the inside are blocked off affording the appearance of massive stone blocks. The finish of the concrete, both in the dams and locks is particularly smooth and well done, and the whole surroundings cleared up, the banks rip-rapped, the turf green and nicely trimmed, and instead of an air of newness that might be expected the canal looks to the eye as if it had been where it is for the last thirty years. Scattered over the Dominion are many public works, many of considerable magnitude, executed by Mr. Aylmer, and no man has as yet been able, or found the opportunity to point out defective work in any thing that has been built by this firm.



Peterborough Hydraulic Lift Lock, From the Lower Reach.

LOCK NO. 2.

At lock No. 2 the canal ceases to follow the valley of the Talbot. The rock formation so prominent at Kirkfield, and for some miles south, has gone under ground until it is covered by twenty to thirty feet of clay. The canal is now in the arable lands of the rich townships bordering Lake Simcoe, and from Lock No. 2 is cut direct across country, through the farms to the lake. The Talbot river, about this point took to wandering over the country in a course too erratic to follow, so it was left to its own devices. Part of the way the canal is banked above the surrounding country so high that the bottom is little above the level of the fields adjoining. The country looked its best and the whole scene was charming to a degree, with crops in full growth, comfortable farm houses, substantial belongings, all bounded by the forests of hardwood and broad acres.

LOCKS WELL BUILT.

The drop at Lock No. 1 is 21 feet, and at the other four locks about 14 feet each, bringing the canal down to the lake level. At Lock No. 3 is the scene of a false offer. When the contractors had made a part of the excavation for the lock chamber it was found that the bottom was so insecure, being a soft clay, that the site was abandoned and the lock placed further up. In fact, so completely had the rock formation disappeared, that at Lock No. 1, both the dam and bottom of the lock were reinforced by piles driven down to the rock in order to secure a thoroughly stable foundation.

Locks No. 2 and No. 1, are equally well built and at a short distance apart, the last one opening out into the reach that empties into the lake, passing under the high level bridge of the G.T.R., the massive swing bridge of the Canadian Northern and the highway bridge of the lake shore travelled road.

ACROSS LAKE SIMCOE.

A short run of two miles on the lake and the party landed at the pier at Beaverton, from which point a special train carried through all to their destination, it being found impossible to reach Lindsay in time to connect with the flyer from Toronto to Peterborough and which passes Lindsay about 9 o'clock, as was intended should be the case.

NOTES.

Messrs. Brown, Love & Aylmer have taken the contract to erect at Beaverton the piers and breakwater, and to do a large amount of dredging, to prepare a harbor at that point. It is the intention of the Canadian Northern Railway to make Beaverton an excursion point and to establish steamer connection with the railway which passes through that village, and which has erected a fine station and enlarging its facilities.

Kirkfield Hydraulic Lift Lock—Upper Chamber Gate With Air Chambers in Position.

HE PUT THINGS THROUGH.

Pointing out the several contractors and those who had executed public works, mention was made of Mr. M. J. Haney, and the following story was told illustrating the manner of man he is. At the time when Onderdonk was building the section of the C.P.R. along the north of Lake Huron, the work was making poor progress. Mr. Onderdonk was told to go and see, and if possible engage Mr. Haney, who would, if secured put things through. Mr. Haney was just then coming into notice among the contracting fraternity as a man who did things. He consented to go, and was told to make his way out to the scene of work, catch hold and lift and put things through. This he did, and presently Onderdonk began to hear that work on the section was going on a faster rate and that such progress was being made that all complaints ceased. At the end of a month or so the pay checks were sent up and the pay clerk tendered one to Mr. Haney. He looked at it, handed it back, and said that while it was addressed to him he guessed it was not his, and that the paymaster had better keep it.

Next month the same thing occurred and repeated until at the end of about six months Onderdonk coming up to see how the work was progressing, saw Mr. Haney and congratulated him on the progress made and expressing satisfaction. But, he said, "Haney, I don't understand why you refused these pay checks, that the pay clerk tells me you have done." "Well, Mr. Onderdonk," said Mr. Haney, "You sent me a check that was made out at the wages of a foreman. I'm no foreman. I'm the fellow that is putting things through." Onderdonk saw the situation, recognized the man he was dealing with, and the next check that came in was satisfactory, for it covered all arrears and made out at about eight times the sum for which it had originally been drawn. Mr. Haney is so good and capable a man that he was sent for, from New York and asked to undertake the driving of the tunnels on a part of the underground work for the Pennsylvania railroad. He looked the situation over and declined, the conditions under which he was asked to handle the work not being to his satisfaction, and not through any question as to his ability to handle and stay with the work, which was of a character to tax to the utmost the ingenuity and resources of the man in charge.

Big Excursion From Oakwood

Went Down the River to Idyl Wyld on the Otonabee

A large excursion from Oakwood Methodist Sunday school and from Lindsay came in by special train on the Grand Trunk this morning and went down the river to Idyl Wyld per steamer Otonabee. The Otonabee Navigation Company met the excursion at the G.T.R. depot with special cars on the street railway and conveyed the passengers to the street railway wharf, where the steamer awaited them. At Idyl Wyld a programme of sports was run off and the party will return about seven o'clock this evening, when the street railway cars will meet them at the lower wharf and bring them up town. It is likely that an hour or two will be allowed the excursionists to go around the city before the train leaves.

OSHAWA DROPS OUT OF LEAGUE

Defaulted Their Game at Cobourg on Saturday

Oshawa has dropped out of the Midland Baseball League, and Port Hope, Cobourg and Peterborough are left to fight it out. The Oshawa team was to have played at Cobourg on Saturday, but defaulted, and sent word to the president that they were dropping out of the league. It is likely that the schedule will have to be re-arranged for the balance of the season. Port Hope still leads the league with five wins and two losses. If Peterborough can win the remainder of their games, they have a good chance of winning out.

ALL SAINT'S CHURCH

The Woman's Auxiliary of All Saints' church are holding a small excursion to Gore's Landing Wednesday. The members of the Auxiliary and their friends expect an enjoyable outing.

On Thursday evening at seven o'clock, the men of the congregation are asked to assemble at the church for the purpose of cleaning up the grounds, cutting the weeds, etc.

CHARLOTTE ST. CHURCH

The regular consecration meeting of the Epworth League will be held this evening.

The regular monthly meeting of the Ladies' Aid Society will be held tomorrow afternoon at 3.30 o'clock.

The annual Sunday school picnic will be held to Idyl Wyld on the steamer Otonabee on Wednesday next.

The singing yesterday was much appreciated. In the morning Miss Manning sang "The Contrite Heart," by Ambrose, and Master Scott Payton, the boy soprano from Lindsay, ably contributed a solo, "A Clean Heart." In the evening the anthem was "Shepherd of Souls," from the Sign of the Cross, while Miss C. Belleghem very sweetly rendered "The Ninety and Nine," by Campion.

ST. PAUL'S CHURCH

Rev. Dr. Marsh, of Springville, preached in St. Paul's church at both services yesterday and delivered two able and thoughtful sermons. In the morning he spoke on "The Love of God," from John, 3rd chapter and 16th verse. In the evening he preached on the subject, "We are Journeying." Rev. Dr. Marsh, who is interim moderator of session, declared the pulpit of St. Paul's vacant.

The regular meeting of the W.F.M.S. will be held on Friday afternoon next at 3.30 o'clock.

At the morning service Mr. Kennette Shook sang a solo, "Abide With Me," in a pleasing manner, and with excellent expression, Messrs Crane, Nelson, Gillespie and Bennett ably rendered a quartette, "Crossing the Bar."

GEORGE STREET CHURCH

The annual collection for missions will be taken up at the regular meeting of George street church Epworth League this evening.

The regular weekly prayer meeting will be held on Wednesday evening.

The monthly meeting of the W.M.S. which was to have been held on Tuesday afternoon at 3.30 o'clock has been postponed until next week.

The annual Sunday school picnic will take place tomorrow on the steamer Otonabee down to Idyl Wyld.

MARK STREET CHURCH

The Epworth League meets tonight at eight o'clock. Miss E. Fowler will lead the meeting and Mrs. J. Speers will have charge of the topic.

The Women's Missionary Society will meet on Wednesday at three o'clock.

The Ladies' Aid will meet at the residence of Mrs. Frank Weir on Thursday afternoon.

The annual excursion of the Mark street Sunday school will be held tomorrow, July 9th to Gore's Landing.

ST. ANDREW'S CHURCH

The young people's meeting will be held tonight at eight o'clock and prayer meeting will be held Wednesday evening at eight o'clock.

MURRAY STREET CHURCH

The young people's meeting and prayer meeting will be held together on Wednesday evening at eight o'clock, to be followed by the quarterly business meeting of the church.

ST. LUKE'S CHURCH

The Brotherhood of St. Andrew meets tomorrow night at eight o'clock.

Cottage prayer meeting will be held on Wednesday night at eight o'clock.

The annual Sunday school excursion will be held on Thursday, July 11th, to Idyl Wyld, per steamer Otonabee.

ST. JOHN'S CHURCH

The annual excursion of St. John's Sunday school will be held on Friday to Idyl Wyld.

PARK ST. CHURCH

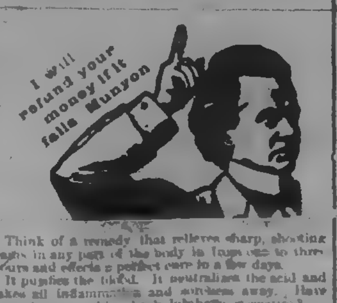
A very large crowd filled the Park Street Baptist Church in the morning to hear the sermon on "Rome's Policy and the Orangeman's Obligation"

In the afternoon, following the Sunday session, a meeting of the Mission Band was held in the Church. The teacher's meeting was held in the vestry, when a ladies' refreshment committee was appointed for the picnic on the 18th to Jubilee Park a prize and sports committee of gentlemen, and an ice cream committee, etc.

At the close of the evening sermon the Ordinance of Baptism was observed, followed by a reception service, when five new members received the hand of Fellowship.

The B.Y.P.U. meets this evening at eight.

The Mission Circle of Ladies, will meet at eight o'clock on Tuesday. Public service will be held on Wednesday at eight o'clock.



RHEUMATISM

MUNYON'S 3X CURES

I will refund your money if it fails Munyon

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a perfect cure in a few days.

It purifies the blood. It neutralizes the acid and takes all inflammation and soreness away. Have you a lame or aching back, lumbago or sciatica?

Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's Rheumatism Cure and see how quickly you will be cured.

If you have any kidney or bladder trouble get Munyon's Special Cure. Money back if it fails. Munyon's Vitalizer makes weak men strong and restores lost powers.

TRAIN RAN INTO CATTLE

Fireman Is Killed and Engineer Receives Fatal Injury.

Bad Wreck On the C. N. R. Near Rainy River—Engine Turned Over and Demolished—Four Cars Left Track—Trainmen Enveloped In Steam—Passengers All Uninjured—Traffic Demoralized For Hours.

Fort Frances, Ont., July 8.—Friday night No. 2 express, on the C.N.R., was wrecked, six miles from Rainy River. It ran into a herd of cattle. The engine turned over and was demolished. Fireman William Vance was killed, and Engineer William Hamilton so badly scalded he cannot live. The baggage car left the track, but the passengers in the sleeper hardly felt the collision. Passengers bound east were delayed 12 hours.

Neither Fireman Vance nor Engineer Hamilton were able to jump, and before they realized an accident was imminent they were buried under the locomotive. Steam commenced to escape, and soon the men were enveloped in a cloud of steam and hot water. Every effort was made to free them from their position, but before they were liberated Vance had received such injuries that he died within a short time. Engineer Hamilton is so badly injured and scalded there is not the least hope that he will recover.

With the locomotives, four cars left the track. Traffic was completely demoralized for some hours.

FATAL STREET CAR ACCIDENT.

Coroner Orders Arrest of Motorman and Conductor.

Schenectady, N.Y., July 8.—One boy was killed, another was fatally hurt, and two others seriously injured as the result of a street car accident yesterday afternoon. The victims are all residents of Amsterdam, ranging from 12 to 15 years. They are members of a baseball team, which played here yesterday afternoon.

The lads were riding on the running board on the wrong side of the car, as every seat was taken and passengers were hanging on wherever they could. The accident occurred where the double tracks take a sharp curve. The open car on which the boys were riding had taken the curve in one direction, when a heavy closed car bound for Ballston took it on the other track.

Coroner Baxter ordered the arrest of the motorman and conductor of the Ballston car on the ground that they should have waited until the curve was clear before taking it.

Tobacco Crop Damaged.

Hartford, Conn., July 8.—Wind, hail and rain caused damage to the extent of many thousands of dollars to the tobacco crop in the Windsor district late Saturday.

Laborer Killed.

Windsor, July 8.—Michael Monahan, aged 70, a laborer, was instantly killed by falling from a coal car at the D. U. R. power station yesterday morning.

Serious Damage by Frost.

Chatham, Ont., July 8—J. B. Stringer & Co. have received the following letter from their agent, W. McKenzie, Thamesville, regarding damage to crops by the late frost:

"Farmers are confirming the reports of serious damage by frost. Many at first thought that much of the crop would recover, but to-day they claim it is not doing so. Corn and beans will be less than half a crop. There was a large acreage of beans, too, and they looked most promising on Tuesday."

Strong Note to Sultan.

Tangier, July 8.—It is understood the British Minister to Morocco, G. A. Lowther, is preparing to send a strongly-worded note to the Sultan on the subject of the capture of Kaid Gen. Sir Harry MacLean, commander of the Sultan's bodyguard, who recently was made a prisoner by the bandit Raisuli.

The Kmass tribesmen, fearing the hostility of the Sultan, are considering the advisability of opposing Raisuli.

Making Use of Grandma's Gown.

Seldom has a gown handed down from a grandmother been put to a stranger use than was the fate of a flowered frock owned by an ingenious girl. From one section of it she made a large square for her luncheon; of the odds and ends she constructed doilies. The silk was a soft moire, with deep pink roses and variegated leaves spread over it as generously as if it were a June garden. With an edging of deep cream lace to the centerpiece the effect was artistic. In this guise the silk will last many years, whereas had she cut it into a waist or skirt, as most girls would do with such finery, it would not last a season.

A Popular New England Cake.

A very popular cake among a dozen or more related New England families for more than fifty years past is dimmock cake. To make it cream one cup of butter with two and one-half of sugar, add four well beaten eggs, two cups of chopped seeded raisins, one cup of milk, five cups of pastry flour, a level teaspoonful of cream tartar, half as much soda, nutmeg and mace. This will make three loaves, which will keep good for a number of weeks.

Making the House Look New.

It is well after housecleaning if the housekeeper is unable to buy new furniture to change the location of chairs, tables, etc., in a room. This is a pleasant change to the eye and often gives the effect of an entirely new furnishing. Perhaps it would be just as well, however, for the wise woman to put back in the exact same places the things commonly used by her husband, such as his tobacco, pipes, etc.

The recent frost did little damage to Middlesex crops.

2 in 1 SHOE POLISH

once used and you will discard every other. Insist on getting it.

Black and all Colors, 10c and 25c tins 186

POINTERS ON GAS STOVES.

How to Avoid Unpleasant Odors When Cooking.

For the woman whose troubles arise from the odor of cooking the remedy lies in having a small pipe between the range and the chimney to carry off the odorous gases. A large bowl of water placed near will also help to prevent odors of cooking penetrating the house.

If there is a constant smell of burning when cooking is going on, examine the burners. They are probably filled with sediment from "boil overs" of yesterday.

The smell of gas when a rubber tube is used (no leak being apparent) is usually caused by the tube itself having become saturated with gas. New tubing is the only remedy.

When having the gas range put in be sure to see that the supply pipe is large enough to allow sufficient gas to enable all the burners to be used at the same time. This is very necessary. It is annoying to discover you can't boil two kettles when the oven is in use. See also that the oven is large and commodious and that there is plenty of room on the top for boiling, frying, etc. It is poor economy to use a gas range that is too small, says the Philadelphia Press.

WOMEN WHO DO THINGS.

Miss Mary A. Stubbs of Indianapolis was appointed head of the Indiana state bureau of statistics some time ago.

The only woman ever elected in office in Texas by the qualified votes of a general election is Miss Zena Dalrymple, who was elected county and district clerk.

To have discovered more stars than any one else in the world is the reputation of Miss Dorothea Klumpke, an American girl astronomer, who won renown for herself at Paris.

Miss Marianne Farningham is probably the oldest woman journalist in England. She joined the staff of the Christian World at its birth in 1857, wrote for the first number, has written for the latest and for practically every number in between.

Old Map of Maryland and Virginia.

At the Peabody library is an old map of Maryland and Virginia which is believed to date back to the seventeenth century. The map has a description of Maryland on one leaf of the back and a description of Virginia on the other leaf. It is bound with a few blank pages to give it stability and was evidently part of a larger work describing the American colonies, as the pages are numbered. "Baltimore town" is situated between the "Susquesahanough" and Bush rivers. No especial mention is made of it in the description of the colony, in which "St. Maries" figures as the chief place. In addition to the Susquehanna, with its queer spelling, the principal rivers are named as the Patowmec, Patuxent, Ann Arundel, alias Severn, Choptank, Nanticoke and Pocomoke. Tobacco raising is named as the principal source of revenue in the colony, and it is stated that trade was carried on chiefly by barter and exchange. The map was published in London.—Baltimore Sun.

Two Championships for The Peterborough Quakers

[illegible] ships for the Peter- [illegible] this year. [illegible] have to admit that [illegible] and that the Quak- [illegible] to the city.

[illegible] nship of the [illegible] was won a couple [illegible] when Cobourg failed [illegible] their return game [illegible] Quaker seniors and at [illegible] Saturday evening, [illegible] landed the inter- [illegible] defeating Wark- [illegible] nil. It was sudden [illegible] the intermedi- [illegible] Warkworth hav- [illegible] district, while Peter- [illegible] won their own dis- [illegible] ed Oshawa, win- [illegible] district in which the [illegible] team was grouped. [illegible] kickers had the ad- [illegible] on their own [illegible] up a great art- [illegible] They are a fast, [illegible] and travel at a ter- [illegible] had strengthened [illegible] Saturday's game by [illegible] rty, of Norwood, [illegible] that the Quakers [illegible] t before going on [illegible] it was withdrawn af- [illegible]

[illegible] game with the [illegible] as was eviden- [illegible] t that nearly 1,000 [illegible] out to see the match [illegible]. The stores in [illegible] closed up while the [illegible] progress and every- [illegible] to the field to see [illegible] hip game won or [illegible]

[illegible] of Omemee was referee [illegible] ball had been put in [illegible] team started off at [illegible] and for five minutes [illegible] kers off their feet. [illegible] of the defence was [illegible] failed to score. Then [illegible] Quakers started to settle down, [illegible] Warkworth boys were unable to keep up the pace they had set and the game became very even. Up and down the field the ball travelled, without either team having much advantage. The pace throughout was very fast, but neither team seemed to tire. Half time ended without any score and the second period was over, all but a half minute, when Dingman brought the ball down the field, gave it to Brodie, who tipped it over to Yates, and the latter shot it between the posts and Quakers had scored. The intermediate championship was won, for Warkworth could do nothing in the few seconds of time that remained.

The game was free from roughness, although the checking was close and the pace fast. The Warkworth team took their defeat with good grace and were among the first to congratulate the Quakers. They entertained the visiting team very hospitably and the Peterborough boys have nothing but good words for Warkworth and its citizens.

Every man on the Quakers played the game of his life. They were up against the best team they had met this season and knew what they had to do.

The teams lined up as follows;

Warkworth		Quakers
Gilray	Goal	Laing
Wilson Humphries	Backs	Scrimshaw Sullivan
Riendiece Covert Hill	Halves	Donaldson Dingman Archibald
Berwash Richards Allan Doherty Curtis	Forwards	Cunniff Hagley Crough Yates Brodie

Referee, M. Sherin, Omemee.

Strathconas and West Ends Tied

For the Championship of the Intermediate League

[illegible] deciding game for [illegible] of the Intermediate [illegible] between the Strath- [illegible] West Ends, which [illegible] as soon as the execu- [illegible] date. By the Strath- [illegible] from the Lillies on [illegible] exhibition grounds [illegible] with the West Ends, [illegible] four games. It was thought that the West End- [illegible] would be the con- [illegible] the League, but [illegible] defaulting to [illegible] and the Straths get- [illegible] game with the [illegible] are now even with [illegible]. In Saturday's game [illegible] Lillies by 13 runs [illegible] exhibition of [illegible] put up a good [illegible] a number of [illegible] t. THE DEAN PATTERNS

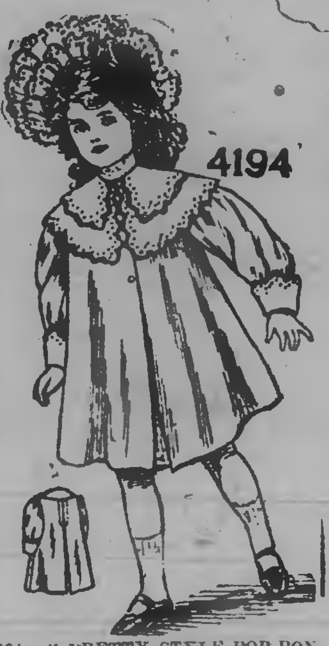
66815.—A SUMMERTIME COMFORT.

The heat of summer days is often rendered less oppressive by the donning of some light and dainty negligee and every woman and girl provides herself with several before this time arrives. A very dainty one is shown in flowered dimity with collar of plain material for contrast. The sack and sleeves are laid in narrow tucks at the top and the result is most pleasing. The closing is effected in front and may be elaborated with ribbon bows or pretty buttons. For home making this is excellent in style as it is a bit unusual and therefore more valued. The thin silks and washing fabrics may any of them be used successfully in its realization. For the medium size 3 5-8 yards of 36 inch material are needed.

66815.—Sizes 32 to 42 inches bust measure.

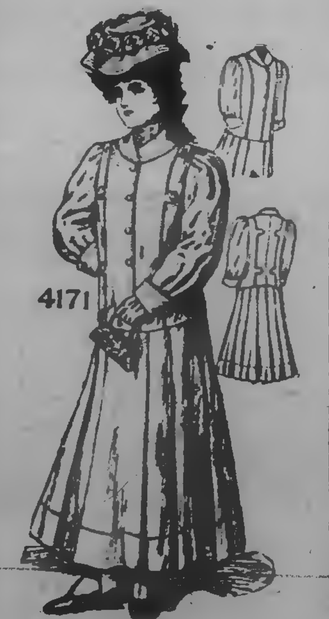


4194.—A PRETTY STYLE FOR PONGEE OR LINEN.

Coats to be made in summer fabrics are more satisfactory if simple in style and one which will please for this reason is shown. The coat is quite plain except for the tucks in inverted box plait effect in back, which provide extra fulness and assure becomingness. The two collars in cape style are well suited to embroidery or other trimming, while only one or neither of the collars may be used. The deep turnback cuffs also offer field for adornment and the whole is most simple to fashion. For the medium size 3 yards of 27 inch material are needed.

4194.—Sizes 1 2, 1. 2, 3 years.

The price of this pattern is 10c.



4171.—AN ATTRACTIVE STYLE FOR LINEN.

The semi-fitting coats are specially pleasing upon young girls and as Dame Fashion considers them par excellence no better mode can be chosen. The coat suit shown is one of the smart new models, buttoning in single-breasted fashion and ending below the hip. The trig rolling collar and cuffs are shown in a darker linen, the buttons being covered with the same. The skirt is a seven-gored one with the fulness laid in box plaits and stitched flat over the hips. This insures a trimness about the top and and full ripple at the hem. The suit may be made without difficulty and may be developed in any of the seasonable materials. For the medium size 4 7-8 yards of 50 inch material are needed.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

ARTHUR BURN TO MEET LONGBOAT

Former Peterborough Boy to [illegible] Compete Against the Great Indian

The Marathon race at Ottawa this month will be of international importance. Arthur Burn, who recently won the seven mile race at Seattle, Wash., in 39.25 2-5, will be a competitor with Tom Longboat, whose recent successes have attracted the attention of the athletic world. Burns holds records, not only in the Pacific Northwest, but British Columbia, Eastern Canada, and New England. His home is at Calgary, B. C., where he is now preparing for the international race. Burn has always had an idea he would like to meet Longboat, and that is probably the reason why he will travel 2,000 miles to run a five-mile race.

Burn is a former Peterborough boy and his many friends here would like to see him make a good showing against the famous redskin.

Douro Picnic Will be Held To-morrow

The annual Douro picnic will be held tomorrow in King Edward Grove. Rev. Father Kielty and the parishioners of St. Joseph Church, have made big preparations for the event and it is expected a large number will attend from the city. There will be a good programme of speeches and sports.

COMING FROM FAR AND NEAR
From the surrounding towns and villages and county as well as the city, persons are coming every day and have the benefit of the skill and experience of our specialist, who is kept busy examining eyes for glasses and fitting artificial eyes. Mr. Browitt's work is a great success, his methods, his instruments and the years of experience which he has enjoyed in the United States and Canada, qualify him in a manner which few Canadians can equal and we do not wonder now that Mr. Browitt has made Peterboro' his home, that his work is appreciated and that he is meeting with the success he deserves.

Proposal to Have Formal Laying of Corner Stone

A prominent local military man is responsible for the suggestion that there should be a formal laying of the corner stone of the new armory as soon as the work on the foundation is sufficiently advanced to permit the function being held. He is of the opinion that such an important event in the life of Peterborough, as the completion of the foundation of the new home for the militia, should not be allowed to pass without a public function of some kind. At the rate the work is progressing at the present time, the laying of the corner stone could take place in the early autumn. The Minister of Militia, Sir Frederick Borden, and the inspector of the forces of the Dominion, Lieut.-Col. Vidal would no doubt be pleased to attend and take part in the ceremony. Other prominent military men would likely attend and the day could be made one of much interest for the citizens in general.

Peterborough was a long time in having the new armory started, and now that the operations are well under way, it seems but fit and proper that a public function of some kind should mark the event. The proposition is worth considering at any rate, and would no doubt meet with the approval of the public.

Has Purchased Library Building

Mr. Stratton Acquires Possession of the Structure on Water St.

Last night it was announced at the city council that Mr. Richard Hall, executor of the Charlotte Nicholls estate, had donated the building on Simcoe street, just west of the old Ontario Bank, for a new home for the public library. There the books, etc. may be on the ground floor.

The building on Water street for many years occupied by the public library, in which are also located the law offices of Mr. A. P. Poussette, K.C., and Messrs. Roger, Bennet & Goodwill, has been bought, along with the land adjoining by Mr. J. R. Stratton, the transfer taking place a few days ago. The building belongs to the Nicholl sestate, and is a brick, three storey structure.

DIED

HAMILTON. — The funeral of the late W. D. Hamilton, who passed away in the General hospital, Winnipeg on Sunday last, will take place on Thursday, July 11th, at 3 o'clock p.m., from the family residence, at Lakefield, to the Lakefield cemetery. All friends and acquaintances including Oddfellows and Masons, will kindly accept intimation.

ALL RUN DOWN
Weak---Nervous---Unstrung.

Thousands get run down and become invalids before they realize anything is wrong. By permitting low vitality to develop, the way is paved for fevers, pneumonia and diphtheria. To put off makes it all the harder to get well. The time to repair the system is right now, before the damage gets any worse. The remedy is Ferrozone; it revitalizes, renews, builds up vitality that outlasts old age.

FERROZONE is a genuine invigorator that banishes weakness, and instils surplus force and vigor into every organ of the body. Ferrozone sharpens the appetite, produces rich nutritious blood, and thereby contributes that sense of buoyancy that adds so enormously to one's pleasure and usefulness in life.

For all forms of debility, weakness, lack of blood or nerve tone, sleeplessness, tiredness and exhaustion, there is no medicine so vitalizing and potent as Ferrozone. Even one trial demonstrates its rapidly and certainty of action.

To restore the energy of youth, to get back your vital stamina and reserve force, there is positively no treatment so certain as Ferrozone. You have only to try Ferrozone to know the enormous benefit it invariably brings to all In poor health.

FERROZONE

Miss Dorothy B. Leduc of Chester gives the following convincing evidence of Ferrozone's power:—"My work compels me to rise early in the morning and work ten hours daily as a saleslady. Last Spring I was run down, lost my color, and fell off in weight. I seemed to lack ambition and the life was out of me. A friend recommended Ferrozone, and I took one tablet after meals with wonderful results. Ferrozone brought back my complexion, and has given me new strength and abundance of energy and spirits. I would advise all young ladies to use Ferrozone."

Mrs. H. G. Wilder of Dexter says:—"My daughter was not very well last Winter, and lost her strength completely when the Spring came. I gave her Ferrozone, and am glad to say it did wonders. After six boxes were used my daughter was strong, and looked the picture of health."

Gave New Strength

FERROZONE

It makes the weak strong, the sick well, and assures lasting good health.

WARNING—Beware of any substitute for Ferrozone; it alone can cure you. Sold by all druggists and dealers in medicine, only in 50c boxes containing 50 chocolate-coated tablets. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

Cobalt District is Tied up Latest on Mining Situation

Miners In Thirty Leading Cobalt Mines Quit Work.

SPECIAL POLICE SWORN IN

Managers Refuse to Recognize Union—Will Not Sign Mine Owners' Schedule—What the Men Want—Riots Are Feared—Fight Will Be to Finish Declares President — Hundreds Leaving.

Cobalt, July 9.—Practically all the the men of the thirty leading mines in Cobalt district were on strike last night. Most of them were paid off after breakfast yesterday morning and told that no more meals would be served to them. The sleeping quarters and the dining-rooms at the mines are locked, and the provisions have been put in the managers' houses.

Fully 2,500 men were without shelter last night, after a hard rain. Many have only their money from last week's work. The town council will open the opera house, but not more than 500 men can find sleeping room there.

Union agitators addressed large crowds in the public square yesterday, but there was no open demonstration. Special police deputies were sworn in at the request of the Cobalt Chamber of Commerce.

Over 500 miners left town. Every train was crowded. The railroad has sent special police to guard 25 cars of merchandise on the sidings, and retailers are refusing credit to the strikers. The question of to-day's supply is serious, but the people are disposed to give food. The police are confident of controlling the situation. There is little intoxication.

To Recognize Union.

Mine managers are determined to run the mines themselves, without recognizing the union, but the strikers are equally confident of success. Yesterday the Nipissing worked 200 men, the Chambers-Ferland 100, McKinley-Darragh 50, Coniagas 40 and the LaRose 40.

These mines will continue work while the men remain. A demand is made for higher wages for unskilled labor, but the real fight is for recognition of the union and for skilled workmen in all departments. The managers and union schedules otherwise are identical.

The merchants will appeal to the Government at Toronto to arbitrate, but no suggestion of arbitration comes from the union or managers. At present, wages are as high as are paid elsewhere in Canada, and are fully up to the average of the States.

The union reports 600 new members to-day, the total claimed being 1,400. There are few Canadians, French or Italian workers in the union.

The Ontario law inflicts a heavy penalty on strikers who incite to riot, or who destroy property. Cooler-headed union men have done everything possible to prevent a strike. When trouble seemed certain, President Duke of the local union resigned his office, and he is now working, with the more intelligent strikers, to prevent an outbreak.

President McGuire, Duke's successor, says the fight will be to a finish, and that no outside interference will be permitted. He declares he has ample funds to feed the strikers for weeks, if necessary, and to have ordered tents from Toronto and Montreal.

Hundreds of strikers are walking the railroad at midnight to Haileybury, five miles to the north, but that town is already over-crowded.

The union mass meetings last night broke up quietly.

The men's demands are:

On the surface: Carpenters $3.75; helpers $2.75; mechanics $3.75; pipe fitters $3.25; blacksmiths $3.75; helpers $3; engineers 35 cents per hour; firemen 30 cents per hour; ore sorters, $3; hammersmen $3; teamsters $2.75; hoistmen $3; cage or bucket tenders $3; other surface labor $2.75.

Underground: Timberman $3.50; machine runners $3.25; helpers $3; cage or bucket tenders $3; other underground labor $3.

The miners ask that not more than 65 cents per day be charged for board.

Miners in shafts 25 cents extra per shift in extra wet shafts.

Mine owners to furnish oil skins to miners.

Working day: Surface work, 10 hours except Saturday's, to be 8 hours, and 8 hours all underground.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

Wrecking Train Wrecked.

Toronto, July 8.—Arthur Lillen, 13 Franklin avenue, Toronto Junction, had his leg broken in a train wreck at Cardwell Junction on the G. T. R. Sunday. The accident occurred to a wrecking train which had gone up to clear away the wreckage of a freight train which had been derailed about a week ago. The whole of the wrecking train except the engine, left the rails, falling a distance of 20 feet to the second track. The officials can give no explanation of the occurrence. The tracks were all clear again within an hour.

Stunned by Lightning.

Ottawa, July 9.—During the electrical storm last evening the house of Alphonse Monette was struck by lightning and somewhat shaken.

The family of 11 was badly scared, and a young lad, son of the man, was struck on the shoulder and rendered unconscious for some time.

Victim of Assault Very Low.

Richmond, Que., July 9.—The condition of Lily Lynn, the victim of the murderous assault committed by G. A. Greenhall at Melbourne last Wednesday, is still very critical.

The fact that she has lain so long unconscious is very much against her.

Order Four Battleships.

Rome, July 9.—The Minister of Marine has ordered the construction of four battleships.

Jamaica has placed Portland cement on the free list.

BLAZE IN PAINT FACTORY.

Firemen Had Heavy Task—Several Places In Danger.

Toronto, July 9.—Fire this morning caused considerable damage in the three-storey premises at 145 Church street, occupied by P. D. Dods & Co., color manufacturers.

Flames were in full possession of the building when the firemen arrived, and were threatening other premises.

In Dalhousie street, to the rear, a family by the name of Payne had to be removed from their home.

It was necessary for the firemen to break into the house to arouse the inmates and get them out.

In effecting an entrance to the Dods warehouse, the "back draft" suddenly shot a wave of flame into the firemen, some of whom were severely scorched.

At 2.30 the fire was in full possession from top to bottom of the Dods building, and the Lyon's Stained Glass Works, who occupy a portion of the same building, though with a thick dividing wall, were being threatened.

The oils and paints provided great fuel, and numerous explosions helped to spread the flames and make the work of the firemen dangerous.

No estimate of the loss has yet been made.

MORE TROUBLE IN FRANCE.

Wine Growers Dissatisfied With New Wine Frauds Bill.

Paris, July 9.—Despatches from the south of France yesterday report that the situation is again growing serious. The dissatisfaction with the new wine law, and the supplementary measure now under consideration by Parliament, together with the arrest of thirty persons suspected of complicity in the burning of the prefecture at Narbonne, have reinflamed the people.

The mayors and other municipal officers are holding meetings and have decided to again resign their offices unless the arrested persons are released, the troops are withdrawn and the Wine Fraud Bill is modified.

Gen. Bailloud, commander of the Sixteenth Army Corps, has issued instructions to preserve order, and all the troops in the disturbed region have been confined to barracks.

BOY FOUND DEAD IN BUSH.

Wandered Away From Train and Was Lost.

Winnipeg, July 9.—Yesterday morning word was received that the body of nine-year-old Arthur Tudge was found in the woods three miles from Winnipeg Beach. He only had on his bathing suit and he went out Saturday to Winnipeg with St. George's Sunday school excursion. When the train returned it was found he was missing.

The boy's clothing was discovered in the bathhouse and it was thought he was drowned. The lake was dragged, but without success.

Searching parties were instituted and yesterday the boy was found, clad only in his bathing suit. His sufferings from exposure and mosquito bites must have been terrible.

THE HAYWOOD TRIAL.

Entire Morning Session Taken Up by Reading Testimony.

Boise, July 9.—The entire morning session in the Haywood trial was taken up yesterday with the reading of testimony. Testimony was taken by a commission appointed by Judge Wood, who is presiding at the present trial.

The defence during the stay of the commission in San Francisco secured the testimony of Bradley himself and several others, expressing the belief that the explosion was due to gas and declaring that the havoc wrought by it was not caused by dynamite.

Orchard declared that the bomb arranged by him to be exploded when the front door was opened contained about 10 pounds of dynamite, encased in a large section of lead-pipe.

CONFESSED HIS CRIME.

Alleged Murderer Arrested, First Confesses, Then Denies.

Montreal, July 9.—Michele Sylvestri of Providence, R.I., is under arrest here on a charge of having murdered his brother on Sept. 12, 1904, by stabbing him to the heart with a screwdriver.

Sylvestri was recognized by a Providence man in Montreal, who communicated with Chief Carpenter.

When accused, he confessed his guilt to four detectives, but yesterday morning repudiates the confession and states that his only brother died in Italy.

Serious Auto Accident.

New York, July 9.—Dr. Julian F. Thomas, the aeronaut, is in Fordham Hospital, suffering from a compound fracture of the leg and internal injuries received in an automobile accident Sunday night, when the machine, carrying the aeronaut and two women companions, crashed into a trolley pole in the Bronx.

Miss Florence Haas, an actress, who was with Dr. Thomas, had her left leg amputated.

Woman Badly Burned.

London, July 9.—While preparing dinner at the home of her brother-in-law, in West London yesterday, Miss Lamport was seriously burned by the explosion of a gasoline stove, her clothing becoming ignited, and before the flames were extinguished she was burned about the face, arms and hands and also about the body.

19 Years For Manslaughter.

Waterloo, N.Y., July 9.—Daniel Clark of this village, who recently pleaded not guilty to the indictment charging him with killing Annie M. Russell last May, changed his plea to guilty of manslaughter yesterday and was sentenced by Justice Benton to nineteen years in Auburn Prison.

Coming to America.

Tokio, July 9.—It is reported that Director Ishii of the Foreign Office has been ordered to proceed to the United States and Canada in connection with the Japanese labor question.

The barns on Norton and Alverson's ranch, near Wilcox, Sask., were burned, with 13 horses.

This year to date 2,300,000 young trees have been furnished to western farmers by the Government.

Peterborough, June 22, 1907.

UMPIRES IN MIDLAND LEAGUE

Says the Port Hope Guide: "Peterborough is proposing to have umpires from Toronto for the remainder of the games, but we are satisfied that there is not a man in Toronto or in any other city in Ontario, that would please the teams of the Midland League. Peterborough is the first team in the Midland League to raise any objection to Rosevear's work. Rosevear has officiated in the Midland League for years and his services have always been in demand. If you can get a man who will give Peterborough everything and have them win all the games he might get along fairly well, but otherwise he is no good. The great trouble in the Midland League is that the umpires have no authority. They cannot put a man out of the game, neither can they fine him. He is simply out there as a target for all the abuse and slurs they may hurt at him, and the result will be that the Midland League will soon be without umpires."

There is considerable truth in what the Guide says about the umpires in the Midland League having no authority. The wise old men from Port Hope, Cobourg, Oshawa, and Bowmanville, who made up the Midland League at the beginning of the season apparently forgot a few things. The constitution of the league will stand an overhauling and let it be done before the season opens next year. When the season is half over is no time to start a holler.

The Guide's statement that, "If you can get a man who will give Peterborough everything and have them win all the games, he might get along fairly well," is of course all rot, and those who know anything about the ways of the world will put it down as such. Peterborough only wants a square deal in every game and wants to see every other team in the league have similar treatment. So long as local men act as umpires will there be kicking. Peterborough will do its share, so will Port Hope, so will Cobourg. It has always been thus in sports and for this reason the big leagues, both baseball and lacrosse no longer have men in any way connected with the contesting teams to act as umpire or referee. Is there any reason why the Midland League should differ from the others. Rosevear of Port Hope may be a good umpire, he might try to do the fair thing, but it is manifestly unfair to to the other teams in the league to have a Port Hope man as umpire. A close decision against Port Hope's opponents will always be looked upon as a mark of favoritism, even though the umpire is doing what he considered right.

There is no doubt but that outside men would be more satisfactory to all concerned. Common sense makes that clear. If the Guide can point out any reason why local men would be more satisfactory than a good umpire from Toronto for instance we would like to hear from it.

Had Peterborough and Lindsay been taken into the league at the beginning of the season, baseball would have flourished in the Midland district as it never had before. But Port Hope, Bowmanville, Oshawa and Cobourg wanted to run things on the cheap and refused to admit the Peterborough or Lindsay teams, because the travelling expenses would be too high. Now at the beginning of the season travelling expense or something else has knocked Oshawa and Bowmanville out of the league and the fact that, even with the addition of Peterborough, it has narrowed down to a three-team affair, is largely the result of the Cheap John policy inaugurated at the beginning of the season. Local umpires are another link in the same chain of doing things in a small-fisted manner.

CRICKET

The Peterborough Cricket Club has received a letter from the Orillia Cricket Club, asking for home and home games, dates to be arranged. The locals will practice every evening this week at 6.30 o'clock at Nicholl's Oval.

BASEBALL

The Peterborough baseball team will practice tonight at Riverside Park

LACROSSE

The Peterborough lacrosse team goes to Beaverton tomorrow to meet the Checkers in an intermediate C.L.A. game. The boys are in good shape and leave at 8.25. Newmarket plays here on Saturday and are running an excursion. They will be accompanied by a large number of supporters.

Havelock Village is Well Behaved

Indignant Denial of Statements Made by a Certain Citizen

Mr M. McNicholl, proprietor of the North American Hotel, Havelock, was in the city today, and stated to the Review, that the letter written to County Constable Cochrane, by an alleged resident of Havelock, to which reference was made in the Review on Friday last, contained nothing but lies, and out of justice to the citizens of Havelock it should be contradicted.

Mr. McNicholl affirms that he knows who the writer is, and says that the letter was penned out of spite, because the hotels refused to board the man and his wife, as they would not pay their board. This citizen in his letter states that the town is full of drunken men and on Sundays is worse than any other day. Mr. McNicholl states this is not true and a Sunday drunk has not been seen in Havelock for over three years. The hotels are all orderly and keep the law.

Mr McNicholl added that the conditions in Havelock are nothing like what the writer says. The letter is wholly untrue and everything is peace and quietness in the railway town.

WHAT IS A BLOCKADE?

Judicial Definition Given at The Hague Conference.

Brazil Desires Modification of American Proposition Regarding Immunity of Private Property At Sea—Neutral Powers Must Be Notified—Vessels May Be Confiscated—Delegates to Have Vacation.

The Hague, July 9.—It was reported yesterday that M. Nelidoff, president of the peace conference, is desirous of leaving The Hague July 20 to take a fortnight's cure at some Spa, and it is considered possible that the conference, like that of 1899, will then suspend its sittings, enabling the delegates to take a vacation.

The Italian proposition regarding blockades, submitted yesterday to the sub-committee dealing with the question, comprises seven articles. It gives the judicial definition of a blockade and establishes that to make it effective, a blockade must be officially declared and the neutral powers must be notified. Vessels attempting to run a blockade can be seized and the vessels and cargoes confiscated.

Dr. Ruy Barbason (Brazil) presented a proposition modifying the American proposition on the subject of the immunity of private property at sea, suggesting that the rules regulating private property on land be extended to naval warfare, with the addition that when the commander of a belligerent fleet, by the necessities of war, is obliged to seize and destroy a merchantman belonging to the enemy he must deliver to her captain a written statement enabling him to put in a claim for indemnity.

PRIZE FIGHTER SAVES WOMAN.

Knocked Man Out Who Was About to Shoot His Wife.

St. John, N. B., July 9.—Tom David, a Syrian, shot his wife twice in the abdomen while waiting at a crowded station of McAdam, on the C.P.R. yesterday morning.

Mrs. David, who until recently lived with her husband in Lowell, Mass., ran away and joined a Syrian colony at Woodstock, N. B. She is very beautiful and has two children.

David came here to get her to return, but the couple quarreled on their way back, and when at McAdam he pulled a revolver and shot her. He was preparing to shoot a third time, when Jack Powers of St. John, once the heavyweight champion of America, sprang forward and struck David on the jaw, knocking him out.

David was arrested, and is now in in jail.

His wife is lying in the Woodstock Hospital in a dying condition.

Warns Western Farmers.

Winnipeg, July 9.—Senator W. R. Perley, the largest farmer in Saskatchewan, who harvested ten thousand acres of wheat last year, has issued a statement, through the newspaper, warning farmers of Northwestern Canada to exercise close economy this year. He sounds a pessimistic note, and says that the crop will be less this year by from 25 to 30 per cent. than last year.

"We western farmers have had six years in succession of gold crops and great prosperity," he observes, "and under such circumstances it is quite natural to forget that it is possible to have poor crops."

In the meantime crop prospects are improving all over the west. Sunday rain was general in Manitoba.

Babe Drowns In Pail.

Parry Sound, July 9.—An 18-months-old son of Moses Schmidt of Conger Township, a short distance from this place, was drowned by falling head first into a pail of water.

JUMPS 150 FEET TO DEATH.

Edward Lewis on Way From Hospital Ends His Life.

Toronto, July 9.—Leaving the General Hospital to go to the Weston Sanitarium as a consumptive patient, Edward Lewis hurled himself over the Sherbourne street bridge at one o'clock yesterday afternoon to find instant death in the ravine 150 feet below. Both legs and arms, the back and neck were crushed.

Lewis, who had been a porter at the Elliott House since October last, had been failing in health. On June 25 he went to the General Hospital, where he remained until yesterday morning when it was thought that he would be better at the Weston institution.

Accordingly he was allowed to depart, saying he would just call in at the Elliott House on his way. He did this and talked with employes there, saying he wanted a little fruit to take back with him. He sat in the bar for a while, leaving at 11.30, saying he was glad that he was feeling better.

As far as can be learned he was next seen at the bridge, where he made the fatal leap.

CHARGED WITH FRAUD.

Seven Indictments Preferred Against Bank President.

St. Louis, July 9.—Seven indictments have been returned by the Federal grand jury against Edward G. Lewis, president of the People's United States Bank, charging fraud.

In one indictment Lewis and Francis V. Putnam, cashier of the bank, are charged with using the mails in furtherance of a scheme to defraud the bank's stockholders. Another indictment is against Lewis, Frank J. Gabot and William M. Miller, charging conspiracy to defraud the Government on postage rates on the mailing of publications issued by Lewis.

The other indictments stand against Lewis alone, charging him with a scheme to defraud through the People's United States Bank. All the defendants gave bonds.

STRIKERS BECOME MILITANT.

Men Who Refused to Join Movement Are Attacked.

Rotterdam, Holland, July 9.—The attitude of the dock laborers who struck against the use of elevators in unloading grain ships is increasingly militant.

Attacks on the men who refused to join the movement are so frequent and threats to damage shipping and other property are so persistent that a large force of cavalry has been posted on the quays and police patrols have been detailed for the protection of steamers while loading and unloading.

The ironclad Piet Rein is patrolling the River Meuse, the ironclad Reiner Klaezcen is guarding the port, and the cruiser Noord Brabant will arrive here to-day.

THE COREAN DEPUTATION.

Emperor Asked to Explain Gives Evasive Answer.

Seoul, July 9.—At a meeting of the Cabinet Ministers in the presence of the Emperor Sunday night, the former raised the question of the source of the authority under which the Corean deputation at The Hague was acting.

The Emperor at first pleaded ignorance, but finally gave an evasive answer and ordered the Ministers to explain the matter to the Japanese in such a manner as to appease their anger.

A committee was appointed to superintend the imperial outlay and prevent any further alleged illegal disbursements, which have frequently occurred.

SECOND VISIT TO IRELAND.

King and Queen Leave For Dublin Exhibition.

London, July 9.—King Edward and Queen Alexandra started yesterday afternoon for Ireland, the second visit since their ascension to the throne. On the way Their Majesties will spend to-day at Bangor, and lay the foundation stone of the University of North Wales.

The royal yacht is awaiting the royal party at Holyhead, and will convey them to Kingstown, where the King and Queen will arrive during the morning of July 10.

One of the special objects of the King's present trip is to visit the Dublin Exhibition.

Lighthouseman Killed.

Montreal, July 9.—The lighthouse off Valois, in the St. Lawrence, a mile and a half from shore, in Lake St. Louis, was dark Sunday night. On investigating the cause it was found that Joseph Chevier, the keeper, had fallen off the platform of the lighthouse into shoal water and fractured his skull.

He had apparently met with instantaneous death.

Crazed With the Heat.

New York, July 9.—Becoming suddenly insane, probably from heat, while at work on the new building of the Trust Company of America, at 37 Wall street, yesterday, a plasterer ran amuck with a hatchet among his fellow-workmen.

He attacked three of them, two of whom were probably fatally injured.

Stunned by Lightning.

Ottawa, July 9.—During the electrical storm last evening the house of Alphonse Monette was struck by lightning and somewhat shaken.

The family of 11 was badly scared, and a young lad, son of the man, was struck on the shoulder and rendered unconscious for some time.

Major Dreyfus to Retire.

Paris, July 9.—It is stated in military circles that Major Alfred Dreyfus, the former captain of artillery, who was sentenced on a charge of treason to imprisonment on Devil's Island, is shortly to retire from the army, accepting a pension.

The [illegible] factory at Brantford, is to be enlarged by an addition costing $10,000.

FIVE YEARS FOR MAYOR

Crowd in Court Cheer Heartily on Hearing Verdict.

Remarkable Demonstration When Sentence Is Passed on Schmitz of San Francisco—Men Threw Hats In the Air — Greatest Confusion Prevailed — Prisoner Protests Vehemently Against Being Lectured.

San Francisco, July 9.—Mayor Schmitz was yesterday sentenced to five years' imprisonment for corrupt practices in the administration of municipal affairs.

The passing of sentence upon the convicted mayor was accompanied by a most remarkable demonstration. As the last words fell from the lips of the judge the great crowd that had stood throughout the dramatic scene sent up a thunderous cheer. Men threw their hats in the air, others climbed upon chairs and the greatest confusion prevailed.

Counsel for Schmidt protested, and appealed to the court to immediately put a stop to this unseemly occurrence. "If we had a sheriff worthy the name it would have stopped instantly," replied Judge Dunn.

"No one could have stopped that cheer, your honor."

Then the order was given to clear the court-room.

In the meantime half a dozen photographers had set off their flashlights, and in the midst of the skirling, struggling crowd and the suffocating smoke stood the convicted mayor dictating a statement to a score or more of newspapermen.

21 CHINAMEN ARRESTED.

Chief of Police Accused of Ill-Treatment In Cells.

Ottawa, July 9.—Twenty-one Chinamen were arrested at a gambling joint on Sunday night here. The police raided the premises and found an apparatus and $40 in use. The Chinamen attempted to get away, but were all rounded up.

Yesterday morning at the Police Court, ten were accused of keeping or being spectators at the gambling den, and eleven were held at witnesses. The accused were remanded on $100 each.

Meantime the Chinamen's solicitor has threatened to sue the chief of police and city for damages for abusing his clients while in the police cells on Sunday night.

ANTI-PAPAL LEAGUE.

International Conspiracy With Intent to Wreck Church.

Rome, July 9.—The Vatican has been informed of the existence of a secret international league, embracing Teutonic and Anglo-Saxon countries, of which it is said many members are of the German Catholic centre.

The ostensible object of the league is the petitioning of the Vatican for the suppression of the index expurgatories, but it is stated that its real object is to stir up strife among Catholics, causing schisms similar to the ultra-liberal movement in Italy.

The Pope, it is asserted will shortly take severe disciplinary measures against the new league.

ACCIDENTALLY SHOT WIFE.

Was Examining Rifle When It Accidentally Went Off.

Comber, July 9.—What might have proved a fatal accident, occurred at Stony Point. Fred Bussey and his wife of Detroit, are visiting friends in Stony Point, and while the former was examining a rifle it accidentally discharged, the bullet entering the side of Mrs. Bussey, striking a rib just over her heart. The bullet followed the rib to the back and lodged in her clothing.

Dr. McNiven of Comber dressed the wound, and unless complications set in Mrs. Bussey will soon be well again.

CABRERA WANTS NAVY.

Is Getting Ready to Meet President of Nicaragua.

Mexico City, July 9.—President Cabrera of Guatemala is negotiating for the purchase of a navy to meet the anticipated attack of President Zelaya of Nicaragua.

It was learned from a high source that Cabrera had recently secured $500,000 gold on a forced loan and that with this sum he will purchase gunboats.

The Nicaraguan fleet in the Pacific waters consists of three gunboats; she also has three gunboats on the Atlantic.

Elopes With Painter.

Moncton, N. B., July 9.—Etta Ramsay, 14, run away from her home Friday with John McLeod, a painter, aged 50, and has not been located. The Ramseys are a prominent family and the girl is good-looking.

She told her mother she wanted to visit a friend at the seashore some miles away, but the parents objected, and they supposed the girl went down town only.

She left, however, on the next train with McLeod. The police looked for them all over the province, but no trace has been found.

Bowmanville In Darkness.

Bowmanville, July 9.—At 9 o'clock yesterday morning a thunderstorm with a heavy downpour of rain, passed over this district. Citizens do not remember when it was so dark in the daytime before. It was impossible to discern persons across a room. The storm was of short duration.

Victim of Assault Very Low.

Richmond, Que., July 9.—The condition of Lily Lynn, the victim of the murderous assault committed by G. A. Greenhall at Melbourne last Wednesday, is still very critical.

The fact that she has lain so long unconscious is very much against her.

Donald Graham, of Lobo, was injured in London by falling from a load of hay.

High Honor for Dr. Carmichael

Appointed Examiner in Surgical Anatomy by Medical Council

Dr. D. N. Carmichael, of this city has received word from Dr. Hillier, of Bowmanville, representative of this dsitrict, on the Ontario Medical Council, which held its annual meeting in Kingston last week, that he had been appointed examiner in surgical anatomy for the Medical Council examinations.

Dr Carmichael's friends are congratulating him on the appointment the honor being all the greater, as the position was entirely unsolicited.

Band and moving pictures at Jackson Park this evening.

Presented With Gold Headed Cane

Last evening at the office of the Big Dipper Mining Co., a number of the friends of Mr. Wm. Leahy, gathered and presented him with a gold headed cane. Short speeches were made by Messrs. E. White, Waldron and others, all expressing regret at Mr. Leahy's departure from the city. Mr Leahy, although taken by surprise, made a suitable reply, thanking his friends for their kindness. He left today for New Liskeard, where he expects to spend some months.

Colonial Weaving Co.

Property owners and other qualified electors are reminded that a vote will be taken on Thursday next, July 11th, 1907, on a By-law to aid the Colonial Weaving Company.

By order
S. R. ARMSTRONG,
City Clerk.

Forty-one New Crossings Laid

Propose to Fill in Bridge Over Hunter St. and Save Future Expense

A short session of the Board of Works was held last night at seven o'clock when several matters were dealt with, including a couple of reports from the city engineer, which were as follows:—

The deck of bridge over the raceway on Hunter street east will have to be renewed as it is in very bad condition. If your committee approve of it I could lay a pipe for the small quantity of water now passing through and fill in the channel.

There is a surplus of material in the extension of Hunter street to the hydraulic lock, which would be very suitable for this purpose and the steel work of the bridge could be saved and used elsewhere. It is 22 foot span and 34 feet wide. It may be necessary to notify the owners of property if you decide to fill in the channel.

The Board of Works considered the proposition favorably and authorized the city clerk to communicate with the Hydraulic Power Co., the owners of property, and secure their permission. If this work is done as the engineer suggests it will be permanent and that part of Hunter street will require no more attention.

CONCRETE WALKS.

Up to June 27th the special gang putting down concrete crossings had completed 41 crossings at a total cost of $1441.71, an average of $35.16 1-2 each, or 18c per square foot.

BELL TELEPHONE CO'S. AGREEMENT

Read to the Council and Amended and Sent to Montreal to be Signed

The proposition of the Bell Telephone Co. to put its wires underground was again before the committee of the whole council last night, and after being carefully gone over and one amendment made the agreement was adopted and sent to Montreal to be signed.

The Bell Telephone Co.'s application for permission to put its wires on the main business streets in the city underground, was taken up by the committee of the whole.

Mayor McWilliams explained that a conference with the company's local manager and solicitor had been held, and an agreement which was satisfactory had been taken up and submitted to the company's head office and had been accepted.

The streets upon which the wires will be placed underground, and on which they agree to place no poles and to take down any poles they own, are,—George, from Sherbrooke to Brock; on Brock, from Chamber to George; on Hunter, from Aylmer to Water; on Simcoe street, 150 feet east and west of George; on Charlotte 150 feet west of George and on Chambers street, 190 feet north of Hunter, and all work to be completed by the end of June next year. The work is to be done under the supervision and to the satisfaction of the city engineer and the company is to leave the streets in the same condition as they were before the work was started and while the work is going on the streets are not to be obstructed.

Ald Morrow and Ald. Bradburn moved that a clause be added that in the event of the company failin to carry out the work of repairing the streets, that the council do the work and charge it up to the company.—Carried.

The city gives the company the right to use the streets for an unlimited period, but if at any future time the city receives any further authority of the streets, the present agreement does not hold, and the city can benefit by any legislation hereafter enacted.

New Library Building Given City By Trustees of Nicholls Estate

Mr. Richard Hall Made the Offer to the Council Last Night — Was Unaminously Accepted — Arrangements Will be Made at Once to Remodel the Building.

A new public library has been given to the city by the Nicholls Estate, and one more monument will be established to the memory of the late Mrs. Charlotte Nicholls. The City Council, in Committee of the Whole was surprised last night when Mr. Richard Hall, one of the trustees of the estate, appeared at the meeting and on behalf of the trustees, offered to donate to the city the two stores, formerly occupied by Hall & Innes, on Simcoe street, opposite the City Hall.

As soon as the Committee of the Whole met, His Worship Mayor McWilliams stated that Mr. Hall had a proposition to lay before the council, and asked Mr. Hall to address the aldermen.

Mr. Hall said that he had the privilege, as one of the trustees of the Nicholls Estate, to offer to the City of Peterborough, for a public library the two stores on Simcoe street, opposite the City Hall. The only conditions imposed in the gift were that the city accept the offer, remodel the building, suitable for library purposes, and to maintain it in a way that will make it creditable to the city. The building requires very little altering, as it is all in one large room. The principal work will be in putting in a new front, and new shelving and furnishing. The gift includes the entire building, giving a frontage of 48 feet, and a depth of 109 feet, and three stories high and a basement.

Mr. Hall continued to say that the city will be given a deed of the property as soon as the trustees are assured by the council that the building will be made a most creditable library to the city. He requested that work be started at once to prepare and carry out a plan for the remodelling so that the public library may be moved into its new premises as soon as possible, as the building now occupied has been sold and the library will have to be moved very soon.

When the aldermen heard Mr. Hall's proposition, they were so pleasantly surprised that for a few seconds all lost the power of speech. Then some one suggested that the offer be accepted and another asked Mr. Hall if the property would be deeded to the city and not the Mechanics' Institute. To this request, the representative of the Nicholls Estate said certainly the deed would be made out to the city.

Ald. Stevenson rose to his feet and personally, and as a representative of the people thanked Mr. Hall for the exceedingly liberal offer, and he also spoke a few warm words in memory to the late Mrs. Nicholls, who had before her death done so much for the city, and who had made such liberal provision for future donations. He moved that the thanks of the City Council be tendered the trustees of the Nicholls estate for the very generous way in which they have treated the city, adding that a proper public library was a long felt want in this city, but the people seemed unable to provide one. An attempt had once been made to get one of the Carnegie libraries, but it was most gratifying to know that the building has been donated by local citizens.

Ald. Phelan spoke very feelingly in reference to the gift and expressed the great pleasure it afforded him in seconding the motion.

His Worship Mayor McWilliams put the motion and it carried unanimously, the entire council rising to their feet and clapping their hands.

The next matter was for the aldermen to consider what they were to do. Before the money necessary for the undertaking can be raised a by-law will have to go to the people. This, of course, is more a matter of form as there is not the slightest doubt but that it will be carried by a very large vote. The arrangements for altering the building will be gone on with at once, and the property committee was instructed to invite the executive of the Library Board to join them in consulting the trustees of the Nicholls Estate, as to how the building should be changed and what furnishings are required. An architect will be employed to prepare plans and these will be submitted to the joint committee and afterwards to the council.

The portion of the building to be given to the city includes 48 feet frontage in the middle of the block. That is Mr. W. H. Hamilton's grocery will be on the west side and the Bank of Montreal on the east side. The Bank of Montreal has purchased 20 feet west of the old Ontario Bank, and will enlarge the bank premises. This leaves the centre for the city and it will make an ideal public library. There will be ample accommodation for the library for many years to come and for board rooms, and reading rooms of all kinds. The joint committees will meet at an early date to discuss remodelling the new public library.

Band and moving pictures at Jackson Park this evening.

SAILSBURY—KETCHESON

A very quiet wedding was celebrated at the home of Mr. and Mrs. Gowanlock, 554 Agnes street, on the evening of July 4th, when Charles E. Salisbury, of Tisdale, Sask., formerly of Cypress River, Man., was united in marriage with Annie M. Ketcheson of Moira, Hastings county, Ontario. The wedding ceremony was performed by Rev. R. E. Spence, of Maryland church, and witnessed by a number of the intimate friends of the groom. Mr. and Mrs. Salisbury, after spending a few days in the city, will proceed to their new home near Tisdale, Saskatchewan.—Winnipeg Free Press.

"Rob Roy" Had Exciting Time

On the return journey Saturday night from Kirkfield the steam yacht Rob Roy had a narrow escape from being totally wrecked. It was in charge of Capt. Roy and was in the north lock at Fenelon Falls. Through evident carelessness on the part of the lock master the sluices between the first and second locks were opened. As a result the second lock did not fill and when the gates were opened the Rob Roy with a couple of gasoline launches were dropped onto the sill jarring the boats very much. As soon as the lock tenders saw their mistake they rushed to the head lock and opened the sluices with the object of raising the water and floating the boats. The result was nearly disastrous. The water came down with a rush and jammed the boats together and creating great disturbance. The dingy which the Rob Roy was towing was broken to matchwood and it will cost the owner $22 or $23 to buy another second hand boat. It was most fortunate that the big boats were not broken and that no lives were lost.

STUDIO GRAND PIANO

Small enough for a medium-sized room, and possessing the genuine GRAND tone quality.

Stony Lake is Again on Route

Steamer Returned From Kirkfield to Lakefield Yesterday

The steamer Stony Lake returned from Beaverton last evening and is again on her regular route on Stony Lake. She left Beaverton at an early hour yesterday monring.

Some of those who attended the lift lock opening at Kirkfield on Saturday enjoyed a pleasant sail on the steamer Sovereign on Sunday around Lake Simcoe, Lake Couchiching and other waters, touching at Orillia, Barrie and various other The Bob Hall and the Sovereign will remain at Kirkfield, and will do some work in connection with the canal on the Kirkfield section.

Will Be Interred At Lakefield

Funeral of the Late W. D. Hamilton will Take Place Thursday Afternoon

The funeral of the late Wm. D. Hamilton, who was so seriously injured in the disaster on the C.N.R. at Rainy River on Friday last, that he died in the general hospital in Winnipeg on Sunday, will take place from the residence of his father, Mr. William Hamilton, Lakefield, on Thursday afternoon at 3 o'clock.

The late Mr. Hamilton was 63 years old and was unmarried. He had been engaged in railroad work for about twenty years, first being with the G.T.R. of Lindsay, and of late with the C.N.R. He was well-known in Toronto, Peterborough and Lindsay. He was a member of Peterborough Lodge, No. 111, I.O.O.F., and of the A.F. & A.M., Lindsay, as well as a member of the Mystic Shrine, Toronto. The deceased leaves besides his parents, Mr. and Mrs. William Hamilton, of Lakefield, four brothers, and one sister to mourn his loss. They brothers are Albert of Toronto, Andrew and John of Winnipeg, and George of Lakefield. The sister is Miss Bella, residing at home.

The late Mr. Hamilton was a highly respected and upright engineer.

The train at which he was at the throttle ran into a herd of cattle six miles from Rainy River. The engine was overturned. The fireman, William Vance was killed, and Mr. Hamilton was so badly scalded that he died less than 48 hours after in the general hospital, Winnipeg, to which institution he was removed.

THE CITY AND VICINITY

NOTHING DOING.

There was nothing doing in police court this morning. Magistrate Dumble is out of the city, as also is City Clerk Armstrong.

FLOWER SUNDAY.

At Knox church on Sunday morning next Flower Sunday will be observed Rev. H. J. Keith, the pastor, will deliver a special sermon to the children.

DELEGATE APPOINTED.

At a meeting of the Historical Society last night, Secretary T. J. Wallace was elected representative to represent the local society at the convention to be held in Kingston, on July 18th.

THE UNSKILLED SSKATER.

At Scott's Coliseum, Jackson Park, we are showing this very comical picture, laugh and grow fat. Also see the Lightning Crayon Artist—see how quickly he can draw a picture. Matinee 2 to 5. Evening 7 to 10. Admission 5 cents. Change of programme Thursday.

ASSISTANT MATRON.

Mrs. Gates, who recently arrived in Peterborough, having come over from the old country on the steamship Ottawa, has been engaged as assistant matron of the County House of Refuge at Lakefield. Mrs. Gates is a woman of experience and has had considerable insight into work in connection with large institutions in England.

SUNDAY SCHOOL PICNICS

Two Sunday school picnics are being held down the river today. The George street Sunday school is picnicing at Idyl Wyld, going down on the steamer Otonabee, while the Mark street Sunday school is spending the day at Gore's Landing, the steamer Monarch taking the excursionists down.

BOYS' CAMP

The enrolment of the Y.M.C.A. boys' camp is still increasing. Half a dozen more sent in their names yesterday. Those who are going will note an important change in the time of going on Thursday. The party will leave on the noon train (not the morning train, as announced.) The boys should be at the train early to get their baggage checked.

VIEWS OF LIFT LOCK.

Mr R M. Roy has completed a set of four photos of the Kirkfield lift lock opening. They are exceedingly good views and practically every person on the boat and within range can be distinguished. The photos are of the lock just before the Stoney Lake entered; with the steamer in the lock, when it is half way down and when everything is ready for it to start off after the opening. These views are now on exhibition in Mr. Roy's show case.

Band and moving pictures at Jackson Park this evening.

IS OPPOSED TO BONUS BY-LAW

To the Editor of the Review.

Sir.—The bonus bylaw to help to promote the Colonial Weaving Co., is to be voted upon on Thursday, the 11th inst. It seems there is money wanted yet in the way of promoting this important industry and if the ratepayers would be so kind and gratuitous as to vote their hands into their pockets for twenty years to come, no doubt the receivers would give you in return a very complaisant smile. There is no doubt but some one will say this little bonus does not amount to very much; it is almost a myth. It would be well to remember that it helps to increase our corporation mortgage or debt. All the business men of this city might as well ask for financial aid when money becomes as free as water. Why are our printing presses so mum on this question. It is likely the glowing side of the picture will be sent forth on Wednesday, giving us the gilt-edge scenery. I would like every ratepayer to use his own ability in voting.

Yours, etc.,
J. P. METHERAL.
Peterborough, July 9

Farmers, farmers' wives, store girls, clerks, bricklayers, policemen and postmen—all who have to be on their feet all day, and suffer from sore feet, chafing or blistering, will find relief in Zam-Buk.

Mr. Wm. Ashley, 527 Seigneurs St ; Montreal, says:—"I suffered cruelly from sore feet, which became raw and blistered. Some days I was hardly able to walk home from work, and others I had to leave off about 8 o'clock. Powders, salves and ointments of all kinds I tried in vain, sometimes actually working with them in my boots. I was advised to try Zam-Buk, and in a few hours it reduced the smarting and soreness. I kept on with it, putting a little on each night. In a few days the soreness was all gone."

Of all stores and medicine vendors at 50c. a box, or Zam-Buk Co., Toronto. Cures eczema, prairie itch, salt rheum, insect stings, sunburn, cuts, burns and all skin injuries and diseases.

The New Officers Were Installed

Those Who Will Occupy the Chairs in Local I.O.O.F. Lodges

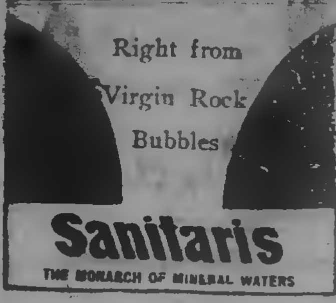
Refreshments were served after the addresses, and a very enjoyable evening terminated around the festive board.

A sturgeon weighing 210 pounds was caught in the Red River, near Winnipeg.



A. ROUNTREE, Agent, Peterborough

City Council Received Reports; Read Many Communications

Large Number of By-Laws Were Put Through—Request for City to Fill in Gully under Old Goose Pond—Colonial Weaving Co.'s By-Law.

It was after midnight when the council adjourned last night. In addition to the communications there was a long list of reports read and bylaws passed, in addition to the usual run of business.

All the members were present and the minutes of the last meeting were taken as read.—

COMMUNICATIONS.

The following communications were recieved.—

From the Heaton's Agency, Toronto, seeking an order from the Council for the Commercial Handbook of Canada, and seeking information in regard to population, debt, assessment, etc.

From residents on Water street, asking to have the property line filled in, between Dublin and Antrim streets, as the present condition is unsightly and unsafe. — Board of Works.

From residents on Rogers street asking for a sewer from Hunter street to a point 190 feet south. — Board of Works.

From secretary of the Ontario Municipal Association notifying the Council that the date of the ninth annual meeting will be held in Toronto on Wednesday and Thursday, Aug. 28 and 29th.—Received.

From A. S. Elliott, 421 Bethune street, drawing attention to the necessity of a sewer on Bethune street between Hunter and Brock streets.—Board of Works.

From E. M Elliott, county clerk, containing the following clause of the County Roads and Bridges Committee,—"That the City of Peterborough be requested to rebuild the sidewalk on the north side of Brock street, as far east as the County Court Clerk's office, and to place cement steps leading from the sidewalk to the door of the office, the cost of such to be borne by the County.—Board of Works.

From Mr. Jas. Bogue, as follows,—I have had a communication from your solicitor re Aylmer street diversion of drain by the council. I now wish to inform the council that I have got my property in its original state and intend to keep it so, and should any damage result to me or others I will hold the city responsible for having made changes on Edinburgh street to suit their friends. I can only add that I am not called on to have my property damaged for others benefit.—Referred to Chairman of Legal Committee.

From the Otonabee Power Co., asking permission to place two poles on John street.—Board of Works.

From C. A. Weller, Judge of the County Court of the County of Peterborough,—In the matter of the George street extension, and lots 5, and 6, plan 52 for the City of Peterborough, and bylaw No. 1245, I hereby appoint Tuesday, the 25th day of July, 1907, at my chambers in the Court House, Peterborough, for the fixing, settling and determining, as sole arbitrator, the amount of compensation to be made to David William Dumble, for lands expropriated by the City of Peterborough, for the extension of George street, through lots 5 and 6, plan 52, bylaw No. 1245 —Referred to City Solicitor.

From the Otonabee Power Co. asking permission to place one pole on King street, west of Williams street. —Board of Works.

From R. R. Hall, M. P., explaining Mr. Sing's opinion of the trouble between Contractor Mahoney and Mr. Quinn.—Received.

A petition was received from about 250 people in Ashburnham, mostly ratepayers, asking for a footbridge over the Otonabee river, at or near the C.P.R. bridge, starting from Maria street.—This petition was referred to the Board of Works with instructions to get information and report at once.

From J. H. Burnham re the Water Power at Locks Dam. I have been asked by Mr. J. M. Irwin's agent in Toronto, to lay before you the question of the purchase by the city, of the Irwin property at the Locks Dam, and its rights to water power. As you are aware the power is about 1,500 horse power, which can legally be increased to 2,400 h.p If the city wishes to purchase this power and 17 acre site for the sum of $25,000 I shall be glad to hear from you on behalf of those who have instructed me.—Referred to Special Power Committee.

DEPUTATIONS.

Mr. Middleton was present and thanked the council for filling in the extension of Edinburgh street, and for building the sidewalk in front of the old goose pond on Water street, but he would like the city to fill in where the old sidewalk was.

Mr. Jas. Stubbs said he had waited since a year ago last spring for the council to tear up and fill in the old walk mentioned above. He could not put cement walks to his new houses until this was done.

Mr. Middleton added that the council had a right to do the work as when he and Mr. Ruth took hold of that property it was assessed at $2,000 and this year it was assessed at $14,000 and by the end of the year, it would be $25,000. They had done their part and they wanted the city to do its share. The matter was referred to the Board of Works.

REPORTS OF COMMITTEES.

The reports of the following committees were read.—Board of Works, Fire, Water and Light, Committee of the Whole, Special Power Committee, and the Finance Committee.

FINANCE COMMITTEE.

Your Finance Committee beg leave to report and recommend as follows:

1. That the following accounts be paid.

J. and W Metheral	$ 19.50

2. That the Chief Constable be paid $1.12, paid by him in connection with the seizure of butter made on the market.

3. That at the request of the Board of Police Commissioners, the Secretary of the Board be paid $50 a year, the same as last year.

All of which is respectfully submitted.

COLONIAL WEAVING CO.

Moved by Ald. McIntyre and Ald. Morgan that the City Council advertise in the three city papers a notice in connection with the Colonial Weaving Co. bylaw on Thursday next. —Carried.

BYLAWS.

Bylaws were passed as folllows,—

Bylaw No. 1320—A bylaw authorizing the execution of an agreement with the Bell Telephone Co. for placing their wires underground.

Bylaw No. 1321—A bylaw authorizing a memorial to the Lieut.-Governor in Council, for the changing of the ward system.

Bylaw No. 1322, was a bylaw to amend the bylaw appointing a tax collector.

Bylaw No 1323 was a bylaw to amend bylaw appointing poll clerk to act at Colonial Weaving Co. bylaw.

Bylaw No. 1324, was a bylaw authorizing the issuing of debentures to pay the city portion of the cost of sidewalks.

Bylaw No 1325, was a bylaw authorizing the issuing of debentures to pay the city's portion of the cost of sewers.

Bylaw No. 1326, was a bylaw authorizing the issuing of debentures to pay for the portion of granolithic walks chargeable to frontage tax.

Bylaw No 1327 was a bylaw authorizing the issuing of debentures to pay for the portion for sewers chargeable to frontage tax.

Bylaw No 1328, was a bylaw to execute an agreement with Daniel Mahoney.

Bylaw No 1329, was a bylaw authorizing the construction of a sewer on part of King street.

PARK FOUNTAIN.

Ald. McIntyre said that there was a good fountain in Victoria Park which was not running and he thought it should be used.

Ald McIntyre was instructed to look into the matter with power to act.

Ald McIntyre wanted to know why the Board of Health had not published the milk inspection.

Ald. McIntyre and Ald Johnston moved that the Board of Health publish the milk reports as soon as possible.

JACKSON PARK VERY POPULAR

There was a big crowd at Jackson Park last night to see the moving pictures and enjoy the pure air and pleasing verdure of the park. Several new moving pictures were shown and made big hits with those who were watching them. The Coliseum also did a good business. One is always sure of a bright programme at this popular place of amusement, and five cents can be spent there very profitably.

Jackson Park will no doubt be the mecca of a large number of people during the hot evenings of July and August. It is an ideal spot on a warm night.

Exciting Search for Lost Child

Little Daughter of Ashburnham Citizen Was Lost for Several Hours

Yesterday afternoon about three o'clock, the three year old daughter, of Mr. Herb Bell, 243 Euclid avenue east city, wandered away from home and until late last evening the child was not found. The parents and whole neighborhood were on the hunt for the lost child. The little one was playing around her home in the early part of the afternoon, and unnoticed she started off down the street. It was sometime before her mother noticed that she was gone. Her aunt had left for home a short time before her, and it is believed the little tot followed after her. The little one was bareheaded and must have been awfully tired when she finally got home, as she was found in Auburn, a considerable distance from her home. The mother was naturally, in a great state of uneasiness and her joy can be imagined when her child was brought to her. To add to the mother's uneasiness some person was so unthoughtful as to go and tell her that her little daughter had fallen into the river.

After diligently searching the neighborhood for several hours, word was 'phoned to the police station that a little child had been found in Auburn and was at the residence of Mrs. M. Flannery, 210 Auburn street. Mr. Bell having told the police about the lost child, they informed Mrs. Flannery whose it was, and it was taken home. Mrs. Bell feels very grateful to Mrs. Flannery for her kindness and thoughtfulness, in looking after her girl. It was about half-past eight when the child got home, tired out after her long walk. From what could be learned the youngster walked down to Driscoll Terrace and then took to the track and walked to Auburn, where it was found crying, and taken to Mrs. Flannery's house.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

Will be Inspected in Early Autumn

Owing to the fact that the Collegiate Institute was closed before the officers from Kingston visited Peterborough to inspect the 57th Regiment, there was no inspection of the Collegiate Institute Cadets at the close of the summer school term. There will, however, be an inspection in the early fall, likely a few weeks after the school opens for the fall term.

Should Call at Immigration Office

Mr. G. H. Howson Has Mail for Certain Parties Recently Out From England

Mr. Geo. H. Howson, immigration agent, would like certain parties who are supposed to have come to Peterborough or vicinity during the past few days, from England, to call at his office, corner of Water and Brock streets, as there is considerable mail matter awaiting them. The parties who are requested to call are Mr. B. Levy, who sailed on June 20th on the steamer Canada; Mr. Thos. Deason and family, who sailed on June 23rd, on the Pomeranian, and Mr. A. W. Laws and family, who set sail on June 19th on the Lake Champlain. If the foregoing parties will call at Mr. Howson's office they will hear something to their interest.

KNOX CHURCH

A congregational meeting will be held tomorrow (Wednesday) night to discuss the matter of certain interior alterations to the building.

On Thursday night there will be a strawberry festival, and the formal opening of the tennis courts.

DROPPED DEAD ON THE STREET

An Exciting Episode in East City Yesterday Afternoon

Mr. Robt. Routley, who conducts a bakery in the city, had the misfortune to lose a very valuable horse yesterday at noon. He was around delivering his bread. While he was in an East City grocery store taking an order, his horse was suddenly taken ill and in a few minutes was dead. Apparently the animal was all right when Mr. Routley left it, but, while he was in the store, the grocer noticed that the animal fell down. Mr. Routley and the storekeeper went to its assistance and at once began to detach it from the waggon. The animal seemed to be in great pain, and finally gave two kicks in the air and dropped dead.

Another horse had to be procured so that Mr. Routley could continue his delivery and a waggon from the Peterborough Fuel and Cartage Co. was sent for and the dead animal taken away and buried.

Mr. Routley cannot account for the sudden death of his horse. His loss will be in the neighborhood of two hundred dollars.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Long Journey for an Nonagenarian

Rev. Washington Morse Going to Florida to Reside

Rev. Washington Morse leaves tomorrow for Florida where it is his intention to reside in the future. He will travel by way of Chicago, and several other western cities and will also visit New York before leaving for Florida. Mr. Morse is ninety one years of age and will travel alone which is somewhat of a remarkable feat for a man of his years. He will reside with relatives in Florida.

THREE FACTS

For Sick Women To Consider.

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised.—Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

The Daily Review

TUESDAY, JULY 9, 1907

A GENEROUS GIFT

The city of Peterborough is, indeed, much indebted to the Nicholls estate and the executors thereof, for many generous gifts, in the way of public parks and public buildings. These donations are fully appreciated by the citizens, and are constantly pointed to with pardonable pride on the occasion of the visit of strangers and others.

Now another liberal benefaction has been made by Mr. Richard Hall, executor of the estate. At the city council meeting last night, Mr Hall announced that he would hand over the two large stores on Simcoe street, just west of the old Ontario Bank premises, to the corporation, as a home for the Peterborough Public Library. The only stipulation was that the city should change the front of the building and furnish it according to requirements, as well as maintain it in the future.

This outlay will not be heavy and Mr. Hall's offer was accepted with many expressions of thanks and appreciation.

The new quarters are in every way suitable for public library purposes They are on the ground floor, are conveniently and centrally located, and are easily accessible. The removal to the new building cannot be made too soon, and, in its enlarged and properly fitted up building, the institute should enter upon a career of increased usefulness and influence. The library will now be able to branch out. A proper reading room may be fitted up as well as a reference department, writing quarters, etc. In the old building everything has been in cramped, congested quarters, the stairs were difficult to climb, and the heating and sanitary arrangements were far from perfect.

The best asset that a city can have is a well educated, thoughtful and reading mass of citizens. At last the way seems opened up for the attainment, in a measure, of this ideal. The public library should now take on new life and be infused with fresh vigor. It should become a popular centre, and it is hoped that the city council will deal generously with the institution. The gift of a new building to the public library, is the second donation of the Nicholls estate, the first, a cheque for $10,000, having been handed over a few years ago.

Peterborough's public library should certainly become an active, aggressive institution, and the citizens will watch its future course with interest. It is expected also that a more generous and general patronage will be extended, and that the tastes for good, pure, uplifting literature, may be fully cultivated and developed.

PEN POINTS.

If you have not yet made up your mind where you will spend your holidays and when, it is about time you did so.

If there is one place in the city where a new concrete crossing is badly needed, it is on Hunter street opposite Chambers street. The chairman of the Board of Works should keep his eye on this spot.

The Galt Reporter says; "That Swimming Pool in Jackson Park is coming—and coming this year." —What about Jackson Park in this city providing the same kind of convenience.

And now that the big event—the Kirkfield lift lock opening—is over the next demonstration of importance will be the Orange walks at Havelock and Millbrook on Friday next.

Well, the new ministers have located here and have created decidedly favorable impressions. Rev Messrs Pearson and Coon are good pulpiteers, and earnest, convincing speakers.

After all, what's in a name! Galt has a Jackson Park, so has Peterborough; the Scotch town has a leading thoroughfare named Water street, so has this city. A few miles out of the Scotch town is Idyl Wyld, a pleasant picnic resort, while Peterborough can boast of the same attractive title for one of its retreats only a few miles away.

It is gratifying to learn that the city clergy are directing attention to the necessity of strict parental discipline and home government in the upbringing and training of the youth of Peterborough. There are many bad boys in the city, which the police court records bear evidence of and, if there was a more frequent application of the birch in some homes, it would do no harm.

The annual report on Provincial Lunatic Asylums just published shows 5,972 people in these institutions at the end of 1906, an increase of 124. An increase of $36,347.14 is shown in the total expenditure, of which $16,000 is due to the opening of the Epileptic Hospital at Woodstock. The population at Toronto Asylum has increased over 12 per cent. with a 10 per cent, increase in expenditure.

An Ottawa despatch says; "Nothing is known here of the statement from Vancouver that the immigration agent there would place a head tax of $25 on incoming Japanese as a means of preventing wholesale immigration of these people It is impossible to enforce such a head tax, which can only be imposed by statute. The only head tax in the statute is $500 on immigrant Chinese."

Peterborough needs cheap power and plenty of it. Some good water power privileges are now available, and the city council at its meeting last night, wisely decided that an application be made to the Hydro-Electric Power Commission of Ontario for the supply of Electrical energy for Peterborough and for the acquirement on behalf of the corporation, lands, water power privileges and other property and the construction of such work as may be required.

Speaking of a fourth of July flag incident, the Montreal Gazette says, —"At Erie, Pa., an angry mob tore down and burned a British flag which some foolish Englishman had hoisted on his residence. The verdict should be that the flag raiser was rightly served. He should have known better than to expose his property where it would excite destructive brain storms among the weak-heads of patriots bred on fourth of July orations." To the foregoing the Belleville Intelligencer very pointedly and pertinently observes: "All very well, friend Gazette. what would you say, if the United States citizens, who have sought homes in Canada, and who insolently flaunted the Stars and Stripes on the 4th of July in Winnipeg and the Northwest, were treated in a like manner! We venture the opinion that the Gazette would be the first to denounce the act It would not be found declaring they were "rightly served." There is too much of this pandering to Yankeeism in Canada."

WEDDING BELLS

HUTCHISON—O'DONNELL

A very pretty wedding was solemnized this morning at St. Peter's Cathedral by Rev. Father McColl, when Miss Ellen L. O'Donnell daughter of Mr. Patrick O'Donnell, of this city, was united in marriage to Mr. Wm. Hutchison, of Toronto. Miss Emma Phelan acted as bridesmaid, and Mr. J. O'Donnell, brother of the bride, supported the groom.

After the ceremony the bridal party drove to the residence of the bride, where a sumptuous wedding repast was partaken of.

Mr and Mrs. Hutchison will reside in Toronto.

The Natives of India Should Be Kept in Their Proper Place

If Petted and Honored They Become Dissatisfied, Dangerous and Insulting—Peterborough Boy Speaks of the Present Unrest in Hindustan—Outlook is not Reassuring.

Sergt. Instructor Gilbert Hall, of the Second Battalion, King's Royal Rifles, stationed at Jubbulpore, India, writes an interesting letter to Mr. W. H. Isaac, of this city. Sergt. Hall is an old Peterborough boy, and for the last six years has been stationed in India. He will return to this country in a few months and will probably locate in the West. He writes in an instructive manner about conditions in India, and says, in part;—

I have exactly four months to do here yet. I expect to leave Jubbulpore for Bombay on the last day of September to sail from there on the 5th of October, taking 21 days to reach England. There will be about eight days' delay in the Old Country, and 12 days from there to Canada, which will take us well on in November. I am looking forward to the time I leave here with great anxiety, so great indeed that the intervening four months will seem like an eternity. The heat here at present is terrific, 120 degrees in the shade, and simply blinding in the sun. It's really something awful. Whatever a white man wants in this country I can't tell. When I get in the boat at Bombay and hear the music of the throbbing engines forcing me from India's coral strand westward, I shall offer up the sincerest prayer of thanksgiving that ever penetrated the skies.

I heard from several sources about the severe winter they had in the Northwest. One chap wrote me that he had been living on crackers and jam for weeks, as the place was snowed up. Edmonton was the place, I think.

Have you heard about the state of unrest in India? There is a bad feeling out here, and has been for years, which everyone who knows anything at all, lays at Curzon's door He alone is responsible. These people have been conquered, and, if kept so, would be the most servile and grateful people in the world, but, if petted and honored in every whim, they soon become dissatisfied, insulting and dangerous. At the present time a sentry is over all the rifle ranks night and day. All civilians and volunteers are armed and have lots of ball ammunition. If they really do rise, God help them Kitchener won't stop, once he begins, until he has given them such a licking as they will never recover from as long as India is India, and it will change our attitude towards the natives forever. At present he is treated as almost an equal, which is a great mistake. He should be treated as a dangerous son of a conquered race. This is the only way to successfully deal with these people, and the sooner the authorities realize it the better. What we as English regard as fair play and courtesy, etc., are regarded by the native, educated and uneducated alike, as being signs of weakness and frailty. As I said before, I hope it does not develop into anything serious, as it might prolong my stay in the country, nearly six years of which is long enough, and much too long for a Canadian

Six Applications for Position of Engineer in New Fire Hall

Referred to Fire, Water and Light Committee—Carters' Shelter By-law to be Enforced—Delegates to Municipal Convention—Incandescent Lights on Hunter Street.

A lengthy session of the committee of the whole council was held last night, when several important matters were put through. All the members were present.

REMODELLING CITY HALL

Ald. McIntyre, chairman of the property committee, reported that all matters in connection with the remodelling of the city buildings, are at a stand still. Mr. Belcher, the architect, had as yet done nothing, and the chairman could not get him to do anything.

Ald Bradburn suggested that Mr Belcher be given a week to get the plans out, and that if he failed to do so, an architect from Toronto be brought down to work on both the city buildings and the new public library

It was moved that the matter be left in the hands of the chairman of the property committee and if he does not have the plans of the building ready and complete by next Monday, that the plans of the property committee, recommended several weeks ago, be adopted and carried out. Ald. Johnston seconded it.

The motion was lost on a vote of six to seven.

Ald Leary spoke in favor of Ald. Bradburn's suggestion and suggested that the chairman of the property committee get another architect from Toronto.

The matter was finally referred to the property committee.

MUNICIPAL MEETINGS.

The mayor brought up the matter of sending delegates to the annual meeting of the Dominion Municipal Association. The council always has sent one or more delegates to these meetings. The Dominion Association meets in Port Arthur in August this year, and the Ontario Association in Toronto.

It was moved by Ald. Bradburn, and Ald Leary that the mayor be sent to the Dominion Association meeting in Port Arthur.

Ald Elliott said that so far as the Dominion Association was concerned it was not worth anything to the city and he would not support the motion He moved in amendment that no delegate be sent. There was no seconder and the motion was carried.

In regard to the Ontario Association it was moved by Ald. Stevenson that the mayor and city clerk be sent to Toronto to attend the Ontario Association's annual meeting

His Worship suggested that one or two of the older members of the council, or who are holding down the chairmanship of the important committees be sent.

Ald Stevenson added to his motion the names of Ald. Johnston and Ald. Tovey, as the senior members of the council. With this addition, which was seconded by Ald. Bradburn, the motion carried.

MORE INCANDESCENT LIGHTS

Ald Morgan said that while he was at the fire hall the other night the firemen requested him to ask the council to have an incandescent light placed on Hunter street bridge and one opposite St. John's church. They say that it is very dangerous when driving down there in the dark.

This was referred to the fire, water and light committee.

CARTERS' SHELTER.

It was moved by Ald. McIntyre, and Ald. Elliott that the Police Commissioners be asked to amend their bylaws, so that the carters in the city can be forced to not use any public highway as a carter's stand.

This motion was carried, as the council had gone to expense in fitting up a carters' shelter at the carters' request.

APPLICATIONS FOR ENGINEER

In response to the city's advertisement for an engineer for the fire department, on the road roller, and firemen in the city buildings, the following applications were received;

J. H. Barkwell, Dalhousie street.

S. T. Wainwright, salary, $700 a year

George Jewell, 180, Charlotte-st.

F. T. Couthope, recently from Germany, at salary of $780.

E. A. James at salary of $575.

Geo Jamieson, 291 Townsend-st.

Moved by Ald. Stevenson and Ald Morrow, that the matter be referred to the fire, water and light committee, to engage a temporary engineer, and make a recommendation to the council at its next meeting. —Carried.

Moved in amendment by Ald. Phelan and Ald. Morgan, that the city re-engage Mr. Wainwright, if he will accept the salary he got before, viz., $600.

The amendment was lost.

Negotiations for Purchase of Peterboro' Light and Power Co.

Have Been Suspended—Company Refuses to Accept the Ruling of the Hydro-Electric Commission

The negotiations entered into some months ago with the Peterborough Light & Power Co. for the purchase of the electric light business has fallen through. The company refuse to go any further with the matter, unless the Ontario Hydro-Electric Power Commission agrees to sanction any agreement entered into by the council and ratepayers and the company. This, of course, is out of the question, so far as the power committee is concerned, and such a recommendation was made to the committee by the whole council.

The special power committee has done a lot of work, and they made a report to the Council, which is printed below. Ald. Stevenson stated, after reading the report, that the Council pass a resolution asking the Hydro-Electric Power Commission to furnish the city with electric power. This will result in the commission sending out their engineers to make an examination of the water powers in this vicinity, and the price which would have to be paid for same, and what the city would would have to pay if buying electric power from one of the existing companies. This information will be accurate and the city will then be in a good position to decide what action to take.

The report was as follows;—

Your Special Committee on the purchase of the business of the Peterborough Light & Power Company beg leave to report and recommend as follows;—

After the passing of the legislation authorizing the purchase by the city of the business and assets of the Peterborough Light & Power Company, and the acquirement of water privileges for the purpose of developing electrical power, your committee requested Mr. Larmouth to furnish the balance of the information regarding the assets of the Company, which had been promised in January, as stated in the previous report of this committee. No reply was received until April 25th, when a letter was forwarded by the Company to the effect that the Company would like to know, before giving any further details on what terms the city will be allowed to purchase the plant by the Hydro-Electric Commission, to the approval of which the purchase had been made subject by the Legislature

In consequence thereof this committee applied to the Hydro-Electric Commission for a conference, and on May 10th forwarded to the Hon. Adam Beck, chairman of the Hydro-Electric Commission, statements of the situation and of the negotiations to that date. On May 17 your committee interviewed Hon. Mr. Beck and were assured by him that, while the Commission could not lay down in advance the terms of the proposed valuation, it did not desire to interfere with the conduct of the municipality, and would not withhold its approval unless the agreement arrived at should be one that would be manifestly improvident or where, by ignorance or improper influences the Council has been induced to enter into an agreement clearly contrary to the interests of the people.

Your committee thereupon informed the Company of the position taken by the Commission, but on May 28th your committee were informed that the Company would not re-open negotiations unless they received satisfactory assurances that the Hydro-Electric Power Commission would sanction the purchase if it was approved of by the City Council and ratepayers.

Your Committee pointed out that for the commission to take such a course would be not only unreasonable, but clearly illegal, and that, in our opinion, the Commission had gone as far as it could possibly be asked to go towards meeting the view of the Company at this stage. The Company have, however, adhered to their position, and if they continue to do so negotiations of the character hereto carried on are necessarily at an end. Your committee had hopes that a personal conference with Mr. Robert Stuart might overcome the difficulties that had arisen, and delayed taking any further steps for this reason during the past month.

Your committee are of opinion that, while the negotiations for the purchase of the Peterborough Light & Power Company are thus at a standstill, it is of the utmost importance to the city that steps should be taken to secure, through the authority of the Hydro-Electric Commission, the development of a water power, and of the necessary works for the purpose of supplying power to manufacturers and residents of this city at the lowest prices consistent with sound business principles, and that this work should be undertaken by the City Corporation.

Your Committee therefore recommend as follows;—

1. That an application be made to the Hydro-Electric Commission for the acquirement of a water privilege and the construction of the necessary work and the transmission and supply to this city of electrical power and energy.

2. That this committee be authorized to take such steps as may be found necessary for the carrying out of such application.

Moved by Ald. Stevenson, seconded by Ald Bradburn, that the Mayor and clerk be authorized to apply under the seal of the corporation, to the Hydro-Electric Power Commission of Ontario for the transmission and supply of electrical power or energy to the corporation of the city of Peterborough, and for the acquirement, on behalf of the city, of such lands, water privileges and other property, and the construction of such works as may be required therefor.—Carried.

Auditors Report City's Finances

Debenture Net Debt is Only $371,902—Report is Very Favorable

The auditor's report for 1906, of their examination of the city's books has been completed and handed to the City Council. The report shows the city to be in a very good financial position and the following figures will be well worth careful consideration.—

AUDITOR'S REPORT.

The auditor's report for the year 1906, has been completed and handed to the City Council. They reported the books in all the city's departments as being well and accurately kept, and also the bonds of the various officials were in regular order.

WATER COMMISSIONERS.

The Water Commissioners accounts show an increase from consumers of $2,786; net revenue now being $31,089.83, and a surplus of $6,938.54, making the special fund $16,870.07.

CITY TRUST COMMISSIONERS.

A conservative valuation of the city's assets shows a surplus of $189,960.33 over the liability of $820,892.95, which was the gross amount of the debenture debt at the end of 1906.

The following table shows the assessment and debenture debt for the last seven years,—

Year	Assess.	Deb. Debt.
1900	$4,393,245	$ 286,045
1901	4,533,735	335,271
1902	4,597,490	581,222
1903	4,721,320	598,759
1904	5,498,189	657,156
1905	5,874,264	735,465
1906	6,658,410	820,892

A glance at the above figures shows that while the assessment has increased by a little over 50 per cent. the gross debenture debt is nearly three times as large as in 1900.

This, however, does not represent the real facts of the financial position of the corporation, as the following deductions would need to be made to arrive at the real increase in the city's liability,—

Sinking funds in the hands of the City's Commissioners, $119,139.

Surplus in hands of Water Commissioners, $37,851.

Water Works valuation $292,000.

This makes a total of $448,990, leaving the city's debenture debt at $371,902.

HOW MONEY WAS SPENT.

Public schools	$ 100,095
General purposes	251,004
Local improvements, general tax	62,453
Local improvements, frontage tax	115,340
Waterworks	292,000
	$820,892

A Noted Gang of Counterfeiters

Broken up—Leader Arrested in Lindsay With Apparatus

Lindsay, July 8.—Charles Burke, a resident of this town for many years, was arrested this afternoon by Dominion Detective Parkinson, of Ottawa on the charge of being the head of the gang which for some time has been flooding the country with counterfeit five dollar bills of the Montreal, Dominion and Traders' Banks. Detective Parkinson is as dumb as an oyster over the arrest, but from other sources it is learned that the Dominion police have been watching Burke for some days. The presence in town last week of Commissioner Sherwood, ostensibly on a holiday trip, passed unnoticed, except by a few intimate friends but even to them the suave chief of the Dominion police was an enigma. Parkinson was unknown to Lindsay folk, and the fact of his remaining behind did not excite unusual comment. It appears that when Col. Sherwood had located his man he left Detective Parkinson to draw the meshes around the victim. Parkinson, in addition to landing Burke, secured the complete photographic outfit with which it is alleged he had been producing the goods. In this respect Burke has worked differently to the Decker and Johnson gangs, who years ago gave trouble to the banks. Decker in his day was one of the ~~best~~ engravers on the continent, and it was difficult to distinguish the bills which he produced from the genuine article. The only trouble which he experienced was in securing the proper kind of paper. The counterfeits which Burke is alleged to have issued are poor compared with previous imitations. Not only has the been handicapped by lack of bank note paper, but he had to use photographs of the bills, the results being somewhat crude. However, it was easy to part with the bills in rural districts. Twenty or thirty would be floated in a small village or town in one day, and then the distributor would skip, with the result that hundreds were in circulation in two or three weeks. Burke picked up three or four men around this town to help him with the job. These men scattered, some going east and some west.

Dominion Detective Parkinson, of Ottawa was in Peterborough several times since he has been working on the case, but the slick men did not stop here at all.

THE CHIEF HAS A FEW.

Chief Rozzel has now in his possession about $40 worth of Bank of Montreal bills that are bogus and which were circulated here about a year ago. Detective Parkinson also got some of the bills here.

BIRTH

CLARKE.—In Peterborough, on July 9th, 1907, to Mr. and Mrs. F. Clarke (of the G.T.R.), a daughter.

THE STORE THAT NEVER DISAPPOINTS

84th ANNEX

WEDNESDAY July 10th

OPERATIONS in the "Rebuilding" are going along rapidly—store crowding more pronounced than ever—(in fact we can safely say congested, without enlarging on the truth in the least.) Fact is, we MUST take as many customers to the upper floors as possible—If bargains will do it—**here goes**—

$4.50 Camp Beds complete, with springs and mattress In the Annex for 2.98

We wish to ask the indulgence of our patrons for the slight inconvenience and discomfort they may experience this Annex Day in the way of a disarranged store, etc, but we hope to make up for any such in greater values than ever on the 4th Floor—away from the noise and confusion caused by the workmen tearing down and rebuilding on the ground floor.

Cressman's

Was in the Same Car as Man Who Met His Death

Mr. Isaac Eastwood Had Exciting Experience in Wreck on C.P.R. Near Kenora—Received Slight Injuries.

To be in a head-on collision between two passenger trains, in which twelve were killed and thirteen injured, was the unpleasant experience of Mr Isaac Eastwood, who returned to Peterborough Friday night, after spending some time in the vicinity of Kenora, where he has several mining interests. The wreck, it will be remembered, took place on the C.P.R. at Butler, near Kenora, on Friday, June 28th. Two passenger trains collided with terrific impact. Ten Chinamen, who were travelling on one train, were killed, and a Jap, who was riding in the same car as Mr. Eastwood, also met death. The total number of dead was twelve, while thirteen were injured. Mr. Eastwood was in the smoking compartment when the accident occurred. When the engineer noticed the other train approaching he applied the emergency brakes, with the result that those on board were thrown violently ahead by the sudden stopping of the train, and then sent grovelling on the floor again by the impact of the collision when the two trains met. The Jap who was killed was in the same car as Mr. Eastwood. A brakeman, who was standing on the platform between two cars had a miraculous escape from death. Two coaches were driven into each other when the collision took place yet, strange to say, the brakeman was dug out from the mass of twisted timbers with only a couple of slight injuries. Mr. Eastwood was slightly injured but was able to assist in rescuing those who were more unfortunate. He has now fully recovered but does not wish to go through the same experience again.

Revival in Mining in Lake of the Woods District

Mr. Isaac Eastwood has returned home from Northern Ontario, where he spent several weeks in connection with mining matters. He has an interest in the Wyndigo gold mine, which is situated on Fish Bay, Lake of the Woods, about 22 miles from Kenora. The company in control of the mine is being organized, and it is the intention to work up the property much more actively than has been done in the past. Mr. Eastwood brought back with him to Peterborough several lumps of gold, which were presented to him by Mr. Fred. Pfau, C.E., who is in charge of the mine, and is one of shareholders in the company. The gold from the Wyndigo mine has been pronounced by experts to be of excellent quality, as was evidenced by the fact that three small lumps, which Mr. Eastwood showed the Review, are valued at about $50. Two shafts have already been sunk on the Wyndigo property, one 120 feet deep, and the other 104 feet deep. Operations are going on actively at present, and the reorganization of the company means that everything is going to go right ahead.

Mr Eastwood states that there is a great revival in the mining industry in the Lake of the Woods district. Properties that have not been worked for several years are now being opened up, new equipment is being put in, and many new strikes of the precious metal in the vicinity add to the interest. It is being shown that the country is much richer in mineral wealth than was at first recognized. Mr. Eastwood looked over many of the mining properties in the vicinity, and states that the Wyndigo mine is the richest in the district.

Mr. Eastwood spent some time at Kenora and speaks highly of the progress that town is making.

HEAVY FROST DOES DAMAGE

Mr. W. Stabler Speaks of Injury Done in Harvey Township

Mr Wm. Stabler, cattle buyer, returned last night from a week's trip to the back country, spent principally in Harvey township. Mr. Stabler told a story of the damage frost had wrought through Harvey and in certain parts of Smith, which seems almost improbable, in the month of July. He says that there was a heavy frost a week ago last night and considerable damage was done to the crops in the back country.

Mr Wm. Chesney, a Government official at Scott's Mills, which is three miles north of Buckhorn, says that on Tuesday morning last, the frost was quite thick around there. Small apples were frozen on the trees, also the potatoes and even the raspberries on the bushes. The hay also suffered. As Mr. Stabler was driving through the country, it was quite evident that there had been a heavy frost, as the leaves of the cedar and basswood trees had been destroyed. Without exaggeration Mr. Stabler said he had to put on his overcoat and mitts last Wednesday night, as it was very cold driving.

This is rather remarkable for this time of year.

BASEBALL

A meeting of the City Baseball League will be held on Thursday night at eight o'clock, in the Y.M.C.A. parlors. All the clubs are urgently requested to have representatives present.

DECORATION DAY

The beautiful custom of decorating the graves of departed brethren will be continued by Independent Order of Oddfellows of Lindsay this year, on Thursday, July 18th.

LAID TO REST

The remains of the late Israel Scott, whose death occurred in Winnipeg a few days ago, took place yesterday afternoon at [illegible] o'clock, from the residence of his brother, Dr. Scott, Hunter street, to the Little Lake cemetery. Rev. J. R. Webb conducted the funeral service. The following gentlemen acted as pall bearers:—Dr. W. D. Scott, Robert, Jas. and Alex. Scott, Percy Edmison and Wm. Scott.

A VETERAN OF THE CIVIL WAR

Capt. Stewart is Paying His Annual Visit to Peterboro'.

Capt. F. T. Stewart, who has charge of a company in connection with the National Military Home, at Dayton, Ohio, is in the city, on his annual visit to his sister, Mrs. A. C. Dunlop, corner of Water and Murray streets. Mrs. Brown, sister of the captain, is also here on a visit. Capt. Stewart is in charge of about 200 disabled volunteer soldiers at the National Home at Dayton. There are nine homes altogether and at Dayton alone there are 5,000 veterans. The Home is well supported by the Government, and is one of the finest institutions in the United States. Capt. Stewart was in 1863, on the famous march with General Sherman, from Chattanooga, Tenn., to the sea, and he went through some twelve or fifteen fights, when Sherman carried all before him. In 1862 the captain was wounded in the battle of Cedar Mount, Virginia under General Banks, when he was shot through the thigh of the right leg. He was all through the U.S. Civil War and can relate some thrilling experiences.

Mr. McCullough, of Trenton, was killed by a train near Brighton, while driving over the G. T. R. tracks.

More Details of Roundup of Counterfeiters at Lindsay

Alleged Counterfeiters Are Arrested by the Police.

Charles Burke Apprehended at Lindsay and Two Canadians in Sault Ste. Marie—Plant Is Located—Hundreds of Spurious Bills Found—Men Believed to Be Working Together.

Lindsay, July 10.—No further arrests had been made here up to a late hour last night as a result of the arrest of Charles Burke here and R. Wynn and A. Bryean at Sault Ste. Marie on charges of circulating counterfeit notes of the Montreal, Dominion and Traders' banks.

Detectives Parkinson and Cowan of Toronto are still here, however, and several citizens are under surveillance, pending, it is said, the rounding up of a gang of counterfeiters. At Montreal a young Englishman named Eveley was taken in by the police, but his partner, Bob Logie, well-known here, escaped and is said to be across the line.

Charles Burke, aged 60, reputed to be worth $15,000, and a life-long resident of Lindsay, who was arrested at his home on Monday, is supposed to be the "man behind." Yesterday his home was searched, revealing dies, a photographic outfit, bank bills, paper and all the necessary equipment for an expert counterfeiting establishment. Several other houses in the neighborhood were also searched, when the bunch of bills and other pharphernalia were found.

A Man of Mystery.

Burke has been a mysterious quantity in this town for several years. He was in the saw mill business up the river for some time. The mill was burned down 15 years ago, and since then Burke has been accumulating a bank account, and the citizens have wondered at his apparent prosperity.

The story that leaks out now is that several years ago a citizen had a fake counterfeiting machine, which so interested Burke that he wanted to go into business with the man, guaranteeing to pass the bills if he would make them, not knowing that the machine was a fake. Shortly after this he took up the study of photography, and was known around as an expert photographer.

Four years ago Bob Logie came on the scene, and at the same time bogus Bank of Montreal bills were circulated in Lindsay, but no trace of the counterfeiters was found.

During the last three years it has been the custom of Burke and Logie to go west for the summer, and it will be remembered that during these periods vivid reports of counterfeit money in circulation came back from the west.

This year, it is supposed, the gang contemplated the biggest coup that had yet been attempted. Wynn and Bonyea were sent to the west to cover the ground formerly covered by Burke and Logie, while Eveley and Logie were to work in the east, and Burke was to remain in Lindsay, working all the smaller towns in the surrounding counties. At present there is a lot of bogus money in circulation throughout the country.

Twelve years ago three men named Murphy were convicted for making bad money and it is alleged that Burke had some connection with this gang.

Burke will come up for preliminary trial on Monday next.

Caught In the Act.

Sault Ste. Marie, Ont., July 10.—Richard Wynn and Arthur Bonyea were taken into custody on the American side of the river on a charge of circulating counterfeit money in the form of $5 bills of the Traders' Bank of Canada. When arrested Bonyea had $900 of the spurious currency in his possession and Wynn $75. The arrest followed an attempt made by Wynn to pass a bogus bill at the store of Baldwin & Besner, where he made some purchases. The bill was soon questioned and the police were notified, with the above result. The men were brought to the Canadian side of the river and lodged in the cells.

Upon appearing before the magistrate they acknowledge the charge and stated that they had procured the money from Burke of Lindsay.

The men, who are both over 60 years of age, were remanded for eight days.

Workmen Injured.

Montreal, Que., July 10.—The caving-in of the earth of the foundation of a building being erected at the corner of McGill and St. James streets resulted in serious injury to two men yesterday morning. Superintendent Allen and two workmen were buried. Allen had his arm and several ribs fractured. Alex. Gaul was taken out unconscious.

Hon. Mr. Hannah is Watchful; Has Cut Off Liquor Supply

Government Take Action in Regard to Cobalt Strike.

Hotels Must Not Sell—Express Companies Not to Carry Liquor—Penalty Will Be Cancellation of Licenses—Special Officers Appointed—Struggle May Be Prolonged—Miners and Lemieux Act.

Ottawa, July 10.—Mr. F. A. Acland, Secretary of the Labor Department, left for Cobalt at noon yesterday to explain to the striking miners there the provisions of the Lemieux act. The miners are evidently under the impression that the act does not apply to silver and other metaliferous mines. The act, however, compels investigation by a board of conciliation and investigation before a strike or lock-out can take place in any mine. Mr. Acland will endeavor to induce the strikers to apply for a board of conciliation and return to work pending its findings.

Hon. W. J. Hanna had a telegram from J. J. Finlan, mayor of Cobalt, and Foreland Reeves, chairman of the committee, yesterday, asking, on account of the strike, if the Provincial Secretary could prevent the express companies from carrying liquor to the station until the strike be settled. The hotelkeepers at Haileybury and Latchford, it was stated, had promised not to sell any liquor in packages.

The Government, Mr. Hanna said, had taken the matter up with the T. & N. O. railway commission and the express companies operating, and had urged that no express packages whatever containing liquor be forwarded pending the settlement of the strike.

The Government also gave instructions to the license commissioners in the district to see to it that the hotels at New Liskeard and Latchford do not sell any package liquor.

Should the hotels be found contributing to drunkenness the commissioners are so to report, and the licenses will be suspended or canceled.

The action of the Government is due to a fear entertained that the supply of liquor to the miners on strike might lead to serious mischief, and would seem to indicate that the struggle is likely to be a severe one.

It is definitely stated that the owners of Cobalt mines have banded together and have already taken steps to enlist the aid of the Ontario Government in settling the strike of miners.

Frank Loring, who arrived from Cobalt yesterday and waited upon the Attorney-General, is credited with being the representative of the mine owners.

Mr. Loring says that the Government is expected to provide protection further than a special favor of constabulary, and that the owners have determined that they will not recognize the union of miners and will employ whoever they choose. Many of the men would return to work if they were given protection. He says the men have practically gone out in a body in every mine, but the Foster. He considers the agitation is largely the work of miners from the Western States.

It is estimated that about 2,000 men have quit work, and in local brokerage offices the outlook is regarded as serious.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

Rev. Reginald Campbell says Britain could end the Congo horrors in a fortnight, by simply refusing coal to all the ships carrying Leopold's ill-gotten wealth.

Bobbie Kerr, of Hamilton, broke two records at the Penman games on Saturday.

MILLIONS ON NEW SHIPS

Russia Intends to Spend $15,500,000 in War Vessels.

To Be Spread Over Period of Four Years—Emperor's Prerogative Enlarged—Female Assassin Sentenced to Death—Strike of Agricultural Laborers at Kiev—May Use Military Force.

St. Petersburg, July 10.—The Council of Minister has authorized an unusual expenditure of $15,500,000 from 1908 to 1911 for the construction of new warships and their armaments.

Imperial Prerogative Enlarged.

St. Petersburg, July 10.—An enlargement of the Imperial prerogative was announced yesterday in a decision of the Council of Ministers to add the frontier guards to the army and navy as being a force beyond the competence of Parliament to interfere with.

Woman Rebel Sentenced.

Moscow, July 10.—Mme. Fromkina, who in March last attempted to assassinate Gen. Rheinbot, the ex-Prefect of Police, and who on May 13 made an attempt to murder the inspector of the political prison here, wounding him with a pistol which had been mysteriously smuggled into her cell, was yesterday sentenced to death.

Farm Laborers May Strike.

Kiev, Russia, July 10.—A big strike of agricultural laborers is being prepared. The governor threatens to have recourse to military force if necessary to meet the situation.

ABSCONDER A LUNATIC?

Plea That May Be Entered on Behalf of Runyan.

New York, July 10.—That a plea of insanity may be the defence of Chester B. Runyan, the paying teller of the Windsor Trust Co., who is charged with defaulting with $96,000 of the Trust Co.'s funds, was indicated by his counsel when Runyan was arraigned in court yesterday.

On behalf of Runyan, his counsel entered a plea of not guilty of the charge of grand larceny, and asked for an adjournment until Monday. He said he had been informed that the prisoner's maternal grandmother had died in an insane asylum, and that Mrs. Runyan believed her husband's mind was affected.

Another Arrest.

New York, July 10.—Late yesterday the police arrested Harry Kirkstein, a telegraph operator, 22 years old, on a charge of acting with Mrs. Laura Carter in receiving and disposing of $5,000 stolen from the Windsor Trust Co. by Chester R. Runyan.

Penalty for Defrauding Government.

Baltimore, Md., July 10.—A sentence of two years in jail and a fine of $10,000 were yesterday imposed upon John H. Seward of the fruit importing firm of J. H. Seward & Co. of this city.

He defrauded the Government by increasing the weight of decayed fruit on which there was a refund of duty of one cent a pound.

Support Bond.

London, July 10.—(C. A. P.)—The Scotsman has an able article on the deadlock on the Newfoundland question, supporting Premier Bond and pointing out that while the position demands conciliatory action on either side, Britain has hitherto conceded more than the United States.

Will Continue Legation.

Rio Janeiro, July 10.—The Chamber of Deputies yesterday rejected the amendment to the Foreign Office budget, suppressing the Brazilian legation to the Vatican.

The Hudson Bay steamer Mount Royal, plying on the Skeena River, was wrecked in Kitsalas Canyon, B. C., six of the crew being drowned.

TWO PRISONERS ESCAPE.

Guard's Inattention Gave the Captives an Hour's Start.

Whitby, July 10.—Albert McKeown of Nebridge, and M. J. Ryan, who are serving long sentences in the County Jail here, escaped yesterday afternoon, and although the sheriff and county constables have searched the neighborhood, no trace of the getaways has been found.

McKeown is about 20 years of age, and has a record. He has broken jail before and is an adept at the job.

The prisoners were taken out in the jail yard to work. The turnkey left them for a little while, and both took advantage of his absence. They got an hour's start before the officers were after them.

Ryan is about 35 years of age.

BOURASSA RESIGNS.

Will Organize and Lead New Party in Quebec Province.

Montreal, July 10.—Henri Bourassa, who has attracted so much attention in the House of Commons the last session, announces his resignation as member of Parliament, his intention being to organize and lead a new party in this province. This party, it is claimed, will take in a very large proportion of the Conservative element, and will, in addition, have strong support from a certain section of what have ordinarily been accounted a portion of the Liberal wing.

Whale Washed Ashore.

Victoria, B. C., July 10.—A whale has been washed ashore at Cordova Bay, near here. The leviathan is at present lying close to the beach, and is an object of interest to all in the district. Dr. Fingan, provincial health officer, yesterday morning notified City Sanitary Inspector Wilson to have the carcass removed, and the later official yesterday afternoon at the bay engaged upon making preparations for his difficult task.

Too Much Monopoly.

Ottawa, July 10.—Hon. Mr. Templeman, acting Minister of Marine, denies the charge of the Marconi Co. that the contract rights of that company with the Government are being violated or infringed. The Government is not willing to admit the monopoly claimed.

Mrs. Annie Besant Elected.

London, July 10.—Mrs. Annie Besant has been elected president of the Theosophical Society.

She will visit America and other countries before returning to the headquarters of the society in India.

Bitten by Snake.

London, July 10.—Geo. Flanagan, wholesale butcher, was stung by a snake last week while crossing his place in Westminster, and he now lies in a precarious condition at his home.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Sunday School Had Big Picnic

George Street and Grace Methodist Churches Went to Idyl Wyld

The picnic of the Sunday schools of George street Methodist and Grace Methodist church to Idyl Wyld yesterday was a decided success. The str. Otonabee was chartered for the day, and the teachers and officers of the schools were well pleased with the accommodation it afforded. There were between 400 and 450 passengers on board when the steamer left the street railway wharf at half-past eight in the morning. The weather was ideal for such an outing and the trip down the river was very pleasant. The children thoroughly enjoyed themselves, and as the boat is so well guarded they could run around without any danger of falling overboard. The picnicers arrived at Idyl Wyld about 11.30, and dinner was at once prepared, as everybody had a good appetite.

After luncheon a programme of races was run of, with the following results:—

Primary Dept., Girls—Margaret Bulmer

Primary Dept., Boys—Archie Mebarry.

Boys 10 and under—Cliford Lowes

Girls 10 and under—Olive Regan.

Boys 13 and under—Harold Hatcher.

Girls 12 and under—Beatrice Marks

Boys 15 and under—Chas. Walsh.

Girls 15 and under—Eva Outram.

Young Ladies' Race—Miss Roseborough and Miss Ivy. Tied twice.

Three-Legged Race—Roy Dixon and Leslie Stevens.

Young Men's Race—W. McGuire.

Boot Race—Herbert McCrae.

BASEBALL.

One of the chief features of the day was a baseball game between the Sunday schools of George street and Grace church, which resulted in a victory for the latter. It was a good close game, however, and it furnished a lot of sport for everyone. The score was; George street, 4, and Grace church, 5. The teams lined up as follows;

George street—L. Stevens, c; H Mulhern, p and 3b.; N. Thompson, p and 2b; H Hill, 1b; H. Outram, 2b; D. Pierson, ss; C. Marks, lf; A. Metheral, c; N. Saxby, rf.

Grace church—R Parnell p; F. Hawkins, c; A. Green, 1b; N. Patterson, 2b; L. Gilgour, ss; R. Dixon, 3b; N Gilgour, rf.; R. Allison, c; H. McCrae, lf.

During the day a strong wind was blowing aross the lake and the wind was too high for any of the boys to go out for a fish, or even to go in for a swim. But then the sports provided by the teachers made up for this.

It is reported that one young lady who left her lunch basket, in what she considered was a safe place, had it stolen by a couple of Indians, who, when discovered, made for the lake and paddled off with it.

A PICNIC THAT WAS ENJOYABLE

Mark Street Sunday School Had Merry Time at Gore's Landing

"The most successful ever held was the verdict of everyone who attended the annual excursion and picnic of Mark street Sunday School to Gore's Landing yesterday. Over 175 participated in the trip and the attendant merry making and everyone had a delightful time. The steamer Monarch carried the excursionists and Gore's Landing was reached a few minutes after twelve o'clock. Well filled baskets formed a part of the Monarch's cargo, and the trip down the river had given everyone a good appetite. The result was that dinner was one of the most enjoyable events of the day. There were things too numerous to mention and they were disposed of with a relish. After dinner a good programme of sports was carried out, and caused much interest. The results were as folllows,—

Boys' race, five years and under—1, Harry Wright; 2, Roger Matchett.

Girls' race, five years and under—1, Elva McIntyre; 2, Roberta Rightmeyer.

Boys, eight years and under—1, Edward Castle; 2, Jas. Dixon.

Girls, eight years and under — 1, Iola Matchett; 2, Edna Pientill.

Boys, 12 years and under—1, Lorne McIntyre; 2, Charlie Telford.

Girls, 12 years and under—1, Roxie Castle; 2, Pearl Brintin.

Boys, 16 years and under—1, Albert Crowe, 2, Horace Coon.

Girls, 16 years and under—1, Myrtle Coon; 2, Maud Stevens.

Young Ladies' race—1, Miss Lily Crowe; 2, Miss Bessie Crowe.

Young men's race—1, Ken Throop; 2, Ward Gamble.

Young married women's race—1, Mrs. J. Smith; 2, Mrs. M. W. Matchett.

Elderly married women's race — 1, Mrs. Stewart; 2, Mrs. Coon.

Wheelbarrow Race—Lorne McIntyre and Willard Coon.

Teachers' race — 1, Miss Bessie Crowe; 2, Mrs. Matchett.

The prize for the largest family on board the boat was won by the new pastor, Rev. C. H. Coon, with a family of eight.

The return Trip was also much enjoyed, Peterborough being reached shortly after eight o'clock.

Those in charge of the picnic deserve great credit for the excellent arrangements made, and the successful manner in which everything was carried out.

CRICKET

MATCH ON SATURDAY.

It is probable that a cricket match will be played on Saturday between the old-time crickeers and the present Peterborough team. The contest will come off at the Nicholls Oval, and it is expected that such old-timers as G. W. Hatton, R. B. Rogers, Sam Ray, J. H. Burnham, Dr. Burnham, Wm Hartley, and others will turn out

baseball

Many New Walks Laid in Norwood

School Board Held Meeting—Visitors in the Village

Norwood, July 10.—The Board of Education met on Monday evening, the following members being present; Messrs. J. L. Squire, chairman; Campbell, Finlay, Drain, Brackenridge, Doherty, Webster, Elliott, Stevenson, Cuffe and Harrison.

The chairman reported that the Public school assistant teachers had signed agreements to teach another year at $375.

As there were no applications for properly qualified teachers, it was decided to continue the ads. until teachers could be procured.

The estimates for 1907 were laid before the Board by Mr. Finlay, chairman of the finance committee, showing amounts required, for public school $2,533.00 and High school $800.00

It was decided on motion to put a new furnace in the High School in place of the old wooden furnace.

A committee was appointed to look after the building of cement walks for the schools.

The supply committee was authorized to purchase a car load of soft coal for the furnace in the Public school.

ACCOUNTS

The following accounts were ordered to be paid;

J. E. Roxborough, insurance, $30.

K. G. Thomson, ads. for teachers in Toronto papers, $4.00.

The work of laying cement sidewalks has been commenced by the corporation. The contractors have started on King street at the school and the work will be pushed forward as quickly as possible.

An up-to-date concrete mixer, worked by gasoline power, will be employed, thereby assuring uniformity in the cement used. Walks this year will be laid on King-st., and from the school to the Metcalf block.; on Peterborough and Belmont streets, and north as far as the C.P.R. station.

A FINE DWELLING.

The work on Mr. I. N. Ackerman's new cottage on Ridge street is nearing completion. When finished Mr Ackerman will have one of the most up-to-date and perhaps the finest finished residence in the village. In the inside finishing he is using largely the choicest and costliest Canadian lumber in the natural grain, which when finished in hard oil and polished, will give on very rich and attractive appearance to the interior of the house. The outside is of pressed brick and looks very handsome from the street.

PERSONALS

Mr A. B. Richardson and family of Tilsonburg, are visiting friends in town this week.

Mrs. P. W. Reynolds and sister, Mrs T. Dunnigan, of Warkworth, returned last week, after a month's visit in Chicago.

Mrs. Kelly, of Port Huron, is visiting Mrs. Will Richardson.

Mrs I. D. Moore, of Peterborough is visiting her parents, Mr. and Mrs G J. Searight.

Mr and Mrs. Tucker of Indian River, spent Sunday with Mr. and Mrs McNealy.

Miss Annie Burkell, of Toronto Junction is home for holidays.

Miss Flora Adams, of Smith, is visiting her old friends.

Miss Mary Kirkpatrick returned on Monday from the Summer School at Chemong Park.

Miss Nellie Jones is visiting in Colborne.

Miss Gledhill left on Tuesday for her home in Oakville.

Mr. M. R. Callendar spent a few days in Tweed last week.

Miss Beatrice Foster, of Ingersoll is visiting her parents, Mr. and Mrs D. Foster.

Christ Church Sunday School held their annual picnic in Grover's woods last Wednesday.

Mr. Charlie Herrington is visiting Mr. Jno. Forsythe

Mr. J. L. Squire went to Ottawa today.

Mr Jack Sherry, of Toronto, is visiting his father, Mr. G. Sherry.

Mr. Alva Freeman spent a few days in Peterborough last week.

Mr. and Mrs. Andrew Graham, of Westwood, spent Sunday with Mr. and Mrs. T. McMillan.

Miss Nellie Buck of Chicago, is visiting Miss Grace Reynolds.

BUDGET OF NEWS FROM KEENE

Keene, July 10.—Mr. Harry Cruikshanks, of Toronto, is visiting Mr. William Campbell.

Mr and Mrs. Charles Lough, of Cavan, visited at Mr. Mark Plunkett's on Sunday.

Miss Fife, of Bridgenorth, is the guest of Miss Maud Eason.

Mr William Nelson, Cadillac, Michigan, is visiting friends in Otonabee.

Miss Margaret Pigeon, of Toronto, is the guest of Mrs Mark Plunkett.

Mrs. Rae is visiting at Mr. John Taylor's.

Miss Mabel Curtis, of Cavan, is the guest of Mrs. Mark Plunkett.

Miss Mary Gall, Mrs Wm. Mathers and Miss Minnie Howson, attended Summer School at Chemong last week.

Dr. Fairbanks and a party from Cobourg, spent last week on Lower Foley Island.

Mr Alan Drummond, of Winnipeg is home on a visit to his father, Mr James Drummond.

Professor Doxee, of Albert College, Belleville, was the guest of Rev. Mr. Harrison, last week.

Masters George and Willie Read, of Peterborough, are visiting at Miss H. Read's.

Miss Bessie Read, and Miss Nellie McCrae, visited friends in Asphodel on Friday.

A party of Port Hope fishermen camped at Grape Island last week. They report excellent fishing.

Mr Harry McLachlan captured a twenty pound lunge near Foley Point last week.

Rev Mr. Harrison spent last Thursday in Chemong, where he attended the Summer School.

Miss Bessie Baker and Mr. James Baker, former residents of Keene, but lately of Ohio, are visiting in the village and renewing old acquaintances.

Mr and Mrs. Roach, of Locust Hill, visited last week at Mr. Thomas Wedlock's.

Mrs (Dr.) W. T. Harrison and Miss Mabel Harrison left last week for Winnipeg, where they intend spending a couple of months.

COULD NOT PLACE BOMB.

Orchard's Testimony Again Contradicted By Two Witnesses.

Boise, July 10.—There were few spectators in the courtroom when the trial was resumed yesterday. The day began with the testimony of J. W. O'Reilly, who lived near the Bradley apartments. O'Reilly declared he had passed the apartment-house but a few minutes before the explosion, and saw a Japanese servant cleaning the stoop and vestibule. He did not believe it was within the range of possibility for anyone to have placed a bomb there in the manner indicated by Orchard in the time which elapsed between his passing and the report of the explosion.

The next deposition taken up was that of Mrs. Charles Pickard, who, as Mrs. Crow, had been employed by the Bradley's as cook. She told of having smelled gas in the house for several days prior to the explosion and had called up the Gas Company to complain of it.

Mrs. Crow denied absolutely that she had gone to the theatre with Orchard, as he had testified.

Haywood is expected to be called on Thursday.

The defence in the Steunenberg murder case yesterday charged that Detective James McPartland has been guilty of an attempt to manufacture testimony against Wm. D. Haywood, but was unsuccessful in getting the basis and details of the charge before the court and jury.

Alva A. Swain, a newspaper correspondent, who represents The Pueblo Chieftain at Denver, was called to the stand and questioned as to a conversation he had with Detective McPartland in Denver last fall.

It is claimed by the defence that McPartland told Swain that he had a letter from Harry Orchard saying that when Haywood paid him for the Vindicator job he took him to one of the Denver banks to draw the money and that when they came out of the bank Swain was standing at the door and saw them. It is said that Swain told McPartland that he could not remember the incident, whereupon McPartland impressed him with the importance of it as evidence and significantly urged him to recall it and become a witness in the case.

Detective McPartland denies that he ever suggested anything improper to Swain.

TRADE WITH AUSTRALIA.

Returns Show Imports From Canada Increased By $350,000.

Ottawa, July 10.—The Department of Trade and Commerce has received a report from J. S. Larke and D. H. Ross, Canadian trade agents in Sydney and Melbourne, Australia, respectively.

This year's harvest in Australia will probably be below the average owing to the dry weather. Good prospects for developing a good leather trade with Australia are reported, provided Canadian firms will devote sufficient attention to the Australian market.

Canada's trade with Australia shows a satisfactory increase. Australian imports from Canada last year totaled £303,751, an increase over the preceding year of over $350,000. The increase was principally in textiles, drugs, apples, paper, spirits and vegetables. On the other hand, Canadian exports to Australia decreased in lumber, agricultural implements and fish, Canada's imports from Australia totaled last year £72,688, an increase of about £30,000 over the preceding year. The principal increases were in meats, butter, wool, tin and cocoanut oil.

Canada imported butter to the value of over $15,000 last year from Australia.

Old Warrior Takes Warpath.

Galveston, Tex., July 10.—The old Apache warrior Caronimo, who terrorized the southwest for many years with his bloodthirsty band, while attending a celebration at Cache under parole as the guest of the Comanche Chief Quanah Parker, made an attempt to escape across the Texas Panhandle into New Mexico. He was captured several hours later. The old warrior had heard of the troubles of the Apaches in Arizona, who, according to reports, have threatened to go on the warpath, and says he wanted to go and help them fight.

Roblin Protests.

Winnipeg, July 10.—At the session of the railway commission, which opened yesterday morning, Premier Roblin took the stand and protested vigorously against the Grand Trunk Pacific line passing through the Agricultural College grounds.

He claimed that it would be detrimental in every way to that institution.

Yesterday afternoon the commission visited, with the Premier, the college grounds.

Bank Clerk Surrendered.

London, July 10.—(C.A.P.)—James Stewart Cather, bank clerk, has been remanded on a charge of absconding with $6,500 belonging to the Bank of British North America. He surrendered on Monday, telling the detectives he was sorry he left Canada, as he has been worried ever since.

Shot Himself.

Thorold, July 10.—Andrew Fairlie, a retired farmer and an old respected resident of the town, took his life yesterday morning by means of a revolver. He had been in very poor health for several months.

Two Killed In Wreck.

Mobile, Ala., July 10.—In a rear-end collision on the Mobile and Ohio Railroad near Whistler, between a passenger train and a light engine, two men were killed and two injured.

Charged With Assault.

Belleville, July 10.—Philip Ketcheson, conducting a business at Tweed Village, was yesterday committed for trial on a charge of assaulting two little girls.

New Transvaal Flag.

London, July 10.—Botha and the Colonial Office have approved the new Transvaal flag, which is vieurkleur with the Union Jack corner.

The loading pier and machinery of the Dominion Coal Company at Wabana, Nfld., were burned.

SAILOR ROCKED BOAT.

Result Three of Its Occupants Were Drowned.

New York, July 10.—Three members of the crew of the steam yacht Yacona, belonging to Henry Clay Pierce, of St. Louis, were drowned in the Hudson River early yesterday, when a small yawl, carrying six of the Yacona's crew and a dockman, was capsized by a sailor who rocked the boat. Four of the party were picked up by a passing tug. No traces have been discovered of the three missing men, and the police are convinced that they are drowned. They are Rudolph Johnson, Frederickson and Herman Von Borsen.

The Yacona came into port Monday after a week's cruise in Long Island Sound, and Captain McDonough gave several of the crew shore leave. Six of the Yacona's crew came down to the landing at Eighty-sixth street early yesterday after an all-night frolic, and hailed the Yacona for a launch. There was no answer from the yacht, and in their anxiety to get aboard the sailors induced Appleman, a dockman, to take them out to the Yacona. The dockman wanted to divide the party and make two trips, but against his warnings, all six piled into the yawl, and started for the steam yacht. Several times during the trip Appleman warned his boisterous passengers to remain quiet, as their movements threatened to overturn the craft. Within a dozen boat lengths of the Yacona one of the sailors gave the yawl a violent lurch, and she capsized, throwing all seven men into the water.

Appleman succeeded in not only clinging to the keel of the overturned boat, but also assisted three of the sailors. All four were finally picked up by the tug which had been attracted by the shouts of the men. The crew on board the Yacona hearing the cries of distress threw a powerful searchlight over the waters and lowered a boat to search for the three missing men. No traces of them could be discovered. The police also searched the river without result.

Henry Clay Pierce, the owner of the Yacona, is chairman of the board of the Waters-Pierce Oil Company, of Missouri.

AT BISLEY CAMP.

Canadian Put on Some Good Scores In the Early Matches.

Bisley Camp, July 10.—(C.A.P.)—Lord Mountstephen has subscribed £10 towards the fund being raised to send a British rifle team to Canada and Australia.

In the Gregory match yesterday, seven shots at 200 yards Staff-Sergt. A. Graham of the 48th scored a possible 35. Staff-Sergt. H. Kerr of the 48th 31.

In the Alexander Martin, seven shots at 800 yards, Thomas Mitchell, 12th York Rangers, scored a possible 35. Lieut. B. E. Converse of the 7th Hussars, Barnston, Que.; Capt. C. M. Mitchell, R. O., Winnipeg, and Pte. A. B. Mitchell of the 48th, 34 each.

In the Armorers', seven shots at 900 yards, Lieut. J. M. McVittie of the 48th, Capt. C. M. Mitchell and Major O. W. Wetmore of the 74th, Clifton, N.B., scored 33 each out of a possible 35.

Pleaded Unwritten Law.

London, July 10.—A Canadian named Silas Ludlam, residing in Hounslow, pleaded the unwritten law when charged with assaulting a man named Tanner and damaging his house. Tanner denied using disparaging remarks concerning Miss Ludlam. The defendant, who behaved with great violence in court, was fined £5.

GUNS FOR JAP WARSHIPS.

Big Orders Were Placed With German Firm.

London, July 10.—The Berlin correspondent of The Daily Mail say that Admiral Yamamoto's naval commission, which has just left Germany, placed a big order with the Krupps for 12-inch guns for the new Japanese Dreadnoughts, which are being built in Japan and England. The order will take nine months to complete.

It is stated that it was given in Germany because the British works are already working to their full capacity to turn out Dreadnought armament for British and foreign ships. As many as 120 12-inch guns are now being built in England. The Japanese commissioners found that the British gunmakers had not expanded their plants proportionately to the demand for big guns created by the general adoption of the Dreadnought armament, while the Krupps, within two years, have enlarged their plant at Essen by extensions costing $15,000,000, and increased the staff from 24,000 to 30,000 men.

Engine Turned Over.

Cobalt, July 10.—Between Englehart and Earlton, on the northern extension of the T. & N. O. Railway, there are several bad stretches of muskeg, which have given great trouble to the railway.

As a result of the heavy rains, a short distance from Earlton, a portion of track sank yesterday morning, when a pulp wood train was going over it. The engine turned completely over, and the engineer, Thomas Gould, was buried under his engine.

The deceased was a popular resident of New Liskeard, and leaves a wife and two children and a sister there.

Traffic was delayed several hours.

No Bail for Schmitz.

San Francisco, July 10.—Judge Dunne yesterday refused to admit Mayor Schmitz to bail and denied him the privilege of visiting his attorneys. Schmitz appeared in court to ask for bail and to answer the indictments charging him with accepting bribes from the gas company and the United Railroads. In the first he failed.

The second was a formality and was carried through without incident.

Australian Sugar for Canada.

Ottawa, July 10.—The Australian correspondents of the Department of Trade and Commerce have written that the Commonwealth is contemplating the sale of its surplus sugar in Canada under the preference.

Australia produced last year 204,000 tons of sugar.

StopsHeadache

Zutoo, the Japanese headache cure, is a friend in need.

Don't without a trial, condemn it as something that will hurt you.

Taken when you suspect a headache, it will ward it off. Taken later it will cure the headache in twenty minutes. In every case it will leave you feeling good. It is harmless as the soda which is one of its ingredients.

If it does not do all that is claimed for it, then discard it. But don't confound it with the drug cures and condemn it without a trial. That isn't fair to

PETERBOROUGH MERCHANTS HIT

Poor Shipping Facilities Between This City and Kawartha Lakes

A serious state of affairs has developed in the shipping facilities between this city and Stony Lake points. Mr. E. F. Mason complains that he was being greatly inconvenienced and has lost business and money through the carelessness of either the Grand Trunk or the Trent Valley Navigation Co.

Last Friday morning Mr. Mason received an order for fruit and general provisions from an old customer at Boschink. He was asked to send it up at once as they had nothing in the house to eat. The order was made up and left on the noon train for Lakefield. The steamer Majestic met the train and according to a letter received by Mr. Mason a couple of days later the boat was not permitted to take the goods from the Lakefield station to Boschink on account of the "shipping bills or something" having been lost. The boat went off without the goods.

In the afternoon the steamer Stoney Lake went up the lakes from Lakefield and they claimed that there were no goods at Lakefield for the party at Boschink. On July 8th a second letter was received by Mr. Mason stating that the goods had not yet arrived and that nothing was known of their whereabouts, unless they were still sitting in Lakefield. If so the fruit is spoiled and Mr. Mason may loose the trade of his customer who has been with him so long.

This is a serious matter, not only to Mr. Mason, but to every grocer in the city. If the G.T.R. or the Trent Valley Navigation Co., do not intend to give a better service than this or if there is any intention to favor the Lakefield or the lake stores against the Peterborough merchants who hav always done a fair business in this way the Retail Merchants Association should investigate.

Dock Was Struck by a Steamer

Wharf at Chemong Village Was Knocked to Pieces

The wharf at the Chemong Indian village was completely destroyed the other day by the steamer Ogemah. The dock has been built for some years and has had to be repaired on several occasions, but it was ruined so that it will be of no further use. A new wharf will now have to be built. There was a great crash when the steamer struck it, and about fifteen people standing on it, had to move some to get away. The timbers and lumber went floating down the lake. The Government officials have promised to send a boat around there on Friday and have a new wharf constructed.

Come to the Strawberry Festival at Knox Church Thursday Evening. An Excellent Programme Will be Rendered. Admission Free.

ON CHARGE OF POCKET PICKING

Trial of Four Men Will be Heard This Afternoon

C. H. Phelps, Harry Goldfarb, Henry Lewis and Ray Bradford, the four young men charged with picking pockets on Circus Day, June 25th, were again arraigned before His Worship Magistrate Dumble this morning in police court.

Messrs. F. D. Kerr and G. N. Gordon appeared for the defendants.

"Are you ready to go on with the preliminary hearing, Chief," asked his Worship.

"Well, the Crown Attorney is not here, and last evening I received a telephone message from Provincial Detective Greer, who asked that they be remanded for another week," replied Mr. Roszel.

At this Mr. Gordon arose and stated that it was quite unfair for the crown to ask for another remand. The wife and mother of one of the prisoners are here. To postpone the trial any longer meant a great expense to them. Bradford's child is dangerously ill in the hospital and his mother came here to be with him in his difficulties. She cannot stop long as she has to return to his sick child. There is no reason why the preliminary hearing should be further delayed. The crown is simply scouring the country to scrape up past records which will not be used at the preliminary hearing.

Mr. Kerr also, on behalf, of the defendants appealed to the magistrate's sense of fair play. These men, he said, had been remanded one week by the crown, and then the second week, and now, because the provincial detective had telephoned, another remand is asked. Mr. Kerr did not think a telephone message from the provincial detective was sufficient to order a remand. He thought the order should come from the crown prosecutor. Out of fairness to the defendants, the preliminary hearing should be proceeded with.

Crown Attorney R. E. Wood is out of the city, and Chief Roszel would not take the responsibility on his hands of proceeding. Mr. Wood would be back most likely by noon and it was agreed that the preliminary hearing be commenced at two o'clock this afternoon.

DRUNK AND DISORDERLY

Wm. Richards, an old timer in police court matters was charged with being drunk and disorderly last night. He was remanded for one week, and will be company to his wife, who was given a month in gaol a short time ago.

ADAMS **LADIES' FURNISHING STORE** ADAMS

A HUMMER IN SUMMER WASH SUITS

FOR

FRIDAY AND SATURDAY

Going away this Summer or stay at home? Don't matter—these cool Wash Suits will suit you whatever is your plans. NO doubt you will wonder how we can afford to sell smart, new suits at the price. The manufacturers certainly wont make much, neither will we.

Just 60 Women's Wash Suits, worth $3.50, Friday and Saturday Your Choice **$2.38**

A few hours "hurry-up" shopping should clear them all. The only people who are going to make any money out of these suits are the women who buy them. Remember—Friday and Saturday, sharp at 8.

HARRY ADAMS

393 GEORGE STREET

Colonial Weaving Co's. By-law Should be Largely Supported

Will be Voted on Tomorrow—If it Carries it Means the Erection of a Large Plant Employing a Hundred or More Hands—Peterborough Wants All the Factories it Can Get.

To the Editor of the Review.

Sir.—During the past few days several communications have been published by the local press from parties who are opposed to the Colonial Weaving Co. bylaw to be voted on tomorrow. In the council meeting on Monday night a couple of the aldermen spoke in opposition to it, although they did not state their reasons so far as I can make out, and I believe that it is a personal matter on their part. In answer to some of these communications, kindly allow me to state a few facts, that are facts, on behalf of the company.

The only concession the company is being given is a free site upon which to erect their factory, and a fixed assessment for the full present value of the lands upon which the company's buildings will be erected.

Under the bylaw the company are bound to erect a suitable brick building at least sixty feet wide by two hundred feet long.

The company are futher bound, within one year to install in such building thirty thousand dollars worth of machinery.

The company are further bound to constantly employ at least sixty hands. The present plans of the company would require at least one hundred hands to operate the new machinery which they propose to install.

There is no reason why this should not be given the same aid that has been extended to other factories locating in Peterborough, but even under the present bylaw the company are not being extended the same treatment as has been extended to others, in as much as they have to pay school taxs for full assessed value of their land and of the new buildings which it is proposed to erect.

More favorable terms have been offered by other towns to the company than are being granted by Peterborough. It is only the loyalty of the shareholders of the company to Peterborough, that is inducing them to resist the tempting offers of other towns. That spirit of loyalty in our citizens should be encouraged rather than discouraged, especially when it means bringing in $50,000 of new capital.

Signed, RATEPAYER.

ROLLER RINK

The roller rink will be open tomorrow afternoon and evening, also on Saturday. Band will be in attendance at night.

WILL PICNIC AT JACKSON'S POINT

Annual Outing of Quaker Oats Employees on Monday Next

The fifth annual excursion of the employees of the Quaker Oats Company will be held on Monday next, July 15th to Jackson's Point, a beautiful resort on Lake Simcoe. A special train will leave the G. T. R. station here at 8.45 in the morning and go direct to the Point. Returning the train will start at six o'clock in the evening. It is expected that large number of friends and citizens will accompany the employees. There will be an interesting programme of sports and games, including two baseball matches, one between the flour and the oatmeal mills, and the other between the office staff and packing department. Tickets will be sold at $1.25 return, children 65c.

The committee in charge of the arrangements is composed of Messrs. W. H. Denham, chairman, M. J. Kirn, Geo. Carruthers, O. C. Callandar, A. Miller, G. P. Edwards, T. J. Grant, W. Walsh, J. E. Sullivan, E. Pakenham, J. Taylor, F. White, and P. Gardiner. This outing of the Quaker Oats Company's employees promises to be the most enjoyable ever held and a good time is assured everybody at Jackson Point on Monday next.

Peterboro' Man Again to the Fore

Mr. W. J. Nesbitt Gets Important Appointment at Fort Pierce, Florida

The Fort Pierce News, Florida, refers to the appointment of an old Peterborough citizen, Mr. W. J. Nesbitt to an important place in the affairs of the County of St. Lucie, and says,—"W. J. Nesbitt this week received notice that his appointment had been made to fill the unexpired term of the late Dr. C. P. Platts as superintendent of public instruction for St. Lucie county. This notice came from the Secretary of State, and as soon as Mr. Nesbitt's bond is approved, his commission will be forwarded and he will enter upon his duties as superintendent. This will be nothing new for him, as he has performed the duties of that office, during the illness of Dr. Platts, and is familiar with the details. Mr. Nesbitt had previously been chairman of the Board of Instruction, and had held the position for several years."

THE SOCIETY IS THANKFUL

The following letter of appreciation for the grant of $1,000 has been sent by the Children's Aid Society to the Trustees of the Nicholls Estate;—

July 10, 1907

Richard Hall, Esq., Trustee of the Mrs Nicholls Estate:

Dear Mr Hall,—In behalf of the Children's Aid Society I wish to express to you our profound gratitude for the gift of $1,000 from the Mrs Nicholls fund. We may lose our Shelter at any time, and this sum will be of great help in enabling us to provide for the future in that respect. In the past 15 years we have taken over and put in homes fully 300 dependent children, not counting, of course, the much larger number protected and assisted. Although still very much in need of capital for Shelter purposes, we welcome your third donation as a good, solid beginning.

Again thanking you on behalf of the Society.

I am, sir,

Yours respectfully,

J. H. BURNHAM,

President C.A.S.

BORN

BILLINGS.—On Saturday, July 6th, 1907, to Mr and Mrs. Geo. Billings, 20 Lisburne street, Peterborough, a son.

Mining Company Will be Formed

To Operate the Wyndigo Mine Near Kenora—Meeting Held Yesterday

A meeting of several local gentlemen who are interested in the Wyndigo gold mine, near Kenora, was held yesterday afternoon, when a report was received from Mr. Isaac Eastwood, who has recently returned from a visit to the mine. Everything was so satisfactory that the gentlemen have decided to form a company and will apply for a charter at once.

The Rainy River district is a most promising one and, while Peterborough gentlemen were too late to get in on the ground floor at Cobalt, the interest in mining in the city is increasing, and it looks as if the men here will make some money around Kenora. Ottawa and Toronto men made fortunes at Cobalt, and Peterborough men are adopting the same plans here.

THE PROVINCE WILL PROSECUTE

Attorney General to Proceed Against Gang of Counterfeiters

Special to the Review.

Toronto, July 10.—Col. Percy Sherwood, head of the Dominion Secret Service, was in consultation with the Attorney-General at the parliament buildings this morning in connection with the arrests at Lindsay, Ont., and Sault Ste. Marie, Mich., on charges of counterfeiting of a number of men.

He asked that the Attorney-General's department assume charge of the case, with a view to its centralization and trial. This was consented to. Col. Sherwood will place all his information at the disposal of the Provincial Department.

Two Dollar Fine for an Assault

In The County Police Court yesterday, Jos. Brown, was fined $2.00 and costs for assaulting Fred Sedgwick of Douro township on July 2nd. The dispute that led to the assault arose over a misunderstanding regarding wages which Brown claimed were due him. Magistrate Edmison succeeded in settling the dispute, Sedgwick agreeing to pay Brown $24.

PYTHIANS PROGRESS

Membership Shows Increase During Year of Nearly 21,000

Mr. S. A. Oke, of Marathon Lodge, K. of P., is in Toronto, attending the annual grand lodge meeting of the Knights of Pythias.

On recommendation of the credential committee a large number of the past chancellors, had the grand lodge rank conferred on them.

The report of the grand keeper of records and seal showed a membership in the supreme domain of 671,162, an increase for the year of 20,928 with 7692 subordinate lodges, an increase of 191.

The grand master of the exchequer reported the finances in a healthy condition with a good surplus.

NOTICE

A meeting of the Oddfellows of Peterborough is called for this evening at 8 p.m., to make arrangements for the funeral of our late Bro. W. D. Hamilton, of Peterborough Lodge No. 111. Funeral at Lakefield on Thursday at 3 p.m.

C. F. BROWNE, N.G.

Peterborough, July 10.

OLD RAILROADER EXPIRES

George Scryver, Napanee, is dead, aged 85 years. He was an employee of the Grand Trunk Railway for 48 years. He ran the first engine going over the line from Kingston to Cobourg, and which was brought from Montreal to Kingston on a barge. He never lost a day from illness and was never reprimanded.

Has Been Priest for 25 Years

A London despatch says,— Bishop McEvay of London diocese, formerly of Peterborough, celebrated his 25th anniversary of his ordination to the priesthood yesterday. Priests from all over the diocese were present, and presented His Lordship with a golden cross and a gold ring. Mgr. Mounier of Windsor made the address and presentation, which took place at the Sacred Heart Convent.

Vote on By-Law

TO AID THE

Colonial Weaving Co.

Property owners and other qualified electors are reminded that a vote will be taken on, Thursday next, July 11th, 1907, on a By-law to aid the Colonial Weaving Company by giving them a site costing $3,500 and a fixed assessment for municipal purposes for that sum for ten years.

Y.M.C.A. Campers Leave To-morrow

Will Spend Two Weeks Under Canvas at Sandy Point

The following boys and leaders will go to Sandy Point to the 10th Y.M.C.A. camp to-morrow, Thursday, leaving on the noon train:—G. H. Williamson, E. Dingman, A. Bravender, G. Manning, L. Stevens, David Hatton, Ed. Halton, N. McAllister, W. Browett, F. Patterson, D. Layfield, Thos. Arnott, cook; E. Cross, E. Thornton, C. Thornton, A. McIntosh, W. Eastwood, J. Eastwood, W. H. Saxby, Chas. Webb, E. Doxee, G. Horeley, W. Percy, W. Fortye, W. Stratton, Reg. Stratton, G. Minorgan, B. McConnell, A. McConnell, G. D. Martin, W. Stevenson, O. Dean, G. Jobatt, B. Mills, M. Hartley, W. Flowers. This is the largest party for three years. Several others are going in addition to those named.

Mr. W. S. Maguire to Have Charge

Of the Y.M.C.A. Building During the Next Fortnight

During the absence of Messrs. Williamson and Dingman at the tenth Y.M.C.A. Camp, Mr. W. S. Maguire, late physical director of the Y.M.C.A., at Revelstoke, B.C., will be acting secretary of the Association. As many Y.M.C.A. members are unknown to him, all members are asked to be prepared to show their tickets if requested to do so. The Association is fortunate in being able to secure Mr. Maguire's services for these two weeks.

Tweed Man Sent Down for Trial

The case of Philip Ketcheson, of Tweed, who is accused of criminally assaulting two little girls, named Mabel Arbuckle and Edith Beatty, was yesterday advanced a stage, when the accused was committed for trial at the next court of competent jurisdiction, says the Belleville Intelligencer.

No further evidence was heard to-day but argument in the case was presented by Mr. Carnew, on behalf of the accused, and by Mr. Anderson, on behalf of the Crown. At the conclusion of the argument Magistrate Masson committed Ketcheson for trial. He was subsequently liberated on furnishing bail.

COME ONE, COME ALL

ANNUAL OUTING.

The annual excursion of Charlotte Street Church Sunday School is being held down the river today on the steamer Otonabee to Idyl Wyld.

AT JACKSON PARK.

There was a large crowd at Jackson Park last evening, in attendance at the band concert and moving pictures. The music and pictures were greatly enjoyed, although the evening was a little chilly.

AT ST. PAUL'S.

Rev. Dr. Ross of Erie, Penn., will occupy the pulpit in St. Paul's church at both services on Sunday next. During the remaining Sundays in July, the services will be conducted by Rev. Mr. Currie of Forest, Ont.,

LINDSAY'S RATE.

The Finance Committee of the Town Council, met last night and struck the rate for the year's taxation at 29 1-4 mills on the assessment. The estimates had been prepared by the Clerk, and were carefully gone over, before the rate was fixed.—Lindsay Post

NEW PAVILION.

Work has been started on the new pavilion which is being erected by the East End Cottagers' Association at Crowe's Landing, Stony Lake. It will be located on the brow of the hill, near Mr. McKelvie's Boarding House, Belvidere.

HALF DAY TRIPS

Do not forget the half day trips to Idyl Wyld and return every Thursday and Saturday per steamer Otonabee (or Water Lily). Leaves Wolfe street wharf at 1.30, calling at street railway wharf. Return at 8.30. Return tickets, 50 cents.

WOMAN DROWNED.

Mrs. Margaret Hill, of Brighton, fell into her cistern on Sunday, breaking through the covering, and was drowned before help could reach her. Mrs Hill was 68 years of age. She was a member of the Methodist church, and was of a quiet, retiring disposition, and somewhat of an invalid.

A HANDSOME HOUSE

A Toronto architect has prepared the plans for a house to be built at New Liskeard, for Mr. Thomas McCamus, formerly of Bobcaygeon, at a cost of $10,000. The building will be constructed of brick and stone, and will have a slate roof, and will be finished in hardwood throughout.

CIVIC HOLIDAY.

The annual civic holiday of Peterborough will be observed this year on Monday, August 12. There will be several excursions to various points by water, but none by rail as the railway companies, according to the new regulations decline to offer excursion rates on that date. The annual regatta at Stoney Lake will also be held on Civic Holiday.

CONGREGATIONAL MEETING.

A congregational meeting of Knox church will be held this evening, when the matter of erecting a gallery at the west end of the edifice will be discussed. Trustees will also be elected, the interest of St. Paul's congregation in the Knox Church building and property, having recently been transferred to the latter congregation.

A HEAVY STORM.

The Port Hope Guide says; A heavy electrical storm passed over here this morning. The lightning was very vivid and was followed by loud peals of thunder, which made the timid ones very uneasy. The rain fell in torrents and there were regular rivers on each side of the street. The barn owned by Dr. R. A. Corbett, and situated near the electric light plant, was struck by lightning. Part of the roof and the end were torn off, and the whole structure was badly splintered.

A GENEROUS ACT.

A prominent business man of the city has been represented by proxy at the past three Y.M.C.A. camps. His plan is to pay the expenses of some worthy boy who otherwise could not go, and he takes a great interest in searching for the one who is most deserving and who will be the most benefitted. There could be no better expenditure of money to give a boy a good outing, bringing to him such multiplied benefits on all sides of his make-up. The example of this business man is worthy of imitation.

IMITATION OF VOLCANO.

There was a very fair imitation of a volcano in eruption on Notre Dam avenue, near Donald street, yesterday afternoon. Some incautious Galicians having uncovered a gas main, in order to make connections with a nearby building, uncoupled a joint. There was an immediate burst of flame, which singed their moustaches, hair and eyebrows. The flow of gas blazed fiercely until the foreman succeeded in smothering the flames. The two victims were assisted to a house, and their injuries, which are not serious attended to by Dr. Elkin, after which they proceeded to their homes. It is said a lighted cigarette ignited the escaping gas. The injured men were Jacob Wasiski and Wasyl Esoboy.—Winnipeg Free Press.

St. Luke's Congregation and Sunday School Excursion takes place on Thursday, July 11th to Idyl Wyld per steamer Otonabee. Boat leaves Wolfe St. wharf at 8.15 Ashburnham at 8 30. Return fare Adults 50 Children 25c.

PERSONAL

Mr Walter Alexander, of Madoc, was in the city yesterday.

Mr Murray Nichol, of Hanover, Ontario, is in the city.

Miss K. Menzies is spending a couple of weeks' holidays at Stony Lake

Mr John Pattee, of Dunnville, is spending his holidays in the city and at Chemong.

Miss E. Melville, of R. Fair's & Co's. is spending two weeks at Stony Lake and other points.

Mrs. W. H. Dunstan is visiting friends in Peterborough and Keene.—Bowmanville Statesman.

Mrs. J. Clarke, of Toronto, is visiting her sister, Mrs. J. Thorndyke, 234 Murray street.

Mr. William Johnson of Belleville, district inspector of weights and measures, is in the city.

Mr. J. C. Shook was in Port Hope yesterday attending the meeting of the Peterborough Presbytery.

Mr. and Mrs. Pritchard and family, of Peterborough, visited Mr. R. Ashton, of Haydon, last week.

Mr. Harry Roddy, of Fort William, formerly of Peterborough, is spending his holidays in the city.

Mr. W. H. Meldrum and family have taken up their residence at Cairn Dhu, Stony Lake, for the summer.

Several young ladies entertained their gentlemen friends to a picnic at Jackson park last evening and a very enjoyable time was spent.

Mr. and Mrs. H. Taylor have returned home to Toronto, after spending a few days with Mr. and Mrs. Henry, 43 Homewood avenue.

A number of young people were entertained last evening to a dance at Chemong pavilion by several gentlemen of the city. A very enjoyable time was spent.

Mr. J. Robert Laing, of the Sovereign bank, Westmount, Montreal, who has been visiting his parents, Water street, returned last evening to resume his duties.

Mrs. J. B. LaRocque and Mrs. J. Morin of Montreal, who have been the guests of Mrs. R. G. Gordon, Perry street, left this morning for Toronto, where they will visit, Mr. B. LaRocque, C.P.R. conductor. They were accompanied by Miss Jeanne LaPlante, this city.

Mr. and Mrs. R. J. Winch leave tomorrow for their summer home "Yarrowbrae," Stony Lake. They will be accompanied by Mrs. Pentland and the Misses Irene, Vilo and Aggie Pentland and Miss Olive Johnson, of Montreal, a grand daughter of Mr. Winch. The party leave on the noon train and no doubt will have an enjoyable outing.

RYE'S Canoe and Boat Livery

Buy Your Strawberries Now Prices Will Not be Any Lower

Despatches From Niagara District Urge Merchants to Buy Now—Berries Will Last Only a Week Longer—Crop is Small—Cherries Will Also be Short.

It will be interesting to housewives to know that they will not get strawberries this year any cheaper than the prices charged now. Despatches from the fruit districts state that strawberries will only last another week, and the merchants are urged to place their orders at once. The consumers in turn are advised to get their berries for preserving now, or they will lose the opportunity.

The following letters have been received by Mr. E. F. Mason from the Niagara district, the greatest fruit belt in Ontario;

From E. D. Smith, Winona;—Good berries are as low now as they will be this season, and will only last for about another week. Orders for preserving berries should be placed at once. The high prices this year are due to the injury which the plants received in the spring from late frosts, when the early blossoms were cut off entirely.

CHERRIES LIMITED

Cherries will be picked in limited quantities, and as the crop of sweet cherries is also very light, the prices on these will rule high also.

From E. L. Semmett, Beamsville.—This will be the lowest price this season for strawberries, and you had better place your canning order now. My buyers are in the best patches early every morning, and will fill your order with the finest stock and the least possible delay.

So far this year the shipments of strawberries from the fruit districts to Peterborough have been very small less than one quarter the number of crates are being received and there is not much chance for getting any material increase. The berries that have been received are for the most part very good quality, but have been sold mostly in small quantities for table use. The people are holding back, expecting the late crop to come in heavy as in previous years.

It is evident that the fact that there was no early crop, the late crop being sold now, has been lost sight of.

As stated in one of the despatches the early berries were practically all killed by frost and the later varieties would have been, had the weather not kept them back. It is, therefore up to the housewife, who wants to preserve strawberries to purchase this week, as the supply will run out in a few days.

Caught Big Lunge With Hands And Pulled it Into Boat

Fishing is getting mighty good around Peterborough when ten-pound lunge can be caught by hand and pulled into the boat. Don't believe it, eh? No matter. That's just what happened in Little Lake last evening and the fish can be produced to prove the truth of this statement.

A few evenings ago Mr. A. J. Longland loaded a canoe with scrap iron and some other useless material and towed it out into the lake with the intention of upsetting it and dumping the contents into the lake. The load was too heavy, however, and canoe and all sank to the bottom. Last night Mr. Longland and Mr. Herb. McMillan went out in a boat to see they could raise the canoe that had gone down. While engaged in this work they noticed a large maskinonge floating around near the surface of the water, and occasionally bobbing up above the surface. They tried to hit it with a stick, but were not successful. The big fish disappeared for a time but later, appeared so close to the boat that Mr. Longland was able to catch it with his hands and pull it into the canoe.

Needless to say the two gentlemen are very proud of their capture. They had caught a ten-pound lunge when they weren't fishing, and did it without hook, line or anything else, except their hands. The lunge is a beauty. It is about three feet in length and weighs slightly over ten pounds.

Trustees of Nicholls Estate Make Many Large Donations

Churches, Y.M.C.A., Y.W.C.A., Children's Aid Society and Every Sunday School in the City Included—General Expressions of Gratitude are Heard.

One of the largest gifts for public purposes, and one which will have probably a more general effect than any other, is that made by the trustees of the Nicholls Estate. The list provided, in addition to the gift to the city of a public library building, the following donations;—

$5,000.00—Nicholls Hospital for current requirements.

$3,000.00—St. Andrew's church for repairs and new gallery.

$3,000.00—St. Paul's church for rebuilding the organ.

$2,000.00—Y.W.C.A.

$2,000.00—Y.M.C.A. for repairs to building.

$1,000.00—Children's Aid Society.

$300.00, or $150.00 to each Sunday school for library purposes.

There are seventeen Sunday schools and the total of all donations amounts to $20,800.

All the institutions included in the gift are badly in need of assistance, not for ordinary running expenses and general work, but for special purposes, and the money donated is to be used for purposes specified in the above list.

One of these items, the gift of $300 or $150 to every Protestant Sunday school in the city, will be appreciated beyond expression. There are seventeen Sunday schools in the city, and every one of them is facing some difficulty, viz., the need of a new library. The school children are generally great readers, and the books provided by the Sunday school libraries very helpful to them, and this gift of over $4,000 will be of benefit to every child in the city who goes to Sunday school, as the libraries are all as free to the poorest child as to the child of the rich. There are seventeen Sunday schools in the city and some of them will receive $300 and some $150, making a total of $4,800.

The gift of $1,000 to the Children's Aid Society is another exceedingly worthy donation. The Shelter is doing a noble work in this community and many children, who, if left in their home surroundings, would become useless citizens, are reclaimed and placed in homes where they develop into men and women creditable to the country. It might be mentioned here that, while the trustees of the Nicholls Estate have been generous with the Children's Aid Society, it is by no means the intention that all other contributors should cease to help the work. Too much money cannot be subscribed for this work, and donations of $1.00 and upwards will be as heartily welcome as before.

The gift also includes $2,000 for repairs to the Y.M.C.A. building. This is a special grant for repairs only. The Y.M.C.A. has been in existence for ten years, and no repairs have been made, and at the present time it is badly in need of some. The current expenses must be met in the usual way.

The Presbytery of Peterborough

Considerable Business Transacted at Session Held in Port Hope

A regular meeting of the Presbytery of Peterborough was held in St. Paul's church, Port Hope, on Tuesday afternoon at which considerable business was transacted.

In the absence of the Moderator, Rev. Peter Duncan, of Colborne, Rev. Dr. Marsh, of Springville, presided. Among those present were Rev. H. J. Keith and Messrs. Robert Harrison and J. C. Shook, of Peterborough.

In the matter of holding divine service at stated intervals at Stewart's Settlement, in Otonabee, it was decided that the question be left over until the interest of St. Paul's church in the proposal might be considered at a congregational meeting to be held in St. Paul's church on Monday night next.

On behalf of the session of St. Paul's church Messrs. Shook and Harrison applied for the privilege of renewing a mortgage, which was sanctioned, the amount being limited by Presbytery to $5,000. The renewal of the mortgage is necessary owing to the expenditure in repairing the roof, renovating the edifice, putting down concrete steps and walks, etc.

Permission was granted Rev. Dr. Marsh, of Springville, interim moderator of session of St. Paul's church, to moderate in a call when the congregation is ready to call a minister.

Rev. J. G. Potter, of Peterborough, was appointed convenor of the committee on the aged and infirm ministers fund in the place of Rev. Dr. Torrance resigned. The interests of Mill street church, Port Hope, and Knoxville congregations were advanced another step and the pulpit of these churches will be supplied during August by Rev. James Andrews, of Toronto.

Rev. Mr. Nelles, the pastor, has resigned and is leaving at the end of July to continue his studies at Edinburgh University.

Sanction was given by the Presbytery for the transfer of the trusteeship of Knox church building from the office bearers of St. Paul's church to those of Knox church.

Rev. S. S. Burns, of Lakefield, was appointed to visit the Lakehurst mission, Rev. H. J. Keith, of Peterborough, the Cardiff mission, and Rev. G. A. MacLennan, of Norwood, the Cordova mission field.

Rev. Dr. Marsh, of Springville, was appointed to visit Pontypool re augmentation of stipends. Rev. James Skene of Baltimore, to visit Bethesda and Alnwick and Rev. D. A. Thompson, of Hastings, to visit Havelock in reference to the same matter.

C.G.E. STOCK ON THE DECLINE

Several Supporting Orders Sent in Yesterday—Was at 113½

At 116 as a 10 per cent. stock, Canadian General Electric returns 8.62 per cent. on the investment. If the dividend were cut to 8 per cent. the return would be almost 7 per cent.

Canadian General Electric broke from 118 at the close yesterday to 113 1-2, at which figure supporting orders came in the market, and the stock rallied. The street is not very enthusiastic about General Electric even at present low figures. "It is this way," said a broker, "common stockholders have just been hit on the head with two clubs, each representing $1,000,000 preferred stock, and they have the pleasure of knowing that a third club is being held in readiness to give them another clout when opportunity offers."

Wm. Eyres Returns From Western Trip

Went Out in Interests of Peterboro'—Saskatchewan Land Co.

Mr. Wm Eyres, Chairman of the Board of Health, arrived in the city Monday night after a two months trip to the the Northwest. He went out in the interests of the Peterborough Saskatchewan Land Company, for the purpose of placing a valuation the 19 sections of land owned by the company in Saskatchewan. He, in company with Mr. W. F. Austin, secretary of the company, went over the entire property and after carefully estimating each section the total value reached about $150,000.

The property is situated in one of very best sections of that western province and practically all the homestead land around it has been taken up, so that this land will immediately find a ready market and at good figures. Mr. Eyres rented one section for a year and received a cheque in full payment for the rent at the time and the company is now negotiating with an American syndicate who want to purchase 5000 acres. It is expected that the deal will go through in a short time now.

Speaking of this trip the returned traveller said he enjoyed it immensely. The population of that country is growing rapidly and everyone is prosperous. Among the different points visited were Winnipeg, Edmonton, Calgary, Battleford and several other important places.

Results of Tests Made in June

At Keene the cow giving the highest milk yield gave the lowest test and has a record of 1,540 pounds of milk testing 2.4 per cent. Here we also see the lowest milk yield and the lowest fat yield going together in a record of 365 lbs. of milk and 10.95 lbs. butter fat. The highest fat yield was 51.80 lbs. from 1,480 lbs. milk and the highest test was 4.2 per cent. from 650 lbs. milk.

At Central Smith one cow is credited with the phenomenal yield of 1,930 lbs. milk testing 2.9 per cent. This calculated as butter, is practically 2 lbs. per day. Another cow giving only 1,590 lbs. per day, has a butter fat yield of 76.32 lbs. This is a trifle better than 3 lbs. of butter per day. The highest test was 4.9 per cent. from 900 lbs. milk, while the lowest was 2 per cent. from 1,080 lbs. The lowest milk yield was 345 lbs. testing 3.6 per cent, while the lowest fat yield was 12.42 pounds from the lowest milk yield, 345 lbs.

FRAME STABLE WAS DESTROYED

Brigade Called to a Blaze on Munro Avenue Early This Morning

The fire brigade was given a run over to East City this morning about four o'clock. The stable belonging to Mr. Henry Fox, directly behind his house at 254 Munro avenue, was completely destroyed. The fire had gained considerable headway before being noticed by the occupants of the house, who were only awakened by the illumination made by the flames. At once they sent in the alarm, and soon the two fire waggons were on the scene, but little could be done. Everything was destroyed. A horse in the stable escaped unhurt, and fortunately the flames did not spread to the house. The building was a total loss.

Early last evening the fire brigade was called to a house on Sherbrooke street, across from All Saint's Church. The damage was very slight, only a few shingles on the roof being burned. The blaze was extinguished by means of chemicals.

Rev. Dr. Marsh Saw the Comet

Is Getting Broader and Can be Seen Plainly Between 2 and 3 O'clock

Upon enquiry of Rev. Dr. Marsh, it was learned that he had again seen the comet this morning. It is moving rapidly in its orbit around the sun and can be found at the right ascension one hour and forty minutes, and declination of plus 7 degrees, 7 min. The comet is becoming considerably broader, said the doctor. From a faint outline of a tail it can now be plainly seen between two and three o'clock in the morning with a field glass.

Dr. Julian F. Thomas, the aeronaut, and two ladies, were seriously hurt in an automobile accident at New York.

A. J. McCLELLAN—C. K. RACKHAM

To Celebrate the Glorious Twelfth

Great Preparations Being Made at Havelock—Other News and Notes

Havelock, July 8.—Havelock will be the scene of one of the largest celebrations ever held in this district on July 12th, when the 217th anniversary of the Battle of the Boyne will be celebrated. Wonderful preparations are being made for the occasion, and the energetic secretary, R. J. Graham, has secured places to accommodate 5,000 people. The many lodges that will attend will parade the principal streets of the town, which are very elaborately and neatly decorated with flags, bunting and arches, at 1.30 p.m., and thence to the public park, where addresses will be delivered by the following;—F. M. Clark, Belleville, Grand Secretary Ontario East; R. Gordon, Tweed, Grand Treasurer Ontario East; T. E. Bradburn, M.P.P., West Peterborough; Rev. Dr. Langfeldt and Col. Miller, Peterborough. Rev. Mr. McLennan, of Norwood; J. Hutchinson, County Master; J. W. Thistlewaite, County Secretary; J. A. Sexsmith, Deputy County Master, Belmont, also resident ministers and others.

Single fare rates will be in force on all trains east and west of Havelock, and a great number will likely come in on the different trains. Those coming from Peterborough may come in on the noon train, arriving in Havelock at 12 o'clock, and thus be in lots of time for the procession.

St. John's church Sunday school picnic to Trent Bridge on Friday, was a decided success, being attended by a large number, and was thoroughly enjoyed by the youngsters of the Sunday school.

Since the warm weather has began the campers are beginning to flock in to the many summer resorts in the neighborhood of Havelock, and every train brings fresh arrivals, who are anxious to have their share of fish while the lunge and bass are biting.

A large number from town attended the Trent Bridge Methodist Sunday school picnic to Idyl Wyld, Rice Lake, on Friday last.

Mr. Wellington Wilde, of town, has started a harness shop in the building adjoining Hobb's blacksmith shop and lately occupied by Mr. A. Wilde.

Mr. Wm. Cornell, of town, is making an addition to his planing mill, the wall of which has been built up ten feet already.

The following is a list of pupils who were successful in the fifth class examination;—Philip O'Brien, 95 per cent; Nellie Plunkett, 87 per cent; Clarence Holdcroft, 84 per cent; Russell Joyce, 79 per cent; Emma Patterson, 78 per cent; Ray Phillips, 68 per cent; Annie Scott, 65 per cent.

STEAMER STONY LAKE or MAJESTIC

For the week commencing July 8th the steamer Stoney Lake will leave the lakes in time to connect with the 4.55 train for Peterborough and Toronto, returning will leave Lakefield on the arrival of the 6.10, or evening train from Peterborough. The steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

The Daily Review

WEDNESDAY, JULY 10, 1907

COLONIES AND PREFERENCE

The "Daily Chronicle" publishes a manifesto, signed by twenty-two members of Parliament, who belong to the Trade Union Group of the Labor Party. The manifesto says—It seems time British workingmen protested against the absurdities of some of the Colonial Premiers. The very outside that the Colonies can offer working people is an addition to the wages fund of one pound in four hundred pounds, or to put it in another way, that we should have one quarter per cent. fewer unemployed—3 per cent. instead of 3 1-4. In return for this magnificent result, the cost of every necessary article consumed by the workman would be increased. Colonials say that a small rise in the price of wheat would not affect the price of bread. It is as certain as anything in the world that the effect of the smallest permanent addition to the price of wheat as by a duty, would be to cause a rise in bread, to happen sooner and to last longer than it otherwise would have done, and that this longer duration of high price, and shorter duration of low price, would on the average, exactly represent the duty on wheat, however small. One of the chief objects of these Colonial Premiers is the welfare of the British working-man. Their anxiety on this account is only equalled by that of the tariff reforming capitalist at home, who in his unselfish zeal, never spares—apparently never thinks—of his share of the plunder. The Australian Premier ingeniously proposed a method of raising a common fund for Imperial, but chiefly, Colonial purposes, to which Great Britain would subscribe four and a half millions of money and the Colonies a few hundred thousand pounds. The British workmen do not think they are called upon to contribute to the maintenance of their children beyond the seas to this tune, nor are they to be entrapped by those who would exploit Imperial sentiment in the interest of tariff reform at their expense.—The Cork Constitution.

CLEAN FOOD

The Winnipeg authorities are making a commendable effort in the direction of clean food. It is proposed to compel bakers to enclose their bread in paper bags for delivery. This proposition has been made in Ottawa and elsewhere. But nothing has come of it on the score of increased expense. Be the expense what it may those who want clean bread and are willing to pay for it should have it. As it is, the bread comes to all in a far from cleanly manner. The following picture in the Montreal Star, is not one whit overdrawn;

"If we stand at the front window," says the Star, "and watch the driver lay down the dusky colored reins, leap lightly to the ground, pat the horse to coax it into standing still, wipe his hands on his trousers, and then paw over the bread inside his cart with a view to picking out the sort of a loaf we are supposed to prefer, most of us are in a mood to live off potatoes and feed the bread to the chickens.

PEN POINTS.

Here's success to Peterborough's new library in its attractive and most commodious quarters.

It is reported from St. John, N. B., that a prize fighter saved a woman. Too often he leaves her to marry another.

The month of July, generally so kind to proprietors of summer hotels and picnic resorts is a trifle cold just now.

If the Board of Works would see that some of the weeds along the side of the road are cut, a splendid example would be set several citizens.

Mayor Schmitz, of San Francisco, has been given another term—not of office, but in the penitentiary. The crowd at last found opportunity to cheer.

The Sunday School picnics are nearly all over. Just watch how the attendance of the small boy will drop off, only to be revived again during the period of the annual Christmas entertainment.

In the report of the Kirkfield lock opening the Globe says; "Mr. J R Stratton also spoke." And once he got two columns solid nonpareil. Alas! Alas! — Toronto News.

Tenders will be received by the Board of Works for the crop of hay along certain streets. The splendid yield of flourishing noxious weeds will be thrown in.

And Sir Wilfrid is to have more trouble on his return to Ottawa. There are several vacant positions in his cabinet to fill, for which there are many claimants, and Bourassa is going to organize and lead an independent party right in the Premier's own stumping ground—Quebec.

The Hon. W. J. Hanna, Provincial Secretary of Ontario, in a speech delivered at a meeting of Conservative electors on the 5th inst., in East Huron said; "How shall we get back the timber areas that have passed from us?" The Ross Government had given them away in perpetuity. Under the present system the areas returned to the State within fifty years. In the only great sale since 1905 they had obtained the rate of $60,000 per square mile instead of $30,000 under the old regime.

The city auditors, Messrs. Martin and Quartermaine, have completed their work and have presented their report to council. The latter is very encouraging. The auditors have done their work well. The city's net debenture debt is only $371,902. While the nominal debenture debt is $820,892, there is against this sum sinking funds in the hands of the city commissioners, amounting to $119,139 Then there is the waterworks system valued at $292,000 and the present surplus of the water commissioners of $37,851. This makes a total of $448,990. Deducting this sum from the gross debenture debt of $820,892 leaves the net civic liability at $371,902 which, in view of an assessment of $6,658,410 is a rather good showing.

A WINDSOR LADY'S APPEAL

To All Women: I will send, free with full instructions my home treatment, which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or Irregular periods, Uterine and Ovarian tumors or growths, also Hot Flashes, Nervousness or Melancholy, Pains in the Head, Back, or Bowels, Kidney and Bladder Troubles where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write today. Address Mrs. M. Summers, Box H 62, Windsor, Ont.

Two Meetings Each Month Decided on

Court Chemong is in Flourishing Condition

The membership and business of Court Chemong, No. 530, I.O.F., has evidently grown to such large proportions, that two meetings each month is deemed necessary.

The Court has now finally decided to adopt this course and have been fortunate enough to secure a lease of the S.O.E. Hall for the second and last Thursday evenings of each month.

The first of these semi-monthly meetings will therefore be held on Thursday evening, July 11th, and promises to be of more than usual interest to the members. Bro. A. Bradshaw, D.S.C.R., the resident organizer of the Order has proved himself a hustler and will again be to the front, with quite a number of candidates for initiation into the mysteries of the forest regions and camp.

The names of those who are fortunate enough to be chosen as delegates to the High Court of Eastern Ontario, will also be decided on so that their credentials can be forwarded to the High Secretary forthwith.

The Order has quite a number of large courts in Ottawa, comprising a very large membership, and the High Court of Eastern Ontario, which meets in that city on August 21 and 22nd, promises to be one of the most interesting and important ever held in this division of the Order's domains.

Douro Picnic as Merry As Those of Former Years

Big Gathering at King Edward Grove Spent an Enjoyable Time—Speeches, Sports and Other Amusements.

Douro picnic for 1907 is a thing of the past, but the memory of the pleasant time spent will long remain with those who were fortunate enough to be present. Ideal weather favored Rev. Father Kielty and his parishioners for the annual holiday, and over 800 people were present and enjoyed to the utmost the day's merry-making. The picnic was voted by those present the most successful ever held, and there were many in attendance who were qualified to speak on this point with accuracy, for there are many people in the district who have not missed a Douro picnic for a score of years. To a large number in the township and in other parts of the county Douro picnic is looked forward to with pleasurable anticipation for many months, and consequently it is no surprise that the attendance is always exceedingly large.

Yesterday's function was held in King Edward Grove, which has been the scene of many enjoyable events of this kind. It is an ideal picnic grounds, having all the requisites for providing picnicers with a good time Refreshment booths, dancing platform and dining quarters have been erected in the grove, and add greatly to the pleasure and convenience of the picnicers.

As already stated, over 800 were in attendance and enjoyed to the fullest everything that was going. They came early, and the shades of night were falling before they wended their way homewards. All points in the county were represented, the ideal weather being conducive to a large attendance.

Sports, speeches and dancing made up the afternoon's programme, and furnished plenty of amusement for everyone. The dancing platform was well patronized, and was the centre of attraction for the young people Good music was supplied for the dancers, and they made a merry scene as they went through the many movements of the dance to the seductive strains of the violin and the spirited commands of the prompter.

THE SPEECHES.

The address of the day was to have been given by Dr. Foran, of the University of Ottawa, who, however, was unable to be present. He sent word to Rev. Father Kielty, explaining his inability to keep his engagement, owing to the serious illness of his wife. At the commencement of the speech-making Dr. Foran's letter was read by Rev. Father Kielty, and the announcement was received with regret.

The speeches took place at the dancing platform and were listened to with deep interest by a large number. Warden McNulty acted as chairman in a capable manner, and before calling on the first speaker, congratulated Father Kielty on the success of his picnic. He was glad to be present, and hoped he would be able to attend many more functions of a similar nature in Douro. The speaker referred to the prosperity of Canada, and of Peterborough city and county in particular

REV. FATHER KEILTY

Douro's Popular Parish Priest

Mr. Mungovan, of Toronto, gave a spirited address, in which he touched on many matters of interest. He urged his listeners to be true Canadians and good loyal citizens.

Mr. John Finlay, M.P., of Norwood, bespoke his pleasure at being in attendance at the picnic and congratulated Rev. Father Kielty on its success. He would be glad to come back to Douro again.

Mr. R. R. Hall, M.P., also tendered his congratulations and took advantage of the occasion to refer to the progress of the Dominion, and specified a few lines on which she was going ahead very rapidly. The country was prosperous, industries were booming and the people happy and contented.

County Councillor Andrews, of Asphodel, was the next to congratulate Rev. Father Kielty, which he did in a very neat manner.

County Clerk Ed. M. Elliott spoke in a characteristic manner. He seldom missed a Douro picnic, because he always had a good time there. He would be back again next year.

Reeve Moher, of Douro, and Reeve Thompson, of Havelock, also expressed their pleasure at being present and congratulated Douro parish on the success of their picnic.

Rev. Father McColl spoke briefly along similar lines to those who had preceded him, and was followed by Mayor McWilliams, of Peterborough, who brought best wishes from the city for Douro's continued prosperity. The city of Peterborough was interested in the welfare of its neighbors, as they were so closely linked together that their interests were largely mutual.

Ald. Phelan, of Peterborough, Mr. Wm. Rudkins, of Peterborough, and Mr. Joshua Smithson, of Otonabee, also gave brief addresses, congratulating Rev. Father Kielty and his parishioners on the success of their annual outing.

Mr J. J. Crowe made a rousing speech, in which he referred to the pioneer days of Douro and Dummer townships, and the great progress that had been made in the years that had elapsed since the country was first settled.

Hon J. R. Stratton said he had not missed many Douro picnics and did not intend to miss any in the future. He extended his congratulations to Rev. Father Kielty, and then dealt with the prosperity of Peterborough city and county, which never was greater than at the present time.

Rev. Father Kielty was the last speaker. He thanked those present for their attendance, including the speakers, to whom he was deeply grateful for having honored the picnic with their presence. He spoke of the rights of the common people, who were the backbone of the nation. The venerable priest was given a warm reception, and listened to with deep interest.

THE SPORTS.

One of the interesting features of the afternoon was the athletic sports, which were pulled off in a field adjoining the picnic grounds.

They were keenly contested and excited much interest among the spectators. The committee in charge of the sports consisted of Messrs. F. and M. Walsh, and W. Barry. The results were as follows;—

100 yards dash, boys—1 Gus McGarrity

100 yards dash, men—1 C. McCann, 2 Wm. O'Rourke.

Running long jump, men—1 J. Crough

Running long jump, boys—1 E. McCann.

Throwing Weight—1 Martin Coughlin.

Married Men's Race—1 M. Coughlin, 2 Wm. O'Rourke.

Boot Race—1 Jas. McGrath.

Running hop, step and jump—1 Charles Kelly.

High jump, men—1 John Crough.

High jump, boys—1 Gus McGarrity.

High kick—1 J. Towns.

Standing broad jump—1 W. Guerin.

The step dancing was another interesting feature, and there were some very clever exhibitions in this line. Among those who took part were Messrs J. McCliggott, A. Quinlan and Jos. Londergan, and they were heartily applauded by a large number of interested spectators.

SOME WHO HELPED.

The music for the dancing was supplied by Messrs. D. Sullivan, J. Sullivan, Peter Doherty, W. Curtain and Miss O'Connor, who played the violins in turn, while Miss Sullivan presided at the organ. Miss O'Connor and Mr. Curtain belong to Ennismore parish.

The refreshment booth, which was well stocked with soft drinks, ice cream, fruit, etc., was in charge of Messrs Frank Leahy, Augustus Webbs and John Adams. A big business was done during the day.

Messrs. Maurice Condon and Patrick Fitzpatrick looked after the entrance gate, while Messrs. John Allan and Patrick Foley were in charge of the entrance to the dining quarters.

The dining quarters, as usual, were in charge of the ladies of the parish, and they are to be congratulated on the excellent spread they prepared for both dinner and supper. There was plenty of everything good, and the service was all that could be desired. Meals were served to over 600 people.

Douro picnic of 1907 will go down in the records of the parish as the best ever held, and will be held up as an example for years to come.

Hibernians of Five Provinces May Unite

A proposal of great importance to the order is under consideration by the Provincial presidents of the Ancient Order of Hibernians. It is nothing less than the organization of the five provinces, Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island, under one board with a Dominion charter. By this it is hoped to enlarge the membership, increase the amount of insurance policies that may be issued and in general place the order on a stronger footing, thereby enabling it to better compete with the C.M.B.A. and other similar organizations. In the project attention will be given to the West and, if possible, Manitoba, Saskatchewan and Alberta will be brought under the charter The proposal is said to have come from Provincial President Foy of Perth, and Provincial President Flaherty, of Quebec, and they and other provincial officers, have been working quietly on the matter through correspondence.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. COMPLETION OF TRENT CANAL

Correspondent Answers an Opponent of the Scheme

To the Editor of the Review.

Sir,—A man by the name of J. H. Duthie, having for his place of residence that part of the province, euphoniously known as Hogtown, undertakes to cry down the Trent Valley Canal, because it does not pass the door of Hogtown. What in the deuce (duth) does Duthie know about canals anyway. His diatribe on this particular canal as recorded in today's Toronto World, makes it quite apparent that he knows nothing whatever about the subject. He, like the World staff, assumes that the canal will only be useful from a local standpoint and tries to belittle the enterprise, as a great medium for through transportation from our great Northwest to tidewater for the simple reason above assigned. His damning the Board of Railway Commissioners for their dereliction of duty, however just, is a poor argument against this canal, and is entirely foreign to the subject. If he or his dupes (if he has any) would get outside of their sectional environment and read the best authorities upon the subject, they would soon find light and not appear so ridiculous. Let him for instance, consult the pamphlet prepared by "the Trent Valley Association" and he will therein find fourteen good and valid reasons why the canal should be built and its paramount importance over all competitors, or let him read the returns from the Erie Canal, a mere ditch, as compared with the Trent route waterway composed principally of a succession of lakes and natural waterways, and he cannot fail to be struck with the tremendous possibilities of this great scheme, and at so little a cost, or still better, let him take the testimony of Dr. S. A. Thomson, of Duluth, said to be one of the greatest authorities upon the waterways of America, an outsider and not swayed by any influence in favor of the project, and he cannot fail to be convinced of his crass ignorance upon the subject, if indeed his letter is not written for a purpose, whether in the selfish interests of Toronto, or for preserving to the great railway companies their monopoly for all time to come.

Yours, etc.,

COUNTRY.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

MRS. EMMA FLEISSNER

Suffered Over Two Years—Health Was In a Precarious Condition—Caused By Pelvic Catarrh.

HEALTH AND STRENGTH RESTORED BY PE-RU-NA.

Mrs. Emma Fleissner, 1412 Sixth Ave., Seattle, Wash., Worthy Treasurer Sons of Temperance, writes:

"I suffered over two years with irregular and painful periods. My health was in a very precarious condition and I was anxious to find something to restore my health and strength.

"I was very glad to try Peruna and delighted to find that it was doing me good. I continued to use it a little over three months and found my troubles removed.

"I consider it a splendid medicine and shall never be without it, taking a dose occasionally when I feel rundown and tired."

Our files contain thousands of testimonials which Dr. Hartman has received from grateful, happy women who have been restored to health by his remedy, Peruna.

TO-MORROW'S VOTE

The property holders of Peterborough will be entitled to vote on a bylaw tomorrow to grant a free site to the Colonial Weaving Company, who purpose erecting new buildings in order to meet the increased demand for their product and to install the requisite machinery for the augmented output.

The proposed site is valued at $3,500 and this the city is asked to hand over to the company and fix the assessment on the plant and buildings at this figure ($3,500) for a period of ten years. In return the company agree that on or before the 1st of June next, they will erect and complete a substantial brick building for manufacturing purposes, not less than 60 feet wide and 200 feet long. In this building, machinery will be installed for the manufacture of woven labels and similar goods, the plant to cost at least $30,000. The company must also bind itself to give employment to at least sixty hands for ten months in each year. The company also covenant to pay all local improvement assessments, frontage tax and school taxes, on the full value of the plant and buildings.

The concessions asked—a free site at the corner of Rubidge and Rink streets, valued at $3,500 and a fixed assessment for municipal purposes at this figure are small, and, as the enterprise is backed by local capitalists it is worthy of encouragement. Other places are reaching out for factories and Peterborough much hold what she has as well as make a constant effort to obtain more industries. It is expedient in every way to do so.

If this were an outside concern, how quickly the ratepayers would endorse the proposition to get such a progressive industry. Because it is a purely local industry there is no reason why prejudice or lukewarmness should exist. Our own factories should be supported in every legitimate way. The men behind them live here, invest their money here and seek in every way to advance the interest and welfare of the city. The concessions asked for are not large and Peterborough citizens cannot in justice to themselves and the continued prosperity of the city, turn down a project of the character, which it is hoped will be carried tomorrow by a substantial majority.

Insurance Agent Faces Magistrate

On Charge of Retaining Money Belonging to London Life Company

At a special session of the police court this afternoon John E. Code, late agent of the London Life Insurance Company, was charged with taking, in April last, $92.92, funds of the company. Mr. G. N. Gordon appeared for the defendant, but did not elect or plead. The preliminary hearing was proceeded with.

Mr. E. E. Reid of London, assistant manager of the London Life, was the first witness called. An agency agreement was produced, which was signed by John E. Code and approved by the Company. Code commenced working for the company on September 10th, 1906. Defendant made his returns regularly up till the February report. Returns are required to be made by the 25th of each month. Code wrote the Company in April, telling them that he had not funds to make the returns for March. In the letter to the company defendant admitted having spent the company's funds, stating that he did not write up enough business to keep him going at the rate he was going. He was paid a salary of $50 a month. The expenses came here in April. At the first of April there was $147.92 due, but, deducting a month's salary and $5 commission, left a balance of $92.92, still coming to the company from Code. If the deficiency was not made good Code's duties were to cease at the end of April, but witness said that on any business that Code would write out in April, he (Code) would get a commission. In March defendant had $40 expense money, but in his expense book only $18.50 was accounted for. For the balance of April Code was to return full premiums and the commission was to go to the credit of his debt. At the end of April Code's connection with the company was to cease.

LATER

Before going to press it was learned that the case had been settled the defendnat agreeing to pay the sum claimed by the company, $92.92, and the costs, amounting in all to $101.92.

The defendant will at once take action through the Division Court to obtain the sum of $125, which he claims is owing him by the company.

Port Hope Can't Get Things Right

Think They Should Get Credit for Two Hits, Saturday

Commenting on the statement of the Peterborough papers that Quinlan pitched a no-hit game against Port Hope last Saturday, The Port Hope Guide says,—

"This looks nice in print for Quinlan but it will stand a number of corrections. Unfortunately the Port Hope scorer did not keep an account of the hits but if our memory serves us correctly Port Hope had two hits. Thompson placed a slow one down third base line and it was cleanly fielded and he had no trouble in beating it out at first. Surphlis sent a hot one down to second base that was not touched by any of the fielders. The Peterborough scorer claimed that it should have been handled by the second baseman, and consequently gave him an error, and did not credit Surphlis with a hit. The second baseman, we are all aware, could have touched the ball, but it was travelling too fast to be handled by him, and in this case the batter is entitled to a hit."

The Guide is wrong again. It is the old trouble of the scorer being asked to credit a hit where no hit is deserved. Had it not been for an error on Haliburton's part, Thompson would not have reached first. The Peterborough third baseman attempted a one-hand catch, but the ball bounced and ran up his arm and then dropped to the ground. Before he could pick it up and send it over to Graham, Thompson had reached the cushion. Under the circumstances, no scorer would have credited Thompson with a hit. The Guide's statement that Surphlis should have been credited with a hit is away off. The second baseman should have picked up Surphlis' "hot one," without difficulty and the scorer was fully justified in giving him an error. This "hot one" stopped after it had gone about twenty feet past the second baseman, which puts the kibosh on the statement that it was travelling too fast to be handled when it passed him.

The Peterborough players are not anxious to have errors chalked up against them and would soon go after the scorer if they were not dealt with fairly.

BASEBALL

BETTER LATE THAN NEVER

Lindsay Post; Oshawa has dropped out of the Midland Baseball League, and Port Hope, Cobourg and Peterborough are left to fight it out. The Oshawa team was to have played at Cobourg on Saturday, but defaulted, and sent word to the president that they were dropping out of the league. Port Hope still leads the league, with five wins and two losses. Now's the chance for Lindsay to get in the game.

IMPORTANT MEETING.

A meeting of the Intermediate League executive, is called for tomorrow night at eight o'clock at the Y.M.C.A. The date as to when the West End-Strathcona game will be played is to be decided and also other important business. A full attendance is requested.

LACROSSE

The Peterborough Intermediate Lacrosse team left for Beaverton this morning and are playing a league game against the Checkers this afternoon. The boys are in good shape and should be able to give a good account of themselves on the Beaverton sward.

TENNIS

The Nicholls Oval Tennis Club is holding an outing down the river this evening. The party willl leave Rye's boat house at six o'clock and everyone is asked to be on hand at that time. A most enjoyable time is expected, and all the members are asked to turn out.

PERSONAL

Mr Bernard Tate, of Cuba, is renewing old acquaintances in the city.

Mr. C. R. D. Booth, reeve of Burleigh and Anstruther, is in the city on business.

Vote for Colonial Weaving Co. And Build Up Peterborough

Every Property Owner is Entitled to a Vote and Every Voter is in Duty Bound to Vote for the By-law.

For the information of those freeholders entitled to vote on the bylaw to aid the Colonial Weaving Co., tomorrow, the following facts have been compiled, showing exactly what the city will do and what the company will do, according to the bylaw.

THE COMPANY WILL

Increase their manufacturing facilities.

Erect a building 200 feet long and 60 feet wide.

Install $30,000 worth of machinery.

Guarantee to employ 60 hands but will employ nearly double that number to start on.

Invest $50,000 more capital than at present invested.

Pay all taxes on $3,500 assessment for 10 years.

Pay school taxes on full assessment

Pay all frontage taxes and local improvement assessments.

THE CITY WILL;

Give a free site at a cost of $3,500, site to include lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 and 14; plan No 86.

Give a fixed assessment for general purposes for ten years, of $3,500

Pay yearly for 20 years $281 to wipe off the $3,500 debt, which it will cost to have this factory located here.

VOTE FOR BYLAW

It is the duty of every freeholder who is loyal to Peterborough to vote in favor of the bylaw. To turn down the local capitalists interested in this company will drive them out of the city. This will discourage for many years the investment of local capital in manufacturing concerns. It will drive away any foreign capitalists who might want to locate here It will give Peterborough a bad name throughout the Dominion

Peterborough depends upon manufacturing industries to build up the city. Without them the business will go backward. There are no new factories from foreign places coming this way and it behooves every property owner to hold the concerns here now.

Relations Are Much Strained; War Between Japan and U. S.

Special to the Review.

London, July 10.—Great Britain today acknowledged the possibility of war between the United States and Japan. Confession of this belief is significantly evidenced by the preparations being made by the Government to prevent Great Britain being drawn into such a conflict despite her treaty with Japan.

London, July 10.—The correspondent of the Daily Telegraph at the Hague, says that, as a result of his enquiries there, the Japanese-American situation is really strained, although both Governments are trying to conceal the fact. He asserts that before June 9th, the question had entered upon an acute phase.

Japan has been sending the Unitde States, extremely categorical notes stating, without bitterness, but in the clearest tone, the dilemma that, unless Hignton was able to control California, Japan will consider herself free to act directly against California.

Visitors From Western Canada

Ex Mayor Dyke of Fort William and Mr. Dagger of Saskatchewan in the City

In the city today are two well-known gentlemen from Western Canada, who are interested in telephone matters. These visitors are ex-Mayor Dyke, of Fort William and Prof. Dagger, who is now connected with the Saskatchewan Government. They are registered at the Oriental hotel, and are in company with Mr. F. D. MacKay, general manager of the Canadian Machine Telephone Company.

This morning they spent a couple of hours at the central exchange, where they were greatly interested in the apparatus and its workings. They called up several subscribers, and were delighted with the simplicity, accuracy and speed of the machine, and Mr. Dyke said that while Fort William now has the manual system, he hoped before many years to see the Canadian Machine Telephone installed there.

Speaking with the ex-mayor of Fort William, who is one of the strongest advocates of municipal ownership in Canada, the Review was informed that the city at the head of Lake Superior was in a very prosperous condition. The population is now about 15,000, and it is growing rapidly, while the commercial interests have greatly increased. The future prospects of the city are very bright, and everyone there is an enthusiastic advocate of Fort William. Referring to the Coates Co., which created such a sensation last year, Mr Dyke said he was very glad Fort William lost it before the promoters had a chance to turn them down.

This is the first time Mr. Dyke has been in Peterborough and he said that he was delighted with it. He liked the situation and surroundings and the people he had met he considered above the average. He called upon His Worship Mayor McWilliams, and had a long chat with him on municipal matters and in connection with the municipall convention to be held in Fort William in August, to which the mayor is a delegate. Mr. Dyke is chairman of the reception committee, and he promises to give the visitors a good time.

This afternoon Mr. MacKay entertained his guests to a drive to the lift lock and around the city and they returned gretaly pleased with their visit to Peterborough.

Mr Dagger was for some time the telephone expert for the government of Manitoba, and recently he left there and went with the government of Saskatchewan

LOCAL NEWS NOTES

MASTER HORSESHOERS

The Master Horseshoers' Association will hold a regular meeting tomorrow night.

RETURNS THANKS

Mrs. McIntyre, of Auburn, wishes to thank all the neighbors who so kindly assisted in extinguishing the fire which occurred on her property last Sunday evening.

GOES TO THE WEST

The merry-go-round which has been in Lindsay for the past few months, is in Edmonton now. Messrs. Williamson Bros. purchased it from Mr. Sharpe. The price, we understand, was $675.—Lindsay Post.

NEW BUILDINGS

Upwards of $350,000 will be spent on new buildings and improvements at the Canadian National Exhibition this year, namely; grand stand, $217,000; railway exhibits building, $40,000; Horticultural building, $90,000 making something like a million dollars spent upon new permanent buildings since the century opened. No other established annual exhibition can show a like record.

SPECIAL TRAIN FOR MILLBROOK

Orangemen Leave Peterboro' at 10 O'clock—Arrangements Made

All arrangements have been completed by the Orangemen of Peterborough district for attending the big celebration at Millbrook on Friday of this week, July 12. A special train is being run and will leave Peterborough at ten o'clock All the lodges from Peterborough city and also the Downer's Corners lodge will entrain at the G.T.R. station and it is expected that a monster crowd will go along. Returning the special train will leave Millbrook at 4.30 o'clock.

All the lodges in the Peterborough and Millbrook districts, are gathering at Millbrook, and there is no doubt but that the glorious twelfth will be roylaly celebrated The 57th regiment band will accompany the Peterborough lodges, as well as a fife and drum band, so there will be no shortage of music

The Turks are the world's coffee connoisseurs.

But you needn't go to Turkey for fine coffee.

Practically every grocery store in Canada has Chase & Sanborn's SEAL BRAND—that perfect blend of perfect coffees.

A RARE OPPORTUNITY

Is being offered to the ladies of Peterborough to do their shopping at the B. Y. MOYES STORE. Our gigantic removal sale has been extended for a few days longer in order to give everybody a fair chance, ourselves included. We want to get thoroughly rid of every article in our store. It is your opportunity, don't neglect it.

PHOTOGRAPHERS HALF HOLIDAY

The photographers of the city will have their first half holiday tomorrow afternoon. Those whose places of business will be closed are Louis Mendel, R. M. Roy, J. L. Richmond and W. G. Lendrum.

Installation of I.O.O.F. Officers

The newly elected officers of Norwood Lodge, I.O.O.F., were duly installed in that village last evening by Bro. Wm. Hill, D.D.G.M., assisted by Bros. R. J. Matchett, and Dr. McKercher of Peterborough, as well as several visiting brethren from Havelock and other places. Messrs. Hill, Matchett and McKercher went to Marmora today, to install the officers of Marmora lodge. On Friday night the officers of Havelock lodge will be installed.

COURT STANLEY IS PROGRESSING

Court Stanley A. O. F. is in a flourishing condition. At the regular monthly meeting last night, five new members were initiated and one proposition for membership received. Chief Ranger T. Henry presided and everything passed off most successfully.

Beautiful Banner Will be Displayed

J. W. Bell Memorial Lodge, No. 1175 Has Just Purchased One

The J. W. Bell Memorial Lodge, L.O.L. No. 1175, will have a fine new banner in their 12th of July parade to-morrow. The banner is a most attractive one and was made by Mr Thomas Barrie, in whose window it is now on exhibition.

It is purple and orange on one side and scarlet and orange on the other. On one side is a picture of the late J. W. Bell and the words "British Liberty," and "In Memoriam." On the other side are the words "To the glorious, pious, and immortal memory of William III." and "Remember the deeds of our forefathers." There is also a picture of King William mounted on a white steed. At the top of the banner is a handsome orange border. The banner is one of the most costly and artistic possessed by any Orange lodge in this district,

Cressman's

Forty Five Citizens Fined $1 Each For Trespassing on C.P.R. Tracks

The city coffers were enriched $45 this morning as a result of Detective McQuay's visit here last week. Forty-five persons each pleaded guilty to the charge of walking on the C.P.R. bridge, spanning the river, Otonabee, and a fine of one dollar was imposed on each in the police court.

The offenders were mostly employees of the Peterborough Lumber Co., and on their behalf, Mr. Dickson Davidson appeared and pleaded guilty, stating that these persons travel that way daily. Mr. W. H. Moore solicitor for the C.P.R. was present, and stated that he did not want the penalty to be very large, but the company insisted that people should not trespass on C. P. R. property. There has been grain stolen from the cars on the siding lately, and it was partly for this reason that the company sent a detective here. The city ought to construct a footbridge across the river near the C. P.R. bridge. The C. P. R. Company should have been asked by the city to do so when the railway was built.

"Probably if the offenders were fined $10 each, the city would have enough money to construct a bridge" remarked His Worship.

His Worship thought that he could not discharge these person, after the work of summoning them to court. The company had a right to see that the law was enforced and were entitled to protection. He would therefore fine the defendants one dollar each to be paid in ten days.

Mr. Harry Dunford, recently out from England and whose wife was one of the trespassers, addressed the magistrate. He stated that the detective told his wife that she would not be fined. Having just recently come to this country, they did not know the law. Mr. Dunford stated that he would not pay the fine, and asked if there was any alternative. His Worship informed him that she could go to gaol and then he asked if he might go for her. To this His Worship replied in the negative. "I would rather spend a month in gaol than pay that dollar," said Mr. Dunford.

Mr. F. D. Kerr appeared for a young girl who was away on a Sunday school picnic today. She was accosted by the detective, and her name taken for trespassing. His Worship said that he could make no nice distinctions and all would have to pay alike.

Splendid Recital Given by Pupils

Pleasing Programme Rendered by Those Instructed by Miss Curtis

Last night a delightful recital was given by some of the pupils of Miss Nellie Curtis, at her studio, 581 Downie street, at which were gathered the parents and a number of friends. The little pupils in their work gave evidence of careful teaching. A choice programme was rendered and the young musicians did themselves and their teacher great credit.

The parents expressed appreciation of the efforts of Miss Curtis, who must have taken great pains with the children to bring them to the degree of efficiency which they have attained.

Following was the programme:—

Piano solo.—You and I Waltz, Claribel—Miss Nellie Macdonald.

Piano solo, Latour.—Master Garfield Torrance.

Piano duet, [illegible] —Master Fred Gray, Miss Curtis.

Vocal duet, O, Remember, Slatar.—Mr. and Mrs. Macdonald.

Piano solo, Violet, Streabog.—Miss Annie Revoy.

Piano duet, La Grace, Bohm.—Miss Nellie Macdonald, Miss Curtis.

Violin solo, Napoleon's March.—Mr. Dawson.

Piano solo, minuette, Sielmer.—Master Garfield Torrance.

Piano solo, Little Cherub waltz, Orth.—Master Harold Torrance.

Vocal solo, Schoolmaster, Loid.—Mr. Dawson.

Piano solo, Hampden.—Miss Curtis.

Vocal solo, Mr. Gray.

OBITUARY

THOMAS EVANS.

The sudden death of Thomas Evans, brother of Major Evans, was learned with sincere regret by a host of friends. Deceased was 64 years of age. He was employed as engineer and practical expert and machinist for the last two years at the House of Refuge at Lindsay.

LAID AT REST

The funeral of the late H. M. Fowlds of Hastings, took place on Friday last from his late residence to the Trent Valley cemetery, and was attended by the members of the council in a body and a large number of influential men from a distance, as well as friends at home who came to pay their last respects to the deceased. A short service was held at the family residence by the Rev. D. A. Thomson, and also at the cemetery. The pallbearers were Messrs. A. Wilson, A. Cameron, R. C. Doxsee and H. Johnson, of Hastings; Mr. F. Birdsall, of Birdsall, and Mr. Jos. [illegible] of Norwood.

The total mining production of British Columbia for 1907 is $24,500,000.

CHOICE OF TWO EXCURSIONS

Toronto or Niagara Falls

Thursday, July 25, '07

The Durham Old Boys announce another of their most enjoyable annual excursions as follows:

Peterborough—Train leaves 5.05 a.m. Fare to Toronto $2.05. Fare to N. Falls, including G.T.R., steamer and electric railway via famous Gorge Route, $2.20
Millbrook—Train leaves 5.35 a.m. Fare to Toronto $2.05. Fare to N. Falls, including, etc., $2.20.
Garden Hill—Train leaves 5.55 a.m. Fare to Toronto $2.00. Fare to N. Falls, including, etc., $2.20.
Children 5 to 12 half fare.

All tickets to Niagara Falls are good returning on all trains up to Saturday night.

All tickets for Toronto good returning on all trains up to Friday night; or those wishing to return Thursday night may do so on special train leaving Toronto immediately on arrival of steamer (about 8.30.)

Light lunch will be given all excursionists by the Natural Food Co, also permission to inspect their magnificent factory.

Don't miss the best excursion of the year. Every arrangement complete for seeing all the sights to the best possible advantage.

For further particulars address Thos. Yellowlees, 23 Division St., Toronto; Jas. L. Hughes, City Hall, Toronto; J. H. H. Jury, Bowmanville.

BROKEN SLEEP
MORNING TIREDNESS

Unable to sleep indicates starved nerves and weak blood. You'll never be well till the system is better nourished—that's sure.

What you need is a nutritive tonic like FERROZONE, which vitalizes and enriches the blood, fortifies the nerves, instills new energy into worn-out organs. At once you feel better. Your spirits improve, and day by day you gain in strength and power.

FERROZONE
ALWAYS CURES.

No remedy removes that gone, exhausted feeling like FERROZONE. In every case it completely cures the cause of sleeplessness and restores the sufferer to robust health in a short time.

Use FERROZONE and your sleep will be as restful and sound as an infant's. In the morning you'll feel capable and ready for the day's toil. Don't lose the sound, vigorous health FERROZONE is sure to bring you. Get FERROZONE to-day and beware of substitutes.

Ferrozone is sold only in 50c boxes, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Orchard's Story is' Denied; Progress in Haywood Case

President Moyer on the Witness Stand.

Recites His Connection With Western Miners' Federation and His Duties as Head Officer — Candidly Asserts That the Organization Protected Itself and Members When Attacked—State Overruled.

Boise, July 11.—The reading of depositions in the Haywood case, which has engaged the attention of the court for several days, was concluded soon after the trial was resumed yesterday. The defence then made an attempt to introduce testimony concerning the political situation in Colorado in 1904 and 1905, but an objection on the part of the state was sustained.

Charles H. Moyer, president of the Western Federation of Miners, was called to the stand. He displayed some nervousness at first, but soon was going very steadily in a recital of his connection with Federation. He said he never had any personal hostility for Frank Steunenberg.

In describing his duties, Moyer declared that they required that he be absent from Denver—plotting ground of the conspiracy alleged by the state—more than half the time.

Moyer then entered upon a long recital regarding the Cripple Creek strike of 1903 and 1904.

"What was the condition as to peace and quiet at the time?" asked Darrow.

The state objected to this as a conclusion of the witness.

The question was finally allowed and Moyer declared the men were going peaceably about their business and there was no disorder.

He said he had been a miner since 1883. He joined the Western Federation of Miners in 1897, was first elected president in 1902 and had been re-elected annually since that time. He first met Haywood at the 1900 convention in Denver. Haywood was chosen secretary-treasurer the following year. Moyer said that as president no bond was required of him but that Haywood as secretary-treasurer was under a bond of $30,000.

The witness declared that his duties as president of the organization required his absence from headquarters a greater part of the time.

"Mr. Moyer, during your term as president, what has been the custom of the organization as to defending members of the union who have been charged with crime growing out of their connection with the union or where the Federation has been involved,' asked Mr. Darrow.

"It has been the rule of the organization always to protect its members, and the interests of the organization where attacks have been made against them."

At the afternoon session Moyer denied practically every assertion as to his acquaintance with Orchard which Orchard made as a witness, but admits he had arranged to get Orchard a sawed-off shot gun on one occasion.

Canada is Growing Rapidly; Interesting Bulletin Issued

Population Over Six and a Half Million.

Statistics From Ottawa Bureau Show Canada's Rapid Growth—Immense Increase In Production of the Larger Manufacturing Establishments—Products In 1905 Represents a Value of $717,118,092.

Ottawa, July 11.—A bulletin issued by the Bureau of Census and Statistics showing the growth of Canada's manufacturing establishments during the past six years, and giving the comparative average production per establishment in 1901 and 1905. The various industries are divided into three groups: First, those with products of between $200,000 and $500,000 per establishments; second, those with products of between $200,000 and $1,000,000 per establishment, and third, those running over one million dollars per establishment.

Compared with the census of 1901, there were in the first class 178 works producing each $500,000 and over in 1905, as against 72 in 1900; in the second class there were 62 works producing $750,000 and over in 1905, as against 24 in 1900, and in the third class there were 17 works producing $2,500,000 and over, as against 6 in 1900. There were four works in 1905 producing each $5,000,000 and over, whereas not one factory had reached the amount in 1900.

The greatest volume of production by a single factory in 1905 was over $8,000,000, and the greatest in 1900 was under $4,500,000. The production of all works in the year 1900 was $481,053,371, and in 1905 it was $717,118,092.

In the third class there were four Canadian sugar refineries producing on the average $4,288,065 per annum, nine smelting establishments producing on the average $2,899,707, twelve slaughtering and meat packing establishments averaging $1,687,481, six flouring and grist mills averaging $3,318,242, four cotton mills averaging $1,715,333, and three agricultural implement works averaging $1,725,737.

All told, there were in 1905 eighty-one establishments with an annual production of over one million dollars each, as compared with thirty-nine in 1901.

Canada now has a population of over six and a half millions. The Department of Census and Statistics has found that on the first day of April, this year, the population of Canada was, as nearly as could be estimated, 6,504,900. This is a growth of population in six years, since the last decennial census, of 1,133,585. The total population in 1901 was 5,371,315. If the present rate of growth is maintained Canada will show a population of over seven and a half millions when the next census is taken.

Since April 1 the immigration has totalled over 100,000, so that the total population at the present date is in the neighborhood of $6,600,000.

ON BARTELS TRACK.

Police After Those Who Aided Wealthy Brewer to Escape.

Toronto, July 11.—Sensational developments in the Herman Bartels case are looked for. It is said that an arrest may be made within a few hours, or that the missing millionaire brewer may surrender.

At police headquarters there is a feeling that the work now being done by the men who are hunting Bartels will bring quick returns. Bartels, it is believed is not very far away. It is doubtful if he succeeded in getting out of the city, and it is thought that he could be surrendered on short notice if those with whom he has apparently found a refuge, considered it expedient to get rid of their guest. The police believe that Bartels was helped to get away.

The Criminal Code says that "every person is guilty of an indictable offence and liable to five years' imprisonment who assists any person in escaping from lawful custody, whether in prison or not, under a sentence of imprisonment for any term less than life, or after conviction of, and before sentence for, or while in such custody upon a charge of any crime punishable with imprisonment for a term less than life."

Saw Bartels In Hamilton.

Syracuse, N.Y., July 11.—H. C. Lefler of this city, in an interview yesterday, says that early Tuesday night he saw Herman Bartels, who escaped from custody at Osgoode Hall, Toronto, last week, at Hamilton, Ont., apparently about to take a westbound train. Mr. Lefler had just boarded an eastbound train, and on arriving at St. Catharines left the train long enough to give his information to be telegraphed to the Toronto police. Bartels, although possessing a considerable fortune, did not approach the millionaire stage.

UNREST IN RUSSIA.

Fears of Disorder Spreading Throughout Northern Russia.

St. Petersburg, July 11.—Extensive peasant disorders have broken out in the eastern part of St. Petersburg Province especially in the districts traversed by the canal connecting the Baltic and Caspian Seas.

A pitched battle has been fought at Bialozero, between troops and peasants led by a village schoolmaster. The authorities fear the agitation will spread to the entire northern part of Russia and seriously interfere with the transport of grain, oil, coal and wood to St. Petersburg.

The recent introduction of tugboats on the Mary Canal to replace the towlines hauled by peasants, occasioned great excitement. Bands of peasants strung ropes across the canal and threw stones at the tugboats in efforts to interfere with the navigation of the waterway. Rural guards dispersed the rioters with some loss of life, and troops were detailed to patrol the canal.

WHITNEY OFF TO ENGLAND.

Declines to Say What the Nature of His Business There Will Be.

Toronto, July 11.—Premier Whitney will sail for Liverpool by the Cunard steamer Campania, leaving New York at 8.30 on Saturday morning.

He declined to particularize the object of his visit to England, but stated that he was going on public business, and would attend to two or three matters of interest to the province. He expected to return about the first week in September.

Mr. Whitney has been invited to spend a day with Gen. Booth while in England, and take part in the general's motoring party.

During the absence of Hon. Mr. Whitney, Hon. J. J. Foy, Attorney-General, will be acting-Premier, an order-in-council having been passed to that effect.

KNIGHTS AT SARATOGA.

Chicago Templars Win First Prize In Duel Contest.

Saratoga, July 11.—Corps representing five commanderies of Knights Templars, competed in a drill for prizes at the triennial encampment yesterday.

The drill was held at the racetrack. First prize was won by the drill corps of St. Bernard Commandery of Chicago, Columbia Commandery of Washington was second, Raper Commandery of Indianapolis third, Englewood of Chicago fourth, and Ivanhoe of Milwaukee fifth.

THANKSGIVING ON MONDAY.

Pressure Being Brought on Government to Change the Date.

Ottawa, July 11.—There is a possibility that Thanksgiving Day will be fixed for a Monday instead of a Thursday. Pressure is being brought to bear on the Government by commercial travelers and others to change the day. The railway companies are opposed.

Union Men Strike.

London, July 11.—A strike of 16 iron moulders and coremakers occurred at the Labatt Manufacturing Company yesterday morning when a non-union man who had been employed at the McClary Manufacturing Company came into the works as an employe.

The police force were summoned to the scene, but the men quietly withdrew.

Educationalists In Session.

Toronto, July 11.—The Dominion Educational Association is now in session at the University of Toronto, with a representative attendance of delegates from all parts of Canada. The afternoon was devoted chiefly to organization. Hon. Dr. Pyne, Minister of Education, welcomed the delegates to the city.

Boy Charged With Murder.

New London, July 11.—Ten-year-old Frank Morgan of Ledyard is locked up, accused of killing his playmate, Ivy L. Rogers, with a shotgun last Friday.

It is alleged that the two boys quarrelled during a fishing excursion.

The reported drowning of an unknown Toronto man in the Assiniboine is said to be a false rumor.

FOY TO PROSECUTE.

Col. Sherwood Hands Counterfeiters Over to Provincial Authorities.

Toronto, July 11.—Although arrested by Dominion officials, the gang of counterfeiters under arrest will be prosecuted by the Ontario Attorney-General.

Col. Percy Sherwood, chief of the Dominion Secret Service, saw Hon. Mr. Foy yesterday and asked him to take over the prosecution. Mr. Foy consented.

The object is to centralize the prosecution, if possible. Although Lindsay seems to have been the headquarters of operations, only one was arrested there, two being captured at the Michigan "Soo" and one at Montreal. The department is considering the advisability of prosecuting all at Lindsay.

COLD AT BISLEY.

Canadians Nursing Themselves For the Big Events.

Bisley, July 11.—The weather still continues very cold, and yesterday there was considerable rain, making not the best shooting weather for the men in camp. The Canadians are nursing themselves for the big things, and did little shooting.

For the Mackinnon Cup, Canada, Australia, England, Scotland and Ireland have entered teams. For the Kolapore Cup, the blue ribbon of the team events, teams are entered from the mother country, Guernsey, Australia, India and Southern Rhodesia.

The Duke of Connaught will inspect the Canadian to-morrow.

JAPAN DENIES IT.

No Categorical Demands to Be Made of Uncle Sam.

Washington, July 11.—From the state department and from the Japanese Embassy here came swift and conclusive denials yesterday of the accuracy of the statement cabled from The Hague to The London Daily Telegraph and reprinted in this country, to the effect that Japan has made categorical demands upon the United States Government for satisfaction in connection with the treatment of Japanese in San Francisco, and has served notice of her intention to deal with the Californians herself if the national Government fails to do so.

RELIGIOUS RIOTS.

Militia May Be Called Out to Compel Order To-morrow.

Ottawa, July 11.—Trouble is expected in Buckingham, Que., on the 12th, where religious feeling runs very high.

A mass meeting of Orangemen of the district is to be held, and in case of a riot, which seems likely, Mayor Kelly has issued a proclamation forbidding anything in the nature of a parade.

Special constables are being sworn in and the services of the militia may also be requisitioned.

Lakefield People are Indignant; Improvements Needed at Wharf

No Shelter Provided for Passengers—Repairs Are Badly Needed—Proper Bathing Resort Brought Up—Other Matters Discussed.

Lakefield, July 10.— Miss Ethel Penny of Norwood, England arrived in the village on Thursday last on a visit to her sister, Miss Kate Penny.

Colonel Greenwood, and Mr Hal Morrow, of Peterborough, paid a short visit to Lakefield on Monday. They were guests of Mrs. Evans Atwood and Miss LeFevre, at "Uplands."

Miss Helen Brown, of Westmount, Montreal, spent Monday and Tuesday of this week, as the guest of Mr and Mrs. Atwood at Ashewerth.

Mr. C. E. Pratt left on Monday for a short visit to friends in Toronto and Stratford.

Mr and Mrs. Levi Payne have departed for a week's outing at their cottage at Stony Lake.

ORANGEMEN AT WORSHIP

The local Orangemen attended divine service at St. John's church on Sunday evening last. The sermon, which was preached by the incumbent, Rev. W. J. Creighton, was a very appropriate one and was listened to with much interest by the members of the order and the congregation. It was a strong appeal for unity based on broadmindedness and charity.

IMPROVEMENTS AT WHARF

A meeting of the Board of Trade was called on Friday night to discuss the action of the authorities in not providing the improvements at the wharf which the village had been definitely promised should be made this year.

It was the unanimous opinion of the meeting that Lakefield is being treated in a very niggardly fashion. Other places seem to be able to get anything they ask for, but when it comes to Lakefield, one of the gateways to the Kawartha Lakes, desiring to get even a mudhole on the Government dock filled up, difficulties are raised at once. Many improvements are needed urgently, foremost among them being a substantial shelter on the dock for passengers and baggage, and repairs to the dock itself. Our former reeve, Mr Moore, informs us that he received a definite promise from the proper authorities, that the work would be proceeded with before the opening of navigation.

Another matter which was brought up before the meeting was the need of a proper bathing house for the boys and men of the village. This was at once scouted as not coming within the scope of the meeting. This strikes us as pure buncombe. The Board of Trade is not a properly constituted one and cannot be while the village is its present size. It is simply an aggregation of citizens banded together to discuss all matters affecting the welfare of this community. This being the case, anything affecting the comfort of its inhabitants surely comes within the purview of the Board. It is all very well to say that the bylaw compelling the proper wearing of bathing apparel should be enforced. It would take half a dozen constables to enforce it. There is no use in any case in hounding boys and young men all over the place. If they are given comfortable and secluded quarters to bathe in, they will relish the favor and comport themselves as decent beings should. If the Board of Trade does not see fit to bring this matter to the notice of the council, it is to be hoped that the members of the council themselves will take it into their serious consideration, and ere the season closes have a bathing house erected which will be a source of pride and a blessing to the village.

PERSONALS

Mrs. Dunn left last week on a visit to Banff and points in British Columbia.

Mr. Bryan Bellasis, who has been touring for the last year in South Africa, arrived quite unexpectedly, at his home at Young's Point last week, accompanied by Mrs. Bellasis.

Mrs. G. Dunn, who was in Lakefield for a day or two last week, has returned to his fruit farm at Grimsby.

Miss Down, who was a welcome visitor at Young's Point two years ago is returning shortly on a visit from England to Mr. and Mrs. Stuart.

Miss Sylva Strickland, accompanied by Miss M. Owen, left on a visit to friends in Toronto last week.

Mr. and Mrs. Lingwood have left Lakefield for their summer cottage at Stony Lake.

Miss Winnie Palmer, of Peterborough is in the village, the guest of Mr and Mrs. DelaFosse.

ANNUAL PICNIC.

The Baptist Sunday School held its annual picnic to Mount Julian on Tuesday, July 2. The party about 125 in number, went up by the steamer Empress and had a right royal time to which the ladies by their catering, and the gentlemen by their participation in the children's amusements, largely contributed. Rev. G. V. Collins, pastor of the church, Mr. Kidd, superintendent of the Sunday school, and Mr. A. W Record had general charge of the outing.

The Charge Was Not Sustained

Complaint of Fast Auto Driving Dismissed

Ozias de LaPlante pleaded not guilty in police court this morning to the charge of driving his automobile on the public highway on Charlotte street, faster than ten miles an hour on July 3rd.

After hearing the evidence His Worship did not think there was sufficient to make a conviction and he dismissed the case.

P. C. McDonald, was the first witness called. He stated that on the evening of July 3rd, about 10.30 the defendant came up Charlotte street in his machine and turned up George street. He was going at an exceedingly fast rate. Witness would judge about 13 or 15 miles an hour was the speed. Questioned as to how witness could judge the speed, he replied that he had considerable experience along that line in his work in Chicago. There were some street cars at the corner and had there been anyone getting on them they would have been knocked down. No gong was sounded at the corner.

Mr Jack McCann, inspector of the street cars, was sworn, and stated that he could not say what speed defendant was travelling at. The street cars travel 13 miles an hour and he did not consider Mr. LaPlante was going as fast as they were. Autos were whizzing by at a great rate that night and he did notice Mr LaPlante's in particular.

Mr F. R. J. MacPherson was called. He stated that he had ridden in Mr. LaPlante's car and he did not think it ever travelled ten miles an hour. Automobiles seem to travel a lot faster than they really do.

City Clerk Armstrong testified to there being no street in Peterborough set apart for fast driving.

His Worship said that he hoped this would have a good effect on Mr. LaPlante and that he would not ride so fast in the future. Owners of autos should have more regard for the public and not have the people always in terror of being run down.

The case was dismissed.

No Meeting of Labor Council

There was no meeting of the Trades and Labor Council last evening owing to quorum not being present. The members informally discussed some matters, but no action was taken.

Will Meet Here On May 24th, 1908

At the election of officers of the Canadian Association of Bill Posters in Niagara Falls this week, C. C. Lindsay of Winnipeg, became president, T. J. Naylor of Deseronto, vice-president, Arthur B. Ware of Montreal, secretary and treasurer. The directors are Messrs. Ruddy of Toronto, Williams of Granby, Que., Telford of Niagara Falls and Seane of Chatham. The next convention will be held in Peterborough on May 24th, 1908.

KNOX CHURCH

It was unanimously decided, at a largely attended meeting of the congregation of Knox church last evening, to build a gallery across the west end of the edifice. Mr. David Hamilton occupied the chair, and the question of a gallery was interestingly discussed by the members of the church. In view of the fact that the congregation of Knox church is continually increasing, it was thought advisable to build a gallery and the contract will be let at once.

It was also decided to move the position of the choir seats to the front part of the church. The trustees of the church property were not appointed and will not be until the church is asked to appoint them by St. Paul's congregation, which recently handed over their interest in the property.

TOO MANY DEATHS.

A. O. U. W. In Michigan Forced to Give Up Business.

Detroit, July 11.—The grand lodge of Michigan, Ancient Order of United Workmen, have voted to surrender the charter. The death claims have accumulated faster than the receipts. The grand lodge faces an indebtedness of $100,000, to meet which there are only the June collections and a balance of about $50,000. In eight years the membership in Michigan has dropped from 23,000 to less than 3,000.

It is thought that present members who can afford to meet the premiums will be provided a way of keeping their insurance in force by dealing directly with the supreme lodge.

NORTHWEST LAND PRICES

Rumor That Rates Have Gone Up to the Prohibitive Point.

Ottawa, July 11.—Advices which have reached here are to the effect that the price of land in the Northwest has gone so high that intending investors from the United States have been driven back. This is laid at the door of the speculators, into whose hands much of the land has fallen.

It is claimed that the day of the bonafide colonist is just about done, so serious has the speculative system become, and that the development of the Northwest will be hampered, and the people discouraged by the operations of grafting financiers.

COBALT STRIKE.

Detective Greer With Posse of Constables on Hand.

Cobalt, July 11.—There is no change in the mining situation here.

It does not appear that to date any serious effort has been made to effect a settlement. The root of the matter is that the mine owners and mine managers will not give any recognition to the federation, though they will deal with the men as individuals.

Detective Greer and a posse of constables arrived to-day.

DIES IN PARLIAMENT.

Sir Alfred Billson Expires During a Division Excitement.

London, July 11.—During a division in the House of Commons last night, Sir Alfred Billson, member for the northwest division of Staffordshire, suddenly fainted away and then expired. The House immediately adjourned.

Important Arrests.

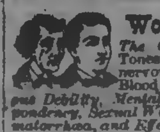
Parry Sound, July 11. Two men have been arrested at Depot Harbor, Parry Sound, charged with stealing a valise from the railway station. They may have some connection with the Flesherton fur clothing mystery, as a large quantity of ready-made clothing was found in their possession.

Pilgrimage to Shrine.

Quebec, July 10.—Fully 1,500 pilgrims from the Diocese of Ottawa arrived in the city about five o'clock last evening en route for the Shrine of St. Anne de Beaupre.

Six Drown.

Bangor, Me., July 10.—By the capsizing of a pleasure boat in Penobscot Bay late yesterday, six young men of Bangor were drowned.



Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

THE KING IN IRELAND

Dublin Bedecked With Flags and Arches.

Thousands Line the Streets and Cheer King Edward and Queen Alexandra—Suspect Taken Into Custody—Police Had Difficulty In Protecting Him From Vengeance of the Excited Crowd.

Dublin, July 11.—King Edward and Queen Alexandra, who arrived here from Kingstown yesterday afternoon, visited the exhibition.

Subsequently their Majesties passed in procession through the streets of Dublin to the viceregal lodge.

The dense crowds of people everywhere accorded the King and Queen the heartiest reception.

At Kingstown, where the royal yacht anchored in the harbor before daylight, the streets were bedecked with flags and triumphal arches. All the vessels were dressed with bunting and thousands of people poured into Kingstown from the country in order to witness the landing of their Majesties.

Suspect Arrested.

Holyhead, July 11.—Plain clothes officers who are accompanying King Edward and Queen Alexandra on their tour of Wales took a suspiciously acting individual into custody.

The man had hidden in the bushes alongside the approach to the residence of Sir Richard Bulkeley, just before the arrival of the King and Queen. As soon as he was discovered he made frantic efforts to escape, but was captured after a lively chase and lodged in jail.

The police had difficulty in protecting the prisoner from the vengeance of an excited crowd of people.

BOURASSA TALKS.

Says the Reports of His Political Movements Are Premature.

Montreal, July 11.—Henry Bourassa, M.P. for Labelle, being in the city yesterday, was asked what he had to say as to the truth of the rumors flying about touching his future political course.

"The news," he replied, "is, to say the least, premature. As a matter of fact, will we have a general provincial election this year? The present Legislature is only three years old and there is no reason, not even a constitutional pretext, to excuse a dissolution. The increase in the federal subsidy is an act of the Imperial Parliament, brought about by the wish of the Federal Parliament, so if the adoption of this measure necessitates or authorizes an appeal to the people it is London or Ottawa that should decree a dissolution. It would in fact be the height of absurdity to pretend that the Government of Quebec has the right to submit for the immediate approbation of the people of one province a modification of our federal charter, which equally concerns all the provinces which depends solely on the federal treasury, and for which the Federal Parliament is alone responsible."

CHILD BURNED TO DEATH.

Lightning Ignited Her Clothing, Her Body Badly Scorched.

Moncton, N.B., July 11.—During a severe electrical storm which swept this section Tuesday thirteen-year-old Mary Trites was killed by a bolt of lightning in her home, two miles from Painsec Junction. The child had gone upstairs in company with her little sister to lower a window, and had just placed her right hand on the sash when there came a terrific peal of thunder, followed by a vivid lightning flash. Almost instantly the clothing of the little girl sprang into a blaze, and she was hurled back against the foot of the bed which stood in the room. The other child, frightened by the thunder, threw herself on the floor and cried out to her mother. When the latter rushed upstairs she found the eldest child on the floor terribly burned and lifted her onto the bed, where she expired a few minutes later. Her arm and breast had been fearfully burned, and it is thought that her back was broken by the shock. The child was a daughter of George Trites, I. C. R. section foreman. The house was badly damaged by the bolt.

KNIGHTS OF PYTHIAS.

Officers Who Will Have Charge for Coming Year.

Toronto, July 11.—The Grand Lodge of the Knights of Pythias have elected officers as follows:

Grand chancellor, B. Dunlop, Petrolea; grand vice-chancellor, A. R. Whyte, Hamilton; grand prelate, S. E. Gough, Strathroy; grand K. of R. and S., Alexander Coulter, Toronto; grand M. of E., John Burns, Hamilton; grand M.-at-Arms, F. B. Hubert, Brantford; grand inner guard, Thomas Manley, Sarnia; grand outer guard, H. J. Dilley, Toronto; supreme representative, W. C. Macdonald, Toronto.

Hamilton was chosen for the next place of meeting in July next.

Mayors Withdraw Resignations.

Paris, July 11.—It was officially announced yesterday that up to date 43 out of the 300 mayors and municipalities of the south of France have withdrawn their resignations tendered in sympathy with the wine-growers' movement.

Married At 90.

Parkhill, July 11.—An interesting wedding took place here, when Henry Hagerman, aged 90, was wedded to Mrs. Rumohr, aged 74.

Both have families extending into the third and fourth generations.

Got All Her Jewels.

Smith's Falls, July 11.—A porch-climber operated in Smith's Falls, when Senator Frost's residence was entered and all Mrs. Frost's jewelry, except what she was wearing, carried off.

David Adams of Hamilton, a striking carpenter, has been arrested on a charge of intimidation.

BOMBARDMENT OF TOWNS.

Hague Convention Presents Draft Proposition on American Views.

The Hague, July 11.—Count Tournelli (Italy), yesterday presented a new draft of the proposition on the bombardment of unfortified towns, based on the American views, in the name of the United States, Spanish, Dutch, Russian and Italian delegates.

It consists of six articles, as follows:

First—The commander of a fleet must spare historical monuments, churches and buildings used for artistic, scientific or benevolent purposes and hospitals, on condition that they are not used for military purposes and are designated by special signs, which must be displayed by the inhabitants.

Second—Before beginning the bombardment of a town the commander of a fleet must do all in his power to inform the authorities of the town of his intentions.

Third—Pillage is forbidden, even in a town or locality taken by assault.

Fourth—The bombardment of undefended ports, towns, villages or buildings is forbidden, but any military works existing in otherwise undefended places can be bombarded if the local authorities refuse to destroy it.

Fifth—Undefended places can be bombarded if they refuse to furnish a fleet with necessary provisions.

Sixth—The bombardment of a town or village for refusal to pay a ransom is prohibited.

The propositions are considered to be important as they combine the ideas of all the countries interested in the question.

The sub-committee under the presidency of M. Berbaert, dealing with the laws and customs of land warfare to-day, after a discussion, during which a number of new propositions were accepted, decided to appoint a special committee to draft a new convention.

The German proposition that belligerents should be obliged to give notice of the formation of militia and volunteer corps and make them wear uniforms was rejected by 24 to 10 votes. Ten members of the sub-committee were absent.

DARKNESS FOR OTTAWA.

Dispute Between City and Electric Light Company Serious.

Ottawa, July 11.—Ottawa City is in a serious position. In ten days it may be without light. The Ottawa & Hull Power Company has given until July 20 for the signing by the Ontario Hydro-Electric Commission, which really means the city, of a new agreement for the supply of power for the civic electric plant.

The company submitted to Hon. Adam Beck and Mayor Scott a couple of days ago an agreement which it would accept in place of that endorsed by the city council and which the Hydro-Electric Commission was trying to have the Hull & Ottawa Company sign.

The main point of difference between the city and the Ottawa & Hull Power Company is over the rebate question.

TRACTION MERGER A TRUST.

Court Decides That Merger Is a Monopoly.

New York, July 11.—Judge George C. Holt, in the United States Circuit Court, Tuesday stamped the Ryan-Belmont traction merger a monopoly in violation of the corporation law of New York and paved the way for the dissolution of the iniquitous combine.

The decision is the most important in its bearing upon the local transit situation that has been rendered since Ryan and Belmont effected their notorious combine of all the transit facilities in Manhattan. It means that a battle royal must be fought for the control of the streets of New York, with the issue strongly and sharply drawn between competition and monopoly.

To Ryan and Belmont personally it means that they must vindicate their legal rights to the $108,000,000 of water which they pumped into the Interborough-Metropolitan Co. at the time of its formation as well as to the millions of profits of the combine which are to be realized in the future.

ENGINE BLEW UP.

Engineer and Fireman Blown Twenty Feet In the Air.

Montreal, July 11.—A freight engine of the Central Vermont blew up near St. Albans, smashing into a thousand pieces. Three men were seriously injured. It also smashed a number of loaded cars and tore up the track.

Driver James Scott and Fireman Robert Wood were hurled 20 feet away and terribly mutilated. Brakeman George Stanton was on top of the car next the engine. He was hurled through the air, lighting in the ditch, fracturing both arms.

The conductor was unhurt. He wired up and down the line of the wreck. Nothing was left of the engine at all.

Five Year Medical Course.

Ottawa, July 11.—When the Ontario Medical Council meets at Toronto next summer it will likely have before it the vitally important suggestion to formally ask all the Canadian universities to make their present medical four-year course a five-year one.

King's Physician Dead.

London, July 11.—Sir William Henry Broadbent, physician in ordinary to King Edward, and the Prince of Wales, and who for a long time attended the late Queen Victoria, and others of the royal family, died yesterday. He was born in 1835.

Riding Master Killed.

New York, July 11.—Vincent Di Marco, riding master, who had taught the equestrian art to many of the society women of the younger set in New York, was killed on the bridle path Tuesday night.

In the Doukhobor reserve at Yorkton 1,360 sections were offered and 920 have been entered upon.

WEAVING CO'S BY-LAW TO-DAY

Brisk Voting When the Polls Opened at 9 O'clock

Voting on the Colonial Weaving Co.'s bylaw started off very brisk at nine o'clock this morning. It was surprising the number of votes that were cast within the first few minutes. But the rush soon fell off and there was not much doing all day, except at noon hour, a few more freeholders got around. The friends of the company did a lot of work and it is felt that the bylaw will have a majority of votes.

Printers' Outing On Civic Holiday

The committee from Peterborough Typographical Union, having in hand the annual outing on Civic Holiday will meet this evening to complete all arrangements for the event. The steamer Otonabee has been secured and the excursion will be run to Idyl Wyld. As the printer's outings of past years, have always proved enjoyable affairs, it is safe to predict that this year's excursion will eclipse all previous efforts. A splendid programme of sports will be arranged by the committee, as well as other attractions which will tend to make the affair the leading excursion of the season.

SOME MEMBERS OF CITY COUNCIL

Want to Engage Officials Assistants—Business Man Calls it Nonsense

"At the council meeting on Monday night," said a well known business man, who has had considerable experience in engaging, and controlling men, and also municipal employees, "I noticed that some of the aldermen and the mayor, spoke very strongly in favor of the council engaging and paying all its employees. When the council starts that then their trouble begins."

It might be mentioned that the matter of the council engaging and paying all the assistants of the city officials, came up when the salaries of a couple of the officials were under consideration. It appears that in order to hold their assistants the officials have to pay more money, and they in turn are looking to the council for re-imbursement.

Continuing the gentleman said.; "I should think the aldermen would jump with both feet on anyone who would dare suggest such a thing. The aldermen have troubles enough without looking for more, at least it was that way when I was in the council. Take for example the recent disturbances at the fire hall. The council engaged and pays those men. Then they put in a foreman to look after them, who has no authority over them, except that of a diplomat, and his only recourse is to appeal to the different committees who are paying the men. He cannot say to any man, 'do this or do that,' with the same authority as a foreman or official who engages his own men.

"Supposing the city clerk or the city treasurer were put in the same position and an alderman pulled wires and had a friend put in as assistant, who was incapable, or lazy. The city clerk would be in hot water all the time and he could not release his assistant without the permission of the council. The result would be constant friction and unpleasantness. Take also the street commissioner. It is true, the city pays those men direct, because it could not be done any other way. But the commissioner engages his own men and fixes the price to be paid for their labor, and he discharges any man who is not satisfactory. Would he not have a nice time if all the men under him were engaged by the council! Would not the aldermen be given a grand opportunity to make votes and political friends by giving these men a job on the corporation!"

"In my opinion," concluded the gentleman, "such an idea on the part of the aldermen is utter nonsense. If the city officials are not capable of engaging good assistants and having the work done properly, and if they are not honest enough to pay their assistants what they say they do, then it is time to get new officials. In the case of Peterborough the past councils have made exceptionally good selections, and a better and more honorable lot of men cannot be found. Then, why take away from them their authority over their assistants and leave the way clear for trouble of all kinds."

The freight rates on east bound cargoes from Quebec, are to be increased, as a result of the increased cost of labor.

Practically no Hope That Boy Might Not be Drowned

Twelve Year Old Jack Lefebvre Has Apparently Met His Death in the Waters of the Otonabee—Auburn Dam the Scene of the Accident.

The Otonabee river today claimed its first drowning victim of the season. Jack Lefebvre, the 12-year-old son, of Ernest Lefebvre, whose home is at 872 George street, is believed to have met his death in the turbulent current of the Otonabee, just south of the Auburn dam, about 11 o'clock this morning. The circumstances surrounding the boy's disappearance are of such a nature that there is little doubt but that he has been drowned. As no one saw him fall in and the body has not yet been recovered, there is no absolute proof that the boy hae met his death in the waters, but as already stated, there is practically no hope that such may not have been the case.

WAS FISHING.

In company with his uncle, Mr. Hosanna Brion, young Lefebvre went fishing this morning near the Auburn dam, just north of the Peterborough Radial Railway Company's power house. They cast in their lines a few hundred feet above the dam and fished there for a time. Then the boy stated that he was going down to the dam to try his luck, as some good catches had been made at the dam. Mr. Brion remained where he was, and the boy moved down to the dam, and Mr. Brion could see him sitting on one of the piers with his line cast in the water. Mr. Brion paid no attention to him and continued fishing for some time. After about a quarter of an hour he went down to the dam to see what luck his nephew was having, but was surprised to see the rod lying on the pier, with line in the water, but no boy in sight. He called several times, but there came no answer, and at once the fear rushed in upon him that the boy had slipped off the pier and fallen into the river. As everyone knows, who has visited the spot, the current is very swift at this point. The water tumbles over the dam, and rushes down the stream in a churning, turbulent state. The pier where the boy apparently was sitting is towards the west side of the bridge. There was a chance that the boy might not have been caught in the central current, and ever since the alarm was sounded, men have been watching along the west shore, equipped with poles to pull in the body if it should be discovered, but their quest was in vain. If the boy fell into the central current he would be caried down the stream so rapidly that there is little chance of the body being recovered, except in Little Lake.

LAST HOPE GONE.

The accident happened about eleven o'clock. As no one saw the boy fall in there was some hope that he might have dropped his line to go somewhere else, but when he did not return at the noon hour, the last straw was gone.

The boy's father, Mr. Ernest Lefebvre, is working in Toronto at present and he was telegraphed at once in regard to what had happened. The family at home consists of the mother, four brothers and five sisters. Jack was a bright, active boy, and his untimely end caused deep regret.

Men are still searching for the body, but have almost given up hope of finding it.

Another Lindsay Man Arrested; Round Up of the Counterfeiters

Robert Logie Taken into Custody in Toronto Just as He Was Ready to Start on a Hurry Journey to Buffalo—Six Men Are Now in the Cooler.

A Toronto despatch says;

An added sensation in the round-up of counterfeiters was afforded in this city yesterday, when Robt. Logie was arrested in the act of boarding a C.P.R. train with a ticket to Black Rock, N.Y. He is in No 3 police station, charged with passing counterfeit bills of Montreal.

Logie is alleged to be the sixth of the big men of the Lindsay haul whose duty, in company with John Eveleigh, was to "shove the queer."

Detectives Tipton and Wallace gathered in the suspect just as he was at the train. The sleuths who had information that the man had been in the city since July 2, when Eveleigh was arrested, went to the station on chance. With only a photograph, taken many years ago, to give them their clue, and seeing a man who resembled it, they walked up to him and Tipton, with a smile grasped the man by the hand, saying, "Well, well, Mr. Logie, this is good." Wallace also crowded in for a grip of his hand.

Logie was taken aback.

"I guess you've got the advantage of me," he said, but Wallace was back at him before he had a chance to think.

"Oh, but we have the right name haven't we?" he queried.

"Why, yes." Then he was taken to headquarters.

There Logie, who is over 60 years of age, faced Inspector Duncan, Dominion Inspector Parkinson, Provincial Inspector Rogers, and Detectives Tipton and Wallace, for over an hour, but gave little information.

He will appear in the police court this morning and will be sent to Lindsay, where all the prisoners will be gathered for trial.

Logie had with him about $50 good cash. In his grip was only such wearing apparel as might be taken on a short trip.

Tipton and Wallace identified the man by a photograph taken at least ten years ago, and by the description furnished by Inspector Parkinson.

Inspector Duncan said last night it was all over here. The money had never been shoved here.

The Logie family is one of the oldest families in the vicinity of Lindsay. Bob and his brother own one of the most beautifull farms along the banks of the Scugog.

Logie's grandfather was a captain in the British army. Mrs. Logie was a typical English lady of education and refinement. They were given a large portion of land near Lindsay by the government thinking that it would induce other families to settle there. They raised their family and to the father and boys was given the homestead. The Logie family used to visit Montreal in those days, and visited a considerable circle of friends. One day Robert's father was near the St. Lawrence. A young lady—it turned out to be a daughter of Colonel Sands, a wealthy and influential citizen of Montreal, had fallen into the water. Logie, at great peril, rescued her and ultimately they were married. Logie, however, drank heavily, and his two boys, as soon as they were able, had to work for their father would not. Matters went from bad to worse, until Col. Sands took the matter into his own hands. Logie, sr., then became a soldier of fortune, and fought through the American civil war. As long as Col. Sands lived, he never came back.

The sons, Bob and Hank, as they are called, worked the farm for years and were successful. Their mother died last winter. Bob's undoing came when he took up with Charles Burke, his friends say.

Henry Logie has not come in for any suspicion. He is highly respected.

Logie is far from being a typical green goods merchant. He is tall and slim and a very bad dresser, and not smooth looking.

"It is the most peculiar case I ever heard of," said a prominent Lindsay man, when he heard of Logie's arrest. "Not one of the men arrested have brains enough to pull off this work so successfully for such a time. There is more behind this, and I would like to see the finish of it. I fancy there will be something doing."

Sun Spots Are Back Again; Display of Aurora Borealis

Dr. Marsh states that the group of spots on the western limb of the sun are disappearing.

Astronomers are now of the opinion that the aurora borealis, or "northern lights," is caused by the disturbances on the sun's surface or "sun spots," as they are commonly called. No doubt many Peterborough people witnessed the brilliant display in the northern heavens last night. At any rate a Review representative did, and today called up Rev. Dr. Marsh of Springville, and secured some interesting information regarding the northern lights and their cause.

It will be remembered that a few days ago, an item appeared in the Review to the effect that the sun spots had disappeared, but that they would likely appear again when the revoluting of the sun on its axis brought the surface of the solar body upon which the spots were located in view of the earth again. This was the opinion of Rev. Dr. Marsh and true enough the spots are visible to the astronomer again. Dr. Marsh discovered them yesterday, while viewing the sun and states that there is one group on the eastern limb, and another disturbance on the western limb of the sun's surface. Whne there are two distrubances opposite each other in this manner, they cause what is known as a "magnetic field" and the magnetic disturbance will make itself felt on the earth, as was the case when the sun's spots were visible a couple of weeks ago. The fact that there was an unusually brilliant and beautiful display of the aurora borealis last night strengthens the theory that the solar disturbances are the cause of the "northern lights."

MAKES CORRECTION

To the Editor of the Review

Sir,—I wish to dispute the article published in Tuesday evening's Examiner, refering to the mistake in changing horses at Chemong Hotel. The mistake occurred by the first man taking the wrong horse; thus when the second man appeared he exclaimed that I was giving him the wrong horse.

I beg to say the fault lies with the fist man, and not with me, as the man harnessed his own (supposed) horse and drove away.

JOHN CATCHFORD.
Chemong Park, July 11th, 1907

Prominent Man Has Passed Away

Death of Mr. Andrew Young, Ex-President of Cheese Board

One of the oldest and most highly respected residents of Smith township passed away early this morning, at Nicholls Hospital, in the person of Mr. Andrew Young. The deceased had been ill only a little over a week. He underwent an operation a few days ago, from which he never recovered. The late Mr. Young was 80 years of age. He was born in England, but came to this country early in life, settling in Smith. He was highly esteemed by all who knew him and was a prosperous and well-to-do farmer. For many years he was prominently identified with the Peterborough Cheese Board, being president and salesman for the Central Smith Dairy Company. In religion he was Baptist, and in politics he was a Liberal.

His wife, three sons and four daughters are left to mourn his loss. The sons are; Thos., of Alexandria; John, of Glenberry, Man., and Jas., of Smith. The daughters are Mrs. John Archer, of Smith; Mrs. Jas. Montgomery, of Dundalk, and Misses Mary and Bessie, residing at home. One brother, Thos. Young, of Smith, and two sisters, Mrs. Wm. Paul, also of Smith; and Mrs. Neil McDonald, of this city, also survive him.

The funeral will take place on Saturday afternoon at 2 o'clock, from the family residence, 4th Line of Smith, to the Little Lake cemetery for interment.

STOCK MARKET QUOTATIONS

New York, July 11.—After opening higher under the influence of a higher range from London, the stock market sold off again to about yesterday's low levels, and then grew dull. The same factors were at work today as yesterday, but their effect has worn off to a large extent and in the afternoon, when the market presented a sold-out appearance, a rally set in which carried prices back to near the high for the day again. Reading and Smelting were under special pressure today, while B.R.T. and New York Central were stronger on short covering. The same waiting tendency is manifest and irregularity may be expected for some time to come, but some good authorities look for the rally to go quite a bit further in the near future. The closing was irregular, without particular tendency.

THE TRENT CANAL

The following letter appears in the Toronto World today;

Editor World; The need of the canal could not have been better demonstrated than by your correspondent, J. H. Duthie. The objection to so small a canal is a mistake. A smaller canal, the famous Bridgewater, built to carry coal in Lancashire has paid well. It might be wise to deepen the canal to Trenton.

W. A. Bailey.
Peterborough, July 10, 1907.

Charlotte Street Sunday School

Enjoyable Outing Held to Idyl Wyld and Jubilee Point

The annual Sunday school excursion of the Charlotte street Methodist Sunday school was held yesterday to Idyl Wyld on the new steamer Otonabee. About three hundred were on board and a very enjoyable time was spent. Idyl Wyld was reached in time for dinner, after which a number of races was run off. The steamer then came on to Jubilee, where supper was partaken of, and the homeward trip was commenced, reaching Wolfe street wharf about eight o'clock.

The races resulted as follows,—

Sen. Girls', 100 yard dash—1, Miss Alice Hopkins; 1, Miss Florence Wilson.

50 yard, egg and spoon race—1, Miss Bertha Sanderson.

50 yard, threading the needle — 1, Miss B. Sanderson, 2, Miss Maud Morton.

Girls 12 to 16, 75 yard dash—1, Maud Patterson;

50 yard, egg and spoon race — 1, Maud Titterson.

50 yard, threading the needle — 1, Lulu Bushnell.

Girls, 9 to 12,—

50 yard dash—1st, Kathleen Moore.

50 yard boot race—1, Alta Hopkins.

50 yard egg and spoon race—1, May Williams.

50 yard three-legged race—1, Gladys Patterson and Madeline Pierce.

Boys, 16 and over,—

100 yard dash—C. Frowde.

50 yard sack race—C. Frowde.

Putting the shot—1, F. Austin; 2, A. B. Armstrong.

Boys, 12 to 16,—

75 yard dash—1, B. Marshall; 2, Max Cuncannon.

60 yard boot and shoe—A. Austin.

60 yard sack race—R. Marshall.

60 yard three-legged race—C. Stewart and A. Jobbitt.

Boys, aged 9 to 12,—

75 yards dash—Clare Stewart.

50 yards, boot and shoe—A. Austin.

50 yards sack race—Art Jobbitt.

50 yards, three-legged race — Art. Jobbitt and Clare Stewart.

Primary department, under nine years,—

40 yards dash—Frank Montgomery.

40 yards boot race—Frank Montgomery.

40 yards, egg and spoon race.—Fred Sheppard.

COME ONE, COME ALL

FOUND

A pair of gold rim eye glasses is awaiting an owner at the police station.

LIBRARY'S HALF HOLIDAY

The public library will be closed on Thursday afternoon's during July and August. It is closed this afternoon for the first time.

ASSIGNMENTS

Cullen Bros., of Lindsay, foundrymen, have made an assignment to Mr L. R. Knight. Mr. E. Fluke, of Peterborough, saw filer, has assigned to Mr. D. J. Lynch.

ST. LUKES' OUTING.

The annual outing of St. Luke's Sunday school was held down the river today to Idyl Wyld. A large number left the city at 8.30 o'clock this morning.

THE GLORIOUS TWELFTH.

Tomorrow the fife and drum will reround throughout the land, the sons of William gathering at many places to keep green the memory of the Prince of Orange. Many from Peterborough will accompany the local lodges to Millbrook, while others are going to Havelock, where a big celebration is being held.

HIT BY BRICK

Mr. George Blodgett, who works at Curtis Bros.' brick yard, in the east ward, on Monday sustained a severe accident. While loading bricks into a waggon, he was struck on the head by three bricks which were thrown to him by a fellow employee, before Mr. Blodgett was ready to catch them.

GOING TO MILLBROOK.

The 57th regiment band has been engaged to go to Millbrook tomorrow with the local Orangemen and will head the procession from the L. O. L. hall on Simcoe street, to the G. T. R. station where the lodges from this district will entrain at ten o'clock in the morning.

THAT COMICAL SKATER

Visit Scott's Coliseum, Jackson Park, the popular resort for moving pictures, and see "The Unskillful Skater"; have a good laugh; also see "The Lightning Crayon Artist," The two pictures for the one price of admission, 5 cents. Matinee 2. to 5. Evening 7 to 10. Change of programme Thursday.

MUSICIAN HONORED.

On Friday evening, June 29th, the members of the Omemee Methodist choir, after their usual practice hour, met at the home of Mrs. T. C. Ivory, where an address was read, in behalf of the choir, by Miss Lila Parsons, to Miss Maud Balfour, who is leaving in a short time for Winnipeg.

A MATTRESS WONDER.

Now on exhibition in E. B. Clegg & Co's. furniture store window. An Ostermoor Mattress made in 1853, in continuous use for 50 years, is still in good order. Call and see it and the certificate of the reputable Canadian citizen who used it. We sell Ostermoor Mattresses made the same to-day as 50 years ago. E. B. CLEGG & CO 6d

APPOINTED TO ORGANIZE

A Hamilton despatch says;—Allan Studholme, M.L.A., for East Hamilton, has been appointed an organizer for the Trades and Labor Congress. Mr. Studholme gave up his position as a moulder at the election and has not since been employed.

WON GOLD MEDAL.

Many friends of Dr. and Mrs. R. Coughlin will be pleased to hear of the success of their daughter Nellie, at her recent examinations at Loretto Academy, Hamilton. In the University examinations in music, Miss Coughlin not only passed with honors, but won the gold medal for the highest standing in that subject. —Hastings Star.

CANDIDATES INITIATED

Marathon Lodge, No. 89, Knights of Pythias, held a regular meeting last night, when several candidates were initiated into the order. Three degrees were also conferred on several members, and a number of applications for membership were received. Marathon Lodge is very prosperous and it promises to be one of the best lodges in the city.

A RUNAWAY

A runaway occurred this afternoon about 2.30 o'clock, when Mr. J. C. Sullivan's delivery horse and wagon took fright and started off out Hunter street. It only got as far as the Peterborough House, when it was caught. Very little damage was done.

MR. HOLGATE SELECTED

An Ottawa despatch says: — The Intercolonial Railway will be represented by Mr. Henry Holgate, C.E., of Montreal, formerly of Peterborough on the board of conciliation and investigation, which will enquire into the demands of the freight handlers in Halifax. The latter have not yet named their representative

In a Little Canoe On the Otonabee

Experience of a Scribe Who Went Fishing

It has been remarked several times the past week or two that the streets are very quiet in the evenings. The solution is very simple. The young people are down the river or on Little Lake boating and fishing and many boats and young men are in swimming. Last night there were at least two hundred young people on the water in small boats. The river from Rye's boat house to Telephone Point was dotted with skiffs and canoes, while several launches were sliding up and down the stream all loaded with happy passengers. The night was a beautiful one to be on the water. The air was warm and the river was as smooth as a sheet of glass while the shadows in the water and the stars in the heavens and all other things the girls make occasional comment upon were as charming as pictures.

From supper time until about dark small boats were shoved out into the Otonabee and one, two or three young people supplied with paddles, cushions and lazybacks climbed in and started down stream. There were girls in dark cloth dresses and girls in white and mild colors. Some wore stylish hats covered with ribbons and flowers and others had no hat at all. It was all the same and all enjoyed the water.

One young man, he's not so young either, who has had many fish stories handed him to publish in one of the local contemporaries, thought he would like to try to fish himself. He does not often leave his office for fear that he would miss a news item. But for a day or two he studied the habits of the game fish and the map of the river, and after getting a lot of sure tips on where or how to catch the finny creatures he made up his mind to go. Verry early in the evening he secured a canoe from the Otonabee boat house and with his bait and trawling line concealed in his coat made a brave start. He first paddled down stream a little way to get out of sight of the city people and then he let out the line. Mr. Wm. Green often told him when trolling alone to hold his line in his teeth and then paddle slowly. This the amateur fisherman from the newspaper office did and for a mile or two everything went lovely. There were no easy fish round and the line was not disturbed. But just as the scribe was building airy castles and thinking what he would do if he only had a girl with him his hooks caught on one of the buoys and gave the line a jerk that it slipped out of the fisherman's mouth and disappeared. It was the only one he had and he was "really quite disappointed." But all the cuss words the scissor artist had ever heard would not bring that line back and it cost him 25c at the bargain counter

REMODELLING MOLLY.

Mr. H. Rye, proprietor of the Otonabee boat house, is busy remodelling the steam yacht Molly, recently purchased by Mr. J. R. Stratton. It is being repainted and fitted with brass trimmings and decorative fixtures. It will be launched Friday evening and christened Alberta. On Saturday it will leave for Stony Lake.

Allen's steam yacht Tootsey, took a jolly party of young people down the river last night and after two or three hours very pleasant sail returned to her wharf near the Otonabee boat house.

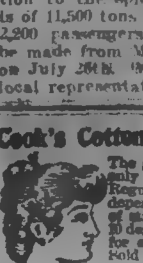
Nearly every evening there is a little picnic on the pretty green bank just west of Rye's boat house. Last night a score or more of young ladies enjoyed their tea and a couple of hours chat in the open air beside the water.

Mr. Rye has received instructions from the Donnelly estate to overhaul the handsome steam yacht Strathmore, which has been in dry dock near his boat house since last summer. It is to be ready to launch and go to Stony Lake by July 18th, where it will be used during the summer by members of the late Mr. Donnelly's family.

A NEW GREYHOUND

The Allan Line has a fine, new steamship which will shortly be placed in commission. It is called the Corsican and is the largest addition to the splendid Allan fleet. It is of 11,500 tons and has a capacity of 2,200 passengers. The first trip will be made from Montreal to Liverpool, on July 26th. Mr. W. McIlroy is the local representative of the Allan line.

Cook's Cotton Root Compound.



The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

COMMITTED ON ONE CHARGE

Four Pickpockets Before Magistrate Dumble Yesterday

The police court room was crowded and standing room was at a premium yesterday afternoon, the interest centreing in the case of the four pickpockets.

Chas. H. Philips, Ray Bradford, Henry Lewis and Harry Goldforb, came up for their preliminary hearing. They were committed for trial on a charge of robbing William J. Hurl, of Young's Point, and a man by the name of Hartley, on circus day, June 25th. There are three more charges of the same offence on the same day against them.

The court did not adjourn until seven o'clock last evening, and it was indeed a very busy day. Mr. G. N. Gordon and Mr. F. D. Kerr appeared for the prisoners. They did not elect how they should be tried, nor did they plead. Crown Attorney R. E. Wood conducted the case for the Crown, and the preliminary hearing was proceeded with.

WITNESSES EJECTED.

Mr. Kerr, for the defence, asked that all witnesses not being examined, leave the court room. This was agreed upon, and the witnesses left the court room, with the exception of P.C. McDonald, who was to be called by the Crown. The defence also asked that he be sent out, but His Worship would not allow him to go, as he was the only policeman in the room. The defence raised such objection to his presence that the Crown decided not to call him, and the evidence was proceeded with

WM. J. HURL.

Wm J. Hurl, of Young's Point, was first called. He came to town to go to the circus on June 25th. He had $13.00 on him in the morning, but spent 50 cents getting dinner. Witness was helping his daughter on to the car at Simcoe street, and while he was doing that a young man crowded in behind him, shoving him. The young man said to witness; "If you weren't smoking they would let you in." Witness felt something at his right hand pocket. When he got to the next corner he found his pocket book was gone. He recognized Philips in court as the one who shoved him and who was behind him. The money consisted of a five dollar bill, 3 two dollar bills, and a one, and 50 cents in change. The five was a Toronto bank bill. Witness and his daughter got off the car at Charlotte street and came up and told a policeman. His daughter still had some money and they went on to the circus About seven o'clock in the evening witness again recognized the prisoner in a cell at the police station as the man who robbed him. Mr. Kerr, lawyer for the defence, subjected the witness to a severe and close cross-examination, and got him rather mixed up.

P.C. NEWHALL.

P.C. Newhall was the next witness called. He stated that on Tuesday, June 25th, he left home exactly at one o'clock. At Lansdowne street, where the cars turn to the circus grounds, he noticed the four, and he immediately suspected them as pickpockets. The crowd at this time was quite large, and these fellows kept shoving and jostling among the throng. They did not go into the circus, but kept around the grounds, about 10 feet apart. Witness boarded the car while the four went by way of new George street to Lake street, where they boarded the same car witness was on. They rode on up, and at Brock street an old gentleman, who witness afterwards learned was Mr. Hartley, boarded the car with his arms full of parcels. Philips and Bradford were in the front vestibule Philips did all he could to prevent him getting into the car. Witness saw Bradford take something out of Mr Hartley's pocket. They went on to Central Park, and they got on another car, as also did witness. At the time Goldforb and Lewis were interfeing with the people, that is, feeling back of their coats and pockets. At Charlotte and George street the four left the car and went out Charlotte street. Witness then came on to the police station and put on his uniform. In consequence of a conversation with Mr. Larmonth, the police officer returned to Charlotte street. He again saw the four on the street car. Bradford and Goldforb were right in the crowd. Philips and Bradford were in the vestibule, and witness stared at Philips, and almost at once the four got off. The four got on another car and went down to the exhibition grounds. P.C. Newhall spoke to P.C. McDonald and Detective Brodie at the grounds to watch their movements. He then went home and changed his clothes, and returned shabbily dressed, and few recognized him or little thought that he was a police officer. Another car came down, and the four were noticed shoving the people back and forward. They did not get off the car, and witness returned up town with them. They came up to the Commercial House and all went in, except Goldforb, who, when he saw another crowded car coming told the other three and all boarded it. They were in different parts of the car, Goldforb being at the rear end of the trailer. It was just two o'clock when they got to Simcoe street, where Mr Hurl and his daughter got on. ~~The car was~~ crowded. Philips was on the west side and made room for the young lady, but kept shoving Mr. Hurl and witness noticed Bradford take from Mr. Hurl's pocket a buckskin bag. He also noticed Goldforb trying a pocket at Charlotte street. They got off and went into the crowd. Goldforb trying the third person, got some bills and walked across the street and put them in an inside pocket. Philips and Bradford were arguing with a man and Bradford put his hand in the man's right hand pocket. The officer kept watch on every move they took. At the exhibition grounds they were conversing about P.C. McDonald and Detective Brodie. They also spoke of going fishing and about leaving on the afternoon train. On the return trip again they were shoving ad jostling the crowd, and one man told Goldforb to stop shoving or he would knock his head off. They came on up and went into the Commercial House and called for four drinks. Goldforb took off his Christy hat and put on a grey cap. He looked out and said, "Not a cop in sight." At the same time Newhall was standing beside him. Witness went and telephoned for assistance, and Mr Larmonth kept watch on them. The officers from the police station soon arrived and the four were taken to the station. P.C. Newhall then related the conversation between himself and the prisoners, also the amount of money found on them at the police station, which has been published before in these columns. They all denied knowing each other or ever picking a pocket. Last Wednesday, when being further examined by Detective Anderson, a fifty dollar bill was found on Philips, altogether about $200, besides a gold watch and chain and a gold ring were found on them. Mr. Wainwright, former engineer of the fire brigade, found a pocketbook at the crib work near the lake, down George Street. It had printed on it J. W. Burns and contained several pictures of actresses, and a complete route of the circus and the dates of its visits.

Mrs Bradford, wife of prisoner Bradford, and his mother, sat throughout the whole afternoon listening attentively to the evidence. When the prisoners were taken back to their cells they seemed quite happy and were talking and laughing.

They will be tried on other charges tomorrow.

Band Concert in Victoria Park

An Excellent Programme Will be Rendered in Victoria Park This Evening

The following musical festival programme will be rendered by the Salvation Army Band this evening in the Victoria Park, at eight o'clock, under the leadership of Bandmaster J. M. Greene.

Opening march, "The Captain."
Selection, "Echoes of the Congress" with special solos.
Quartette, "Nearer to the Lord," with band accompaniment.
March, "Proclamation.
Selection, "Songs of Invitation."
Euphonium Solo, "Why did He love me so?"—Bandsman Boorman.
March, "Warrior."
Trumpet solo. "Onward, Yes, Onward," by Bandsman Northcott.
Selection. "Victory o'er Death."
Trombone solo. "Rocked in the Cradle of the Deep." with band accompaniment.—Bandsman Moynes.
March, "Prize No. 2."
God Save the King.

Banking by Mail

SECURITY a Vital Point

An important consideration to every one with money to deposit is the matter of *security*—the *strength* of the depository.

The immense resources of the Union Trust Company are represented by—

An Authorized Capital of $2,500,000.

A Paid-up Capital of $2,500,000.

A Reserve of $400,000.

4% Compounded Quarterly

Thinking people realize that *four* instead of *three* per cent. interest on savings deposits means *one-third* added to the *earning power* of their money.

To put it another way, it amounts to one-third clear gain to you.

Then why be satisfied with 3 per cent. when you can get 4 per cent. from the Union Trust Company?

Our booklet F sent free on request, gives full information on Banking by Mail at 4 per cent. interest. Write for it to-day.

GENEROUS GIFTS

Peterborough is indebted to the estate of the late Mrs. Nicholls for many generous gifts, and that the estate has been well and wisely administered by the executors is generally admitted. The latest donations will be welcomed. It will be observed that all the grants have been made for a specific purpose. The outlay in all reaches the handsome sum of $20,800. By the contribution of $300 to each of fifteen Sunday schools of the city, and $150 to two smaller schools they all will be enabled to have first class libraries By the gifts St. Andrew's and St. Paul's churches will receive much needed alterations and extensions, while the Y.M.C.A., the Y.W.C.A., the Children's Aid Society and the Nicholls hospital—all worthy institutions—have not been neglected. Peterborough owes a great deal to the late Mrs. Nicholls in the way of attractive public parks, a well equipped hospital, a splendid Y. M. C. A. building and many other bequests which might be mentioned, not to speak of the large hearted offer of a centrally located and admirably appointed public library building.

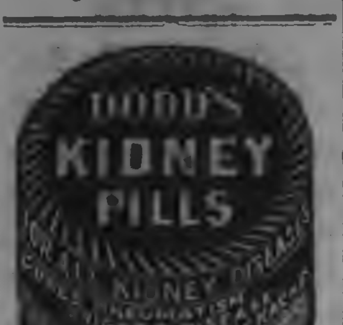
The citizens are indeed grateful to the executors of the estate and to the forethought and generosity of a noble hearted woman.

THE LIQUOR LAW

Evidently Magistrate Smith, of the township of Metcalf, in the county of Carleton, has taken a leaf out of Col. Dennison's book and sent a violator of the law to jail for four months, without the option of a fine. Local option has been in force in the township of Metcalfe for some time, but a hotel-keeper named Dowser, paid little attention to it, and in March last was found guilty of selling liquor and fined $50 and informed that if again convicted he would be sent to jail. He was a second time found guilty and, according to promise, received a sentence of four months' imprisonment without the option of a fine.

No doubt Dowser thought the liquor law would be administered now as under the Ross and other late Liberal governments. He will come to a wiser conclusion after spending four months in limbo, provided he is not released by the Minister of Justice on petition signed by hundreds of moralists.

Commenting upon the practise of signing petitions, the Canadian Courier makes some sensible and therefore pertinent remarks. It says, and says truly, that "Canada is rather given to regarding the United States as a country whose inhabitants adopt an over-lenient, not to say maudlin attitude towards rowdyism or crime. Those who sign petitions for the release of sentenced persons are encouraging the lawless element in the belief that sport includes rowdyism, and that freedom means a divine right to kick the man who is unfortunate enough to be umpire. The plea of lost temper is no excuse for brutality, for the man who has not learned, as Mr. Kipling's soldier remarks, "to sweat his temper," is not fit for the baseball field or any other. Manslaughter has not been altogether unknown in Canadian sport, and an ounce of prevention is worth a pound of petition.'



WILL THERE BE AN ELECTION?

There is considerable speculation in political circles as to whether or not there will be a general election this fall. It must be admitted that there are many circumstances that point to such an occurrence.

The only evidence we have to the contrary is an alleged pact which it is said was entered into between Sir Wilfrid Laurier and Mr. Borden, in which the premier gave the opposition leader his solemn promise that there would be no election until after another session, at least.

In spite of this assurance, if it really was entered into, there are many things that lend color to the story that the government will go to the people before the snow flies.

Things are undoubtedly in an unsettled state in government circles. With a lamentably disorganised Cabinet and many days of corruptional exposure piercing the government's side, even the fondest supporters of Sir Wilfrid are prone to admit that things are not as they really ought to be.

Sir Wilfrid is hastening home long before it was originally intended that he should return. Then, too, there is unusual activity in Liberal circles and the government candidates are being rushed into the field. Sir Wilfrid realizes that now is the opportune time to appeal, as things are going from bad to worse, and in view of these and many other things there is good reason to believe that an election is imminent.

Conservatives could not do better than become active and get their candidates into the field. There is an old adage, "in time of peace prepare for war," and it has significant application to this situation.

Even though an election does not come off and Conservatives have placed their men in the field, there is still an advantage gained, for it must be conceded that the candidate who has lots of time to work gains advantages that he otherwise would not. Many of the constituencies have been gained by having the candidates in the field over a year previous to an election, and thus would there be more than ample justification for such a course at the present time.

PEN POINTS.

Are you going to take part in the Orange "walk" tomorrow?

This is the second weekly half holiday. Are you enjoying it?

The next holiday will be Civic Holiday, Monday, August 12th.

Lindsay has troubles of its own, having to endure Mud, Mud, Mud and also a tax rate of 29 1-4 mills.

Get out your Orange lily—but you cannot. Why? There are none this season owing to the backward cold season.

The Provincial act says that The tenant of every property shall cut the weeds to the centre of the road, and the city Council should advertise the provisions of the act.

No member of the Canadian Bill Posters Association will post any bill of a suggestive or immoral nature. Any member violating this rule will be fined $100. Such was the resolution carried at the annual meeting this week when the members also decided to call upon the Dominion Government to establish and maintain a strict censorship of posters imported from the United States. The action of the bill posters in deciding to taboo "flaring posters" will have a good effect and will greatly strengthen public sentiment in this respect.

Cutting off the liquor supply in a strike region is a new policy, but its wisdom scarcely can be questioned says the Toronto News. Rioting generally is the result of inflammatory talk, and whisky always can be depended upon to produce this kind of oratory. The action of the Provincial Secretary in the case of Cobalt is worthy of commendation, for the task before Mr. Acland, of the Federal Department of Labor will be made somewhat easier thereby. Mr. Acland goes to Cobalt without invitation from either owners or miners—an indication that there is a praiseworthy lack of red tape and ceremony about the Department he serves. There should be no delay on the part of the disputants in securing the aid of the Federal officer to restore harmony.

The structural iron and steel workers of Montreal have quit work, demanding 40 cents an hour and a nine hour day.

Peterborough as Seen by A Visiting Newspaperman

Catholic Register Has Interesting Write-up of This City—Catholics of This City Are Progressive and Wide-Awake.

The Catholic Register this week contains an interesting "write-up" of some things that a representative of that paper was impressed by during a recent visit to this city. The article follows:—

"Taking advantage of the holiday in connection with the commemoration of the birth of the Dominion, the Catholic Register's representative took an outing to Peterborough and a very pleasurable outing it proved. The time happened to be opportune as to the life of the city whose name places it under the patronage of the great fisherman, St. Peter, Prince of the Apostles. A number of circumstances sufficiently important to be spoken of as events were in order, and in all we had a share.

The annual picnic of the T.A.S. or Total Abstinence Society, which for some time has had a high place among the societies of the Continent, the return from abroad of its director, Rev. Dr. O'Brien, and last, but by no means least, the confirming of over two hundred children by His Lordship the Bishop of the diocese, were all things that occurred during our visit. Peterborough strikes one as clean, wholesome and thriving, with just enough of the stir of business to give it a prosperous appearance and just sufficient of the languorous life of the country town to harmonize with the summer season and make it an ideal spot for summer outing. The Catholics of Peterborough make a fine showing in the matter of church property, their cathedral with its auxiliaries occupying some of the finest sites in the city, while their interest in education is of the highest.

HIS LORDSHIP OF PETERBORO'.

Many old friends will be pleased to learn that His Lordship, Bishop O'Connor never looked better than now and it is hard to imagine him as even nearing the autumn-tide of life's cycle, the erect and alert figure, ruddy complexion and dark hair showing but little of the changes due to the passing of time. His Lordship's voice is if anything, stronger than formerly, and the musically modulated words and tones when he addresses his people have gained in force without losing anything in their power of pleasing. His exceptional executive ability in business matters have placed the temporal affairs of the diocese on a most comfortable and satisfactory footing, and this, with the lively interest he displays in everything that concerns his people, have won for him the generous and pronounced admiration of all over whom he has jurisdiction. His Lordship is unremitting in his attention to the affairs of his diocese, and the geniality, simplicity, grace and practical piety that made him for many years the ideal priest of Barrie, are still with him as he exercises the larger functions of his work as the venerated Chief Pastor of the progressive diocese of Peterborough.

MOUNT ST. JOSEPH.

An ideal spot for a convent home is Mount St. Joseph, the Mother House of the community of St. Joseph for the diocese. Situated at the extreme west and just outside the city limits, the grounds, ten acres in extent, are located on a slope which gradually rises until the summit occupies a plane from which a fine view of the surrounding country may be gained. A closely cut and high hedge of cedar encloses three sides of the grounds, while the long path that leads up the gentle ascent to the house is bordered on one side by tall cedar trees and numerous bushes of blooming wild rose line the other. The building, formerly a private house, has lately had a new wing added. Long French windows open on the verandah and look out upon the well kept lawn and tennis court, upon the varying scenery of the blue and green of the environing country and upon the distant activities of the city. The house which we saw throughout is a model of cleanliness and dainty taste, its plainness being turned into beauty by the subtle touch of deft women's fingers. The chapel in ivory and gold, with immense peonies in its pink and white adorning its altar and greeting the visitor with their perfume, is a model of all things peaceful and pure. The stations are in miniature something like those in our own St. Paul's church, and the electric lighting is plentiful, as it is everywhere in Peterborough. The convent during vacation has fifty or more sisters within its walls and during the scholastic year is the home for the majority of those who teach in the schools, the old convent, opposite the cathedral accommodating the remainder.

THE HOSPITAL AND HOUSE OF PROVIDENCE.

The Hospital and House of Providence are on the same grounds at the east end of the city. The hospital is small but seemingly fairly well equipped. It accommodates about thirty patients. The House of Providence, finely situated on a high and roomy plane, is too small for the requirements of the city it serves. Ninety inmates tax its accommodation, and more room is most desirable. Its tiny chapel is the smallest oratory conceivable, the hall which opens from it serving as the body of the chapel. A number of old ladies were quilting, and one of them assured us they were all happy and that the Sister in charge was never known to be cross or other than smiling. Both institutions are in charge of the Sisters of St. Joseph.

ST. PETER'S SCHOOL.

In all probability Peterborough has the finest and best equipped separate school in Ontario. For completeness we know of nothing like it in Toronto. We have of course larger schools both Public and Separate, but for completeness of detail we have yet to meet its equal. The school occupies one of the three corners on which much of the ecclesiastical property stands. The grounds had to be raised several feet, but it is now smooth and level and surrounded by an ornamental fence, the front being of iron. The building is of brick with high foundations of stone and contains seven rooms, with cloak room for each. The lighting is all from the left, the windows taking up the entire side. Wainscoting of Virginia maple is seen throughout and above it slate blackboards run round three sides of the class rooms. Rooms for the teachers, a small library, cup-boards, nothing is lacking. Wide stairways running on two sides from the top storey to the bottom, together with the hose in every room, make provision for fire. The large basement has concrete floors and here the boys play in rainy weather. The heating, ventilation, plumbing and lighting are of the best, and the rows of taps and white basins show that cleanliness is part of the curriculum of the school. The top storey is a concert hall, fitted up with box office, and six hundred opera chairs, with a stage upon which two hundred children may be arranged, with drop-curtains and scenery, stationery piano, footlights and generous electric lighting. In the front hall with its wide stairway, a beautiful Union Jack floats, and here, too, a small organ is situated, to the sound of which the boys march too and from their classes. We had the honor of being shown through the building by His Lordship, who takes a just pride in the Cathedral school, as he does in all that pertains to the advancement of the children. Much more might be said, but even the foregoing will show that there are few schools that can compete with the St. Peter's, Peterborough.

DR. O'BRIEN'S RETURN.

Rev. Dr. O'Brien, who has been in Europe taking a few weeks' much needed rest, returned on Sunday morning, in time for the great picnic of the T.A.S. which was held the next day. The time announced for the train was 5.30 a.m. and forty of the stalwart men of the parish awaited his coming. The train was an hour late—meantime the welcome preparing was getting warmer and warmer, and when the beloved "Doctor" stepped to the platform he was greet with such genuine feeling that he declared it to be the happiest moment of his experience since he left.

The T.A.S. is a telling power in Peterborough, its influence working throughout the community, and an intoxicated man is something seldom witnessed. "Our pledge is just against the first glass," said Dr. O'Brien, "that's enough." At the picnic at which Father O'Brien appeared he was welcomed on all sides, and for all possible of the two thousand who attended, he had a kindly word of recognition. "Hello Fadder," called out a little lad of five as Father O'Brien stood conversing with a group of friends, "hello Fadder" called the piping little voice again, the first call not being heard, and this time the broad shoulders of the Doctor bent while he shook the little hand and some coin passed from his pocket to the tiny one, who, waiving all ceremony, felt he too must take part in the general welcome. And so young and old vied in greeting. Father O'Brien had a personal audience with His Holiness who received himself and companion in a most gracious manner, making them sit near and chatting for some time. France was not found to be congenial and Father O'Brien was glad to leave the land where even the passing priest feels the chill of the atmosphere. With renewed effort Father O'Brien will retake his work, the great work of creating and maintaining an absolutely temperance atmosphere in the city in which he lives, and in his labors he is assisted by the pronounced approbation of his Bishop and by the energetic parish priest, Rev. Father McColl, and that of the assistants, Rev. Fathers Galvin and Kelly. The Rev. Doctor and the two young assistants, Rev. Fathers Galvin and Kelly, are all natives of the diocese, a fact of which the people are very proud. The parents of Dr. O'Brien are amongst the parishioners, and as they are yet far from old, may live to see even greater things under the banner of temperance, accomplished by their energetic son, who as God's instrument, has already done such yeoman service.

VETERAN TEACHER.

Rev. Father Lynch, who has just retired at the age of eighty-four, and with more than fifty-five years of service to his credit, lives in a neat house on a retired street, where it is one of the pleasures of the people to call upon the old priest who in the past was so much to so many. Spare and comparatively straight, in the finest of broad-cloth and the whitest of linen, with a little black skull cap worn on the back of his head, Father Lynch holds out his hand to the visitor with all the courtesy and air of the old school. He suffers from an infirmity of the sight and were it not for this he declares he would still be in harness. Peterborough is the place of his love and here he will end his days.

Another figure of interest is Mr. Sullivan, Peterborough's veteran teacher. From choice his home is now in the House of Providence, and here he was found with the Catholic Register in his hands when we called. "I love the Catholic Register," he declared and with an Irishman's native gallantry he added, "and I could love its editor." Needless to say we at once felt at home with the veteran teacher, who coming from the poetic atmosphere of picturesque Killarney and from the National schools, in which for some years, he taught, he continued his labors for nearly a quarter of a century in and about Peterborough. Mr. Sullivan is in his eighty-fourth year. The refined face of the old Irish school-master is now in the gallery in which we place our friends, and the music of his parting, "God bless you" follows us with its benediction.

PETERBOROUGH'S HOSPITALITY.

Peterborough's hospitality is of the old-fashioned, warm-hearted order, which is generous and open-armed and has not yet gone into the "cribbed, cabined and confined" atmosphere of pink teas and kindred functions. This was widely demonstrated at the picnic. We also found it throughout our stay, in the charming, homelike surroundings of our kind host and hostess, Mr. and Mrs. Thos. J. Doris and their amiable and cleverly musical family.

Ticket Agents Will Meet in Winnipeg

Local Representatives in Attendance at Executive Meeting To-day

President William McIlroy of the Canadian Ticket Agents Association, and Mr. William Bunton, former president, are in Toronto today attending a meeting of the executive of the Association.

The business to come up is the deciding of the itinerary in connection with the annual trip. The annual association business meeting will be held in Winnipeg in October next and the agents are looking forward to a pleasant time in the west.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists 75c.

Take Hall's Family Pills for constipation.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Much Excitement Still Prevails

In Lindsay in Connection With the Gang of Counterfeiters

A Lindsay despatch says:—There are no further developments of importance in the alleged counterfeiting case, although further arrests are expected hourly, and it is rumored that one suspected part has left for unknown parts. The authorities refuse to talk, but it is apparent that they believed they have secured something pretty good, with probably more to follow. All the arrests so far have been residents of Lindsay for a shorter or longer time.

WELL UP IN YEARS.

Charles Burke, who is in gaol here, and at whose house incriminating apparatus was found, is a man of about sixty years of age. He has lived here most of his life and is well known. His character has always been good. He formerly conducted a shingle mill up the river, and is in good financial condition The mill was burned down some years ago, and since then he has been living practically retired. He has been a somewhat enthusiastic amateur photographer of late years, according to accounts.

Richard Wynn and Archie Boyeau, the two arrested at the Soo, also belong to Lindsay. Wynn is a man well up in years, probably close to seventy, while Boyeau is a comparatively young man. The Englishman arrested at Montreal was here for a short time, as he was employed as fireman on the G.T.R. line running out of here. His partner, who eluded the Montreal police, is a well known Lindsay man.

THE TOWN IS ASTONISHED.

The detectives are still here and apparently working on the case The town is much excited and astonished over the remarkable occurrence, which is a surprise to everybody.

Charles Burke will go up for preliminary hearing on Monday next.

SOME CHANGES WOULD DO GOOD

Yesterday's Port Hope Guide has some comment on the question of umpires in the Midland Baseball League in which among other things the following appears:

"We have never said that local men would be more satisfactory than umpires from Toronto. We are willing to admit that the umpiring staff of the Midland League is weak, yes, very weak. Peterborough, however, proposes outside umpires because they consider they received a raw deal from Roseveur here on July 1st. Now our opinion of umpires is that Roseveur is as good and in fact agreat deal better than many of the men in Toronto who set themselves up as indicator manipulators. As to the Review's contention of being unfair to the other teams to have a Port Hope man as umpire, we might inform them that Roseveur was elected to umpire on July 1st by Manager Johnson of the Peterborough team. Manager Johnson had the privilege of asking for an umpire and he chose Roseveur."

In connection with the above the Review might state that Roseveur was selected by the Peterborough team on July 1st because they had heard that he was a good umpire and would do the fair thing. The locals do not dispute the contention that Roseveur is a good umpire; they claim however that he was off color int he Dominion Day game and gave Peterborough the worst of it. Blake Crawford, manager of the Port Hope team, admitted to one of the Peterborough players after the game that he was surprised at some of Roseveur's decisions and that Peterborough had been given a somewhat raw deal.

The Review holds that umpires from points entirely beyond the territory of the league would be much more satisfactory to everybody concerned.

At the close of its article the Guide says:—

"However Roseveur is quite willing to discontinue his services as umpire with the Peterborough club, and let them have a Toronto official. The League has prospered for a number of years without any assistance from Toronto and it seems strange that the Peterborough team after playing only one game requires so many changes."

Does it look as if that league were prospering with two teams dropping out in the middle of the season? If Peterborough had not been prepared to take Bowmanville's place the league would now be left with only two teams, Port Hope and Cobourg, two good ones we will admit, but two teams do not make a very strong league.

At Oshawa on Dominion Day the game between Cobourg and the home team ended in a dispute without a decision being given. Bad umpiring was the cause. On account of rank decisions the Oshawa team left the field and the umpire did not even decide as to who were the winners.

When things of this kind are happening is there not something wrong? Does the Guide not think that some changes in the way the league is being run would have a beneficial effect? Peterborough is anxious to see the Midland league prosper and the Review believes that some changes would do no harm at any rate. Peterborough is not the only place in the league where there is kicking about umpires. Would it not be well to try and effect an improvement?

Bad umpiring marred the game at Peterborough last Saturday. It would have been more satisfactory to everyone concerned if a capable umpire from some disinterested point had been handling the indicator.

Peterboro' Lost at Beaverton

Checkers Victorious in a Fast Game—Score 15-6

The Peterborough Lacrosse team met defeat at Beaverton yesterday, the score being 15—6. The locals did not have their strongest dozen owing to some of the players being unable to get away, but the team gave the Checkers a hard run and for the first part of the match played the homesters off their feet. At one time the Peterborough boys led by 3—1, but just then the referee stepped in and sent three or four men to the fence and Beaverton took the lead. Jack Kelly of Brantford, was referee, and handed out frequent penalties, Peterborough getting a good share of them. At one time four of the visitors and one Beaverton man were on the fence.

A Beaverton despatch regarding the game says,—"Beaverton and Peterborough met here today in the return game in district No. 10, and the result was a game of lacrosse worth going a long distance to see. The final score was 15 to 6 in favor of Beaverton, but the play was by no means so one-sided as the score would indicate, the game at all times being close and interesting. The game was very clean, and was ably handled by Jack Kelly of Brantford, who missed nothing and penalized strictly and impartially for any infraction of the rules. The Toronto people in town on the Yorkville Old Boys' excursion attended the game in large numbers, and went home apparently satisfied, not only with the trip, but also with the form of entertainment provided for them in Beaverton. Among the spectators were W. H. Hall, secretary C.L.A., and Fred Thompson, secretary of the Toronto Lacrosse Club, and many other enthusiasts from a distance."

The Peterborough team was as follows,—Backus, Boyle, Regan, Derocher, Meagher, Mein, McGrath, Judd, McLean, McDonough, McCabe, Robertson, Best.

NEWMARKET IS COMING STRONG

Lacrosse Club Running an Excursion to Peterborough on Saturday

Great interest centres in the lacrosse match here on Saturday afternoon, between Newmarket and Peterborough. Although the locals have not yet won a game they are playing good lacrosse and should be able to take a fall out of Saturday's visitors. Newmarkets team is composed almost wholly of imports, and they are travelling at a great gait. The Peterborough team is made up largely of home brews and when it is taken into consideration that they are pitted against aggregations collected from all parts of the earth, it will be seen that they have been doing remarkably well.

The Newmarket Club is running an excursion to Peterborough on Saturday, and the team will be accompanied by a large number of supporters. Peterborough will be represented by a strong team, and should win out. At any rate, the game will be worth going a long way to see, as fast lacrosse is being played in the intermediate C.L.A. this season.

Ben Simpson Is a Fast One

The Toronto Telegram says,—Harry Rosenthal has in the meantime, brought Simpson, the Indian 10-miler, who won the Lindsay Marathon on July 1st, to town. The Brantford reservation experts declare that Simpson is the best man at that distance ever turned out there. And his habits are the best.

The Irish-Canadian Indian, Hilton Green, is coming along remarkably well and ought to be at his best this fall.

BASEBALL

Dubby Shea is seriously thinking of changing his post office address. Local admirers of the aggressive Malleable catcher, would be sorry to see him leave the city. Dubby is playing a better gave this year than ever, and his batting and base running have been features of the games in which he has participated.—Brantford Courier.

WON IN LINDSAY.

A picked baseball team from this city went to Lindsay last Monday and defeated the Maybees of that place by six runs to three. It was an exciting game, and until the sixth innings neither aggregation scored a run. At the end of the nine innings the score stood three all, but the Peterborough boys took three in their tenth. Ferguson and Bellegham both took their turn at the twirling and pitched a good game.

The teams were,—

Peterborough—Bell c, Ferguson p, Price 1b, Graham 2b, Curtis 3b, Bellegham ss, Dunsford rf, Gross cf, Simmons lf.

Lindsay—Anderson c, Starr p, Fee 1b, W. Gray 2b, Puffer 3b, Touchburn ss, Wallace rf, Cunningham cf, Menzies lf.

TENNIS

The Nicholls Oval Tennis Club is holding a picnic down the river this evening. The party will leave the Otonabee boat house at six o'clock, at which time all members are asked to be on hand. As an enjoyable time is expected, there will no doubt be a large attendance of the members of the club.

FALSE ALARM WAS TURNED IN

A Fellow Saw a Bonfire and Sent in Alarm From the First Box He Came to

A big bon-fire in front of Mr. J. J. Howden's premises, just east of the Peterborough locks, caused a little excitement in the city last night. The reflection from the fire was plainly seen on George street and some fellow coming up street, seeing it, turned in a fire alarm, from box 21, which is just outside of Peter Hamilton's factory. The fire teams were turned out in quick order, only to go back again. It is reported that the fellow thought the fire was at the Peterborough Lumber Co.'s mills across the river. When the wise man told that yarn some one remarked; "I suppose if you were at the Carpet Works and saw a fire at the Auburn Woollen mills, you would send in the alarm from the carpet works box!"

Some people in their zeal to assist their neighbors in trouble, lack a whole lot of ordinary horse sense. It may be of course, that there are some who like to see the fire brigade turn out. In that case the false alarm artists should not be censured. The brigade is kept by the city for the amusement of some of the people.

THE MARKETS.

Liverpool Wheat Futures Closed Higher, Chicago Lower—Live Stock Markets—Latest Quotations.

Corn—Spot quiet; Hess dried, 5s 0½d; old northern, 5s 2½d. Futures quiet; July nominal; Sept. 4s 11⅝d.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, July 10.—(Special.)—About 600 head of butchers' cattle, 250 calves, 60 milch cows, 400 sheep and lambs and 200 fat hogs were offered for sale at the East End Abattoir. Nearly one-half of the small stock did not reach the market until nearly noon. A few head of choice western cattle sold at from 5c to 7½c per lb. None of the others brought over 6¼c per lb., and from that down to 2¾c per lb. for small bulls.

There were quite a number of good milch cows on the market, but even these are dull of sale, and $45 is about the top price, and from that down to $20 for the smallest bossies.

Calves sold at from $2.50 to $10 each. Shippers paid 4½c per lb. for good large sheep. Lambs sold at from $2.50 to $6 each. Good lots of fat hogs sold at from 7c to 7¼c.

East Buffalo Cattle Market.

EAST BUFFALO, July 10.—Cattle—Receipts, 125 head; dull and prices unchanged.

Veals—Receipts, 150 head; active and steady, $5 to $8.

Hogs—Receipts, 2100 head; active; yorkers a shade lower; others steady; heavy, $6 to $6.50; yorkers, $6.25; pigs, $6.45 to $6.50.

Sheep and Lambs—Active; sheep steady; lambs strong, unchanged.

New York Live Stock.

NEW YORK, July 10.—Beeves—Receipts, 676; steers 5c lower; bulls steady to firm; cows firm to 10c higher; steers, $5 to $7.10; extra, $7.25; bulls, $3.40 to $3.80; cows, $1.50 to $4.60. Exports to-day, 980 cattle and 6300 quarters of beef; to-morrow, 4200 quarters of beef.

Calves—Receipts, 3645; veals opened steady, closed 25c to 50c lower; buttermilks steady to 25c lower; veals, $5.50 to $8.50; throw-outs, $4.50 to $5; buttermilks, $4 to $4.80.

Sheep and Lambs—Receipts, 6119; sheep steady; lambs firm; sheep, $3.50 to $5.50; culls, $2.50 to $3.25; lambs, $7.75 to $8.87½; culls, $6.50.

Hogs—Receipts, 5185; market steady to firm; medium weight, $6.50 to $6.70; pigs, $6.75.

Dr. G. A. Dewart of Glencoe, a well-known dentist is dead, aged 38.

ORANGEMEN TO HAVE A PARADE

Will Gather at McDonnel Street Tomorrow and March to Station

Tomorrow is the 217th anniversary of the Battle of the Boyne, and the day will be loyally celebrated by Orangemen throughout the world. The Sons of William in Peterborough and district will be no exception to the rule, and they will unite to keep green the memory of the Orange prince and his gallant deeds.

All arrangements have been completed by the local Orange lodges for attending the big celebration in Millbrook. The special train leaves the G.T.R. station at 10 o'clock, but previous to this there will be a procession through the city. The Lakefield and Nassau lodges and those from some of the northern townships are coming to Peterborough on the Lakefield train, which will stop at McDonnel street and let them detrain there. The Peterborough lodges will assemble at McDonnel street to meet them, and when the train from Lakefield arrives a procession will be formed and will proceed by way of McDonnel, George and Charlotte streets to the Grand Trunk station, where all will board the special train that leaves at ten o'clock. The 57th regiment band will head the local lodges, and there will also be plenty of music from the fife and drum bands. It is expected that there will be one of the largest turnouts of Orangemen in the history of the city.

Enjoyable Picnic Held at Villiers

Particulars of an Event That Gave Much Pleasure

On Thursday last, July 4th, the annual picnic was held in the pine woods by kind permission of Mr. Alfred Harris.

The necessary arrangements were made by members of the Villiers Old Boys' Association of which Mr. Jack Dickson is the genial and active president.

The charming woods are an ideal spot for a gathering of this kind. The weather being fine there was a large attendance, and throughout the afternoon and evening, the woods presented a very pretty and animated scene.

During the afternoon a number of races took place. The results in the various events were as follows,—

Senior girls' race—1, Bessie Hastie; 2, Mabel Steele; 3, Bella Wood.

Girls' race, No. 2—1, Maggie Myers; 2, Edith Steele; 3, Edith Wood.

Junior Girls' race.—1, Bella Hastie; 2, Ethel Steele; 3, Agnes Wood.

Three-legged race — Alec. Hastie, and Willie Redpath; 2, George Dickson and Stanley Walker.

Boys' Race—1, George Dickson; 2, Alec. Hastie; 3, Willie Redpath.

Free for all—1, Bessie Hastie and Maggie Myers; 2, George Dickson and Mabel Steele; 3, Alex. Hastie; 4, Edith Steele.

In the Free for all race, twenty competitors started and all ran the full distance. A most exciting finish was witnessed. Two runners tied for first prize and two for second.

At five o'clock, some of the ladies of the village very generously provided an excellent tea for all the friends present. The tables were covered with many good things, more than sufficient to arouse the envy of a royal cook.

Mr. Pete Wood had charge of the musical arrangements, his accomplished playing contributed largely to the success of the dancing, and elicited warm praise from the many who took part therein.

The last dance was over by eleven o'clock, and so ended one of the most enjoyable picnics ever held in the township.

Mr. George Gall of Keene had charge of the refreshment stand as usual.

A RARE OPPORTUNITY

Is being offered to the ladies of Peterborough to do their shopping at the B. Y. MOYES STORE. Our gigantic removal sale has been extended for a few days longer in order to give everybody a fair chance, ourselves included. We want to get thoroughly rid of every article in our store. Apologized for Their Hasty Words

Last evening at the conclusion of the four pickpockets' preliminary hearing in the police court, when the people were leaving the room, an incident occurred which might have resulted in two New York women, who are interested in the case, being also placed in the cells, as well as their gentlemen friends. Evidently, not liking the turn the case had taken, principally owing to the damaging evidence of one of the witnesses, both women used some strong and unbecoming language towards the witness. The words were spoken in his hearing, and also in Magistrate Dumble's. The two women were about to be taken downstairs for their offensive language, when their lawyer advised them to apologize, which they readily did, expressing sorrow for their "hasty words." They then quickly left the police station.

Ruby Stoonfelt, aged 5, of Montreal, was killed by a street car on St. Denis street.

Alfred O'Farrelll of Smith's Falls, was rescued from the Rideau, and resuscitated by Wallace Plunkett.

Dr. Sidney A. King of Kingsville, aged 65, and a well-known oil operator, is dead of Bright's disease.

PRICE OF BREAD RAISED A CENT

Bakers Getting More Money on Account of Price of Flour

When the bakers were setting their bread last night, they put a little yeast in the price, and this morning the dough was up, and so was the price. The Review called up several bakers who had asked more money for their goods and it was learned that the increase was forced on them. Twice recently, the price of flour has been raised. Some time ago, it went up 20c a barrel, and just recently it was raised 25c a barrel, making a total of 45c. a barrel. At that price the bakers could not make bread at the old price, viz., 12c. for a four pound loaf, and 9c for a 3 pound loaf. One cent has been added, and now the price is four pound loaves 13c, and three pound loaves 10c.

A RARE OPPORTUNITY

Is being offered to the ladies of Peterborough to do their shopping at the B. Y. MOYES STORE. The Home Coming Was Very Sad

Robert Logie's Ancestors Were Highly Honored Citizens

A Lindsay despatch says,—Robert Logie, arrested in Toronto yesterday and supposed to be connected with the gang of counterfeiters, whose rounding-up last Tuesday caused a widespread sensation, arrived here this evening at 10.25 in charge of Detective Parkinson and a Toronto officer. A large crowd, principally of the hoodlum element greeted Logie on his stepping from the car. Logie never jaunty, looked jaded and crestfallen on seeing a number of his old friends. The officers hustled him through the crowd to a carriage and drove rapidly to the county gaol. The Logies came from a family of some distinction. Colonel Sands, his grandfather, belonged to the British army and resided in Lindsay during the sixties. Robert's father served in the American army and died in Lindsay some years ago. His mother was a lady of culture and education and highly respected in this vicinity. Her death occurred in March last at an advanced age. Robert and his brother have occupied the beautiful homestead and farm on the east side of the river, the property being the most commanding and desirable of any in this vicinity. They are considered to be in affluent circumstances, and much surprise is expressed that one of them should become connected with the serious charges preferred. The house was searched today by the police, but it is not known whether or not anything of an incriminating nature was found.

Logie will likely come up before the Magistrate for a hearing tomorrow.

The proceedings in the police court in Toronto yesterday occupied only about two minutes. Logie when called to answer the charge stood with bowed head and dejected air, and was after a few words committed to the care of the police for removal to Lindsay, where all five of the men in the net will stand trial. It is believed in official circles that Burke alone was the maker of the bogus bills, with perhaps some assistance from a Toronto man not yet identified. All the others, Logie, Eveleigh, Wynn and Boyeau, were merely, it is alleged, the channels by which the bogus bills were issued. The fact that they were all fairly well-to-do, and well connected, gave them opportunities not often open to "green goods" men.

To Recommend Licensed Guides

Inspector Hunter Will Try to Stop the Slaughter of Game Fish

Capt A. Hunter, of Frontenac County, Inspector of Fish and Game in Eastern Ontario, was in the city yesterday. He had just returned from a trip to Loon Lake, with Overseer Moore, of Lakefield, and Overseer Lane, of Apsley. Inspector Hunter is on a trip through the district, consulting and instructing overseers on enforcing the new regulations of the Fish and Game Act.

Capt. Hunter will, when he returns to Toronto, recommend to the department that all guides who engage with parties in the sporting districts, be licensed, and thus held responsible to the overseers for the enforcement of the act. At the present time parties of Americans come to this district, and with the assistance of guides make very large catches of fish, which is contrary to the game laws. These fish are also shipped out in boxes, and it makes it very difficult for the overseers to catch the guilty parties. The inspector intends to recommend that the guides keep the fishermen within the limit, and any who permit a larger catch than the law allows will lose his license.

The effect of this should be very beneficial and will protect the fish from the American slaughterers.

Good Speakers at Gospel Hall

At the meeting in the Gospel hall last night Mr. Turner, of Virginia, spoke on the first four chapters of Revelation. The address was most instructive and at the close on request, Mr. Turner consented to continue the study to-night. He will be assisted by Mr. Fleming May, of Bancroft, who arrived in the city yesterday. Both preachers will be at the hall all day Sunday. All are invited to the meetings.

The Factories in Need of Help; Annual Meeting is in Progress

Manufacturers Say 25,000 Girls Are Required For Factories.

Ten Thousand Required for Toronto and 15,000 for Other Places—Scarcity of Skilled Labor Results in Contracts to Bring 800 Mechanics From England and Scotland—High Prices Add to Stress.

Toronto, July 12.—Discussion of Toronto's civic needs occupied a large place in the deliberations of the Toronto branch, Canadian Manufacturer's Association, at the annual meeting yesterday.

But the address of the retiring chairman, J. Firstbrook, was the feature of the meeting. While he rejoiced over the great prosperity of the country, he was not by any means satisfied. Industrial expansion had failed to keep pace with the growth of the population and its needs. While imports had increased 23 1-2 per cent. in nine months exports of Canadian goods had shown only the small increase of 2 1-2 per cent.

Toronto has shared largely in the general prosperity of manufacturers. She is now second only to Montreal as a commercial and industrial centre. In five years the value of the products of her factories has risen from $58,000,000 to $85,000,000.

Toronto had now 1,200 industrial establishments employing 70,000 persons, but there is still a crying need for more skilled labor. A conservative estimate places the number of girls required for her factories at 10,000, and at least 15,000 additional are required at other points in the province. The number of male mechanics needed is almost incalculable. The Dominion Government, he said, was mainly responsible for this acute situation. The increased cost of living and dearth of suitable homes for workmen was responsible for much of the trouble in the labor situation. The association had within five months made contracts to bring in 800 skilled mechanics, and of this number 300 had arrived to date.

Will He Outrival Orchard; Latest on the Haywood Case

Startling Rumor Regarding Steve Adams' Confession.

Reports Current That He Has Withdrawn His Repudiation to Parts Which He Swore Were Untrue—These Are Said to Corroborate the Statements Made by Harry Orchard—Defence May Close To-Day.

Boise, July 12.—Charles H. Moyer, the prisoner-President of the Western Federation of Miners, took the stand again yesterday for cross-examination by the state in the Haywood trial. Moyer has told a straight story, and the impression he created was favorable in the extreme. The position of the prosecution, however, is that Moyer has made an impression sufficient to show that their claim of the intimacy between Orchard and Haywood is well founded.

It is probable that Fred Miller will go on the stand after Moyer, but the defence may again pass him until Haywood has been heard. Haywood in direct and cross-examination may take the remaineder of the week, though it is now possible that the defence may close by to-night.

It was rumored yesterday that the repudiated confession of Steve Adams will be brought in in the course of the rebuttal. Counsel on both sides are non-committal with regard to admissions, the defence declining to say positively that they will put him on the stand. Should they do so, counsel for the state expects to be able to introduce the confession. Another rumor is that Adams has withdrawn his repudiation of certain portions of the confession, and that he will permit a part of it to stand. The original of the amended confession is in the hands of counsel for the state. It is said to contain much sensational matter, and should it be brought out it is believed the criminal record achieved by Orchard will in certain respects be eclipsed by the story Adams is said to have told and then withdrawn as untrue.

Haywood's Denials.

Haywood's direct testimony yesterday was characterized chiefly by positive denials of allegations made against him by the prosecution.

He denied that he met Orchard until some time after the Vindicator mine explosions.

He denied that he sent Orchard back to Cripple Creek to blow up the Independence Station.

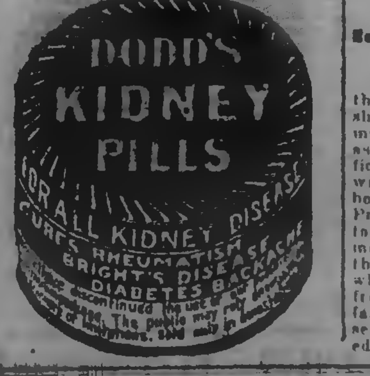
He denied participation in the murder of Detective Lyte Gregory.

He denied suggesting or discussing the Steunenberg murder.

He swore that he never gave Orchard any money at any time, or any place, for any purpose.

He declared that he never made a threat against Steunenberg, whom he regarded only as a politician swayed by capitalistic influence.

He related a number of occasions when he met Orchard in Denver in the ordinary course of his relations with the federation and George A. Pettibone, and said he saw Orchard for the last time in August, 1905, when Orchard told him he was going to Alaska. Haywood said he then chided Orchard for deserting his wife at Cripple Creek.



WANT MORE FARMERS

Hon. Mr. Monteith to Look Into Immigration Conditions in Britain.

It is said that Hon. Mr. Monteith the Minister of Agriculture, will shortly go to Britain to look into matters connected with emigration as it affects this province. Some difficulties have arisen in connection with the payment of the Dominion bonus on emigrants directed to this Province by special agents from Ontario. It is also thought that too many emigrants from the cities of the old land are being sent out, whereas there is a great demand from all parts of the Province from farmers who require particularly the services of men who are experienced in farm work.

EDUCATIONALS IN SESSION.

Caustic Criticism of Condition of Rural School.

Toronto, July 12.—At the Dominion Educational Association, in convocation hall, the speakers were Principal Robertson of Macdonald College, Ste. Anne de Bellevue, and Rev. J. A. Macdonald.

Principal Robertson of Macdonald College, Guelph, delivered a strong address on "The Training for Rural Schools." He dealt with education as the development of life. Life was a series of experiences and experiments. The school system was totally inadequate for rural sections. There were special problems in Canada to be met—problems due to our youth; problems due to our size; problems due to our wealth, for Canada is a wealthy country; problems due to the foreign immigrants being poured into our citizenship — new blood and ideals. The duty of the people to the rural youth was to increase the body of education and to make the availability by education easier.

Principal Robertson touched on the disgraceful manner in which rural schools were kept. The outbuildings were fearful and should be remedied.

Deputy Minister of Education, A. H. N. Colquhoun in a speech advised changing the name of the university to "Ontario" instead of Toronto, and urged that the chairs be kept free from politics.

TO FREE MRS. CHADWICK.

Attempt Made to Have Ohio State Law Applied.

Columbus, Ohio. July 12.—The attorney for Mrs. Cassie L. Chadwick has anounced his intention of procuring from the Attorney-General of the United States his opinion whether Mrs. Chadwick is eligible to parole under the rules of the Ohio State Prison, to which she was sentenced. It has been supposed that Federal prisoners confined here were not eligible to such release, and it has never been attempted, but Judge Taylor of the Federal Court at Cleveland held in a case last week that Federal prisoners committed to state institutions are subject to all conditions of such prisons.

Mrs. Chadwick has been in prison two years and six months. When she has served three years and two months, the shortest sentence prescribed by law for the crime of which she was convicted, she will be eligible to parole if the Attorney-General holds she comes under parole rules.

UNIVERSITY APPOINTMENTS.

Dr. A. G. Huntsman Chosen as Biological Instructor.

Toronto, July 12.—At a meeting of the Board of governors of the University of Toronto yesterday afternoon, Graham Campbell, son of A. H. Campbell, Toronto, was appointed superintendent of buildings and grounds. Mr. Campbell is a graduate of the university. There were over 80 applicants for the position.

Dr. A. G. Huntsman was appointed instructor in biology for the next session.

It was announced that Keith Grahame Fieling, B.A., fellow of All Souls' College, Oxford, had accepted appointment as lecturer in the department of modern history for one year. Mr. Fieling made an unusually brilliant record at Oxford.

BINDER TWINE SHIPMENT.

Biggest Consignment Ever Sold Goes Westward.

Kingston, July 12.—The largest shipment of binder twine ever sent out from any factory in Ontario was loaded on the steamer Advance yesterday, to be taken westward. The consignment consists of eight carloads, the output of the penitentiary plant. The twine goes to the Farmers' Association in Alberta. The prices paid are: For 550 feet, mixed, 10c per lb.; 600 feet, mixed, 11c per lb.; 600 feet, pure, 11 1-2c. Seventeen carloads are carried westward by the steamers Ames, Nevada and Advance.

ABANDON ALL-RED ROUTE.

Rumors to This Effect In Circulation In London.

London, July 12.—Though rumors are in circulation that the Government are inclined to abandon the proposal to create an all-red route. The special committee appointed to consider the scheme is, however, still sitting. The reports, therefore, can scarcely be justified, though as The Glasgow Herald states, the reported action of the Australian Government may cause a hitch.

Christian Endeavor Officers.

Seattle, Wash., July 12.—Dr. Francis E. Clark of Boston, was unanimously re-elected president of the United States Society of Christian Endeavor.

Other officers elected were Hiram T. Lathrope of Boston, treasurer; George B. Graff of Boston, clerk of the corporation, and Fred H. Kidder of Boston, auditor, a position newly created.

Two-Cent Fare.

Des Moines, Iowa, July 12.—Judge McPherson of the federal court yesterday denied the application of two stockholders of the Iowa Central and the Minneapolis and St. Louis for an order restraining the directors of the roads from putting into effect the two-cent passenger rate enacted by the Iowa Legislature.

Crow's Nest Coal Control.

Vancouver, B.C., July 12.—According to Spokane despatches President Graves, of the Inland Empire Railway system will by recent purchase of additional stock now have control of the coke supply for Granby smelters and steam coal for Spokane. Graves will neither confirm nor deny the story.

Six Miners Killed.

Hazelton, Pa., July 12.—It is reported that six miners were killed yesterday by an explosion of black damp in the Audeney mine, three miles from here.

The reported drowning of an unknown Toronto man in the Assiniboine is said to be a false rumor.

RAILWAYS BLAME MERCHANTS.

Freight Congestion In Montreal Is Fault of Shippers.

Montreal, July 12.—The C.P.R. and G.T.R. are blaming the merchants for the congestion of the freight in this city and in a joint letter to the Board of Trade they say: The serious delays to the teams clearly demonstrate the fact that the facilities at the warehouses of many of the consignees are altogether inadequate to permit of the prompt unloading of the freight. Similar delays have also occurred in the loading of teams with outward freight. We feel justified in making the statement that some merchants at least are endeavoring to conduct a largely increased business in premises totally unsuited to present requirements and in which no additional provision as compared with some years ago has been made for prompt unloading of teams.

Strychnine In the Butter.

Kingston, July 12.—The family of George Lee, living near Yarker, had a narrow escape from death by strychnine poisoning. Mr. Lee had placed in the cellar a pound of butter, well dosed with strychnine, to kill rats. By mistake it was used on the table, and all the family were poisoned.

No Arbitration.

Madrid, July 12.—Premier Maura, in an interview yesterday said the advices received by the Spanish Government from The Hague indicate that it is practically certain that nothing interceding in the direction of arbitration would be accomplished by the peace conference.

Objections to Prize Court.

The Hague, July 12.—A discussion of the Anglo-German proposition regarding the establishment of a proposed international prize court yesterday, developed considerable opposition.

Stolen Portrait Returned.

Berlin, July 12.—The portrait of Emperor Nicholas of Russia, which was mysteriously stolen from the National Gallery of this city, has been returned to the gallery by mail.

Cardinal Gibbons President.

Milwaukee, July 12.—By a unanimous vote Cardinal Gibbons was yesterday elected honorary president of the Catholic Education Association of the United States.

No Gambling on Lakes.

Chicago, July 12.—The Department of Commerce and Labor has ruled that there shall be no more gambling boats allowed to run on any of the great lakes.

Squandered Wife's Money.

London, July 11.—Baroness Von Eckhardstein, wife of the councillor of the German Imperial Foreign Office at London, former secretary of the German legation at Washington, has been granted a judicial separation from her husband, for misconduct.

The baroness testified that the baron spent $1,000,000 of her money in leading a fast life generally.

Lose Their Strike.

Brest, July 11.—The dock laborers here, who recently went out on strike, have lost their fight and yesterday resumed work under the old terms.

Depredation Committed by Thieves at Jackson Park

Refreshment Booth Broken Into and Between $5 and $6 Worth of Stuff Stolen.

Peterborough apparently has a lot of bad boys. Nearly every day some depredation on the part of the juvenile population is reported, and some of them have resulted in police court cases. One of the worst offences recently credited against small boys occurred at Jackson Park one night this week, when the refreshment booth, managed by Mr. T. H. Hooper, was broken into and about $5 worth of stuff taken. The shutters and doors are not of very substantial construction, as it was not thought that anyone would try to break in.

It is suspected that the depredation was the work of boys. There was no money that they could get their hands on, so they confined themselves almost entirely to the chocolate boxes. They evidently have a liking for this line of sweetness, for there was plenty of other kinds of confectionery around, but they did not touch them.

There is very little police protection at Jackson Park, and there is no clue as to who broke into the building and helped themselves to the stock. Between $5 and $6 worth of stuff was taken.

Astronomers Watching Mars; Planet is Near the Earth

The very bright, ruddy colored star in the south eastern portion of the sky about ten o'clock every night is the planet Mars. It will be directly south of Peterborough to-night at 15 minutes to 12 o'clock, midnight, with an elevation of 17 degrees. 7 mins. above the apparent horizon. The greatest telescopes all over the world have been turned upon this object as Mars is now nearer the earth than it has been for several years. Its distance from our earth at the present time is about 37,800,000 miles. The average distance of Mars from the earth is 48,600,000 miles while the nearest it can approach is 35,500,000 miles.

It will therefore be seen that the position of Mars is quite favorable for observation.

Rev. Dr. Marsh, of Springville, has been watching Mars through his five inch telescope for the past few weeks and has been able to follow the outline of the planet distinctly and to trace many of the markings on its surface. If the sky is clear to-night Dr. Marsh will make some drawings of the surface of the planet as seen through his telescope.

Mars is now nearer the earth than it has been since 1892.

Local Business Man in Public Life Referred to by "The Grocer"

Mr. Geo. A. Gillespie, Well Known Cheese Buyer and Vice-President of Board of Trade—Is One of City's Most Promising Business Men.

George A. Gillespie is a member of the firm of White & Gillespie, Peterborough, who for the past five years have been doing a very large grocery and provision business. He is one of the brightest and most universally liked business men in the country, and he could have almost any civic position in the city he wished.

Mr. Gillespie is now vice-president of the Board of Trade, having refused the office of president, and this is his third year on the board. He is one of the hardest working directors in the Agricultural Society; he is a member of the Cheese Board and he is a member of the Eastern Dairymen's Association.

Besides groceries, White & Gillespie handle cheese factory and creamery supplies. Mr. Gillespie takes charge of this end entirely and covers a very large district. He was for 12 years previous to joining Mr. White, a cheese and butter maker, and he thoroughly understands the needs of the dairymen. As a result he is selling a lot of machinery to the different factories, and this year installed an entirely new plant in several cases. He is well known to nearly every farmer for many miles around, and is the means of adding greatly to the grocery end of the business, which is managed by Mr. White.

Mr. Gillespie is taking a very keen interest in everything that is in the interest of the farmer, especially the dairy farmer. At the present time he is forming cow testing associations and cool curing rooms, the effect of this being that the production of cheese and butter has been materially increased and the quality now is the very best.

Up to the present time Mr. Gillespie may be said to have had a brilliant career. He has touched nothing of which he has not made a success—he has met with few men of whom he has failed to make close personal friends. For a young man—he is still five years on the right side of 40—his life has been one of remarkable usefulness to his fellow-citizens. The energy and fine intelligence which he has brought to bear upon the work of the various boards and societies with which he is connected is being fully recognized by the citizens of Peterborough, and there are not many young men whose futures are as problematical as that of Mr. Gillespie.

If the coming years confirm the promise of the past, Mr. Gillespie is destined to carve his name deep on the roll of Peterborough's citizenship. His place will be among the men who have wrought to have their city better than they found it, and who in the doing have been industrious in their interests, honest in their own, and have left an abiding memory in the hearts of their fellow-citizens.

SUMMER MEET OF TURF CLUB

August 12 and 13—Good Programme of Races Arranged

Peterborough Turf Club's summer meet will be held at the driving park on Aug. 12th and 13th, being Monday, civic holiday, and Tuesday. A very gratifying meeting was held yesterday morning when the following programme of races was arranged:—

Civic holiday, Aug 12th.—2.50 class; 2.22 class, and a half mile race with a 5 mile Marathon road race.

Tuesday, Aug. 13th.—2.30 class; 2.17 class, and a three-quarter mile running race, two heats in three. Also a 10 mile Marathon road race.

OSHAWA STAYS IN THE LEAGUE

And Peterborough Baseball Team Will Play There To-morrow

The Oshawa baseball club has reconsidered its decision and will remain in the Midland League. This will be pleasing news to Peterborough fans, and also to the baseball lovers of the other towns in the league. The Peterborough team will go to Oshawa tomorrow to meet the home team, and unless something goes wrong, should pull out a victory. Oshawa will play here the following Saturday, and on the Saturday after that, July 27th, Cobourg will likely meet the locals at Riverside Park. Peterborough is scheduled to meet Cobourg on that day, but the schedule will likely be changed around to enable Cobourg to come to Peterborough as there is a big excursion from Toronto that day. Peterborough will play in Cobourg at a later date.

The Peterborough team tomorrow will be composed of Burns, Callaghan, Burridge, Connors, Quinlan, Haliburton, Cheetham, Graham and Flaherty.

LACROSSE

GIVEN SUIT CASE

Mr. Will Smith, one of Hastings' old lacrosse boys, who has been with W. H. Birt and Co. for the last three years, left on Tuesday for London, to accept a position as operator, with the C.P.R. Before leaving a number of Will's friends got together and presented him with a handsome suit case and a pair of slippers, just to remind him of the friends he left behind. — Hastings Star

CANADIANS AT BISLEY

Small Score Put Them Out of Mackinnon Cup Contest.

Showing of Our Men at First Two Ranges of Big Bisley Feature Is Not Promising—Totals in the Association Cup Not Up to Standard—Australians Will Return Home With the Canadians.

Bisley, July 12.—(C.A.P.)—The Australian team of eight men have arranged to return home by way of Canada.

In the "Armourers' Company" seven shots at 900 yards, Capt. Tom Mitchell of the 12th York Rangers yesterday morning made 32 of a possible 35. In the same match, Staff-Sergt. Graham of the 48th Highlanders also scored 32. Last year there were 17 32s, the first taking 9th prize of £1 10s.

In the "Association Cup, S.R.," Pte. George Milligan of the 48th, Toronto, scored 32 out of 35 at 200 yards, and 34 out of a possible 35 at 600 yards, giving him a total of 66 over two ranges. Last year the first prize was won with a score of 68, though four times since its origin, in 1884, the match has been won by a possible, and nine times with a score one less than a possible. It has never been won with a score of less than 68 since the introduction of the .303 rifle. Last year there were 16 68s on the prize list, and the first of these took the 21st prize of £3. The match has twice been won by Canadians; by Pte. Heaven in 1893, score 69, and by Staff-Sergt. Bayles in 1903, with a possible.

In the "Kynoch," seven shots at 1,000 yards, Capt. Tom Mitchell scored 30 out of a possible 35. The first prize in this match is a man's bicycle, and the second a woman's bicycle. It is an unlimited entries competition, so Capt. Mitchell will be able to have another try for a better score. Last year the winning score was 33, and 30 took the 14th prize of £1.

Corpl. F. B. Fisher, Victoria, B.C., scored 33 and 32 at the two ranges of the "Association Cup, S.R."

Shooting for the Mackinnon Cup to-day, the Canadians scored at the 800 yards range thus: Sergt.-Major Caven, Victoria, 41; Sergt. Carr, Victoria, 43; Staff-Sergt. Graham, Toronto, 49; Staff-Sergt. Kerr, Toronto, 45; Capt. McHarg, Vancouver, 43; Lieut. McVittie, Toronto, 35; Pte. Milligan, Toronto, 35; Pte. Mitchell, Toronto, 47; Capt. Mitchell, Winnipeg, 45; Col.-Sergt. Moscrop, Vancouver, 43; Sergt. Morris, Bowmanville, 47; Pte. Smith, Ottawa, 45. The totals were: Canada 522, Australia 516, England 534, Ireland 509, Scotland 540.

At the 300 yards range the scores were: Caven 41, Carr 40, Graham 41, Kerr 32, McHarg 45, McVittie 38; Milligan 45, Mitchell 40, Mitchell 38, Moscrop 32, Morris 45, Smith 37. The total scores at the 900 yards range were: Canada 470, Australia 508, England 513, Ireland 472, Scotland 489.

The result at the end of the second stage was: England 1,047, Scotland 1,038, Australia 1,024, Canada 992, Ireland 981.

MURDERS AT BUFFALO.

Aged Man and Young Waitress Stabbed to Death.

Buffalo, N. Y., July 12.—Peter Forrestel, aged 60, a well-known saloon keeper and sporting man, and Maria Smith, 32 years old, a waitress in the saloon restaurant, were murdered yesterday. George Hodson, a painter, is accused of the crime. The Smith woman formerly lived with Hodson.

Forrestel was sitting in front of his saloon at Elm and South Division streets at 1.30 in the morning, when, it is alleged, Hodson rushed up and stabbed him with a butcher knife.

He then rushed upstairs to Maria Smith's room. As she sprung from bed Hodson, it is alleged, stabbed her twice.

LOGIE AT LINDSAY.

Curious Crowd Awaited Arrival of Alleged Counterfeiter.

Lindsay, July 12.—Robert Logie, charged with being a confederate of Charles Burke and others in the making of counterfeit money, arrived at 10.15 last night in charge of Government Detectives Rogers and Parkinson. There was a crowd of 300 people at the station, although the train was an hour late. Logie was taken immediately to the jail in a hack. On the way up from Toronto, where he was arrested Logie smoked incessantly. He had little to say and did not refer to the crime with which he is charged.

Coal For U.S. Fleet?

London, July 12.—The American Government has placed large orders for Welsh steam coal in this country, according to a news agency report. It is said that the coal will be despatched in specially chartered steamers to the Philippine Islands and certain rendezvous on the west coast of South America.

Has Nothing to Report.

London, July 12.—(C. A. P.)—In the House of Commons Sir Edward Grey stated he had nothing yet to report regarding negotiations with the United States on the Newfoundland fisheries.

Nearly three hundred Barnardo boys left London for Canada.

Got Seven Years.

Napanee, July 12.—Clinton A. Jenkins was sentenced to seven years in Kingston Penitentiary yesterday by Police Magistrate Rankin for a serious offence. Jenkins is over sixty years of age.

To Re-Occupy Esquimalt.

Victoria, B.C., July 12.—It is reported here that Great Britain is to re-establish Esquimalt as a naval station, maintaining a big fleet there.

Frank Morgan, of Ledyard, aged ten, is charged with murdering a playmate during a quarrel.

WHOLE FAMILY STARVING.

Pitiful Plight of English Immigrants At Woodstock.

Woodstock, July 12.—An English family named Kent, who have been in the city for ten days past, was found to be penniless and starving to death in a little room over Lawson's Bakery.

James Kent, head of the family, is a sober and industrious worker, and had been engaged for four months since coming from England on a farm near Norwich. He found it impossible to make things go sufficiently to support his wife and four children, and, in consequence, came to Woodstock to get work.

He did not find work when he came here, and for four days the family had been existing without a morsel of food and without a penny to purchase relief.

Their straightened circumstances were discovered by Peter Irving, a local auctioneer, who secured work for Kent. The latter, weakened by the absence of bodily nourishment, lasted only two hours at work, when he collapsed.

A collection was taken up and food secured for the family.

PLEASED THE KING.

Irish Welcome Appreciated By His Majesty.

Dublin, July 12.—King Edward and Queen Alexandra attended the races at Leopardstown yesterday, driving to the course from Kingstown in motor cars with an entire absence of formality.

The enormous crowd of people present gave Their Majesties a notable welcome.

The Earl of Aberdeen in the evening entertained Their Majesties. Invitations had been sent out broadcast, and consequently thousands had an opportunity to see the King and Queen.

Lord Tweedmouth, by command of King Edward, wrote a letter to the Earl of Aberdeen telling him to express to the Irish people "His Majesty's and Queen's most warm appreciative gratitude for the very hearty and enthusiastic reception given them by so many Irishmen and Irishwomen to-day.

MONEY SPENT ON ROADS.

In Ten Years $22,000,000 Has Been Expended.

Toronto, July 12.—The eleventh report of the highway improvement by Deputy Minister Campbell, has just been issued. Statute labor, he observes, is giving way to business methods, and townships are putting their road work on a cash basis, centralizing the supervision in from one to four commissioners, and using labor-saving machinery.

Twenty-one millions have been spent on roads in Ontario from 1896 to 1905. The magnitude of these figures, says Deputy Minister Campbell, is concealed from year to year by the distribution among a large number of municipalities. To encourage a larger outlay before proper systems of construction and management, are will understood, is to encourage a greater waste.

ROBBED THE BANK.

Burglars Carried Off $3,280 Unmolested—Blew the Safe.

St. Croix, Que., July 12.—Between 1 and 2 o'clock yesterday morning burglars gained entrance to the Provincial Bank and carried off $3,280. The bank is insured in the American Guarantee Company which will offer a reward of $5,000.

No one sleeps on the bank premises, but a noise, now supposed to have been made by the explosion of the dynamite was heard by sleepers next door, but nothing was thought of it at the time, and it was not until about 4 o'clock that the burglary was discovered.

SEND CONVICTS BACK TO U. S.

Arrangements Being Made to Deport Men In Kingston.

Kingston, July 12.—Arrangements are being made for the deporting of several convicts in the penitentiary. One Harrison, hailing from the United States, comes under the new law as an undesirable. Although he has only served a short time of the sentence imposed, he is to be sent to his native land, and the deporting officer will take him to Detroit, where the authorities will take him in charge. Several others in the prison will be sent back to United States points.

Says He Shot His Wife.

Fredericton, July 12.—Thomas David, Assyrian, was arraigned in the Police Court here yesterday on a charge of murdering his wife, and remanded to jail until Monday next to await report of coroner's inquest. When the charge was read over and interpreted to him he admitted having shot his wife. He told the court that he had no money with which to employ counsel.

Conductor Killed.

Ottawa, July 12—Conductor Emphy, of an east-bound Grand Trunk express Wednesday in the vicinity of Eastman Springs, found John Kennedy, of Fassio Fern, Glengarry, lying in a ditch in an unconscious condition. Kennedy was brought to an Ottawa hospital, where he died. It is believed that the deceased, who was 36 years of age, fell off a west-bound train.

Grant Union's Demand.

Cobalt, July 12.—The management of the Temiskaming mine has adopted the union scale and agreed to the eight-hour shift underground. As a result the men return to work there to-day. Fifty men were employed there last week, and this number will start again.

Dobson Released.

Toronto, July 12.—John W. Dobson, the piano manufacturer who was convicted last October on the charge of setting fire to a store at 563 West Queen street, was released on parole from the Central Prison yesterday.

The Academy Rollaway at Quebec, was burned yesterday and the St. Louis hotel had a narrow escape.

Annual Regatta At Sturgeon Point

Will be Held on August 8th—Great Aquatic Event

The annual regatta held under the auspices of Sturgeon Point Cottagers' Association is becoming known as one of the greatest aquatic events held in the Kawartha Lakes district, and in all probability this year's regatta will further strengthen that impression. Last year's regatta was wonderfully successful, and attracted a great crowd of people to Lindsay's famous summer resort the result being that year's executive committee start in with a comfortable balance on hand for the purchase of prizes and no doubt many will contribute cheerfully as of yore by handing over the dollar fee, which will make them members of the Cottagers' and Fish and Game Associations, and entitle them to the emblem of the Cottagers' Association—a green frog in the form of a pin.

A well attended meeting of cottagers was held Monday night in Mr. Hopkins' boat house to arrange for this year's regatta, and much enthusiasm was manifested. Mr. Hopkins occupied the chair, and Mr. Wallace Jones acted as secretary.

After some discussion relative to the most suitable date, it was decided to hold the regatta on Aug. 8th, commencing at 1.30.

R. A. Pringle, M.P., has again received the Conservative nomination for Cornwall and Stormont.

Lay Corner Stone of New Drill Hall

Sir Frederick Borden Will Officiate at Belleville

A meeting of the officers of the 15th regiment was held last evening, says the Belleville Intelligencer. The object of the gathering was to formulate plans as to the laying of the corner stone of the new drill shed which is being erected here. It is expected that the ceremony will take place the latter end of this month or the first week in August. Sir F. Borden, Minister of Militia, will officiate. The local arrangements were left in the hands of a committee composed of Col. Stewart, Majors Marsh and Vermilyea, and Capt. Mordan. The two former will be in Ottawa next week, to confer with the Minister of Militia in regard to the matter.

Term in Gaol Will be Result

If Chief Rutherford Catches Any One Fooling With Alarm Boxes

Fire Chief Thos. Rutherford is very much annoyed over the action of the wiseacre who sent in the alarm from Box 21 the other night for a fire that was miles out of the city. The chief got hold of a couple fellows who saw the fresh Alex. turn in the alarm, but they would not tell his name. The first person the chief gets hold of fooling with the alarm boxes it will be a case of a term in gaol. There will be no option of a fine. It is time now that the smart practice was stopped.

Funeral of Late W. D. Hamilton

At Lakefield Was Largely Attended by Local Oddfellows and Masons

The funeral of the late W. D. Hamilton, who was killed in a wreck near Kenora, was held yesterday afternoon at Lakefield. The funeral was from the residence of the deceased's father and interment took place in Lakefield cemetery.

The funeral was under the auspices of the Oddfellows and was conducted by Lakefield lodge, which turned out in a body. There was also a very large number of Oddfellows and Masons from Peterborough and Lindsay, and large turnout of railway men from points all along the line, including Peterborough, Lindsay, Toronto, Haliburton and other places. The pallbearers were Messrs. R. Mulligan, Thos. Emmerson, Peterborough; Casement, of Lakefield; McMahon, of Lindsay; Wm. Pilling and Fred Haskill, of Peterborough.

way home from Cobalt, fell from the train and died at Ottawa of his injuries.

A HUMMER IN
SUMMER WASH SUITS
FOR
FRIDAY AND SATURDAY

Going away this Summer or stay at home? Don't matter—these cool Wash Suits will suit you whatever is your plans. NO doubt you will wonder how we can afford to sell smart, new suits at the price. The manufacturers certainly wont make much, neither will we.

Just 60 Women's Wash Suits, worth $3.50, Friday and Saturday Your Choice $2.38

A few hours "hurry-up" shopping should clear them all. The only people who are going to make any money out of these suits are the women who buy them. Remember—Friday and Saturday, sharp at 8.

HARRY ADAMS

393 GEORGE STREET

Colonial Weaving Co's. By-law Carried With Majority of 206

Company Well Satisfied With the Result and Will Proceed With Their Plans—Will Call for Tenders in a Few Days—Work to Start at Once.

With a majority of 206 in favor of the Colonial Weaving Co.'s bylaw, Peterborough is practically assured that the company will stay here and erect their new and large buildings. The people by their votes, although the total was by no means a majority of those entitled to a vote, said emphatically that they were in favor of giving the Colonial Weaving Co. a free site and a fixed assessment. There were 500 votes cast, and of that number 353 were in favor of the bylaw and only 147 were opposed to it. This should be very encouraging to the company as there were quite a number of people talking and working hard against assisting local capital in building up the city.

MAJORITY WAS 206.

The vote polled yesterday by divisions was as follows,—

	For	Ag.	Maj. For
Div. No. 1...	28	14	14
Div. No. 2...	28	16	12
Div. No. 3...	33	13	20
Div. No. 4...	20	7	13
Div. No. 5...	59	17	42
Div. No. 6...	29	16	13
Div. No. 7...	37	12	25
Div. No. 8...	37	21	16
Div. No. 9...	22	8	14
Div. No. 10...	17	11	6
Div. No. 11...	43	12	31
	353	147	206

It will be noticed that every subdivision gave a good substantial majority for the bylaw. Even the north ward, which will lose the factory was strongly in favor of helping it along, and Ashburnham gave a good account of itself.

WORK WILL START.

Speaking to one of the heads of the Colonial Weaving Co. last night, the Review was informed that the company is well satisfied with the result of the day's polling, and they will go ahead with their arrangements at once. The plans and specifications have been in the hands of the architect for some time and are nearly completed. In a few days tenders will be called and it will be only a short time when the successful contractor will start work on the new buildings and by this time next year, another big industry will be running full force in the south end.

PETERBORO' CHEESE BUYER

Writes in Reference to the Use of Cool Curing Rooms

Ed The Canadian Dairyman,—Permit me, through your valuable paper, to point out to the dairymen of Canada the advantage of having a cool curing room in connection with their cheese factory. Especially is this essential during hot weather. All cheese held in the ordinary room through the hot spell just past, depreciated in value from one-half to three-quarters of a cent a pound. Besides, there was a shrinkage of two to three pounds a box.

Thousands of dollars have been lost by dairymen in the past two weeks by curing cheese in the ordinary rooms. No maker can turn out cheese that will pass as finest when it is kept at a high temperature night and day for any length of time. If patrons could realize the advantage of a cool curing room they would see that their factory had one for 1908.

The difference in quality between cheese cool-cured and ordinary-cured is so marked that buyers, knowing that good cheese can be turned out when a cool-curing room is in use, regardless of hot weather, are willing to pay a higher price for this class of cheese. They are discriminating more than in former years, against heated cheese. The flavor and texture of such cheese is damaged, although when made they are of as fine quality as those cured in the cool-rooms.

Every patron, at their annual meeting of 1907, should not go home until they have passed a unanimous vote in favor of cool-curing for 1908, and be willing to pay the expense of the same. The saving in shrinkage and in the reputation of your factory, which means a higher price in future, go directly into the pockets of the patrons. Saving in shrinkage alone will amount to about one-quarter cent on the total output of your factory.

A BUYER.

Peterborough County.

Police Search Logie's Dwelling

Counterfeiters Wynn and Boyeau Will be Brought to Lindsay

Lindsay, Ont., July 11.—The house of Robert Logie, the Lindsay man, who was arrested in Toronto last night, charged with uttering counterfeit money, and who is alleged to be connected with the men under arrest here, in Montreal, and at Sault Ste. Marie, Mich., was searched by the local police this morning.

The two men arrested at the Soo, Wynn and Boyeau, are expected here tomorrow. Boyeau is over 60 years of age, and has worked around here for years as a laborer. There is another Boyeau, a young man, who was for years a well known and highly respected citizen engaged in the hotel business. The similarity of names should not lead the public to a wrong conclusion as to the identity of the accused. Those who know "Archie" Boyeau, of course, need not be told that he had no connection, whatever with the gang.

Many Operators Will be Needed

The Chicago Record-Herald says that several thousand young men who are willing to prepare themselves can have an opportunity during the next few months of entering the railway service, in a branch which has produced the greatest number of high officials.

The railroads face the task of securing at least 66,000 telegraph operators, and possibly double that number during the last nine months. This great army of new telegraphers is necessitated by the new law which limits the hours of labor. There is not a railway management in the United States that knows where or how it is going to get the large additional force needed. The supply must be created.

WEDDING BELLS

HOY—JONES

A quiet wedding took place at noon today, at the George Street Methodist church parsonage, when Rev. E. A. Pearson united in marriage, Mr. George Wesley Hoy, of Kendal, Durham County, to Miss Eva Jones, daughter of Mr. and Mrs. John Jones of Hope township. The bridal couple was unattended. Mr. and Mrs. Hoy will reside at Kendal.

SMITH—FAWCETT

Knox church, Lakehurst, was the scene at half-past seven o'clock, Wednesday evening of a very pretty wedding, when Miss Lizzie Fawcett, was united in marriage to Mr. Wm. R. Smith, both of Lakehurst, by the Rev. S. Sutherland Burns, B. A., of Lakefield. The church was prettily decorated with evergreens, marguerites and potted plants, the arch under which the ceremony took place being especially pretty and the whole forming a charming background to the bridal party. The bride, who was given away by Mr. Hugh Allen was daintily dressed in white liberty silk, with a berthe of lace. Her filmy tulle veil was worn over a wreath of orange blossoms and she carried an arm bouquet of roses. Her sister, Miss Jennie Fawcett, was her only attendant. She was dressed in white silk, and carried a bouquet of pink roses. The groom was ably supported by his cousin, Mr. W. E. Smith. The wedding march was played by Miss Jean Smith of Peterborough, and after the ceremony the choir sang very sweetly, "The voice that breathed o'er Eden." A reception was afterwards held at the home of the bride's parents and congratulations showered upon the happy couple. A dainty supper was served in the spacious dining room which was tastily decorated with marguerites. The guests, about one hundred and fifty, included many of the young people of Lakehurst, as well as friends from a distance. The groom's gift to the bride was a pearl brooch, to the bridesmaid, an engraved locket and chain and to the groomsman a pair of gold cuff links. The presents received by the bride were very beautiful and numerous, and attest to the high esteem in which Mr. and Mrs. Smith are held by their many friends. Their future home will be at Lakehurst.

Dr. Clark Again Elected President

Seattle, Wash., July 11.—Dr. Francis E. Clark, of Boston, Mass., was unanimously re-elected president of the United Society of Christian Endeavor last night. Other officers elected were Hiram T. Lathrope of Boston, treasurer; George B. Graff, of Boston, clerk of the corporation; and Fred H. Kidder of Boston, auditor, a position newly created by the Board.

Winnipeg carpenters are asking for an increase of ten cents an hour.

Pick Pockets Committed for Trial on Two Charges of Theft

Charged With Stealing $40 From Pockets of Luke Francis and $1.75 From W. B. Bennett—Prisoners Were Recognized by the Men Who Lost Money.

The four pickpockets, Phelps, Bradford, Lewis and Goldfarb, again came up before His Worship Magistrate Dumble this morning, and their preliminary hearing was proceeded with. Two more charges were investigated, those of stealing $40 from Mr. Luke Francis and $1.75 from Mr. W. B. Bennett, on June 25. On all charges they were committed for trial.

Messrs. Kerr and Gordon appeared for the prisoners and Crown Attorney R. E. Wood conducted the prosecution.

On the charge of stealing Mr Francis' money, the four were committed for trial, but as two—Phelps and Bradford—were those who committed the theft, Mr. Kerr contended that the other two should be dismissed.

His Worship said that, as they were a gang working together for the one purpose, he would refuse to dismiss any of them.

MR. FRANCIS

Mr Luke Francis, of 149 Rubidge street, was called. He stated that on June 25th he was watching the procession at the C.P.R. station from the freight shed platform. Two other gentlemen were with him. They walked up on the west side of George street to the Customs House and saw the parade again. They then returned to the Southern Hotel, entering by the sitting room door. A man put his hand on his left shoulder, telling him not to shove. There was not a very large crowd at the Southern. When asked by the Crown Attorney if he knew the man, he said "yes," and pointed to Phelps. He also recognized Bradford as the one who shoved up against him, while Phelps had his hand on his shoulder. He left the hotel and walked down the street, and at Turner's factory, he put his hand in his pocket and his pocketbook was gone. He had the money at the C.P.R. station. There were four Bank of Montreal ten-dollar bills. Mr. Larocque cashed a cheque for $60 for him Saturday evening giving him six tens. One of them was marked by several blue strokes across it. He disposed of two tens previous to Tuesday. Witness recognized one of the bills found on one of the prisoners as being his, identifying it by blue strokes across it. When the tens and fives were being displayed in great quantities, His Worship remarked that these people lived good by stealth.

Witness to Mr. Kerr, said that he told a police officer at the station on the Wednesday following, that he would know the bills, if he saw them, by the blue marks. Phelps and Bradford were coming out of the hotel. Witness said that he never saw the men before, and not again until in the police court.

To Mr. Kerr he also said that he never saw the bills since he lost them until today. Witness also identified Phelps and Bradford in pictures shown him by P. C. Newhall.

P. C. NEWHALL

P. C. Newhall was called to give evidence, but it was considered unnecessary to go over the same evidence as was given on Wednesday. The ten-dollar bill with the cross on it, was found on Bradford. On both Phelps and Bradford, two Bank of Montreal ten-dollar bills were found. Mr. Francis did not tell witness what marks were, but he found out from another source. On Saturday, when he served Mr. Francis with a subpoena, he placed eight photographs before him and told him to pick out any man he knew. He picked out Phelp's picture and said "Theres' the man that was pushing on my right shoulder." Looking at Bradford's pictures, he picked out the one with the cap on and said "That is the other fellow, I saw." The evidence as given by this witness on Friday, was allowed to go in without being repeated.

STOLE $1.75

The charge of stealing $1.75 from Mr. W. B. Hartley was next taken up.

Mr Hartley was called. On being sworn he refused to kiss the Bible, and by raising his hand took the oath. He stated that he was getting on the street car at Brock street. He had a number of parcels in his hands. Phelps, who Mr Hartley pointed out, would not get out of his way. Phelps refused to move and soon after the other three got on the car. When Mr. Hartley put his hand in his pocket for the fare his pocketbook was gone. It contained a lot of small change. He also had another purse containing four dollars but they did not get it. The four got off at Central Park. The witness wanted to address the men and tell them something that would do them good for the future, but the court refused.

The court did not adjourn until nearly two o'clock.

ROY'S

Boy Charged With Stealing Bicycle

Allowed to go With Warning—Four Lads up for Fruit Stealing

A special session of the police court was held yesterday afternoon to deal with cases of young lads charged with theft. This has been an exceedingly busy week for Magistrate Dumble and afternoon sessions lately are not uncommon. It is also surprising the number of young boys that have been arraigned in police court on charges of theft. Apparently many young lads of this city are leading rather wild lives. If they are beyond their parents jurisdiction it is time the authorities look into the matter. A young lad about twelve years old, by the name of Ed. Sullivan, appeared last Saturday charged with stealing a bicycle from a son of Richard Hall's. He was remanded to the Children's Shelter until yesterday, when he again came up. Mr. E. L. Goodwill, solicitor for the Children's Aid Society, appeared for him. It appears from the evidence given yesterday young Hall left his wheel to the east of the armoury for a while. On returning to get it, it was gone. A friend of Sullivan's told one of the police officers who had taken the wheel and Sullivan was arrested. After having used the wheel for about an hour, Sullivan returned it to where he got it.

The boy's mother testified to him being an incorrigible one. He slept out at nights and was beyond her control.

Mr Goodwill while not asking that the boy be allowed to go on uncorrected asked that he be given another chance. His Worship then addressed the lad, giving him some good advice. He did not want to send him to gaol, but would allow him to go on suspended sentence. The eye of the policeman would always be upon him, and if he ever came up again he would not get off so easy.

STEALING FRUIT.

Four young lads, P. Conroy, K Galvin, G. O'Hern and J. Hargrove, were charged yesterday with stealing fruit from August Longo's store, Hunter street, last week. They pleaded not guilty. Hargrove and Conroy were proven guilty and were fined two dollars to be paid in ten days. The other two were allowed to go.

A barn at Niagara Falls, used as a store house for caps, was burned with its contents yesterday, over $2,000 damages being done.

COME ONE, COME ALL

AT CASTLE NESBITT.

There are eighteen prisoners in the county gaol at present, including one woman.

HOME BOYS COMING.

London, July 11.—Nearly 300 Barnardo boys left London for Canada today.

ARE VERY BUSY

The Lakefield Portland Cement Co., is doing a very large shipping business these days. An average of ten cars per day is shipped to different parts of Ontario.

DID NOT PLAY.

Owing to the heavy rain the concert, which was to have been given in Victoria park last evening by the Salvation Army band did not take place. The band was ready to go to the park but, owing to the downpour did not leave the barracks & meeting was held instead of the concert.

THAT COMICAL SKATER

Visit Scott's Coliseum, Jackson Park, the popular resort for moving pictures, and see "The Unskillful Skater"; have a good laugh; also see "The Lightning Crayon Artist," The two pictures for the one price of admission, 5 cents. Matinee 2 to 5. Evening 7 to 10. Change of programme Thursday.

A MATTRESS WONDER.

Now on exhibition in E. B. Clegg & Co's. furniture store window. An Ostermoor Mattress made in 1853, in continuous use for 50 years, is still in good order. Call and see it and the certificate of the reputable Canadian citizen who used it. We sell Ostermoor Mattresses made the same to-day as 50 years ago. E. B. CLEGG & CO Aid

WROK GOES ON.

The Hydro-Electric Power Commission is carrying on its work energetically. A fourth survey party will be sent out next week. One party is now working between Toronto and Hamilton, another between Hamilton and Niagara Falls, the third between Hamilton and London. The fourth party will work on the branch lines to such places as Galt, Simcoe, etc.

MR. HOLGATE SELECTED

An Ottawa despatch says; — The Intercolonial Railway will be represented by Mr. Henry Holgate, C.E., of Montreal, formerly of Peterborough on the board of conciliation and investigation, which will enquire into the demands of the freight handlers in Halifax. The latter have not yet named their representative.

NATIONS QUARRELS.

Visit Scott's Coliseum, Jackson Park, and see the latest moving picture "The Fights of Nations." See how the different nationalities settle their quarrels. This is a very remarkable picture. Admission 5 cents. Matinee 2 to 5. Evening 7 to 10. Complete change of program on Monday.

A PRESENTATION.

Dr. and Mrs. Douglas, who are leaving Warsaw to take up their abode in the Northwest, were the recipients of handsome remembrances from the members of the Methodist choir, of which they were members during their residence in Warsaw. Mrs. Douglas was presented with a handsome inscribed fern pot and the doctor with an elegant suit case. The gifts were accompanied by a pleasing address.

FIXING THE BRIDGE.

Street Commissioner Harry Evans started a gang to work this morning on the Reid street bridge in front of the Wm. Hamilton Co's works. A new concrete deck will be put on and in future there will be no more trouble with this bridge. This is one of the bridges provided for by the by-law passed last January, and is the first one of the lot to be fixed up.

GOLDEN JUBILEE

The year that saw the city of Ottawa incorporated and witnessed also the institution of the Masonic Grand Lodge of Canada in Ontario, whose 52nd anniversary will be celebrated at Harmony Hall, on July 17 and 18. Grand Master J. H. Burritt, K.C., of Pembroke, will preside and about one thousand delegates from 21 districts and 500 lodges will, it is expected, attend.

IMPRESSIVE SERMON

The Orillia Packet says;—The Rev. Dr. Langfeldt, of Peterborough, preached two eloquent and impressive sermons in St. James's church on Sunday. His morning subject was the power of Christianity. He dwelt on the fascination which power had for men, and on the power the Gospel had shown by its influence on the history of the world and on the lives of men, and urged that Christians should so live as to display that power in its highest form. In the evening he preached from the text, "Ye cannot serve two masters," and pointed out the hopelessness of the attempt to serve God and the world at the same time.

PERSONAL

Mr. F. C. Hunt, of Toronto, is in the city.

Mrs. (Dr.) Cameron is visiting relatives in Edmonton.

Mr. J. Irwin, G.T.R. trainmaster, was in the city yesterday.

Misses Lillian and Eva Orr have gone to Binscarth, Man., to reside.

Mr James E. Fowler spent Monday in Peterborough.— Havelock Standard

Mr S. F. Whitham, of Brantford Normal School, contractor, is in the city.

Messrs. Bruce Wilson, Roy Wilson and Bruce Hopkins, of Lindsay, were in the city today.

Mr Fred Stevens, of Toronto, is spending his vacation with Mrs Jas Garside, Reid street.

Mr. C. W. Thorne and Mrs. Thorne (nee Wilmott), of New York, are in the city visiting friends.

Mr. T. J. Wallace and son, Master Lawrence, left for Idyl Wyld and Keene to spend a few days.

Mrs Hammond Lee left this morning on a month's trip to Toronto and other western towns.

Miss Wright of Peterborough, formerly of town, has been visiting Miss Bigham.—Barrie Advance.

Mr. Thomas Eastwood, of Buckhorn, was in the city yesterday. He reports that the fishing is good.

Master Eddie Brown has returned to his home after a few days' visit with his aunt, Mrs. Jas. Garside.

Mr. Manley Wilson, of Bridgenorth, is spending a couple of days the guest of Mrs. Jas. Garside.

Mr. Ernest Brownscombe, of the Bank of Ottawa staff, left last night to spend his vacation at Stony Lake

Misses Gertie and Sadie Greenbank, are spending a few weeks with friends in Peterborough and Lakefield.—Norwood Register.

Mr and Mrs. B. E. Barrett, of Rochester, N.Y., are spending a few weeks with her sister, Mrs. James Bestard, city.

Miss Florence Bestard, of Peterborough, has returned home after spending a few weeks with relatives in Hamilton, Toronto and Rochester.

Mr. Theodore F. Ball, of Welland, has accepted a position in Harry H Jones" drug store, taking the place of Mr. Henry McCaffrey, who has gone to Peterborough to accept a position there.—Madoc Review.

Orillia Packet.—The Rev. Dr. Langfeldt returned to Peterborough yesterday Mrs. Langfeldt and the children go on Saturday......Miss Lillian Rogers, of Peterborough, is visiting Miss aMy Hatley.

Lindsay Post; Mr. Wm. Rudkins, of Peterborough, Inland Revenue Department official, was in town yesterday, a guest at the Simpson House ......Miss Eva Tangney has returned to her home in Peterborough, after spending a pleasant visit with Peterborough friends.

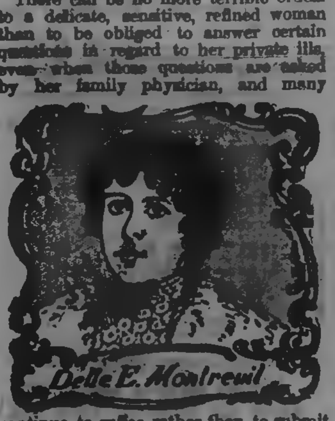
A WOMAN'S ORDEAL

DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many continue to suffer rather than to submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.



This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women more wisely than the local physician.

Read how Mrs. Pinkham helped Della Emerentienne Montreuil, of 114 Latourelle St., Quebec, Que.

Dear Mrs. Pinkham:—

"I suffered for eight months with what the doctors called prolapsus, which caused great weakness all over my system, with faint dizzy spells. I kept growing weaker and weaker. I tried several medicines which they claimed would cure my trouble, but nothing was of the least benefit until I tried Lydia E. Pinkham's Vegetable Compound, and this helped me so rapidly that I could hardly believe my good fortune. I would gladly have paid $25.00 for that first bottle, for it started me on the road to health, and five bottles cured me. I am most grateful for my splendid, robust health, and shall certainly recommend the Vegetable Compound in glowing terms to all my friends and acquaintances, for it is deserving of all the praise I can give it."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

LADIES THROWN FROM A BUGGY

Horse Became Frightened at Auto Bus on the Way From Chemong

On Wednesday morning the passengers on the Chemong auto 'bus had an exciting experience. The 'bus was nearing the swamp when Mrs Mann and her daughter, of Bridgenorth, who were driving, approached. The auto slowed down, but as the horse had passed it safely on several occasions, it was not deemed necessary to stop altogether. The ladies could have driven into a gateway had they wished, but they thought the horse would be quiet enough and drove on. Just as the animal got close to the auto it sprang sideways into the ditch, and the ladies tried to get it up on the road again, but in doing so the buggy was upset and they were thrown into the ditch on the other side of the road. The shafts broke away from the buggy and the horse started down the road at a lively gait.

Dr. Boucher and several well-known citizens were in the auto, and as soon as they saw trouble, they jumped out, and were of material assistance in preventing the horse backing upon the ladies after they had been thrown out. Fortunately Mrs Mann was not injured at all, and Miss Mann escaped with a slight bruise to her hip. They were taken back to Bridgenorth, where the doctor looked after them. This is the first accident the auto 'bus has been mixed up in this season, and the owners regret it very much. It was not the fault of the auto, either, as the chaffeur is very careful and would have stopped the 'bus instantly had the ladies shown any desire for him to do so. As it was, the 'bus was travelling very slowly.

Roller Rink Was Largely Attended

There was a big crowd at the roller rink last night, and apparently the opening of this place of amusement on Thursdays and Saturdays is going to prove a very popular move. About 200 skaters were on the floor and seemed to enjoy fully the exhilarating sport of "rollering." A good band was in attendance and supplied plenty of music.

The rink will be open tomorrow afternoon and evening with a band in attendance at night.

RARE PICTURES LOANED TO HISTORICAL SOCIETY

Mrs. F. J. R. Mitchell, 226 McDonnel street, has loaned the Peterborough Historical Society some fine pictures. They are rare old types, and are very valuable by reason of their association. Three are enclosed in solid mahogany frames and represent Lord Palmerston, Premier of Great Britain, Princess Victoria (our late Queen Victoria) and her husband, the Prince Consort.

Two other pictures are in heavy antique frames, and represent Windsor Castle and Osborne House.

The kindness of Mrs. Mitchell in loaning these pictures, so that they may be placed in the Victoria Museum, is greatly appreciated by the members of the Peterborough Historical Society.

Orangemen of Peterborough District Went to Millbrook

Over 500 Paraded From McDonnel Street to the G.T.R. Station—Big Celebrations at Millbrook and Havelock.

With banners flying in the breeze and orange ribbon in profusion, the Orangemen of Peterborough district marched through the streets of the city this morning. There were over 500 in line and over 600 persons boarded the train which left the Grand Trunk station for Port Hope about eleven o'clock. A large number also left on the regular train at 11.45 and it is estimated that there will be several thousand Orangemen celebrating at Millbrook.

The Nassau and Lakefield lodges arrived in Peterborough about 10.30 on a special train from Lakefield, and detrained at McDonnel street. Here the lodges from Peterborough had assembled and upon the arrival of the Lakefield and Nassau lodges, a procession was formed and marched to the G.T.R. station by way of McDonnel, George and Charlotte streets.

The following lodges were in line:

Diamond lodge, No. 80, Peterborough, Bro. W. J. Hawes, Director of Ceremonies.

J. W. Bell Memorial Lodge, No. 1175, Bro. Hawley, D. of C.

Jubilee Lodge, Prentice Boys, Bro. Turner, D. of C.

Peterborough Lodge, Loyal True Blues, Bro. Allison, D. of C.

Col. Sanderson Lodge, Downer's Corners, No. 321, Bro. Holden, D. of C.

Wellington lodge, Nassau, No. 457.

Lakefield Lodge.

Young Canadian Lodge, O. Y. B., Lakefield.

The 57th Regiment Band headed the procession and fife and drum music was supplied by the Nassau and Lakefield fife and drum bands, and by the Lakefield Brass Band.

The procession was marshalled by County Director of Ceremonies, Wesley Northcott of Lakefield, assisted by County Master W. H. G. Armstrong, District Master Andrew Robson, and District Director of Ceremonies, H. McClure of Peterborough.

A large number left on the C.P.R. train to attend the big celebration at Havelock. Full reports of the two big demonstrations will appear in the Review tomorrow.

Architects Are to Compete For Plans of the New Library

Property Committie Had Long Talk Over What Action to Take—Building to be a Handsome One—Other Matters of Minor Importance Put Through

The Property committee has held its first meeting in connection with remodelling the building for the new public library. Several features of the work were discussed and some progress was made. The most important step was the decision to invite the local and outside architects to prepare plans for the building on speculation. The Council will accept the design which is considered the best. It was also decided, with the Council's permission, to send a deputation away to see several new library buildings.

The committee also put through several other matters.

Members present were Ald. McIntyre, chairman, Ald. Elliott, Morgan, Stevenson and Mayor McWilliams.

The first matter taken up was that of the building given by the trustees of the Nicholls Estate for the new public library. The chairman said that he had seen Mr. R. Hall and his idea was to change the entire front of the ground floor and the second floor, so as to do away with the store appearance. The chairman added that he had secured plans of public libraries from Lindsay, Ottawa and Sarnia. They were not however, of very much assistance in solving the problem. The alderman prepared plans himself of a front giving his ideas of what should be done.

Then followed a long discussion of whether the library should be made a public library in every sense of the word, or whether it be conducted still as a mechanics institute. If it is to be a public library the library board will have authority to demand from the city the income from one-half mill on the total assessment, which will amount to $3000. It is a question whether or not the people are prepared to give that much money. On the other hand if the city fits up the building and hands it over to the mechanics institute for them to maintain, with free reading rooms, the board would at once reply that they could not possibly afford to do so. The heating of the new building alone would eat up practically all the money received from subscribers. It was said by one man that the heating would cost about $1000 a year. This appeared to be a little high and the aldermen thought half that amount would be nearer the mark. No definite action was taken in this matter and it will be taken up at a later meeting.

STYLE OF BUILDING.

What kind of a building will the new library be caused the aldermen some worry. Very few of them had seen many of the new public libraries and none of them had had any experience with them. This brought up the question of who was to be the architect. The majority of the committee did not care to go out of the city, although some of them thought that the Council would be justified to accept the plans of an outside architect if they were more suitable.

The following motion was then passed:—

Moved by Ald. Morgan and Mayor McWilliams, that all the local architects be invited to submit designs for fitting up the public library building, with estimates of cost, with the understanding that no plan will be paid for unless it is accepted; the designs to be received not later than August 15th next, also that the city clerk be instructed to invite outside architects to submit plans on the same terms:—Carried.

It was decided that the committee should invite the library board to appoint a small committee to meet with the Property committee and discuss the matter of the new library.

The committee will recommend to the Council that the committee be given authority to send a couple of delegates to two or three cities to see some of the new public libraries.

Ald. Elliott brought up the matter of repairing the roof of the market clerk's office and the public weigh scales. The chairman of the committee was instructed to see that the engineer carried out the plans he made some time ago.

VICTORIA PARK LIGHTS.

Ald. McIntyre said that in reference to the lights in Victoria Park he said he got an estimate of the cost of having the switch changed from its present position to the corridor of the county court house and it would cost $10. If the change was made Mr. Rae would look after it.

The police claim that they have attended to it, but that the boys turned the lights off and on after the police went away. It was therefore decided to have the switch changed.

Moved by Mayor McWilliams and Ald. Stevenson that a new revolving chair be purchased for the Chief of police office.—Carried.

Salaries of City Officials Raised by Finance Committee

Tax Collector, City Treasurer, and City Clerk Are Included in the Increase—At End of Year Question of Salaries and Engaging Assistants Will be Taken Up.

The finance committee decided last night to increase the allowance to three of the city officials, viz., tax collector, $100; treasurer, $150 and city clerk $150 per year. These increases are due to the increases in the salaries to the assistants, and not merely for the officials themselves. This was the only matter taken up, but at the end of the year the whole question of salaries to city officials and engaging and paying their assistants will be taken up, and if some of those present last night have their way, the present system will be entirely changed.

Those present were Ald. Tovey, chairman; Ald. Morrow, Ald. Phelan and Mayor McWilliams.

Mr W. J. Green, city tax collector, who is allowed $1,000 a year for his time and the assistance he requires, and also has to pay $100 for his bond, was allowed the $100 for his bond. That will give the tax collector an increase of $100 and he will now have for himself $850 a year.

CITY TREASURER

The next matter taken up was an increase in salary for the city treasurer. That official has to pay increases to his assistants and it made a serious difference in his income. The committee thought that he should not be expected to meet this extra expense out of his own income, which is not any too much as it is. It was, therefore, decided to increase his allowance $150, although his own salary will not be raised at this time.

It was moved by Ald. Morrow that the city treasurer be paid $1,000 a year under the same conditions as at present for the balance of the year. Ald. Phelan seconded it. Carried.

Moved in amendment by Mayor McWilliams that an arrangement be made with the water commissioners to pay the treasurer a salary of $1,200 and allow $700 for paying the office help. There was no seconder, and the amendment was not put.

It might be explained that the Mayor's amendment and Ald. Morrow's motion provided the same amount of money, but a different system of paying it.

CITY CLERK'S SALARY

Owing to a large increase in the work of the city clerk's office, it was felt that he should be given an increase in salary of $150 for the balance of the year, starting from June 1st, and at the end of the year the whole question of salaries and engaging office assistants be taken up.

Regular Band Concert To-night

The regular band concert given by the 57th Regiment Band will be held in Victoria Park this evening. A fine programme will be rendered, and it is expected that the usual large crowd will be present.

WEDDING BELLS

THOMPSON—SEARIGHT.

The home of Mr. and Mrs. C. J. Searight, Norwood, was the scene of a bright gathering on Wednesday afternoon, when their daughter Miss Bertha, became the bride of Mr. Jetty Thompson, who has lately established a flourishing business in Norwood.

At the appointed hour, the groom, attended by Mr. John Marks, took his place under the arch of evergreens which had been erected in the spacious parlor and which had been tastefully decorated with wedding bells, and immediately thereafter the bride, leaning on the arm of her father, appeared, her bridesmaid being Miss Thompson, sister of the groom. The wedding march was rendered by Miss Vida Wilkins. The bride looked well in her dress of white organdie, trimmed with maline lace, insertion and silk, and with veil and coronet of orange blossoms. She carried a bouquet of beautiful white roses. The bridesmaid was gowned in a manner similar to that of the bride, but carried a bouquet of pink roses. The ceremony was conducted by Rev. W. H. Adams of the Norwood Methodist church, and on its completion, the happy pair received the congratulations of the assembled guests. Subsequently the party repaired to the dining room, where a handsome spread had been arranged and where full justice was done to the rich repast.

The groom's gift to the bride was a gold watch; to the bridesmaid a gold locket; to the groomsman gold cuff links, and to Miss Wilkins a gold brooch.

The bride is a sister of Mrs. Ira D. Moore of Peterborough.

The travelling dress made for the bride was an eaton suit of brown panneau cloth, with oriental lace waist over silk. The presents received by Mr. and Mrs. Thompson were both beautiful and useful and were an evidence of the esteem in which they are held.

FATHER'S ECZEMA INFECTED CHILDREN

Family Cured by Zam-Buk—An Assistant Chief of the G. N. W. Tells of This Wonderful Healer

Mr. Chas. Noble, of 375 Colonial avenue, Montreal, assistant chief operator of the G.N.W. Telegraph Company, says; "I had eczema, which started on the back of my hands, in the form of small sores. These itched and then pained me. The disease spread despite all my care and medical treatment, and to my alarm, the children caught it! They broke out in sores, which discharged freely and gave them great pain. All the remedies we tried did not seem to touch the disease, and it continued to spread until Zam-Buk was recommended. A few applications brought relief, and a little perseverance resulted in a cure in every case. Both myself and children are now free from all traces of eczema, and we owe it to Zam-Buk!"

Summer skin troubles—sunburn, insect stings, chafed places, sore feet, etc.—are speedily cured by Zam-Buk. It also cures ulcers, abscesses, cuts, burns, bruises, ringworm and poisoned wounds. Gives ease in cases of piles. All stores and medicine vendors at 50c. a box, or Zam-Buk Co., Toronto, for price, 6 boxes for $2.50.

Pendant Worn by An Indian Maiden

Added to the Curios at the Victoria Museum

Mr. T. J. Wallace, secretary of the Peterborough Historical Society yesterday showed the Review a pendant, which had been unearthed by Mr C Rutherford, when excavating near the Snowden House last year, and which will be added to the Indian curios at the Victoria Museum.

The pendant is of smooth, red soap stone, and is evidently hundreds of years old. It is about the size of an Indian arrow head, and was, in all likelihood, worn by some Indian maiden. In the very early days of the dusky aborigines, maidens wore pendants suspended from the lower lip, and the size of the pendant determined the rank of the maiden.

The Indian female papoose had a hole made through its lower lip, and a wooden peg inserted. Gradually a larger peg was used until the hole was big enough to insert a ligature of fibre, to which the pendant would be attached. In some cases the pendant was large enough to cover the young woman's chin. History shows that Indian maidens wore pendants in the very early days—long before Champlaine sailed the Great Lakes, and to discover one of these ornamental pieces is unusual.

The pendant will be placed among the arrow heads, tomahawks, skinning knives and other relics of the race, at Victoria Museum.

Annual Outing St. Luke's School

Children Spent a Pleasant Time at Idyl Wyld

In spite of the unfavorable weather yesterday, the attendance at St. Luke's Sunday School excursion to Idyl Wyld was good and everybody was satisfied with the day's outing.

At Idyl Wyld, after dinner, the usual races came off, and the following were the winners.;

Infants' race—1 Walter Bailey, Wilhelmine Gaskins; 2 Fred Moore, Ruth Drummond.

Children, under 8 years.—1 James Colquhoun, Olive Peck; 2 Bert Lipsett, Wilhelmine Gaskins.

Children under 10 years.—1 Arthur Lipsett, Eunice Curtis; 2 Douglas Bell, Maggie Colquhoun.

Children under 12 years.—1 Kingsley Waterman, Lizzie Maniece; 2 Harold Adams, Ada Adams.

Children under 14 years.—1 Evelyn Stewart, Lizzie Maniece; 2 Arthur Lipsett, Fanny Long.

Boys under 18 years.—1 Orlando Waterman, 2 F. Stewart.

Boys' Sack Race—1 Harold Adams, 2 George Colquhoun.

Girls' potatoe race.—1 Greta Pakenham, 2 Lizzie Maniece.

Three legged race.— Orlando Waterman and Gillespie Stewart.

Teachers' race—Miss Jessie Crane, Miss Ethel Pakenham.

Men's race.—Mr Chas. Crane.

The party reached Peterborough about 8.30, quite delighted with the outing.

Province Has Spent $21,000,000

On Improving Country Roads During Past 10 Years

Toronto, July 12.—As shown by the annual report of Mr. A. W. Campbell, Deputy Minister of Public Works, on highway improvement the amount spent by Ontario on road improvements during the last ten years was $21,000,000. Of this, $10,432,902 was in cash, the remainder being made up by $10,510,500 days of statute labor. This does not include the expenditure in town and city streets. Lennox and Addington, Middlesex, Peel, Lincoln, Oxford, Wellington, Hastings, Lanark, Wentworth and Simcoe were the counties in which the most work was done from 1903 to 1906. The aggregate sum spent in these counties in this time was $887,282, of which the government contributed $295,751. The miles of roads improved totalled 2,076. The expenditure in 1906 was $250,444.

Although admitting that automobiles have come to stay, in regard to the present situation, Mr Campbell says;

"The automobile on the country road is undoubtedly producing, at the present time, much hardship. Occasionally accidents are reported, and that the number is not greater is partially due to the fact that farmers, and their wives and daughters especially, are compelled to use the roads with horses less than they would otherwise do, owing to the fear of meeting an automobile. This is most unfortunate, and it is not a matter of surprise that much feeling has arisen antagonistic to the automobile."

Construct Dam at Middle Falls

Tenders Will be Called for at Once—Mr. Butler's Visit

Mr. M. J. Butler, deputy minister of railways and canals, was in town last week and gave every assurance that the Government means business in connection with the dam at Middle Falls, says the Campbellford Herald.

Tenders will be asked for immediately for the construction of the dam, so that the contract can be let by the 1st of August. Construction work will be begun on the 7th of August and the dam is to be completed by the middle of November.

Speaking of the possibilities of Campbellford Mr. Butler said that a few years would see vast improvement in the growth of the town "So far as the Government is concerned," said Mr. Butler, "the work will be continued until this great waterway shall be opened for transportation, and it will prove not only very beneficial to the section through which it passes, but to the country at large."

The opening of the new waterway will not only benefit Campbellford from a point of view of transportation, but the system of dams will develop water power so that abundance of electrical energy can be produced for any manufacturing concern that may wish to locate here. That Campbellford will be the headquarters for this section of the canal will mean much to the business.

The deputy minister also went to Trenton to make an inspection of the work now going on there.

The Daily Review

FRIDAY, JULY 12, 1907

THE VOTE ON THE BY-LAW

It is gratifying to record that the bylaw to grant a free site valued at $3,500 to the Colonial Weaving Company, and to fix their assessment at this figure for a term of 10 years was carried yesterday by the property holders of Peterborough by the splendid majority of 206. It is also pleasing to note that, while the vote was not large—only 500 being recorded—the result of the ballots cast shows 353 in favor of the bylaw and only 147 against. Thus more than double as many votes were polled for the measure as there were cast against it.

Considering that many property holders are out of the city at present, that no special effort was made to arouse their interest, and that the bylaw was submitted at a rather inopportune time, the outcome is satisfactory and demonstrates that Peterborough intends to hold on to what industries it now possesses, as well as make a constant, earnest effort to secure more. Local capitalists will now feel encouraged to go on and put their money in local enterprises, doing all in their power to build up the city and enhance its industrial and commercial prestige.

What is the result of yesterday's vote? What will it mean to the city of Peterborough? It will mean that a fine new manufacturing building will be erected by the Colonial Weaving Company on the site which the city will hand over to them at the corner of Rubidge and Rink streets, embracing some fourteen lots, on plan 86 of the city. The building will be 200 feet long and 60 feet wide, and the manufacturing facilities of the company will be greatly increased for the making of woven labels and similar goods. The company will also install $30,000 worth of machinery; guarantee to employ 60 hands; invest $50,000 more capital than at present invested; pay all taxes on $3,500 assessment for 10 years; pay school taxes on full assessment, and pay all frontage taxes and local improvement assessments.

Surely, in view of the foregoing conditions, the city has much to gain and nothing to lose as a result of carrying the bylaw yesterday.

The company will now proceed with their plans for enlargement and the purchase of their new plant, and will call for tenders for the erection of their commodious factory on the new site as expeditiously as possible.

COLONIZATION ROADS

Hon. Mr. Cochrane is, in one respect at least, a model minister. He does not depend exclusively on the reports of his subordinates, but personally investigates the needs and conditions of the north country himself. As a result of his tours he has come to the wise decision that colonization roads should only be constructed in townships having at least forty per cent. of agricultural land. Also that a trunk road should be constructed just before settlers go in and when enough of them are settled along that road, others may be constructed. In other words, instead of the settlers going into a wilderness and roads being built to reach them, the roads will first be built and the settlers located on them.

The system that has been in vogue in past years has been a haphazard one, says the Ottawa Citizen, and under it the expenditure of colonization road money, was largely a matter of political pull, and subsidized vote-getting. Settlers were allowed to take up land, far from any means of communication, and when enough of them were scattered about on any one region to organize a political pull and make their votes worth getting, a road would be built in to connect them with civilization. If the bulk of such marooned settlement did not vote right, its members found great difficulty in securing a road.

Hon. Mr. Cochrane's plan should work excellently. Before a township is opened for settlement a trunk road will be constructed through it. When it is opened for settlement the settlers will naturally locate along that road and will have communication from the first. By the time all the homesteads are taken up along the trunk road, the township should be strong enough to organize itself as a municipality and construct side roads.

PEN POINTS.

Orange lilies!

Hearken to the fife and drum.

Are you wearing the Orange?

Millbrook and Havelock are en fete today.

Have you seen the comet—but there that's another tail.

This has been a pretty cool July for the summer resort business.

When it costs a dollar to walk over the C.P.R. bridge, that is pretty heavy toll.

Well we can excuse a few flaws in character when spots are visible on the sun.

Perhaps you are too comat-ose during the warm weather to observe the star with a tail.

After all, the sun is not perfect. It has spots which proves that a shining body is not always just what it seems.

The visit of King Edward and Queen Alexandra to Ireland, has shown the genuine, open-hearted, true hospitality of the Irish people.

There is not much danger of Magistrate Dumble purchasing a rapid touring car, judging by the opinion he entertains of those who drive their cars at lightning speed.

Here is Lindsay, figuring in the limelight as a counterfeit centre, although it has ever proclaimed to the world, that it is the real, genuine article.

We are constantly jeering at the United States and their grafters, but every once in a while they land one of their grafters behind bars. Ours go free.

An so the friends of Mr. W. L. M. King, Deputy Minister of Labor, think that he would make a good successor to Mr. Joseph Seagram, M. P., in North Waterloo. Mr. Seagram has many times won the King's Plate, but Mr. King will never be able to capture Waterloo.

The Rev. J. A. Macdonald, editor of the Toronto Globe, has had a lot to say about the wickedness of the wicked Tory politicians. But what is the reverend editor's honest opinion about the Laurier Cabinet Ministers—about Mr. Emmerson, Sir Frederick Borden and Mr. Hyman? If the Globe man is sincerely desirous of clearing the fetid atmosphere at Ottawa it is up to him to come out flat-footed and declare himself about these gentlemen and their actions.—Brockville Times.

An up-to-date counterfeiting plant has been discovered at Lindsay. Look at Lindsay on a gala day and you could imagine yourself in Sparks street. Who would think that within seeing distance of Sam Hughes' austere brow any wickedness could lurk? And yet in the rugged but beautiful fastnesses of Haliburton and Hastings is a territory, which we continue to forget is practically devoid of settlement: where the illicit still, the "alligator" boat, the "link" and other "varmints" still abound, all just about on a bee line between Ottawa and Toronto.—Ottawa Journal.

Some reasons why his marriage proved a failure are,—

He did all the courting before marriage.

He never talked over his affairs with his wife.

He thought of his wife only as a cheap housekeeper.

He never dreamed that a wife deserved praise or compliments.

He thought his wife had a very easy time.

He married an ideal, and was disappointed to find it had flaws.

He treated his wife as he would not have dared to treat another woman.

He paid no attention to his personal appearance after marriage.

Hard coal is at present selling at $7.10 a ton in Peterborough. Edward T. Parker, the coal expert of the United States Geological Survey, predicts that at the present rate of consumption the anthracite deposits of the United States will be practically exhausted in seventy-five years. He urges manufacturers to use bituminous coal, and declares that the smoke nuisance will soon be abated as a result of experiments now being conducted in New York. "Hard coal will never be cheaper to consumers, than it is now," said Mr. Parker. "The production of anthracite in 1906 was 63,645,010 tons. According to coal experts the anthracite available for mining in 1901 was 4,765,216,750 tons."

During the summer and holiday season there will be many inducements to neglect the worship of God and attendance at His House, says St. Luke's Parish Church Work. In the desire to take a rest and to have a good time, the arrangements made are very frequently of such a nature, which excludes the provisions for the spiritual aspects of God's Day of Rest; namely, His worship and tending of the soul. Manifold are the excuses by which people try to persuade themselves, and others, to ease their consciences for not attending divine service. It is hardly necessary to point out that sin will always bring with it its own punishment. We would earnestly ask our friends to make their religious life and recreation their first concern. It is lamentable to think of the many who utterly neglect the claims God has upon them. From Sunday to Sunday they stay at home, spending the Lord's Day in idleness, sloth, and in the pursuit of their worldly enjoyment. Let those people, who are so devoted to such heathenish practices, remember that they shall reap what they are sowing—destruction of body and soul—in that world where "the worm never dieth, and the fire is never quenched."

Hamilton motorists protest against the proposal to bar automobiles from parks.

Big Excursion From Newmarket

Over 300 Supporters Will Accompany Lacrosse Team To-morrow

NEWMARKET VERSUS PETERBOROUGH AT RIVERSIDE PARK TOMORROW.

The above sporting fixture is the centre of interest in Peterborough at present and from the way the game is being talked about, there will be a big crowd on hand. The locals must win this game, and will go on the field determined to take a fall out of the visitors. The Newmarket club is running a big excursion here, and advices received from there state that about three hundred supporters will accompany the team. Peterborough will have the strongest lineup of the season, and every man is in the best of shape. The game is scheduled for three o'clock and a great brand of lacrosse can be expected.

Silver Jubilee of Bishop McEvay

His Lordship Was Rector of St. Peter's Cathedral for Some Years

On July 9th at London, was celebrated the silver jubilee of Right Rev. Fergus P. McEvay, Bishop of London, he having been ordained to the priesthood on the 9th of July, 1882. His Lordship succeeded Bishop O'Connor as the Bishop of London, when the latter was named for the archbishopric at Toronto. Moving to London from Hamilton in August of 1889, Bishop McEvay has proven himself a wise and prudent administrator, and with the aid of the priests with whom he has surrounded himself, has built up by rapid stages, the diocese of London. Bishop McEvay was born at Lindsay, Ont., on December 8, 1852. He was educated there at St. Michael's College, Toronto, at St. Francis' Seminary, Milwaukee, and at Montreal College. He was ordained a priest at Trenton in 1882, and served as parish priest at Fenelon Falls for a time, after which he was appointed rector of St. Peter's Cathedral, Peterborough, and chancellor of the diocese. In May, 1889, when Bishop Dowling was translated to Hamilton, he accompanied his Lordship thither, where he became a member of the bishop's council, and rector of St. Mary's Cathedral. As stated, he moved to London, in 1889, to succeed Bishop O'Connor.

The feature of the gathering was the presentation of an illuminated address and a golden cross engraved with the bishop's cross and a gold ring, consisting of a large amethyst, encircled in an eloquent manner.

The evening previous the children of the Separate schools of London assembled at the palace and sang a jubilee ode in honor of the event. An address was read by Master Christopher Atney.

At St. Peter's cathedral morning of the celebration a beautiful service was gone through with. The ladies of the Altar Society presented Bishop McEvay, with a beautiful floral design, in the shape of a pyramid surmounted with the figures "25."

Each priest on leaving the dining room at the Sacred Heart Convent was presented with a souvenir as a memento of the jubilee.

THE FASTEST STEAMER

On fresh waters has been engaged for the return trip Niagara Falls to Toronto, Thursday July 25th. Durham Old Boys' excursion. These excursions are becoming more popular each year, owing to the desirable class of people who patronize them and the careful management of the officers, who devote themselves to the entertainment of all excursionists. Wait for the Durham Old Boys' excursion to Niagara Falls, via steamer from Toronto and the Gorge Route, Thursday, July 25th. See large advertisement.

Burglars robbed the provincial Bank at St. Croix of $3,360.

Strawberry Social at Knox Church

Pleasant Evening Spent by Young People and Their Friends

The strawberry festival given last evening by the young people of Knox church was most successful, despite the unfavorable weather. The opening of the new tennis court did not take place, owing to the rain, but the concert and festival was given in the church. There was a large number present and altogether a very enjoyable time was spent.

Rev. H. J. Keith occupied the chair and after a few opening remarks introduced the following programme:

Piano solo.—Mr. Davenport.
Vocal solo.—Mrs. Keith.
Vocal solo.—Mr. R. Burns.
Piano solo.—Miss Geraldine Byers.
Vocal solo.—Miss A. Carr.
Recitation.—Mr. D. Campbell.
Vocal solo.—Miss W. Anderson.
Recitation.—Miss Clifford.
Vocal solo.—Mr. D. Campbell.

Refreshments were served during the evening and a social time spent. The young ladies in charge of the refreshments were Misses Clifford, Hamilton, Bartley and others.

A very pleasant evening was brought to a close by the singing of the National anthem.

Valuable Water Power Privilege

Offered to the City—Price Asked is $25,000

At the Council meeting this week the city was made an offer of a valuable water power privilege and property.

The proposition has been referred to the special power committee. Mr. J. H. Burnham submitted the following:—

I have been asked by Mr. J. M. Irwin's agent in Toronto, to lay before you the question of the purchase by the city, of the Irwin property at the Locks Dam, and its rights to water power. As you are aware the power is about 1,500 horse power, which can legally be increased to 2,400 h.p. If the city wishes to purchase this power and 17 acre site for the sum of $25,000 I shall be glad to hear from you on behalf of those who have instructed me.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Pupils Gave Most Delightful Recital

A very pleasing entertainment was held in the town hall Westwood, on Friday evening last when the pupils of Miss Bessie Lynch gave a recital, to close the summer term of their musical studies. Quite a number attended from different places in the district, and Hastings also was well represented.

The pupils gave every proof of the careful and artistic training which they have received while under Miss Lynch's teaching, and to say that the work done at the recital was gratifying to both teacher, audience and parents, was to say the least.

Miss Lynch is herself a most accomplished musician, and gold medalist from St. Joseph's Convent, Peterborough, and that she is leaving in the near future for the west is much to be regretted by the music loving public of Westwood and vicinity.

STILL SEARCHING FOR THE BODY

Waters Above Auburn Dam Will be Let Out to Facilitate Search

The body of Jack Lefebvre, the 12 year old boy, who was drowned just south of the Auburn dam, has not yet been recovered, but a diligent search has been going on ever since the accident occurred. It is expected that the water above the dam will be let out this evening, which will aid considerably the efforts to recover the body.

BLAMES THE PRESS

To the Editor of the Review.

Sir.—The press of this city and the "Trent Valley Association" are derelict in their duty in not replying to the Toronto World, and a writer therein by the name of J. H. Duthie, who are trying to belittle the importance of the Trent Valley Canal by false representations. To make matters worse a man by the name of W. A. Bailey writing from Peterborough in reply, damns the undertaking with faint praise, and by his lame advocacy and ignorance of the subject, gives Mr. Duthie the opportunity of emphasizing his mis-statements upon a subject of which he is grossly ignorant, or else trying to mislead for a selfish purpose.

Yours, etc.,
CITIZEN.

Will Play Off For Championship

West Ends and Strathconas Will Battle for Trophy To-morrow

The West Ends and Strathconas will play off tomorrow afternoon at five o'clock, at Nicholls Oval, for the championship of the Intermediate Baseball League.

This was decided upon last evening at a short meeting of the Executive. It will no doubt be an exciting game. Both teams are out to win, and a good exhibition of ball is expected. No umpire, as yet, has been decided upon. An effort was made to secure "Corney" Burns, but he will be out of the city.

Mr. Fred Craig will not be able to officiate.

LOCAL NEWS NOTES

ALLOWED TO GO.

John Cailey, who was charged with being drunk and disorderly on Saturday last, and who was remanded from Monday until today, was allowed to go this morning. The charge against him of assaulting P. C. McDonald, when being arrested, was also dismissed. He was given some good advice by His Worship. This is the second time he has been discharged and he will not get off so easy the next time he appears.

PAINFULLY INJURED

Master Sherman Roseborough, the twelve year old son of Mr. Herbert Roseborough, of Smith, met with a terrible accident on Thursday afternoon, in Lakefield. The little fellow had come into the village with his father, and had gone down to the Cavendish Co's sawmill to watch the operations. He was standing beside the track of one of the carriages which conveys the logs to the band saw, and just before the cariage came to where he was standing he stepped on to the track with the result that the end of the carriage caught his right leg and crushed it against the wall, taking a piece of the flesh right off the leg above the ankle. The other leg was also badly bruised.

STOCK MARKET QUOTATIONS

New York, July 12.—Developments this morning produced no new factors of importance and the shorts tried to retire some of their contracts, upon noting the absence of further liquidation, the result being that a fairly good tone was shown, and while prices were only changed fractionally at times, the wisdom of making purchases discriminately in a conservative way, during the softness appealed to professionals as first class. They are willing, according to investigations to buy on a scale down in the standard rails, which are favored, because they seem to have gone through the administration third degree.

The market was intensely dull during the afternoon and the close was stagnant, but firm.

The Black Flies Drove Them Back

Dr. W. A. Baker returned home on Friday last, after spending six weeks in the James Bay District. The doctor was on a trip over the Larder Lake and Lake Abitibi gold fields, and at one time was 225 miles north of Cobalt. The party was forced to return owing to the black flies and mosquitoes. Dr. Baker brought home with him numerous samples of ore rich in gold, taken out of claims discovered by the party.—Lakefield News.

MURTON—HAMILTON

Many friends will read the following from the Toronto Star with interest. Mr. and Mrs. Murton are spending their honeymoon in Peterborough and at Stony Lake:—

"Yesterday afternoon the marriage of Miss Kathleen Hamilton, second daughter of Mrs. Hamilton, Madison avenue, to Mr. Ralph Carleton Murton, youngest son of the late Sheriff Murton, Hamilton, took place quietly at the home of the bride, who was given away by her uncle, Mr. F. H. McCallum. The Rev. T. W. Murphy, Church of the Redeemer, officiated. The bride wore a pretty white coat and skirt of voile de soie, with lace blouse, white plumed hat, and carried white roses. The bridesmaid, Miss Eloise Hamilton, wore a white embroidered dress and hat, with pink carnations. Mr. Lansford Robinson, Hamilton, was best man."

New Officers Were Duly Installed

The semi annual installation of officers of Norwood lodge I.O.O.F. No. 262 for the term beginning July 1st, took place on Tuesday evening. The installation ceremony was conducted by Bro. Wm. Hill, D.D.G.M., assisted by Bros. D. McKercher, of Peterborough lodge, No. 111, and R. J. Matchett of Otonabee lodge No. 13, also brethren from neighboring lodges. The following were the officers installed,

N. G., Robt. McNeeley.
V. G., Hugh Adams.
R. S., T. W. F. G. Andrews,
P. S. A. S. Harrison
Treas., Fred Fry.
J. P. G., C. J. Blake,

Addresses by the visiting brethren followed the installation ceremony after which light refreshments were served at Bro. A. S. Harrison's restaurant.

H. R. McCormick, C.P.R. agent at Letellier, Man., was drowned while bathing.

The Advance in Price of Lumber

The Montreal Herald says,—Fifteen years ago hemlock lumber could be bought in the east for $11 a thousand feet; while the top price for years was $14. White pine of good quality could be had for some $20 to $25, and at $30 one could get the pick of the white pine market. Today hemlock lumber is selling at $30 per thousand feet, and white pine of a poor grade is held in many places at ten cents a foot, while the No. 1 article is seldom to be found in country lumber yards at any price. In consequence of the triple advance in the cost of lumber, building is in many instances entirely out of the question and improvements are everywhere retarded. It is not altogether due to the scarcity of timber, but to the operations of trusts.

Big Excursion From Newmarket

Fully 500 Visitors Arrive in City to See Lacrosse Game

The excursion run by the Telego Lacrosse club of Newmarket, reached the city to-day by G.T.R. shortly before one o'clock. About 500 persons were aboard. They will spend the afternoon here sight seeing and in taking in the lacrosse match at Riverside park between Newmarket and Peterborough. The special train started at King and called at Aurora, Newmarket, Bradford, Orillia, Barrie and other places. The excursionists are a healthy, happy looking crowd, and are enjoying themselves.

The Telego Lacrosse team arrived in the city last evening and the members are in great shape for this afternoon's game, which will be refereed by Mr. F. C. Waghorn, of Toronto.

Mr Aubrey Davis, president of the club and Mr. W. Mitchell, secretary, accompanied the boys to the city. Newmarket has defeated the Young Torontos, but lost to Beaverton. The line up this afternoon will be as follows. The contest begins at three o'clock

Goal, Hurst.
Point, Manning.
Cover Point, Graves.
Defence, Webb, Reavis and Anderson.
[illegible]
Centre Campbell.
Home Field, Doonan, Dunmore and Northcote.
Outside Home, Skelding.

The Peterborough team will be picked from the following players who are requested to be on hand in good time:—Backus Regan, Morgan, Derocher, Mein, Ford, Meagher, McGrath, McDonough, McLean, Glover, Best, Robertson, Judd, Dillon and Boyle

A NEW GREYHOUND

The Allan Line has a fine, new steamship which will shortly be placed in commission. It is called the Corsican and is the largest addition to the splendid Allan fleet. It is of 11,500 tons and has a capacity of 2,200 passengers. The first trip will be made from Montreal to Liverpool, on July 26th. Mr. W. McIlroy is the local representative of the Allan line.

A stable and store house on King William street, Hamilton, were burned yesterday, damaging James Ross' residence. [illegible]

Persistent Rumor that Lindsay Counterfeiters Have Confessed

Burke, it is Alleged, Acknowledges Everything Except the Making of the Bills.

Lindsay, July 13.—The arrest at the Union Station, Toronto, of Robt. Logie makes the fifth man from Lindsay to be apprehended on the charge of making or issuing the counterfeit bank notes that have come to the notice of the police recently Logie, who succeeded in eluding the police when they took his partner in charge at Montreal, on Monday, was brought here Thursday evening.

A CROWD WAITED.

Fully 600 people visited the C.P.R. and G.T.R. stations when the regular trains came in last night in hope of seeing Logie, the fifth Lindsay man taken in charge by the police in connection with the counterfeiting case. When he did not arrive by the regular C.P.R. train the whole crowd marched in a body over to the G.T.R.

The prisoner was not on the regular evening G.T.R. train, and a growing crowd waited in the rain for the arrival of the flyer from Toronto.

NO REPLY TO GREETINGS.

Two plain-clothes men got off the train with Logie in charge. He was not handcuffed, and had travelled with his guardians in the regular first class coach on the train. He was marched through the crowd to the cab in waiting and then driven rapidly to the gaol. He kept his head down, and did not reply to any of the many greetings of the friends of his in the big crowd.

HAVE ALL CONFESSED ?

There is a persistent rumor that all the prisoners have told all they know of the case, and with the exception of Burke, who is alleged to acknowledge everything, except the making of the bills, the police are satisfied with the confessions. Burke, it is said, claims the bills were sold him by a man whose name and address he does not know.

The families of all concerned feel terribly about the arrests. Mrs. Boyeau, wife of one of the men captured at the Soo, and Miss Boyeau, of Toronto, are said to be prostrated by the proceedings. Miss Boyeau is in a serious condition. The families of the arrested parties are all respectable, and much sympathy is felt for them.

TO APPEAR MONDAY.

The prisoners will come before Magistrate Jackson on Monday, but will likely be remanded, as neither the Crown nor the defence are likely to be ready to go on with the case.

A FRUITLESS SEARCH.

For the present no further arrests are expected, but the police maintained most exemplary reticence today. Detective Cowan, of Montreal, and Chief Vincent, of Lindsay, have been very busy, however. Yesterday afternoon, though they would not talk, it was learned that they made a search of a couple of houses in town. But when they returned from their appointed trip they had little more important than an air of deep, dark mystery.

Interesting developments are expected hourly, and the excitement continues very high in Lindsay.

As an evidence of the interest taken, may be cited the fact taht on the window of the Watchman-Warder, a local paaper, is a bulletin changed as often as new matter can be obtained and a simple new $5.00 genuine bank bill of the issue counterfeited.

LEFT LINDSAY SUDDENLY

Boyeau and Wynn, who were arrested at the Soo, will be brought here for trail. Boyeau left home here about ten days ago, without saying a word as to his leaving town. Later his wife got a letter from the Soo, saying he would be back on Saturday. He may be.

When Boyeau was nightwatchman at the Kennedy & Davis Mills, here, Burke was a frequent night companion

STRANGE STORY FROM LINDSAY

Yesterday's Lindsay Post contains the following account of the man's death, which apparently was given that paper by the circus management. It will be seen that the Lindsay story is much at variance with the facts and does not look at all probable. The Post item is as follows;

"An elderly man named Schultz a German, in charge of a number of trained dogs attached to Hargrave's circus, met death at an early hour this morning in a somewhat mysterious manner. Near Peterborough the circus special stopped at a small way station for a few minutes, and Schultz descended to look about him. The train started sooner than anticipated and he was left behind. His absence was noted a few minutes later and the conductor had the train backed. When a short distance from the spot, the body of Schultz was found alongside the track, and life was found to be extinct. It is supposed when he saw the train pulling out he ran behind in the hope of catching up and that his heart gave way under the strain."

The Peterborough Light & Power Co. wishes to remind its customers that Monday, July 15th, is the last day discount will be allowed on June accounts. The office will be open during the evenings of the 13th and 15th, from 8 p.m until 11 p.m.

WHY YOU CAN'T SLEEP.

It's just like this. Somewhere in the brain cells or blood vessels that supply the brain with blood, there is SOMETHING WRONG. That wrong must be righted or you'll go to smash.

Your physically exhausted body needs building up, needs more nutritious blood, needs tone and vigor. Your only hope is FERROZONE, which completely overcomes sleeplessness.

FERROZONE
IS GOOD FOR THE SLEEPLESS.

Every FERROZONE Tablet contains more concentrated goodness than you'll get in quarts of liquid medicine. It benefits instantly.

FERROZONE fairly fills the blood with nourishment. Feeds it with iron and oxygen, invigorates as nothing else can.

The refreshing sleep of a little babe, the restfulness and comfort of childhood's days will come every night of your life by using FERROZONE. Avoid substitutes!

Ferrozone is sold by all dealers in 50c boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

REVIEWED BY THE DUKE

Duke of Connaught Shakes Hands With Canadians.

Tendered Compliment to Col. Gibson on Team's Fine Appearance—Scores Made by Canadian Riflemen In the Several Matches — Canada Fourth In Mackinnon Cup Contest —England Won Trophy.

Bisley Camp, July 13.—(C. A. P.)—The Duke of Connaught yesterday morning inspected the Canadians and other colonial teams paraded before the Canadian pavilion. His Royal Highness had a brief chat with each of the officers, and when speaking to Adjutant J. D. Duff Stewart he said he had not abandoned hope that some day he would inspect Stuart's regiment, the 6th Duke of Connaught's Own Regiment of Vancouver.

His Royal Highness desired the adjutant to convey his good wishes to the regiment. He shook hands with several members of the team and asked them how often they had been to Bisley, where they came from and what success they had been meeting with.

The duke recognized Sergt. Deslauriers and shook hands with him. The royal visitor complimented Col. Gibson on the fine appearance of the team.

A cable has been received here asking Sergt.-Major J. Caven and Sergt. G. S. Carr, both of the 5th Canadian Artillery, Victoria, B. C., to take part in the artillery meet at Halifax, but they will be unable to go, as they would cripple the Canadian team if they left here.

In the "Association Cup," at 200 and 600 yards, Staff-Sergt. Davidson of the 48th Highlanders, who is over here on his own account, made 33 at each range, out of a possible 35.

In the "Armourers Company," seven shots at 900 yards, Sergt. Carr scored 32 out of a possible 35.

In the "Kynoch," seven shots, at 1,000 yards, Staff-Sergt. Bayles, 10th Grenadiers, scored 29.

In the "J. H. Steward Cup," seven shots at 500 yards, Bayles scored 34.

In the "Singer," seven shots at 600 yards, Bayles scored 33.

The English team carried off the "Mackinnon" trophey. Canada's team was fourth. The totals out of a possible 1,800 were:

England	1,513
Scotland	1,505
Australia	1,467
Canada	1,411
Ireland	1,410

In the "Kolapore Cup," at 200 yards, the Canadians scored as follows:

Sergt.-Maj. J. Caven, Victoria	33
Staff-Sergt. A. Graham, Toronto	32
Capt. W. H. McHarg, Vancouver	30
Lieut. J. McVittie, Toronto	33
Pte. A. B. Mitchell, Toronto	33
Col.-Sergt. J. Moscrop, Vancouver	31
Sergt. F. H. Morris, Bowmanville	33
Maj. O. W. Wetmore, Clifton, N.B.	32

Canada's total was 257. The totals of the other teams at this range were, Guernsey 257, India 249, Mother Country 252, Australia 260, Southern Rhodesia 260.

ABSURD, SAYS WHITNEY.

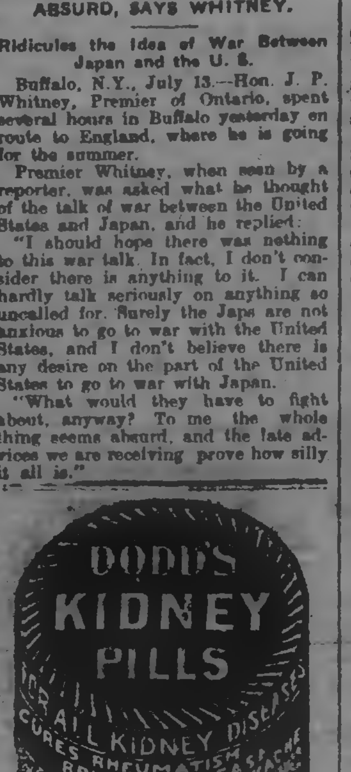
Ridicules the Idea of War Between Japan and the U. S.

Buffalo, N.Y., July 13.—Hon. J. P. Whitney, Premier of Ontario, spent several hours in Buffalo yesterday en route to England, where he is going for the summer.

Premier Whitney, when seen by a reporter, was asked what he thought of the talk of war between the United States and Japan, and he replied:

"I should hope there was nothing to this war talk. In fact, I don't consider there is anything to it. I can hardly talk seriously on anything so uncalled for. Surely the Japs are not anxious to go to war with the United States, and I don't believe there is any desire on the part of the United States to go to war with Japan.

"What would they have to fight about, anyway? To me the whole thing seems absurd, and the late advices we are receiving prove how silly it all is."



NUISANCE MUST STOP.

Blast Furnaces Must Consume Dust or Close.

Pittsburg, Pa., July 13.—Judge Young, in the Court of Common Pleas, yesterday rendered a decision to the effect that the Jones & Laughlin Steel Co. must either procure a device to prevent the emission of ore dust from its blast furnaces or close the furnaces. Should is become necessary to shut down the plant, 10,000 men will be thrown out of employment in the Jones & Laughlin Co. alone.

As a result of the decision the residents of other districts similarly afflicted are expected to enter suits to compel the furnace companies to either eradicate the ore dust or shut down their furnaces.

An appeal from Judge Young's decision was immediately taken to the Supreme Court of Pennsylvania.

In connection with his decision yesterday Judge Young imposed heavy fines on officers and the directors of the company for failing to comply with an order to stop the nuisance.

BRITISH JOURNALISTS.

Large Party of English Newspapermen to Tour Canada.

London, July 13.—(C.A.P.)—Yesterday the following journalists at the invitation of President Shaughnessy sailed for an extended tour of Canada: Ernest Brain, Times; P. H. Cochran, Morning Post; A. J. Dawson, Standard; Harold Begbie, Chronicle; H. W. Smith, Daily News; Harold Gray, Pall Mall Gazette; Kenneth Barnes, Westminster Gazette; T. B. Machlachlan, Weekly Scotsman; F. Ringder, Glasgow Herald; J. A. Sanbrook, Western Mail; J. R. Fisher, Western Whig; S. Begg, Illustrated London News. Next week a party of provincial journalist, totalling nine, proceed to Canada on the invitation of the Dominion Government.

LOVES A CHINAMAN.

Chinese Tea Merchant and Hamilton Girl Arrested.

Toronto, July 13.—Juanita Pease, a pretty creole of 32 North John street, Hamilton, with Yuven Toy, a Chinese tea merchant, with premises at 154 Spadina avenue here, were arrested upon alighting from a Hamilton train yesterday morning. They are much in love with one another, but the girl's parents cannot see it that way.

The girl will be sent back this morning. The Celestial Romeo was released.

WIRELESS COMMUNICATION.

System to Be Established Between Canada and Ireland.

London, July 13.—(C. A. P.)—An official of the Amalgamated Radio Telegraphic Co. informs the News it is hoped that before the end of the present year to establish wireless communication for commercial purposes between Ireland and Canada. Should the scheme prove successful, it is hoped there will be sufficient business to enable messages to be sent ultimately at a penny a word.

ALLEGES POCKETS PICKED.

Bank Messenger's Story After Absence.

New York, July 13.—Henry J. Wilson, former messenger of the First National Bank, who said he was robbed of $1,715 in cash while collecting for the bank, July 1, was arrested yesterday and held in $5,000 bail for examination.

Notes and drafts to the extent of $33,000, which Wilson asserted were stolen at the same time, were returned to the bank. The messenger, after making collections, did not return to the bank for several days, declaring that his pocket had been picked and he feared he would be accused of theft.

DIES IN CHASING TRAIN.

Animal Trainer With Hargreave's Circus Found Dead.

Lindsay, July 13.—A German dog trainer named Schultz, with Hargreave's Circus, which exhibited here yesterday, was found dead between Cavanville and Berketon on the C.P.R.

Deceased had probably missed the circus train when it stopped at a small station and tried to catch it by running. Heart failure intervened, and he fell by the railroad. No mark was discovered on his body.

The circus train stopped when he was missed, but continued when word came that he was found with life extinct.

Policemen Shot.

Pittsburg, July 13.—In attempting to arrest three negroes who were caught in the act of forcing an entrance to the Bessemer and Lake Erie Railroad station at East Pittsburg, early yesterday, one policeman was shot dead and another seriously wounded and will probably die.

NEVER PLANNED TO KILL

Knew Nothing of Plot to Murder Bell and Others.

Denies Given Steve Adams Money, But Sent $30 Relief Money to Mrs. Adams—Witness Explains His Letter to Mrs. Orchard—Draft to Jack Simpkins Was For Legitimate Expenses—Haywood Tells of Arrest.

Boise, Idaho, July 13.—The cross-examination of William D. Haywood in the Steunenberg murder trial was concluded yesterday. Clarence Darrow at once commenced the re-direct examination, which was concluded at 3.36 p.m. The defence will close its case to-day after the examination of one more witness.

When Haywood's examination was continued at the opening of court yesterday, he said that Orchard had been at his house three or four times. Most of the members of the union called on him when they were in Denver, he said. He never called on Orchard and never had anything to do with buying a horse and buggy for Orchard to "go out on a killing expedition with." He denied positively that he had talked with Orchard or planned with him the killing of Sherman Bell, Gov. Peabody, Jas. Hearn, David Moffit or Judges Goddard and Gabbert.

Haywood first met Steve Adams in 1902. He said the $25 he sent to Adams at Ogden when the latter wired he was in jail there was his (Haywood's) own money. Adams had been out prospecting and had stated on leaving Denver that if he struck anything he would locate Haywood on it.

Haywood never gave Adams any more money, but in 1905, in answer to an appeal for temporory relief from Mrs. Adams, he sent them $30. They had located in a homestead in Oregan and promised to pay back the loan in butter and eggs. The next he heard of Steve Adams was when the latter was arrested. The letter he wrote to Mrs. Orchard was in reply to one asking her husband's whereabouts. Haywood declared he knew absolutely nothing of the plot against Gov. Steunenberg.

"I don't know that I had thought of him after I left the State of Idaho."

The first Haywood heard of the assassination was in the papers, which claimed that the crime was a culmination of the troubles in the Coeur D'Alene. The papers also reported that a union card had been found in the effects of Thomas Hogan, who had been arrested on suspicion.

At miners' headquarters there was considerable question as to who Hogan was, the concensus of opinion being that it was Orchard, who had used that name in leaving Cripple Creek to seek employment elsewhere.

The first definite information came in the cipher telegram from Simpkins, which was translated at first: "Can I get counsel for Hogan?" But which was afterwards corrected to read: "Cannot get counsel for Hogan."

Haywood's explanation of sending the $100 draft to Jack Simpkins on Dec. 31, 1905, was as follows: "Simpkins came to Denver early in December to attend a meeting of the executive board. He drew $231.50 expenses while there. Cashing a cheque for this, he gave Haywood $100 and asked him to forward it to Spokane some time before Christmas. Simpkins said he was going on a trip, and did not want to take all the money with him."

When the matter of employing counsel for Orchard and to look after the interests of the organization first came up, Haywood said he and Moyer consulted with General Counsel Murphy, who advised going very slowly in the matter. After considering the subject for a day or two, Murphy advised the employment of Mr. Nugent.

Haywood said the first he knew of any intimation to arrest him was when he was taken into custody. He related the story of his arrest, the denial of a right to consult counsel, and the trip to Boise on a special train in charge of Gen. Bulkeley Wells, a member of the Mine Owners' Association.

On cross-examination Haywood said, in answer to questions that the time of the Coeur d'Alene troubles the Western Federation of Miners came to think of Governor Steunenberg as a pronounced opponent of organized labor. Prior to this trouble he was regarded as a friend, and was at one time an honorary member of a local union.

Good Friends.

Oyster Bay, L.I., July 13.—An official statement announcing a thoroughly good understanding and fundamental friendliness between the United States and Japan was issued by President Roosevelt yesterday through Secretary Loeb, after the departure of Admiral Yamamoto and Ambassador Aoki from Sagamore Hill. The statement follows:

"The president had a long interview with Admiral Baron Yamamoto, and it was most satisfactory in every way. It simply confirms what had already been made clear by Ambassador Aoki, the thoroughly good understanding between the two Governments, and the fundamental friendliness between the two nations."

$1,500,000 Capital.

Albany, N.Y., July 13.—The Yetman Typewriter-transmitter Co. of New York City, formed to manufacture transmitting typewriters, telegraph transmitters, automatic telegraph machines, etc., filed articles of incorporation yesterday with the Secretary of State. It is capitalized at $1,500,000. The directors include: Samuel Johnston, Charles E. Yetman, William M. Williams and Gabriel Morton of New York and James Stevenson of Oshkosh, Wis.

Post Card Restrictions.

Washington, July 13.—An alteration in the space of writing on the face side of a postcard takes effect on Aug. 1 next. Only one-third is to be allowed for a message, instead of one-half, as is often seen.

The reported drowning of an unknown Toronto man in the Assiniboine is said to be a false rumor.

MURDERER ARRESTED.

Capt. Klengenberg Who Killed His Mate Has Been Captured.

Ottawa, July 13.—The police department of San Francisco have telegraphed to Lieut.-Col. Sherwood of the Dominion police, stating that word has been received there from Alaska to the effect that Capt. Klengenberg, who brutally murdered the first officer of his whaling ship about four years ago in Canadian Arctic waters, has been captured and is being brought to San Francisco by American officers.

The murder was committed on an American vessel, and both the Canadian and United States authorities have been looking for Klengenberg ever since.

The murder was an unusually brutal one. Klengenberg seems to rank with the pirates of Elizabethan fiction in cruelty and blood-thirstiness. For months he ill-treated his crew and officers, finally shooting the first officer in cold blood. He then terrorized the crew into making false affidavits in the log book as to the manner in which the victim met his death.

The story leaked out afterwards in San Francisco from some of the crew while drunk. It is not yet known whether the Canadian or the American authorities will try Klengenberg. Both Governments have jurisdiction.

MURDER AT HAMILTON.

Man and Wife Shot by Boarder—Jealousy the Cause.

Hamilton, July 13.—Andrew Rodzyk was fatally shot, and his wife very seriously wounded by revolver bullets yesterday afternoon. Jake Sunfield, a boarder, was arrested on the charge of doing the shooting. The double tragedy occurred about three o'clock yesterday afternoon. All concerned are Polacks.

When the officers arrived at the Rodzyk cottage, they found a wild scene of disorder. In the front bedroom they discovered Rodzyk covered from head to foot with blood, lying on the floor. It was evident that he had been shot some time before. The bed was overturned, and there traces of a terrible struggle.

The murdered man was about 50 years of age, and his wife was about ten years his junior. The prisoner is 31 years of age. Sunfield was taken to jail.

Jealousy is said to have been the cause. The police searched the house and found a couple of bottles of whiskey sitting on the dining-room table, and the neighbors said that the trio had been drinking all day.

Fruit Cures Constipation

"Fruit-a-tives" cure Constipation because they are Fruit Juices in Tablet form.

Constipation means a disordered liver. When the liver is weak, bile is lacking. And it is the bile—which the liver excretes—that flows into the intestines and moves the bowels.

Fruit is the great liver tonic. It invigorates the liver and causes more bile to flow into the bowels.

Purgatives, powders and purging mineral waters, never reach the liver. They irritate the bowels and FORCE them to move. They generally do harm. They NEVER do any PERMANENT good.

"Fruit-a-tives" are fruit juices—in which the medicinal action is many times intensified by the wonderful change which takes place when the juices of apples, oranges, figs and prunes are combined.

"Fruit-a-tives" have already proved a cure to many thousands of people in Canada.

"Fruit-a-tives" are free from calomel, cascara, senna and other bowel irritants. They are *concentrated fruit juices* with valuable tonics and internal antiseptics added.

"Fruit-a-tives" move the bowels regularly and easily every day — and thus cure Constipation.

50c. a box—6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

Fruit-a-tives Limited, Ottawa. 108

Men Who Handle Other Peoples' Money ard Under Heavy Bonds

Financial Institutions Guarantee the Honesty of Other Firms Employees--Young Men are Closely Watched --Following up a Defaulter.

"What is the world coming to!" How often you hear the remark. You pick up your paper after a day's work and the head lines stare you in the face informing you that a bank manager has gone off with a pocket full of the bank's funds. Or you see a loan company's president has been found guilty of breach of trust, and the man you were won't to trust and admire has gone to be known by a number. Or your dear old friend's son, who came to the city from the home on the farm and got a good position, has turned out badly, and is a fugitive from justice with his employer's money to hurry him down the road to ruin, and you sigh as you look around at your little boys and wonder if the world is really getting worse and if your boys too are not likely to join what appears to you to be an ever-growing procession of thieves.

THE MEN OF "TRUST."

But do you ever think of the other fellows! Of the men who day after day and year after year work with other people's money and handle thousands, perhaps millions, of dollars without even sinking beneath the temptation to "borrow" from the cashbox.

Yet, for everyone who goes wrong and steals his employer's money, the manager of one of the largest guarantee companies doing business in Canada informs us that almost a thousand remain honest.

The business of guaranteeing the employer from loss by the dishonesty of his employees has grown to an immense extent in recent years. The business man finds a young man whom he thinks will suit him, and he simply asks him to procure a guarantee bond and he may have the position. He does not worry about his honesty, he will be insured against the dishonesty of his servant.

It now rests with the Guarantee Company to consider the applicants acceptability as a person to hold a position of trust and this has been reduced to a science. It would surprise many of the young men of the city to know how much information there is about them on fyle in the offices of the guarantee company interested in him.

MARRIED MEN BETTER RISKS.

Other things being equal, married men are better risks from the guarantee company's standpoint than the single man. The home ties and the responsibilities attached to home life tend to keeping a man in the proper path. Many young men spend their money in ways which lead them into methods of life which are shunned by married men, and a man's wife knows as well as he, what he can afford to do on the income accruing from his position.

"Show me what a young man does between the hour he quits his office and eleven o'clock at night, and I will tell you how he is likely to turn out," said one of the oldest guarantee men in Canada. That is the point they consider, the habits of life, the associations and companions of the man who holds a position of trust. If these are good his life will be right; if they are elevating in their character he will be a better man as the years go by, and the very opposite is the case if his habits and companions are bad. Many a young man has lost a position and never knew the reason. It was because his bond had been cancelled on account of his private life which he probably thought went unnoticed by his employer, but which did not escape the eyes of the officials of the company which was responsible for his honesty.

EARLY LIFE INFLUENCE

One of the first things which are considered when an application for a guarantee bond is received is the applicant's early life, and home training. His parents reputation for probity and the training they have given their son in early life are considered very carefully. For this reason foreigners are not considered as safe risks as native Canadians because it is found impossible to obtain satisfactory information on these points.

"Does indulging in sports mitigate against a young man from your standpoint?" was one of the questions asked the guarantee company manager.

"No and yes," was the apparently contradictory answer. "If a young man takes part in healthy outdoor sport, and mixes with clean sportsmen, it is in his favor. It tends to keep his body in better condition and you know, when a man's body is healthy, he is not so apt to be led into temptation easily," but," continued he, "if, on the other hand you mean by 'sport,' betting on horse races, baseball, and such so-called sport, it puts him out of the class we consider. The man who takes a real personal interest in golf, ball, rowing or any such game from the physical point of view, cannot help but be a better man."

CHIEF CAUSES OF RUIN

"What do you consider to be the chief cause for the defalcation of the present age!"

"I suppose there are many causes, such as the desire to live better than one's neighbor, or as well as some one else, or the ambition to be in the swim, along with those who receive a greater income, but I am convinced that the great cause is the mania of the century, which some people describe as the 'get-rich-quick craze.' The young man hears his employer and his friends talking of making money and thinks he, too, will take a dip, and with half his month's salary, buys some stock on margin. It is a good stock and he figures how he will go ahead, after cleaning up a few hundred But the stock does not jump, he just gets out even, or makes a few dollars, and soon he takes a deeper dive. Some day, after having the greed of gain developed, he comes out on the short side of the market and 'borrows' a little of his employer's money to 'protect' his investment. Down it goes, and he borrows more, perfectly sure that before the audit he will be able to replace the 'borrowed' money. But he can't, and is discovered. Disgrace stares him in the face, and unless his friends come to his rescue and pay up before his employer files his claim against the guarantee company, nothing can save him."

"Are there many cases settled!"

"Yes, many more settled by friends than by the companies," was the

DEFAULTERS PROSECUTED

The prosecution of the defaulter is an essential feature of the guarantee business. Sometimes they pay the claim and then spend four or five times the amount of the theft in tracing the culprit and bringing him to justice. Sometimes, however, this is done with little trouble.

Not long ago a young man in a city not far away was a defaulter for a considerable amount and left the country. The guarantee company knew his friends, and simply watched the mail coming to his sweetheart. Within 48 hours of the time the warrant was out, he was behind prison bars, traced by a letter to his sweetheart.

Other defaulters are followed for years and around the world. The case may be dropped, but it is never abandoned. Periodically the papers pass through the hands of the detective department, and sooner or later he is found. The world is too small to keep out of the way of the world-wide net of guarantee agencies, any of which furnishes information to any other.

Strange as it may seem, boys from the country are not considered as safe risks as city boys. This is true only during the first period of the former's city life. He seems to be more susceptible to temptation. Everything is new. The saloon, the pool room, and the betting ring present to him brilliant attractions. If he has the stuff in him to resist them at the first, or having had his fling, to cut them out before he goes too far, he is all right, but if not, the experience is that he is more reckless, and will go to greater extremes than the city bred boy who has grown up, surrounded by the conditions which are a temptation to him.

WAGES RAISED

One important benefit of the business of guaranteeing employees has been to raise the standard of wages in many of the large financial institutions. Companies absolutely refuse to bond a man who is getting what they consider an insufficient salary to live in accordance with the position he occupies. Instances were quoted by the manager of the guarantee company referred to, where again and again employees were granted substantial increases in order to have their employers bonded by the company.

Andrew Farley of Thorold, aged 71, committed suicide yesterday by shooting himself.

A barn at Niagara Falls, used as a store house for cars, was burned with its contents yesterday, over $2,000 damages being done.

ORANGEMEN ON TOP,

Police Force Inadequate to Keep Cars Running on Parade Route.

Toronto, July 13.—Yesterday goes down in the Orange annals of this city as "the greatest day." Flags floated from all the schools and public buildings, and the fife and drums bands played from early morning till late at night. Nearly 100,000 people witnessed the parade, which contained about 4,000 Orangemen. The procession was two and a quarter miles long and took an hour to pass a given point. The procession was headed by police in an automobile and practically the entire city force was on duty. Preparation had been made to quell any trouble, and trouble was anticipated. Heretofore the custom has been for the Orangemen to "own the city." The car service has always been stopped and nothing allowed to interrupt the procession. A few days ago Manager R. J. Fleming of the Street Railway, issued a letter of instruction to motormen and conductors that cars must run on time and that the procession would not be allowed to block the service. The parade had only got fairly started when trouble began. At several places, obstructions were placed on the tracks, car windows smashed and motormen threatened. One man with a strange idea of the best way to stop the cars used a child for the purpose. It was only a year-old baby, but each time the motorman started his car he would make a motion as though he was going to throw the child on the tracks. Then the car would stop up.

The police were forced at some points to use their batons to prevent serious trouble. Both women and children took part in the efforts to block the cars. About noon the company discontinued the service until the procession had passed, as the police seemed unable to render the necessary protection to keep the cars going. Geo. Pickering was arrested and a number of summonses may be issued.

The day was observed with enthusiasm throughout the Dominion generally. In Montreal and the Quebec centres there were no demonstrations.

FREIGHT BOATS COLLIDE.

Serious Collision at the Mouth of St. Clair River.

Windsor, July 13.—A serious collision which was luckily attended by no loss of life occurred at the mouth of the St. Clair River at daybreak yesterday between the Tuscarora of the Lehigh Valley Line and the Maryland, a coarse package freighter.

Both vessels are of the latest steel type, and when they met head-on the crash could be heard for a long distance. The bow of the Tuscarora was cut wide open, leaving a gash through which the water poured, although her water-tight bulkhead kept the vessel from sinking immediately. The Maryland was badly smashed forward, as well as losing her steering gear and having one of her anchor's torn away. Within half an hour after the collision both boats were on the bottom of the river.

The causes leading up to the accident are not yet known, but the usual misunderstanding of signals is thought to have been responsible.

The Tuscarora was bound up with a cargo of merchandise, while the Maryland was en route to Cleveland. Tugs and lighters have gone to the wreck and will endeavor to save both boats, which can probably be done if the weather continues fine.

ROMANTIC WEDDING.

First Distinctively Christian Endeavor Marriage On Record.

Vancouver, B.C., July 13.—Miss Bessie McIntosh, from Toronto as delegate to the C. E. convention at Seattle, is attending convention as Mrs. Robert Thompson of Oroville, Washington. The change was sudden, as the little international romance is interesting, the marriage having been solemnized under C. E. auspices in the auditorium of the United Presbyterian church, Seattle, on Monday, and was the first distinctively C. E. ceremony on record.

The couple met in Detroit ten years ago, and parted, Miss McIntosh going to Toronto. She has been for the past six years Bible teacher in Toronto Union Mission, while Thompson came to Oroville, where he acquired large interests as a stock raiser.

The couple met in the Hotel Seattle rotunda on Monday for the first time in ten years, Thompson being a delegate to the convention as superintendent of the Sunday school at Oroville.

ONTARIO RAILWAY BOARD.

Will Make a Tour of Ontario For Inspection Purposes.

Toronto, July 13.—The Municipal and Railway Board will meet on Monday, July 29, and after the business is disposed of that may come before the board on that day there will not be another session until Tuesday, Sept. 3, the day after Labor Day.

During July and August the members of the board intend to go over all the street railways, electric railways and steam railways under their jurisdiction between Cornwall and Sarnia. The board has already been over the Port Arthur system.

The object of inspecting the roads is to see that they are complying with the law respecting brakes, fenders, fares and other particulars. A general inspection in a broad way is intended, and the board will endeavor to see things under normal conditions.

Case Postponed.

Brantford, July 13.—The case of W. P. Pearson, charged with refusing to allow his daughter, who is suffering from diphtheria, to be removed to the isolation hospital, will, it is announced, be further adjourned when the case comes up Monday.

The matter has been presented to the Deputy Attorney-General. Mr. Cartwright will communicate with the head of the Provincial Health Department before the case comes to court.

A storm of rain and hail passed over Port Colborne yesterday, doing much damage.

MUST LOWER THE RATES

Railway Commission Issues New Order to Canadian Roads.

General Decrease In Class Freight Rates, to Be Based On Short Line Mileage—Owner's Risk Condition Clause Amended—Winter and Summer Charge Replaced By General Rate.

Toronto, July 13.—The findings of the Railway Commission with respect to the discrimination in rates from United States points to Canadian points as against those from contiguous Canadian territory to the same destination has been announced, and as a result of the efforts and representations of the Canadian Manufacturers' Association a general readjustment of rates throughout eastern Canada has been brought about. An order has just been issued to the railways that tariffs covering the new basis of rates must be issued without unnecessary delay.

The new proposition means a general decrease in class freight rates in the territory east of the Detroit River and Sudbury to and including the Maritime Provinces; the same basis of rates from and between all large centres; the same rates in winter as in summer; overcome complaints as to the violation of the long and short haul clause of the Railway Act, except as authorized; the removal of the discrimination which now exists at frontier points in favor of the United States manufacturer; the rates between all points to be based on short line mileage, and as nearly as practicable, uniformity in rates between various distributing centres in Ontario.

Railways may continue to apply from recognized water points, such as Toronto, Hamilton, St. Catharines, etc., a basis in competition with water during the summer slightly lower than the general basis adopted, but there is to be no increase from those prevailing at the present time.

As an illustration as to how the new basis will work out, the present first-class rate, Windsor to Montreal, is 70 cents in the winter and 60 cents in the summer. The new basis will be 58 cents all the year round.

Owner's risk conditions has been so amended and defined that the carriers are liable for loss through negligence on the part of themselves, their agents or employes.

There is to be no disturbance of any special commodity tariffs or commodity rates now in effect where these rates now in effect where these these rates are lower than the new class rates.

SETTLE CHURCH CLAIM.

Important Agreement Between U. S. and Catholic Church.

Washington, July 13.—An agreement has been reached between the United States Secretary of War and the representatives of the Catholic Church in the Philippines Islands regarding a number of important matters of controversy which will obviate the necessity of prolonging threatening vexatious litigations.

Regarding the landed properties, the agreement, provides that the Catholic church, through the archbishopric of Manila, shall possess in absolute title the land and property pertaining to the hospital of San Jose, the hospital of San Juan de Dios, the College of San Jose, the hospital of San Jose in Cavite and the College of Santa Isabella. These properties are valued at $2,066,000.

The church relinquishes to the Government of the Philippines all claims and demands upon the estate of Santa Potenciana and upon the hospital and foundation of San Lazaro, except that the archbishop is to retain possession of the block in which the present Santa Cruz Cemetery is situated, and of fifty hectares, north of the hospital.

LOVE'S LESSONS.

Canadian Girl's Flirtation Land Her In Jail.

Detroit, July 13.—Mary Campau, aged 17, of Bell River, Ont., while visiting relatives on the Canadian side of the river here, crossed to Detroit last Sunday. On Belle Isle bridge she engaged in a flirtation with William Berney, aged 19. It was love at sight and they decided to get married as soon as William could reach Flint, Mich., where he had a job in view.

They walked the 70 miles and on reaching Flint they were arrested as vagrants. Berney was sent to jail for five days, the girl is held for examination on Saturday.

METAL WORKERS' LOSE.

Privy Council Refuse Appeal Against Canadian Judgment.

London, July 13.—(C. A. P.)—The Privy Council have refused leave to appeal in forma pauperis to Jose and others versus the Metallic Roofing Company. There is no order regarding costs.

Judgment against the Amalgamated Sheet Metal Workers was given by Judge McMahon for $7,500, as damages for picketing. The court of appeal confirmed the judgment.

Two Men Drowned.

Ottawa, July 13.—James Mulligan of Aylmer, Que., and Louis Malloch of Ottawa were drowned in the Ottawa River yesterday afternoon.

They were engaged upon Georgian Bay Canal survey work, and were bringing a punter boat down the river to Fitzroy Harbor. Just above Chat's Falls they were drawn into one of the chutes and carried over the falls. A third man, named George Dalglaish, escaped.

Mulligan, who was formally in the Yukon, leaves a widow and young family. Malloch was 25 years of age. Another sad circumstance is that the latter's brother was drowned at Ste. Eustache, Que., only about a month ago.

Frank Morgan, of Ledyard, aged ten, is charged with murdering a playmate during a quarrel.

R. Hall & Son To Close at 12

On Thursday Instead of 1 O'clock—Give the Girls Time to Get Dinner

Commencing next Thursday the well known and up-to-date dry goods establishment of R. Hall & Son will enforce a new regulation in their store. Instead of closing at one o'clock for the half holiday, it will close its doors to the public at twelve o'clock and clear the store as quickly as possible. The object of this is to give the employees, and particularly the girls, an opportunity to get home and get their lunch in time to catch the boat down the river, which leaves the street railway wharf at two o'clock. Closing at one o'clock leaves the time too short, and the girls are either rushed or have to stay at home. Messrs R. Hall & Son are to be congratulated upon taking such an interest in their employees, and no doubt the general public will shew its appreciation by shopping a little earlier.

James Kennedy of Glengarry, on his Walter Gifford, a young Englishman, died at Welland yesterday of sunstroke.

Was Committed to Stand Trial

Young Man Man From Smith Arraigned on Serious Offence

W. Eccles, a young Englishman, who appeared last Monday on a charge of indecently assaulting a young married woman in this city, came up against yesterday afternoon at 3 o'clock at a special session of the police court. Mr. F. D. Kerr appeared for the prisoner and R. E. Wood conducted the case for the Crown. The defendant did not plead nor elect. Considerable evidence was taken and the prisoner was committed for trial.

Eccles was brought from Chemong last Saturday by P.O. Newhall. He was engaged on a farm near there. He will spend his time in gaol if bail is not allowed him.

MEN ARE WANTED

Mr. George J. Chalmers, 93 Homewood avenue, is desirous of engaging a number of good men to work for the Algoma Commercial Company, at Sault Ste. Marie. The men will be employed in the lumber camps and good wages will be paid.

"Stop the Train, My Leg is Cut Off," Was Startling Cry

That Roused Several Persons in East City from Their Beds on Thursday Night—Man Had Fallen or Been Thrown from Circus Train.

"For God's sake stop the train; my leg is cut off."

This was the nerve-racking cry that roused the people, who live at the foot of Mark street, East City, from their beds, about 10.45 o'clock Thursday night. Several times the uncanny scream was repeated, and each time it grew fainter, as if the person giving utterance to the words was growing weaker. Several persons who live in the vicinity and who heard the cries, hurriedly dressed, and went to the spot where the screams emanated from and found a train stopped on the C.P.R. tracks and a brakeman hurrying along the track with a lantern, making his way to where the man who was crying that his leg was cut off, lay. When he reached the spot, the brakeman was heard to say; "Why in h—— didn't you stay on the train!" And the man who was lying in the ditch replied; "Because they shoved me off."

The train was that carrying Hargreaves railroad circus, which showed at Havelock on Thursday, and at Lindsay yesterday. It consisted of 11 cars, three of them being coaches and the rest flat cars.

The man was not as severely injured as he supposed, and he was able to get up and go along with the brakeman. They boarded the train and it proceeded on its way westward.

It is thought probable that this was the same man who was found dead alongside the track Friday morning about a mile and a half east of Cavanville, and who was undoubtedly one of the circus people. He may have been shoved off the train a second time and was not as fortunate as when he fell or was thrown from the train at Peterborough.

The persons in East City who heard the man's screams were given quite a scare. The train was not travelling very fast at the time, which accounts for the fact that the man was not seriously injured or killed.

Badly Mangled Remains of Man Found Beside Track

Gruesome Sight That Greeted C.P.R. Conductor About a Mile and a Half East of Cavanville Yesterday Morning—Inquest Being Held.

A shocking accident occurred on the C.P.R. between 11 and 12 o'clock Thursday night, about a mile and a half east of Cavanville. A man about 45 years of age, was found lying alongside the track yesterday morning in an almost unrecognizable state. The body which has not yet been identified is at present at the undertaking establishment of Wm. Gillott, Millbrook, awaiting the inquest which was opened in the town hall, Millbrook this morning at eight o'clock.

The body of the unfortunate fellow was not noticed until yesterday morning when the conductor on the C.P.R. local was the first to see what he thought was a man, as he was running into Cavanville. The train was brought to a standstill and the conductor went to see what it was. A gruesome and horrifying sight met his gaze. There, alongside the track, lay the dead body of a man who had apparently been thrown from a train and killed. The conductor then went on to Cavanville and at once notified Coroner Dr. Gray of the fact that a man had been found dead near Cavanville. Dr. Gray left on a way freight, about ten o'clock yesterday morning for the scene of the accident. On arriving there, the coroner, after examinations of the remains considered an inquest necessary and the body was put on the train and taken to Cavanville. Dr. Gray found the body lying along the track in a terrible state. The poor fellow was a well-built man, weighing 175 pounds. He was of a dark complexion, clean shaven and about 45 years of age. He had very little clothing on, and apparently was dressed for bed, when the accident occurred. The sectionmen state that the train must have been travelling at the rate of 60 miles an hour, for the man after falling from the car rolled about fifty feet. This seems rather strange, since the ground he rolled on was perfectly level. It was quite evident that he was carried this distance, as the ground from where he fell to where he was found was distinctly marked and was about fifty feet, as Dr. Gray measured it.

BODY BADLY MANGLED.

The man's neck was broken and his left shoulder was crushed, and his head badly cut. Altogether he was in a horrible condition, and he must have suffered a terrible death. At Cavanville, Mr. Wm. Gillott, undertaker at Millbrook, was telephoned for, and conveyed the remains to his establishment, where they await identification, and also the post mortem examination, which is being conducted by Dr. Turner of Millbrook.

It is thought that the dead man was a member of Hargreaves circus which showed in Havelock on Thursday, and which passed through this city Thursday night on its way to Lindsay, where it held forth yesterday. This circus apparently consists of a rather rough gang, and it is thought probable that the man found beside the track was engaged in a fight and either fell from the car or was thrown out, and thus met his death. He looked to be a hard-working, husky chap, and was probably one of the laborers with the circus.

Hargreave's railroad circus as it is called, is only a small show, and has only been appearing in the small towns in the province. From reports learned they are a rough lot of people, and only a few days ago, several suspicious looking persons, following the circus were arrested at Sharbot Lake, on charges of theft.

Dr. Gray wired the manager of the show at Lindsay in connection with the affair but received no answer. He will be subpoenaed to the inquest, and if that will not bring him, a warrant will have to be issued to get him there. Had the deceased man been on a regular C. P. R. train, those with him would have immediately stopped the train and gone to his assistance. He was in all probability with the circus gang and met his death as a result of a tussle with some others, who evidently shoved him out of the car. No man unless he was walking the cars or engaged in some duties outside the cars would be apt to fall off, and it is not likely that any C.P.R. train employee would be dressed as he was, while at his work. Evidently the circus people cared little whether he lived or died.

There is very little doubt but that the man was on the circus train as no C.P.R. train has reported any of their employees missing. The C.P.R. Company cannot be held responsible for the accident.

CLAIMS AGENT HERE.

Mr. W. G. Rankin, claims agent, for the company, was in the city last night, and stated that the C. P. R. would be in no way responsible for the affair, as the accident had nothing whatever, to do with them.

Dr. Gray, also notified Constable R. Raper of Millbrook, to empanel a jury for the inquest held there this morning. The jury viewed the remains, after which an adjournment was made till Monday morning at eight o'clock.

Lower Freight Rates Ordered By the Railway Commission

A general decrease in class freight rates in the territory east of the Detroit River and Sudbury, to and including the Maritime Provinces.

The same basis of rates from and between all large centres.

The same rates in winter as in summer.

No further violation of the long and short haul clause of the Railway Act, except as authorized.

The removal of the discrimination which now exists at frontier points in favor of the United States manufacturer.

The rates between all points are to be based on short line mileage.

As nearly as practicable, uniformity in rates between various distributing centres in Ontario.

The above clauses are a portion of the findings of the Railway Commission with respect to a discrimination in rates from United States points to Canadian points as against those from contiguous Canadian territory to the same destination, has been announced as a result of the efforts and representations of the Canadian Manufacturers' Association a general readjustment of rates throughout Eastern Canada has been brought about. An order has just been issued to the railways that tariffs covering the new basis of rates, must be issued without unnecessary delay.

REDUCTIONS FROM TORONTO

It reduces from Toronto many of the rates which the Toronto Board of Trade complained of, says the News. The only exception to the general basis is that the railways may continue to apply from recognized water points such as Toronto, Hamilton, St. Catharines, etc., a basis in competition with water during the summer, slightly lower than the general basis adopted, but there is to be no increase from those prevailing at the present time.

This readjustment will probably in some instances bring about an advance in the class rates from interior points in the United States in what is known as Central Freight Association territory, as the Canadian classification is to be adopted governing international tariffs in that territory although it is stipulated that there shall be no increase in the first-class rates from frontier points, such as Detroit, Port Huron, Buffalo, etc.

That in the adjustment of the international rates the rates on raw material from points in the United States to points in Canada shall not be advanced at the instance, direct or indirect, of the companies operating in Canada. There is to be no disturbance of any special commodity tariffs or commodity rates now in effect where these rates are lower than the new class rates. This applies to all the territory affected. Finally there are not to be any increases under any circumstances but rather a general scaling down of rates.

HOW THE BASIS WILL WORK.

As an illustration as to how the new basis will work out, the present first class rates, Windsor to Montreal is 70 cents in the winter and 60 cents in the summer. The new basis will be 58c all the year round.

WORKED BOGUS CHECK GAME

Port Hope Business Men Suffered to Some Extent

Port Hope, July 12,— A slick young man visited this town today and endeavored to work the old game of passing worthless cheques. To a certain extent he was successful in his purpose. He succeeded in passing two cheques and received $21 in change, but before he could escape he was detected and taken in charge by Chief Bond. He gives his name as Walter Warren, of 32nd street, New York, but registered at the Queen's Hotel as W. H. Warren of Toronto. He refused to give the chief the number in 32nd Street but stated that his mother was Mrs Harriet Warren and could be found on that street.

ROY'S

REVIEW LETTER BOX

PLACING GOODS ON WALKS

To the Editor of the Review

Sir.—I would like to know what the conditions of the bylaw are respecting the placing of goods on the sidewalk for sale. It is not right that a few favored ones should be allowed to transgress the law, while the rest of us are trying to observe it faithfully.

Yours, etc
JUSTICE.

THE BY-LAW VOTE

To the Editor of the Review.

Sir,—Notwithstanding the defeat of the Colonial Weaving Co's bylaw by not having sufficient majority, I hear that the wire pullers have a secret understanding with the Council, or certain members of it, to get a private act of the legislature to override the law and grant the money asked for, in spite of the ratepayers. What is this city coming to anyway, to exploit the pockets of the ratepayers, to say nothing of the immoral act? As if that was not enough, they have added additional taxes by raising the salaries of the already overpaid city officials, which now seems to be an annual affair. Where is this thing going to stop? When these officials were first appointed there were others who were willing to do the work at the sum then offered, and would still take these jobs at the same figure. Then, why, this incessant raising of salaries? There is not one alderman who would thus raise the salary of his own employees. Then why do they misuse our money when our taxes are already a burden?

Yours,
TAXPAYER.

CAPTURED LUNGE IN THE CANAL

Mr. Samuel Edwards, the genial bridge tender of the canal bridge at the Warsaw road, is a happy man today. He was out trolling north of the bridge this morning at six o'clock, when he landed a big lunge. It weighed 13 1-2 pounds, and was 38 inches long.

Alberta and Saskatchewan are to have similar school readers.

Hon. Adam Beck arrived in Montreal from England.

THE CITY AND VICINITY

AT KNOX CHURCH.

All children of Knox church are requested to be present at the flower service to-morrow morning. Special music will be provided.

NORDHEIMER PIANOS

If you think of purchasing a piano call at McDermid & Jury's drug store and get catalogue and booklet of the "Nordheimer Piano," of Toronto. dtf

SALE OF EFFECTS.

Household furniture by private sale. The new and up-to-date furniture at 231 Dublin street, in the residence formerly occupied by the undersigned. Apply at 6 p.m. at the residence. W. F. SKITCH. dtf.

NEW COUNTY BRIDGE.

Mr. John Brown, reeve of Monaghan, and one of the commissioners of bridges for the county, and Mr. Sandy Kelley, deputy reeve of Cavan, and one of the commissioners of bridges for Durham, have let the contract for one of the boundary bridges which will cost about $250.

Y.M.C.A. MEETING.

The men's meeting at the Young Men's Christian Association on Sunday afternoon will be addressed by Rev Mr. Keith, of Knox church. Mr Thornton will lead the singing. A hearty welcome is extended to all men to come and enjoy a bright and helpful service.

THE FIGHTS OF NATIONS.

This remarkable moving picture is being shown at Scott's Coliseum at Jackson Park. Visit this popular place of amusement and see how the different nations settle their quarrels. Admission 5 cents. Matinee 2 to 5. Evening 7 to 10. Complete change of programme on Monday.

GOSPEL MEETING.

Gospel meeting in the Assembly Hall, under Bradburn's old opera house, George street on Sunday night at 7 o'clock. All are welcome.

ANOTHER PICNIC.

The annual Sunday school excursion of Park street Baptist church will be held on Thursday next, July 18th, to Idyl Wyld.

SERMON TO CHIDREN.

Rev. J. R. Webb will preach a special sermon to children in Murray st. Baptist church to-morrow. A large turnout of the young is looked for.

PRESSED FOR A SMALL AMOUNT.

If you want your clothing pressed, cleaned or repaired at a small cost, ring up My Valet, 204 Charlotte street. Bell Telephone, 675; Machine phone, 357. dtf.

FLOWER SUNDAY.

To-morrow Flower Sunday will be observed in Knox church. Rev. H. J. Keith will deliver a special sermon to the children at the morning service.

A MATTRESS WONDER.

Now on exhibition in E. B. Clegg & Co's. furniture store window. An Ostermoor Mattress made in 1853, in continuous use for 50 years, is still in good order. Call and see it and the certificate of the reputable Canadian citizen who used it. We sell Ostermoor Mattresses made the same to-day as 50 years ago. E. B. CLEGG & CO. 6d

WILL REVISE PLANS.

It is learned that the contract for the new Roman Catholic church on Romaine street, will not be let for a few weeks yet. The plans will be revised somewhat, so as to lessen the cost, as the figures asked by the contractors, it appears, are much higher than the estimates.

FILLING UP.

At the rate at which guests are coming in—ten or a dozen having arrived this week—the Hotel Kawartha will soon be full from cellar to garret.—Fenelon Falls Gazette.

BOAT INSPECTION

All the passenger and freight boats on the Otonabee river will be inspected on Monday and Tuesday next.

CONGREGATION TO MEET

A congregational meeting of St. Paul's church will be held on Monday to discuss several matters of importance.

ALTERATIONS

The extension of the choir loft of St. Paul's church and the overhauling of the organ are now being proceeded with. A Toronto firm has the contract for rebuilding the organ. It is understood that Mr. R. Carter has been given the job of decorating and tinting in the interior of the auditorium.

GOSPEL HALL.

Mr. Fleming May of Bancroft, will preach at the evening service in the Gospel Hall tomorrow at seven o'clock and will also address the Sunday school at three o'clock. Mr May is a successful evangelist and no doubt there will be a large number present to hear him tomorrow. Meetings will be conducted at Gospel Hall next week by Messrs. May and Turner.

NEW CHURCH.

The corner stone of the new Mill Street Presbyterian Church was laid Thursday afternoon, July 11th, at three o'clock. The ceremony was purely formal. The documents were deposited under the stone by Rev. A. McNaughton. Mr. Thomas A. Thompson placed the level. Rev. R. B. Nelles, the pastor, declared the stone well and truly laid. Members of the session and managers were present, as well as a few spectators. —Port Hope Guide.

The Peterborough Light & Power Co. wishes to remind its customers that Monday, July 15th, is the last day discount will be allowed on June accounts. The office will be open during the evenings of the 13th and 15th, from 9 p.m. until 11 p.m.

EGGS LIKELY TO BE DEARER

Buyers are Busy in the Country Prices on To-day's Market

There was a shortage of eggs on this morning's market and many householders were unable to secure supplies, and had to go elsewhere for them. The buyers swooped down on the market before many of the housewives were around, and bought up nearly all the eggs. For some reason or other, there is a big demand for eggs just now, and it is not unlikely that prices will advance very soon. It is said that egg buyers are going through the country and paying almost as good prices as could be obtained by bringing the eggs to market. The offering of hen fruit today was smaller than usual and the prices paid ranged from 18c to 20c per dozen, 19c being the ruling figure.

Butter was also scarce and prices were firm, a good deal firmer than some of the butter, in fact. Good dairy stock sold at 25c per lb.

Chickens were not at all plentiful and brought good prices. 80 cents to $1.00 per pair, was the prevailing quotation.

On the street there was not much doing. Holders asked 75c per bushel for potatoes and got it. No new potatoes were in sight, but it is expected that they will be in season next week.

WALL PAPER, WINDOW SHADES CROCKERY, GLASSWARE and STATIONERY AT ROUTLEY'S

We are acredited with having the largest display and a more varied assortment than can be found elsewhere. Annual Outing St. John's School

Pleasant Trip Enjoyed Down the River by Scholars and Teachers

St John's church Sunday school held its annual outing yesterday to Idyl Wyld on the steamer Otonabee, and a very pleasant trip was enjoyed. Owing to the rain in the morning some of the scholars and teachers were kept at home, but those who went had the satisfaction of seeing the clouds clear and the sun come forth in his full splendor. The day proved to be delightful and the excursion will be long remembered as one of the best ever held by the school. Mr. A. Poe, the energetic superintendent of the school, and the teachers materially aided in making the outing a success. After lunch had been enjoyed a splendid programme of races was run off at Idyl Wyld under the direction of Mr. Poe, assisted by Rev. Canon Davidson, C. H. J. Mitchell, the people's warden, and R. J. Devey, choir leader. The results were;—

Girls, 15 and under—1st, Madge Graham; 2nd, Cecila Clementi; 3rd, Theresa Fitzsimmons.

Boys, 15 and under—1st, Arthur Horsfield; 2nd, Cyril Devey; 3rd, Horace Ballard.

Boys' sack race—1st, Jack Davidson; 2nd, Clifford Thompson; 3rd, Weaver Armstrong.

Girls sack race—1st, Joyce Davidson; 2nd, Grace Thompson; 3rd, Violet Moore.

Girls, 9 and under—1st, Grace Armstrong; 2nd, Esther Payne; 3rd, Gladys Collinson.

Boys, 9 and under—1st, R. Stevenson. 2nd, Clifford Thompson; 3rd, Cederick Evans.

Girls, 12 and under—1st, Vera Collinson; 2nd, Isabelle Nesbitt; 3rd, Maggie Emmerson.

Boys, 12 and under—1st, Arthur Horsfield; 2nd, Stanley Ballard; 3rd, Horace Ballard.

Consolation sack race—1st, Louisa Moore. 2nd, Margaret Stevenson.

Girls three-legged race—1st, Isabelle Nesbitt and Vera Armstrong; 2nd, Cecilo Clementi and Madge Graham.

A baseball game was also arranged for the boys.

Very Handsome New Store Front

Messrs. R. Hall & Son Have Redecorated the Front of Their Premises

Messrs Richard Hall & Son, Limited, one of the oldest and most progressive dry goods and house furnishing stores in the city, are to be complimented on their handsome store front and elegant show windows These have lately been redecorated and are finished with early English oak. The effect is charming and artistic in the extreme, and will greatly add to the scope of the firm's clever window decorater, Mr H. C. McDonald, who has delighted and attracted so many by his beautiful displays.

Havelock Officers Duly Installed

The newly elected officers of Havelock lodge, I.O.O.F., were duly installed last evening. Among those present from Peterborough were Bros. Wm. Hill, D.D.G.M., R. J. Matchett, J. W. Miller, Dr. McKersher and A. A. Fowler.

Havelock lodge has made good progress during the past term. At the close of the installation proceedings, refreshments were served, and a social time spent.

May Wind Up Lumber Company

The application of the Chippewa Lumber Company for a winding-up order against the Southampton Furniture Company, was enlarged till next week by Mr. Justice Riddell yesterday. The petitioners are creditors for $5,328.12, of which $1,650 is overdue, and claim that the directors of the company have admitted their inability to meet the liabilities as they fall due. The nominal capital is $200,000 of which $95,000 is paid up.—Mail and Empire.

LESS CHEESE BEING MADE

Backward Spring and Scarcity of Feed Causes Shortage

Reports received at the Agriculture Department show that the cheese production in Ontario will be smaller this year than last. The quality will be as good if not better than last year and the prices this year are higher. The decreased production is due to the backward spring and consequent scarcity of feed.

Glorious Twelfth Royally Honored; Two Monster Celebrations Held

Orangemen Gathered from Far and Near at Millbrook and Havelock—Peterborough Lodges Went to Former Place and Joined with Several Thousand Sons o William in Celebrating the Day—Processions, Speeches, and Other Features.

With flags flying from numerous flagstaffs, signs of welcome adorning the streets, and everywhere orange ribbon and bunting in profusion, Millbrook yesterday welcomed the Orangemen of Peterborough and Millbrook districts to celebrate the 217th anniversary of the Battle of the Boyne.

And such a crowd as gathered to participate in keeping green the memory of the Prince of Orange.

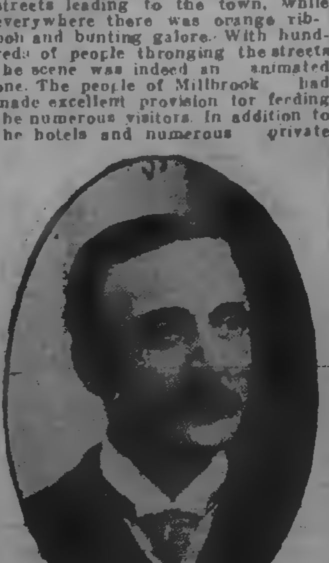
Millbrook had never seen such a crowd before, and the probabilities are that many more years will elapse before such another gathering is held in the pretty little town to the south. It is conservatively estimated that there were 6,000 visitors in Millbrook yesterday, and the celebration will go down in history as one of the largest ever held in this part of the province. The Grand Trunk, which run excursions from Fenelon Falls, Port Hope and Peterborough, carried 3,000 people into Millbrook and it is a safe estimate that 3,000 people reached the celebration by other means of conveyance, in carriages, on bicycles, on foot and almost every other known means of locomotion. People streamed into the village from early morning until well on in the afternoon and then they started to take their departure. There were people everywhere and as nearly everyone wore the bright colors of the Orange order the scene was a beautiful and brilliant one. Some idea of the magnitude of yesterday's celebration at Millbrook may be had from the fact that it was greater than last year's demonstration at Lindsay, and those who were in Lindsay on July 12th, 1906, were unanimous in the opinion that it was the largest celebration ever held in this part of Ontario. But Millbrook was greater. Nearly forty lodges were in line; there were fifteen fife and drum bands and seven brass bands; the parade was over a mile in length and included over 2,000 Orangemen.

W. H. G. ARMSTRONG
County Master

The above facts will give an idea of the way the glorious twelfth was celebrated at Millbrook.

PETERBOROUGH'S CONTINGENT

The Peterborough lodges and those from Lakefield, Nassau and Downer's Corners, reached Millbrook about 11.30 o'clock and were met at the station by several lodges that had already arrived and were escorted down town where they had dinner. Millbrook was "en fete" for the occasion. Flags floated from numerous flagstaffs. "welcome." signs were stretched across the streets leading to the town, while everywhere there was orange ribbon and bunting galore. With hundreds of people thronging the streets the scene was indeed an animated one. The people of Millbrook had made excellent provision for feeding the numerous visitors. In addition to the hotels and numerous private places where meals could be secured the different churches served refreshments of a substantial nature and did big business. All along the main street booths, where soft drinks, fruit, ice cream, etc. were sold had been erected, and those behind the counters were kept as busy as bees during the day.



H. T. EVERETT
Master of J. W. Bell Memorial, L. O. L., Which Paraded for the First Time Yesterday

THE PROCESSION.

About one o'clock the procession was formed on Main street and marched around the principal streets of the village, before proceeding to Allan's Grove, where the speeches took place. It was the greatest parade ever seen in the town. being over a mile in length. One of the best views of the procession could be obtained from the hill near the grove, where the speeches took place and a splendid sight it was. With the banners glinting in the sunshine, and the bright colors of the hundreds of Orangemen, the scene down the main street was one that beggars description. The brass bands played with enthusiasm and the shrill notes of the fife, commingled with the resonant tones of the drum. There was music on every hand, and everyone caught up the spirit and joined in the celebration.

LINE OF PARADE

The procession was composed as follows;

Mounted marshalls.
Coldsprings brass band.
Coldsprings L.O.L. No. 514.

Carmel L.O.L. No. 421.
Bailieboro L.O.L. No. 853.

THE SPEECHES

On arrival at Allan's Grove, the speeches were delivered from a large platform that had been erected.

EX-ALD. JOS. BATTEN
One of the Prominent Orangemen in Yesterday's Parade

Mr. T. B. Collins, of Millbrook, P. G. M. for Ontario East, was voted to the chair and the first speaker was Rt Wor. Bro. Holland, P.G.M. for Ontario East. Mr. Holland impressed upon his auditors the great heritage that had been given Canadians and the heavy responsibility that rested upon the citizens of the Dominion as a result of this great heritage.

Rev. Mr Nellis, of Port Hope and Rev Mr. Johnson, of Millbrook gave spirited addresses that were received with great enthusiasm, and were followed by Rev A. H Brace, of Peterborough, whose address was the feature of the afternoon. He said he was proud he was an Orangeman and glad to see the celebration such a great success. In this connection he congratulated the Orangemen of Millbrook on the splendid arrangements they had made, and the excellent manner in which everything had been carried out. Mr. Brace made some plain statements about the aggression of Rome and condemned severely separate schools and the teaching of two languages in the schools of the country. That was not the way to make a strong, united nation. The introduction of religion into the politics of the country was also scored and Orangemen were exhorted to stand together and to cast their votes as Orangemen and not as the members of any political party. When the Orangemen stood together and voted as one man, then they would be a great power in the land. Mr. Brace was given an enthusiastic reception and took his seat amid prolonged cheers.

Addresses were also given by Rev. W C Allen Millbrook, Mr. Newman of Picton, Past Grand Master of the True Blue Association, and several others.

The speeches over, the crowd began to move towards the station and about five o'clock the special trains for Peterborough, Fenelon Falls, Port Hope and intermediate points, had pulled out.

The Peterborough contingent arrived home at 6.30 and with the Nassau and Lakefield lodges, paraded the city streets before adjourning. The outside lodges left for home on a special train and the glorious twelfth was over.

NOTES

There were several hundred people from Peterborough at Millbrook.

The Nassau fife and drum band was the best in the procession.

White horses were great favorites and several of them were conspicuous in the parade.

OLD MAN WAS IN THE PARADE

At Millbrook—Wm. Trew sr. for 70 Years an Orangeman

The Orangemen's celebration at Millbrook was taken part in by one of the oldest Orangemen in Canada. This distinguished gentleman was Wm. Trew, sr., of Hope township, Durham County. He is 89 years of age, and has been an Orangeman for 70 years, and has missed very few, if any, "12th of July walks." Mr. Trew, in spite of his advanced years, is in good health, and one of the greatest pleasures of his life is the annual celebration. He wore his full regalia and walked in the procession as far as he could, and then stood on the roadside and cheered the other boys as they passed by.

Mr. Trew is probably one of the oldest Orangemen in Canada, and he is certainly one of the most loyal. He was born in County Armagh, North of Ireland, and he has four sons and some twenty grandsons, all members of the Orange Order.

Rain at Havelock Did Not Dampen Orange Enthusiasm

Procession was one of the Largest in the History of the Town--Speeches at the New Park--Other Notes of of Interest.

(By Staff Representative.)

With the customary pomp and display of past years, the "Glorious Twelfth" was royally celebrated in Havelock village yesterday, where several hundred followers of Prince William of Orange, had gathered to do honor to the memory of the Battle of the Boyne. Havelock was dressed in its prettiest garb, and well prepared to accommodate the enormous crowds that assembled there during the day. Every road, like those of ancient Rome, seemed to lead to Havelock, and early in the morning Orangemen, their friends and admirers began to arrive. It is estimated that fully 5,000 people made the railroad village their temporary home yesterday, and that the parade was the greatest, despite the contrary elements, in the history of Havelock.

The streets were prettily decorated for the occasion with flags and bunting, which hung across the roads, and from the windows or verandah posts of nearly every house.

Many came from the east and the west on the morning trains, but the greater number drove in from all directions. This could easily be seen from the multitude of horses, which were lined around the fences of the fields on the outskirts of the village.

Almost every house was thrown open to the public in order to accommodate the crowds, with meals. All seemed to dispose of the edibles provided with a relish which at once bore testimony to the excellence of the fare and the appetities of the consumers.

The only circumstance that in any way occurred to mar the pleasure of the visitors was the frequent showers that fell during the afternoon. Shortly after three o'clock, however, the clouds dispersed, and the sun shone for the remainder of the day.

The feature of the programme, of course, was the Orangemen's parade which took place in the afternoon along the principal streets. Fully five hundred wearers of the Orange colors participated and the parade was almost three quarters of a mile in length. There were Orangemen there from Hastings, Northumberland and Peterborough counties There were the aged, who pride themselves on the regular attendance of the twelfth of July celebrations for scores of years, and the youth who had recently donned their colors. In spite of the muddy condition of the roads, and the rainy weather at times, the parade ranked as the largest of many years in that progressive village to the east.

Shortly after mid-day, the various lodges assembled at the Havelock public park, separately. Music from fife and drum bands, from brass bands and from the bagpipes was here dispensed in profusion. When all had gathered together, the command to fall in was given, and the procession began.

The route of parade was along the principal streets of the village embracing George, Quebec, Ottawa and Orange streets, above which banners bearing inscriptions as "God Save the King," "Enniskillen," and "Derry Walls No Surrender," floated in the breeze.

Ten lodges in all, joined the parade, nine of which were accompanied by fife and drum bands, and one by the bagpipes. The Havelock Citizens' Band led the parade, so that at all times music floated through the ozone.

The order of the lodges in line of march with the number of each and its' master, was as follows,—

Havelock Citizens' Brass Band — Geo. Chiles, bandmaster.
Fife and Drum Band.
Norwood L. O. L., No. 34.—Robt. Martin, W. M.,—50.
Fife and Drum Band.
Belmont, L. O L., No. 277 — A. Thistlewaite, W. M.,—40.
Fife and Drum Band.
North Dummer, L.O.L., No. 281 — Wm. Batten, W. M.,—50.
Bagpipes.
Warsaw, L.O.L., No. 284 — Stephen Miller,—45.
Fife and Drum Band.
Blairton L.O.L., No. 1255 — John McFall, W. M.,—40.
Fife and Drum Band.
Cordova, L.O.L., No. 520 — Simon Vanvolkenburg, W.M.—50.
Fife and Drum Band.
Enniskillen L.O.L., No. 522, South Dummer, — Thos. Webster, W.M.,—50.
Fife and Drum Band.
Stanwood, L.O.L., No. 1338—Stephen Collins, W.M.,—40.
Fife and Drum Band.
Polmont, L.O.L., No. 1369, — John Fleming, W.M.,—45.
Fife and Drum Band.
Havelock, L.O.L., No. 326 — John Sexsmith, W.M.,—60.

THE SPEECHES

At the conclusion of the parade the various lodges visited the beautiful public park, which the Havelock citizens have recently acquired and where the speaking took place. A large platform was erected for the occasion among the trees in the grove to exclude the sunshine. The rain at first hindered the addresses but presently disappeared.

The various speakers were listened to with apparent pleasure by about two thousand persons. The park was filled with human beings and many could not get within hearing distance.

The chair was occupied by Mr. J. H. Hutchinson, of Trent Bridge, County Master for East Peterborough. Those, who responded to their names were Mr. John Sexsmith, District Master; Rev. McLennan of Norwood; Rev. Caplan of Havelock; Col. J. W. Miller, Peterborough; Mr. T. W. Clark, Belleville, Grand Secretary of Ontario East; Mr. R. Gordon, Tweed, Grand Treasurer of Ontario East; Rev. Adamson, of Norwood, and Rev. Balfour, of Havelock.

The speakers referred in glowing terms to the immensity of the throng who had assembled to do honour to the memory of William of Orange, and among other things exhorted Orangemen to stand up for equal rights and the love of their country at all times.

Early in the evening the crowd began to disperse and before nightfall, the population of the village during the day had materially decreased. However, the "Glorious Twelfth" of the year 1907, the 217th anniversary of the Battle of the Boyne, will be remembered for many years to come by the hundreds, who assembled in Havelock for the day.

BAND CONCERT MUCH ENJOYED

The usual weekly band concert was given in Victoria Park last evening by the 57th Regiment band. There was a large attendance, and the music was greatly enjoyed. The programme embraced a variety of selections that delighted the crowd and applause was frequent.

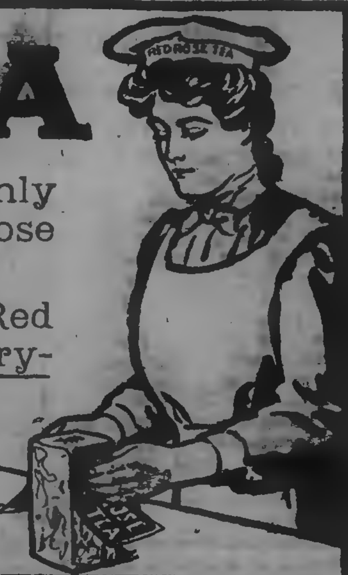
RED ROSE TEA

Girls are neater, more careful, and more cleanly than boys, so they are employed in the Red Rose factory to do all the packing and labelling.

It is a factory girls like to work in, and Red Rose Tea is a tea you will enjoy drinking. Every-thing is done to insure it being absolutely pure and clean.

Will you try a package? Ask your grocer for it!



The Daily Review

SATURDAY, JULY 13, 1907

THE TRENT CANAL

The Stratford Herald, rather sarcastically, remarks;

"Considerable splurge has been made in public over the opening of the Kirkfield lift lock, in the Trent canal system, as if that system had other than mere local significance. The less said about the Trent Valley canal as a national undertaking, the better. These central counties of Western Ontario would have just as much ground for asking the Dominion Government to canalize the Thames river and its tributaries up through London and St. Mary's to Stratford and Mitchell, or the Grand river, etc., up past Brantford, Galt, etc., to Guelph, as the people of Central Eastern Ontario to ask for public expenditure on the other, which, after all, is only a ditch of 5 to 8 feet depth, entirely inconsequential for boats of modern capacity."

The Herald is evidently very much out of kilter, when it comes to possessing any knowledge in reference to that important waterway— the Trent Canal—which, both from a local and national standpoint, bids fair to be a most salient factor in our transportation facilities. It is easy to sneer at the undertaking, and call it "a ditch," "a canoe route" etc., but this does not in the least detract from the value or the great public convenience that this well-known waterway—now nearing completion—will be. So often have its advantages and benefits, from a local and national standpoint, been rehearsed in the press of the Midland district that it would be superfluous to repeat them at this juncture.

Speaking of its value, the Ottawa Journal, for instance — a staunch champion of the Georgian Bay canal scheme—has this to say of the Trent Canal;

"Even the Trent Valley waterway, which has been contemptuously described as a canoe route for summer paddlers, will eventually justify the expenditure of every dollar to be spent upon it. It will be a valuable means of local communication, it will enhance the value of a great area of the most productive farm lands in Ontario; it will act as a feeder for the other and greater transportation routes, and will serve in a measure as a check upon the railways in the regulation of rates It could never, of course, be in the same class with the projected Ottawa canal, which would make it possible that certain types of vessels could travel from Port Arthur to Liverpool without breaking bulk.

"But the Trent waterway has had stalwart champions, who by their hammering away, have kept the public mind informed as to the value of waterways in general. The Trent canal project, therefore, has rather acted as a stimulus to the Ottawa project and in that light Mr. Lemieux seems to view the matter."

And here is another view, from the Lindsay Watchman-Warder. Many more similar observations might be quoted from leading journals in their comments on the recent opening of the Kirkfield lift lock, and the work on the canal;

"Both political parties have been in favor of this canal, and the pity of it is that such a useful work had not been pushed forward, with more fervor in the long time between elections. Had a fair portion of the money that had found its way into the hands of heelers and Government favorites in peculiar deals, been lavished as generously on this worthy project, it would long ago have reached a successful completion. The amount of money sacrificed in one of two late deals, such as the Blairmore site scandal, or the extravagance at the Ottawa Hall, would do much for the betterment and progress of the work here.

"The present Trent Valley Canal as it is today, will largely benefit Central Ontario in opening and developing local markets and industries, and curbing the tendency to high carrying rates on the railroads."

JUVENILE CRIME

There is something radically wrong with the moral government and home training of certain children in Peterborough. A saturnalia of juvenile crime seems to have set in. The police magistrate is busy afternoon and evening, listening, punishing, and warning boys.

Watches, fruit, candy, and all sorts of things are purloined. Certain youngsters seem to think that such a practice is smart. They are beginning to believe, like certain grafters and debauchees, in the political and commercial game, that nothing is very wrong, except you get found out. Yes! people appear to think that being detected in any crime is a far greater offence than the crime itself. Is this the way youth is being trained and educated? Where do we get our ideals? If boys and girls get into trouble and are brought before the magistrate, they should, if their parents regard them as incorrigible, and undisciplinable, be placed in some sort of a detention home—not gaol or shelter—but a place where a few sound lessons could be administered, and punishment inflicted, which parents neglect.

Then many parents have no idea where their boys and girls are after dark. They allow them to romp around the neighborhood or the city quite heedless of what they are doing or saying. It may be a strong expression, but truer words were never uttered than that a "street education is a devil's education," and in the years to come, many fathers and mothers, who think lightly of the way their children are now spending their evenings will be reminded of the force of this statement by the skeleton in the family closet. The trouble is there is too much namby-pamby effusive condescending treatment of certain children, instead of stern correction and thorough discipline. It is all right to rule by love and kindness, but there must be a stronger power behind mere affection, once in a while. As a matter of fact, good disciplinarians in the home or school are scarce. If you doubt it, ask a school trustee or a justice of the peace. The chief fault seems to be that so few people, really mean and live up to what they say, or say what they really mean in the matter of home government, and the upbringing and training of youth.

SWIMMING AS AN EXERCISE

swimming as an exercise

For muscular development swimming has no equal. It calls into play all the muscles of the body, of the head, and especially of the neck, the extremities and the trunk. For the benefit that the exercise gives, every one should practice swimming when it is possible, as well as for the safety which it will ensure in cases of accident upon the water

The art of swimming may easily be acquired in childhood, and the fortunate ones who are naturally able to preserve their equilibrium, whether upon stilts, on a bicycle, or in the treacherous water, will take to the motions naturally.

It would be much better for learners generally, however, if those those who instruct them would recognize the fact that one who does not know how to swim or float can go to the bottom easily, instead of insisting, as instructors usually do, that their pupils cannot drown if they try; and with this in view, it would seem wise for the latter to acquire the motions of swimming in the first place.

With the hands extended, the fingers and palms pressed together, and feet drawn up under the body, as if in the act of kneeling, the beginner takes the first position, being supported by a friendly hand placed beneath the chin. In the next position the hands should be spread out as if pushing the water back, while describing a circular sweep, and the legs should at the same time separate with a froglike motion, the pupil is thus ending in the third position of complete extension of hands and feet. It must be remembered that the head should be well thrown back between the shoulders.

It is necessary to become accustomed to the water and to learn how to take the waves in surf bathing. The latter kind of bathing has a peculiar electricity that is stimulating and life-giving. One who is delicate should not stay in the water too long, about twenty minutes being the limit.

Rowing is the exercise for developing the chest and muscles of the arms. It may happen that one is debarred from taking exercise which involves walking or the use of the lower extremities, and in such a case rowing is the exercise par excellence. It keeps one in the open air and develops the lungs, and muscles of the arms, while, unlike tennis, it gives symmetrical development.

The trouble with tennis is that it is "one-sided exercise, unless one can use the left hand as well as the right which is unusual.

PEN POINTS.

Cut the weeds in front of your place.

Did you enjoy the band concert last night?

Go to church to-morrow. Keep up a good habit.

Wh do people build small rooms in [illegible] Perhaps some will answer.

And the next big event on the calendar is Civic Holiday, August 13th.

For several days now no new aspirant has been mentioned for a position in the Laurier cabinet.

Even old fashions are not revived. Peterborough has not held one genuine lawn social or garden party this year. What is wrong?

Inspector Hoeg, of Brantford, believes that public school inspectors should go to a summer school every five or six years. Sort of inspecting the inspectors, eh!

In vice Lindsay outrivals Peterborough. This city has only a gang of strange pickpockets, who drifted in with the circus. Lindsay has a real crew of counterfeiters who have resided there most of their lives.

Toronto is getting quite metropolitan like. It can have a first class commotion on July 12th, in which street cars are attacked. Perhaps the city is jealous over the name Hamilton got some months ago in the big street car men's strike.

"Moving pictures at the park this evening," say the street railway company. And you can see some pretty moving pictures any afternoon too when not a few of Peterborough's most attractive maidens are taking tea on the green or wandering in the shade of the trees.

You can make new contracts with the Peterborough L. & P. Co., The city is [illegible] to buy out the business of the company. Like the much talked of war between Japan and Uncle Sam municipal lighting, is still some distance away.

There is altogether too much cursing and swearing heard on our city streets. Too often profanity denotes the paucity of a man's vocabulary. Keep a close observation of the incessant curser and you will find out how true this is. Too much obscene language is also heard.

A citizen writes blaming the press for not replying to the strictures of an opponent of the Trent Valley canal named J. H. Dutkie, who is writing letters to the Toronto World. If the newspapers stopped to answer every hair brained apostle of irresponsible frivolity in such torrid temperature as this the insane asylums would be filled with scribes.

"News has reached Moose Jaw," says the Times, "of a rather unusual railway experience, that occurred on the new line now being put down from Stoughton to Weyburn. The track-laying gang of about forty men took shelter under the flat cars. As the rain got worse the men got closer to the cars, till finally they perched themselves on the steel rails. They had not been in this position long, when the whole gang to a man jumped to the ditch. What happened? "Well I felt my legs draw up and stiffen and my whole frame felt a severe jolt. Then I jumped." Lightning had struck the rail and it was fortunate they escaped with a "jolt." — Winnipeg Free Press.

Quaker Oats Co. Employees' Picnic

Will be Held on Monday to Jackson's Point

The fifth annual excursion of the employees of the Quaker Oats Company will be held on Monday, July 15th to Jackson's Point, a beautiful resort on Lake Simcoe. A special train will leave the G.T.R. station here at 8.45 in the morning and go direct to the Point. Returning the train will start at six o'clock in the evening. It is expected that large numbers of friends and citizens will accompany the employees. There will be an interesting programme of sports and games, including two baseball matches one between the employees of the flour and the oatmeal mills, and the other between the office staff and packing department. There will be tugs-of-war and other amusements.

The games and sports will be as follows,—

1. Tug-of-war, Elevator vs. Mill, Captains Frank White and Charles Munden.
2. Baseball Game, Office vs. Packing Room, Captains F. Heaslip and O. Callander.
3. Girls' race, 50 yards, open to all under 15 years.
4. Young Ladies' race, 75 yards, open to all.
5. Boys' race, 100 yards, open to all under fifteen years.
6. Boys' race, 50 yards, open to all under twelve years.
7. Girls' race, 50 yards, open to all under twelve years.
8. Girls' race, 25 yards, open to all under 7 years.
9. Boys' race, 25 yards, open to all under 7 years.
10. Men's race, 100 yards, open to all.
11. Ladies' Sack Race, 15 yards, open to all.
12. Men's sack race, 30 yards, open to all.
13. Special Handicap race, 100 yards.
14. Baseball game, Flour Mill vs. Oatmeal Mill, Captains G. Carruthers and G. P. Edwards.

Suitable prizes will be awarded the winners.

OVERSEER WATT IS VIGILANT

Fish Not of Proper Length Should be Returned to Water

Every morning and evening there are scores of persons out trolling in Little Lake. Several of them have been very fortunate, and return with a goodly number of bass and lunge. Never were there so many fish in Little Lake as this season and this is largely due to the vigilance of the fish and game overseer during the close season. There is an exceedingly large quantity of small fish and these are being caught, which is against the law. Any bass under 9 inches in length, or lunge under 24 inches in length should be returned to the water. The minimum fine for anyone caught taking lunge under 24 inches is five dollars. Within the past week or so four parties were fined that amount for the offence by Inspector Watt. Angling proved to be an expensive sport for them. Those who are honorable enough to return the small fish to the lake are to be commended for their action. It is a shame that the young fish should be taken out. Those parties in the habit of doing so had better take a warning and in future not carry away the small ones. Overseer Watt is very vigilant and not many of the offenders get away. The other night a gentleman pulled out a fish not a foot in length and knocked it dead with a club. Mr. Watt happened along at the time and said "that fish just costs you five dollars," and that is what it will cost everyone who does not keep the law.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Allan Studholme, M.P.P., for East Hamilton, has been appointed an organizer for the Trades and Labor Congress.

Carter's Shelter is a Fine Place

Will Answer the Purpose All Right, But it Lacks Furnishings

Somebody mentioned the Carters' Shelter at the Council meeting the other night and everybody laughed. Even the chairman of the Property Committee, who put up such a strenuous fight in the council for a $50 grant to fix the place up, smiled a sorrowful smile. The Carter's Shelter has been a standing joke for several weeks, and every time business drags or the aldermen get sleepy, the Carters' Shelter is dragged out and thrown around a little while, and then more serious matters are proceeded with.

Ald McIntyre, in spite of the laughs and jokes from his colleagues is very much in earnest and has been ever since the first deputation of carters waited upon him last winter. The chairman was once filled up and now he has got the shelter on his hands and the city tied up for $50 a year rent as well as the $50 spent to fix it up. But he is going, he said, to have the carters cleared off the street. It they do not want to use the shelter, they will have to provide barns of their own off the street.

The general public has often asked what is and where is the Carters' Shelter. The first question is easily answered. It is two drive sheds, made of rough lumber, between the cracks of which the cool breeze blows. The roof is a shingle one and there are very few holes in it, so that the rain can only get through in spots. The two sheds face each other, while a high board fence on the north end prevents an inquisitive public seeing what the horses are doing. In the centre is a large open space where rigs can be turned around. All around the sheds and at a proper distance from the ground is a feed box or trough with hooks placed at intervals so that the horses can be tied while waiting for a call and while eating their occasional mess of oats or bran.

As far as accommodation is concerned the horses could not ask for more, unless it was a plate glass mirror to see if their hair was parted just right. The men are provided for much better than the horses In the southwest corner of the shelter has been built a very comfortable box stall in which are two windows, two doors and a floor. This is water proof and wind proof and there are a lot of shavings on the floor to keep out the frost in winter.

There are a few things lacking, however, which if added might induce one or two carters to make use of it. For instance, the Property Committee might get a half dozen easy chairs, and a lounge or two. A few pictures on the wall, the chairman's photo for instance, would add to the artistic appearance of the interior walls. Then a rug on the floor and a couple of receptacles in the centre of the floor to catch the tobacco juice. Then there is no provision for a library, or no smoking material.

It is not to be wondered at that the carters do not want to use the shelter. It is not at all inviting or home like, and the Property Committee were not even permitted to put in a telephone for the use of the men in their idle time. But Ald. McIntyre will have the carters off the street even if he has to put up another big fight.

MEDICAL ACT IS ULTRA VIRES

Edmonton, Allta, July 13.—A deputation from the Allberta Medical Council waited upon the Hon. C W Cross this morning to confer with him with respect to the recent judgment of the Supreme Court of Canada, which declared the Alberta Medical Act, passed by the Alberta legislature, and assented to on May 19 ultra vires, and reversed the judgment of the Supreme Court of the Northwest Territories. The judgment affects a number of medical men in this province, who registered in Alberta, subsequently to the passing of the Alberta Medical Act and previous to the announcement of the judgment of the supreme court of Canada with respect to its legality, it remains with the medical council to decide whether these men will be admitted as medical practitioners in Alberta. What the decision of the council will be is not yet known. It is very likely, however, that those who registered within the above mentioned date, will require to register again and pass an examination of the medical council.

Walter Stocker Home From Bill Posters' Convention

He Retired from Office of President after Serving Five Years—Meeting in Peterborough May 24th Next Year—Citizens of Niagara Falls Will Illuminate the Falls.

Mr. Walter Stocker returned last night from attending the annual conventions of the National Bill Posters' Association at Niagara Falls, N.Y., and the Canadian Bill Posters' Association, at Niagara Falls, Ont.

At the Canadian Association there were forty-six towns and cities represented and the meeting was very successful in every particular. The meetings were held in the city hall and the bill posters were given a very hearty reception by His Worship, the Mayor, on behalf of the council and citizens.

The most important business put through was the decision to encourage Canadian art, and to refuse to post any bills of a suggestive or immoral nature, to which reference has been made in these columns before.

Mr. Stocker, who has very ably filled the position of president of the association for the past five years, retired, and many complimentary remarks were made about his term as presiding officer. Mr. Chas. Lindsay, of Winnipeg, an old Cornwall boy, and vice-president of the Association, was elected president, and he resumed his office at once.

The next convention will be held in Peterborough on May 24th, 1908. The meeting was to have been here this year, but on account of the National Convention being held at Niagara Falls, N.Y., this year, it was decided to go to the Falls, so that as many of the Canadian members as possible, could attend the big meeting.

ILLUMINATE THE FALLS

Speaking of Niagara Falls, Mr. Stocker said that the citizens of Niagara Falls Ont., and Niagara Falls, N.Y., were raising a fund of $5000 for the purpose of illuminating the Falls for one month this season. This is an entirely new departure for the citizens, and it will undoubtedly attract a very large crowd of visitors. To accomplish the feat several thousand colored lights will be strung across the cataract, and the rapids, above and below. It will present a wonderfully beautiful sight, and will be well worth going a long way to see.

The Services In The Churches On Sunday

ST. PETER'S CATHEDRAL.

At St. Peter's Cathedral there will be three masses celebrated—at 8.00 a.m., low mass; children's mass at 9.15 a.m.; high mass at 10.30: Vespers at 7.00 p.m., with sermon.

ST. JOHN'S (ANGLICAN) CHURCH

Rev. Canon Davidson, M. A., rector. 7th Sunday after Trinity. 8.30 a.m. Holy Communion: 11 a.m., Morning Prayer and Sermon: 7 p.m., Evensong and Sermon.

ALL SAINTS' CHURCH.

(Anglican) Cor. Rubidge and Sherbrooke streets. Rev. W. Major, rector. 7th Sunday after Trinity. 11 a.m., Morning Prayer, Litany and Sermon; 3 p.m., Sunday School and Bible Class; 4 p.m., Holy Baptism; 7 p. m., Evensong and Sermon. Sidesmen for the day, Messrs. Manley and Wilson.

ST. LUKE, THE EVANGELIST.

(Anglican) East side — Rev. Dr. Langfeldt, M. A., rector. 7th Sunday after Trinity. 8 a. m., Holy Communion; 10 a.m., Sunday School and Bible Class; 11 a.m. Morning Prayer and Sermon; 7 p.m., Evensong and Sermon. The rector will preach at both services. The The Brotherhood of St. Andrew are reminded of tomorrow, being their monthly Communion.

ST. ANDREW'S.

Rev. J. G. Potter will preach at both services in St. Andrew's church on Sunday. Morning Service — Anthem, "In Immanuel's Land"; quartette, "Remember me, O Mighty One"; solo, "My God and Father, While I Stray" Marston, by Mr. Freeland. Evening Service—Doxology, "Lord Bless Us Still"; Anthem, "Are you coming home tonight," Solo parts by Mrs. Davidson and Mr. Greenslade; Solo, "Hold Thou My Hand," Briggs, by Miss B. King.

ST. PAUL'S.

Rev. Dr Ross of Erie, Pa., will preach at both services in St. Paul's church tomorrow. The services will be conducted in the Sunday School room upstairs, owing to the renovation of the auditorium now in progress.

KNOX CHURCH.

A flower service for the Sunday school children, will be held in the morning, and Rev. Mr. Keith will address them. In the evening, Rev. H. J. Keith and Rev. J. R. Webb of Murray street Baptist church will exchange pulpits.

GEORGE STREET METHODIST

Rev. B. A. Pearson, pastor, will preach at both services in George Street Methodist Church tomorrow. In the morning his subject will be "Preaching Christ." In the evening the topic will be "A Shameless Jew."

CHARLOTTE STREET

The pastor, Rev. H. M. Manning, will occupy the pulpit at both services on Sunday at the Charlotte Street Methodist Church.

MARK STREET.

The pastor, Rev. C. H. Coon, will preach at both services at Mark Street Methodist Church tomorrow.

MURRAY STREET.

The pastor, Rev. J. R. Webb, will preach in the morning. Rev. H. J. Keith of Knox Church, will preach in the evening. In the morning Mr. Webb will deliver a special address to the children.

PARK STREET BAPTIST.

Rev. A. H. Brace will preach at both services tomorrow. In the morning his subject will be "Life more abundant," evening special 20 minute address on "The man who died at his post." Monday night, B. Y. P. U. meeting; Wednesday night, public service; Friday night, meeting of the Building Committee.

BETHANY TABERNACLE

Pastor and Mrs. Steuernagel will have charge of the services of the day. Morning subject, "The anointing with the Holy Spirit." Mrs. Steuernagel will address the evening congregation. The public generally, cordially invited.

SALVATION ARMY BARRACKS.

Simcoe street, Adjutant and Mrs Wiggins in charge. Sunday meetings, 7 a.m., prayer meeting, 11 a.m., holiness meeting; 3 p.m., free and easy. 7 p.m., Salvation meeting.

The Peterborough Light & Power Co. wishes to remind its customers that Monday, July 15th is the last day discount will be allowed on June accounts. The office will be open during the evenings of the 13th and 15th, from 8 p.m. until 11 p.m.

Will Add Spice to Western Team

"Bill" Cinnaman of Lindsay Leaves For Dauphin, Man.

W. G. Cinnamon, expert exponent of Father Chadwick's pastime, left this morning for Dauphin, Man., to play ball with the team of that town for the summer. Bill has been in communication with the team for some time, and is to receive for his skill $100 a month, besides a few extras, likely. The Wideawakes will be handicapped by his absence, he having pitched good ball for them recently. Bill will quit pitching out west, and is billed to catch for Dauphin.—Lindsay Post.

More Bad Boys in Police Court

Charged With Stealing Fruit—Police Raid a House

For keeping a house of ill-fame, Mrs. Annie Davey, Annie Whittaker, Welland Cameron and H. Thompson were arrested last evening at 24 Parnell street, by Police Officers Adams, McDonald and Newhall.

They appeared before His Worship Magistrate Dumble this morning and pleaded not guilty. They were remanded until next Tuesday at nine o'clock. In the meantime they will be guests at Castle Nesbitt.

WERE DISORDERLY

Three young men were fined $2.00 and costs amounting to $5.75, for being disorderly. These young fellows were caught at 24 Parnell-st. last night. On one there was found a bottle of whiskey and a bottle of beer. He was pounding on the door and kicking up generally. The other two were doing likewise, and one of them, as the result of a tussle with a police officer, got a black eye. In trying to get away, he fell and struck a water pipe.

STEALING FRUIT.

For stealing cherries off the trees on the farm of Mr. Henry Cox, near the lift lock, three young lads, Oscar Keller, Leonard Quinlan and Al Bell were found guilty, and fined one dollar each. At first they pleaded not guilty.

Mr. Cox stated that on July 8th he saw these boys at his cherries. They ran when they espied him coming. He caught a little lad and he told the others names. Mr. Cox said that he had been missing eggs, hens and turkeys lately and was continually bothered by lads on his premises.

Keller and Quinlan paid their fine but Mrs. Bell would not pay it for her lad and he was taken down and locked up for a few hours. It seems another case of where the boy is incorrigible, and his parents have no control over him.

AN ASSAULT CASE

Walter Elliot, a young lad of about 12 years, was charged with assaulting another boy, Chas. Ratchford. Elliot pleaded guilty. It appears the other lad called him a bad name.

The case was dismissed.

DISMISSED

Bruce Lee, a liveryman, claimed 50 cents from William McGregor, due on the hire of a horse and buggy.

Mr Lee stated that McGregor had the rig out from 6.45 to 10.30 o'clock. When he got the outfit he only paid a dollar. He added that he would keep it out about half an hour. Lee demanded 50 cents more from McGregor for keeping it out so long.

McGregor said he agreed to pay a dollar and only used the horse about twenty minutes. The remainder of the time it was resting.

Mr Dumble said he could not make bargains for them. If McGregor got the horse, understanding that it was to be a dollar, which he paid before he took the animal, he considered that was all McGregor owed. The case was dismissed.

Clergyman Was Highly Honored

Rev. Mr. Nelles of Port Hope Presented With Gold Headed Cane

Rev. R. B. Nelles, of Port Hope, who is leaving that town, was honored yesterday morning by L.O.L. No. 1062, and presented with an address and gold-headed ebony cane. Mr. R. H. Holland, Past Grand Master of Ontario East, read the address.

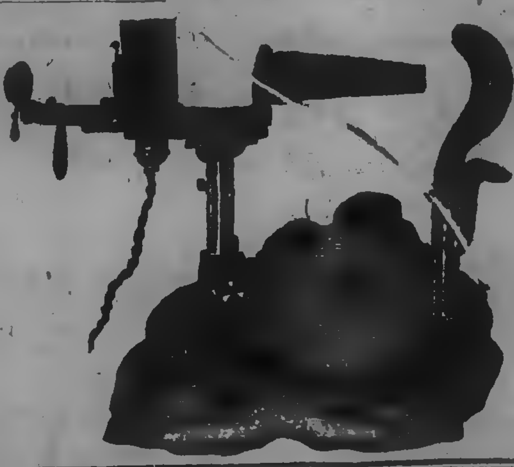
Mr. Nelles has received the call to Kingston Y.M.C.A. general secretaryship, and takes up his new duties August 1st. The Kingston Association is one of the largest in Canada, and a wide field of usefulness is presented there, for work among young men.

BODY HAS NOT BEEN RECOVERED

The body of Jack Lefebvre has not yet been recovered, although a close watch has been kept on the river since the drowning accident on Thursday. The water will be drawn off at the dam this afternoon and a thorough search made.

Ruby Stoonfelt, aged 5, of Montreal, was killed by a street car on St. Denis street.

Alfred O'Farrelll of Smith's Falls, was rescued from the Rideau, and resuscitated by Wallace Plunkett.



COMING FROM FAR AND NEAR

From the surrounding towns and villages and county as well as the city, persons are coming every day and have the benefit of the skill and experience of our specialist, who is kept busy examining eyes for glasses and fitting artificial eyes. Mr. Browitt's work is a great success, his methods, his instruments and the years of experience which he has enjoyed in the United States and Canada, qualify him in a manner which few Canadians can equal and we do not wonder now that Mr. Browitt has made Peterboro' his home, that his work is appreciated and that he is meeting with the success he deserves.

PETERBOROUGH

THE GILA MONSTER.

Strange Ways of This Dreaded and Hard Biting Reptile.

Of some of the strange ways of the gila monster, that little known creature of the southwestern deserts, a correspondent writes: "I have had some experiences with Gila monsters and can state that, no matter what scientists may claim, the Gila monster is a good thing to shun. Indians and Mexicans have a horror of it and fear it more than a rattlesnake. I believe that the bite of the Gila monster is dangerous because of the creature's habit of eating lizards, bugs and rodents and then lying on sand so hot that it blisters the hands and feet of men. The heat causes the food to putrefy in the stomach, evidenced by the fact that the teeth are often covered with a fermented, putrefied froth from the food. A bite has the same effect as the cut of a dissecting knife used on a cadaver—in other words, the inoculation of a deadly poison.

"When frightened or angry he can move quite rapidly. That short, thick, stubby tail is used in jumping, just as a kangaroo uses his tail. The Gila monster bites like a bulldog and has the tenacity of a snapping turtle. I once saw some men teasing a Gila monster brought to Tucson. A string was tied around his neck. The Gila monster was crawling around on the ground, trying to get away, but was pulled back by the string. This was carried on till the creature became furious. The crowd around the Gila monster knew nothing of his power to spring. Suddenly he sprung up and bit a man among the crowd on the hand, leaping fully two feet from the ground.

"Another instance, this of a man whose chief object seems to have been a foolhardy display of fearlessness. He was holding one of the monsters in his hand by the back of its neck, so it could not bite him. He dropped his hand to the side of his leg. The Gila monster shut his teeth down on his heavy duck overalls, taking a double piece out where the cloth folded as quickly as a pair of scissors could have cut the fabric and as cleanly."

ABUSE OF THE DEAD.

Queer Custom of the Bagas Forehs of French Guinea.

The Bagas Forehs, who live in French Guinea, quit life in a manner anything but commonplace. When a man dies his wife and children do not lament him. Instead they are angry at having been abandoned. They prop the body up against the house with the forked branch of a tree and invite their friends and relatives to come, all of whom are furious that one of their own has left them. When all the guests have arrived the wife of the deceased advances and addresses what was once her husband in a way well calculated to scare his ghost away from the neighborhood.

"There now, listen! You'd leave me, would you? So you don't want to live with me? Why do you do this way? Haven't I always been a good wife to you? Haven't I been a good mother to your children? Haven't your rice and fish always been well cooked? Have you anything to reproach me with? Nothing. Then shall not you go? Coward! Traitor! You shall not leave without receiving the correction that such conduct deserves."

Then the blows begin to rain down upon the poor defenseless figure. Presently the tired wife gives place to the children, and they in turn to the relatives and friends, all of whom similarly abuse it. At length, with a natural human impulse, their fury spent, they try to make amends to the hapless corpse. They bathe it and bury it a meter deep inside the house, and each day at the dinner hour the family places on the tomb some grains of rice and a little palm wine for refreshment of the soul should it return.

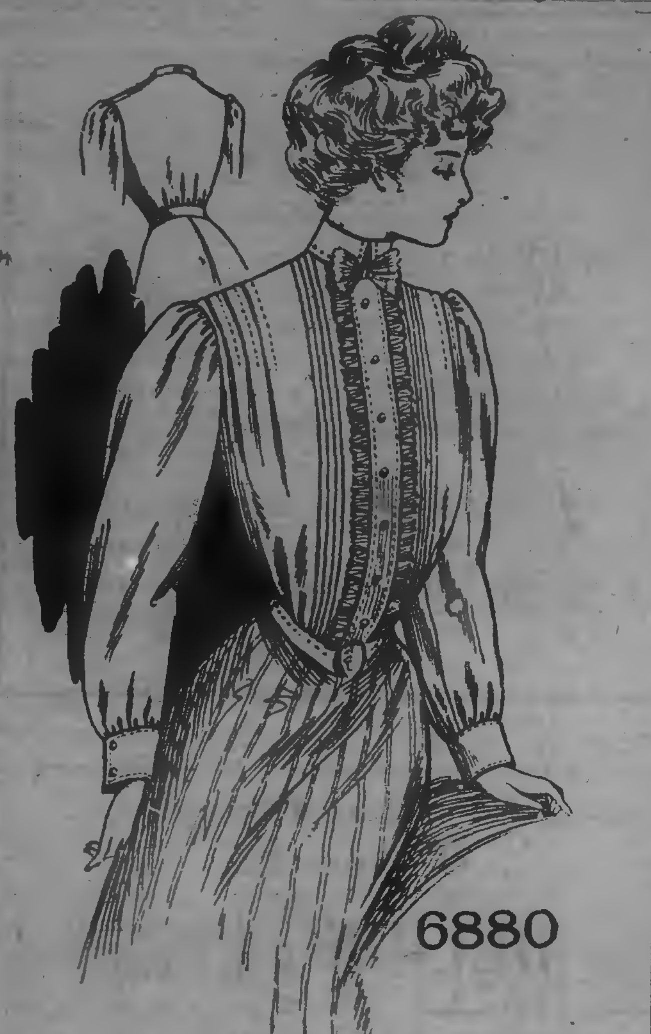
The Latest Ideas in the Dean Patterns



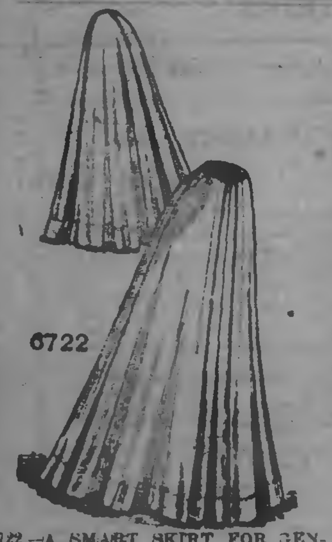
SMART STYLE AND BECOMINGNESS

It's a white season, and shirt blouses of every style will be par excellence. A very trig shirt waist in linen, showing narrow tucks at either side of the front closing, and wider ones on the shoulder ending at yoke depth, is sketched and recommended to all lovers of good style. The narrow plaiting edging the front plait is a late suggestion for adornment and may be used or not as desired. The natty shirt cuffs are trimmed in like manner while this also appears on the collar. The waist is one not difficult to fashion, but suggestive of good taste and representing the best of the newest fashions. Any of the seasonable waistings may be used, the medium size calling for 3 yards of 36 inch material.

6880.—Six sizes, 32 to 42 inches bust measure.

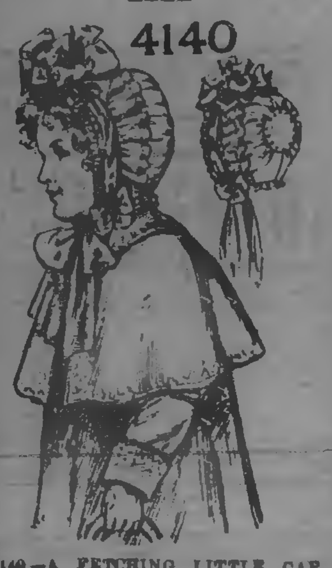
The price of this pattern is 10 cents.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



6722.—A SMART SKIRT FOR GENERAL WEAR.

Now that the fashion for separate skirts is again to the fore, many very chic new designs are to be seen and one is sketched which will please the particular woman. The skirt is a five piece circular one with tuck pleats in front and an under box pleat at the side and back to give it a wide ripple at the hem. The new skirts are most of them pleated in one way or another, and for the woman who does not desire a full pleated one the skirt shown is excellent. The medium size calls for 5 3-4 yards of 44 inch material.



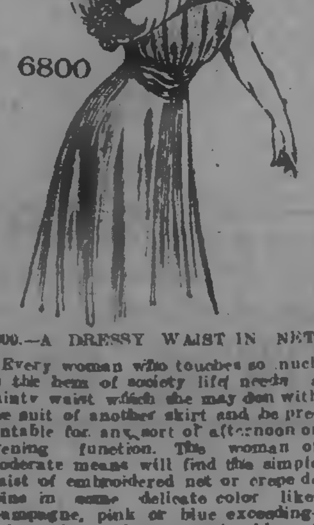
4140.—A FETCHING LITTLE CAP

Fashions in the Clouds.

As ladies are among the most enthusiastic devotees of the new pursuit of ballooning, it is interesting to learn that fashions obtain even soaring in the clouds.

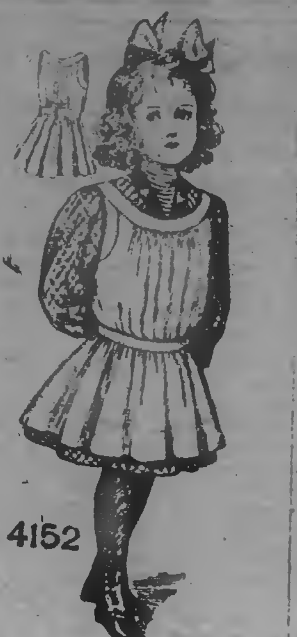
One is informed that lady balloonists' dresses should be made of gaberdine, slimber or loden cloth; that the fashionable color is green and that the coat, which is lined with fleece or silk, should be short, with two breast pockets, two cross pockets and two hand rests for keeping the hands warm.

The skirt is adjustable—that is, can be drawn up or let down by cords. A ballooning cap, a slip-on waterproof, Canadian mitts and dark brown boots complete the outfit.



6800.—A DRESSY WAIST IN NET.

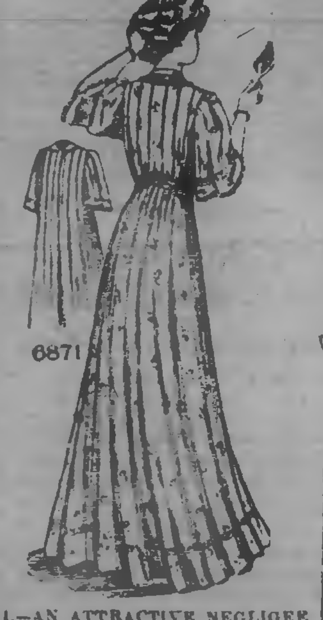
Every woman who touches so much as the hem of society life needs a dainty waist which she may don with the suit of another skirt and be presentable for any sort of afternoon or evening function. The woman of moderate means will find this simple waist of embroidered net or crepe de chine in some delicate color like champagne, pink or blue exceedingly becoming and very serviceable, not to mention its inexpensiveness. A suggestion for such a waist is shown but any number of variations may be added. The yoke which extends out a bit over the shoulders, giving that broad effect so much sought for this season, may be of tucked chiffon or silk or even tucked organdie with a simple lace galon as finishing. No other trimming material for the waist is needed except a girdle of velvet if desired.



4152.—A SMALL PINAFORE APRON.

There are pinafores for little folks and pinafores for big ones, but the style belongs unquestionably to the former and an apron built on this order is sketched. The neck edge is finished with a band yoke which is attractive by reason of its trimness, while similar bands outline the armholes. These also act as a strengthening for edges, which as the garment wears are apt to become torn and frayed. The waist portion is prettily full in front and back, several shirrs at the yoke edge regulating the fulness. The skirt is a straight full one which protects the dress completely. The effect produced by this apron is that of a guimpe and over-dress and every mother will like it. Any of the apron materials, such as cross-barred muslin, lawn or Swiss would be suitable. For the medium size 3 yards 36 inches wide are needed.

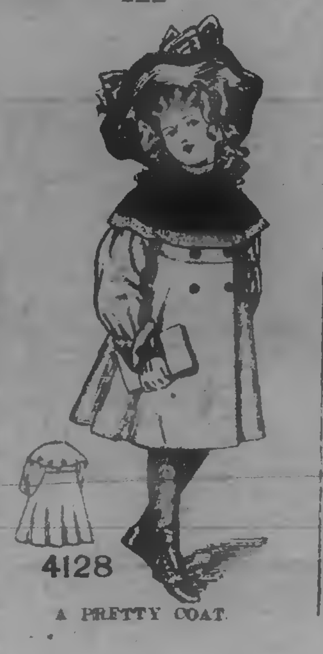
4152.—Sizes 3, 5, 7 and 9 years.



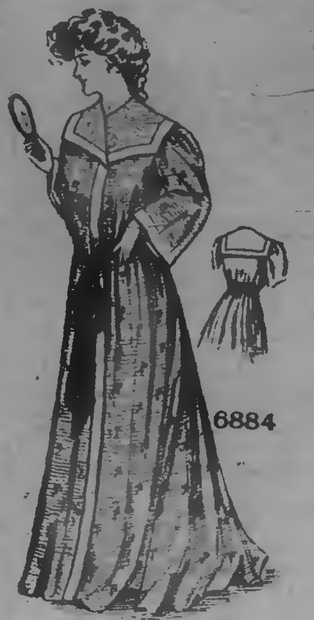
6871.—AN ATTRACTIVE NEGLIGEE

It is during the warm days that a woman takes keenest delight in her negligees and these are therefore a part of her wardrobe which she does not fail to provide. A very restful and pleasing gown which suggests the kimono in style, is sketched and will prove most charming for the home sewer to fashion. It is box pleated front and back to yoke depth so that plenty of fulness is provided for the skirt portion. The gown falls free from the shoulders and may be slipped on easily for lounging or as a bath robe. The Japanese fabrics are best suited to the making of this gown, but any soft silk or tub fabric would serve. For the medium size 6 1-4 yards of 44 inch goods are needed.

6871.—6 sizes, 32 to 42 inches bust measure.



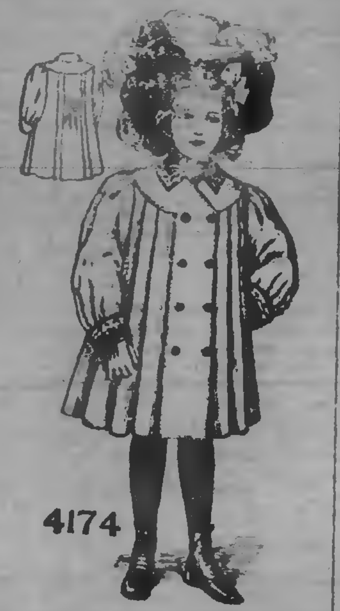
A PRETTY COAT



6884.—A COMFORTABLE LOUNGING ROBE.

The loose, comfortable gown which slips on easily and requires no elaborate fastening to close it is an invaluable possession in the feminine wardrobe. Such a one is shown and made in a washable silk or Japanese cloth it will prove wonderfully useful and becoming. The broad sailor collar and loose flowing sleeves suggest freedom from restraint and are quite in keeping with the purpose of the garment. For use as a bathrobe or negligee it is invaluable. For the medium size 7 yards of 36 inch material are needed.

6884.—6 sizes, 32 to 42 inches bust measure.

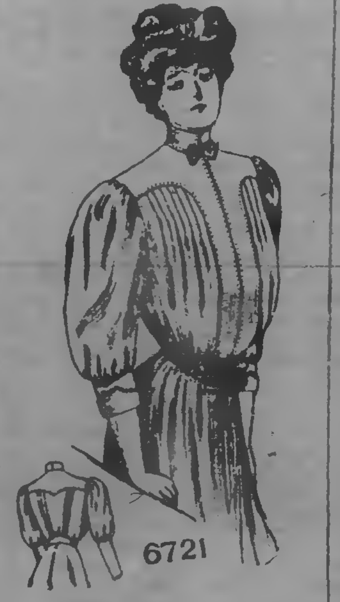


4174.—A CHARMING LITTLE COAT

One of the prettiest of the new models in small coats is shown for the benefit of the home sewer. A round yoke continues to the lower edge in front in real stole fashion and lends height to the wearer. Two side pleats at each side of the centre front and back give a pretty fulness to the skirt portion and allow plenty of room for dainty frocks beneath. Natty turnback cuffs finish the sleeves and a collar to correspond, the neck. The coat is suitable to development in any of the seasonable cloths, taffeta, pongee or linen. For the medium size 2 1-4 yards of 54 inch material are needed.

4174.—Sizes, 4, 6, 8, 10, 12 years.

The price of this pattern is 10c.

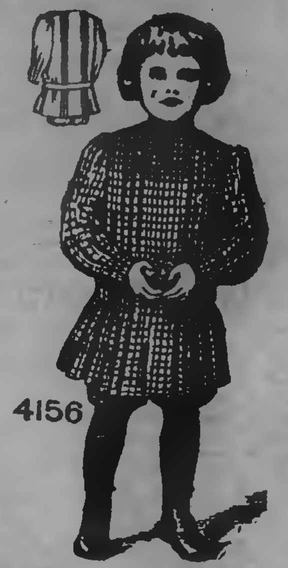


6721.—A SHIRT BLOUSE OF SMART LINES.

Now that the shirt blouse is so necessary to every woman and girl, the designs for this garment must be as varied as possible. A waist which will not fail to please the particular woman has a stole yoke which is completed at each side with tucks of becoming depth. The yoke appears in back and two groups of tucks lend further adornment and tapering lines. Together with the long sleeves, those of three-quarter length are also provided for and may be finished with natty little cuffs of the same or a contrasting material. While simple, the waist is one of undeniably good style and for wear with the suit or odd skirt will prove most fetching. Any seasonable fabric may develop it. The medium size calls for 3 1-2 yards of 27 inch material.

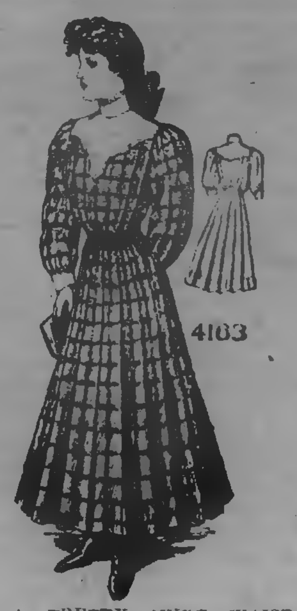
The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



4156.—A RUSSIAN BLOUSE SUIT FOR THE LAD.

Never was there a mode more becoming and practical for the small boy than the Russian suit with its long blouse loosely belted at the waist and generous knickers which give him plenty of room for sport of all sorts. The suit sketched is especially pleasing for its tucks in panel effect, front and back, and the tucks which retain the fulness of the sleeve instead of the usual cuff. A standing collar which is not too high for comfort and closes at the side finishes the neck and does away with the Eton collar of linen which needs such frequent changing. The knickerbockers are without a fly and very easily made. Serge or the usual tub fabrics may serve, the medium requiring 2 1-8 yards of 54 inch material.



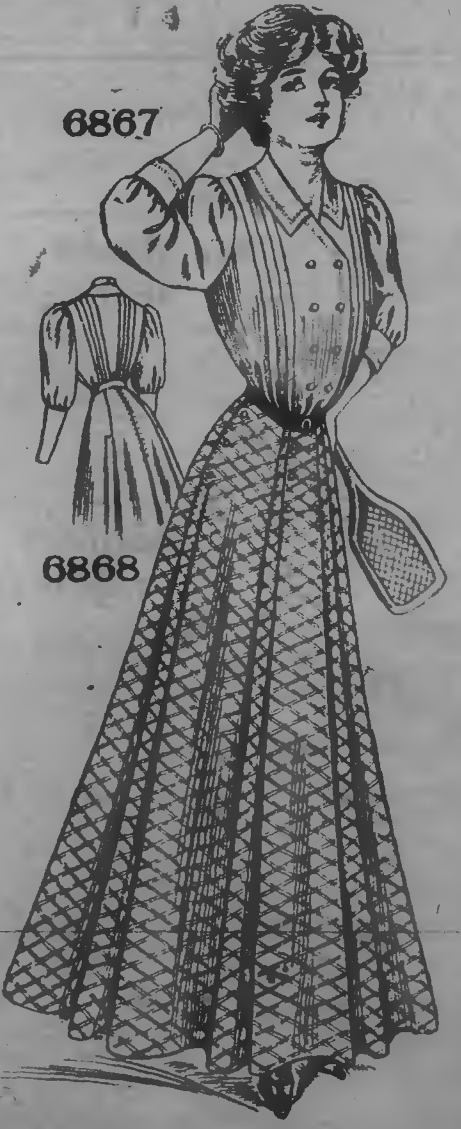
4163.—A PRETTY SHIRT WAIST DRESS.

Grace and simplicity are essential qualities in the frocks of the young girl and every mother who fashions her daughter's gowns appreciates how difficult the realization of this often proves. A dress which requires no great amount of skill or experience to fashion and which nevertheless appears smart and attractive is sketched. The waist has a fanciful yoke as its distinctive feature with two broad tucks at either side below. The closing if effected beneath the last tuck at the side and on the shoulder, while the sleeves are to be finished full length or shorter as desired. The skirt is a seven gored one laid in pleats and stitched in double box box pleats at the front and back. Mohair is an excellent material for such a dress as it sheds dust and does not quickly show wear while Henrietta, rajah, pongee, linen, crash or madras might be used. For the medium size 5 1-8 yards of 44 inch goods are needed.

4163.—Sizes 14, 15, 16, 17 years.

Henri Bourassa does not deny he will enter the Provincial arena in Quebec, but says the announcement is premateure.

Because a neighbor jocularly told him to eat some Paris green he had found Geo. Plumbrook, at Cornwall, did so and died.



A SMART GETUP FOR SUMMER OUTINGS

The shirt blouse and walking skirt have yet to find their peers for general knockabout wear and the woman who desires an outfit for use during the coming weeks will find the accompanying models both chic and practical. The shirt blouse is double-breasted and laid in small box pleats, which lend shapeliness and style. The removable shield may be worn or not as desired, while a choice of long or short sleeves is provided for. The washable waistings are excellent for such a waist, while pongee or silk might also serve. The skirt is unusually attractive with its trimness over the hips and bountiful ripple at the lower edge. It may be of the material of the waist or of any other seasonable worsted. The waist calls for 3 3-4 yards of 36 inch material in the medium size and the skirt 5 1-2 yards 44 inches wide.

Two Patterns—6867.—Sizes 32 to 42 inches bust measure. 6868.—7 sizes, 20 to 32 inches waist.

The price of these patterns is 20c but either will be sent upon receipt of 10 cents.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

Found the Most Beautiful Girl

Miss M. Frey of Denver is Most Attractive Lady in America

The beauty quest, inaugurated by the Chicago Sunday Tribune, to determine who is the most beautiful woman in the United States, has resulted in the choice of Miss Marguerite Frey, a girl of Denver, Col. The search for the ideal beauty was aided by 24 of the leading newspapers in the United States. Over 100,000 photographs of beautiful women from all parts of the States representing every sectional type of beauty, were examined by the judges. Twenty-four sections chose their typical beauty and awarded prizes.

Twice the judges, representing many newspapers, met in Chicago. The first meeting resulted in the elimination of all but nine of the contestants as candidates for first prize. The second meeting reduced the number to five. So great were the difficulties confronting the judges that they decided to call the beauties personally to Chicago, hoping that gazing upon them, instead of judging from photographs, would make the task easier. This, however, seemed rather to increase than diminish the difficulties. Nine of the cities refused to bow to any one, and clamored for the prize. The other cities, convinced that their beauties, while perfectly representing their section of the country, had no chance for the grand prize of beauty withdrew.

Artists, judges of beauty, of coloring, regularity of feature and others were called upon to assist the judges, and one by one the leading candidates were eliminated, and Miss Frey was chosen.

Miss Frey, who gets the first prize of $1,500, is 19 years old. In stature she is 5 feet 8 1-2 inches. Her figure is rather slight and extremely graceful and she weighs 135 pounds. Her waist measurement is 21, bust measurement 35, and she wears a 4B shoe. Six things which caused the judges to pronounce her the most beautiful girl in the United States are her perfect profile, her roses and cream skin, her large, melting blue eyes, her crinkly, bright, golden mass of hair, her perfect white teeth, her purity of expression. Miss Frey is described as an unspoiled, home-loving girl, and did not realize that she was beautiful until her elder sister submitted her photographs to the Denver Post. She is bookkeeper for the Bankers' Supply Company and lives at home with her mother and big brother and big sister.

Marguerite admires brunettes. She thinks that dark eyes, a wealth of black hair, just wavy enough, is perfection in beauty. Sometimes she even confessed that she envied the brunettes and she said:

"Now, if they'd only make the prize for blondes, I'd have a chance."

She was so happy and unspoiled by it all, and so natural that she wouldn't have been disappointed a bit if the prize had been awarded to some one else. She had selected one of the southern girls or the Washington prize winner as her favorite for the prize.

The second prize went to Miss Gabrielle Worsley, a farmer's daughter of Union Grove, Wis. She is 23, blonde, with soft wavy brown hair, brown eyes, 5 feet 9 inches and weighs 130 pounds.

The third prize went to Miss Eola Rice, sixth daughter of Moses Rice, one of the best known photographers of Washington, D.C. She is 22, brunette, black hair, black eyes, 5 feet 9 inches, 140 pounds. All the women of her family are famous in Washington for their beauty. The seven Rice girls are, perhaps, the most beautiful seven sisters in the United States.

Smaller Divisions for Inspectors

They Should Take a Summer Course Every Five Years

Speaking at the Dominion Educational Association meeting in Toronto, Inspector Hoag, of Brantford, said,—

"The weakest link in Ontario's educational system, however, was, he claimed the inspectoral system. No efficient supervision existed today in most of our public schools. Instead of from 100 to 190 divisions to each inspector, we should have at most 60. Then the inspector could become the guide, counsellor and friend, of teacher, pupil and trustee. Ontario's inspectoral system was half a century behind the times. Inspectors themselves, were in not a few cases, not progressive. The Government should require them to take a summer course, at least, once in five years, and should form a retiring fund for every inspector at 60 or 65 years of age.

"The Nude in Art is Diabolical"

Says Father Ignatius and England, He Adds, is Returning to Paganism

London, July 11.—Father Ignatius prior of the Llanthony Abbey, has joined in the fierce controversy that has been raging over the propriety or otherwise of living statuary. Preaching in London, he attacked, not the "living statues" themselves, but their example, the nude in art, which he denounced as a sign that England is returning to paganism.

"The day is drawing near," said Father Ignatius, "when we shall find England a pagan country. Our art in our morals in our pictures, and our statues is being repaganized.

"I have a word to say against those who appear nude in public. They say they do it in the interests of art, and I must confess it must be a very great sacrifice for them to do it for art. But if that is art, I as a Christian take hold of it, and pull a razor across its throat.

"Living statuary is all right, as long as it does not degrade an English woman—I cannot say a Christian woman, for England is not Christian. What I am warring against is a new national evil.

"The nude in art is diabolical and pagan and you must have nothing to do with it. Because it is a thing one shrinks from discussing, shall I keep silent? No. The question is one of national modesty. Nude art ought to be swept away from the walls of the Academy, and it ought to be swept out of the country."

BAPTIST CHURCH IS AGGRESSIVE

Toronto, July 12.—The Baptists will appoint a general missionary for evangelistic work in New Ontario. decision was arrived at yesterday afternoon at the quarterly meeting of the Home Mission Board of the Ontario and Quebec Baptist Association. It was decided to open a mission at Sudbury, and the Rev. P. M. Week, formerly of Athens, was appointed the the mission charge. The board endorsed the proposals to build churches at Bruce Mines and Keewatin. Rev. John Carr, formerly sailor's missionary in the Canary Islands, is to be the new pastor at Burlington. Rev. G. C. Lamont goes to Iona, and Rev. John Lennox, formerly of the city of London mission, goes to Orangeville. The sum of $6,000 was voted for the mission work of the next quarter.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

May Abandon "All Red" Scheme

London, July 11.—Rumors are in circulation that the government is inclined to abandon the proposal to create an all-red route. The special committee appointed to consider the scheme, is, however, still sitting and the reports, therefore, can scarcely be justified, though the reported action of the Australian Government may cause a hitch.

New Zealanders Coming to Canada

Vancouver, B. C., July 12,—T. H. Race, Canadian Government commissioner in charge of the Canadian exhibit at the international exhibition at Christchurch, New Zealand, returned recently by the steamer Moana, after an absence of eleven months. Seen by a reporter, he said, that the eyes of the New Zealand people were turned to Canada. Their desire is to establish an all-red line to Vancouver. Thousands are coming here this summer. Thirty came by the Moana, and 150 had to be turned away. Next to Great Britain, he said, Canada occupied the largest space at the exhibition. He expressed great confidence in the future trade in British Columbia apples throughout the Australian colonies.

LAROSSE

CAPTAIN CAN TALK.

It was decided at this week's meeting of the N.L.U. that a captain of a lacrosse team has a perfect right to talk to a referee or judge of play during a match, and if he is ruled off for discussing or disputing a decision of an official, so long as he did it in an orderly manner, he would be justified in taking his team off the field. The question was brought up by Ald. O'Connell, who complained that Percy Roberts had threatened to put Kavanagh off in Ottawa, when the big fellow questioned his right to rule O'Reilly off for ten minutes, when "Bill" Bramley, who was referee, had fixed the penalty at five minutes.

Hail as large as eggs swept part of Ameliasburg township, Prince Edward county.

JAPANESE HEAD TAX.

No Imposition on Immigrants From Japan.

Ottawa, July 12.—The Hon. T. Nosse, the Japanese Consul-General, has received a telegram from Morigawa, the Japanese Consul at Victoria, B. C., denying that a head tax of $25 has been imposed on immigrant Japs.

The commercial treaty between Japan and Canada, he said, is working well, and Canada is now exporting more goods to Japan than ever before, especially such lines as flour, condensed milk, agricultural implements, steel, nails and paper. The trade in these is growing fast. The imports have been decreasing lately, partcularly in tea and silk, due to the present high prices and to keen competition.

REGISTRAR DISMISSED.

Charges of Partisanship Held Proven By Commissioner.

Toronto, July 12.—Thomas McDonald, registrar of the County of Dundas, has been removed from office, and Robert Johnston Dillon of Morrisburg appointed in his stead. Charges were brought against Mr. McDonald, of having, among other things, (1) failed to keep his office open during statutory hours; also of (2) having taken part in the Dominion elections, more particularly with reference to the signing of a party handbill, or poster, in the committee-room of Dr. Chamberlain, the candidate.

Commissioner Judd, who investigated the matter, reported the charges above mentioned as proved.

KILLED AT THE FALLS.

"Big Ed." Little Dead as Result of Bar-room Fight.

Niagara Falls, N.Y., July 12.—As the result of a bar-room brawl, Edward Little, more familiarly known as "Big Ed," is dead and Harry Daly, Patrick Moskler, George Hillman, Jr., Thomas Donoghue and three negroes, one a waiter and the other two, women, are under arrest. Daly is directly charged with the murder of Little and the others are held as accessories or witnesses.

LILY LYNN WILL LIVE.

Girl's Condition Has Improved and Doctors Have Hope.

Richmond, Que., July 12.—Miss Lily Lynn, the 15-year-old girl who was so brutally assaulted by the young Englishman, Albert Greenhill, last week, is still in a precarious condition, though the doctors now hold out hopes of her recovering. She is conscious at times, but is ordinarily in a comatose condition. Greenhill will not come up for trial till September.

VINCETTI WILL HANG.

The Minister Decides the Law Must Take Its Course.

Ottawa, July 12.—The Minister of Justice has decided that the law must take its course in the case of the Italian, Vincetti, who murdered Wm. Dow near Parry Sound, on Christmas Day. Vincetti will be hanged on Aug. 1st.

Knights Templar Officers.

Saratoga, July 12.—The Knights Templar conclave concluded yesterday with the election of the following officers: Henry W. Rugge, Providence, grand master; William B. Motiah, Cincinnati, deputy grand master; John A. Corou, Detroit, grand secretary; George M. Moulton, Chicago, trustee for nine years. The next triennial conclave will be held in Chicago in 1910.

JAPS TO BUILD G. T. P.

Three Thousand Are to Be Brought to British Columbia.

Vancouver, July 12.—A Victoria dispatch confirms the report that three thousand Japanese are being brought to British Columbia for work for the G.T.P., a Tokio immigration company having entered into an agreement to supply all the Jap labor required. The shipment will extend over the balance of the year, 400 arrived in Victoria yesterday.

Very Much Settled.

An elderly woman, on being examined before the magistrate of Bungay as to her place of legal settlement, was asked what reasons she had for supposing that her deceased husband's settlement was at St. Andrews.

The old lady looked earnestly at the bench and said:

"He was born there, he was married there, and they buried him there; and if that isn't settling him there, I'd like to know what is!"—London Telegraph.

A Correction.

Berfle—Father, what is an egotist? Father—He is a man who thinks he is smarter than any one else. Mother—My dear, you are scarcely right. The egotist is the man who says that he is smarter than any one else. All men think they are."

Butter and the Ancients.

The Roman writers on agriculture allude to butter only in the most incidental way, and there is reason to believe that even in the third and fourth centuries it was used solely as an ointment.

Buddhist Nuns.

The Buddhist nuns in Burma have their heads completely shaved.

A Vessel's Tonnage.

A vessel's tonnage is found thus. Multiply the inside length of the keel in feet by the length of the midship beam and that result by the depth. Divide the product by 94.

Deutsch.

Deutsch is the native name for German. What we call Dutch, Germans call Niederlandisch or Hollandisch.

There are 2,789,553 acres under wheat in Manitoba as compared with 3,141,537 in 1906.

Roasts seem jucier, steaks tenderer, chops tastier, when you add

Prof. G. H. Locke Gave Addresses

Former Peterboro' Boy at Dominion Educational Association

At the meeting of the Dominion Educational Association now being held in Toronto, two able addresses were delivered by Dr. George H. Locke, of Montreal, son of Rev. Joseph H. Locke, late of Havelock, and former pastor of George street Methodist church, Peterborough. A Toronto paper says:—In the higher education section Professor Locke dwelt on the advantages of the "accrediting system" of the United States, by which college entrance or matriculation examinations are abolished, and the schools and teachers at work are examined instead of the students. No boy, he said, could obtain a reputable commercial position in any of the big firms of the United States unless he was a graduate of a high school, and to be a graduate he had to study for four years. The accrediting system has been thoroughly tested, and its influence on college work had been distinctly good, while it had had a wonderful effect upon the growth of high schools.

THE CURRICULUM.

"The modern trend of the public high school is towards such an adjustment of the curriculum as will enable our boys and girls to have an adequate introduction to the word of thought and action, and a training in the most economic and successful methods of attacking the problems presented for solution before they are given the opportunity to make the application to the problems that will interest their individual tastes in a distinctly vocational way." This was the gist of an address by Prof. Geo. H. Locke, Macdonald College, Ste. Anne de Bellevue, who was for some years Dean of the School of Education in the University of Chicago, and for six years editor of the School Review. He pleaded for the postponement of technical subjects until after the first two years of liberal studies in the high school, and showed how much harm would be done by the establishment of separate high schools devoted exclusively to manual training or to commercial subjects.

Leave Montreal River District

Prospectors Being Driven Out by Flies—Rich Finds in the North

Cobalt, July 12.—There is reported to be somewhat of a lull this month in the big rush of prospectors up the Montreal. This is attributable to the fact that the black flies and mosquitoes are so bad that it is almost impossible to live in the woods with them. Every prospector has all kinds of oil and nets to protect himself, but he suffers all the same. Thousands of men are suffering torture continually, and hundreds have even felt their work and returned to the towns for a week or so. Many of these have come from the woods or from the Montreal River District.

The man who returned only a day or two ago, speaking of conditions existing in the district about Bear River, states that a great deal of prospecting is being done, but development work is being done chiefly along the shores of the Montreal River for about three miles inland. Beyond that he says that there is little development work done so far. In the fall there will be greater evidence of what is being done in the depth of the woods. The extreme heat is rather severe on the prospectors while travelling for miles in the unbroken forest. Every mile of travel tells hard on them.

The indications in the country, he said, were the very best, but even yet, he states, that it is difficult to tell what has been found. There are in James Township some excellent looking stringers, but whether they are just packets of silver or not is not yet known for sure. The dialhase formation is practically the same as in Coleman Township, while there is any amount of bloom. In fact, the general rock mining as in the districts around baltmising as in the districts around Cobalt that are now being mined. He only saw one property on which any shafts had been sunk, and that was on the Downey claims. This property covers 120 acres, and two shafts are now being sunk, one already to a depth of 30 feet, and the other about seven feet. Mr. Downey, he states, has one good silver vein, out of which some excellent samples had been taken, some of them assaying at an extra high percentage. Besides silver, there are large quantities of copper and iron in the district.

WANT MORE FARMERS

Hon. Mr. Monteith to Look Into Immigration Conditions in Britain.

It is said that Hon. Mr. Monteith the Minister of Agriculture, will shortly go to Britain to look into matters connected with emigration as it affects this province. Some difficulties have arisen in connection with the payment of the Dominion bonus on emigrants directed to this Province by special agents from Ontario. It is also thought that too many emigrants from the cities of the old land are being sent out, whereas there is a great demand from all parts of the Province from farmers who require particularly the services of men who are experienced in farm work.

A POPULAR PASTOR

The Cobourg Sentinel-Star has this to say of a former Peterborough pastor.—Last week Rev. S. J. Shorey, D. D., arrived in town and assumed charge of the Methodist church, officiating at the Wednesday night prayer service, and at the two services Sunday. Rev. Dr. Shorey is a strong speaker with easy delivery, and his addresses contain sound thought and helpful service. On Sunday evening at the close of the sermon, he told his audience the line of work that he had laid down to do, and that his object was to do good, and help his parishioners to do good.

W. D. Flatt, of Hamilton offers the city an eighteen acre park if his property is taken into the city on favorable terms.

Hot Weather Injures Oats

Windsor, July 12. — Reports are coming in from the country that oats are injured on account of the hot weather. A grub that is attacking the oats has also made its appearance in the down-river district, and one farmer, near Petit Cote, says his crop will not be worth 25 cents an acre.

Delegates to High Court Were Chosen

At the meeting of Court Chemong No 530, I.O.F., the following were chosen as delegates to the High Court of Eastern Ontario, which meets in Ottawa on August 21st and 22nd, Bros. A. Allison, G.R.C.R., Thomas Dale, C.D., W. G. McKee, V.C. R W H. G. Armstrong, and Companion Wallace; also High Officer Bro. D Wallace, P.C.R. The alternate delegates are Bros. F. C. Rooke, G. W. Powell, N. A. H. Moore, and Wm Miles.

The work of Bro. A. Bradshaw, D. S.C.R., resulted in twelve applications being received and considered by the Court, and quite a number were then initiated by Chief Ranger Bro William Miles. A large initiation will again take place at the regular meeting on July 25th. Further arrangements were also made regarding their excursion on Labor Day Monday, September 2, and the chartering of the new spacious steamer Otonabee, has now been completed

VERANDA COMFORTS.

Novel and Luxurious Hammocks For Warm Days to Come.

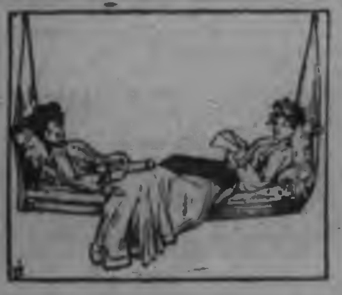
SOME LIKE INDIAN CANOES.

Equal to a Bed In Comfort—Having an Elastic Cushion Supported by Laced Webbing—Pillows Filled With Cotton Felt to Match Hammock.

"What's new in up to date hammocks?" I asked the makers of the finest hammocks in the land.

They showed me a sample. It was something like an Indian canoe, white, though with dainty criss cross work along either side. There were the cushion and footrest—everything but the trees or the piazza on which to swing it.

"You remember the old style double up hammock," he remarked, "that gave one aches instead of rest? Then, didn't you, like the rest of us, wish for a hammock in which you might lie out straight on a soft, elastic cushion? There you are! Even the cushion has creature comforts. It is supported by a laced webbing of exceptional elasticity, creating the most comfortable bed hammock ever devised. Then, too, it has exceptional beauty and is very ornamental. There is, in addition, a canvas and corded bottom, so that any stretching can be taken up."



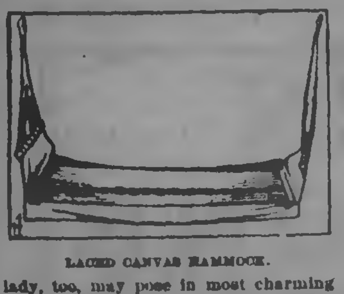
SOLID COMFORT.

The manufacturer hailed from Michigan, where people preferred their hammocks on their porches. Consequently it didn't take the wisdom of a Solomon to guess that the next thing he'd show would be porch hammocks.

"Now, then, here's a beauty for porch use. It occupies only the length of itself"—I didn't suppose it could do more—"six feet two inches long, thirty inches wide. None of the ungainly ends of the old styles, which take up more room than the part you use."

He paused for a moment.

"For a little higher price, say up to $20, there are hammocks from the finest grade of green denim—both the casings and cushions, that is. The casings are double thickness and four ply at the corners. The ends of these hammocks form a most comfortable back rest, against which sofa pillows can be arranged with artistic effect. Four persons can sit comfortably at one time, leaning against the ends. A lady, too, may pose in most charming attitude in these hammocks. There are pillows to match the hammock at $2 apiece—and the whole hammock for $20."



LACED CANVAS HAMMOCK.

But he had not finished. There were hammocks warranted to outwear ten of the ordinary hammocks—good, in fact, for a lifetime. There were cushions filled with layer cotton felt, so that they could not get lumpy, hard or misshapen. All were thoroughly tufted, most of them decidedly handsome. The higher priced ones, we learned, were filled with curled hair.

Turning to Buttermilk Drinking.

Food is bound to be a topic for discussion when women get together, it is said. They talk of the favorite dishes and drinks of each; of the merits and demerits of various restaurants and so on. They boast of their knowledge of the art of cooking and of their joy in eating. So it must be a dreadful blow to housekeepers to hear they must feed their families on buttermilk if they wish to be fashionable. The Roosevelts have taken up the idea. In the White House, frapped buttermilk with tiny cubes of pineapple, bits of orange and berries is served. Out at Friendship, the summer home of John R. McLean, the president, on a ride, stops at the farmhouse for a glass of buttermilk. Frozen buttermilk, long appreciated by the epicures of New Orleans, has been introduced in the north. It is sweetened only slightly and the tart flavor is not lost.

MARRIAGE MEDAL.

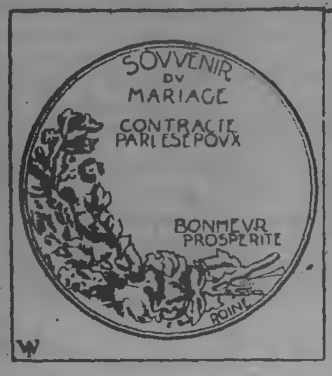
Now In Vogue, It Is Done In Silver or Some Precious Metal.

Now it's the marriage medal.

It is not conferred by some society for the promotion of the conjugal tie.

Rather not. Indeed, those interested order the medals made. The groom gives the medal to the bride, or vice versa, or a friend may send it as a gift.

Of silver, about two inches in width, the marriage medal is a novelty worth considering if exquisitely done. It is a French idea, and the man who originated it was for years connected with the Paris mint. Classic figures, as a rule, adorn the medal, though special designs may be ordered showing the portraits of husband and wife. On the other side there is likely to be a laurel wreath, together with the words "Souvenir de Mariage," the date, the names of the contracting parties and then some good wish, such as "Prosperite," "Bonheur," or the like.



MARRIAGE MEDAL POPULAR IN FRANCE.

Next summer one may expect the engagement medal. Some girls might make an interesting collection of medals.

These will no doubt be wreathed with forgetmenots and adorned with cooing turtledoves hovering above a new nest.

E. J. Roine, who introduced the idea also has a reputation for portraits on silver in relief. These range from the size of a quarter to large panels and plaques.

THE MONOGRAM FAD.

Everything That Can Show a Name Does So.

To the ultra fastidious the proclaiming of one's identity to the public by means of monograms on every article of apparel and adornment may appear in somewhat poor taste. It is the fashion of the moment, however, and, like other fads and fancies, may be modified or exaggerated at one's own discretion.

Everything that can show an embroidered name does so, and there are the daintiest designs for underwear, those in which flowers appear being most liked. Collars, chemisettes, gloves, the long chiffon scarfs, the draped veil, fan and even the undersleeves, when these are put into a band, are also inconspicuously lettered.

For the purse, card case and pocketbooks there are initials and monograms, as also larger ones for larger articles. These monograms are made in gold, silver, gun metal and enamel.

They have tiny prongs at the back with which to attach them to the article as desired, and at some places one may have one's own design made up by a trifling increase in expense. Many a gift this year consisted of a set of initials, three sizes—two of each—nicely put up in a leather case ready to be applied to desk pad, engagement book, traveling case or to any of the hundred and one articles for which they might be suitable.

Then there are the more expensive jeweled monograms, each letter consisting of solid stones. A beautiful effect is produced by one letter of turquoises, another of topazes and a third of brilliants.

Enameled letters are much less expensive and for general use prettier. A recent bride received as a gift a set of six initial plates. They were in script, the three letters being made of sterling silver intwined with tiny blue and white enameled forgetmenots with rhinestone centers.

Dimity For Little Miss.

Dimity, ever associated with the children's wardrobe, comes in especially pretty designs and colorings this season and made up in a simple model, with a lace tucker caressing the plump little neck, is an ideal frock for general warm weather wear.

It launders so well, too, and, though sheer, is really durable. A dainty little dress seen recently in a shop was of pink dimity with a tiny white figure. It had a full skirt taken into the belt, with groups of small side plaits, tucks and a hem being the finish on the bottom. The waist was a simple surplice, the front edges tucked as they met a V of fine nainsook insertion sewed together with veining. The belt was of fine nainsook beading threaded with black velvet, and the bands confining the puff sleeves corresponded.

In warm weather the small yoke could be removed, and the frock would be decidedly pretty and comfortable.

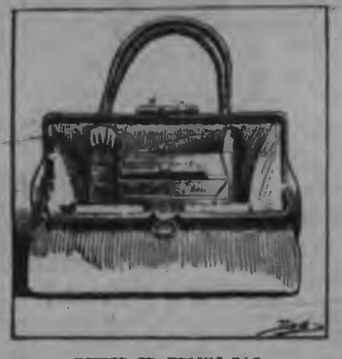
IN FASHION'S REALM.

Traveling Bags With Leather Back Brush and Comb.

USEFUL ON SHORT TRIPS.

Smart Alligator and Seal Skins In Golden Brown Are Popular This Season. Hand Bags Are Small, Yet Large Enough to Hold a Few Clothes.

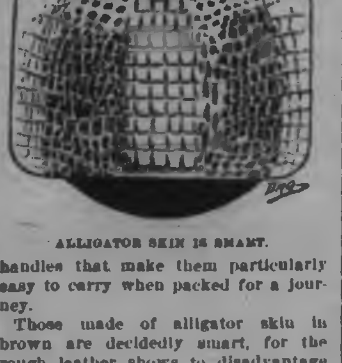
Traveling bags, only a trifle larger than leather purses used for shopping, are now fitted with small brushes, combs and toilet boxes, so that they are convenient to take on short trips out of town when one needs only a change of linen, etc., for the toilet articles are so neatly and closely held together on the sides of these miniature valises that there is room in the bottom for a few small pieces of clothing.



FITTED TRAVELING BAG.

The combs and brushes as well as the boxes, bottles, etc., are all incased in leather to match that of which the bag is made and consequently are decidedly practical for train or boat travel; then, too, they are especially desirable because they need not be handled with such care as ivory, wood or metal backed pieces.

These bags, that are half purse, half valise, seem to be popular in two shapes, one of which is almost a square, the other an oblong design. Both styles are finished with metal clasps and strong two piece leather handles that make them particularly easy to carry when packed for a journey.



ALLIGATOR SKIN IS SMART.

Those made of alligator skin in brown are decidedly smart, for the rough leather shows to disadvantage in the golden tints of this favorite color.

Less showy, but perhaps more serviceable, are the small sealskin grips. In light and dark browns they are neat and in black are much liked by elderly women, who prefer the darker shades of leather for traveling purposes.

AMY VARNUM.

A Simple Bib.

Attractive bibs for the baby may be easily and quickly made from heavy white linen or pique, finished with a buttonhole edge and worked with a simple design in eyelet embroidery.

A pretty scallop may be drawn by using the edge of a small spool of cotton, about No. 100, for a guide. It may either be plain, traced both on under and outer edge, or the latter can be subdivided into three tiny scallops to make a slightly more elaborate edge. Pad this with darning cotton and buttonhole in a fine mercerized cotton.

Becoming Mourning.

Fashions in mourning have undergone a very great change since the wonderful improvements that have been made in crape. In the first place, it has been successfully waterproofed and is no longer expensive wear. Then the soft finish crape is particularly well adapted to the picturesque and artistic gowns of the present day. Instead of the gowns being trimmed with folds and volants of crape this season entire empire and empress gowns will be worn of this soft and graceful crape.

Small Himself.

"The trouble with that man is that he takes small matters seriously."

"Yes," answered Miss Cayenne, "but you could not expect him to do otherwise without sacrificing his self esteem."

FOR THE HOSTESS.

Piazza Teas Are Popular and May Be Ornamental.

Now that the warm days are at hand a very enjoyable form of afternoon entertainment is the piazza tea. Let your own circle of friends know that upon a certain afternoon of the week you will be glad to receive them and that a cup of tea and a "bite" may be expected and see how generally your invitation will be accepted.

It is no longer merely a cup of tea and a slice of thin bread and butter that may be expected between 4 and 5:30 o'clock. Jam has been added to the list, and often hot Scotch scones and English muffins. Beside the tea table proper there stands usually a sort of rack table, pyramidal in shape and having three shelves, one above the other and round like plates. Each one is then covered with attractive china holding some fascinating biscuit or cake. Jam of one or two kinds is suggested in between them, and after the hostess has ascertained which jam and biscuit her guest prefers she spreads it for him herself before passing it on a small plate. This little attention appears very gracious.

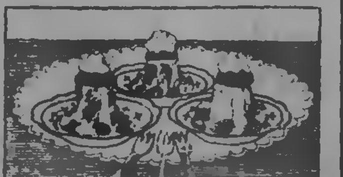
Among the biscuits those of "health food" reputation are often found, and the jam is spread over them to add to their somewhat questionable tastiness. Other hostesses have fine, small flat wafers of whole wheat covered with chocolate in their own kitchens before serving. They are then above reproach to pass with tea. The biscuit itself is digestible, the chocolate tasty and nourishing. Biscuits covered with cheese, on the contrary, while highly agreeable to the taste, are avoided by those hypercareful about their diet.

Sliced lemon, which is preferred in general to cream or milk with afternoon tea, has also a little extra trimming. From two to three cloves are stuck in the soft part of each slice with the object of giving an extra flavor to the tea. It is desirable, however, to test the brand of tea with the cloves before serving it to friends, as some blends of tea are affected much more agreeably by the addition of cloves than others. Again, sliced limes are served instead of lemon with delicately flavored teas. By many they are liked exceedingly, while others regard the innovation leniently as one of the season's novelties.

When cake appears at afternoon tea the fashion rages for a rich pound cake, showing through it many large raisins. Europeans invariably refer to it as "American plum cake" and regard it as a specialty of this country. In entertaining foreigners, therefore, it is perhaps the most acceptable cake to offer.

Strawberry Ice Cream Panache.

The term panache is given to a preparation made up of two kinds or more of the principal article, in this case ice cream and whipped cream. This dish might also be called individual strawberry charlotte glace, the ice cream being molded with lady fingers. To prepare this dish, cut lady fingers in halves crosswise; set five pieces or more into a paper case, then fill the case with ice cream to the top of the lady fingers (put the rounded end of the lady fingers at the bottom of the mold, and it will be at the top of the cream when unmolded). Set the filled cases into a mold or pail from which salt water may be excluded. By putting a paper between two or more layers of cases can be put into one mold. Cover carefully and pack in equal measures of ice and salt. In about an hour unmold the cases on to small plates. Have ready (for eight) a cup of cream, half a teaspoonful of vanilla and three level tablespoonfuls of sugar, beaten firm. Pipe a little cream on to the top of each mold of ice cream. On this set a macaroon and pipe a little cream above it. Also pipe cream around the base of the ice and decorate the cream with whole strawberries or slices of strawberries.



LITTLE KITCHEN HELPS.

Orange marmalade makes a very tasty accompaniment for boiled ham.

Add a teaspoonful of curry powder to the cream sauce in which macaroni is baked.

Stew a pound of prunes with pot roast and note the fine flavor imparted to the meat.

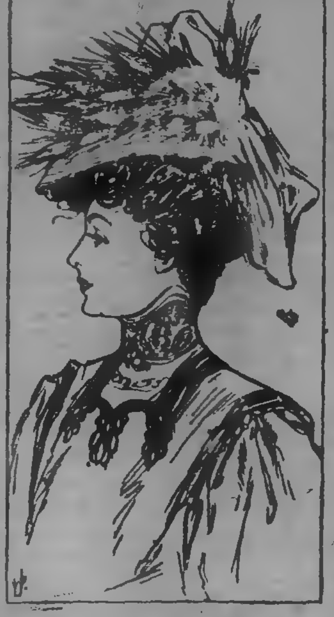
Good macaroni is of yellowish tint, does not break readily in cooking and swells to two or three times its bulk.

Bananas should not be put into a refrigerator—in fact, they should never be allowed to get colder than 60 degrees. A chill turns bananas black, prevents their ever ripening properly and renders them unfit for use.

A MILLINERY HINT.

A Dainty Little Hat From Gay Paree For the Summer Girl.

This jaunty little chapeau of natural colored straw has a very high crown and narrow, slightly drooping brim. Around the crown is draped brown malines, which is almost concealed by the sheaf of wheat which surrounds it. The wheat is in gold and brown, with green leaves, and the stems are caught together with a large bow of soft pale blue ribbon. Another bunch of the wheat is fastened underneath the brim at the back and hangs down over the hat. The picture of this hat is reproduced from Dress, the artistic fashion magazine.



GOLDEN WHEAT AND BLUE RIBBON.

VINES FOR THE PIAZZA.

Cinnamon, Akebia and Hops Are Favorite Varieties.

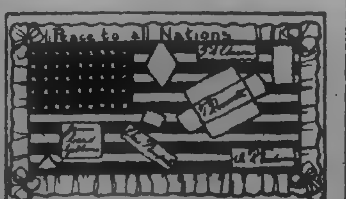
Cinnamon vines, with their bright green leaves and spicy blossoms, are a nice thing to mix in with other vines around the house. They endure summer heat very well. The cinnamon vine grows rapidly, and the leaves are glossy and heart shaped. Buy the roots. The name is Dioscorea batatas.

Akebia vine grows well in the mountain regions of the country. It has pretty, small foliage of dark green and fragrant flowers of a violet brown or purple.

Hops are a tough and yet attractive vine. One kind has bright golden yellow foliage. Who that was brought up where Irish servants made the bread does not recall the smell of boiling hops for potato yeast? Now bread mostly comes from the bakery, and the bakers forget even the salt. Fragrant bread made from hops and potato yeast is a thing of the past. We do not have time nowadays. Hop vines may be grown over any rear building, kitchen porch or trellis and are not troublesome.

Peace Pillow.

On exhibition in a prominent shop in New York is the original of the accompanying illustration, styled "the international peace pillow." The value has been placed at $10,000, the distinctive feature of the decoration being the autographic inscriptions of celebrities in this and foreign countries, President Roosevelt's signature being conspicuous. The linen upon which the autographs are written is a portion of a sheet which was used by Napoleon before he was banished to St. Helena. The pillow is fashioned from satin in the colors and design of the national flag. The proceeds from the sale of the pillow will be used to establish a home for young working women on small salaries.



Kitchen Linen.

The kitchen department should receive the same careful attention that is lavished on the more showy table linen.

The homely things of the kitchen may not be quite as apparent to your guests as the napkins and doilies, but there is a great peace and self respect for the housekeeper in the knowledge of neat piles of towels and dusters.

A dozen crash towels of two grades, coarse for kitchen utensils and finer for china; a dozen glass towels for silver, glass and porcelain; a half dozen heavy crash floor cloths; a half dozen dishcloths; a dozen dusters of cheesecloth or, as some greatly prefer, silkaline; a half dozen roller towels; two or three canton flannel bags to pin over the broom in dusting polished floors, and three chamois skins for polishing silver or brass, all these hemmed by machine if need be, by hand if possible, and marked with red cross stitch in a uniform manner—all these are essential to neat work in the kitchen.

Beauty Won by Proper Breathing.

If you want to be fully developed, with an easy grace of motion that tells of the perfect control of every muscle, then take to rhythmic breathing. It will make a new woman of you. The hollows in your cheeks and your neck will fill up as if by magic. The increasing heaviness of your walk will disappear. You will acquire a complete command of your body.

Any flabbiness or angularity comes from breathing with only the upper part of one's lungs. Double chins and other deformities are due to the same causes.

A clever woman doctor advocates the corset, though she deprecates tight lacing. She believes the support helps to educate the muscles. Support where it is needed, no constriction, good food, plenty of fresh air and a complete understanding of how to breathe properly would result in something very nearly approaching absolute physical perfection.

Breakfast on One Burner.

A particularly convenient contrivance for housekeepers who get their breakfast over one burner stoves is a little toaster which costs 25 cents and holds on its sides four slices of bread.

On top of the invention a pot of coffee can be made or eggs cooked, and it may be stated that an excellent imitation of the poached egg of the chef may be had by boiling an egg soft, breaking it on top of a well buttered piece of toast slightly softened by hot water and sprinkling pepper, salt and tiny bits of butter over the egg, says Gas Logic. It does not look just like a poached egg, but tastes just the same and is far less troublesome.

Care of Brooms.

Brooms dipped for a few minutes in boiling suds once a week will last much longer than they otherwise would.

They should immediately afterward be plunged into cold water to stiffen the straw. This weekly bath is an excellent thing, for it so thoroughly cleans this dust gathering implement. If a housekeeper will take the trouble occasionally to clip the edges of the straws, the cleansing powers will be improved. This is because constant use sharpens the ends, and they do not gather the dust as well as when square, their first condition.

MINING PAPER
FREE

If you are at all interested in mining, or if you would like to know anything about mining and the development of mining properties, you cannot well afford to be without "Spear's Mine Development."

"Spear's Mine Development" describes legitimate, honest mining. It contains information about the Larder Lake, Montreal River, Round Lake, Lake Abitibi, Cobalt, and Northern Ontario Mining districts, also the great mining districts of the United States. It will be sent FREE, postpaid, to all who write for it. Just ask for "Spear's Mine Development," by dropping a postal card or letter to the agents named below. WRITE TO-DAY, A. M. Cottrell, and Co., 138 North Avenue, Plainfield, N. J.

CHOICE OF TWO EXCURSIONS

Toronto or
Niagara Falls

Thursday, July 25, '07

The Durham Old Boys announce another of their most enjoyable annual excursions as follows:

Peterborough Train leaves 5.05 a.m. Fare to Toronto $2.05. Fare to N. Falls, including G.T.R., steamer and electric railway via famous Gorge Route, $2.20

Millbrook—Train leaves 5.35 a.m. Fare to Toronto $2.05. Fare to N. Falls, including, etc., $2.20.

Garden Hill—Train leaves 5.55 a.m. Fare to Toronto $2.00. Fare to N. Falls, including, etc., $2.20.

Children 5 to 12 half fare.

All tickets to Niagara Falls are good returning on all trains up to Saturday night.

All tickets for Toronto good returning on all trains up to Friday night; or those wishing to return Thursday night may do so on special train leaving Toronto immediately on arrival of steamer (about 8.30.)

Light lunch will be given all excursionists by the Natural Food Co, also permission to inspect their magnificent factory.

Don't miss the best excursion of the year. Every arrangement complete for seeing all the sights to the best possible advantage.

For further particulars address Thos. Yellowlees, 23 Division St., Toronto; Jas. L. Hughes, City Hall, Toronto; J. H. H. Jury, Bowmanville.

What Having No Newspaper Means

Hark to the Experience of Butte, Where None Was Issued

Cedar Rapids, Ia., July 13.—"Never has there been in this country such convincing evidence that the life and prosperity of a city rest largely on its newspapers, as was exemplified in Butte, Mon., a city of 90,000 people where for thirty nine days, the newspapers all were suspended because of labor troubles," declared Arthur B. Bailey, a New York broker, who was here this week, en route home, after a trip through the Northwest."

Mr. Bailey says the spring stocks of goods were not more than one-quater disposed of. Business men admitted they never before half appreciated the value of newspaper advertising. The circular letter and handbill brands of exploitation were tried, but proved dismal failures.

The inferiority of billboard advertising to the daily newspapers was attested by the theatres, which languished for patronage, because the public was deprived of reliable information concerning the plays.

The stock exchanges were hard hit. Outside investors refused to take serious account of the circulars purporting to give correct quotations and held back, awaiting the guarantee of accuracy which goes with the recognized and reputable daily newspapers.

"Wild rumors filled the air," Mr. Bailey said, "which had a depressing effect on business in general. Malicious stories were circulated. It was reported that the leading grocer had failed for hundreds of thousands of dollars. The owner of the largest department store in the State was said to be curtailing his business and his solvency was doubted. As a matter of fact, the merchant was laying off clerks by the score because the absence of newspaper advertising had left his aisles empty.

"It was rumored that a former mayor had killed himself; report had a prominent brewer killed and he had to hasten home from a winter resort to convince his friends he was alive. Rumor divorced a dozen couples and started unfortunate stories the newspapers were afterwards obliged to deny. Rumor, in short, provided conclusively the service which newspapers perform in keeping the people informed of the truth.

"I you want to see a chaotic condition go to a city where there are no daily newspapers issued for a month or more," said Mr. Bailey in conclusion.

AN INTERUPTED TRIP

The relative merits of steam and gasoline as motive power on yachts has long been a moot question. Mr. J. B. Tudhope's steam yacht, the Seusie, with a party of townsmen on board bound for the lift lock opening at Kirkfield on Saturday morning, has something go wrong with her machinery, and the passengers had perforce to return to land and take the train to their destination. Messrs Croker, Thompson and others in gasoline launches made the trip without mishap, and have since been giving the gallant skipper of the Seusie the merry ha-ha over what they claim to be a signal proof of the superiority of gasoline over steam.—Orillia News-Letter.

Should Contribute to Upkeep of Navy

Navy League Regrets Position Taken by Canada

At a meeting of the Executive Committee of the Toronto branch of the Navy League, at which His Worship Emmerson Coatsworth, Mayor of Toronto, in the absence of the president, took the chair, the following resolution was unanimously passed,—

"That the Executive Committee of the Navy League, Toronto Branch, desires to place on record its regret at the position taken by Canada at the late Colonial Conference, which prevented the passing of the following resolution, which was proposed by the Hon. Dr. Smart, Commissioner of Public Works, Cape Colony.—

"That this Conference, recognizing the vast importance of the services rendered by the navy to the defence of the Empire, and the protection of its trade, and the paramount importance of continuing to maintain the navy in the highest possible state of efficiency, considers it to be the duty of the Dominions beyond the seas to make such contributions towards the upkeep of the navy as may be determined by their local legislatures—the contribution to take the form of a grant of money, the establishment of a local naval defence, or such other services, in such manner as may be decided upon after consultation with the Admiralty, and as would best accord with their varying circumstances."

"And to express the opinion that the request made by Canada to Great Britain to support the All-Red Steamship lines (a project first advocated by this branch in a memorial to the Canadian Government in 1896) would be more consistent, if accompanied as originally suggested by this branch, by an offer of some adequate preparation on the part of Canada to assist in the protection of her own ocean borne commerce of which upwards of two hundred millions of dollars in value (exclusive of Canadian shipping) is yearly exposed to the risk of war on the high seas.

"And further that this Executive Committee looks forward with confidence to the establishment in Canada of a system of local naval defence, to co-operate with the Royal Navy, on the lines indicated by the first lord of the Admiralty at the Colonial Conference, and assented to by the premiers of the self-governing colonies other than Canada."

GALT OLD BOYS GREAT RE-UNION

Several From Peterboro' Will Will Attend Festivities Next Month

Messrs D. Hughes Charles, W. McIlroy Chas. R. Banks, and other former Galtonians, now residing in Peterborough, will attend the Old Boys' Re-union in Galt next month.

The reputation of the town of Galt for conducting a demonstration on a large scale, is well known from the nature of the celebration on August 7, 8, and 9, and the character of its citizens promoting it. It is an assured success from the very start. The occasion marks the 50th anniversary of the incorporation of the town of Galt and former citizens are expected in large numbers from all over the continent.

The carnival itself will be of unusual interest. The celebrations will last for three days, and will be opened by a huge trades' procession, embracing numerous handsome floats, six celebrated bands, etc. Several companies of vaudeville performers have been engaged, and at night the town will be illuminated by an extensive electric display. On the second day an Eastern League championship baseball match between Toronto and Buffalo, will be the chief feature. Music will be furnished by numerous bands from different parts of Ontario, and altogether

Peterboro's Water Works System Receives Considerable Praise

What the Lindsay Commissioners Think of it—The Courtesy Shown the Visitors Much Appreciated—Our Splendid Fire Equipment.

Recently Mayor Vrooman, Water Commissioner Brady, and Supt. Hammond of the Lindsay water works, visited this city on the invitation of the Peterborough water works commissioners, and also to witness the test of Smith's patent tapping machine. The Lindsay Watchman-Warder of this week, says the commissioners in that town came in touch with much useful and interesting information.

After the Lindsay Commissioners had watched the very successful test of the tapping machine they were, says the Watchman-Warder, taken charge of by the Peterborough officials who certainly gave them a very interesting and instructive time by all accounts.

First the visitors were given a view of the city, with its many fine residences and public buildings. A trip was also made to the power house and plant of the Water Commission of the city. This is located about a mile and a half west of Peterborough, on the Otonabee River Like Lindsay's plant, it was first erected and operated by a private company, but later was taken over by the corporation.

THE PETERBOROUGH PLANT

The power house is very complete in every detail. There are three engines, each with three cylinders, to force the water to the mains. Water is sent to all parts of the city, by direct pressure, no stand-pipe being used. All the power for the driving of the engines and the other operations necessary, is secured from the dam erected by the private company that commenced the enterprise. This means much to the city, as it causes a great saving in expenditure for fuel, etc., such as Lindsay has to make for the operations of its plant As a consequence of this saving in expense, Peterborough citizens enjoy a cheap water rate or the service given. In addition to the three engines now in use, it is the expressed intention of the Peterborough Commission to install a fourth engine this fall.

No meters are used by the Peterborough Water Commissioners on the ordinary services, only very large users, as in the case of one or two factories being put on meter. All private houses and ordinary buildings receive the service at a flat rate the price being very moderate.

There are between 25 and 30 miles of mains in Peterborough. The Commissioners also have supplies now on hand for the installing of two more miles of mains, the work to be done this season.

The corporation of the city of Peterborough pays its Water Commission $1,500 a year for the water used in sprinkling the streets of the city, and over 200 hydrants, for fire protection, etc., are in use also at the rate of $40 per year for each hydrant, making another $8,000 or more to the Water Commissioners from the city.

The Peterborough Water Commissioners have been very successful in their management this year, and have a nice comfortable surplus.

PETERBOROUGH FIRE SYSTEM

Peterborough has a large, commodious and up-to-date fire hall. It seems to be splendidly equipped throughout. A new fire alarm system was recently put in, the installation being done by the Bell Telephone Company. Twenty-five fire alarm boxes are in service on the system. Every day at 12.30 the whole system is tested. Each individual fire alarm box is tested thoroughly once every week. The electric energy for the fire alarm system is supplied from about 140 batteries. On the whole the system seems to be a very complete and effective one, and appears to work satisfactorily.

In addition fire engine is on duty at the fire hall all the time. This fire engine is quite ornamental but its use seems to be an exact equivalent, or nearly so, to the utility of Lindsay's steam roller. The road roller, however, can hardly be said to be as ornamental in appearance as the engine, so perhaps the parallel is not a good one.

There are two fine, well matched teams of horses kept in the Peterborough fire hall constantly, and seven firemen sleep in the hall each night Altogether the fire protection in Peterborough seems to be an efficient one, and several points might be of advantage to Lindsay for consideration.

Peterborough seems to be prosperous alright. About $650,000 worth of permits for new buildings have been issued this year already, and about $250,000 in addition is being spent in public buildings. The latter class includes a new Collegiate Institute, a Normal School, and the new armories, being erected by the Dominion Government.

At the meeting of the Lindsay Water Commissioners on Monday afternoon a resolution of appreciation and thanks was passed to the Peterborough Commissioners for the excellent usage and courtesy extended to the delegates from here on the recent trip.

High Level Bridge at Hunter Street to Relieve Situation

Will Allow Street Railway to Enter Ashburnham and People Will Not Have to Walk to Work—Manufacturer Gives His Ideas of the Proposition.

The petition of the people from Ashburnham, for a foot bridge across the Otonabee river, near the C. P.R. bridge has given rise to considerable discussion among the hard-headed, sound thinking business men of the city.

In the police court the other morning some forty-five residents and taxpayers, pleaded guilty to trespassing on the C.P.R. property, while crossing to and from their work. The people have no right to walk on the company's track, or over the bridge. They all know that, but to walk away around by the Hunter street bridge is a great hardship. But the city council is to blame for that.

A few years ago the C.P.R. offered to construct a foot bridge alongside their own bridge for $1,500 but the council turned it down. The aldermen were not far-seeing enough to realize that Peterborough was growing and would soon want more bridge accommodation. It is now up to this year's council to prove themselves better or worse than their predecessors. There is a great demand for a bridge. Will that demand be met temporarily, or will a permanent relief be given!

Yesterday the head of one of the city's large manufacturing concerns asked what the council was doing in regard to the petition. He asked if any solution to the problem had been offered. He was informed that the Board of Works had been asked to deal with the question, but as yet had not held a meeting.

"How would it work," asked the manufacturer, "for the city council to take a really serious view of this matter, and turn their attention to the Hunter street bridge and the street railway company? The people of Ashburnham must have a means of getting to the city by an easier route than walking to Hunter street. The many workmen who are employed in the Matthews Co., Cordage Works, C.G.E., and other large factories in the south end, cannot walk so far and do a full day's work Ashburnham needs a street railway service worse than any other part of the city. The distance from the east ward to the business part of the city is too far to walk and the city should endeavor to get the desired service for Ward No. 5. It is generally understood that the street railway company would gladly extend its lines, if it could get across the river, and the most feasible place to cross, and where it would be used the most, is at Hunter street.

Before a crossing can be made there, a new bridge must be built, as the present one will not even carry the steam roller. The day is not far off when the city will be forced, and on short notice, to replace the Hunter street bridge. At the present time the bridge is in a dangerous position. It is not any too safe to start with and the heavy and rapidly increasing traffic to and from the Quaker Oats Co., puts the lives of the citizens in constant danger.

"Another consideration is the work being carried on in the river by the Dominion Government. Provision is being made for boats to go up the river to the Quaker Oats mills, and a turning basin will be, and is now being built on the north side of the bridge. When the canal is open to Georgian Bay, which it will be, it is hoped, in two or three years more and the Quaker Oats Co. have erected their mammoth flour mills in the city, the traffic up the river to the mills, will be heavy.

"The Hunter street bridge today is stationary and only the very smallest sized tugs can go under. That means that before navigation is opened, the bridge will have to be either raised or a swing put in, and the latter would be very unsatisfactory.

"Hunter street is naturally well adapted for a high level bridge, and it is quite evident that no other can be erected at this point. The banks rise gradually and the foundation on which to place the steel work and piers, is solid. It could not be better.

"What I want to know is, would not the council be doing a public service, that would in the end, not only save money for the city, but give the people their rights, when they are due, if this Hunter street bridge proposition was carried through? It is going to cost the city I suppose, something over $100,000 but it will cost more than that later on, when it will have to be built. But, if the bridge was erected the street railway company could get across to Ashburnham and give that part of the city a service so badly needed. It would also run a line out to the lift lock and probably hasten the construction of the line to Lakefield."

"I do not propose that the city should pay the whole cost of the bridge, which will accommodate the street railway, as that company cannot help but pay a good portion of the cost. If the matter was handled properly, I firmly believe that the city could get out of the scheme at a very reasonable price. The city engineer has instructions to prepare plans and a rough estimate of the cost of the work, and he will, I understand, get at the work as soon as he possibly can. In the meantime, however, it will be a splendid question on which the aldermen may distinguish their statesmanship."

CHILD WAS TAGGED

How a Youthful Traveller Was Sent Out to This Country

Tagged, like an ordinary sack of flour, but very much alive, a curious little bit of baggage arrived in Toronto with the last shipment of English immigrants. This was little Arthur Horne, perhaps the most youthful of all the homeseekers leaving the Old Land, absolutely alone, to make his fortune in Canada. In the buttonhole of his coat was fastened the tag, on one side of which was his name, and on the other a sentence or two asking conductors and vesselmen to see that the little fellow arrived safely in Kingsville, where his aunt, Mrs. Atkinson, awaited him.

Apparently about five years old, the youthful traveller claimed to be nine. He told a newspaper man that he came from Liverpool, sailing on the steamship Tunisian. He was not at all down-hearted, and talked and smiled as cheerfully as if he were merely crossing the road for a friendly call.

About three hundred came with him, arriving in Toronto Saturday night and Sunday morning. Only about half of these remained in the city, the others going to western parts of the province.

BETTER THAN SPAKINNO

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 82, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are, it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.
